Dear Sir, -

I have to seknowledge the receipt of your letter of the 8th instant, in which you state that Miss Alberta G. Reid has tendered her resignation as Euros at the Cecilia Jeffrey residential school.

In reply I have to say that as Mice Reid is a permanent employee of this Department, it will be necessary to have her resignation accepted by Order in Council and in order that we may take this action she must forward her resignation in writing. Her resignation will be effective from August 51, and the money at her credit in the Retirement Fund will be forwarded her after that date.

I wish to notify you that our nurse at the Cecilia Jeffrey Indian School has resigned, and we have appointed in her place Miss Bessie Clare, a registered nurse of Winnipeg, I understand from the Rev. A. D. Mensies that the Department had agreed to pay the nurse's salary while the work was being carried on in the Cecilia Jeffrey building. Miss Reid, the former nurse received from you, I think, \$57.00 per month, but we could not secure a thoroughly qualified and competent nurse for less than \$60.00 per month. I presume that you will still continue to pay the salary of the nurse, and would like to ask if you will now pay the \$60.00, or if our Board will be required to meet the difference.

I also wish to thank the Department for providing the pillows for the Birtle Indian Boarding School. I am sorry that this has not been acknowledged sooner, but my absence from the city has prevented it.

Would you let me hear as soon as possible about the nurse's salary, that I may notify Mr. Mensies.

With reference to the last parageaph of your letter of the first instant, concerning the site for the new Geeilia Jeffrey Indian Residential School, I wish to inform you the Department does not consider it advisable to consult the Rev. Mr. Mensies. As you are, no doubt, aware, it was decided some time ago that another principal should be appointed for the new institution. As the new insumbent should be ready for duty when the building is under construction, there is no reason why your Society should not make a selection and nomination immediately. If a suitable gentleman san be secured without delay, it would be well to have him meet with Rev. Mr. Patterson and our Mr. Orr when the final selection of the site is made. If possible, your nomines should be experienced in institutional activity and capable of handling a staff and superactivity and capable of handling a staff and supervising the various phases of our educational work.

As regard the schools he think,'s the same as the other Chiefs and thinks a great deal of what the Government is doing to educate the Indian children and is very thankful. to the Government for helping them. But he has a grievance against the Roman Catholic School. His wife and three of his sons have been in school but he does not feel that they have learned anything and what little the boys know he has thught them, particularly as regards hunting and trapping, and he has had hard work to teach them to trap as they were fairly old when they left school and should have learned this when they were young, but they were in school and there the children did not learn anything about hunting. The children could not read or write well when leaving school the youngest one of the boys went to school when he was fixed he is now 17 Surely he should have been able to resulant

decide for himself. Is it possible to teach children a better way to earn a living? He hears at the Occelia Jeffrey they are taught trades. This is not done at the Oatholic School. The boys in leaving school are not fitted to take up work in town and make a living. Oould not they be taught some trades?

Mr. Paget said he would write to the Department what the Indians said about the schools.

Chief Gardner said he hoped to see the new school filled with children and when the children were at the two schools in Kenora the parents would come to see them occasionally, but now the Indians have no Reserve or camping ground at Kenora and no house to live in when they came in the Winter or Summer. If they camped on a white man's land they might be and are often sent away. Could not some place be got for the Indians to stay?

Mr. Paget then said that the Agent had been speaking to him about this and the Department would see if anything could be done. The Agent has spoken to Mr. Paget each year about this and the matter would be taken up.

Ohief Kejick wanted to know what had been done about the old school, Cecelia Jeffrey School, at Shoal Lake. Mr. Paget informed him that the school would be closed and a very much better one built at Kenora. Chief Kejick said the school should be left as it is as there are enough children at Shoal Lake and North West Angle to fill the present school. When the school was first built there, the other Chiefs were not in favor of it, but the Shoal LakeIndians were and that was why the school was built there, and the Indians were told that as long as the Indians were there, the school would be there, and they wished to have it kept there. He said he had 30 children from his own Reserve now attending the school, or would be able to attend shortly.

Mr. Paget said the Department were building a new school at Kenora as the Cecelia Jeffrey School was not large enough and was owned by the Church, and not the Department. Also that a larger school near town would cost much less to maintain and being nearer town the children would have a better chance to learn the white man's ways, etc.

Ohief Kejick, Shoal Lake Band No. 39, said he agreed with what the other Chiefs had said about the children. That they did not know how to make a living when they left school and would like trades taught. In the old days trapping was different. Now the only way the Indians can make a living is to work like the white man and owing to the fure going through white men trapping and the raising of waters, it made it harder for the Indians each year to make a living.

Ohief Kejick said he had eight children from his Reserve in the school and when the children left they did not know anything and could hardly speak English. They work hard to see that the children attended every day and one of the troubles was that the children were made to work at cutting troubles was that the children were made to work at cutting wood around the school and not in the classroom, and even the very young ones did this. He thinks this is wrong as they go to school to learn to read, write and speak English. He had no fault to find with the new school being built and would

lia Keg do his best to send the children from the Reserve. He said when the children left school there was nothing done for them, not even given a blanket. When the school was built they promised that when these pupils left school they should have a sewing machine or lumber for a house, or something given them to enable them to earn a living.

Mr. Paget promised to look into this for them and let the Agent know if anything could be done.

Chief Black Hawk, North West Angle Band, No. 33, said he was glad to hear about the school and had sent some children to the Cecelia Jeffrey School. He could not understand why the Indians were not consulted first as to understand why the Indians were not consulted first as to where the schools should be built, and he was not in favor where the schools should be built, and he was not in favor of it being built at Kenora. It should have been built at the South end of the lake nearer their Reserve. Mr. Paget the South end of the lake nearer their Reserve. Mr. Paget said the attendance of school children was compulsory the said the attendance of school children was compulsory the same as the white children if the Department insisted on them going, but up to the present they had not been compelled. The Department could not build schools near all the Reserves and had to decide on the best positions. The Department could not please everybody and the Indians came to Kenora more than any other place, and could see their children once or twice a year.

Chief Black Hawk said he did not understand the school was going to be built right close to the town but now thought it would be alright after hearing the explanation. He hoped the Department would get some land where the Indians could camp and have a house where they could stay to be called an Indian House.

Chief Thunder, Buffalo Bay Reserve, speaking through Chief Gardner. I won't promise to send all our children to school, but I am glad the Department is building a school and I would like to see the Indians use it. Can all Indians send their children to this school?

Agent Edwards. Roman Catholic children must go to the Roman Catholic School and Protestant Children to the Protestant school and pagans can go to either school.

Councillor Jim Kahkeeway said he had a girl who had been in school four years and she was deaf. Could she be discharged. Agent Edwards promised to look into this.

Chief Williamson said that old man Sinclair had a girl in school who had bad eyes, and the only trouble she had was when she was in the classroom. The Chief wanted this girl discharged. Agent Edwards said this girl had been to see a Specialist in Winnipeg last Fall and he would get the particulars, and if the Booter skid she should be discharged, he would see that this was done.

Chief Jim Williams informed the Agent that it was reported to him that at the Kenora school the children are made to kneel cometimes for hours at a time. This is called "sitting punishment" but is not really sitting but kneeling. The Chief thinks this is cruel and should not be allowed. Agent Edwards promised to put this in his report and make inquiries.

Dear Mrs. Strachast

May I remind you of the advisability of securing a saitable principal for the new Cocilia Jeffrey Indian Benidential School without delay. The building is now under comptraction, and I believe the new incombent scald be profitably engaged as from the first of the new year. I should be grateful if you would make a memination as seen as possible.

The Department is aporting a modern building, on a suitable site, at considerable expense. The preximity to the site of Lamore suggests that it will be visited a great seal by the general public, will be visited a great seal by the general public, and both the Obsert and the State should be desirous of conducting a well managed institution. Every energy should be best towards seening the services of a reverent gentleman with real especity for this important yout.

I visited the Cecelia Jeffrey Residential school at Shoal Lake, last week, and discussed the question of when the children should be moved. It was suggested 51r;that the school close on July 1st. instead of the 15th., and that everything be moved to the new building at that time. It might be advisable to give the children a slightly langer holiday this year to enable the staff to get their regular holidays, and to be at the new school, say a couple of weeks, before the children return, so as to get things in shape.

I will forward am inventory of the equipment etc. to be maved from the sold school, in a day or so.

milb at the Shoal Lake school, I persuaded the truents over 16 years of age, to return to the school for a short time; until I obtain their discharge for which I will apply in a separate letter.

While in Winnipeg I called on Mrs. Hutcheson, convener of the Presbyterian Committee. She will come to Kenora shortly to look over the new school, and make arrangements. We have had no one here representing the Church since the building startes.

Younneye seemingly never found occasion to critisise our School or its work, or to suggest any line along which improvement might be made. I speak of Mrs Mengies as well as myself for without her efficient oversight and eareful cooperation such sesults could not have been obtained.

As you are aware the Church's Board has expressed its hearty appreciationof our work and without my knowledge and months after my resignation has been given personally to their Secretary, the President and Secretary went to Ottawa and urged witherswal of the finding of the Department, being unable to find anything to justify it. Dear Mr. Mensies: -

Two people mentioned in your letter, as having been informants against you, are not the only ones who complained. I do not remember in any way saying that they were not wholly trustworthy.

At the present time your relations with the staff have appeared to me as always cordial; as are also your dealings with the Indians now. This is due, I believe, through your closer associations with them. I do not think through your closer associations with them. I do not think that you leaving the school should make any difference in your relations with your Church as I spoke well of you to your relations, who was here to see the new school.

You have very excellent business ability; although when you first came I did criticize your dealings with the Indians after complaints had been made by them. I am glad to say that you have now changed for the better in their opinion.

I am forwarding your letter to Ottawa, and if I receive any instructions I will follow them out. I cannot do anything further in this connection without hearing from them.

The forms for the school and hospital reports, etc. have already gone forward.

a sacrifice for him to consider this new position. From my chai liable information, you arechot likely to secure a better applivent for the position."

Mr. Alex McIntyre of Winnipeg in his report of the David Livingstone School, says "This is the most interesting and most promising school in the Brandon School system. To be successed ful in such a school one must have the missionary spirit..... It would be difficult to find a better man for this community than the principal, Mr. M.W. Byers. Mr. Byers knows his work, he labors for the best and in the best spirit, and the evident results achieved, speak of his success."

Mr. C.W. Webb, superintendent of schools in Brandon, writes that, "Mr. Byers has been principal of the David Livingstone School since 1923. He has done and is still doing excellent work. As a disciplinarian, Mr. Byers is firm and courteous as well as sym-pathetic and winning in his attitude to his pupils. As a teacher, he employs a cool, concrete method, moving at a rate of speed adapted to the need of his class and explaining their difficulties with clearness and patience... Mr. Byers is a good manager of his school and has such a hold upon his staff as to win their good will and enjoy their whole hearted co-operation.

I find that Mr. Byers was for five years official of school districts and rural municipalities in addition to his school duties. He was also a captain in the 229th battalion, and served oversess. Among all those who have applied for the position, he appears to be the most outstanding and I hope the department will see fit to confirm his appointment.

It was a great disappointment to me to receive word from your secretary that the building is far from ready and that the principal's residence is not complete, nor is there any immediate prospect of furniture for it. Gould you let me know if furniture for the principal's part could be sent on earlier than the or the school so that Mr. Byers could plan the putting in of the what ever is to be done before perhaps the older boys would be moved over from the old site. Could you give me as soon as possible, an idea as to when it may be ready. It means extra expense for our Board to have to produce quarters in Kenora itself for him and yet I do not see what else could be done. If he stays at the old school he will be of no use. We are asking Mr. Mensies to complete the school term as you suggest.

In view of the building not being complete and the extra expense this entails on our Board, could the Government see fit to give us any grant to help meet the situation. The two salaries and the housing and board will run into quite a sum of money.

Mr. Byers is very anxious to know if he should take his electric washing machine with him. It is too bad to trouble you with those details, but itis the first time that a new school and residence have been equipped for us for a long time and I have forgetten the details of the furnishing that the Government does.

would you kindly let me know if the appointing of Mr. Byers meets with your approbation, also if there is anything else which requires my attention that you knew of, would you be kind enough Sept. to mention it.

N 13. Ledian (33 D.), てい

April 10, 1929.

Dear Mrs. McKerroll:

Mr. E. W. Byers, of Brandon, for the principalship of the Cecilia Jeffrey Indian Residential School. I have read concerning this gentleman's qualifications with interest, and as his experience appears to prepare him quite well for our work, I am pleased to approve of his appointment.

The Department is quite ready to farnish the Principal's residence at any time, but there is no prospect of water supply or sewage disposal for a few weeks. If Mr. Byers and his family are willing to put up with a little inconvenience until the water is in the building, there is no reason why he could not take up residence at an early date and supervise the farming activity, accept the farmings as they arrive and look after the many details attendant upon a successful re-establishment of an institution of this type.

The Department is willing to bear a fair share of the expenditure before the new school is placed on per capita grant basis. It is our practice to allow about two-thirds of the total costs of the school management. When the school is opened, of course, a per capita grant is made for the surrent expenses. The work on the farm should be commenced at an early date, and the Department believes it advisable for Mr. Byers to visit Kenora, look over the situation and coeperate with Mr. Indian Agent Edwards in the selection of farmishings for his residence and in the commencement of the farm and garden activity.

The Department provides the necessary furnishings and equipment, not only for all the buildings, but also for the farm and garden. This, of course, includes the necessary live stock. However, Mr. Byers had better take his electric washing machine with him, as equipment of this kind is not supplied. Of course, the school laundry will be fully provided for. Mr. Byers should have a full discussion with Mr. Edwards in relation to all details of this character and he will be better prepared to decide what he should take with him to Kenora.

C. J. Bag. School, Indian Bay, Man., Aug. 9, 1929.

Hon. Peter Heenan, Minister of Labour, Ottawa, Ont.

Hon. Sir:

The Chief of Shoal Lake #40, two councillors and other Indians called at the School yesterday to inform me of the Chief's interview with you re the closing of the School here and other matters. They asked me to report to you and to the Church's Board under which I am working. They claimed to be in a position to speak for the two Shoal Lake Bands, the two Morth West Angle Bands and Buffalo Bay Band, and I have good reason to believe their claim is justified by the facts.

These Bands assert that they can practically fill the school and keep it filled and this is probably true as they have now 50 children in the school and a very considerable number have been kept out lest they should have to go to the new school. They assert further that they are all agreed that they will not allow their children to go to the new school, even if it means jail for refusal, but will willingly send all their children to Shoal Lake School if it is re-opened. They also urge that Mrs. Mensies and I remain in charge of the work here.

Let me assure you that I have no axe to grind in stating their case for the Indians. While appreciating the confidence of the Indians, we told them we

were leaving in any event. I may say, however, from my knowledge of the situation, after almost 6 years amongst them, that I consider they have a good case and are not making unreasonable request.

Why close a school accommodating 75 pupils when, if the new school be filled to capacity, 150 or 200 children in the agency will remain with no means of obtaining any education?

Why shut the door on the children of five Indian bands expressing readiness to send their children when so many others refuse to do so?

I do not know whether the Church would be willing to carry on here and at Kenora, but I do know the past six years has shown that the school, though small, can be run without undue cost as I have paid out of Maintenance Fund (per capita grant) four members of staff each year and am handing over a balance or surplus of around \$4000.00.

PERSONAL WORD

The Department of Indian Affairs, through a report of four years ago from the Indian Agent at Kenora, judged Mrs. Mensies and myself incompetent or worse, but the attitude of the Indians, the emphatic commendation of the Church's Board, the testimony of the staff and the record of six years would seem to justify the Church's refusal to make a change.

Should the School be re-opened, it would be very necessary to overhaul the building and make some more or less radical changes.

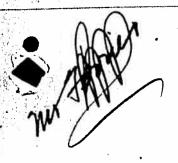

Yours very truly.

Dear Mr. Heenan:

enclosing a communication from Rev. Mr. Monsies.

Principal of the eld Cecilia Jeffrey Indian Residential School at Sheal Lake. I may say that this school is whelly unfit for educational purposes, as it is eld and constitutes a very serious fire hazard. It was on these grounds that the Presbyterian Church authorities represented that it must be replaced. The new building near Kenera is new ready for occupation. The eld building has been abandoned and nefurther Indian educational activity will be undertaken there. I have no doubt that the new school will be successful. I am returning Mr. Mensies!

MOL.

Yours faithfully,

Duncan C. Scott
