

4 GEORGE V., A. 1914

or 60 per cent of the number enrolled, which is considered good. The children of school age on the reserve, at the time, was reported to be 28, besides a few who were temporarily absent.

What impressed me as the distinctive features of the school were untidiness, and the absence of proper discipline—two conditions which make progress in such a place difficult, if at all possible.

Malagawatch Day School, Inverness County.

This school is in charge of Mr. Arsène Burns. On the date of my visit on March 7, two pupils were in attendance. The number on the reserve was 5, all of whom were enrolled and must have attended very regularly, as the register showed an average attendance of 4, or 80 per cent. Mr. Burns is a fairly successful teacher, and it is a pity that his services are confined to so few Indian children.

The school-house, being new and well cared for, is in excellent condition.

Middle River Day School, Victoria County.

Although Saturday is a holiday in all common schools in this province, Indian as well as white, I was enabled to inspect the Middle River school on March 8, through the kindness of its teacher, Mrs. MacNeil, who consented, at my request by telephone, to have the school in session on that date. There were 14 pupils present, out of 16 enrolled, and the average attendance then was 10, or 63 per cent. The classes were examined in the various branches of education usually taught in the Indian schools of Nova Scotia, and they showed satisfactory progress. The total number of pupils on the reserve was given me as 18.

The school buildings are in very good repair and present a creditable appearance. The school-house is well situated, conveniently near the main road, on high ground, with perfect natural drainage, overlooking beautiful Nyanza bay, one of the important indentations of Bras d'Or lake. A more healthy, suitable and attractive location could hardly be selected anywhere.

Eskasoni Day School, Cape Breton County.

I visited this school for the purpose of inspection on March 11, and found 5 pupils present. All the children of school age on the reserve, numbering 17, were enrolled, and the average attendance was 8.7, or 51 per cent. An examination of the few pupils in school showed that some progress had been made since my previous visit last year.

I understand that the teacher's health has not been good at times during the past year, which would account, in a large measure, for progress not being more marked.

I noticed a deficiency of books and other school requisites for the use of pupils.

The school-house is a new building, erected three years ago, and well designed for the purpose intended.

Sydney Day School, Cape Breton County.

My visit of inspection to this school occurred on March 12. Only 5 pupils were present on that occasion. The number enrolled was 20, with an average attendance of 12.6, or 63 per cent. The children of school age on the reserve numbered 30, as

SESSIONAL PAPER No. 27

reported, which would indicate that 33 per cent of them did not attend school at all during the year.

I do not feel disposed to judge of the actual standing of the Sydney school from the examination made of the few pupils present at the time, who acquitted themselves fairly well; but I fear that it does not hold the same advanced position it occupied two short years ago; and if so, the fact may be due to frequent changes of teachers recently, which could not be avoided. The present teacher took charge of the school on September 3 last, and she appears anxious to do her best. It is to be hoped that her efforts may prove successful.

The school-house is in very good repair, and the premises generally in a satisfactory state.

Whycocomagh Day School, Inverness County.

This school claimed my attention on March 14, for the purpose of inspection. There were 14 pupils in attendance; the register showed 27 enrolled, corresponding with the number on the reserve, and the average attendance was 14, or 52 per cent. The result of my examination of the pupils present was quite satisfactory, and gave evidence of progress. I was particularly pleased with the work of a class in mental arithmetic, whose members solved problems of a practical business character correctly, and with a readiness that surprised me; and it was evident that they had an intelligent grasp of what they were doing. The exercises in physical drill formed another feature in the work of this school, which was distinctly interesting.

Mr. John A. Gillis, the teacher, takes a commendable interest in having the school buildings kept in repair, and as a result they are in very good condition.

Salmon River Day School, Richmond County.

I went to Salmon River on March 26 to inspect the school there, but found it closed for the Easter holidays.

Shubenacadie Day School, Hants County.

This school was closed for four months previous to February 4, when it was re-opened; Miss Mary E. Ahern, a duly licensed teacher with several years of experience to her credit, taking charge. It has been in operation about six months altogether during the past seven years, and, therefore, the children attending it are yet only in the initial stages of their studies in the subjects prescribed for Indian day schools.

THE REPORT OF REV. J. J. RYAN, SUPERINTENDENT OF INDIAN SCHOOLS FOR NEW BRUNSWICK, FOR THE YEAR ENDED MARCH 31, 1913.

In New Brunswick we have at the present time 10 schools—an increase of one—since my last report.

These schools are situated in the following counties of the province:—

One in the county of Restigouche recently opened on the Eel River reserve. One in Kent county, Big Cove reserve. Two in Northumberland county, at Burnt Church and Eel Ground reserves. Two in York county, at St. Mary's and Kings-

clear reserves. One in Sunbury county, Oromocto reserve. One in Carleton county, Woodstock reserve. One in Victoria county, Indian Point reserve, and one in Madawaskka county, Edmunston reserve.

Big Cove Day School.

I visited this school on September 19, 1912, and found 12 children present; 7 boys and 5 girls.

The number of children of school age on the reserve is 50. The number enrolled is 23 or 46 per cent of those that should attend—and the average attendance since the opening of the school term, 12.

The reason for so poor an attendance is the fact that seven families were absent from the reserve and the further fact that the truant officer is careless in looking after delinquents, as in my visits to the camps during my stay, I found children upwards of 10 years of age who had never been to school.

Those attending are graded as follows:—

		Pupils.
Standard	I.	9
"	II.	6
"	III.	6
"	IV.	2

I examined those present, and, while a few did well in arithmetic and reading, there was not the improvement I expected.

With so few attending it is hard for the teacher to organize her classes. As there was some question as to whom the responsibility of keeping the school-house clean developed on, it was not in a very presentable condition.

The teacher is Miss Kathleen Sutton, who holds a first-class provincial license. She has now been in charge of this school going on two years, and I am somewhat disappointed that more progress has not been made. Yet, as she has had many difficulties to overcome, and now seems to have surmounted them all, there is room to hope that very much better results will follow her work here in the future, as she has the necessary ability and steadfastness to accomplish much good.

The teaching of sewing and knitting to the girls of age, is part of the work of the school, and talks on hygiene are given the children.

The calisthenic exercises prescribed by the department are also followed.

Some improvement was made to the building occupied by the teacher as a residence and the change should make her rooms more habitable and homelike and encourage her in her work. The school building, as yet, seems sufficiently roomy for the number of children attending, though it is not up to the standard of the other schools in my superintendency.

Burnt Church Day School.

On September 25, I visited the Burnt Church school and found 14 children in attendance, 5 boys and 9 girls.

There are 28 children of school age on the reserve and an enrollment of 26, or 93 per cent of those that should attend. The average present since the opening of school was 14.

The attendance at this school continues very satisfactory. While on the day of my visit it was not as large as I expected to find, this was due to the fact that it was harvesting time and many of the pupils had to help their parents to save their crops.

SESSIONAL PAPER No. 27

Among those absent were some of the brightest of the pupils and the most assiduous in attending school.

Those enrolled were graded as follows:—

	Pupils.
Standard I	11
“ II	4
“ III	4
“ IV	3
“ V	4

There has been a great improvement in many ways in this school. Those examined passed an examination that would bring credit to any school, their reading, arithmetic, geography and writing being especially good. The work, too, of the girls, who have been taught needlework and knitting, deserves special mention, as the samples shown of their efforts along these lines would do credit to much older people.

Miss Laura C. Geraghty, who teaches here holds a Model school diploma. I am glad to say she is doing excellently—has her pupils under splendid control and in complete accord with her methods of work. She has, moreover, the goodwill and respect of the parents, who, so far as I could learn, have only words of praise for her—so that her work in and out of school is productive of much good to the reserve.

It is hardly necessary to say that the children are neat and clean in dress and appearance, and show evidence of appreciating the health talks given them, and the calisthenic exercises they practise.

The school building and outhouses were in good condition.

Since my last visit a handsome and substantial fence has been erected around the school premises and it sets off both the school-house and the new church adjoining to advantage.

Speaking of the cleanliness of this school and its pupils, I may add that Miss Geraghty has taken special pains to instil into the minds of her children cleanliness not only of their persons, but also of their surroundings, and to this in a large measure I attribute the neatness of this reserve in general.

There is no rubbish left accumulated around the homes of the Indians here. Instead, every home I visited was neat and trim inside and out, with a little garden in front showing thrift and care.

Miss Geraghty was also about to form a society for the older girls and women of the reserve who do not attend school. This society has for its object to keep up their interest in the branches of domestic science mentioned and further their knowledge of hygiene for the home.

Eel Ground Day School.

The following day, September 26, I paid a visit to the Eel Ground school. There were 17 present, 7 boys and 10 girls, out of an enrolment of 21, although the number of age to attend school, is 29.

The average since the opening of school was 14. Considering the number of age to attend this school, the attendance is none too good.

Those enrolled were graded as follows:—

	Pupils.
Standard I	13
“ II	6
“ III	1
“ IV	1

There was an improvement evident in the work of this school since my last inspection, the children doing better in reading and in arithmetic.

Miss Margaret Isaacs, who teaches here, is herself of Indian extraction and holds an elementary school diploma.

She takes a deep interest in the work of her school and is evidently getting on well with the children's parents, as no word of dissatisfaction reached me. As suggested to the teacher on the occasion of my last visit, the children in their games make more use of English and as a consequence, I notice they are more in touch with the work in school and appear bright and more alert.

In addition to the ordinary studies, needlework and knitting as well as some fancy-work are taught the girls and their work is very creditable. They make mitts, socks, neckties, also cut out aprons and blouses and do the sewing on them.

A flower garden was also started this year, which it is hoped may be the means of instilling a love for such in the children's homes.

The school-house was in good condition and scrupulously clean, as were the children.

The outhouses and grounds, too, were in good order.

Health lessons are given the children and calisthenic exercises practised. One has but to look at their happy and neat appearance to see they are profiting by them.

Miss Isaacs has also undertaken to give lessons in dressmaking to the older girls.

Edmundston Day School.

On October 8, accompanied by Father Conway, I paid a visit of inspection to this school. There were 9 present, 5 boys and 4 girls, out of an enrolment of 16, but 11 of whom only are of age. The average attendance since school opened was 10.

The children are graded as follows:—

		Pupils.
Standard	I.	8
"	II.	2
"	III.	5
"	IV.	1

As the children of this reserve speak both English and French, and in consequence study both languages, I examined them in both tongues and was surprised at their efficiency.

In all subjects taught, reading, arithmetic, geography and spelling, they showed marked improvement, being, however, more proficient in French than English, but this is only natural, as the large majority of the people of Edmundston are of French nationality and speak French almost exclusively.

The teacher, Miss Virginie Dionne, holds a third-class provincial license. She has made very good progress with her pupils since she assumed charge of this school, particularly in view of the fact that she has to teach in the two languages, which necessarily renders her work more arduous.

In consequence of this extra work, she has not been able to devote as much time to teaching sewing and knitting to the older girls, though some work along these lines has been done.

When weather permits, the calisthenic exercises are practised, the school-room being too small for these movements within.

Lessons in hygiene are also given the children and they look both healthy and happy.

The school-house is a building rented from one of the Indians. It is kept clean and comfortable, but, as the ceiling is very low, it is not altogether too healthy a place for a large number, especially as it is hard to ventilate properly.

SESSIONAL PAPER No. 27

The outbuildings are kept in sanitary condition, but the playgrounds in use are hilly and broken up so that it is impossible for the children to have the usual games.

Tobique Day School.

Accompanied by several clergymen, I paid an inspection visit to this school on October 11.

There were 24 children present, 10 boys and 14 girls. There are 38 children of school age on this reserve, and of these 35 should attend school. There are 33 enrolled. The attendance on the day in question was not as good as it would be a little later in the season for the reason that some of the older boys were absent in Fort Fairfield working in the potato-fields, where they were earning \$2 and upwards a day.

As they are good pupils—the best in fact in school and noted for their good attendance—the average was lessened owing to their unavoidable absence.

The pupils are graded as follows:—

	Pupils.
Standard I	18
“ II	6
“ III	2
“ IV	5
“ V	2

In the examination of those present I was agreeably surprised to find that more progress than I anticipated was evident in the work of the pupils, the children with scarcely an exception doing very well in reading, spelling, arithmetic and geography.

The visiting clergymen were very favourably impressed with the work done, as well as with the appearance of the children, who were exceptionally neat and clean in dress.

The teacher, Miss Ethel McGrand, has a second-class provincial license. She is a thoroughly painstaking teacher, systematic in her work, a good disciplinarian and most attentive to all the duties of her position, in consequence of which her school is an exemplary one.

The parents of the children on this reserve seem to take more interest in school work than is ordinarily the case with Indians and this may be attributed to the interest the teacher takes in the older girls of the reserve, and also in very large measure to the indefatigable efforts of the resident clergyman, the Rev. Frederick Ryan, who personally takes deep interest in the school.

Sewing and knitting are also taught here, also fancy-work and the work done is very commendable.

The games prescribed by the department are made use of and physical drill practised.

The school building is in good condition, clean within and without, and the outbuildings are kept in a sanitary state.

Oromocto Day School.

I visited this school on November 12. There were 11 pupils present of a total enrollment of 12; 5 boys and 6 girls. The average attendance is very satisfactory—that of two months being 10—of those enrolled.

As in my last examination, so in this, I found the children advancing in their studies, and particularly well informed in regard to the geography of the country.

They read, however, with more or less of a monotone, which we are trying to eliminate. They are proficient in spelling.

The teacher, Mrs. Blanche McCaffrey, holds a second-class provincial license, and is continuing the good work she began a few years ago when she assumed charge of this school, for in addition to her ordinary duties she takes an interest in the home life of the children, in consequence of which thoughtful supervision, a spirit of refinement is beginning to show itself in their manners, which are now favourably commented on by the residents of the neighbouring village.

Sewing and knitting form part of the curriculum for the girls and good work is done. Physical drill is also practised and the manual of games made use of, and lessons in cleanliness given.

The school-house, finely located on an eminence overlooking the St. John and Oromocto rivers, is in splendid order, the drain that was clogged being repaired by the agent last summer.

The outhouses are in keeping with the school, and the playground of ample scope. The grounds and school have been inclosed by a strong and durable metal fence since my last report.

Kingsclear Day School.

On December 5 I visited the school at Kingsclear and found Mr. N. J. Smith, the Indian agent, at the school.

There were 17 pupils present, 11 boys and 6 girls, a very good showing for this school.

During this season of the year when the parents of the children live altogether on the reserve, there is always a very good average attendance maintained, but during the summer months, in consequence of their migratory habits, there is a falling off in attendance. Allowing for this somewhat serious handicap to the teacher, her work is very satisfactory, as the examination of the children proved.

In reading, spelling, arithmetic and drawing they were well up to the average maintained by the larger schools.

In appearance they were neat in dress and clean.

The teacher, Miss Rene Donohue, has a second-class provincial license. She is an earnest and faithful worker, having her pupils under good control, also getting on well with the parents.

Sewing and fancy-work are taught the girls, who, though very young, take an interest in the work and are doing as well as can be expected.

The physical drill exercises are practised and lessons in hygiene explained to the children.

The school-house is old, though clean and comfortable, but there is no room for a playground near it.

Woodstock Day School.

On December 17, accompanied by Father McMurray, of Woodstock, I paid a visit to this school. There were 10 pupils present, 5 boys and 5 girls. The register contained 15 names, 12 of which were of children of school age. Consequently a fair average is maintained. The pupils were classified as follows:—

	Pupils.
Standard I.	5
" II.	4
" III.	6

The children did fairly well in their examinations, some being especially good in reading and spelling; but it is hoped greater progress will be shown in the near future.

SESSIONAL PAPER No. 27

In appearance they were clean, but with few exceptions slovenly in dress, due altogether to the utter carelessness of the parents in suitably clothing them.

The teacher, Miss Genevieve Brophy, has a second-class provincial license. She is doing her utmost for the children, being zealous and faithful in the discharge of her duties; but as she has to contend with the apathy and indifference of parents, which is naturally transmitted to the children, her task is no light one. Still notwithstanding these drawbacks, some improvement is noticeable.

Physical drill is practised; the prescribed games made use of, and lessons in cleanliness inculcated. Sewing is also taught the older girls.

The school-house and outhouses are in very good condition, and it is pleasing to note a good system of drainage installed. This drainage will materially benefit the playgrounds.

St. Mary's Day School.

I paid my official visit to this school on December 18, accompanied by Father Donohue.

There were 24 children present, 11 boys and 13 girls—the full number that should attend school, although there are 30 enrolled.

The average attendance at this school is excellent.

The pupils were in the following standards:—

Standard	Pupils.
I.	6
“ II.	14
“ III.	4
“ IV.	5
“ V.	1

The progress of the children since last examination was very marked, and Miss Hughes is entitled to considerable credit for this noticeable advance in studies.

In all branches there was improvement: reading, arithmetic, geography, drawing; but the most noticeable advance was in the advanced pupils in mental arithmetic. Their work was distinctly good.

The teacher, Miss Mary Hughes, has a second-class provincial license and is an experienced and capable instructor.

She is now completely in touch with her work and the results are surprising, and as the days go by more and more apparent. Sewing is also taught.

Physical drill, of which she is a professor, is carefully given and lessons in hygiene explained, so that the physical as well as moral welfare of the children is well looked after.

The old school-house has been discarded and a splendid new building, with modern improvements, provided by the department for the children of this reserve; giving them also what was long needed, a suitable playground.

Deaf and Dumb Institution.

On January 16, 1913, I paid a visit of inspection to this institution, accompanied by Father O'Regan.

There are two Indian children at school here, a brother and sister, John and Maria Lapier, of the Kingsclear reserve.

The principal of the institution, Mr. Keating, brought the children to see me, and showed me some of the work in their recent examination, and it was indeed surprising to learn what good results followed his system of teaching these deaf-mutes.

4 GEORGE V., A. 1914

They can write English very well indeed, and are also able to do sums in arithmetic.

They were bright in appearance, exceptionally neat and clean in dress and appeared to be both healthy and happy.

General Remarks.

In conclusion, I may say that it is gratifying to note that a distinct improvement in nearly all branches of work in these Indian schools of New Brunswick is apparent, for which due credit must be given the teachers, who practically without exception seem imbued with the spirit of their calling and who have succeeded so well in the discharge of their oftentimes onerous duties.

THE REPORT OF MR. JOHN R. BUNN, INSPECTOR OF INDIAN AGENCIES AND RESERVES, ON THE INDIAN DAY SCHOOLS IN THE LAKE WINNIPEG INSPECTORATE, FOR THE YEAR ENDED MARCH 31, 1913.

Fisher River Day School (Methodist).

This school was visited and inspected on January 30, 1913. The number of pupils present was 31. The number of the school population was 76. The register shows an enrolment of 70. The average for the three months was 43.44. The grading of the pupils present, by the teacher, was as follows:—

	Pupils.
Standard I.	4
“ II.	10
“ III.	9
“ IV.	8
Total.	31

The discipline was good. An examination of the work of the pupils in reading, writing, spelling and elementary arithmetic showed satisfactory results. Samples of knitting by the boys and girls were exhibited; the work was very creditable.

The teacher is Miss E. M. Jotcham, who was educated in St. Mary's school, Wantage, Berkshire, England. In finishing she took a special course of training for colonial school work in all branches.

The school building is small, and is somewhat crowded; it is an old building, kept clean, is well lighted and ventilated. The equipment is ample and was in good order. A larger building would be of advantage to the work. This school is doing good work, and deserves every encouragement.

Peguis North Day School (Church of England).

This school was visited and inspected on January 30, 1913. The number of pupils present was 10. The school population was 45. The register shows an enrolment of 23. The average for three months is 11.19. The grading of the pupils present, by the teacher was:—

SESSIONAL PAPER No. 27

	Pupils.
Standard I	9
“ II	1
	10
Total	10

The discipline of the school was fair. The building is commodious and well lighted and is kept clean and in good order. The equipment is ample and was in good condition.

Examination tests of the work of the pupils in reading, spelling, writing and elementary arithmetic showed fair results; samples of map-drawing were very commendable.

The teacher, Angus Prince, a member of the band, possesses fair ability; he is an ex-pupil.

Peguis South Day School (Church of England).

This school was visited and inspected on January 30, 1913. The number of pupils present was 12. The number of the school population was 34. The register shows an enrolment of 33. The average for three months was 12.8. The grading of the pupils present, by the teacher, was:—

	Pupils.
Standard I	1
“ II	10
“ III	1
	12
Total	12

The discipline was fair. The building is commodious, warm and well lighted, is kept clean and in good order. The equipment is ample and in good order.

Examination tests of the work of the pupils in reading, writing and spelling, showed fair results, elementary arithmetic work was fair.

The teacher who was in charge, was acting in a temporary capacity. He has since been replaced, his work was only fair, he is an ex-pupil.

South St. Peter's Day School (Church of England).

This school was visited and inspected on February 21, 1913. Owing to the resignation of the teacher, Miss M. J. Isbister, to take effect on February 28, 1913, the attendance was found to have fallen almost to zero. The pupils had left and were attending the new municipal school. The building has since been closed and the school has ceased to operate. This is in compliance with the suggestion of the department. I would add that the building was in fair condition.

North St. Peter's Day School (Church of England).

This school was visited and inspected on February 21, 1913. The number of pupils present was 11. The number of the school population was 42. The register shows an enrolment of 32. The average for three months was 14.72. The grading of the pupils present, by the teacher, was:—

	Pupils.
Standard I	6
“ II	1
“ IV	2
“ V	1
“ VI	1
	11
Total	11

4 GEORGE V., A. 1914

Discipline was fair. The elementary grades are carefully instructed, the higher grades showed fair results in reading, spelling and writing, and a fair grasp of elementary arithmetic.

The building is log with plastered walls and shingled roof, is comfortable, warm and well lighted, is kept clean and in good order. The equipment is ample and was in good condition.

The teacher, Peter Harper, is a member of St. Peter's band and is a good faithful worker.

Grand Rapids Day School (Church of England):

This school was visited and inspected on the return trip from Norway House in March, 1913. The number of pupils present was 4, a very small number, owing to the condition of the roads, which were breaking up. The school population is 15. The register shows an enrolment of 13. The average for three months was 9.71. The teacher's grading of the pupils enrolled is:—

	Pupils.
Standard I (a)	5
“ I	4
“ II	3
“ III	1
Total.	13

Discipline was only fair. An examination of the working records in the copy books of the pupils and the scribblers used daily, showed fair results for writing, spelling and elementary arithmetic.

The building, log with shingled roof, is in poor repair. The department has authorized repairs, which will be effected during the coming season. The equipment was not ample or in good order.

Norway House Day School (Methodist).

This school was visited on March 31, 1913. The number of pupils present was 8. The school population was 40. The register shows an enrolment of 23. The average for three months was 14.03. The grading of the pupils present by the teacher was:—

	Pupils.
Standard I.	5
“ II.	3
Total.	8

The discipline was good. Examination tests of the work of the pupils showed reading and writing, fair; spelling, good; elementary arithmetic, fair.

The building is commodious, warm and well lighted and is kept clean and in good order. The equipment is ample and in good condition.

The teacher is Miss De Wolff, who is kind, patient and painstaking; she understands how to present work to pupils in an attractive, practical and profitable manner.

Norway House Day School (Roman Catholic).

This school was visited and inspected on March 29, 1913. The school is a semi-boarding and day school. The number of pupils present was 14. The school popula-

SESSIONAL PAPER No. 27

tion of this denomination is small locally. The grading of the pupils present, by the teacher, was:—

	Pupils.
Standard I (a)	2
“ I.	4
“ II.	4
“ III.	3
“ IV.	1
Total.	14

The discipline was good. Examination tests in reading, spelling, grammar and elementary arithmetic, showed fair results.

The pupils, who are in residence, are comfortably housed in a good building, warm and ample in accommodation.

The school is in charge of the sisters, of whom there are four: a teacher, a supervisor, a housekeeper, and one in charge of the cooking and domestic work.

Broken Head Day School (Church of England).

This school was visited and inspected on June 11, 1912. The school was not open at the time of this visit, as the teacher had resigned; the holidays were on, on account of the annuity payments. The school building was found to be in a poor condition. Repairs authorized by the department have remedied this. After repeated trials, a teacher has been secured and the school has been steadily in operation since November 22, 1912. The new teacher comes recommended as being quite capable to discharge her duties in an efficient manner.

Fort Alexander Upper Day School (Church of England).

This school was visited and inspected on June 15, 1912. The school was not in operation on account of the annuity payments. The school register shows a school population of 24; enrolled, 24; and an average attendance for three months of 13.05. An examination of the copy-books and the scribblers used daily by the pupils showed the writing to be neat and fair, spelling good, and arithmetic fair.

The teacher is Charles H. Fryer. This man is well qualified for his work, and enjoys the confidence of the pupils and their parents.

The building is warm and well lighted; is kept clean and in good order. The equipment is ample and was in good condition.

Fort Alexander Lower Day School (Church of England).

This school was visited on June 15, 1912. It was not in operation on account of the resignation of the teacher. The classes of this school were held in a rented building, which was in fair condition. It is difficult to secure a teacher for this work, as it is very hard to get suitable quarters for boarding. A number of pupils are available if the difficulty of a teacher supply could be remedied. A new school building would also help to place the work on a better basis.

- *Black River Day School (Church of England).*

This school was visited and inspected on June 17, 1912, but was not in operation, as the annuity payments were being made. The teacher in charge at the time was

4 GEORGE V., A. 1914

Mr. George Slater, whose resignation was in, but had not taken effect. He was quite successful as a teacher in this school. He showed me the working records of the pupils, which exhibited creditable results in writing, spelling and arithmetic. The number of the school population was 18, the number of pupils enrolled was 18 and the average attendance for three months was 8.54.

The building, log, with a shingle roof was in fair condition kept clean and in good order, and well lighted. The equipment was ample and in good order.

As usual, some difficulty was experienced in securing a successor to Mr. Slater, and the school was vacant till January 27, 1913. The new teacher is recommended as a fairly good man.

Hollowwater River Bay School (Church of England).

This school was visited and inspected on June 19, 1912. The classes were not in session at the time, as the annuity payments were on. The school register, examined with the teacher present, showed the school population to be 30, enrolled pupils 20, and the average for three months 10.43. An examination of the working records of the pupils showed fair results in writing, spelling and elementary arithmetic.

The school building is log, sheeted inside and outside, and although comparatively old, it is in fair repair. The equipment is ample and was in good order.

The teacher, Mr. A. Santmier, who has since resigned, has been replaced by a good man, and the school is receiving careful attention.

Berens River Day School (Methodist).

This school was visited and inspected on July 6, 1912. The classes were not assembled, as the annuity payments were being made. An examination of the copy-books and the scribblers in daily use by the pupils showed good work, neatly done, in writing, spelling and elementary arithmetic.

The school building is frame, and is apparently well built, painted inside and outside; has a good heating stove with pipes in good order; is commodious and well lighted and kept clean. The equipment is ample and in good order.

The teacher is Mrs. Henrietta Lowes, who holds a third-class certificate, professional, from Manitoba.

Poplar River Day School (Methodist).

This school was visited and inspected on July 11, 1912. The classes were not in attendance, as the annuity payments were on. The teacher in charge was Mr. Percy E. Jones. His efforts are divided, as he is also a missionary. The results were not encouraging; the Indians are fault-finders, but so far as I could learn did not have much cause, as the pupils are indifferent in attending. Reported lack of punctuality was not denied by the Indians and discipline is hard to enforce. There has since been a new teacher appointed, who gives the work her whole attention, and it is hoped matters will improve. An examination of the working records in copy-books and scribblers in daily use, showed writing, fair; spelling, poor; arithmetic, very elementary.

General Remarks.

The foregoing is a report of all the day schools I have visited and inspected. The teachers, who take up the work of teaching our Indian children, have very arduous duties to perform, requiring great patience, and many obstacles to contend with and overcome. It is difficult to enforce discipline with the pupils and preserve a good average attendance. All things considered, the results may be claimed as fairly satisfactory, and fully justifies continued perseverance.

SESSIONAL PAPER No. 27

THE REPORT OF MR. S. J. JACKSON, INSPECTOR OF INDIAN AGENCIES AND RESERVES, ON THE SCHOOLS IN THE LAKE MANITOBA INSPECTORATE, FOR THE YEAR ENDED MARCH 31, 1913.

Upper Fairford Day School, (Church of England).

Rupert Bruce, teacher.

I visited this school on June 26, previously to the treaty payments on the Fairford reserve. On the roll I found 19 treaty pupils, classified as follows:—

		Pupils.
Standard	I	7
"	II	5
"	III	5
"	IV	2

The average attendance for the quarter ended March 31, 1912, was 3-11. There were present at inspection 2 boys and 6 girls, a total of 8; of these only 3 were treaty children. There are on the roll 15 non-treaty children. I am not able to report any great progress in this school. The trouble is the irregular attendance, and the fact that the school is situated on the side of the reserve. The school and outbuildings are in a good state of repair. Everything about the school is neat and clean; the school material is ample and in good order.

Lake St. Martin's Day School (Church of England).

John E. Favel, teacher.

I visited this school June 27, 1912, and found 12 boys and 15 girls present. There were on the roll, 9 boys and 15 girls, classified as follows:—

		Pupils.
Standard	I	17
"	II	6
"	III	1

The attendance for the quarter ended March 31, was 17-23. Nearly all the better pupils of last year are gone and new children have taken their place. Several were in attendance who were not on the roll.

This teacher is painstaking and attentive, though he is handicapped in his work by the fact that the Indians take the children away from school just as soon as they are able to be of any use at home. There are 40 children of school age on the reserve.

Little Saskatchewan Day School (Church of England).

Peter Anderson, teacher.

This school was visited on June 28, and there were present one boy and one girl. On the roll, I found 7 boys and 15 girls, classified as follows:—

		Pupils.
Standard	I	9
"	II	5
"	III	7

4 GEORGE V., A. 1914

The average attendance for the quarter ended March 31, was 5. The girls in standard III read well and can do small sums up to short division. The boys read fairly well in the primer, but know nothing else. The poor attendance at the time of my visit is accounted for by its being treaty-time and the teacher could not round up the pupils, the parents all wanting to go to Lower Fairford for the payment there.

The school furniture is in good order and the room is kept neat and clean. There are no blinds on the windows, and these should be furnished. A new map of Manitoba should be supplied, as they have only old ones. The third and fourth readers are a New Brunswick issue, prior to 1891, and should be replaced.

Lower Fairford Day School (Church of England).

Colin Sanderson, teacher.

I visited this school on June 29, and found present 6 boys and 5 girls. There were on the roll 15 boys and 16 girls, classified as follows:—

	Pupils.
Standard I.	16
“ II.	6
“ III.	6
“ IV.	3

The average attendance for the quarter ended March 31 was 7.5, and the school was closed for five weeks on account of measles.

Pupils in standard I are doing well, and know their lessons.

The pupils in standard II read well, and do simple sums up to subtraction.

Standard III use the third reader, read well and do sums up to long division. They also write well in their copy-books. The pupils sing well, know the commandments and the Lord's prayer.

The Indians have abandoned the old school, as they are afraid it will fall down, and are now using a small building that was used for a storehouse. It was neat and clean at the time of my visit, but the building is not suitable for a school-house, as the floor is in bad condition and very cold in winter.

Crane River Day School (Church of England).

This school is closed, and I have nothing to add to my last year's report.

Shoal River Day School (Church of England).

Rev. T. H. Dobbs, teacher.

This school was visited on July 19, and I found present, 12 boys and 10 girls. The average attendance for the quarter ended March 31, was 14.2. There were on the roll, 15 boys and 14 girls, classified as follows:—

	Pupils.
Standard I.	22
“ II.	3
“ III.	4

The pupils in standard I knew their A, B, C's and numbers up to 100; while those in standard II read in the first primer, and standard III read well in the second reader and do small sums up to multiplication. Two pupils in the above class have gone quite regularly to class for five years. The school is in a very backward

SESSIONAL PAPER No. 27

condition and the senior class have great difficulty in doing very simple sums. The school furniture and material is in good condition. Calisthenics is now being taught and the pupils seem to enjoy the work. There is no improvement in the school building since my last visit.

Moose Lake Day School (Church of England).

C. T. Mitchell, teacher.

I visited this school July 26, and found 14 children present: 6 boys and 8 girls. The average attendance for the quarter ended June 30 was 5-65. There were on the roll 31 pupils, 17 treaty and 14 non-treaty. The average given is for treaty children, there being 17 of school age on the reserve, all classified in standard I.

The non-treaty children are classified as follows:—

	Pupils.
Standard I.	10
“ III.	2
“ IV.	1

The teacher instructs all the children in one class, from the blackboard, by putting down the letters, then making words and having them say what these words are, in both the Indian and English languages. Ten read in the first primer; the others are not able to read. The March quarter is the best for attendance; the three other quarters being very irregular. These children are learning very well and I could see some improvement since last year. All can do simple sums in addition and three can do simple sums in subtraction. This teacher is attentive, and if he remains in the work, will do much good on this reserve. His calisthenic class is especially good.

Chemawawin Day School (Church of England).

Rev. S. C. Deacon, teacher.

I inspected this school July 29, and there were present 15 boys and 13 girls, none higher than standard I. I found 26 pupils on the roll, classified in standard I.

The average attendance for the quarter ended June 30, was 9. None of the pupils attending this school can read well in the first primer. The new teacher had not started teaching, having only arrived on July 22, and the holidays then being taken, did not know how far the scholars were advanced. No progress was made in the two years under Mr. Lefler, the former teacher. It is impossible for the teacher to look after this school, as his duties in the church compel him to be away a good part of the time. There is plenty of school material and it is in good order.

Cumberland Day School (Church of England).

J. A. Keddie, teacher.

This school was visited August 3. There were present 2 boys and 8 girls. There are 16 pupils on the roll, classified as follows:—

	Pupils.
Standard I.	7
“ II.	3
“ III.	6

4 GEORGE V., A. 1914

The average attendance for the quarter ended June 30, was 11, and for the quarter ended March 31, was 7.84. The school building is only in fair repair. It requires to be whitewashed inside, and the woodwork painted. The ceiling has never been painted. The desks and school material are in good condition, but a new blackboard is required.

All the children are backward, both in reading and writing, and they can do only simple sums in arithmetic.

Red Earth Day School (Church of England).

J. G. Kennedy, teacher.

I inspected this school on August 13 and found present, 12 children. There were on the roll, 11 boys and 8 girls, classified as follows:—

	Pupils.
Standard I.	6
“ II.	7
“ III.	6

The average attendance for the quarter ended June 30, was 11.8. The school is held, this year, in the new church. It is a good building, 18 x 18 feet, with 5 windows. It is not plastered as yet, but the ceiling is ceiled and will be painted this year. The logs are chinked and will be plastered with lime and sand. The pupils in this school are doing very well. The teacher is slow, attentive and painstaking and the scholars show some progress since last year.

Big Eddy Day School, Pas Reserve.

David Cook, teacher.

This school was visited August 17. There were present, 14 children. There were 20 children on the roll, 16 boys and 4 girls, classified as follows:—

	Pupils.
Standard I.	15
“ II.	4
“ IV.	1

These children are doing very well. They read well, are learning arithmetic as far as long division, know some geography, can write fairly well and are being taught calisthenics. They are doing well in this branch.

The teacher was educated at the Elkhorn industrial school, being there for 8 years. This school required inside, on walls and ceiling, two coats of paint, also four mosquito screens and a wire gauze door. The school material is in good order. This teacher was doing well, and I regret to say that an offer from a mercantile firm had induced him to send in his resignation. I visited this school several times during my stay at the Pas agency and can report good work being done and considerable progress being made by the pupils.

Pine Creek Boarding School, (Roman Catholic).

Rev. A. Chaumont, principal.

I visited this school on July 11. I regret to say that the then principal died unexpectedly in March last. His work as principal of this school and parish priest

SESSIONAL PAPER No. 27

was too heavy a load for him to carry. He built a magnificent stone church at this reserve. It was dedicated in July, about the time of our visit to the Pine Creek reserve.

Okanase Day School (Presbyterian).

This school was closed in October last, the teacher, Miss Murray, having married at that date, and the church has not as yet found a new teacher.

Swan Lake Improved Day School.

Jessie G. Bruce, teacher.

I visited this school on February 21, but found that owing to sickness on the reserve, the school was practically closed. Miss Bruce reports good progress during the year with the small number of pupils available on this reserve.

The average attendance for the quarter ending December 31, was 4.63. Miss Bruce has a second-class professional certificate with Normal training, and with her sister takes a great deal of interest in her work, and is sure to do a great deal of good on the reserve among the women members of the band in teaching them how to keep themselves and homes clean and tidy.

Roseau Rapids (Undenominational).

Rose Godon, teacher.

Having left this school till the latter part of March for my visit, and having an unexpected order to go to Le Pas, I was unable to make my annual visit, but I was informed by Mr. Logan, the agent, that Miss Godon is still in the work and doing well, though the average is very low, 3.32.

Brandon Industrial School (Methodist).

Rev. T. Ferrier, principal.

I visited this school May 3, 1912. The class-rooms are light and airy, well ventilated and are kept neat and clean. Miss M. Follet is teaching in the junior room and doing very good work with the material given her. She holds a second class professional certificate from Newfoundland, and has been teaching for seven years. She had present in her room, at the time of my visit, 28 pupils in the morning and 19 in the afternoon.

Those on the roll were classified as follows:—

	Pupils.
Standard I	24
“ II	14
“ III	11

Standard I read in the first primer, know the numbers, do simple sums and also are learning to write.

Standard II read very well in the first book, spell all they read and do sums up to short division.

Standard III use the second reader, read well, can spell any word in their lessons, and are taught arithmetic up to long division.

Miss Follet is trying to follow out the directions of the department regarding the studies laid down for the different standards in her class-room.

4 GEORGE V., A. 1914

The regular teacher, Miss Craig, who took Mr. Dryburgh's place during the year, was away during my visit on account of sickness in her family. Miss Ethel Hickman was taking her place and may become the regular teacher. She has a first-class certificate, Normal training and has been teaching for 12 years. On the roll of this room, I found a total of 44 classified as follows:—

	Pupils.
Standard IV	22
“ V	15
“ VI	7

Practically all the studies as laid down by the department are being taught in this room. The pupils are doing fairly well and show some progress during the past year. Hygiene and calisthenics are being taught in both rooms.

The health of all the pupils has been good during the year. There were no deaths and no serious illness, but the principal reports that two of the boys are now in a serious condition.

The school buildings are heated by 5 hot air furnaces, 3 wood and 2 coal, which service is proving satisfactory. Only 4 of the furnaces are being used continuously, the fifth being used only in very cold weather. The time is fast arriving when the system of heating by coal will have to be adopted on account of the high price and the difficulty of procuring good wood. The Smead-Dowd system was originally installed in the school, but did not work well, as far as the ventilation was concerned. It has now been changed into direct ventilation in the school-rooms and dormitories by openings in the large foul air shafts. The building is in first-class condition, as far as heating and ventilation are concerned. The air is sweet and pure in all parts of the building.

There is a large McRobie fire-extinguisher installed, with drum and hose on each flat. There are 2 tanks, capacity 80 barrels, partially on top of building, with pipe connection on each flat, and hose sufficient to reach to any part of the flat is kept on the flat. There are also 100 dry dust fire-extinguishers in the building. Fire-escapes are constructed at the east and west ends of the school building, with direct exit from all the pupils' dormitories, and in the winter, when the fires are on, a watchman is kept constantly employed.

Elkhorn Industrial School.

A. E. Wilson, principal.

I inspected this school April 9 and 10, 1912. The staff is practically the same as last year, with the addition of Miss M. Wilson, as teacher in the junior room and the appointment of W. J. Lawrence as farmer. All the members of the staff are doing good work. The principal has things well in hand and is supervising a great deal more than in past years. Mr. Ingram, his assistant, is doing good work and has all his boys, the juniors, in good control. They are willing and anxious to work in the gardens and in the general work around the buildings and grounds.

The health of all the pupils was good at the time of my visit, though there were 5 deaths during the year, 2 from meningitis and 3 from diseases of tubercular origin. During the month of February, there were 10 cases of pneumonia, all severe cases, but all recovered. A trained nurse was engaged to assist the doctor during the outbreak.

Miss Baldwin, the senior teacher, has been at the school about 5 years, and has her room and scholars in the very best of order. Since my last report Miss Wilson has been engaged as junior teacher and relieves Miss Baldwin of some work, though the school population is now 79, as against 66 at the time of my last visit. Miss

SESSIONAL PAPER No. 27

Wilson is a bright young woman and takes an interest in her work and with a little experience will do well.

There were 77 pupils present at the time of my visit; one boy and one girl being away visiting. The studies, as set forth by the department, are being taught and good progress is being made by all the classes.

Birtle Boarding School (Presbyterian).

Rev. W. W. McLaren, principal.

I inspected this school on May 22. The class-room is in good condition, clean and tidy. There was no regular teacher for several months and the school became rather demoralized. There were present at the time of my visit 36 pupils; 18 boys and 18 girls. I found on the roll 26 boys and 27 girls, a total of 53, classified as follows:—

		Pupils.
Standard	I	14
"	II	11
"	III	13
"	IV	11
"	V	4

Miss McCurdy, the new teacher, had been there about two months and had not yet got the work properly started. Most of the larger boys were working on the farm seeding, as they had been very much delayed by bad weather.

Portage la Prairie Boarding School (Presbyterian).

W. A. Hendry, principal.

Since my last visit, the principal, Rev. J. L. Miller, had resigned and Mr. Hendry, a former principal for some years, had returned to the work, and is now in charge. At the time of my visit to the class-room, there were 18 girls and 15 boys present, a total of 33 classified as follows:—

		Pupils.
Standard	I	8
"	II	5
"	III	5
"	IV	6
"	V	9

The children at this school are all doing well in their studies, making visible progress as I visit them from time to time, and are also bright and cheerful in their demeanour, something I like to see in the class-room, and which is lacking in so many of them. My report of two years ago last January, still applies to this building, with the exception of the bath-room, which now has a new tub and plenty of water.

REPORT OF REV. JOHN SEMMENS, INSPECTOR OF INDIAN AGENCIES
AND RESERVES, ON THE SCHOOLS IN THE LAKE WINNIPEG
INSPECTORATE, FOR THE YEAR ENDED MARCH 31, 1913.

Cecilia Jeffrey Boarding School.

The Cecilia Jeffrey boarding school is situated on an arm of the Lake of the Woods, commonly called Shoal lake, and on the western side of the lake, adjacent to Reserves Nos. 39 and 40.

A peninsula containing some 210 acres is the area claimed by the committee of management as the school site. Parts of this are rock and unfit for cultivation, while the low spots furnish excellent soil for gardening purposes.

The situation is a cold one, as it is exposed to every wind that blows. In very cold weather it is found almost impossible to keep the house sufficiently warm and the pipes have been frozen to a greater or less extent every winter.

The staff is as follows: principal, Rev. F. E. Dodds; matron, Mrs. C. C. Kay; assistant matron, Mrs. H. Glover; school teacher, Miss Ethel Bennett; outside instructor, Thomas Williamson.

I found much to call for complimentary remarks in the work of the members of the staff. They are very faithful to duty. The matron's devotion to a sick child was very praiseworthy, and the principal's duties are simply overwhelming. There was no seamstress and no laundress and no professional nurse, and for a school so situated this last appointment would seem to be a desideratum of prime importance. It is hoped that such an officer may be appointed without delay.

It is a difficult matter to induce officers to stay in such an out of the way place, in any circumstances, but still more so when they find themselves taxed beyond their strength. For the efficient carrying on of the work more officers are needed.

I found 42 scholars in attendance. There were 71 names on the roll, but a number of them have not returned since the summer, when improvements going on in building necessitated their returning temporarily to their homes. A few have declared their purpose to return as soon as milder weather sets in, and some have refused to consider any proposals for returning.

The agent and his constable will do all they can to increase the attendance, but the school is of course responsible for all outlay in bringing back those who have been once regularly admitted.

The fact that some have refused to obey the call of the school authorities has had, and is having, an unfavourable effect upon some pupils now in school. It is therefore to be hoped that every effort will be put forth to have all children return and to this end the officers of the department will lend what assistance is in their power.

The principal reports that 5 acres have been planted on the mainland and that 10 acres more have been cleared, making 15 acres available for crop.

Some planting has also been done on the adjacent islands where the Indians planted potatoes long ago. Since the natives have settled on their reserves, they have abandoned the islands and they have been found useful to the school, as prepared soil made cultivation easy. Horses and work boys are moved to and from these islands by means of the mission steamer, placed by the committee of management at the disposal of the principal.

Gardening, care of stock, general work about the school, and steamboating, for the male pupils are the industries taught.

SESSIONAL PAPER No. 27

The girls are taught housework, such as cooking, baking, the care of milk, butter making, washing, sewing, and knitting.

There are very few large boys in attendance and the out of door work falls heavily on the few, but I found them willing and obedient and their work was well done. Every effort is being made by the principal to lessen the amount of work required, and he is not above doing a fair share of it himself when that is necessary.

All the live stock is well housed and well fed and cared for. The stables are warm and clean and the hay in stock is of good quality.

I was particularly well pleased with my inspection of the school. Reading, writing, and spelling classes showed much progress over last inspection. The general knowledge of the English language was also a source of gratification. It was found that the children understood what they were reading and that they were anxious to know more. When interest is awakened, progress becomes apparent and the higher grades have now reached that point.

A new teacher had taken charge of the classes just three weeks before inspection, so that much of the credit of the advancement noted is due to former teachers and particularly to Miss O'Bannon, who was last in charge. Mrs. Dodds has also been in charge from the date of the resignation of the teacher last named to the arrival of Miss Bennett.

The school-room is a model one in every respect. The ceiling is high. The windows are large and the light is good, while the ventilation is perfect. The heating is excellent and the spaciousness of the place gives opportunity for drilling and for all kinds of exercises.

There has been an improvement in discipline since last inspection. The behaviour of the children when under orders was very pleasing.

The ex-pupils continue to be well spoken of. I have met them far and near and they stand well in the estimation of the communities where they reside.

An epidemic of measles prevailed last December, but happily all recovered, with the exception of one girl, who at the time of inspection, was suffering from typhoid-pneumonia and was dangerously ill, with but small hopes of recovery. Dr. Hanson had visited and did all in his power to help the patient.

The system of ventilation is as perfect as anything can be. There are swing windows on all sides, with proper extension rods to prevent damage from the action of the wind. There are overhead vents in class-rooms and dormitories, and no part of the institution is without means of adequate relief from vitiated air.

The buildings are lighted with coal-oil lamps. Some are secured to the walls by strong bracket attachments and some are stand-lamps, carried by hand from one place to another.

General Remarks.

There are two other boarding schools on the inspectorate, one at Kenora, under Roman Catholic auspices, and another at Fort Frances, controlled by the same church. It is out of my jurisdiction to inspect and report upon these schools. I only know from general observation that they are properly conducted and well attended.

I have also visited during the year the Islington day school and the Manitou Rapids day school, both under the Church of England management. The former has been discontinued during the year, owing to lack of attendance, but the Manitou Rapids school continues to progress under direction of the teacher, Mr. Gill, who, for some fifteen years, has stayed at his post and has done most excellent work.

I regret to say that the attendance at day schools in this inspectorate has been very unsatisfactory, owing partly to the migratory habits of the Indians and partly to the fact that the schools are for the most part denominational, and the Indians

4 GEORGE V., A. 1914

object strongly to religious teaching, which has the tendency of drawing the children away from the religion of their fathers and of the life habits of their parents.

As this is the first report of the educational work of the inspectorate, I am unable to make it more thorough and attractive, but I am sincerely hoping that another year of work may put matters in better condition, and afford more material for congratulation and encouragement.

THE REPORT OF MR. W. J. CHISHOLM, INSPECTOR OF INDIAN AGENCIES, ON THE SCHOOLS IN THE NORTH SASKATCHEWAN INSPECTORATE, FOR THE YEAR ENDED MARCH 31, 1913.

Sturgeon Lake Day School.

This school, which was closed for some months, was re-opened on February 12, 1912, and was inspected on June 10.

Mr. Wm. Godfrey, who took charge of the school at the re-opening, had no previous training nor experience in teaching. I found him, therefore, working at considerable disadvantage, but yet meeting with very fair success in the employment of ordinary common-sense methods in the organization and management of the school.

His plans were as yet, however, only partially developed, and it was too soon to look for marked results from his efforts; and so far as any previous work in this school is concerned, it has no visible results. Mr. Godfrey may be regarded as starting from the beginning.

Even now, it may be observed that the interest which the teacher manifests in his duties, and the energy which he displays in the discharge of them, are already reflected in the attitude of the pupils, who are in a fair way of progress in the ordinary subjects.

The Indians show a fair appreciation of the school and increased interest in it. They make some noticeable effort to send their children regularly. But the reserve is about nine miles in length and is inhabited from end to end. The school is situated a little west of the centre, and latterly the pupils of the east end have been conveyed to and from school by team.

At noon, a wholesome meal is served to the pupils, in a comfortable and suitably furnished dining-room, in connection with the teacher's dwelling.

These attractions have resulted in a marked improvement in the attendance. I found the names of 33 pupils enrolled, which is almost the entire school population of the reserve; and there were 27 present on the day of my visit. The number of school days in the June quarter to that date was 48, and the daily average attendance for that time was 19, while the average for the week previous to the inspection was 23.

The school building is of logs, a rather poor structure, and not large enough to properly accommodate a full attendance of the pupils enrolled. It is well located, on a clean, level, well drained site, overlooking the lake.

Some additions to the furniture and equipment were required.

The teacher's dwelling is a large, new structure, which, in addition to quarters for the teacher and his family, includes a dining-room for the pupils and two dormitories also intended for pupils.

Wahpaton Day School.

This school was definitely closed at the end of the December quarter. For some two years past the attendance had been steadily decreasing, and since last mid-summer there were only two pupils in actual attendance. The hope that had been entertained

SESSIONAL PAPER No. 27

for some time that the population of the reserve and the school attendance would be recruited by migrations from the Sioux encampment, near Prince Albert, was not realized; and latterly it became apparent that the continuance of the school was a mere waste of money.

Contributing to the failure of the school, while it was in operation, was the fact that the teacher, Mr. J. Beverley, had neither training nor natural aptitude for the work, while his time and attention were divided between his duties as teacher and those of farmer, which he combined.

Mistawasis Day School.

This school was visited, but not fully inspected, on June 25.

Rev. C. W. Bryden, B.A., who continues in charge, is a thoroughly trained teacher, but somewhat advanced in years, as well as in attainments, for the elementary work with which he is engaged.

The average attendance is about 14 pupils daily, which is about 50 per cent of the school population of the reserve.

Of recent years the Indians of this band have become very widely scattered over the reserve, and the homes of the pupils are now found from three miles north to seven miles south of the school; so that, it is only by conveying the children to and from school at considerable expense that even a fair attendance is secured.

The children have a substantial and well prepared noon meal, which is served in a dining-room provided for the purpose and attached to the teacher's dwelling.

Ahtahkakoop's Day School.

This school was visited briefly on two different occasions, and the attendance and equipment inquired into, but the class work was not examined. From what I observed, however, during the few minutes I spent in the school-room, I have reason to believe there is an improvement and progress in studies corresponding to the increase in attendance, which is quite marked.

The daily average attendance is now about 16, which is much larger than in the past, though not yet as large as it should be, considering that there are nearly 50 children of school age on the reserve.

The school is in charge of Mr. H. Hutchinson, whose scholastic attainments and ability are quite sufficient, while Mrs. Hutchinson discharges the duties of field matron and supervises the preparation of the children's noon meal.

Big River Day School.

This school was closed for holidays at the time of my last visit to the reserve, namely, in August. It is in charge of Mr. L. Ahenakew, who was for many years teacher in Ahtahkakoop's school. The Indians of this band take but little interest in the school, and the attendance is small.

Fort à la Corne School.

There were formerly two day schools on James Smith's reserve, at Fort à la Corne; the one which was known as Fort à la Corne South is now closed.

There are about 30 children of school age in the northern part of the reserve, and about 15 in the southern part. There is a noticeable tendency in recent years for the

4 GEORGE V., A. 1914

Indians of the north end to remove toward the middle or southern and more fertile tract. The present school buildings, though erected a little over a year ago, are scarcely central even for the population of the north end, while they are out of reach of the children of the former south school.

I inspected this school on September 1, and made a brief visit again on October 22. On the former occasion there were 21 pupils present, and on the latter 15.

There were 25 enrolled, of whom 17 were in the first standard, 1 in the second, 6 in the third, and 1 in the fourth.

There were only 152 days of school in the year, which ended June 30, last; and the average attendance for that period was 14 pupils daily.

The classes were examined in all the subjects, and although not far advanced, as is indicated by their grading, they read and recited well and performed their exercises creditably. Among other subjects hygiene is taught to standards III and IV, and the pupils showed in their answers an intelligent grasp of the elements of this important subject.

A number of girls of 16 to 18 years have left school recently, having been much benefited by their attendance during the last couple of years.

The manners, conduct, and personal appearance of the pupils show a steady improvement, and evidently receive constant attention.

Miss Hawley, the teacher, has now been in charge of this school for about three years, and there are in the school and on the reserve striking evidences of the interest she has taken in her duties and in the lives of the people around her. A matter of no slight importance, the Indians themselves have confidence in Miss Hawley's ability as a teacher. They manifest a due appreciation of her efforts, an evidence of which was given in the early fall when they joined heartily with her in carrying out successfully an exhibition which she had organized of school, garden and domestic products.

The buildings are new and in good repair, and the equipment was adequate.

Here, also, there is a pupils' dining-room attached to the teacher's dwelling, where the noon meal is served.

John Smith's Day School.

The school on John Smith's reserve was inspected on September 5 and November 15.

There were 32 pupils enrolled; at my former visit there were 23 present, and at the latter there were 18.

There were 206 days of school in the year ended June 30, and the daily average attendance during that time was slightly over 21.

The grading of the pupils was as follows: standard I, 9; standard II, 4; standard III, 7; standard IV, 7; standard V, 5; total, 32.

Rev. R. F. McDougall, who has been in charge of this school for the past two years, is a well-trying teacher, his success having been established here and previously in other schools. He has been able to influence not only his pupils, but also their parents, and to gain their respect and good-will. In this way a good attendance is maintained, despite the fact that no conveyances are employed, though some of the pupils have a distance of three miles to come, while two or three, besides walking two miles, have to cross the wide river in a row-boat.

The classes are making satisfactory and uniform progress in all the subjects. A class of four pupils, of about eight years, who have been in school for 18 months, are in standard II, and doing the work intelligently.

Singing is regularly taught. The health of the children is well cared for, both by the teacher and by Mrs. McDougall, who is a trained and very competent nurse, and deeply interested in the work in which she and her husband are engaged. Physical exercises of a varied and useful character are systematically practised.

SESSIONAL PAPER No. 27

The teacher's dwelling is a well constructed building, of suitable dimensions and appointments, which was erected about two years ago, and makes a comfortable and attractive home.

A new school building, of an approved and modern description, has just been completed. The plans were prepared by a skilled architect, but the work throughout, including concrete, carpentry, plastering and painting, was done by members of the band, ex-pupils of the Battleford industrial school, and is satisfactory in every particular.

Battleford Industrial School.

This school was inspected in March, 1912, and in February of the present year, and visited incidentally at intervals between these dates.

The recruiting ground for this institution has been narrowed in recent years through the establishment of boarding and day schools on the reserves, so that it is no longer possible to keep the school filled to its capacity, or indeed to half its capacity. The day schools referred to were, it is true, in existence for many years past, but they were serving a very poor purpose for want of competent teachers and proper equipment, and were attended, and that very irregularly, only by those whose parents refused to allow them to enter a boarding institution, or who, on grounds of health, were ineligible for admission. An effort which is meeting with some success has latterly been made to justify the continued existence of these institutions on the reserves, and to make them schools in more than mere name. This meets with the hearty approval of the Indians; but the effect is to make it very difficult to induce any of the parents to allow their children to be removed to schools outside the reserve on which they make their home.

The effect of this may be shown as regards this school, for the year 1912, as follows:—

Pupils enrolled January 1.	48
Admitted since.	6
	—
Total.	54
	—
Discharged.	14
Enrolled December 31.	40

Rev. Canon Matheson continues in charge of the school, and has as his assistants, Mr. J. M. Marshall as teacher, and Gilbert Wuttannee as farmer; Miss M. E. Kellogg, as matron; Miss M. E. Coates, assistant matron; Miss Helen Hayes, seamstress; Miss Norma Moody, assistant seamstress; and Miss M. A. Robinson, cook.

The girls are instructed, and have daily practice under excellent supervision, in all the ordinary branches of household economy. The boys' industrial training is equally practical, but is now limited to agriculture and allied pursuits.

Mr. Marshall is a well qualified teacher, and under his direction the classes are making steady and satisfactory progress. Results show best in reading, language, composition and geography, but are not wanting in any of the subjects.

Of the 36 pupils who were present during the examination of the classes, 16 were in standard I, 8 in standard II, 5 in standard III, 3 in standard IV, and 4 in standard V. Four treaty pupils were absent, and there were 4 pupils present who are not enrolled and not included in the foregoing classification. Of these last, 2 were in the first standard, 1 in the fourth, and 1 in the fifth.

The financial affairs of the institution were carefully looked into. While the attendance, and consequently the revenue from per capita grant, has decreased rapidly of late, it has not been found possible to reduce the running expenses proportionately. Accordingly, notwithstanding the most careful management, there has been for the

4 GEORGE V., A. 1914

past five years an increasing annual deficit. The industries still contribute substantially to the revenue, but not so largely as in former years.

Red Pheasant's Day School.

This school was closed on the occasion of my latest visit to the reserve, about a month ago, as was also the school on the neighbouring Stony reserve. Neither of these has been accomplishing anything of value for some time past.

A plan is now being initiated whereby these two schools will be amalgamated, a new building erected on a site central to the population of the two reserves, a properly qualified teacher employed, and an 'improved' school thus established. The now usual noon meal will be provided, and it may be found advisable to have a few of the children from the remoter parts conveyed to and from school by team.

Moosomin's Day School.

This school, which has been closed for many years, was re-opened about the beginning of November, in temporary quarters furnished gratis by the Roman Catholic mission.

The teacher who has been employed is Mr. A. E. Rotsey, who, although without experience and training for these duties, has yet some other qualifications that might be turned to good account in the position. As yet, however, I have not had an opportunity of examining the results of his work.

The present school is located outside the reserve, but at such a point that it is scarcely less convenient for the Moosomin band on that account, while it could be attended also by the children of the Saulteaux reserve, which lies adjacent, should these people be willing to avail themselves of its advantages.

General Remarks.

The Poundmaker, Little Pine, Meadow Lake and Montreal Lake day schools, and the Onion Lake boarding school were not visited during the year.

THE REPORT OF MR. W. M. GRAHAM, INSPECTOR OF INDIAN AGENCIES AND RESERVES IN SOUTH SASKATCHEWAN, ON INDIAN SCHOOLS IN SOUTH SASKATCHEWAN, FOR THE YEAR ENDED MARCH 31, 1913.

Assiniboine Day School.

Miss Laurence is still in charge of this school. I made an inspection early in May and found everything in good condition.

There were 19 children in attendance, and on making comparisons I found that the average for the year was quite satisfactory. The older Indians take quite an interest in this school, and as long as the present teacher is in charge I believe that good results will follow.

I found that the children were progressing well in the class-room, and in fact, was surprised at the advancement that had taken place, especially when we take into consideration the fact that these children live at home with parents who, in most cases, do not speak English and have had no educational training, as this would naturally

SESSIONAL PAPER No. 27

have the effect of retarding their progress. All the children were well dressed and clean.

At the time of my visit the gardening season was on and each child was given a plot to look after during the summer. This gives them an excellent training, especially the girls, who should follow up this work after they leave school.

The building, inside, was clean and everything was in order and looked quite business-like. The surroundings and fences were also in good condition. The improvements made on the teacher's residence will be appreciated and add much to her comfort.

Day Star's Day School (Anglican).

This school is situated on Day Star's reserve, in the Touchwood agency. At the time of my visit, which was made in June, there were 12 children in attendance, which is good, when it is considered that the population of the reserve is very small. The average keeps about the same throughout the year. The children were fairly well advanced with the class-room work, particularly with spelling and arithmetic, but the pronunciation was not good. They were not as clean as I have found them on previous visits, and the room was not as clean as it might have been. I trust there will be an improvement when next I visit the school.

There is a quarter of an acre of garden in connection with this school, but it was suffering from want of rain at the time of my visit, and as a consequence did not look well.

The Indians on this reserve take a great interest in the school, and I trust the teacher, Mrs. Smythe, will improve conditions considerably by insisting on the cleanliness of the children.

Gordon's Boarding School (Anglican).

This school is situated on Gordon's reserve, in the Touchwood Hills agency. I made my inspection in June. At that time Mr. W. A. Monk was in charge, but had tendered his resignation, and the new principal was expected at any time to take over the work.

The school has an authorized grant for 30 pupils, but if proper accommodation were furnished, there would be no difficulty in doubling this number, as there are a great many children of school age on Poorman's reserve, who are attending no school.

In my inspection report on this school I pointed out that the building could easily be enlarged to meet the requirements of this reserve.

There was a slight improvement in the class-room work, but it is not up to the standard it should reach. The building throughout was scrupulously clean. A great many repairs are required.

There is no farm in connection with this school, which I think is a mistake, as nearly all the boys who graduate from the school will be expected to earn their living by farming. A boy who has not been taught the care of animals and the preparation of the land till after he is twenty years of age, cannot be expected to make a success as a farmer, especially on an Indian reserve, where it is so difficult under the best of circumstances to make Indians successful farmers.

Round Lake Boarding School (Presbyterian).

When I visited the Round Lake school, the children were away on their summer vacation, and consequently I did not see the class-room.

4 GEORGE V., A. 1914

There is nothing new to report regarding the buildings, which were in about the same condition as when I last reported. The church has decided to put up new buildings and a large quantity of material is already on the ground.

Crowstand Boarding School (Presbyterian).

I visited this institution at the Pelly agency, on October 22, 1912. This school is fortunate in having an efficient staff, most of whom have been in the institution for a long time.

At the time of my visit there were 48 children in attendance; the authorized number being 50. I have never seen such a lot of healthy-looking Indian children in a school before.

The class-room was well conducted and the children making good progress under Miss McLaren, who has been at the school for several years, and understands the Indian children thoroughly.

The girls receive a thorough training in housework, sewing, &c., which they should be able to put into practical use when they leave school. There is a good farm, well managed, on which the boys receive a good training.

The area under crop at the school farm last year was about 70 acres of grain and 5 acres of roots. From all appearances, the grain should have yielded well.

The school has 10 horses and 22 head of horned stock.

The farm buildings and general surroundings of the institution were in good condition.

The dormitories were well ventilated. The children receive medical attention when it is necessary to have a doctor, but I should say this is not very often.

The financial standing of the school is excellent.

Keys (St. Andrew's) Day School (Anglican).

This little school is situated on Key's reserve. The building is a log structure, with a shingled roof, and was built by the Indians of the reserve. With a few slight changes it could be made quite comfortable. These suggestions I have made in a separate report.

The school had just been opened two or three days before my visit, and I was surprised to find 17 children enrolled. I cannot say anything at present of the class-room work, as the children were just beginning and most of them could not speak a word of English.

The teacher, Mr. Guy Markham, holds a first-class certificate. He is quite enthusiastic and should do well.

Valley River Day School.

This little day school is situated on Valley River reserve, in the Pelly agency. Miss Annie Clair is in charge and is doing excellent work. The attendance has been very regular, as reports forwarded from time to time will show. There are 10 children enrolled and 7 were in attendance at the time of my visit. The reserve is small and there are very few children of school age. The children were quite clean and well dressed. The school was clean and everything in good order.

File Hills Boarding School (Presbyterian).

This institution is situated near the File Hills agency. The management of the school is under the Rev. H. C. Sweet, and Mrs. Sweet acts as matron

SESSIONAL PAPER No. 27

The building is complete in every respect and is without doubt the finest school building in this inspectorate. The number of pupils has been steadily increased, till they now number 45.

The farm at this school is not at all what it should be. Last year the crop amounted to practically nothing, and there is great room for improvement in this direction. There are quite a number of live stock about the place. This school has not been fortunate in having good men as instructors. A good deal of the time it has been without a man at all, and as a result the outside work has suffered and has not been up to the standard.

THE REPORT OF MR. J. A. MARKLE, INSPECTOR OF INDIAN AGENCIES AND RESERVES, ON THE PROTESTANT SCHOOLS IN THE ALBERTA INSPECTORATE, FOR THE YEAR ENDED MARCH 31, 1913.

Red Deer Indian Industrial School (Methodist).

This school is under the auspices of the Methodist Church, and is located about 4 miles west of the city of Red Deer.

The Rev. Arthur Barner recently resigned the principalship and was succeeded by the Rev. Jos. Woodsworth. Mr. Barner left the school with a full enrolment of pupils, the work prospering, the best wishes of the staff, present and ex-pupils, parents of children tributary to the school, also of the community with whom he had business relations during the 6 years he had charge of this school.

The staff comprises 10 persons, and includes Mr. F. J. Dodson, who holds a second-class teacher's certificate.

There were 48 boys and 33 girls enrolled when I made the inspection on January 22, last.

The pupils were classified as follows:—

		Boys.	Girls.
Standard	I	31	18
"	II	13	8
"	III	2
"	IV	4	5
		—	—
Total		48	33

Mr. Dodson is an efficient and capable teacher, and the class-room work appeared to be progressing.

The residential sections of this institution are of brick and stone and while they are substantial they are not modern in their internal design and only inadequately meet the requirements of an institution of this kind.

Of the 1,120 acres of land, in connection with this school, 250 were under crop last season. The remainder is partially covered with light timber to the extent of about 200 acres, and it, and the other 670 acres, is devoted to pasture.

The live stock consisted of 12 horses, 30 cows, 54 head of other classes of cattle, 19 pigs and about 30 fowl.

Industrial work is carried on in various branches. The older boys assist at stable work and during the growing and harvesting seasons they help to some extent at the various duties in connection therewith. The girls assist at, and are taught, various domestic duties such as general housework, sewing, knitting, &c.

4 GEORGE V., A. 1914

Sarcee Boarding School (Church of England).

This school, under the auspices of the Church of England, is located about 10 miles from the Calgary post office and near the southeast corner of the Sarcee reserve.

The Venerable Archdeacon Tims is the honorary principal and the staff consists of 4 persons.

This institution was visited on February 18, and there were then 9 boys and 7 girls enrolled and classified as follows:—

		Boys.	Girls.
Standard	I	5	3
"	III	1	2
"	IV	3	2
		9	7

Miss Tims had charge of the classes and apparently was doing very good work, judging from the creditable manner in which the pupils read and synonymized the difficult words of their lessons.

The building in use for class work and residence is old, considerably dilapidated and unsuited for a residential school. It is the intention, I understand, to provide a new and modern set of buildings this season for school purposes on this reserve.

About one and one half acres of land was devoted to the growing of roots and garden stuff for table use last season, and with satisfactory results. An ample supply of home-grown roots and garden stuff, not only lessens the cash outlay for food, but ensures a wholesome change of diet for the staff and the pupils.

Samson's Day School (Methodist).

This school was inspected on January 28. There were 6 boys and 6 girls present, classified as follows:—

		Pupils.
Standard	I	7
"	II	4
"	III	1

This school is located on the Samson's reserve, near the Battle river, and about 10 miles from Ponoka. It is under the auspices of the Methodist Church, and with Miss Abbie Aylen in charge. Miss Aylen does not hold a teacher's certificate.

The children who attend this school are transported to and from their homes and, besides, are given a mid-day meal. Notwithstanding the favourable opportunity for the children of this reserve to get to school, the attendance has been very irregular, and only one boy, of those present on the day I made the visit, was able to read reasonably well. This boy, too, wrote very legibly.

Thirteen children from this reserve are pupils at the Red Deer industrial school, and there are about 50 of school age who adhere to the Methodist faith still on the reserve.

Peigan (Victoria Home) Boarding School (Church of England).

This school is situated near the western boundary of the Peigan reserve and is under the auspices of the Church of England.

There were 12 boys and 6 girls present on March 3, classified as follows:—

SESSIONAL PAPER No. 27

	Boys.	Girls.
Standard I.	0	2
“ II.	2	1
“ III.	4	2
“ IV.	2	0
Kindergarten class.	4	1
	12	6

There were seven pupils in the hospital and it was the intention of the medical officer to place several more there as soon as room could be made for them. The ailments of the pupils referred to were varied. Class-work was disorganized owing to the majority of the pupils being ill.

The staff consisted of Captain C. E. Fisher, principal, and a staff of three others. Miss Meginson, a practical nurse, was in charge of the hospital, but she is not included among the regular staff.

Miss Jones was the teacher, but she does not hold a teacher's certificate.

The stock at this institution comprises 1 horse, 6 cows, 2 yearling calves, 2 pigs and 20 head of poultry. None of the cows were giving milk.

The church authorities own 140 acres of land at this point. About 60 bushels of potatoes, turnips and carrots were grown last season and, besides, some garden stuff.

Blood (St. Paul's) Boarding School (Church of England).

This school is about 16 miles from the town of Macleod and within a mile of the Blood agency.

The Church of England, under whose auspices this school is operated, owns 160 acres of land in connection with this institution.

The Rev. S. Middleton, principal, is assisted by five other members of a staff. Miss Gardner, teacher, does not hold a teacher's certificate, but is a graduate of a university in Ireland.

There were 28 boys and 12 girls enrolled on March 14, classified as follows:—

	Boys.	Girls.
Standard I.	16	3
“ II.	1	3
“ III.	6	3
“ IV.	4	0
“ V.	2	3
	29	12

The children exhibited some timidity and there seemed to be a lack of expression when reading. On the whole, however, I concluded that reasonable progress was being made in the class-room.

The buildings meet the requirements fairly well, with the exception of the cow-stable.

The stock consists of 5 horses, 6 cows, 8 head of other cattle, 5 pigs and 50 head of poultry.

All the cows were giving milk, and this assures a supply for the pupils and the staff—a necessary adjunct to the food-supply of all well managed schools.

The stock here was all in fair condition.

About 40 acres of land is cultivated, and about 300 bushels of potatoes, 300 bushels of turnips, 10 bushels of carrots, 500 heads of cabbage and a few bushels of onions were raised. There were, besides, about 10 tons of green feed grown and some garden stuff.

4 GEORGE V., A. 1914

There is a very good gymnasium fitted up in one of the outbuildings. Boys and girls take turns in the use of the appliances in the gymnasium, and this exercise tends to healthfulness of the pupils.

Old Sun's Boarding School (Church of England).

This school is located on the Blackfoot reserve, about one mile south of Gleichen, a town on the main line of the Canadian Pacific railway, 56 miles east of Calgary.

I visited this institution on April 9; there were 23 boys and 18 girls in attendance, classified as follows:—

Standard I.	19	12
“ II.	4	6
	—	—
	23	18

The Rev. Mr. Gandier is the principal, and had only 4 assistants; too few, in my opinion, to properly operate an institution of the dimensions here, and with 41 pupils.

The school has 160 acres of farm-land, and of this area 10 acres is broken and about ready for a crop.

With the exception of the class-room building, which was refitted and made as good as a new building, all the buildings were new a year ago and modern in almost every respect.

The live stock consisted of 1 cow and 9 fowl.

About one-quarter acre of garden was cultivated last season, and a good crop of garden stuff harvested.

THE REPORT OF MR. W. E. DITCHBURN, INSPECTOR OF INDIAN AGENCIES, ON SCHOOLS IN SOUTHWESTERN BRITISH COLUMBIA, FOR THE YEAR ENDED MARCH 31, 1913.

COWICHAN AGENCY.

Kuper Island Industrial School (Roman Catholic).

I visited the Kuper Island industrial school on October 24. This school is now in charge of Rev. August Urlings, S.M.M., as principal, with Rev. Wm. Lemmens, assistant principal; Brother Lecrom, trade instructor, and Brother Mondnet as farm instructor. The staff for the girls' department consists of Sister Mary Olympus, superior and principal; Sister Mary Stanislaus, cook; Sister Mary Albert, housekeeper; Sister Mary Moiese, sewing teacher.

There were 61 pupils on the roll—33 boys and 28 girls; the grant is for 60. Since my visit in October, 8 of the pupils have been expelled from the school for breaking out of their dormitories at night. Four of these were expelled in October, and again 4 were dismissed late in the month of January.

The principal reported that the pupils had been making very good progress with their studies. Three of the pupils who had been sent to their homes earlier in the year had since died. Two of these had been quite young. Generally, the health of the pupils had been good.

The buildings were in a poor state of repair, and it is of the utmost importance that they should, at an early date, be replaced by a new and modern school capable of accommodating at least 100 pupils.

SESSIONAL PAPER No. 27

Of the 90 acres of land which constitutes the school farm, about 50 was under cultivation during the year, 6 acres having been cleared since last report. Upon this land were grown 500 sacks of potatoes, 40 sacks wheat, 50 sacks oats, 25 sacks apples and pears, 20 tons of hay, 35 sacks carrots, 30 sacks onions, one ton of cabbage, and 50 sacks of sugar beet for the cattle.

The live stock consists of 9 cows, 1 bull, 1 heifer, 5 pigs, 3 horses and 150 chickens.

Besides their regular lessons in the class-rooms, the boys are instructed in farming principally, some also being instructed in carpentering and blacksmithing. The girls are taught housekeeping, sewing, cooking and music.

Regular lessons are given in hygiene. The girls also practise calisthenics, and the boys have a very good gymnasium.

One of the old barns was taken down last year and the lumber was used in the construction of a new open recreation hall for the girls. This building has a wooden floor and makes a first-class place for their amusement during wet weather.

Fire-fighting appliances are kept in place, and drills are given in the matter of emptying the buildings in case of a fire.

Nanaimo Day School (Methodist).

I visited this school during the month of January. Miss M. Rogers is the teacher, having succeeded Rev. Mr. Knott, who had to give up the work on account of ill health. There are 25 children on the roll—10 boys and 15 girls, and the average attendance has of late months been very good indeed. The school is located on the Nanaimo reserve, close to the Indian houses, and as the Indians themselves stay on their reserve for the greater part of the year, there ought to be a good regular attendance. Under Miss Rogers' tuition the pupils are making fine progress. Their health has been all that could be desired during the past year. The school building is in first-class repair.

Koksilah Day School (Methodist).

This school is situated at Koksilah Station close to the Koksilah reserve, but a considerable distance from the Indian farms. Rev. C. A. Dockstader is the teacher and the children under his care are making fair progress. There are 14 boys on the register, and the average attendance is 8. The children have enjoyed very good health during the past year, there having been no epidemics. The building is in a good state of repair and kept well ventilated. The authorities of the Methodist Church have purchased a piece of land further down the main road and propose building a new school on this site. As this would place the school in a much more central location, a better average attendance should be the result.

West Saanich Day School (Roman Catholic).

This school had been closed from November to January, owing to the fact that very few of the Indians were on the reserve. Miss Hagan is the teacher, and when the children attend regularly they make fair progress under her tuition. The building is a very comfortable one for school purposes. It is expected that for the next few months, until the Indians go away again, there will be a fair average attendance.

Songhees Day School (Roman Catholic).

Since the Songhees Indians surrendered their old reserve in Victoria city and removed to Esquimalt Harbour, they have been without a school. A fine new school is now, however, being constructed, and when completed should have a good average

4 GEORGE V., A. 1914

attendance. It is expected that the building will be completed in the course of a few months.

KWAWKEWLTH AGENCY.

Alert Bay Industrial School (Church of England).

I visited this institution on November 25, 1912. The staff comprises A. W. Corker, principal; Mrs. Corker, matron; George M. Luther, teacher; Miss Warrener, assistant matron; Eli Hunt, trade instructor; A. E. Weaver, physical drill instructor and assistant trade instructor.

There were 35 pupils on the register, the grant being for that number. The progress made by the children during the year had been very good, and the principal expected that four of the pupils would take the high school examination in June next.

The health of the pupils was reported to have been very good during the past year. The studies in hygiene are given regularly, and in these the pupils appear to take a keen interest.

The conduct of the pupils was stated to have been first-class.

The school building is in a very good state of repair, but there is no provision in the institution in the matter of hospital accommodation for pupils who are sick with infectious diseases and require to be isolated, and the practice has been to have them cared for at the hospital of the Columbia Coast Mission.

There are now about five acres of land for garden use, one acre being cleared during the past year.

The live stock consists of 2 cows, 1 horse, and 27 chickens.

The boys, who work in the carpenter-shop, show considerable aptitude in making mission furniture, and I have observed some very good samples of their work.

Besides their regular lessons, the boys are given fire-drills at regular intervals; also instruction in the use of the fire-fighting appliances.

Alert Bay Day School (Church of England).

I visited this school on November 26, 1912, and March 3, 1913. At the time of my first visit there were only 8 children present—3 boys and 5 girls—all of tender age. Miss M. Clowes was substituting for the regular teacher, Mr. Moody, who was sick at the time. On my second visit, Miss Clowes was still in charge of the school, and brought the attendance up to 37. There were 36 pupils in the school at the time of my last inspection, although there was a potlatch in progress on the reserve, which is a considerable counter attraction for the children. While the average attendance for the previous quarter had only been 8.32, Miss Clowes fully expected that the present one would end with an average of over 20. Miss Clowes takes a keen interest in her work and keeps the children interested in their studies, and it is to be hoped that she will continue as teacher at this school. It can hardly be expected, however, that this large attendance will be maintained throughout the school year, for the Indians will soon be leaving for the oulachon fishing and will be away from Alert Bay for a month or so. The health of the pupils had been very good since Miss Clowes had been in charge. The school-house, which is practically new, is in first-class condition.

Alert Bay Girls' Home (Church of England).

I visited this institution on November 26, 1912. This school has been placed under the direct charge of Mr. A. W. Corker, principal of the industrial school. The staff is: Miss A. R. Neville, matron; Miss M. E. Nixon, teacher; Miss Louisa Harris,

SESSIONAL PAPER No. 27

assistant matron. This school, a new building, which was opened in the month of August, 1912, has a capacity for 30 pupils. At the time of my visit there were 21 pupils on the roll, 13 belonging to the Kwawkewlth agency and 8 from other agencies. There should be plenty of girls in the Kwawkewlth agency alone to fill this school, and I am of the opinion that every effort should be made to obtain pupils from this before taking any from outside agencies.

I heard nothing but the best reports, from residents of Alert Bay, as to the improved appearance of the pupils since the new school had been opened. This speaks well for the management. Now that it has been decided not to use the class-room of the day school in which to have class work for the pupils of the girls' home, some provision will have to be made for one on the premises. At the time of my visit the girls were being taught in the play-room.

Gwayasdums Day School (Church of England).

This day school, which part of the year is located at Kingcome Inlet, has been closed for the past year, the missionary, Rev. Herbert Pearson, having left the district. The attendance had always been very small.

NEW WESTMINSTER AGENCY.

Coqualeetza Industrial Institute (Methodist).

I visited this school at Chilliwack in the months of April and September, 1912. The staff is composed of Rev. R. H. Cairns, principal; G. Green, farm instructor; Wm. Allen, carpenter and gardener; Miss Mary Holtrop, matron; Miss Jessie McCallum, assistant matron; Miss M. E. Jeffries, sewing instructor; Miss Rachel Gunson and Miss Cairns, teachers in the class-rooms; Mrs. Allen, cook; Miss L. Harding, in charge of the laundry.

There were 92 pupils on the roll, the grant being for 90. All were making satisfactory progress with their studies. Besides the regular class-room work, the boys are taught carpentering, farming and general gardening, and the girls plain and fancy sewing, cooking and general housework.

The health of the pupils had been first-class during the past year. One of the girls, who showed a tendency to tuberculosis in February, 1912, was sent to her home and died in April of the same year.

The buildings are in a good state of repair, and are heated by hot air and well ventilated. The dormitories and the class-rooms are kept clean and comfortable. The flooring of the dining-room and boys' hall was repainted during the summer, and considerable work was also done in the matter of putting up new fences.

The school farm consists of 85 acres, from which splendid crops, of all kinds of vegetables and fruit, were taken last year, the bulk of which was used at the school.

There are ample fire-fighting appliances in the school, and the pupils are instructed in the use of the same. City water is laid on at the school, of which there is an abundant supply. The children all seemed contented and happy.

St. Mary's Mission Boarding School (Roman Catholic).

I visited this school in the months of April and December, 1912. The staff is composed of Rev. V. Rohr, O.M.I., principal; Bro. Lajoie, electrician; Bro. L. Manseau, gardener; Bro. J. Mulvaney, dairy instructor; Sister Mary Rogation, boys' teacher; Sister Mary Benedict, matron; Sister Mary Zephirin, assistant boys' teacher; Sister Mary Wilhemina, girls' teacher; Sister Mary Veronica, assistant girls' teacher; Sister Mary Pauline, cook, boys' school; Sister Mary Agnes, cook, girls' school.

4 GEORGE V., A. 1914

In April there were 33 boys and 36 girls, and in November 31 boys and 36 girls on the roll, the grant being for 60 pupils.

This school, which is situated on high ground, about a mile from Mission City, commands a splendid view of the Fraser river and the surrounding country. It is heated by steam and lighted with electric light. During the past year, a 70-horse-power boiler was installed, which supplies the vacuum system of heating for the boys' and girls' schools, and the gravity system for the church. There are 42 radiators in the boys' building and 46 in the girls'. The cost of this plant, including boiler-house, was over \$7,500. The laundry was also improved by the addition of a drying-room, heated by hot-water pipes. With the installation of these modern improvements the danger of fire is reduced very materially. The exteriors of all the buildings were also repainted last summer, and about one mile of fencing was put up.

The buildings, though old, are in a first-class state of repair, and the dormitories and class-rooms are always kept in a very clean state.

The pupils have all been making good progress with their studies in the class-rooms, besides which, the boys are taught farming, gardening, and general handy-work, and the girls, plain and fancy sewing, cooking, and housework. Their health was all that could be desired during the past year.

There is a plentiful supply of pure water on the premises, and the sanitary conditions are good.

The farm consists of 310 acres; 10 acres having been purchased last year for the purpose of securing their water rights. One hundred acres were under cultivation and 10 acres cleared last year. Upon this farm were grown 50 tons potatoes, 6 tons oats, 1½ tons wheat, 15 tons roots, 2 tons cabbages, ½ ton carrots, 1 ton parsnips, besides a large amount of all varieties of fruits, except cherries, which were a failure.

The live stock consists of 25 head of cattle, 5 horses, 3 colts, 35 sheep, 16 pigs and 100 chickens.

A large amount of equipment was also purchased for the farm during the year, consisting of a Bain wagon, extension disc harrow, single disc drill, open binder, hay-rake and a steel land-roller.

The management proposes making extensions to both the boys' and girls' buildings in the near future, the object in view being the accommodation of a greater number of pupils. The plans for these proposed additions are now being prepared by the architect.

Sechelt Boarding School (Roman Catholic).

This school has generally been classified as being owned by the Roman Catholic Church, but such is not the case, the money spent on the construction of the building having been contributed partly by the Sechelt tribe, from their trust funds, and partly by the department. The church has also incurred some expenditure in the erection of the laundry building and water-tanks.

The staff consists of: Sister Theresine, principal; Sister St. Ouen and Sister St. Denis, boys' teachers; Sister Mary Colombe and Sister Octavia, girls' teachers; Sister Amelia and Sister Josephine, cooks.

At the time of my visit in February, there were 51 pupils on the roll—20 boys and 31 girls. The grant is for 50 pupils. All the pupils had enjoyed very good health during the year, and had been making fair progress with their studies. Lessons in hygiene are given regularly, and calisthenic exercises are taken part in by the pupils, all of whom appear to take a keen interest in the same. One pupil (consumptive), sent to the hospital in the month of November last, died early in February.

The building is in a good state of repair, but the boys' dormitory is somewhat crowded. The whole school is kept very clean, and ventilation is effected by keeping the windows open.

SESSIONAL PAPER No. 27

Fire drills are given at regular intervals, and the fire-fighting appliances are kept in place, ready for any emergency.

The amount of land for garden purposes is only about 4 acres, but this is not enough to supply the amount of vegetables, &c., for the use of the school. The reserve on which the school is situated is over 600 acres in extent, and it would be well if the Indians would consent to allot about 10 acres more for the school.

The water, which is plentiful enough in the winter months, is very scarce in the summer, owing to the fact that the old wooden flume is in very bad condition and should be renewed. This matter was reported upon last year, but something should be done in the very near future, in order that during the dry months a better supply of water may be had.

Six pupils were honourably discharged during the past year.

The live stock consists of 4 cows and 100 chickens.

Squamish Mission Boarding School (Roman Catholic).

This school is situated at North Vancouver, in close proximity to the reserve. The staff consists of: Sister Mary Amy, principal; Sister Mary Eugenie, matron and teacher; Sister Mary Ildefonse, teacher; Sister Mary Anatolie, cook; Sister Mary Gonzales, assistant cook.

I visited this school in February and found that the pupils were making excellent progress in their studies, their pronunciation being very clear and distinct.

With the exception of an epidemic of measles among the pupils last spring, their health had been very good.

The building is in a good state of repair, is heated by hot air and ventilated by keeping the windows open. There are self-flushing water-closets, and the sewage is drained off into Burrard inlet. The school is always kept very clean.

The garden is about 5 acres in extent, but as the soil is very productive large crops of vegetables and fruits are gathered, all of which are used at the school.

Besides the full equipment of fire-fighting appliances, which are always kept in place, a fire-alarm gong has been installed during the year. Fire drills are given regularly.

Acting upon my recommendation of last year, the matron has placed a number of the pupils in a room that had previously not been in use, thus doing away with the overcrowded state of the dormitories, which had existed in the past.

Homalco Day School (Roman Catholic).

This school is situated on the Aupe reserve, and is of the semi-boarding class. The school had been closed for some time during the year, owing to the difficulty of obtaining a teacher to take the place of Mr. Thompson. It was re-opened in the early part of September last, with Miss Kathleen Richards as teacher, and Miss Ethel Richards as matron. There are 30 children on the roll, and the average has been about 19. They are making very fair progress under Miss Richards' tuition. The greater part of the pupils sleep and have their meals at the school, the parents supplying the food. This ensures a very good average attendance. The department's innovation of giving prizes has also materially helped in the matter of attendance.

Sliammon Day School (Roman Catholic).

This school is situated on the Sliammon reserve, and Mr. M. L. Biggar is the teacher, having succeeded Mr. J. W. L. Brown in April last. There are 16 boys and

4 GEORGE V., A. 1914

9 girls on the register, the average attendance being about 17. The children are all making fair progress, and their health had been good during the year. The giving of prizes for attendance at this school has also proved beneficial.

WEST COAST AGENCY.

Alberni Indian School (Presbyterian).

This school is situated close to the Tsechart and Opitshart reserves, at Alberni. The staff is composed of H. B. Currie, principal; Mrs. Currie, matron; Miss M. A. Grant, teacher; Miss Ethel Wright and Mrs. J. Stevens, assistant matrons.

There are 50 pupils on the roll—25 boys and 25 girls—the grant being for 50. All the pupils are making excellent progress in the class-room, under the tuition of Miss Grant.

At the time of my visit, a number of the pupils were confined to their beds with pneumonia, as a result of a very sudden change to wintry weather that had taken place all over the coast section of British Columbia. I am pleased to say that all these pupils have since recovered. One other pupil had been taken down with tubercular meningitis, and has since died, this being the second death from this disease among the pupils during the year. With the exception of the epidemic of pneumonia spoken of, the health of the pupils has been very good for the whole year.

The buildings are in a very good state of repair, are heated by hot air, and ventilators placed in the baseboards. The interior of the main building has been repainted and papered during the year. A 4-horse power gasolene engine has been installed, to pump water into the tank, and hydrants have been placed throughout the garden; 200 feet of fire hose have also been added to the fire-fighting equipment.

The amount of land under cultivation comprises 15 acres, and a first-class crop of vegetables and fruit was gathered during the fall.

The live stock consists of 3 horses and 100 chickens.

Besides their regular studies in the class-room, the boys are taught farming, gardening, baking and general handiwork; and the girls plain and fancy sewing, cooking and housekeeping.

The fire-fighting appliances are kept in place, and the water buckets kept filled with water; regular fire drills are also given the pupils.

Three pupils were honourably discharged during the year and two more have about completed their full term in the school.

All the pupils seem to be contented, and the principal reported their morals had been very good.

Ahousaht Boarding School (Presbyterian).

I visited this school on January 25. The principal is Rev. J. T. Ross, but he gave me to understand that he was about to resign his post. The rest of the staff are Mrs. Ross, matron; Miss L. McIvor, teacher; and Miss J. McIvor, assistant matron.

The number of pupils on the roll was 31—17 boys and 14 girls.

The progress made by the pupils in the class-room, under Miss McIvor's teaching, had been very good indeed. The school had also been very fortunate last year, in that the health of the pupils had been good, there having been only a slight epidemic of grippe during the past winter. One pupil, who was discharged in 1911, died in August, 1912.

The building is in a first-class state of repair, being comparatively new. It is heated by hot air, and there is hot and cold water in the bath-rooms and inside wash basins. Another large tank was installed during the year for the purpose of increasing the supply of water for the institution, which in the past had been inadequate to

SESSIONAL PAPER No. 27

the needs of the school. A new cement floor was also laid around the furnace in the basement as a precaution against fire.

There are 17 acres of land for garden purposes, about two-thirds of which were under crop during the year. The land is not very productive and requires a great amount of fertilizing, consequently the yield of vegetables is not very large.

A new barn and chicken-house were constructed during the year.

Besides their regular lessons in the class-room, the boys are given instruction in carpentry and joining by Mr. Ross, and I have seen some very good specimens of their handiwork. The girls are taught plain and fancy sewing, cooking and general housework.

Clayoquot Industrial School (Roman Catholic).

I visited this school on January 23. The staff is as follows: Rev. Father Epper, O.S.B., principal; Sister Mary Claire, matron; Sister Mary Xavier, teacher; Sister Mary Clotilde, sewing teacher; Sister Mary Elizabeth, cook; George Stermer, trade instructor.

There were 50 pupils on the roll—29 boys and 21 girls. This school has a grant for 60 pupils. All the pupils were making fair headway in their studies in the class-room, and their health had been quite good during the year, though at the time of my visit, four of them were in bed with grippe. Last year three pupils had been sent to their homes, one with scrofulous neck and two with tuberculosis, and have died. There were no deaths in the school.

The building is in a fine state of repair. It is heated with hot water, and there is sanitary plumbing throughout the lavatories and bath-rooms. There is also a steam laundry in connection with this school, a plentiful supply of water, and good drainage. The sewage is carried out to the sea.

The amount of land for garden purposes at this school is quite small, only about 4 acres. Last year they had a very good crop of vegetables; but there is not enough land to grow the amount of vegetables, &c., required for the school.

The boys are taught carpentry, painting, shoe-repairing and boat-building, and the girls plain and fancy sewing, cooking and general housework.

Hygiene studies are given regularly, and calisthenic exercises are taken part in by the pupils.

Two boys and three girls were honourably discharged during the year, having completed their full term in the school.

A new shed was built last season, also a gravity railway for hauling freight from the beach to the school. A new house was also constructed on the beach. This house is for the use of Indians who come to visit their children at the school.

Clayoquot Day School (Roman Catholic).

This school is situated on the Opitsat reserve at Clayoquot, and Rev. Jos. Schindler, O.S.B., is the missionary and teacher. There are 14 children on the register, the average attendance, while the school is open, being about 8. The attendance had not been very regular, consequently the progress made by the pupils had only been fair. From the middle of June to the beginning of October, the Indians are practically all away from the reserve working at the canneries and hop-fields, and as the children always accompany their parents, the amount of education they receive during the rest of the year proves of little value, as they generally forget everything they have been taught by the time they return to the school.

Ucluelet Day School (Presbyterian).

Located on the Ittatsoo reserve, at Ucluelet, this school has 14 pupils on the register. Rev. H. W. Vanderveen is the teacher. The average attendance is

4 GEORGE V., A. 1914

slightly over 7. When the children attend regularly they make good progress, but at this reserve, also, the Indians are away for a considerable portion of the year. The general health of the children was reported to have been very good during the year. The school building is in a good state of repair.

General Remarks.

As will be seen from the foregoing report, the day school is not the success that it should be. This is accounted for by the fact that the Indians on the coast section of British Columbia do not reside permanently on their reserves. Early in the summer months, they start for the canneries and when the fishing season is over they move on to the hop-fields and other places where Indian labour is in demand, returning home in the month of October and sometimes later. During the winter months, the potlatch season begins, and the various bands have a period of visiting. The children sojourn with their parents, and are away from all schooling for practically six months of the year. On the other hand, the boarding and industrial schools are, in a great measure, fulfilling the aim of the department, by imparting to the Indian children a practical education, which should be of great benefit to them as they grow up, and do much to raise the Indian to a higher plane of civilization than they have been in the past. The residential schools should, wherever possible, be increased in size, in order that a greater number of pupils may be accommodated.

THE REPORT OF MR. A. M. TYSON, INSPECTOR OF INDIAN AGENCIES,
ON THE SCHOOLS IN THE NORTHERN INSPECTORATE, BRITISH
COLUMBIA, FOR THE YEAR ENDED MARCH 31, 1913.

BELLA COOLA AGENCY.

Bella Coola Day School (Methodist).

This school was visited on July 24, 1912, and again on January 28, 1913. Miss Gibson is the teacher, and is doing good work. The school-house is a good building, well provided with the necessary furniture, and sanitary conditions are good. There is room for improvement in the playgrounds provided for the children. On the dates mentioned, the attendance was small, but on looking over the roll, the average attendance seems to be satisfactory. Miss Gibson is energetic and painstaking, and takes great interest in the children.

BABINE AGENCY.

Hazelton Day School (English Church).

This school was visited on May 7, 1912, and February 12, 1913. On my first visit I found Miss Soal in charge of the school, but on the latter occasion the Rev. Mr. Peters had taken charge in the absence of Miss Soal, who was away in England. There are about 40 pupils of school age and all are enrolled. They appear to be doing good work, and the teacher seems satisfactory. There is a good school-house, and everything is kept in good repair, but new school desks should be provided.

Kishpiax Day School (Methodist).

I visited this school on May 9, 1912, and February 11, 1913. The Rev. Mr. Lee has charge of the school. The school-house is a comparatively new building and

SESSIONAL PAPER No. 27

ventilation and sanitary conditions are good. Since my first visit the school has been equipped with new desks, and is now one of the best-equipped schools in the Babine agency. The attendance is good and the children are making satisfactory progress.

Glen Vowell Day School (Salvation Army).

This school was visited May 9, 1912, and February 11, 1913. Miss Law is in charge, and appears to be thoroughly competent. The building here belongs to the Salvation Army, and I would respectfully recommend that it be purchased from them and moved down to the front line. On my second visit to Glen Vowell, I found that the new desks had arrived and were put in place. There are about 34 children of school age in the village, and the school attendance is good.

Rocher Deboulé Day School (Roman Catholic).

School is held in an old church building which is not in very good repair. A new school-house with the necessary furnishings is urgently needed. Father Godfrey is in charge of the school, but at the time of my visit was absent. I learned, however, that the attendance has been good and the teacher is energetic and painstaking.

New Kitseguecla Day School (Methodist).

I visited this school on May 13, and found Miss Edgar in charge. The school is a large building and requires an outside finishing. The attendance is fair and the children appear to be making satisfactory progress.

Andimaul Day School (Salvation Army).

I visited this school on May 15; Mr. Rankin is in charge. The school-house is in very good condition and quite satisfactory at the present time. Mr. Rankin reports that the children are making good progress.

Kitwanger Day School (English Church).

I visited this school May 16, and found Miss Kemp in charge. The school is at present being held in what is known as 'The Church Army building.' A new school with the necessary furnishings is badly needed. The pupils seem to be making fair progress, but, as the teacher has been changed every year, conditions are very unsettled. The attendance is fair.

Meanskinisht Day School (Undenominational).

This school, which is in charge of Miss Tomlinson, was inspected May 18, 1912. The school-house is comparatively new and quite satisfactory in all respects. The attendance is good, and the pupils making fairly good progress.

New Town (Kitselas) Day School (Methodist).

This school was inspected on May 18, 1912. Mr. Edgar was in charge. The attendance is large and the pupils are doing good work. The school is held at present in the church, and a new building with the necessary furnishings is urgently needed.

4 GEORGE V., A. 1914

NASS AGENCY.

Lakalsap Day School (Church of England).

There is a good school-house here, but for lack of a teacher the school was closed at the time of my visit, September 30, 1912.

Gwinoha Day School (English Church).

I visited this school October 1, 1912. Mr. Myers conducts the school in his own house, as there is no other suitable building. A new school, with the proper furnishings, is needed. Mr. Myers is doing very good work and the children are making satisfactory progress.

Aiyansh Day School.

I visited Aiyansh on October 1, 1912, and found that there had been no school for some time for want of a teacher and a suitable building, but the lumber had been provided and a new school was to be erected at once.

Gitladamiksh Day School.

I visited this village October 2. Here, also, they have been without a school and teacher for some time, but the lumber is provided for a new building which will be erected immediately.

Metlakatla Day School (Church of England).

This school was visited on April 22. Miss Jackson was in charge at the time of my visit, but has since been replaced by Miss Klippert. The building is fairly good and everything is kept in good repair.

Port Simpson Day School (Methodist).

I visited this school February 19, 1913. Mrs. Dudoward has charge of the junior division and Mr. Young the senior. Both divisions appear to be doing well and the attendance is good. The school building is in fairly good condition. The grounds should be cleared and ample playground provided for the children.

Port Simpson Boarding School for Girls (Methodist).

I inspected this school February 19, 1913, and found everything very satisfactory. Proper discipline is being enforced by the staff in charge; the sanitary condition of the building is good, and the pupils appeared healthy and clean. A good playground and open-air gymnasium have been provided for the use of the pupils, and proper arrangements are made for their amusement as well as for their education. There were 35 girls in attendance at the time of my visit.

Port Simpson Boarding School for Boys (Methodist).

Inspected February 19, 1913. The ventilation is poor in this school, and sanitary conditions are not very good. Better buildings are needed, as the present ones are utterly unsuitable and should be replaced with new ones. Playgrounds should also be provided, and, if possible, the school-room should be included in the living quarters. There are 20 boys in the home, who are at present taught in the day school by Mr. Young and are making satisfactory progress.

SESSIONAL PAPER No. 27

STICKINE AGENCY.

Tahltan Day School (Church of England).

The Rev. Mr. Thorman is in charge of this school, and the children are making satisfactory progress. The building is fairly good.

Telegraph Creek Day School (Undenominational).

I visited this school on September 12, but found it closed for lack of a teacher. When the school re-opens, there will be an attendance of from 10 to 15 pupils.

QUEEN CHARLOTTE AGENCY.

Masset Day School (English Church).

I visited this school February 22, 1913. Mr. Clayburg is in charge and doing good work. The school-house has been painted inside and out and new desks and blackboards supplied. The chimney has also been repaired, and a new one built. Sanitary conditions at this school are also very good, and in fact, the school is now first-class in every respect. Attendance is good and the work progressing favourably.

Skidegate Day School (Methodist).

I visited this school February 26, 1913, and found Mr. Connery in charge. There were about 24 pupils in attendance, all clean and well-behaved. Mr. Connery put them through their exercises, which were very well done. A wire fence has been built around the playground, which is a good, large one, and arrangements have been made for a new flooring, new front steps, and the painting of the building, both inside and out. New desks should also be provided. When the contemplated improvements have been carried out the school will be first-class in every respect.

General Remarks.

I am pleased to report that the children attending the various Indian schools which I visited appeared to be very clean and well dressed, and I was very favourably impressed with their bright and healthy appearance.

With one or two exceptions, the school buildings are in fine condition, and are a credit to the department. A little has been accomplished this year in the way of providing playgrounds for the children, but more attention should be paid to this during the coming year.

In the Nass agency, conditions prevailing at Aiyansh, Lakalsap and Gitladamiksh are very unsatisfactory, as the Anglican Church appears to have difficulty in securing teachers. It will be necessary for the department to appoint teachers for these places, and provide suitable quarters.

In the various boarding schools, it was noted that the fire-fighting appliances furnished were being kept in proper place for use in case of necessity.

THE REPORT OF MR. T. J. CUMMISKEY, INSPECTOR OF INDIAN AGENCIES, ON THE SCHOOLS IN THE SOUTHEASTERN INSPECTORATE, BRITISH COLUMBIA, FOR THE YEAR ENDED MARCH 31, 1913.

My report is of a general character. The inspector of schools and the principals' reports contain the detailed and statistical information required from each school.

There are 4 industrial, 1 girls' boarding and 2 day schools in this inspectorate.

Kootenay (St. Eugene) Industrial School (Roman Catholic.)

St. Eugene industrial school is situated in the Kootenay district, about 6 miles from Cranbrook.

I inspected this institute on March 18, 1913. The staff consists of 7 sisters and 1 farm instructor, Mr. J. M. Smith.

There were 80 pupils present on date of visit—38 boys and 42 girls. The pupils and staff have been recently moved from their old buildings into the beautiful and commodious new building which has been erected by the department. The accommodation and appurtenances have been well considered. The work of the staff and pupils can now be carried on efficiently and with pleasure.

The work and influence of this school, on the children of the past, is plainly visible in the lives and manner of living of the grown-up Indians who now inhabit the reserves. Their farms are fairly well cultivated and they understand what it means to their health to keep their homes clean and sanitary. The parents now take an interest in seeing that their children are educated and make good efforts to prepare them for school with proper clothing.

With regard to the work of progress of the sisters, it can be truly said that women of sacrificial souls are successfully carrying the banner of true civilization among the Kootenay Indians.

Kamloops Industrial School (Roman Catholic.)

This school is situated in the Kamloops agency, about 3 miles from Kamloops, on the north side of the South Thompson river. I inspected the school on October 22, 1912. Rev. Alph. M. Carion, O.M.I., is principal. There are 4 sisters and Mr. J. A. Rioux on the teaching staff. On the date of my visit, there were present 67 pupils—33 boys and 34 girls. Splendid work is being done in all the class-room work. Repairs have been made to the building in the way of baths and sanitation during the year, which were badly needed. The location and land are not well adapted for an industrial school. The area of land which is brought under cultivation by irrigation, by means of gasoline engines and a windmill, is very limited, and is not of a good agricultural quality. The buildings are old and I do not think it would be a wise policy to spend much money on repairs.

It is really surprising the work which Father Carion is accomplishing, with his limited means for work and still more limited finances.

Lytton (St. George's) Industrial School (Church of England)

This school is located in the Lytton agency, about 2½ miles from Lytton, on the Lillooet road.

I inspected this school on February 24, 1913. The staff consists of Rev. Leonard Dawson, principal; a farm instructor and assistant farm instructor, a garden instruc-

SESSIONAL PAPER No. 27

tor, irrigation man, cook, matron, schoolmaster, carpenter and laundry instructor. Mrs. Dawson is health-keeper and Miss Dawson supervises the dairy.

There were 33 pupils present on date of visit. They looked happy and healthful. The buildings are well adapted for the work for which they were built and the farm is conducted in a first-class manner.

When the present principal took charge of this institution there were only about 5 boys in attendance. It is now well organized, with 35 boys on the register, and appears to be on the path to do the work for which it was created, viz., to educate Indian boys so that eventually they might intermarry with the educated Indian girls, from All Hallows school at Yale, and thereby create better Indian homes and improved modes of living.

All Hallow Boarding School (Church of England).

This school is situated at Yale, in the Lytton agency. I visited this school on February 25, 1913. The staff consists of Sister Constance, superior; 2 other sisters, 2 lady teachers, a cook instructor and an outside man.

The class-room work is good and evidences of good housekeeping were apparent in the samples of bread and preserves which I saw, and which were the work of the girls' own hands. These sisters are doing remarkable work. They are deserving of every encouragement.

Williams Lake Industrial School (Roman Catholic).

This school is situated in a beautiful agricultural valley, about 6 miles distant from the main Cariboo wagon road, at 150-Mile house.

On the date of my visit, November 11, 1912, there were 62 pupils present—26 boys and 36 girls.

Rev. H. Boening, O.M.I., is principal. The farm instructor is J. D. Chiappini, with Brother Joseph as foreman; J. J. Swain is carpenter. There are 6 sisters on the staff. Sister Gabriel is matron and teaches the larger boys and girls. Sister Seraphin teaches the smaller boys. Sister Alexis teaches the small girls. Sisters Fabian and Lydia do the cooking and Sister M. Assumption is seamstress.

This institution is a living exponent of the success which has attended the missionary labour of the Oblates.

Organization, administration, education and tactful discipline are evidenced in all branches of the work.

The large farm is well cultivated and, besides supplying sufficient vegetables, meat, butter, milk and eggs for the institution, has to assist financially in keeping the school in its high state of efficiency. All the class-room work showed care and attention and the school-rooms were well ventilated and beautified with potted flowers.

I went through all the rooms, dormitories and basements. There are separate lockers for each boy and girl, which contained three suits for each.

Lytton Day School (Church of England).

This school is situated in the Indian village at Lytton. Miss Lily Blachford is teacher. There are 16 pupils on the register—8 boys and 8 girls. On the date of my visit, February 24, 1913, there were 12 pupils present—5 boys and 7 girls.

The children presented a clean appearance and their writing, for beginners, was good. They could count up to 100 and do simple sums in addition, subtraction and multiplication.

Miss Blachford can handle the children successfully.

The school-room presents an improved appearance since my visit in June last. Ten 2-seat desks have been supplied and maps of British Columbia, Dominion of Canada, America, and the Eastern Hemisphere are now in the room, and a new black-board has been added to the appurtenances.

Shulus Day School (Church of England).

I did not visit this school. It is in the Lytton agency, as Inspector Green was going there about the last of February, to look into matters, I deemed this sufficient.

General Remarks.

Before closing my observations on the conditions of Indian education in my inspectorate, I wish to say that the department has every reason to be encouraged by the work which is being done by the industrial schools and the boarding school. I am not in favour of day schools as a means of educating Indian children. There may be an occasional exception, where conditions are favourable. The industrial school is the true means of solving the question of Indian education. This is not my opinion alone, but the opinion of men who have devoted 30 years of their life to this work.

THE REPORT OF REV. A. E. GREEN, INSPECTOR OF SCHOOLS, ON THE
SCHOOLS OF THE PROVINCE OF BRITISH COLUMBIA, FOR THE
YEAR ENDED MARCH 31, 1913.

BABINE AGENCY.

Kitsegukla Day School (Methodist).

Teacher, Miss Susan Edgar.

Inspected April 15. I found 4 boys and 4 girls present. There are 21 children of school age on the reserve, only 13 are enrolled, but a number live at the old village, too far away to attend school. Those present were graded as follows:—

	Pupils.
Standard I.	4
“ II.	2
“ III.	2
	—
	8

The average attendance was 7.

The children had improved in reading, writing and spelling; the work in figures was good. The present teacher has taken the place of her sister, and is doing very well. Two Indian girls (sisters) are cared for in the teacher's home, thus they are able to attend school regularly.

The school-house has been much improved and is in good repair.

SESSIONAL PAPER No. 27

Rocher Deboulé Day School (Roman Catholic).

Teacher, Rev. A. Godfrey.

Inspected April 16, 1912. There were 24 present, 15 boys and 9 girls. Of the 30 children of school age, 27 are enrolled, with a fair daily average. Pupils are graded:—

	Pupils.
Standard I.	13
“ II.	14
	—
	27

The children had made fair progress; reading, spelling and counting, good; singing, very good. Father Godfrey is an excellent teacher. The building is a poor one.

Hazelton Day School (Church of England).

Teacher, Miss E. J. Soal.

I visited this school twice in April, 1912. I found 15 children present, 13 girls and 2 boys. There had been an average attendance for 6 months of a little over 14. The pupils were graded as follows:—

	Pupils.
Standard I.	15
“ II.	12
“ III.	8
“ IV.	4
“ V.	1
	—
	40

All the children of school age on the reserve were enrolled. Satisfactory progress had been made in arithmetic, geography and composition. Writing and drawing were very good; singing, good. Physical drills were well done. The girls are taught sewing.

Miss Soal continues to do good work. The Rev. Mr. Field, the missionary in charge, takes great interest in the school.

The school building was in good repair, bright and clean.

Kishpiax Day School (Methodist).

Teacher, Rev. R. W. Lee.

Inspected April 17, 1912. Pupils present, 19; boys 9, and girls 10. There are 55 children of school age on the reserve, 42 of them enrolled, the average attendance for 6 months being 20.

	Pupils.
Standard I.	18
“ II.	15
“ III.	5
“ IV.	4
	—
	42

4 GEORGE V., A. 1914

The children did fairly well in spelling, reading, writing, counting and geography. Singing was good; physical exercises, fair. Mr. Lee is an energetic man, but has too much to do, and this large village should have the undivided attention of one teacher.

Glen Vowell Day School (Salvation Army).

Teacher, Miss Agnes Law.

Inspected April 17. Five boys and 9 girls were present. Children of school age on reserve, 33; enrolled, 30; with an average attendance for 6 months of 10. Younger children had taken the place of older ones gone out since former inspection. Pupils were classified as follows:—

	Pupils.
Standard I.	20
“ II.	7
“ III.	3
	—
	30

The spelling, composition, arithmetic and geography of Standard III were very good; physical exercises, fair. The new pupils had made a fair start. The children were all very clean.

Miss Law is a useful teacher.

The small building was in fair repair, and the grounds were being improved.

Andimaul Day School (Salvation Army).

Teacher, Ensign J. M. Hardy.

Inspected in April. Pupils present, 9; boys, 5, and girls, 4. There were 18 children of school age, all enrolled, with an average of a little over 8. Pupils were graded as follows:—

	Pupils.
Standard I.	15
“ II.	2
“ III.	1
	—
	18

The children had made fair progress. The teacher was not strong, and had become discouraged. Mr. Hardy left a few days after my visit, and Mr. Rankin took charge. The large bridge construction camps so near have not been an unmixed good to the Indians.

Kitwangar Day School (Church of England).

Teacher, Miss Florence B. Kemp.

Inspected April 22, 1912. Present, 20; 10 boys and 10 girls. Of the 32 of school age, 29 were enrolled, with an average attendance of 12. Pupils present were graded:—

	Pupils.
Standard I.	9
“ II.	3
“ III.	6
“ IV.	2
	—
	20

SESSIONAL PAPER No. 27

The children did very well in all subjects studied. Miss Kemp is an excellent teacher; she taught this school before going to the Kishpiax school. The school is doing satisfactory work. The frame school-house was in fair repair, but, as it is used by the Indians for many purposes, it is very hard for the teacher to keep it clean.

Meanskinisht Day School (Undenominational).

Teacher, Miss A. L. Tomlinson.

I visited this school on April 23, 1912. There were only 11 children of school age on the reserve, 10 being enrolled; 9 were present, 7 girls and 2 boys. There had been an average attendance of 7. The children were bright; spelling, counting, geography and singing, very good.

The new building was in good repair; the school grounds were being improved at time of inspection.

New Town (Kitselas) Day School (Methodist).

Teacher, Lewis Edgar.

Visited in April. This school was re-opened, having been closed for a considerable time. There are about 18 children of school age, with an average attendance of 12. The children have made good progress in their studies. School was held in the new church.

The Indians were much interested in the school. The teacher has made a nice garden.

NASS AGENCY.

Port Essington Day School (Methodist).

Teacher, Ernest Pierce, supplied as teacher first part of the year, followed by Miss Noble, who is still in charge.

Inspected April 26, 1912. There were 18 pupils present, 8 boys and 10 girls. Of the 28 children of school age, belonging to the village, a great number are away with their parents most of the time. The average for 3 months had been 14. Pupils were graded:—

	Pupils.
Standard I.	15
“ II.	2
“ III.	1
	18

Beginners had taken the place of pupils over age. They did very well in writing, reading and counting. The new school-house is in good condition, and is kept neat and clean.

Metlakatla Day School (Church of England).

Teacher, Miss Helen Jackson.

Inspected April 29, in company with Agent Perry. We only found 3 pupils present. A number of children of school age were playing on the streets. There were 13 present at a former inspection. Miss Jackson has done faithful service for years, but the Indians have not supported the school of late as they should. There are 37 children of school age in the village, and there should be a better attendance.

Lakalsap Day School (Church of England).

Mr. Bousfield taught the school for 3 months, but had closed it and gone away before Agent Perry and I arrived. The Indians declared they were anxious to have the school open.

Gwinoha Day School (Church of England).

Teacher, Mr. W. A. Meyers.

He was not at home when Mr. Perry and I visited the village, May 1 and 2. There are 18 children of school age, all enrolled. The average for the March quarter being 11. Pupils were graded:—

	Pupils.
Standard I..	12
“ II..	6
	—
	18

I saw some of the children; they could speak a little English, and read a little. Agent Perry and I visited Aiyansh and Kitladamax villages. The day schools had not been open for the winter. The difficulty seems to be to get qualified teachers for these places.

Kincolith Day School (Church of England).

Teacher, Miss Elsie M. Collison.

In company with Agent Perry, I inspected this school in May, 1912. There were 42 children of school age, all enrolled, with an average attendance for 12 months of 18. The children were classified as follows:—

	Pupils.
Standard I..	18
“ II..	12
“ III..	7
“ IV..	5
	—
	42

Those in Standards III and IV did well in spelling, arithmetic, geography and composition. The junior classes did fairly well in subjects studied. All were fair in hygiene; singing was good; physical drills also good.

Miss Collison is doing satisfactory work.

The new building was in good order.

The Port Simpson day school, and the two Port Simpson boarding schools in this agency, I had reported on in March, 1912; also, the two day schools in the Queen Charlotte agency. These have not been visited by me since.

NEW WESTMINSTER AGENCY.

Sliammon Day School (Roman Catholic).

Teacher, M. L. Biggar.

I inspected this school on June 12, and there were 14 present; then again, on December 9, when I found 17 present: 11 boys and 6 girls. There had been an average

SESSIONAL PAPER No. 27

attendance for 3 months of 17. The 25 of school age were all enrolled, and graded as follows:—

	Pupils.
Standard I	3
“ II	6
“ III	6
“ IV	9
Ungraded	1
	25

The children have done remarkably well since the school was reopened. Mr. Biggar had taught some years in Mexico. At first he had some little misunderstanding with the Indians, and then, too, the school sessions were too long. I was able to straighten out the matter in June, and the pupils have made splendid progress. Spelling, composition, geography, &c., were very good.

The teacher takes great interest in the village, shows the Indians how to garden, &c. The children have some little gardens in the school grounds. The teacher lives in the rooms provided in the school-house. The building is in good repair.

Homalco Day School (Roman Catholic).

I visited the village in June, the school was then closed. Miss Kathleen B. Richards opened the school on September 1, 1912. She is a trained teacher, and formerly taught in a provincial public school. I inspected it again in February, 1913. All the 32 children of school age were enrolled, the average for 4 months being 27. Pupils were graded as follows:—

	Pupils.
Standard I	20
“ II	3
“ III	6
“ IV	3
	32

The reading, spelling and geography were very good. The copy-books were neat and clean. They are now all able to speak some English.

These Indians are anxious to have their children taught. Twenty-two adults were present at the examinations.

The attendance is very regular, as the Indians, when going away from home, leave their children with food and blankets, and the teacher and her assistant care for them in the school building till the parents return. The plan works well.

Miss Richards is just the person for the work. The Indians like her, and she teaches the girls and women many useful things.

The building was in good repair, and very clean.

Sechelt Boarding School (Roman Catholic).

Inspected December, 1912. The staff consisted of: Sister Theresine, principal; Sister St. Owen, matron; Sister Mary Colombe, teacher; Sister St. Denis, teacher; Sister Octavia, teacher; Sister Amelia, cook. No member of the staff receives any salary.

Forty-two pupils were enrolled, and 41 were present at inspection. One child had not returned from holidays. Pupils were classified as follows:—

4 GEORGE V., A. 1914

		Girls.	Boys.
Standard	I	4	5
"	II	8	6
"	III	3	4
"	IV	6	0
"	V	0	5
"	VI	1	0

The examination of senior classes showed a decided improvement over last year. The senior pupils were quite bright at number work. They did well in composition and geography. Answers in hygiene were prompt, and showed a fair knowledge of the subject. A number of pupils play the organ, and all sing very well. The juniors had made satisfactory progress.

The hours of study are from 8.30 a.m. to 12 and from 4.30 to 6 o'clock. Work hours are from 1 to 4 p.m., in addition to general fatigues.

The class-rooms seemed to be well supplied with the necessary material, and all was well taken care of.

There is a garden and orchard of 4 acres. It is the best garden for miles around, and all the work is done by the boys and girls under the supervision of the sisters. They were just clearing a small piece of land for pasture-ground. There was an unusually heavy crop of strawberries the past season, due doubtless to the frequent showers. Their vegetables did well, too.

They have 4 milch cows, taken care of by the boys. The girls help with the butter-making. There are also about 100 fowls. The stock has suitable accommodation.

The boys are taught gardening, to know when and how to plant seeds, take care of the young plants, &c. They do a little carpentering, wood-carving, shoe-repairing, &c. The girls make bread, sweep, cook, sew, in fact do every branch of housekeeping. One child had had tubercular glands. The others seemed remarkably healthy at the time of my visit.

The pupils are well looked after, warmly clothed and have suitable food.

Both the drainage and the ventilation in connection with the building were good. The water-supply, however, is never sufficient in summer. The flume beyond the iron pipes was broken down. Every precaution is taken to avoid fire; drill is held, and appliances are kept in handy places.

Eight new pupils were admitted in September, but were not yet enrolled. When the doctor passes them they will be formally enrolled.

I know a number of the ex-pupils personally; as a rule they are industrious.

Every part of the building was scrupulously clean, and in good repair. The boys' dormitory and the girls' sewing-room are both too small. More room is required.

The sisters are doing a splendid work, and need more land to cultivate. They have brought every foot of the 4 acres to a high state of cultivation, and were commencing to clear a little piece more. It would be greatly to the advantage of the school, if the Indians would consent to the setting apart of some twenty acres (including the present buildings and garden) for school purposes.

These Indians have improved greatly since the school was opened in their village. Traders told me that they were formerly often cheated by the Indians, but that since the school had been opened they had noticed a great difference, and can now put absolute trust in them.

Squamish Boarding School (Roman Catholic).

This school is situated in the rapidly growing city of North Vancouver. Inspected in December, 1912. The staff was comprised of: Sister Mary Amy, principal; Sister

SESSIONAL PAPER No. 27

Mary Eugene, matron; Sister Mary Ildefonse, teacher; Sister Mary Anatolic, cook; Sister Mary Ambrosine, assistant cook; Joseph Vannier, gardener.

All of the 50 pupils enrolled were present at inspection. Forty-nine are from the Squamish tribe, and one from the Musqueam tribe. They were classified as follows:—

		Boys.	Girls.
Standard	I..	9	10
"	II..	2	4
"	III..	5	4
"	IV..	3	6
"	VI..	4	3

I could detect considerable improvement since my former inspection in all subjects studied. The pupils speak up well, and answer quite readily. They all sing very well. On the evening of December 30, I attended their school concert; an excellent programme was given. The children did wonderfully well. I doubt very much if white children of the same age could have done as well. Parents and friends were delighted. The band, composed of ex-pupils, furnished music very creditably.

The school owns 4 acres, in excellent state of cultivation. Two acres are laid out in vegetable garden, flower beds, orchard, &c. They had splendid crops, plenty of fruit, 1½ tons of turnips, 1 ton of carrots, 6 tons of potatoes, 1 ton of cabbages, and 2 tons of apples.

The live stock consists of 2 cows, 1 heifer, and 70 chickens.

The girls sew, make all kinds of pretty lace, weave baskets, do housework and laundry work. The boys repair their own shoes, and help in the garden.

The health of the pupils has improved since they have learned something of hygiene. They are well fed and neatly clothed.

This school is connected with the North Vancouver water-works. The water is pure and plentiful, which is of great value to the school. The drainage is good. Having good water pressure will be a great advantage in case of fire. Occasional drill is held, and the appliances are kept in convenient places.

The ventilation is by means of windows, and is as good as can be expected by this system. Every part of the building was in perfect order, and in good repair.

I was told that the conduct of the pupils had been very satisfactory. I have kept in touch with several of the ex-pupils, who are quite thrifty.

The pupils have made good progress; all seem to understand better than formerly the benefit of education. If they do understand this, we may expect them to go back to their homes and be a credit to their school.

The sisters are deeply interested in their work, and do not accept salaries. The principal feels that it will be only a short time until they will have to get a larger tract of land, where land is cheaper and more suitable for school purposes. At present the city of North Vancouver is crowding the school in on three sides, and the school land is immensely valuable.

St. Mary's Mission Boarding School (Roman Catholic).

Inspected in December, 1912. The staff consisted of Rev. Father Rohr, O.M.I., principal; Brother La Joie, electrician; Brother Manseau, O.M.I., dairy instructor; Brother Mulvaney, O.M.I., gardener; Brother Burns, O.M.I., farm instructor; Brother Broakway, disciplinarian; Rev. Sister Mary Benedict, matron; Rev. Sister Mary Wilhelmina, teacher; Rev. Sister Stanislas, teacher; Rev. Sister Zephirin, teacher;

4 GEORGE V., A. 1914

Rev. Sister Mary Pauline, cook; Rev. Sister Mary Veronica, teacher; Rev. Sister Mary Agnes, cook; Rev. Sister Mary Rose, cook.

The former principal, Brother J. P. Collins, was transferred to Williams Lake industrial school, and since September, Rev. V. Sohr has been principal.

There were 67 pupils enrolled, 65 being present at inspection. They were classified as follows:—

	Boys.	Girls.
Standard I.	5	2
“ II.	3	10
“ III.	6	10
“ IV.	4	6
“ V.	6	4
“ VI.	9	4

The senior pupils did exceedingly well; in reading they pronounce their words carefully and distinctly. They write well; their copy-books were in good order. Geography and grammar were good. Problems in arithmetic were worked out quickly and for the most part correctly. Hygiene is taught. Some of the older pupils both sing and play. The juniors, too, had made progress. I noticed decided improvement, more especially in the girls' studies. They gave some long recitations in splendid form.

The class-rooms were well supplied with the materials necessary in teaching. The rooms were cheerful and bright.

The 3 acres in garden last season yielded 2 tons of cabbage, $\frac{1}{2}$ ton of carrots, $\frac{1}{4}$ ton of beets, 1 ton of parsnips, and about 300 pounds of berries, and a very good crop of apples, plums and pears.

From the farm the crop consisted of 6 tons of grain, 50 tons of potatoes, 15 tons of roots, and 38 tons of hay.

The live stock consists of 25 head of cattle, 5 horses, 3 colts, 35 sheep, 14 swine, and 100 fowl. The barn accommodation is only fair.

The boys attend to the stock, milk, assist with the cream separator, with the churning, and with the butter-making. Some are taught the elements of carpentry, some painting. Several of the larger boys learn to make shingles at the school saw-mill. All are taught farming.

The girls learn many useful things; they take turns in the kitchen, the laundry, and the sewing-room. They make their own clothes, and some for the boys.

The sanitary conditions of the school are very favourable; the drainage is good, good water is plentiful, with sufficient pressure to fight fire; the food is wholesome and nourishing. All were well dressed.

The children have improved in their physical exercises, and do them very well. They do the exercises to music, (the band plays) and keep perfect time.

Generally speaking, the ex-pupils of the school are profiting by the training received. I visited several of them in their homes on the reserve.

The buildings are well heated by a new steam heating system which has been installed during the last quarter. There is a 70 horse-power tubular steam boiler and vacuum heating with 46 radiators in the boys' school and 42 in the girls' school. Before the installation of this, the school was poorly heated by stoves, which are very dangerous from the 'fire' standpoint. It is a great improvement to the buildings. All the buildings are lighted by electricity. The laundry has been greatly improved by the addition of a steam dryer.

The school is doing good work, but more room is required. A number of Indians have applied for their children's admittance. The proposed addition to boys' and girls' buildings would greatly increase the usefulness of the school, as more children can then be taken in. The buildings are well situated for school purposes, and they have a splendid large farm.

SESSIONAL PAPER No. 27

Coqualeetza Industrial School (Methodist).

Inspected in January, 1913. The staff was as follows: R. H. Cairns, principal; Miss M. Hortop, matron; George Green, farmer; William Allen, carpenter; Mrs. Mary Allen, cook; Miss Lena Wolfenden, teacher; Miss R. Curtis, teacher; Miss Jessie McCallum, assistant matron; Miss Irene Masters, sewing teacher; Mrs. G. Baker, laundry teacher.

At the end of the last quarter, there were 94 pupils enrolled. Eighty-three were present at inspection. Ten were allowed home for holidays, and failed to return.

The following is the classification of the pupils:—

Standard	I	Pupils.
	I	26
"	II	11
"	III	18
"	IV	9
"	V	11
"	VI	8

In the senior room, Miss Wolfenden had taken the place of the former teacher, Miss Pittman. Miss Wolfenden holds a first-class provincial certificate, is experienced and cultured. She is very thorough, and is doing well with her pupils. Children did splendidly in composition, geography, and spelling; their note-books were neat.

The junior teacher loves her work, and maintains order easily. Pupils read nicely. Number work was quickly done.

Each pupil attends school one half of each day, and the seniors have an hour each evening for preparation.

The rooms are well furnished, have comfortable seats, plenty of books, pencils, &c.

This school has 80 acres of land under cultivation. Last year they raised 85 tons of hay; 5 tons of oats; 1 ton of wheat; 60 tons of turnips; 5 tons of mangolds; 5 tons of field carrots; 300 boxes of apples; 50 tons of potatoes, besides quantities of cabbage, beets, carrots, tomatoes, cauliflowers and parsnips.

A garden of 3 acres yielded plenty of small fruits.

The school owns 6 horses, 20 head of cattle, of these 12 are milch cows; 1 registered bull, a number of hogs, and 90 fowls. The stables were clean and orderly. Both pupils and staff have all the milk they care for.

Some boys become quite handy with carpenter's tools. Since my last visit, a cobbler's shop had been added, three boys were mending and soling shoes of pupils.

The girls make their own clothes, wash, cook, sweep, and dust.

There had been two cases of typhoid fever, and both had recovered. They were cared for in the Chilliwack hospital. Since my visit, another pupil took the disease and died in the Chilliwack hospital. One child who had pneumonia was convalescing at the time of my visit.

There is a stream running near the school farm that now receives the drainage from houses recently erected, and I believe that the boys, when skating, drank from this creek.

The food given pupils was sufficient, and well cooked. All were comfortably clad.

The school is connected with the same system as the city of Chilliwack. All the drains are carefully looked after, and thoroughly cleansed each week.

There are one dozen fire-extinguishers, two dozen pails, and fire-axes kept in readiness. There is a fire-escape from each side of the building; then the tower is a splendid means of exit from all parts of the building. It is at the front of the

building, away from all fires, and would probably be the last place attacked in case of fire. Children and teachers are instructed in what to do in case of fire.

Strict attention is given to physical drills; the teacher, Miss Wolfenden, has a special certificate of qualification in this subject. Breathing exercises are practised. The seniors study hygiene, and should know how to take care of themselves and make their homes sanitary, on leaving school.

Since former inspection, 18 pupils had been admitted and 11 discharged. The ex-pupils are scattered, here and there, throughout the province. I meet many of them, while travelling in the discharge of my duty as inspector. Fred Marks, of Skidegate, has been over 5 years, as waiter, on the Canadian Pacific Railway steamers running north, and is highly respected. John Barton, now living in North Vancouver, is a union carpenter, is married, and owns a house and lot. Charlotte is married, and lives at Port Simpson. She is a good housekeeper. Lizzie is married, and lives at Skowkale. Her home is neat and clean.

The 4 girls, orphans, who were sent from Kishpiax by instruction of the department, are in school and doing well. Fanny and Mabel, who were placed in the school from Kwakewlth agency, under instructions from the department, look bright and happy. Both can read and write. Maggie Brown, an orphan from Bella Coola, is doing nicely.

The buildings were in fair repair. New seats will soon be needed in the senior room, the present ones having been used for 20 years. New steps have been put in the stairway. No change has been made in the laundry; a new building with an up-to-date laundry should be installed. The present laundry is in the basement and is not in good condition, and is a danger to the health of pupils who work in it.

The staff are all interested in the welfare of the pupils, their aim being the developing and training of the Indian.

BELLA COOLA AGENCY.

Kitamaat Boarding School (Methodist).

Inspected in July, 1912. The staff consisted of the following:—Miss M. Scouten, acting matron; Miss Swan, cooking and music teacher; Miss Armstrong, teacher; Miss L. E. Alton, assistant matron. Miss Ida M. Clarke, formerly of the girls' home, Port Simpson, had been appointed matron, and was expected in August. She is now in charge. The Rev. Mr. Swan, teacher, has been appointed by the Methodist Church, and is now there.

There were 29 pupils enrolled; 7 boys and 22 girls. Twenty-eight were present at inspection. One boy was out on leave on account of sickness. Pupils were classified as follows:—

	Pupils.
Standard I.	7
“ II.	5
“ III.	4
“ IV.	10
“ V.	3
	—
	29

Pupils did very well in the subjects studied. The reading, composition, arithmetic, history, geography and writing of the 16 pupils in the advanced classes was very good, much above the average.

All the pupils are from Kitamaat. Class-room hours are from 10 to 12 a.m., and from 2 to 4 p.m. The hours of housework and time for play are from 6.30 to 10 a.m., and from 4 to 8 p.m.

SESSIONAL PAPER No. 27

These children are taught with the village children in the day school. The classroom is fairly well equipped.

There is a small garden in connection with the school, where vegetables are grown. It is a pity more land is not cleared so that the school could raise more vegetables. They had a good supply of strawberries.

Only one cow is kept, the milk being used in the school.

The boys are small, but work a little in the garden and carry in wood. The girls are taught all kinds of domestic work, sewing, cooking, &c. They do a little gardening.

Sanitary conditions are favourable, and the general health had been good. Children receive plenty of meat, vegetables and bread, and are suitably clad. Drainage and ventilation of buildings were good.

In summer they have plenty of fresh mountain water, brought down by pipes, but as soon as the frost sets in this is shut off, as the pipes are not under ground. Then for five months they have to use well-water for all purposes, which makes lots of extra work.

I found pails of water standing in various places, ready for use. Fire-extinguishers were in readiness. They are well prepared for fire in the summer months, but in winter it would be difficult to fight fire, when water has to be taken from a well.

I visited a number of ex-pupils from this school at Rivers Inlet, working and doing well.

The buildings were in fair repair. The posts or piles on which the foundation stands are dried out, and daylight can be seen between them from the basement. It makes the building very cold in winter and difficult to keep warm. A good drying-house for clothes and a wood-house have been built since the former inspection, both greatly needed.

They could increase their dormitory accommodation by finishing the fine large attic over the main building. This could be done easily and at small expense, for ceiling and lining are of the best. The acting principal informed me they were expecting a grant from the Women's Missionary Society of the Methodist Church to make these improvements.

The school is doing a good work. The pupils seem contented.

Kitamaat Day School (Methodist).

Teacher, Miss Mildred J. Armstrong.

Inspected July 11, 1912. Of the 68 children of school age on the reserve, 55 were enrolled, with an average attendance of 31. Pupils were classified:—

	Pupils.
Standard I	17
“ II	8
“ III	4
“ IV	16
“ V	5
Ungraded	5

The pupils did well in arithmetic, geography, and composition. Their map drawing was excellent. Pupils had made good progress in hygiene, and did their physical exercises nicely. Children were clean and bright. The boarding school children are much in advance of those who live with their parents, being more regular in their attendance.

Miss Armstrong, who had supplied the place of Miss Mary Lawson, B.A., who left suddenly on account of illness in her family, was leaving immediately after inspection. The Rev. F. Swan had already been appointed and is now teaching the school.

4 GEORGE V., A. 1914

The school-house was clean, and nicely decorated with picture cards. It is in fair repair. Snow and ice had carried away the eave troughs.

The day schools at Hartley Bay, China Hat, and Bella Bella were closed at the time, the Indians being away from the villages. Hence I did not visit them.

The steamer did not call at Bella Coola, so I did not reach that school.

Kitkatla Day School (Church of England).

This school was reopened in the fall when the people returned to the village. Miss Kate Gore is the teacher.

COWICHAN AGENCY.

Kuper Island Industrial School (Roman Catholic).

Inspected in July, 1912, and in January, 1913. The staff was comprised of the following: A. Urlings, principal; W. Lemmens, teacher; E. Lecromn, trade instructor; A. Manette, farm instructor; Sister Mary Olympus, superintendent and teacher; Sister Mary Albert, housework; Sister Mary Moise, sewing teacher; Sister Mary Stanislas, cook.

In July there were 65 enrolled, and at the later inspection, 55. Forty-nine were present at inspection, 6 being away on sick leave. Pupils were classified as follows:—

		Boys.	Girls.
Standard	I	2	10
"	II	2	3
"	III	7	7
"	IV	5	3
"	V	10	0

The 15 boys in standards IV and V did well in composition, arithmetic and spelling. Marked progress had been made in arithmetic. Boys in standard III did fairly well, others are just beginners.

In the girls' department the 10 senior girls are well advanced. They read with expression, and write neatly. Pupils are beginning to understand a little hygiene.

There are five study hours and four work hours each day. In the class-rooms new seats are needed.

There are 90 acres of land in connection with this school, 35 of which are under cultivation. Last year they raised about 25 tons of oats and hay. The garden (2 acres) yielded 1½ tons of carrots, 1 ton of onions, 3 tons of beets, 1 ton of cabbage, ½ ton of tomatoes, 50 boxes of apples.

The school owns 9 cows, 2 heifers, 1 bull, 8 pigs, and 80 hens. All the cows are milked; butter is made in summer for winter use.

The boys take care of the stock, several do a little carpentering. The girls do all kinds of general housework.

There is plenty of pure water at the school. Children are given nourishing food.

I found fire-extinguishers on hand, but more fire-buckets are needed. Drill is held.

Some pupils who had been unruly were discharged. Some of the ex-pupils are doing well, some fairly well, and others not well. The difficulty seems to be in getting suitable work. If they could get a few acres of land to cultivate as soon as they leave school, they would have a chance to put what they have learned into practice, and some would be successful. At present, not able to secure land, they drift to Victoria and other towns, looking for work, and often are thrown in contact with undesirable characters

SESSIONAL PAPER No. 27

The school buildings are very poor. New buildings are urgently needed. The principal and staff are doing the best they can under very trying circumstances.

Tsartlip Day School (Roman Catholic).

I found the Tsartlip school closed when I went there on January 27. I saw Miss Hagan, the teacher, who said she closed it in the middle of the December quarter because the children refused to attend. I could only find 9 children of school age living within reach of the school. The Indians informed me they wished their children taught.

Saanich Day School (Roman Catholic).

I visited this school in January, 1913, and found it closed. After Daniel Dick left, a Mr. Chisholm, a farmer, taught for a short time. He lived quite a distance from the school. After ringing the bell in the morning, if the children did not soon appear, he would return to his farm. The Indians are very indifferent to the school, but claim the teachers were unsuitable.

Koksilah Day School (Methodist).

Teacher, Rev. Charles Dockstader.

Inspected January 29, 1913. There were 20 children of school age on the reserve, 12 of them enrolled. Average attendance was 20 per cent of those enrolled. Six boys were present at inspection. No girls attend. Pupils were graded:—

	Pupils.
Standard I.	10
“ II.	1
“ III.	1
	12

Three of the pupils present had gained a point or two in reading, writing and counting. The other three had not progressed at all, in fact, did not seem bright mentally.

The school is too far away from where the Indians live. A much better site has been secured, and when ready should improve matters. The girls should be required to attend as well as the boys. There are more girls than boys that could attend.

Quamichan Day School (Roman Catholic).

I found the school closed, as the church could not find a suitable teacher.

Quamichan Day School (Methodist).

The first part of the year the school was taught by Mr. Bowden, but the attendance was so small, the church decided to close the school. When the Koksilah village has the school-house on the new site, these children will be able to attend there.

Nanaimo Day School (Methodist).

Teacher, Rev. W. J. Knott.

Inspected February 3, 1913. There were 23 children of school age on the reserve, all enrolled, with an average attendance of 14. There were 19 present at inspection, 8 boys and 11 girls.

4 GEORGE V., A. 1914

The pupils were classified as follows:—

	Pupils.
Standard I.	17
“ II.	6
	—
	23

Those in Standard II did well in dictation, arithmetic, spelling and geography. Eight of Standard I could read, spell and count up to 50, and did well for their age.

As Mr. Knott has been in poor health for some time, Miss Ada Rogers was engaged to assist him. Children were clean and well-behaved.

The school-house was clean and in good repair.

A new sect, calling themselves 'Shakers,' introduced by Indians from the American side, has spread among the Indian villages (with the one exception of Nanaimo) of this agency. These people have dancing in connection with their worship, which appeals to the Indian nature. They have made divisions among the Indians, hence the day school work has become more difficult than formerly.

WEST COAST AGENCY.

Clayoquot Industrial School (Roman Catholic).

Inspected in September, 1912. The staff was comprised of Rev. Froben Epper, principal and teacher; Mr. George Sturmer, manual instructor; Sister Mary Clare, matron and laundress; Sister Mary Xavier, teacher; Sister Mary Clotilde, seamstress; Sister Mary Elizabeth, cook. The Rev. P. Maurus retired from this school in October, 1911, and was succeeded by Rev. F. Epper, who is doing well.

Fifty-one children were enrolled; 49 were present at inspection. Two boys were out on sick leave. Pupils were classified as follows:—

	Boys.	Girls.
Standard I.	10	7
“ II.	2	5
“ III.	7	5
“ IV.	10	2
“ V.	1	2

The class-room work had improved; when reading, the pupils speak distinctly. Standards IV and V did exceedingly well in composition, arithmetic, grammar and history. Answers showed they had a practical knowledge of subjects studied. The juniors are obtaining a good rudimentary knowledge. Pupils sing nicely. The land owned by the school is very heavily timbered, so no farming is done. Three acres have been cleared and put under cultivation. About half an acre more will be ready for cultivation next year. In the way of garden produce, they have potatoes, carrots, pease, onions, turnips, &c.

They had 4 milch cows, 1 dry cow, 1 bull, 1 steer, 1 yearling, and 1 calf. Also 100 thoroughbred hens, well housed.

Six boys, under Mr. Sturmer's instruction, built 2 altars, a communion-rail, laid a tram-track, made fences, and were at time of inspection constructing a new woodshed. A few boys do painting, and several shoe-repairing.

As for the girls, they learn to preserve fruits, cure fish, prepare vegetables, do laundry work, and sewing. They help with the seeding and planting, making butter, &c.

SESSIONAL PAPER No. 27

The boys, with the help of an extra man, relaid the water-pipes under the ground for about 2,500 feet, through thicket; this was very heavy work. The water thus obtained is pure and fresh. The drainage is carried out to sea.

The pupils are suitably clad, and well fed. Those present looked healthy. One girl, sent home, had died of consumption.

Fire-appliances were in convenient places. A fire that started last summer was promptly put out by the boys.

Children are taught physical exercises, and go through them twice a day, outside, when weather permits. This is good for their health. Children seem to take an interest in hygiene. The ex-pupils live in the several villages of the tribes along the coast. I visited a number of them, and with two exceptions found them doing well.

The school buildings were well ventilated, and with the exception of the cow-stable, were in good condition. A new stable is badly needed.

The new principal and staff are working harmoniously to improve the Indian children.

Ahousaht Boarding School (Presbyterian).

Inspected in September, 1912. The staff was as follows: J. T. Ross, principal; Mrs. J. T. Ross, matron; Miss L. McIvor, teacher.

There were 19 boys and 13 girls enrolled. All were present at inspection. The pupils were graded as follows:—

		Girls.	Boys.
Standard	I	5	3
"	II	1	2
"	III	4	2
"	IV	3	8
"	V	1	4

The children gave intelligent answers when questioned. The senior classes were good in arithmetic; history and geography were also good. The juniors also showed improvement in their studies. Children had a fair knowledge of elementary hygiene.

School is in session 5 days of each week. All pupils attend each day from 10 a.m. to 12 and from 2 to 4 p.m., with the exception of two of the largest boys, who work outside about four hours each day.

In the class-room, I found plenty of material, blackboard is large, &c.

The mission property consists of 140 acres of land, only 18 are cleared, and about 6 of these are under cultivation. The land is very poor and requires a lot of fertilizer to produce even a fair crop. About 2 tons of hay and $\frac{1}{2}$ a ton of vegetables were produced. Small fruits do well.

There is a bull, 2 cows, and 1 calf. The bull does the ploughing and hauling.

The large boys have been taught to make plain furniture. All the repairing is done by the boys, a new house and run for 30 fowl had been built during the year. The boys cut all wood used, they attend to the gardening, ditching, &c.

The girls are instructed in all branches of housekeeping. Sanitary conditions of school are quite good, there had been no shortage of water during the year; drains were in good condition; children were neatly clothed, and well fed. The general health had been good.

The school is well protected in case of fire. There was a strong force-pump connected with a 2,000 gallon tank and 100 feet of hose, 12 buckets, 12 dry dust extinguishers, and 3 chemical fire-extinguishers. Appliances were in good condition.

Since former inspection, 2 pupils were discharged, and 4 admitted. All the ex-pupils, when home, are living on the reserve. I visited 10 of them, variously

employed in saw-mills, canneries, whaling station, picking hops, &c. Only a few have homes of their own, the others living in homes with their parents. Among others, I visited William Little, No. 40, who was in the school for 6 years, and discharged June, 1909, and Mary Hamilton, No. 038, discharged March 29, 1912. Both had good records at school. They were married the day she was discharged. William formerly worked at sealing, made good wages, and helped to keep his parents, but now sealing being abolished, he has not made so much, but was very anxious to have a home of his own. With the assistance granted by the department they will be able to have a nice little home.

An ex-pupil named Arthur, discharged a year ago, January, died on July 7, from consumption.

The principal is a great worker and is constantly making improvements around the school, Miss McIvor is a splendid teacher, very thorough in her work. There is a home atmosphere about the school, and the children seem contented.

Alberni Boarding School (Presbyterian).

Inspected in September, 1912. The staff was as follows: H. B. Currie, principal; Mrs. H. B. Currie, matron; Mrs. J. Stevens, assistant matron; Miss M. A. Grant, teacher.

Twenty-five girls and 25 boys were enrolled. Forty-seven were present at inspection. The girls were home temporarily, not being well. The principal was asking for the discharge of one boy, who was almost of age, as he wished to get married to an ex-pupil.

Pupils were classified as follows:—

	Pupils.
Standard I	18
“ II	7
“ III	12
“ IV	9
“ V	4

The seniors are above the average in composition, geography and arithmetic. The juniors seemed to take an interest in their work, and were quick to answer questions; their modelling was excellent. The class-room work reflects great credit on Miss Grant, the teacher. Hygiene is taught, and a copy of the text-book is donated to pupils on their discharge.

The smaller pupils go to the class-room for both morning and afternoon sessions, while the larger pupils attend class-room only half of each day, and work the other half.

A splendid new class-room had been opened, with new desks, &c.

The school has 150 acres of land, 12 acres of which is under cultivation. About 7 tons, 4 of hay and 3 of oats, were raised last year. The 2 acres in garden bore a splendid crop of small fruits, also corn, tomatoes, carrots, turnips, beans and potatoes.

The live stock consists of 3 horses, 3 cows, 5 head of young stock, and 180 fowls. All eggs are used by the school.

The boys cut wood, care for stock and do a little carpentry work. At the Alberni exhibition, the Indian boys won 2 first prizes on bread entries.

The girls are taught sweeping, washing, sewing, baking, &c.

The general health had been good; one child died of tuberculous meningitis, this being the first death of a pupil since the fall of 1909. Besides the milk, eggs and vegetables produced on the farm, fresh meat or fresh fish are always provided. Pupils were warmly clad. When weather permits, physical exercises to develop lung, limb and muscle are practised in the open air.

SESSIONAL PAPER No. 27.

The water-supply has been greatly improved. New lead-lined tanks have been installed and connected with the Somass river by two-inch piping, and attached thereto is a 4 horse-power gasolene engine to supply power for pumping purposes. The water supply is ample in all seasons.

The principal had tiles ready to improve the drains.

Fire hose is kept attached to hydrants in case of fire; appliances are in readiness, every precaution is taken. With the new gasolene engine for pumping the water they can throw a two-inch stream over the building.

Most of the ex-pupils live on the shores of the Alberni canal, working at canneries, the whaling station, logging camps or saw-mills. The majority are steady workers, and make a good deal of money, but do not always spend to advantage. I visited a number of them where they were working.

I found many improvements; the new laundry was just completed. In the same building there was a tool-room and carpenter-shop, and the upstairs is used as a drying-room. A new building, 10 x 12 feet, had been built, with concrete foundation and cement floor, for the gasolene engine. The main residence had been reshingled, and received two coats of paint. The interior had been repapered, painted and supplied with many new fixtures. On the farm a new set of harness, a sleigh, a democrat wagon and a covered carriage had been procured.

The school was in a more satisfactory condition than it has been during any previous period of inspection. The staff is doing excellent work. The principal is an energetic worker.

Ucluelet Day School (Presbyterian).

Teacher, Mr. H. W. Vanderveen.

When I visited this village in September, most of the Indians were away. The teacher informed me they had planted their gardens in the spring, then went off to the fishing camps. On returning in August, they found their crops were failures from want of care, so they went off again and he did not know when they would return.

Clayoquot Day School (Roman Catholic).

Teacher, Rev. J. Schindler.

This school was closed at the time of my visit, as the teacher was away. He was expected back in a few days.

Yuquot Day School (Roman Catholic).

I visited Nootka in September. The Rev. E. Sobry reopened the school for a short time; but, as he only had an average of 3 pupils, closed it again. With the exception of two or three families, who were once in Clayoquot industrial school, the Indians appear to be quite indifferent to the school.

The ex-pupils from the industrial school, now living at Nootka, have clean homes, were neatly dressed and a credit to the school.

Nitinat Day School (Methodist).

Teacher, Rev. John Gibson.

I did not reach this school during the year.

KWAWKEWLTH AGENCY.

Alert Bay Boys' Industrial School (Church of England).

Inspected in November, 1912. The staff was as follows:—A. W. Corker, principal; Mrs. A. W. Corker, matron; Miss Warrener, assistant matron; Eli Hunt, trade instructor; George Luther, teacher; Ah John, cook.

Thirty-five boys were enrolled, 32 being present at inspection. Three boys had failed to return after the holidays; they had measles, but were better and were expected back.

The pupils were graded as follows:—

	Pupils.
Standard I	6
“ II	8
“ III	6
“ IV	3
“ V	4
“ VI	8

The boys, large and small, knew their lessons. Spelling was excellent, history good; arithmetic, good. Hygiene is taught, and the boys try to put into practice what they have learned. Satisfactory progress had been made.

There is only one class-room, it is kept clean and orderly, but is much too small for the number of boys.

About 5 acres of the 450 owned by the school are under cultivation. Since last inspection, nearly 2 acres had been cleared, between the school and the new girls' home. The garden of 2 acres yields a good supply of table vegetables.

The school owns 2 cows, 1 horse, and 25 chickens.

Several pupils learn carpentering. Mr. Eli Hunt is interested in the boys and handles them tactfully. At time of inspection they were erecting a new cow-house for the girls' home.

Sanitary conditions are very good. The children looked healthy, are well fed, and properly clothed. They have plenty of outdoor exercise.

The water is good, but not always sufficient in the dry season. Drainage and ventilation were both good.

Buildings are protected in case of fire; necessary appliances are kept at hand.

I visited a number of the ex-pupils; 6 were living at Alert Bay. The 3 married ones had neat homes.

The building had been painted since former inspection, and the verandah repaired. I found the whole place scrupulously clean. The principal and staff are working for the good of the Indian.

I was told that this year the boys returned from their holidays in much better health, cleaner and better clad. The parents of some said their boys talked of hygiene, and would not sleep with their windows shut.

A homelike atmosphere pervades the school.

Alert Bay Girls' Industrial School (Church of England).

Inspected in November, 1913. This school was reopened on August 6, 1912. The staff was comprised of Mr. A. W. Corker, principal; Miss Nevill, matron; Miss Nixon, teacher.

Twenty-one girls were enrolled and were all present at inspection. They were classified as follows:—

	Pupils.
Standard I	19
“ II	1
“ III	1

SESSIONAL PAPER No. 27

The girls read nicely, considering the short time they had been at school. Their writing was neat. They recited the Lord's Prayer very nicely. Children are in school from 10 a.m. to 12 noon, and from 2 to 4 p.m.

Besides school work, the girls are taught many useful things, housework, cooking, and sewing. Good progress had been made in sewing. Two girls had already learned to make bread.

Sanitary precautions are taken, closets are in the building, are often flushed, and pipes lead to septic tank. Water is not sufficient in dry season. Rooms were well ventilated.

Pupils receive plenty of nourishing food. All were neatly clad. Each day they go through their musical drills. As the girls only understand a little English, they are only told the simplest rules relating to the care of the body. I do not think anyone would believe that these were the same children as those who a few months ago were in the Indian villages. They were wonderfully transformed, neat and clean, with bright and happy countenances.

The buildings were splendid for school purposes. The sleeping porch should be finished with wire and canvass, as only half was done when it was built. They had no fire-appliances.

Mr. Corker's experience as principal of the boys' school for 20 years, and his knowledge of the Indians, eminently qualify him for the principalship of the new school. Miss Nevill is very tactful as matron. Miss Nixon is well qualified to teach.

His Lordship Bishop Roper has taken great interest in these schools at Alert Bay.

Alert Bay Day School (Church of England).

Teacher, Mr. Moody.

Inspected in November, 1913. As the teacher was seriously sick in the hospital at time of inspection, Rev. A. E. Price was in charge. There were 15 of school age in the village, all enrolled. Four visiting children, from distant villages, were also enrolled. Seven pupils were present at inspection. The children were classified as follows:—

	Pupils.
Standard I	12
" II	6
" III	1

The most advanced pupils at former inspection have since gone into the industrial schools. Those present did fairly well considering their irregular attendance.

Parents take but little interest in their children's education, they are more interested in the 'potlatch,' and want to bring their children into it.

A qualified teacher (lady) was expected a few days after my visit, to take charge. The building was clean and in fair repair.

Cape Mudge Day School (Methodist).

Teacher, Mr. Edward Rendle.

When I visited the reserve I learned that the church had given the teacher three months' leave of absence, after a service of 8 years at this one school.

I saw the chief and people and exhorted them to send their children to school. I warned them that if they did not take better care of their girls, and send them to the village school, I should recommend the department to have them placed in residential schools.

4 GEORGE V., A. 1914

When the school was reopened in November, a great change for the better took place, and the average for the quarter was 17.

The building was in good repair.

Gwayasdums Day School (Church of England).

This school was closed, and so I did not visit the village.

WILLIAMS LAKE AGENCY.

Williams Lake Industrial School (Roman Catholic).

Inspected in October, 1912. The staff was as follows: H. Boening, principal, Brother Joseph, foreman; Brother Collins, instructor in agriculture; N. Robertson; carpenter; Sister Gabriel, matron and teacher; Sister Seraphim, teacher; Sister Alix, teacher; Sister Fabian, cook; Sister Lydia, assistant cook; Sister M. Assumption, seamstress.

Sixty-five pupils were enrolled; 37 girls and 28 boys. There were 36 girls and 25 boys present at inspection. Four pupils had failed to return after their holidays.

Pupils were classified as follows:—

		Boys.	Girls.
Standard	I.	3	4
"	II.	6	9
"	III.	6	0
"	IV.	2	5
"	V.	3	5
"	VI.	8	14

The senior girls did well in composition, grammar, hygiene and geography. They read distinctly. Maps were well drawn. The junior girls could spell, count and form simple sentences. All the girls are bright, seem contented and anxious to learn.

The boys did not do so well; could read, spell, write and do fair sums in arithmetic. They had not advanced like the girls; they seemed discontented, and not very willing to work or study. I was informed that they were all right until the summer holidays, but when they returned had shown a poor spirit and were difficult to manage. However, during the time I was there, I noticed they began to take more interest in their games, &c. The teachers of both boys and girls are well qualified, and are working hard to train the children.

The class-rooms are large, airy, well lighted and equipped. Both boys and girls pass 4 hours in school and 4 hours in work.

The school property consists of 5,000 acres, 500 of which is cultivated, the remainder is wood and grazing land. Last year they raised 200 tons of hay, 25 tons of oats, 1 ton of barley, 20 tons of potatoes and 2 tons of other vegetables. There is a splendid kitchen garden of an acre and a half, where onions, turnips, cabbages, carrots, &c., are grown.

On the farm there are 300 head of cattle, 28 horses, 25 pigs, 75 chickens and a few ducks. Their barn is the finest in the district. Eighteen cows were being milked, and 400 pounds of butter made. Three boys attend to the separator and churn, the girls doing the finishing work.

Some of the boys are handy with carpenter's tools. When they were unable to secure a trade instructor, some of the more experienced laid floors in several rooms and halls, and changed part of the attic into a first-class bath-room. The work was well done.

The sisters carefully instruct the girls in all the branches of housekeeping; in turn they are in the kitchen, in the sewing-room, &c. They also look after the poultry.

SESSIONAL PAPER No. 27

Last spring an epidemic of scarlatina was more or less prevalent in the district. The school was quarantined, and though nearly every pupil had it, all recovered. The children had on warm clothing and were well fed.

The school has a splendid supply of water; they replaced the old, rusted out iron pipes by wire-bound wooden ones.

I saw some of the ex-pupils, who were doing well.

The buildings were well ventilated; every precaution is taken in case of fire. I was over every building and found each part scrupulously clean. The staff is a most efficient one.

KAMLOOPS AGENCY.

Kamloops Industrial School (Roman Catholic).

Inspected in November, 1912. The staff was composed of the following members:—Rev. A. M. Carion, principal; Mr. J. A. Rioux, teacher; Mr. L. Viel, trade instructor; Sister M. Monica, matron; Sister M. Donald, teacher; Sister M. Odila, assistant matron; Sister M. Theodule, cook.

There were 34 boys and 32 girls enrolled. Sixty-three were present at inspection. Three were ill in the Kamloops hospital.

The pupils were graded as follows:—

		Boys.	Girls.
Standard	I.	5	23
"	II.	12	0
"	III.	7	7
"	IV.	6	2
"	VI.	4	0

The boys in the higher grades read and spell very well. The composition was good; grammar, history and geography, fair. The smaller boys did very well in their studies. Mr. Rioux, the teacher, has done good work in the school.

The girls do not seem to be as interested in the school work as the boys, hence have not made as much progress.

The school owns 200 acres of fenced land, but for the most part the soil is sandy and poor. About 10 acres were in alfalfa, 5 acres in garden. The crops were good the past season, due to heavy rainfall. They raised 25 tons of potatoes, 2 tons of carrots, 4 tons of mangolds, and enough beans, pease, corn, and tomatoes for the use of the school. Plenty of small fruits were raised.

The live stock consisted of 4 horses, 1 bull, 4 cows, 3 heifers, 2 calves, and 50 hens. Only 2 cows were milked last summer.

The boys team, care for stock, garden, and do a little carpentering. Ten boys worked at the addition to the buildings, and some do good work.

The girls are taught housekeeping.

Children are given plenty of time for recreation, are well fed and cared for. The general health of the boys has been good, but there had been considerable sickness among the girls. One girl was in the hospital recovering from an attack of pneumonia. Pupils are taught a little hygiene, caring for their bodies, &c. The principal thinks the text-book is too difficult for Indian children; but many children in other schools understand and like it.

The sanitary conditions were being greatly improved, a wing, containing dressing rooms, bath-rooms and wash-rooms, was being built. The new system of drainage was working well and gives great satisfaction. They get an ample supply of water from the Thompson river pumped into tanks by the gasolene engine.

The buildings are poorly arranged, not well ventilated, and it would be hard to protect them in case of fire.

The majority of the ex-pupils are living on the reserve; some that are working on their little farms, or for white people, seem quite industrious.

KOOTENAY AGENCY.

Kootenay Industrial School (Roman Catholic).

This school is situated at St. Eugene mission, about 6 miles from the town of Cranbrook. Inspected in November, 1912. The staff was composed of the following: Rev. E. Lambot, acting principal; J. M. Smith, boys' teacher and trade instructor; Sister Justinian, superior; Sister Gervais, seamstress; Sister Valentina, girls' matron; Sister M. Benedicta, teacher; Sister Elizabeth, teacher; Sister M. Delphine, seamstress; Sister M. Lalumiere, cook.

The principal was away on a distant part of his mission, and so I did not meet him at the time of my visit.

There were 60 pupils enrolled, and 17 others not yet formally enrolled. Seventy-seven were present at inspection. Pupils were classified as follows:—

	Boys.	Girls.
Standard I	20	17
“ II	4	9
“ III	9	6
“ IV	5	7

I inspected the classes in all subjects studied, with satisfactory results. I found that the senior pupils had made good progress. A number of the new pupils were making a fair start. They showed a fair knowledge of hygiene, and are making a practical use of same.

The boys are in the class-room from 8.30 to 11.15 a.m.; the girls from 1 to 4 p.m., with an hour for all to study in the evening. The rest of the time is divided between work and play. The boys have a splendid band. The girls' mandolin club numbers 16, and plays nicely.

The farm is in good condition. Ten more acres were put under cultivation. They had a good supply of hay and grain, and raised about 30 tons of potatoes.

The garden supplied them with fresh fruit, turnips, carrots, beets and onions and celery.

They have 14 milch cows, 70 head of cattle, and 18 pigs. The boys do the milking and the girls attend to the dairy. Butter for school use is made all year round.

The girls devote 3 hours each day to domestic work, and become efficient little housekeepers. All the bread in the school is made by them. They learn both machine and hand sewing.

With two exceptions the pupils looked healthy. All receive all the food they care to eat.

The water-supply is far from being satisfactory, but I was given to understand that the installation of a better water-supply was then under consideration.

The new building was nearly completed and would soon be ready for use. They will then have accommodation for 80 pupils and if necessary, by finishing the large attic, room could be made for many more.

I saw the chief and other Indians, who expressed themselves as pleased with the school.

The Rev. Felix Beck, the former principal, had retired, and the Rev. E. Lambot had taken his place. I regret not meeting the new principal.

SESSIONAL PAPER No. 27

LYTTON AGENCY.

Lytton Industrial School (Church of England).

Inspected in June and October, 1912. The staff was made up of the following members:—Rev. Leonard Dawson, principal; Mrs. Dawson, matron; Mrs. Sedden, assistant matron; Miss Hare, laundress; Jung, cook; G. Fitzgerald, farm instructor; G. Scarrett, teacher; John Shannon, gardener; Jas. Ashley, farmer; T. Smith, carpenter.

Thirty-four boys were enrolled, and all were present at inspection. They were classified as follows:—

		Pupils.
Standard	I.	16
"	II.	6
"	III.	5
"	IV.	4
"	V.	3

The former teacher, Mr. G. Blackmore, resigned, his place being taken by Mr. G. Scarrett, a gentleman well qualified for the position.

The 12 pupils in Standards III, IV and V did creditably in all subjects studied. The other boys were making a good start. All appeared to be cheerful, contented and willing to learn. The teacher maintains splendid order.

The half day system is followed. Every Saturday afternoon they have a holiday.

The school owns over 600 acres of very fine land. Two hundred acres are under cultivation. The soil is sandy, but they have it all well irrigated. Last year they had 10 acres in potatoes, also large crops of grain, hay, roots, fruit and vegetables. Small fruits are grown in quantities in their large garden.

On the farm they have 40 cattle, 45 sheep and 7 horses. Stock is well housed. Ten to 12 cows were being milked, butter is made for school use.

The boys learn many useful things, several are becoming handy with carpenter's tools; two do a little blacksmithing; two mend shoes, all of them help in the garden and laundry.

The building was well ventilated; the drains in order; there is an abundant supply of spring water, piped into covered tanks.

Fire appliances are kept in readiness. A sprinkler can be turned on the roof in a moment if necessary.

All parts of the building seemed to be in good repair. Since my former inspection a dairy had been added.

When I visited this school in 1911, there were only 8 pupils present, now, as mentioned above, there are 34, more than 20 having been admitted during the year.

The food given to the children is of the best quality, simple but wholesome. All were warmly clothed.

Some of the ex-pupils were doing well, but others, I regret to say, have not been doing well since leaving school. Good boys on leaving school would have a fair chance if they had some land to cultivate. But the majority on leaving school go to work with navvies or sectionmen on the railway. They come under the influence of rough men who drink and many are led astray.

Both principal and staff are energetically working to make the school a success.

All Hallows Boarding School (Church of England).

Situated at Yale. This school was inspected in June, 1912, and in February, 1913. The staff was as follows:—Sister Superior, C.A.H., principal; Sister Althea,

4 GEORGE V., A. 1914

C.A.H., vice-principal; Sister Marian, C.A.H., teacher; Miss Smith, head mistress (Queen's scholarship); Miss Flower, teacher; Rev. H. Underhill, chaplain.

There were 23 children enrolled. Twenty-two are on the register for the grant, one is paid for by friends. Twenty were present at the time of my visit. They were graded as follows:—

Standard		Pupils.
I.	7
"	II.	2
"	III.	4
"	IV.	3
"	VI.	4

The seniors read, spell and write exceedingly well. Grammar, history and geography, good. The copy and drawing books were models of neatness. Hygiene is taught regularly, pupils begin to see the benefit derived from care of the body.

The younger pupils did well also. Credit is due both pupils and teacher. All seemed contented and happy. I never saw a brighter or healthier lot of girls.

The sisters have a splendid garden, which supplies them with enough vegetables and fruits to last the winter. Over 1,000 pounds of fruit was preserved in summer for use during the year.

The girls are taught every branch of housework, they sew, make bread, do laundry work, weave baskets, &c.

The Indian girls attending this school are very healthy, nicely clothed and given plenty of nourishing food.

I found the sanitary conditions of the school favourable, the heating and ventilation are of the best, even in severe weather fresh air is let in. Windows and ventilators are kept open night and day. The drains are well flushed and disinfectants are used freely. The water-supply is sufficient in the winter months, but does not always work well.

Precautions are taken in case of fire; fire-extinguishers are ready for use, and the pupils are taught how to use them.

With the exception of some slight damage done by the recent heavy snowfalls, the buildings were in good repair.

There is one-quarter breed child in the school; her parents pay for her.

The children play many games. They are taught physical exercises each day, and do them nicely.

Many of the ex-pupils have married and settled down in different parts of the province. The school received letters from more than 30 of them at Christmas-time. One girl has been nursing in a hospital and is now preparing to go to Toronto for three years' training. I visited a number of the girls in their homes. The girls who had been at the Yale school keep house much better than others who have not had the advantage of a boarding school training.

Lytton Day School (Church of England).

Teacher, Miss Lily Blachford.

Inspected October 23rd, 1912, and in February, 1913. There were 18 children of school age on the reserve, 16 of them enrolled with an average attendance of 9. Present at inspection, 8 girls and 4 boys. The children were graded as follows:—

Standard		Pupils.
I.	7
"	II.	4
"	III.	1

SESSIONAL PAPER No. 27

The reading, spelling, counting and writing were very good. The beginners were making a start.

The building was in fair repair; with a new floor it will do for some time.

Shulus Day School (Church of England).

Teacher, Miss Frances K. Waghorn.

Mr. Morris taught the first part of the year. Miss Waghorn, a well qualified teacher, opened the school in October. I inspected it in October, 1912. There were 36 children of school age on the reserve, 24 enrolled, with an average of 9. Only 7 were present at the inspection. May of the children were out in the fields picking potatoes, as a severe frost had come the night before. Children present were graded as follows:—

		Pupils.
Standard	I.	6
"	II.	1

These small children had made a start. They could read and spell small words, and could count a little.

The new building was just being used for the first time.

General Remarks.

By asking questions of Indians in all parts of the province, and from close observation, I find the Indians' idea of happiness is to live without work. If the schools can succeed in changing the point of view of their pupils, so that they will see that pleasure is not in idleness but in useful work, a great change for the better will have been accomplished.

THE REPORT OF W. M. GRAHAM, INSPECTOR OF INDIAN AGENCIES,
ON THE EX-PUPIL COLONY AT FILE HILLS, SASK., FOR THE YEAR
ENDED MARCH 31, 1913.

I have the honour to submit my fourth annual report on matters in connection with the File Hills ex-pupil colony for the past fiscal year.

This colony has now a population of 108 souls, made up as follows:—adults, 52; children, 56. There are two very fine churches in the colony, one Roman Catholic and the other Presbyterian. Of the 108 members, 59 belong to the former church and 49 are Protestants.

The hospital is now completed and will be opened under a competent matron.

Generally speaking, I think there has been substantial progress made in the colony during the year. The Indians provide well for their families and are accumulating a great deal of personal property. Most of the farms are well equipped with all kinds of farm machinery, which has been paid for by the Indians themselves. One of the striking features of the colony is the fine class of horses that is to be seen there. I do not think there is an Indian pony to be found in the colony.

Nearly all had good gardens last year, and, as time passes, I can notice an improvement in the manner in which they do their gardening.

The houses are steadily improving, and we now have many dwellings that would compare favourably with those of their white neighbours in the adjoining district.

4 GEORGE V., A. 1914

The manner in which the houses are kept would do credit to many white women. Of course, there are a few young wives who are careless and require constant supervision, but this is to be expected.

With few exceptions they all keep cows, hens and pigs, and some of them sell butter and eggs throughout the year.

Farming is the main occupation of the members of this colony, and as time passes the area for each individual increases, so that one or two of them are now farming over 300 acres, and quite a few have over 200 acres.

Last year a terrible tornado passed over the colony and blew out from fifteen to 20 per cent of the grain, but notwithstanding this loss they threshed out over 65,000 bushels. They summer-fallowed 994 acres and broke 246 acres of new land. Many of the members have brought all their land under cultivation, and I am now urging them to do even more summer-fallowing than has been done in the past. Seventy-five per cent of the grain sold was shipped in car-load lots, which, of course, means that the Indians got a better price than if they had sold it locally.

There was an epidemic of measles in the colony last year, and in two cases complications set in and the patients died. Generally speaking, these young people enjoyed good health during the year. They are learning to take better care of themselves and their children.

THE REPORT OF A. NELLES ASHTON, PRINCIPAL OF THE MOHAWK INSTITUTION (INDUSTRIAL SCHOOL) BRANTFORD, ONTARIO, FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—A new greenhouse, 80 feet x 25 feet, was erected. The two old ones, beyond repair, were pulled down and a small cold glass-house, 40 x 15 feet, was built out of the old material.

The poultry-house was rebuilt, enlarged, and moved nearer the house, and placed under the girls' department.

The girls' dressing-room was thoroughly renovated, new racks were made for the dresses, towels, &c.

All barns and outbuildings were painted, and a cement foundation placed under one of the pig-pens.

A large open shed was reshingled, it having suffered in the Good Friday storm.

Accommodation.—There is accommodation provided for 125 pupils (70 girls and 55 boys) and a staff of 12, including 3 farm-hands and a gardener.

Attendance.—The average attendance for the year was 126.

Class-room Work.—This covers the full course prescribed by the department. Four girls and one boy passed the entrance examination into the high school. Three pupils are attending the Brantford Collegiate Institute.

Jesse Moses was successful in passing his second year's departmental examination (lower-school entrance to the Normal) at midsummer.

Several pupils are taking up stenography and typewriting.

The school hours are from 8.30 to 12 noon and from 1.30 to 4 p.m. in the summer and in winter from 8.45 to 12 noon, and from 1.30 to 4 p.m., and from 7 to 8 p.m.

All pupils in standards IV, V and VI have private study from 8 to 9 p.m. Pupils form two divisions, 'A' and 'B'; one week 'A' division attends school in the morning and 'B' in the afternoon, the next week the order is changed.

The pupils in standards I and II are in school full time throughout the year.

SESSIONAL PAPER No. 27

Classification:—

	Pupils.
Standard I	12
“ II	19
“ III	14
“ IV	14
“ V	34
“ VI	36
Total	129

Farm and Garden.—The result of the year's work was highly satisfactory. The cash sales in this department amounted to \$4,175.64. The root, vegetable, and corn crops were exceptionally heavy, harvesting 3,900 bushels mangolds, 1,700 bushels turnips, 3,000 bushels potatoes, and 2 carloads of sugar beets.

Our dairy had a record year.

Industries Taught.—Farming, gardening, carpentering, and the care of green-houses form the principal occupation of the boys, and include the management of a dairy of over 30 cows, and the raising of pigs, also the cultivation of plants and flowers for market.

The girls are taught domestic work, including sewing, dress-making, cooking, baking, laundrying, buttermaking and the care of poultry. They make all their own clothes, also those of the boys, with the exception of the best tweed uniforms, an issue of which is purchased every year.

Moral and Religious Training.—Morning and evening prayers are conducted for the whole school daily and divine service at His Majesty's Chapel of the Mohawks at 11 a.m. each Sunday, weather permitting, by the chaplain, Rev. R. Ashton. On wet and stormy days service is held in the assembly-room, which can be converted into a chapel by the opening of folding doors. Religious instruction is given daily in the schools, and on Sunday from 9 to 10 a.m. (singing); 2.30 to 3.30 p.m. (Sunday school) and 7 to 8 p.m. (singing and prayers).

The Bishop of Huron confirmed a class of 32 candidates on March 28.

Health and Sanitation.—The general health of the pupils has been exceptionally good. We were unfortunate in losing a little girl, who died at the Brantford General Hospital of heart trouble. Two pupils were discharged medically unfit (scrofulous). No epidemic of any kind marred the year.

The sanitation is good, the drainage being connected with the city sewer. Lavatories and closets are up-to-date and disinfected regularly.

Recreation.—The recreation hours are one hour at noon, two hours in the evening in summer, and one in winter, and for school divisions in summer from 4 to 5 p.m., also one half holiday a week.

There is no school from July 17 to August 21. During this time the teachers take their vacation, each pupil has half a day holiday, but the industrial work of the institution goes on as usual. The same rule applies to Christmas week. The boys are furnished in their playground with swings, parallel and horizontal bars. They have a field where they play baseball, cricket, lacrosse and football, swimming and fishing in the Grand river, which is less than half a mile from the school. The cadets spend a lot of time on their new miniature rifle range, under a capable instructor.

The girls are provided with swings, footballs, croquet, skipping ropes, balls, &c. Those who prefer to read are furnished with magazines and books from the school library. The boys also have the use of the library.

In the winter a large rink is built for the pupils, who are allowed on it alternately at given hours.

4 GEORGE V., A. 1914

Ex-Pupils.—Twenty-eight pupils were discharged during the year (18 girls and 10 boys). Of the boys, 8 are working among the whites, one discharged medically unfit is attending school on the reserve, and one who absconded has not been heard from. Of the girls, one is attending the high school at Caledonia, 9 are in domestic service, one is attending school on the reserve and the rest are at present at their homes.

General Remarks.—Our cadet corps passed another excellent inspection in drill, and we hope this year to develop a goodly number of rifle shots.

THE REPORT OF THE REV. S. R. McVITTY, PRINCIPAL OF THE MOUNT
ELGIN INDUSTRIAL INSTITUTION, MUNCEY, ONTARIO, FOR THE
YEAR ENDED MARCH 31, 1913.

Accommodation.—The main building furnishes accommodation for the principal and his family, 8 officers and 125 pupils. Owing to an increase of 25 in the authorized number of pupils, additional accommodation, consisting of class-room, sewing-room, dormitories and play-rooms has been provided during the year.

Attendance.—The average attendance for the year was 132.

Class-room Work.—The school work is under direction of three competent teachers. The primary pupils are in school full time. With the intermediate and senior pupils the half-day system is observed. The Ontario public school curriculum is followed with very gratifying results. The hours are from 9 to 11.45 a.m. and 1 to 3.45 p.m. A voluntary study period is provided in the evening for the senior classes.

The pupils are graded as follows:—

	Pupils.
Standard I.	31
“ II.	23
“ III.	28
“ IV.	27
“ V.	17
“ VI.	6
Total.	132

During the year promotions were made, subject to the approval of the inspector, as follows:—

	Pupils.
Standard 1—2.	9
“ 2—3.	17
“ 3—4.	18
“ 4—5.	12
High school entrance.	5

Six candidates wrote on the high school entrance examination, five were successful, one failing through illness at time of writing.

A class of 17 girls is receiving thorough instruction in piano and vocal music under a fully qualified teacher.

Industrial Work.—The boys are taught carpentry, blacksmithing, boot and shoe repairing, the care and management of engines (steam and gasolene), farming in all its branches, including the care and management of live stock. The girls receive care-

SESSIONAL PAPER No. 27

ful training in housekeeping, baking, cooking, laundry and dairy work; also the cutting and making of garments and fancy needle-work.

Farm and Garden.—During the year we harvested 43 acres of wheat, (one field yielding almost 50 bushels per acre), 36 acres of oats, 35 acres of corn, 8 acres of roots, 8 acres of potatoes, 90 acres of hay. The garden supplied ample vegetables for home use.

Moral and Religious Training.—Incidental moral instruction is given from literature, history, &c., and from current, local and foreign events. A moral standard is set for the pupils by a staff of able officers. Morning and evening prayer services are held daily; this includes scripture reading. On Sunday morning the pupils, in charge of officers, attend service at the Colborne Mission. Sabbath school is conducted regularly.

Health and Sanitation.—Beautiful for situation, the sanitation of the school is splendid, and the health of the pupils excellent, save one case of pneumonia which proved fatal.

Recreation.—Pupils in class-room during the forenoon play from 7.30 a.m. to 9 a.m., and those in school in the afternoon play from 3.45 p.m. to 5.30 p.m., and all join in different games during the evening. In summer, baseball, basketball, tennis and other games are indulged in, and in winter, skating, tobogganing, sleigh-riding and indoor games are provided.

Ex-pupils.—Of those who left the school during the year, three are teaching school, several farming, two in factories, one carpentering, several in domestic service, one has married and gone back to the reserve. All are doing well.

Conduct.—The conduct, with one or two exceptions, has been excellent; punishment of any kind is our strange work, yet we have the best of order. A mutual sympathy exists between pupils and staff.

General Remarks.—This year we have added blacksmithing as one of the industries taught. Several boys are anxious to learn the trade, and are making a good start. When a boy shows a special aptitude for some particular industry, we usually allow him to specialize on that subject. The school has been in continuous operation for over 50 years, and we think the past year has been one of the very best in its history. We have the confidence and hearty co-operation of the parents of the pupils. They are learning to appreciate the value of the school, and are increasingly anxious to avail themselves of its privileges.

THE REPORT OF REV. BENJ. P. FULLER, PRINCIPAL OF THE SHINGWAUK AND WAWANOSH HOMES, SAULT STE. MARIE, ONT., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 75 pupils, 50 boys and 25 girls; also ample room for staff required.

Staff.—The staff has been increased in number owing to the larger number of pupils enrolled, and consists now of 8 members: principal, matron, nurse, two teachers and matron's help, and two men who look after the outside work and train and instruct the boys. The addition of a nurse and one instructor was made on account of the increased pupilage in attendance, and the fact that much work was needed to be done in making repairs and improving generally, also because we are working on a systematic plan of training and self-support, which we trust will be largely beneficial to the pupils and an advantage to the homes.

Attendance.—The attendance authorized by the Indian Department is 75, and the average attendance 63.

4 GEORGE V., A. 1914

Class-room Work.—The school is divided into three divisions. I and II are senior pupils attending school half time, morning and afternoon respectively. Division III consists of junior pupils attending the class-room the whole day. The authorized programme of study is followed with good results. Our additional teacher, Mrs. Thomas, is devoted to her work, and the children are doing remarkably well. The hours of school are from 8.30 to 12 noon, and 1.30 to 4.30 p.m., and the advanced pupils do home work each evening. The pupils are graded as follows:—

		Pupils.
Standard	I.	19
"	II.	25
"	III.	9
"	IV.	9
"	V.	1

Many promotions were given during the year and the pupils have made good progress, considering that some came only this year and could speak no English at all.

Farm and Garden.—We have harvested sufficient grain and hay to feed our own stock: horses, cattle, pigs, sheep and poultry, and from these we have supplied all the meat, eggs, milk, &c., necessary for the pupils and staff. We have also an abundance of potatoes and vegetables for home use.

Industries Taught Boys.—The boys are carefully instructed in all departments of agricultural work, and the benefit of same explained to them. They are taught the care and management of horses, cows, pigs, sheep and poultry; also garden, both vegetable and flowers, our garden instructor, Mr. Thomas, being an expert in this particular branch.

We have gasolene engines and use same in sawing our firewood, grinding grain for the stock, cutting straw, &c. The boys are allowed to manage these machines, and they are remarkably careful with them.

We have a gasolene launch, which we use both for pleasure and service, and often take pupils or some of the staff out on short trips. We carry supplies from the town, too, and this is a saving on horses and time when the busy season and bad roads come.

Girls.—The girls are given thorough training and instruction in housekeeping, cooking, laundry and dairy work, also making and repairing garments, knitting and fancy-work.

Moral and Religious Training.—A morning and evening service is observed daily in class-room and all pupils and staff attend divine service in the home chapel every Sunday, and Sunday school in the class-room.

Health.—The general health has been good until the extraordinary weather of last winter, so many took colds which were hard to shake off. All are fairly clear of them now.

We are sorry to record the death of two little girls from Garden River. One of them was always frail, the other was a poor little paralytic. Both of these deaths were expected long before, and everything possible was done for them. Their lives were prolonged considerably through the untiring devotion of our nurse, Miss Coombe.

Sanitation.—All rooms are aired by ventilation and open windows whenever weather will permit, and a system of housecleaning is always observed. Pupils are expected to be out and are seen to be out when not at duty or in the class-room. Any pupil not in good health must obey these rules, and the matron and nurse attend and see that they are warmly clothed.

Recreation.—In winter all pupils, even the little ones, skate, both girls and boys, and nearly all play hockey. The pupils are taken for sleigh rides and also provided with small sleighs for coasting on the hills. In summer we have a good

SESSIONAL PAPER No. 27

large playground, where all summer games are enjoyed. A proper system of drills and exercises is provided.

Ex-pupils.—Four pupils were discharged during the year and are doing well. They write back frequently and we try to keep in touch with them, so that we may still keep the fact before them of obligation. We receive frequent visits from ex-pupils who are very promising indeed.

Conduct.—The conduct on the whole is good. Little things must occur at times where there are so many, but nothing serious has happened. We find that with kindness and strict call to obedience, always with ordinary tact, we can manage the pupils well.

General Remarks.—During the year we have made some marked improvements in all departments. The pupils have advanced well in their studies, and in their general knowledge of the different industries about the homes. We have reshingled the main building, rebuilt four chimneys, and changed the shape of roof in one particular gutter, which had always given trouble by holding snow and leaking down inside and down the wall. This change proved a success, and we intend to change all the gutters before winter.

We have done a lot of work grading in the rear of the homes to prevent water running into the boiler-rooms. This, too, answered the purpose, and we intend making it still better.

Our cattle stable was not large enough and we have enlarged it. Our stock has increased very fast. We shall have some to dispose of during the present season.

We have repaired, renovated and furnished our little isolation hospital so that objectional cases may be kept there separate from other pupils.

Many other improvements have been made, such as repairing dock, building boat-house, &c., and we are arranging now for other improvements.

Financial.—Financially, the institution is progressing, considering the changes and improvements that were necessary to be made, and it is our hope that by the end of 1913 we shall have every debt paid off. At present we are running everything just as close as we possibly can, and we heartily thank the Department of Indian Affairs for the generous help we have so promptly received each quarter.

THE REPORT OF REV. L. N. DUGAS, S.J., PRINCIPAL OF THE INDUSTRIAL SCHOOL, WIKWEMIKONG, ONTARIO, FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—The accommodation for both schools is still limited, though sufficient for the pupils and their respective staffs. The new building will be ready for September next, and then there will be accommodation for over 200 children with their staffs.

Attendance.—The boys were 82 in number, with 2 teachers and 14 officers; the girls were 74 with 2 teachers and 12 officers. The day pupils are not included in these figures.

Class-room Work.—The school is governed by the official programme of studies for Indian schools. The time appointed for it is from 9 to 11.45 a.m., and 1.30 to 4 p.m., with a short recess in the middle of each session. The children have also another hour of study for home-work, private reading, letter-writing and vocal music. On Saturdays they have twice as much; on Sundays they have two hours.

The older boys learning trades always have at least two hours and a half class each day. In the same manner the older girls spend a part of the time devoted to class-work in sewing, dressmaking, knitting and baking.

The pupils are about equally divided into four sections, two for the boys and two for the girls, and are under the tuition of four different teachers; pupils of the lower grades being taught in the same room in connection with the day pupils. The pupils are graded as follows:—

		Pupils.
Standard	I.	42
"	II.	22
"	III.	48
"	IV.	17
"	V.	27
Total.		156

Farm and Garden.—The farm, consisting of 200 acres of land, is managed with a view of supplying the institution with meat, vegetables, milk and butter. It is well stocked with cattle, sheep, horses, hogs and chickens. The work is done partly by the boys, with the help of Indian workmen, under the guidance of an experienced farmer. About one acre is laid out and cultivated with great benefit as a kitchen garden.

Industries Taught.—The main industry taught to the boys is farming, because it is about the only one that they will make use of after their school time is over. Attention is also given to woodworking, baking and shoemaking. About 25 of the older boys were especially instructed in farming, some of them made good progress and give great hopes for the future. They can do all the work on the farm by themselves and they understand all about farm machinery. Three boys did the work in the shoemaker's shop and two in the baker's shop. Besides this special training, all the pupils are employed daily about two hours, each one according to sex and ability, at various kinds of labour, such as sweeping, scrubbing, helping in the kitchen and on the farm, sawing and splitting wood, dairying, gardening and feeding stock. The laundry work is done at the girls' school with the help of Indian women. The more advanced girls have a daily sewing class. The pupils, generally, take well to these various kinds of manual labour. The girls, in particular, show that they appreciate the zeal of their teachers. Even after they have left the school the village girls come once a week to receive lessons in fancy sewing, dressmaking, &c.

Moral and Religious Training.—Being convinced that without religion there can be no perfect education, that is to say, no complete and harmonious development of the intellect and heart of man, special care is given to the study of Christian doctrine which is the best safeguard of morality. Religious instruction is imparted by sermons preached to all students in the church and by special teaching in all classes. This teaching is graded according to the age and mental development of the pupils. Catechism is a text-book in every class, and regular explanations thereof are given several times each week.

Health and Sanitation.—Although slightly crowded, on account of the fire of 1911, the sanitary condition of the school is on the whole good, owing to the system of hygienic ventilation which is going through at present, along with other improvements. The sanitary condition of dormitories, class-rooms, study-halls and refectories is good, ventilation being well regulated. The boys' dormitory is furnished with bath-room, hot and cold water, and other conveniences. The health of the pupils, in general, has been very good.

Recreation.—Two hours daily, besides Saturday afternoon, are given exclusively to recreation. The first Tuesday of each month is a free day for every boy who has given satisfaction throughout the month. The first Wednesday is for the girls. Both schools have playgrounds furnished with suitable games and gymnastic appliances, and play-halls for bad weather and evening recreation in winter. The girls' play-

SESSIONAL PAPER No. 27

ground is divided into two parts, one of which is reserved for the smaller girls and the other for the senior ones.

Physical Culture.—In view of the full development of all the pupils' faculties, their physical culture is by no means overlooked, hence outdoor exercises and games are encouraged and even insisted on. Physical drill forms a much appreciated adjunct of the common training.

Ex-Pupils.—Several of our ex-pupils have started opening new farms on the island and are doing well on them. In general, I may say that the school is contributing largely to the elevation of the moral tone and development of thrift and industry, the enlightenment of the mind generally, and improvement of physique among our Indians.

THE REPORT OF REV. I. CARRIERE, O.M.I., PRINCIPAL OF THE FORT ALBANY, BOARDING SCHOOL, ALBANY, JAMES BAY, VIA COCHRANE, ONT., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—The number of pupils for which accommodation is provided is 10 boys and 10 girls. The staff is composed of a nun, teaching English, and 2 Oblate fathers; one of which teaches the Indian language, and the other, morals and religion.

Attendance.—The attendance at school is very regular, the pupils living and boarding in the house.

Class-room Work.—Our class-room work consists of reading and the writing of the English and Indian languages, arithmetic, geography, grammar and drawing. The most important study for our Indians is reading and writing. For many of them these are the only subjects they can learn. They only remain two or three years at school, and then return to their hunting grounds.

Farm and Garden.—We are doing a little farming and gardening. Although the soil is fertile, we cannot harvest very much, the climate being too severe. We have only three months of warm weather. Carrots, turnips and potatoes are the only vegetables that we can grow, and sometimes they are cut down by the frost. Wild hay grows profusely, the land being marshy.

Industries Taught.—The industries taught are, farming and carpentering for the boys, and sewing and cooking for the girls.

Moral and Religious Training.—One of the reverend fathers takes care of the moral and religious training of the pupils. We have come to the conclusion that the religious training is best for the Indians, morally. It shows them their duties towards God and man. First, towards God by uprooting superstitious ideas, and at the same time it teaches them what they were created for. The Indians are a little like children, with the difference, that a child we chastise; but an Indian we have to persuade. It is a very difficult task to civilize them.

Health and Sanitation.—In general, the pupils' health is very good, although the change to school life is great for Indians, who have been accustomed to living in the woods. In fact, it is rather hard for them to be shut in the house, but after two or three months they get used to this mode of life and thrive very well. The epidemics the most prevalent are consumption and scurvy. Out of 10 cases we had only 2 deaths during the year. As soon as we discover a case of scurvy, isolation of the patient is made at once, and they are placed under the care of a trained nurse who makes a special study of these maladies.

4 GEORGE V., A. 1914

Recreation.—The recreation of our pupils consists of football and canoeing in summer; skating and snowshoeing in winter. These are the best amusements for our Indian pupils.

Ex-Pupils.—Several of our ex-pupils have good positions and are well remunerated as interpreters and clerks. They are working for the Hudson Bay Company and the Revillon Brothers fur trading company at Fort Albany, Moose Factory and other places. The others return to the woods for hunting and trapping during the winter. In the spring they come back and work all summer for the fur-trading companies.

THE REPORT OF THE REV. W. HAYTHORNTHWAITE, PRINCIPAL OF
THE BOARDING SCHOOL, MOOSE FORT, JAMES BAY, ONTARIO,
FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—The building is large enough to accommodate 25 children and part of the staff.

Attendance.—There have been on an average 12 children in the boarding school all the year.

Class-room Work.—The children attend all the classes in the day school and have greatly improved since last year in reading, writing, arithmetic and letter-writing.

Farm and Garden.—Our crops of grass and oat hay were very good. We had a very large crop of turnips and potatoes. Practical and theoretical agriculture are taught to all the children in school hours. The older boys can milk and look after the cattle. They spend a good deal of time in the garden and field during the summer.

Carpentering, painting and general jobbing are taught to the older boys, rather as a help to general usefulness than as a trade.

The girls are taught needlework, knitting, laundrywork and general household management. They are also fond of flowers.

Moral and Religious Training.—The children attend family prayers in the day school in the morning and in the evening at home. They also have religious instruction for half an hour every morning, besides attending Sunday school once and church service twice on Sunday.

Health and Sanitation.—With one or two slight exceptions, the children have been well all the winter. Probably the abundance of fresh food obtainable this winter had much to do with it.

Water Supply.—A plentiful supply of good water can be had from the river a hundred yards distant.

Fire Protection.—The school has two flights of stairs to the ground floor; most of the front windows upstairs open out on to a low-pitched verandah roof, giving access to the grounds. A supply of water is always kept in the attic, and water-barrels, pails and ladders are always at hand.

Lighting and Heating.—The school is lighted and heated throughout by oil lamps and wood stoves.

Recreation.—The children enjoy all kinds of games, both indoors and outdoor. The boys are specially fond of their bows and arrows and football. The girls toboggan and have their walks. We find it necessary to give the children plenty of time for play and to give them as much freedom as is possible.

Ex-Pupils.—At present most of the pupils are returned to their homes, as there are practically no situations open for them as yet. The ex-pupils all seem pleased to visit the school at every opportunity. The one or two who have been placed in situations are doing well.

SESSIONAL PAPER No. 27

THE REPORT OF MISS SUTHERLAND, PRINCIPAL OF THE CHAPLEAU BOARDING SCHOOL, CHAPLEAU, ONTARIO, FOR THE YEAR ENDED MARCH 31, 1913.

Location.—The school buildings are situated on lot 2, section 6, township of Chapleau, about half a mile from the town limits, and separated therefrom by a river and lake. A mile south and half a mile west lie the Ojibway and Cree reserves respectively.

Buildings.—A summer kitchen, 20 x 12 feet, was added to the school in August, 1912. The interior of the school was thoroughly renovated and hardwood flooring laid in the dining-room, cloak-room and hall.

Land.—There is 165 acres in connection with this school, about half of which is muskeg and rock, and only useful for pasture. Fifteen acres is cleared and under cultivation. Clumps of trees cover the remainder, from which the fuel has been supplied.

Accommodation.—There is accommodation for 21 children by using the staff rooms, and two of staff, with addition of one probationer in training.

Attendance.—School recommenced August 1, with 11 children, by October, our numbers had increased to 19. In January, a fatherless girl came in, and in February an orphan girl, bringing our number up to 21, which is the limit of our accommodation. Six orphan children spent the holidays at the school.

Class-room Work.—The 4 elder pupils are making satisfactory progress in their studies and take great interest in them. The remainder of the pupils are in the primary class and are also making good progress in each branch of their work.

They have 15 minutes dumbbell drill each day, and other physical exercises, which are much appreciated by them.

Farm and Garden.—The staff garden did well, but the potato-field was a failure. Owing to the breaking down of a bridge, we could not get the horses over to plough the field, and although a piece was dug by hand and planted, the frosts cut the plants down and we had no returns.

We have a few chickens and hope to enlarge our stock this year.

Industries Taught.—All our boys are very young, the eldest is 12 years, but they do the outside work, saw and split wood for six stoves, carry all the water for the house from a well, 173 yards from the house, attend to the fires, and help in the garden in the summer, also act as messengers, mail and freight carriers.

The girls are trained in all domestic duties, care of the dormitories, staff-rooms, laundry, bread-making, sewing and mending. The work for boys and girls is changed each week, even the little ones have their special duties.

Moral and Religious Training.—Special attention is given to this branch of the work. In addition to morning and evening prayer, the first quarter of an hour in the school-room is given to Scripture teaching. The children are conversant with the church service and prayers, also the commandments and catechism in English, and are quick at memorizing hymns and verses of Scripture. On Sundays, they attend service at St. John's church, have Sunday school in the afternoon, and in the evening Bishop Anderson frequently takes service, sometimes in Ojibway, other times in English, which the majority are able to follow well. They also frequently have an evening service on Wednesday.

Health and Sanitation.—The health of the children has been very good, with the exception of a mild epidemic of chicken-pox in January, and the grippe in March, all have been well. All the children are steadily increasing in weight, and are bright and merry.

4 GEORGE V., A. 1914

The premises are kept clean and well ventilated, all refuse is immediately disposed of, having a separate building about three minutes walk from the house for school and class-room. The main building can be well aired during school hours.

Recreation.—In winter, snow-shoeing, skating, tobogganing and rabbit-snaring are the chief outdoor amusements. Indoors, various games are played. In summer, canoeing, swinging, see-saw, and ball games are engaged in; also we frequently have our meals out of doors, and often picnic in the bush.

Ex-pupils.—Some are living on their own reserves, helping their parents in hunting, &c., not having been long enough at school to derive much benefit. Others are earning their living as laundresses or domestics in the villages of Chapleau and Biscotasing.

General Remarks.—We have had a very quiet year as far as visitors are concerned. The Rev. T. Guy Rogers was our principal one.

The Chapleau Women's Auxiliary came over twice to help with the sewing for the school. The Christmas tree party was a great success owing to the kindness of various branches of the Women's Auxiliary, who also help us largely in the way of outfits. The children learnt a flag drill, which they were able to give three times during the winter in public.

The school has also been asked by the general board of the Women's Auxiliary to take probationers for one year's training for Northwest work, which we feel to be a great honour and privilege.

A bridge was built over the creek, and the bush cleared between the farm and the public road, thus providing a path to the town by the large bridge, and dispensing with the slow means of crossing the lake by canoe or boat.

THE REPORT OF THE REV. SISTERS OF ST. JOSEPH ON THE INDIAN ORPHANAGE, FORT WILLIAM, ONT., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is ample accommodation for 80 pupils and a staff of 10. Attendance.—There are 72 pupils registered. During the year 107 were admitted and 93 discharged. Good progress has been made with the pupils who remained in the school. One pupil, Frances Deschamp, passed the entrance in June and is attending the high school, and is one of the best students in the school.

Class-room Work.—The programme of studies required by the department is followed. The school hours are from 9 to 12 a.m., and from 1.30 to 4 p.m.

Farm and Garden.—We have no farm, but a large garden where we plant potatoes, turnips, carrots, beets, peas, beans, onions and lettuce. We have a good crop each year, but not enough for the school.

Industries Taught.—The girls are trained in domestic work, including baking, cooking, sewing, knitting, darning, dressmaking and laundry work. The boys are taught to plant seeds and keep the garden free from weeds.

Moral and Religious Training.—The moral and religious training of the children receives special care. Respect for authority and obedience is continually inculcated and insisted upon. A course of religious instruction is given to both classes each day. Apart from this, they attend morning and evening prayers in the chapel.

Health and Sanitation.—We have screen doors and windows and use fly poison. All the pupils have enjoyed good health; no sickness of any consequence and no deaths. The sanitary condition of the school is good and the buildings are kept clean and well ventilated.

SESSIONAL PAPER No. 27

Water Supply.—The building is connected with the city water-supply. We are abundantly supplied with good water. It is conducted throughout the school by means of a tank and water pipes.

Fire Protection.—There is a splendid fire-escape, of wrought iron pipe, from first to second floor and from second to ground floor. The pupils are drilled once a month in speedily vacating the building day and night. There are 100 feet of hose on each flat and connected with the city water-supply.

Heating and Lighting.—The building is heated throughout by a hot water system and lighted by electricity.

Recreation.—The boys and girls have large well kept playgrounds, where they enjoy all kinds of games. In the winter they have a splendid rink and good skating.

Ex-Pupils.—The pupils who have been recently discharged from the school are doing well. Some of the girls are at home helping their parents, and others are employed in the city as housemaids and are giving satisfaction.

General Remarks.—Bishop Scollard intends to build a wing this year. The proposed addition will accommodate 150 and a staff of 20. Inspector Finn made his visit in November. He showed much interest in the work done by the pupils.

At Christmas, the children had the annual concert and Christmas tree. After a very pleasant entertainment, Santa Claus appeared, distributing his many gifts, which were much appreciated.

We very gratefully thank the department for its kindness in promptly supplying us with school-books.

THE REPORT OF REV. F. T. DODDS, PRINCIPAL OF THE CECILIA
JEFFREY BOARDING SCHOOL, SHOAL LAKE, ONT., FOR THE YEAR
ENDED MARCH 31, 1913.

Buildings.—A new class-room was erected during the summer of 1912, 43 x 28 feet, with space above for clothes store-room. Upon the main building, 67 x 38 feet, was erected a third story for additional dormitory space, lavatories, bath-rooms and bed-rooms.

A second story, frame, 26 x 21 feet, was erected over the stone hen-house for feed-room. There is a frame stable, 36 x 24 feet, with hay loft. Residence, 46 x 24 feet, frame, two stories on stone basement, and two small ice-houses.

Accommodation.—There is accommodation now for 75 or 80 pupils and 7 members of staff.

Attendance.—The first half of the year the average attendance was 37, the second half 30, and the average for the year 33.5.

Class-room Work.—We have followed the programme of studies prescribed by the department. The hours are the same as in the public schools. Senior pupils are taught in the class-room one-half of the day and industrial work the other half. Juniors have full day in class-room. Special attention has been given to calisthenics and hygiene. Class-room work was hindered somewhat by building operations during the summer, but fair progress has been made.

Farm and Garden.—We do not sow any grain. We have 4½ acres cultivated for roots and vegetables, which yielded 360 bushels of potatoes, 30 bushels of turnips and enough cabbages, beets, carrots, onions, &c., to supply the school; also lettuce, radishes, peas, corn and cucumbers for summer use.

The live stock consists of 2 horses, 2 oxen, 8 cows, 7 young cattle, 2 pigs and 50 hens.

Industries Taught.—The boys are taught feeding and care of stock, milking, driving and management of horses and oxen, work on the steamboat and gardening. The girls receive instruction in all departments of housekeeping, in kitchen, dining-rooms, dormitories, sewing-room and laundry.

Moral and Religious Training.—We have morning and evening worship conducted by the principal; also 15 minutes religious instruction as opening exercises in the class-room, and on Sunday, services morning and evening and Sunday school in the afternoon. Teachers are required to keep before the children, by precept and example, a high moral standard.

Health and Sanitation.—During November and December, the children all had measles. In one case, a little girl, pneumonia followed measles, and terminated fatally. With that exception, the health of the pupils has been excellent.

The kitchen and dining-rooms are swept three times each day, recreation-rooms twice a day and dormitories once. The whole school is scrubbed on Saturdays; kitchen and dining-rooms Wednesdays and Saturdays. Rooms are ventilated by grates in chimneys and ventilators in ceilings. Windows are made to open from the top, so the rooms are well ventilated.

The drain is a 6-inch tile sewer, which discharges into a bay on the west side of the peninsula on which the school stands. The water-supply is drawn from the main lake on the east side.

Recreation.—In summer boating and swimming are favorite amusements, baseball and football are practised by the boys, and basketball and swinging by the girls. Hockey, skating and coasting are the principal outdoor exercises in winter. Checkers, dominoes, crokinole, music, &c., are practised in the school.

Ex-Pupils.—There are 28 ex-pupils living: 17 boys and 11 girls. The girls are all married, except one, who lives with her mother. The boys, only two of whom are married, work most of the time in the wood, tie and lumber camps in winter, and in the saw-mills and on steamboats in summer. Two of our boys were engaged with a survey party during part of the year. Those in charge of the party assured me that our ex-pupils were among their best men. Some others were discharged, but they were kept on until the work was finished. All the facts connected with our ex-pupils that have come to my knowledge go to show that they are doing well.

THE REPORT OF REV. PH. VALES, O.M.I., PRINCIPAL OF THE FORT FRANCES BOARDING SCHOOL, FORT FRANCES, ONT., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—The damage caused by the disastrous fire of last spring, has been completely repaired. Almost on the site of the old building has been erected a more spacious one, 67 x 65 feet. This building, which is on a foundation partly of stone for exterior walls and concrete for the cellar and the inside walls, has a fine appearance and answers perfectly the needs of our school farm. This building will be painted early in the spring.

Accommodation.—Many repairs are necessary to the school building and we hope the changes foreseen will be executed this spring. We shall then be able to house, very comfortably, the 59 children now present, also others that we could obtain from their pagan parents, whose ill will is a great obstacle.

Attendance.—The attendance is well maintained. Seven pupils were discharged, two died, and two were sent away. Thanks to the admission of other pupils, we have been able to maintain our number. At the present time 48 pupils are enrolled: 27 girls and 21 boys, and we have also in the school, 11 non-treaty, half-breed children.

SESSIONAL PAPER No. 27

Class-room Work.—During five hours of class each day, two teachers devote themselves to the instruction of the children. Although their efforts are not always repaid, still we can say there has been real and encouraging progress.

Farm and Garden.—The year 1912 was not very favourable to farmers of the Rainy River district. In common with others, we suffered from heavy winds, hail and rain. All combined to lessen our crops, nevertheless we managed to harvest a sufficient quantity of grain and vegetables to amply supply the wants of the school.

Industries Taught.—Our farm instructor, skilful in many trades, directs the boys, who seem to have aptitude for the carpenter, shoemaking and blacksmith trades, the care of cattle and the culture of the farm. The pupils acquit themselves very favourably under the instructor's direction. The same may be said of the girls, who under the direction of experienced teachers, neglect nothing which will help them later on in the care of their own homes.

Moral and Religious Training.—Each day a certain time is devoted to this important branch, an essential base of real and solid education.

Health and Sanitation.—Within a short space, two children of the same family died at their home from tuberculosis.

We can testify that during the whole year our pupils enjoyed excellent health, nothing being neglected that could prevent sickness.

Recreation.—Amusements and games, which help the physical development of the body, are heartily encouraged, with the result that the advantages they enjoy make them love the school. It is with regret they see the epoch of their discharge arrive.

Ex-Pupils.—The greater number of the pupils, after being discharged, live near the school, and they strive to put in practice the lessons learned at school. The fear of our disapproval keeps them in the straight path. In the case of those who are living far from the school, the fear of being ridiculed by others often prevents them from showing the good manners learned at school. Most of them live like their pagan parents.

THE REPORT OF REV. G. LEONARD, O.M.I., PRINCIPAL OF THE KENORA BOARDING SCHOOL, KENORA, ONT., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—An ice-house, 16 x 20 feet, a new kitchen and a dining hall, 70 x 20 feet, were erected last fall.

Accommodation.—There is ample accommodation for 60 pupils and the necessary staff.

Attendance.—The attendance is always very good, as the pupils are not allowed to go home except in July.

Class-room Work.—Two able teachers have charge of the classes and our pupils are doing fairly well.

Farm and Garden.—There is not enough land suitable for farming purposes, but our garden is large enough to grow a sufficient supply of vegetables for the school.

Industries Taught.—The boys are taught gardening, carpentering, chopping wood, repairing shoes and the care of cattle. The girls are well trained in all the different branches of housekeeping.

Moral and Religious Training.—Special attention is devoted to our pupils in this important part of their education, and they behave well.

Health and Sanitation.—Though two of our girls have been seriously sick, both recovered after a few weeks of illness. The school is kept clean and well ventilated.

4 GEORGE V., A. 1914

Recreation.—According to the season, the boys play football, baseball or hockey, while the favourite pastimes of the girls are: walks, croquet, swings, skipping-ropes and tobogganing.

Ex-Pupils.—Our ex pupils are doing fairly well, some of them live with their parents and help them; while others have a home of their own, which they keep clean and tidy.

THE REPORT OF THE REV. T. FERRIER, PRINCIPAL OF THE BRANDON INDUSTRIAL SCHOOL, BRANDON, MAN., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—We have accommodation for 125 pupils and staff.

Attendance.—The average attendance for the year was 89. This includes two boys and one girl not admitted as pay pupils.

Class-room Work.—The two class-rooms, junior and senior, have accommodation for 48 and 40 pupils respectively. The half-day system is followed and the results have been very satisfactory. The pupils are graded as follows:—

	Boys.	Girls.	Total.
Standard I	10	10	20
“ II	12	4	16
“ III	6	6	12
“ IV	9	19	28
“ V	5	4	9
“ VI	3	1	4

Total number of pupils at present 89.

Farm and Garden.—The yield this past year was as follows: wheat, 130 acres, 1,211 bushels; oats, 120 acres, (part nurse crop), 5,157 bushels; barley, 75 acres, 1,781 bushels; corn, 12 acres, 80 tons; hay, 30 acres, 60 tons; turnips, 3 acres, 1,400 bushels; mangolds, 2½ acres, 1,100 bushels; potatoes, 10 acres, 2,484 bushels; table corn, ½ acre, 550 dozen ears; fruit, 1 acre, 900 pounds; onions, ¼ acre, 75 bushels; parsnips, ¼ acre, 265 bushels; beets, 350 bushels; cucumber, citron and squash, 225 bushels; cabbage, cauliflower, 1,000 heads; beef, 14 head, dressed, 7,990 pounds; cream, 18,325 pounds; eggs, 450 dozen; chickens, dressed, 300 pounds.

Live Stock.—The live stock consists of the following: 12 horses and two colts, 40 head of cattle, 45 hogs, 10 brood sows, 100 hens.

Industries Taught.—The girls are taught all manner of housework, cooking, sewing, laundry work, buttermaking, &c. The boys are instructed in all kinds of farming and gardening, including care of horses, cattle, hogs, poultry, &c., also taking care of lawns, hedges and flowers, as well as carpentry, painting, kalsomining, repairing machinery and everything necessary to keep the entire plant in good repair.

Moral and Religious Training.—Morning and evening devotional services are held daily, the morning service in the dining-room and the evening service in the junior school-room. Every Sabbath morning all the boys, and as many of the girls as possible, attend divine worship in the First Methodist church, Brandon. The officers take charge of the different classes of the Sunday school, which is held every Sunday afternoon at three o'clock with the principal as superintendent. Service is held in the school-room, also, every Sunday evening. The children manifest quite an interest in all the devotional exercises in connection with the school. The ethical training is

SESSIONAL PAPER No. 27

received in the different departments, and much individual work is done along this line.

Health and Sanitation.—We have had three deaths during the year. These occurred during the month of June, 1912, and were duly reported to the department. We have had in residence during the year a graduate nurse, who has rendered us excellent service. A doctor's services have been very little required, but whenever a doctor was necessary, Dr. Fraser has been called.

The buildings and grounds are all kept clean, and the ventilation and plumbing systems are in good condition.

Recreation.—The children are very fond of outdoor life and sports. The boys take a keen interest in hockey, running, handball and football, especially in the latter. Football matches are held from time to time on our own grounds, and all are greatly interested in these. The girls find the most pleasure in the winter-time in skating and coasting, and in the summer-time in walking; their walks being taken always in company with a lady officer. All kinds of indoor games are provided for the winter evenings and are much enjoyed.

Ex-Pupils.—Good reports are heard from nearly all of our ex-pupils. Two of our boys who will graduate this year may go to the File Hills colony, where some of our graduates have already made good. Our girls who have gone out to service have proven themselves quite capable workers, and we have no difficulty in securing work for them at good wages.

General Remarks.—We are endeavouring to accomplish a two-fold end with the farm and garden, first, as a training school for the boys, and, second, as an asset to the funds of the institute. In the latter particular there is considerable demand for our grain and potatoes for seed purposes. This is due to the fact that the seed is practically free from noxious weeds, and the sample is usually very fine.

The effort of the staff has been to create a homelike atmosphere around the institution so that the pupils will realize that the school is also their home. As a closing word in this report, the principal wishes to extend his thanks to the Indian Department and the Methodist Church for their kindly and considerate treatment in all matters pertaining to the welfare of the Institute.

THE REPORT OF MR. A. E. WILSON, PRINCIPAL OF THE ELKHORN INDUSTRIAL SCHOOL, ELKHORN, MANITOBA, FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—On September 11, 1912, the contractors commenced work on:—(1) a three story addition, 34 feet deep by 41 feet wide, to the west or rear extension of the main building; (2) a western extension to the principal's house of 18 feet square; (3) a cement septic tank of 17 feet diameter. At this date, the school extension is practically ready for the painters, the plumbing, heating and lighting connections being nearly complete, as also the sleeping verandahs on the southern exposure between the new part and the part at right angles thereto. At the principal's house, the cellar requires the final coat of cement; and considerable finishing details, including the last coat of paint, remain to be done. The new furnace is installed in the older part, while the new sanitary and other connections are ready to be placed in position. The new cess tank, on the septic tank principle, will be put in hand as soon as the frost is sufficiently out of the ground.

Accommodation.—There will be accommodation for 100 pupils and a staff of 13.

The new extension will provide in the basement: dairy, boys' play-room, storage room; the first floor contains kitchen, staff dining-room, pantry and store-room; the

4 GEORGE V., A. 1914

second floor will contain two isolation wards, male and female, and nurse's room, while the third floor comprises a dormitory to accommodate 20 boys.

The old basement kitchen will be adapted for laundry purposes and the present dining-hall will be lengthened to include the present staff dining-hall.

Two compression tanks of 1,500 gallon capacity each for water-supply, all the necessary laundry machinery, together with the gasolene engine for operating, are all on the ground. The gas-machine and the engine for sewage pumping and for general purposes are installed in the old laundry building about 300 yards from the main building. A hot water heater and 500 gallon tank in connection will supply hot water throughout the building for all purposes, being placed in the basement near the new furnace.

The extension to the principal's house provides an extra bed-room and a kitchen with pantry and bath-room, together with a good cellar.

In addition to these improvements, there will be new sanitary washing and bathing facilities for both sexes in the older building.

Attendance.—The average attendance for the year is 73. The maximum was 80, the minimum was 64, and at date of writing the number in school is 77.

Class-room Work.—The attendance at classes is on the half day system, the other half day being devoted to industrial training. As was the case last year, recent admissions have been below the average in speaking English.

The annual prize-giving was held on June 28, when the result of the examinations was most satisfactory.

Farm and Garden.—On the farm, the remaining five acres of the enclosure in the pasture were broken and put into wheat and several sloughs were drained, broken and cropped. The results in grain were much above the local average, so much so that there has been a demand for our wheat for seeding purposes. The potato crop was equally good, both in quantity and quality.

In spite of most unfavourable weather conditions, the returns into storage for all departments were: wheat, 1,305 bushels; oats, 825 bushels; barley, 135 bushels; potatoes, 750 bushels; turnips, 150 bushels; beets, 30 bushels; carrots, 38 bushels; parsnips, 17 bushels; onions, 9 bushels; cabbage, 196 heads; celery, 76 heads, besides a quantity of oats both fed in sheaf and cut green for fodder.

The school exhibited at only one fair outside the town, taking first prizes for all entries.

The flower beds around the school were very fine and the vegetable gardens were quite up to the average.

Industries Taught.—Farming in all its branches is the main feature of the industrial training here, as being best suited to the physical needs and subsequent requirements of our Indian children, but instruction is also given in carpentering, plumbing and painting, in the operation and care of the gasolene engines, acetylene gas and other machinery, all the repair work, including the plumbing, around the school being attended to by the instructor and boys in this department. The smaller boys under the assistant principal are instructed in vegetable and flower gardening, look after the school grounds and do all necessary chores. Of these last, about 12 had their own little gardens, which showed results nearly as good as anything else in the place.

The girls do the general housework, the cooking, the baking, buttermaking and the laundry work; while in the sewing department practically all the girls' clothes (except the knitted underwear) are made, as well as the boys' shirts, and here also all repairs are attended to.

Moral and Religious Training.—This is inculcated more generally by church attendance, daily prayers and Sunday school and other classes, but I also endeavour to have the standard set by those around them act as a factor in the moral training of the pupils.

SESSIONAL PAPER No. 27

Discipline is exact, though carefully avoiding any tendency towards harshness, so as to try and ensure prompt and cheerful obedience.

Health and Sanitation.—During the year we have had five cases of phthisis, of which two have just developed within the last few days. Two pupils died at their homes and one has recovered.

In January we had a number of cases of grippe, with high temperatures and subsequent recovery, except in the case of one of those lately affected with phthisis.

Three cases of pneumonia all recovered. I have always insisted on thorough cleanliness in all parts of the school, both inside and outside, together with systematic ventilation and disinfection, while isolation is always adopted in any cases that may seem to render it necessary.

The new play-room for the boys will be a great benefit to them in every way, as also, the new sanitary appliances about to be installed.

Recreation.—In their season, football and baseball are the main features in this connection, while in winter there is ample opportunity for skating on our own rink.

The girls have tennis, baseball and other games of their own, besides swings, &c.

A recent feature is a cadet corps together with a physical exercise class along the lines laid down by the Strathcona Trust Executive Council, and I hope to be able to allow several of the boys to accompany the local cadet corps for a week in camp.

Ex-Pupils.—One of our recent admissions is the daughter of an ex-pupil, who came accompanied by her father, John James Stevenson, who was most enthusiastic on the subject of his old school. Besides the above, a number of old pupils visited us during the year, including William Carrant, Hattie and Colin McNab, John Noel, Alice Pat, Emma Wasteste and Charlie Pratt, who all gave a most satisfactory account of themselves, which appeared to be confirmed by their bearing and behaviour. Inspector Jackson also reported most favourably as to the ex-pupils of our school who had returned to the Pas agency.

General Remarks.—Among our visitors for the year was our member, Mr. J. A. M. Aikins, M.P. In April, our inspector, Mr. S. J. Jackson, paid his official visit and we again benefited very materially by his experience and suggestions.

In conclusion I can hopefully say that under present conditions, with more special reference to the additions now nearly complete, the school can look forward to a re-invigorated existence with bettered conditions for all concerned. Indeed it would seem at present hard to suggest anything that could tend to further improvement in the main building, so that under divine guidance, we have splendid prospects for the years to come.

THE REPORT OF REV. W. W. McLAREN, B.A., PRINCIPAL OF THE BIRTLE
BOARDING SCHOOL, BIRTLE, MAN., FOR THE YEAR ENDED MARCH
31, 1913.

Buildings.—The school is now a full 3 storey structure with a good basement. During the past winter and autumn, it has been undergoing alterations and additions, involving an outlay of over \$20,000. The old attic story has been replaced by an airy full story, surmounted by a handsome tower. At the rear has been erected a frame junior class-room, with an airy concrete basement for gymnastic exercise. This building is 28 x 58 feet. The basement has a 9½ foot ceiling and the class-room a 17 foot ceiling. Maple floors have been laid throughout the building and all stair-

4 GEORGE V., A. 1914

cases have been renewed. Three large covered porches, with all steps enclosed, provide protection for all northern entrances. These commodious verandah porches provide approaches to all front doors. The basement and the first and second floors have been rearranged to make them more convenient and serviceable and to provide room for purposes formerly omitted, such as play-rooms, store-rooms and rest-rooms. A new bake oven has been installed, the laundry has been doubled in size and a large dining-room provided in addition. A cold storage plant has been erected, with a concrete ice-house attached. Provision has been made for a vegetable cellar. A concrete cistern, holding over 6,000 gallons, has been built under the floor of the new gymnasium, with overflow into two outside cisterns. There is also provided a large coal cellar immediately off the boiler-room. It will hold over a car-load of fuel. Lockers with Yale locks have been made for every pupil. Ample cupboards have been built for every department. We have now two class-rooms with separate entrance, lobbies, staircases and cloak-rooms for boys and girls. There are six dormitories, two of which are reserved for the graduating class. When completed, with its new steam plant and complete plumbing, the school will be in a position to do its part for the education of the Indian race.

Accommodation.—The school will now accommodate 84 pupils and a staff of 8.

Attendance.—During the year we admitted 9 girls and 2 boys. Of the girls, 2 are yet too young to receive any grant. We graduated 4 boys and 5 girls. One boy died of tuberculosis. Our present enrolment is 52,—30 boys and 22 girls. Four of the girls are not grant-earners. Grant is paid for 50 pupils.

Class-room Work.—This department has been greatly retarded by the alterations being made and by sickness. We trust, with a large enrolment and two teachers, to report good progress during the coming year.

Farm and Garden.—The peculiar season of 1913 caused a failure of the cereal and root crops in northwestern Manitoba. The school farm suffered with the rest, but is able to report a cash surplus of over \$300, though specializing on hog-raising. Lightning killed three of our best dairy cows. We won our usual share of prizes at the summer fair.

Industries Taught.—The girls are instructed in all phases of housekeeping, in simple nursing and in gardening. The boys are taught mixed farming and the use of ordinary tools.

Moral and Religious Training.—The pupils attend the regular services of the Birtle Presbyterian church. Morning and evening prayers are conducted in the dining-room. Religious exercises are held in the class-room morning and afternoon, and on Sabbath evening a Bible class is held for all those unable to attend church in Birtle.

Health and Sanitation.—Until last December our general health was excellent. In December most of the pupils took the mumps. After the new year, a most severe type of the grippe seized the pupils; six developed pneumonia. Nurse Highet and Dr. Wheeler deserve commendation for the success with which they coped with this epidemic. Two pupils developed incipient phthisis; one died. The other contracted the grippe and pneumonia and is making very slow progress. During January many also contracted pink eye.

Our sanitary precautions have been much improved. Steam heating has replaced hot air. Direct ventilation through heated air shafts is provided for all dormitories, halls and play-rooms. Our sewerage and plumbing has been overhauled and enlarged and made thoroughly modern. All wooden walls have been removed from the basement and replaced by solid concrete partitions and concrete plaster. Metallic ceiling covers the old wooden one. Large prismatic glass windows have been put in in rooms and halls formerly dark, and all new rooms have been given ample light and air space. We have an abundant water-supply. Our drainage could not be improved upon. All

SESSIONAL PAPER No. 27

cases of contagious disease and of serious illness are sent to the Birtle Agency hospital, superintended by the school. Save in some of the staff bed-rooms, all lime plaster has been exchanged for wood fibre or has been covered by cedar ceilings. All walls, ceilings and floors can now be washed and kept thoroughly disinfected. Full sized screens are used for windows as well as doors. Dustbane is used to prevent dust, while all walls and ceilings are periodically washed with disinfectants.

Recreation.—In addition to the usual indoor and outdoor games, such as football, baseball, hockey, tennis, there has now been provided a large gymnasium free from all posts. This we hope to fit up gradually with the necessary apparatus. The room is well ventilated, heated and lighted and is large enough for indoor basketball and baseball.

Ex-pupils.—Thirty-nine pupils have been honourably discharged during the last seven years. Thirty-four of these are living. All the ten boys are farming, although only one or two are making the progress one would desire. Some do more as farm labourers than as farmers proper. Of the girls one is teaching, two out at service, 13 are married and 11 are home with friends. Wherever the girls who are married have their homes and have had them furnished, they are doing well. None of these graduates have so far been implicated for breaches of the Indian Act.

General Remarks.—The school this year celebrates its twenty-fifth anniversary. In all, some 234 pupils have been enrolled. Of these, at least seventy have died. Practically all of those not mentioned in the above note on ex-pupils and not now enrolled are resident in Manitoba reservations. The majority are married and are doing fairly well. The children of the older graduates are now old enough to be enrolled. Practically all are anxious to have their children educated and are our best friends upon the reserves. It is worthy of note that Miss A. McLaren has been matron during all this period. The long and faithful service rendered by Miss T. McLeod and Miss McLaren has been one of the chief factors in retaining the confidence and support of the school's scattered constituency.

THE REPORT OF REV. H. M. BRASSARD, O.M.I., PRINCIPAL OF THE FORT ALEXANDER BOARDING SCHOOL, FORT ALEXANDER, MAN., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—The work on the alterations to the old building and the erection of an addition began in September last. It is expected that this work will be completed by June 1 next. When completed, the building will be 102 x 40 feet.

Attendance.—We had an enrolment of 62 pupils at the date of this report, and an average attendance of 58.

Class-room Work.—The programme of studies prescribed by the department is followed as closely as possible. Owing to the disturbance caused by the building operations going on at the school the progress of the pupils was not as satisfactory as it should have been. The pupils are graded as follows:—

	Pupils.
Standard I	12
“ II	9
“ III	16
“ IV	20
“ V	5

Industries Taught.—The reverend sisters in charge of the girls devoted themselves to the training of the pupils in all kinds of household work. Visitors have remarked on

4 GEORGE V., A. 1914

the good results of the training received, when visiting the school. The boys, under the control of Rev. Father Gelun, the assistant, received instruction in gardening and various outside work, according to age, such as they can put to their own use in the future.

Moral and Religious Training.—The conduct of our pupils is an example to the Indians on the reserve, and it is easy to distinguish the pupils who are trained at the school from others on the reserve.

Health and Sanitation.—When the present alterations are finished the sanitary condition of the building will be much improved. The health of the pupils this year was satisfactory.

Fire Protection.—At present we have but one fire-escape, the other not yet being completed. We have hose connections in the old building and provision is being made for three more in the new addition. There are a number of fire-extinguishers distributed throughout the building and the children are instructed in fire drill.

Recreation.—The recreation of the girls consists of swinging and skipping rope; they also enjoy inside sports. The boys play many games, both inside and outside the building. In winter they enjoy skating and in summer they play football and baseball.

Farm and Garden.—About 12 acres of school land and 42 acres of the mission land are under cultivation. The yield from the farm last year was as follows:—1,200 bushels potatoes, 1,500 bushels turnips, 1,000 bushels of mangels, 800 bushels oats, 40 bushels barley, 100 bushels onions, 26 tons of hay, 800 heads of cabbage, besides a quantity of wheat, peas and garden vegetables.

THE REPORT OF REV. G. LEONARD, O.M.I., PRINCIPAL OF THE PINE CREEK BOARDING SCHOOL, CAMPERVILLE P.O., MAN., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is ample accommodation for 80 pupils and the necessary staff.

Attendance.—The attendance is very good.

Class-room Work.—The programme prescribed by the department is followed, and the progress is fair.

Farm and Garden.—Twenty acres are under cultivation. We raised a sufficient supply of vegetables for the use of the school.

Industries Taught.—Our boys are taught farming, gardening, repairing shoes, carpentering, care of cattle and horses. The girls are trained in all the different branches of housekeeping.

Moral and Religious Training.—Half an hour each day is devoted to moral and religious training, and our pupils, generally, behave well.

Health and Sanitation.—The health of our pupils has been good; no serious case of sickness occurred. The school and its surroundings are kept in a clean and sanitary condition.

Recreation.—Football, baseball, shooting with bows and arrows, fishing and skating are the favourite pastimes of our boys. The girls enjoy skipping ropes, lawn swings, croquet and other games.

Ex-Pupils.—Our ex-pupils are doing well. The girls who married make good housekeepers. The boys intend to start farming; they have already cleared up a few acres of land. So far, the Indians of this reserve have done nothing in the way of farming.

SESSIONAL PAPER No. 27

THE REPORT OF REV. P. BOUSQUET, O.M.I., PRINCIPAL OF THE SANDY BAY BOARDING SCHOOL, SANDY BAY, MAN., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—We can provide accommodation for 50 children and the necessary staff.

Attendance.—The attendance this year has been good. The school has been full most of the year.

Class-room Work.—Most of the pupils attend school $5\frac{1}{2}$ hours each day, except Saturday and Sunday. The progress has been good.

Farm and Garden.—About 80 acres of land are cultivated each year. We have harvested 300 bushels of wheat, 1,600 bushels of oats, 1,800 bushels of barley and 1,800 bushels of potatoes. One of the turnips weighed $21\frac{1}{2}$ pounds.

Industries Taught.—The boys are taught farming and dairy work under the instruction of an experienced farmer. The girls learn sewing, cooking, laundry work, dairy work and general housework.

Moral and Religious Training.—The morals of the pupils are improving, religious training being given daily. The principal or his assistant is in charge of the religious training.

Health and Sanitation.—We had during the year only one case of serious sickness; but fortunately the boy recovered from it and to-day is full of life and strength.

Recreation.—Outdoor games are allowed as often as the weather permits. The boys greatly enjoy playing football, while the girls amuse themselves skipping, playing games or taking long walks.

Ex-Pupils.—Nearly all ex-pupils are doing well. Farming is their only occupation; and prospects for the future are good.

THE REPORT OF REV. J. A. LOUSLEY, PRINCIPAL OF THE NORWAY HOUSE (METHODIST) BOARDING SCHOOL, NORWAY HOUSE, MAN., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—On February 26, 1913, our school and all outbuildings, except stables were burned to the ground. The two class-rooms, being separate buildings, enabled us to continue work by the kindness of the Indian agent and the Hudson Bay Company. The former allowed us to take possession of the empty hospital building, which is now being used as dining-room, kitchen, laundry, sewing-room, and girls' dormitory, also-bed-rooms for the ladies of the staff. The latter has given us the use of an empty store situated within seventy yards of the hospital, which we are using for an office and boys' dormitory and bed-rooms for two of the gentlemen of the staff. So that at present we are occupying two buildings, temporarily, hoping that a new and more modern building will be put up in the near future.

The loss in the buildings and boys' clothing was heavy, but nearly all the furniture, girls' clothing, sewing-room supplies and provisions were saved.

Accommodation.—This is at present very unsatisfactory. We are very crowded and the building is not laid out for the purpose for which it is being used, and is therefore unsuitable for our work. We consider ourselves fortunate, however, in being able to continue our work, even under trying conditions.

Attendance.—The attendance this year has not been up to the same mark as for the last two years. Parents refused to return ten children after last summer holidays; but, there were nearly enough brought in to balance the deficiency. With the exception of these children that were detained, the attendance has been most satisfactory up to date.

Class-room Work.—Our junior scholars have always attended the classes taught by the day school teacher, while the senior room has our own boarding school teacher. In both rooms, the work done has been splendid. The inspector has practically said that the work has been equalled only in one other school in the district. The best progress has been made this year of any year since 1902.

Farm and Garden.—We do not make any pretensions to farming, but have always some ground under cultivation for potatoes and vegetables. We have broken up a new piece this year and, now, have about three and a half acres prepared for spring planting.

Industries Taught.—The boys learn gardening and the care of cattle and horses. The girls learn all ordinary household branches of work, such as sewing, cooking, laundry, and general household work.

Moral and Religious Training.—This part of the scholars' training has been carried on by means of a regular Sunday school, wherein we teach the International Sunday school lessons, morning prayers where we take up the study of the Sunday school lesson and the daily readings in connection with lesson, evening prayers consisting of reading and exposition of Scripture, singing and prayers; a meeting, once a week for the free exchange of thought, discussion of religious questions, and expression of convictions conducted by the matron, Miss Armstrong, for the girls, and by the teacher, Miss de Wolf, for the boys, two preaching services each Sabbath in the Mission Church. As well as above each member of the staff takes such opportunities as circumstances offer to point and impress moral and religious truth.

Health and Sanitation.—The health of the pupils this year has been good, when one considers our unfortunate position at commencement of year. We were without doctor, drugs and nurse. We entered on the year with two pupils in bad health. One was suffering from consumption, the other had some bad hemorrhages from the lungs. The former has grown weaker and the latter has had another siege of the bleeding, but is again recovering and going around. Since the fire we have had all cases of serious sickness put into separate houses and have engaged native women to be with them constantly, while we have fed and cared for them ourselves. One boy has been seriously sick during the year, but is now recovering. There have been no deaths since the school opened last August.

Everything has been done that we could possibly do, under the circumstances, to keep the premises clean and sanitary and to isolate all contagious diseases.

Recreation.—All the younger children have seven periods of recreation each day; the older ones, five. At such times they are required to spend the time outside whenever the weather will permit. They play football, baseball, and go rowing in summer and skating and coasting in winter. The girls spend much time skipping and the boys spend much of their noon and evening periods in the bush with bows and arrows and often bring in a rabbit, or a partridge, which is cooked for them.

Ex-Pupils.—Our ex-pupils are mostly located on this reserve, and are doing well at the ordinary occupations of the people here. There are some of our pupils living at Nelson House, some at Cross Lake, some at Oxford House and at Island Lake. They are engaged in hunting, fishing, tripping, freighting, surveying, that is, they are engaged by surveyors to do the chopping and freighting and canoeing. Most of the graduated girls are married, but a few are engaged as servants in private homes and are, in all cases, doing well.

SESSIONAL PAPER No. 27

THE REPORT OF W. A. HENDRY, PRINCIPAL OF THE PORTAGE LA PRAIRIE BOARDING SCHOOL, PORTAGE LA PRAIRIE, MAN., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—The buildings are in a good state of repair. During the year the woodwork inside was painted and all the walls kalsomined. A coal bin and new steps were put in the basement. Screens are now on every door and window in the building.

Accommodation.—The school can accommodate 25 pupils with a staff of 4.

Attendance.—The attendance has been very good. No pupils were discharged, but two were admitted, making the present enrolment 37. There is not accommodation for the number of pupils who would like to attend. Five have signed to enter after the summer holidays.

Class-room Work.—The programme of work outlined by the department has been followed. Music, calisthenics and civics are also taught. Mr. Whitley, organist for Knox church in this city, teaches music an hour each week, and very rapid progress is being made.

Farm and Garden.—The garden has produced a good supply of every kind of vegetables, 100 bushels of potatoes, 6 tons of cow fodder, 100 bushels of turnips, 200 bushels of sugar beets and 25 bushels of garden carrots. The school fattened a cow, which was used for beef, and we have besides one cow, one two year old heifer calf, which are well bred Ayrshires. These, with a horse and 50 fowl, constitute our stock. We rent as many vacant lots as possible and our area in crop was about five acres.

Industries Taught.—The boys are taught gardening, caring for stock and poultry. They also do the shoe-repairing for the school and assist in painting, kalsomining and general repair work around the school. The girls learn sewing, cooking, laundry work, dairy work and general housework.

Moral and Religious Training.—Morning and evening devotion is conducted in the school. The children attend morning service in Knox church of this city, and also Sunday school, in the same church.

Health and Sanitation.—The health has been good, except for an epidemic of the gripe in the month of January, but all recovered. The children get plenty of outdoor exercise and ventilation is closely attended to, so as to secure abundance of fresh air in the dormitories.

Recreation.—The boys and girls have a rink in winter on which they skate and play hockey. In summer, the boys play football, baseball and take up the boy scout's work, in which they take a very keen interest and are very proficient in ambulance and semaphore work. The girls play basketball and tennis.

Ex-Pupils.—During the year there were no pupils graduated. One girl, Nellie Daniels, who graduated last year, married an ex-graduate boy, Fred. Peters, and they are doing well on a farm on the Swan Lake reserve.

THE REPORT OF REV. E. MATHESON, PRINCIPAL OF THE BATTLEFORD, INDUSTRIAL SCHOOL, BATTLEFORD, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—Some new floors were laid and others mended. Some rooms had the plaster mended, a coat of kalsomining put on, some painting done, also sundry minor repairs necessitated continually 'by wear and tear.'

Accommodation.—We have accommodation for about 120 pupils, if we could get that number, and for the staff that would be required to instruct and care for them.

Attendance.—We enter upon the incoming year with an enrolment of 44.

Class-room Work.—The course of studies required by the department is followed, and the pupils are graded from the alphabet up to standard VI.

Farm and Garden.—We have 70 acres cultivated, of which we use about 6 acres for raising vegetables and general garden produce.

Industries Taught.—The pupils are instructed in farming and gardening, repair work in connection with farm, the care of horses, cattle, pigs and poultry; kalsomining, painting, glazing, &c., baking, dairy work, laundry work, sewing, knitting and mending clothes, cooking, and general housework.

Moral and Religious Training.—To this we give careful attention as being the only foundation on which to build up worthy character and true citizenship. We have the regular Sunday services of the church, the Sunday school, a shortened form of morning and evening prayer, with the reading of a portion of the Holy Scriptures each day, and a mid-week service each Wednesday evening. A circle of the 'King's Daughters' among the girls, and the 'King's Sons' among the boys; and a branch of the 'Daily Scripture Reading Union', to which both boys and girls belong, have been carried on for several years with manifestly good results. These organizations are officered by the pupils, and are carried on under staff supervision.

Health and Sanitation.—There has been good general health and no epidemics during the year. The ventilation of the building is good, a constant supply of fresh air passing through the building, and the sanitary arrangements are attended to carefully.

Recreation.—Swings, football, indoor games, and plenty of outdoor exercise are the chief recreations of the pupils.

Ex-Pupils.—Of those who have returned to their reserves, some have not done as well as one could wish; in many cases their surroundings are very much against them, the old people persistently discouraging them from all efforts in the way of civilized life and practices. But these are not all; there are others of them who have their own portion of land cultivated, their own houses, animals and other property, and are doing very well. Others again, there are, who have not returned to reserve life, but have struck out to work among the settlers, some at carpentering and some at general work. In this way they gain a knowledge of the settled life of the country, which is a very valuable possession whether they afterwards use it on the reserve, or keep on at work among the settlers, or become homesteaders eventually, as it is hoped many of them will. Some of our ex-pupils are engaged in various places as teachers or helpers in connection with the Indian schools in Manitoba, Saskatchewan, and Alberta. Two have taken a course at St. John's College, Winnipeg, and have been ordained to the sacred ministry of the church and have done splendid work in their respective spheres of labour. One of these took his degree of Master of Arts in the University of Manitoba and is now proceeding to his B.D. Nearly all the girls that have been discharged are married, most of them on the reserves to ex-pupils and others, but several of them are married to white settlers, and are keeping their homes in a creditable condition. While the results may not have been in all cases what some would desire, yet we must not expect too much from the first generation when we take all things into consideration. Improvement is very evident; the schools are doing good work, and the leaven of their teaching is seen in the life and work of many of the ex-pupils. There is a very marked difference between the tone of the reserve where a considerable number of our ex-pupils are living, and that of those reserves that are without them; and a very noticeable change for the better is the fact that there is no difficulty in getting the children of ex-pupils into our residential schools, a change that can be appreciated only by those who know the difficulties encountered in former years in this work, and still encountered in many cases.

SESSIONAL PAPER No. 27

General Remarks.—I have pleasure in bearing testimony to the good work done by the various members of the staff. They have all been devoting their energies cheerfully to help in accomplishing the good work of teaching, training and uplifting the Indian to the plane on which we hope he will stand in the years to come. The prayerful, persevering efforts we have put forth will bear good fruit for all time to come.

I beg to thank the officers of the department for the consideration, courtesy, and kindness shown by them in their dealings with us.

THE REPORT OF REV. J. HUGONARD, PRINCIPAL OF THE QU'APPELLE INDUSTRIAL SCHOOL, LEBRET, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—The school will accommodate 225 pupils and a staff of 15.

Attendance.—The attendance for the year has been satisfactory, the enrolment at the end of March, 1913, being 237 pupils; 105 boys and 132 girls.

Class-room Work.—The programme of the department has been followed and the classification of the pupils is as follows:—

		Boys.	Girls.	Total.
Standard	I.	33	53	86
"	II.	25	17	42
"	III.	24	27	51
"	IV.	14	23	37
"	V.	9	6	15
"	VI.	6	6

The first and second standards attend class regularly for six hours each day and those in the higher standards attend class one half of the day and work at the different trades and general housekeeping the other half.

Farm and Garden.—About 300 acres were in seed and the return was good, oats and barley being a splendid crop and the vegetables fair.

Stock.—The live stock consists of 31 head of horses, 38 head of cattle, 69 hogs and about 150 poultry.

Industries Taught.—The branches of industry taught are farming, blacksmithing, carpentry, shoemaking, painting and baking. A number of boys are attached to each branch and are employed one half of the day and attend class the other half.

Moral and Religious Training.—The moral training and general conduct of the pupils is attended to by the vice-principal and teachers. Each day, during the winter months, religious instruction is given the pupils after class for one hour. Chapel is attended morning and evening daily.

Health and Sanitation.—The health of the pupils for the year has been good. Sanitary precautions are always taken, premises kept clean, contagious diseases isolated and ventilation attended to. The physician inspects regularly.

Water Supply.—Drinking water is obtained from wells. The water which supplies the house and laundry, also fire protection, is brought from the lake, 300 yards distant, into two 1,500 gallon air pressure tanks.

Fire-Protection.—Two 50 feet hose lengths on each flat of main, boys' and girls' buildings, are connected with the air pressure tanks. Besides the above, there are two McRobie 75-gallon chemical tanks, with 50 feet of hose attached on each flat of the main and girls' building. There is an electrical fire-alarm system with stations placed throughout the different buildings. Fire drills are practised at intervals and every precaution is taken for the saving of life and property.

There are two iron fire-escapes attached to each of the three buildings, and 36 Star chemical hand fire-extinguishers are conveniently placed, as well as 12 Eclipse dry dust fire-extinguishers.

Heating and Lighting.—Four Gurney steam boilers are used for heating the school buildings and stoves are used for the shops. Two Siche gas tanks supply light for all school buildings and coal oil for the shops.

Recreation.—Football and baseball are the games for summer, and for winter, dramas, concerts and band exercises.

Ex-Pupils.—Nearly all discharged pupils return to the reserves and are under the control of the agents.

THE REPORT OF REV. J. BEYS, O.M.I., PRINCIPAL OF THE COWESSESS BOARDING SCHOOL, CROOKED LAKE AGENCY, MARIEVAL P.O., VIA GRAYSON, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—Measures were taken to have our main building enlarged, but we were obliged to postpone the realization of our project on account of financial conditions. Still, our present accommodation enables us to keep our pupils in very good condition. Two gasolene engines do the housework of baking, washing, pumping, running a separator and churn, shop work, grinding, planing, sawing, crushing, &c.

Heating and Lighting.—The buildings are heated by a powerful section steam furnace and stoves in places where a higher temperature may be required. The lighting is done by a 'Psyche' acetylene machine, which ensures cleanliness, less trouble and a powerful light.

Attendance.—We always have 45 pupils on our roll, and most of the time there are a few more attending class and waiting to be admitted.

Class-room Work.—The department's programme of studies is followed carefully. We try to put variety in class-room work, so as not to tax too much the attention of our pupils. Grammar, parsing and spelling are followed by drills; then arithmetic, history, geography, singing, drawing, moral and religious instruction, coming successively, keep awake the attention of the child, who soon comes to like school life. Even our younger pupils understand and speak English very easily.

Farm and Garden.—We had a fairly good crop in wheat and oats, about 2,000 bushels in all, but our garden has been neglected on account of the changes in the staff, and the yield was not as good as usual. Our stables are in very poor condition, but we have at present men at work building a barn, with all modern requirements.

Industries Taught.—Our boys and girls are generally very bright and learn readily all branches in which we try to educate them. The boys are instructed, not only in farming, but also in carpentry blacksmithing and shoe or harness repairing. In the same way, our girls, besides housekeeping and kitchen work, are able to cut and make any kind of clothing for both sexes; they also learn quilting, knitting and fancy needlework.

Health and Sanitation.—The sanitary condition of our school, I am glad to state, is very satisfactory. The pupils' rosy cheeks are a surprise to our visitors, the only sickness we had being a few slight colds and sore throats.

Recreation.—During the warm season our children have plenty of games and exercise. It becomes a little more difficult during the winter months, still, besides the indoor games we provide for them, they amuse themselves with interesting pastimes. It is an interesting sight when they imitate the old Indian dances and pow-wows, and pronounce great speeches as the old chiefs used to do.

SESSIONAL PAPER No. 27

Ex-Pupils.—Speaking of ex-pupils is most interesting, both for us and for other people, because it shows the results of our efforts and how profitably public money is being used for school purposes. Our great joy is to be able to state that every one of our boys and girls who went out of the school, after having followed the complete course, has done remarkably well. All the boys, but one, have land of their own, or in their families, on which they work with great care and ambition in order to provide themselves with stock and implements. Their moral conduct is good. One of them, as stated, has no land as yet, but works at the school. His work, both as blacksmith and carpenter, would do credit to a regular workman in the trades. Almost the same can be said of our girls, who, especially when married and having full charge of their own homes, keep them clean, make good cooks and educate their children. We experience some drawbacks, both morally and physically, with those girls that are left dependent upon their parents and so are not free to follow their own better inclinations, but are often subject to bad examples of every kind.

THE REPORT OF THE REV. H. MCKAY, PRINCIPAL OF THE ROUND
LAKE BOARDING SCHOOL, WHITE LOD P. O., SASK., FOR THE
YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 40 pupils and 4 members of a staff.

Sanitary Conditions.—The premises are well drained and kept clean; the rooms are large, with good light and ventilation. The children are well dressed, receive an abundant supply of good food, well prepared, which with sports, amusements and the cultivation of cheerful dispositions, keep them in good health.

Fire Protection.—The stove-pipes and flues are kept clean and in good repair, and particular care is taken with the fires and lamps. A good supply of water is kept in convenient places. These things have prevented any serious fire during the past 29 years.

Farm and Garden.—About 100 acres of land are under cultivation; wheat, oats, and barley are grown. There is also a good garden, in which a sufficient quantity of vegetables are raised for the use of the school.

Industries Taught.—Qualified teachers instruct the girls in cooking, baking, laundry work, needle-work, general housework and in the cutting and making of their own garments. The boys are under the instruction of an experienced farmer.

Religious Instruction.—Religious instruction is given at morning and evening devotions. Sabbath school and church services are held each Sabbath, and in all our work and dealings with the children we try to build up the Christian character.

Water Supply.—There is an abundant supply of water obtained from the lake and from springs.

Heating and Lighting.—The buildings are heated by hot air furnace and stoves, burning wood. The light used is in coal oil lamps.

Class-room Work.—Good progress has been made in the class-room in the studies prescribed by the department.

Conduct.—The conduct of the children has been good.

THE REPORT OF REV. W. McWHINNEY, PRINCIPAL OF THE CROW-
STAND BOARDING SCHOOL, KAMSACK, SASK., FOR THE YEAR
ENDED MARCH 31, 1913.

Buildings.—No new buildings have been erected during the year, nor have there been any repairs or additions of any consequence. As we expect to rebuild on a new site this year or next, all expense possible has been avoided in making any changes.

Accommodation.—Under the old regulations we have been accommodating from 45 to 50 pupils and 5 or 6 of a staff. To conform to the new regulations regarding air-space, this number would be reduced very considerably.

Attendance.—We began the year with an attendance of 48. Since then, 3 have been discharged and 2 have been allowed home preparatory to discharge. Three have been transferred to other schools and 4 have been authorized absence from school on account of sickness. There have been 5 admissions during the year. The actual attendance at time of writing is 41.

Class-room Work.—For the first years in school, both forenoon and afternoon are spent in the class-room. The older pupils spend half of each day in the class-room. The progress and interest in the work has been very fair. There are some, however, in whom it is very difficult to arouse much enthusiasm in their school work.

Farm and Garden.—In 1912, wheat yielded about 25 bushels per acre, oats yielded 72 bushels per acre and barley 40 bushels. Roots and garden vegetables were a good crop, but on account of the wet season potatoes did not keep well. Timothy, alfalfa and alsike clover were grown quite successfully. A considerable number of cattle, horses, pigs and poultry are kept on the farm.

Industries Taught.—The farm and live stock furnish plenty of opportunity for instructing the boys in all ordinary farming operations and in the care of live stock. As far as possible, the implements used are such as these boys might be expected to have when they go out to work for themselves. The girls, in like manner, receive a careful training in all the various lines of work which tend to make good housekeepers. Sewing and knitting also receive their due share of attention.

Moral and Religious Training.—Daily reading of the Scriptures, with instruction therein, forms the foundation upon which we try to build right ideas of duty to our fellowmen and to God. Care is taken to supply only the best of reading matter and use is made of stories and incidents in school life to show that right character is most important. All the pupils attend Sabbath services for worship and also Sabbath school. Familiar talks, profusely illustrated, are frequently given in the evenings, with the object of teaching moral and religious truths.

Health and Sanitation.—We have had no epidemics during the year. One boy who has always been of a tubercular nature showed such signs of decline that he was allowed home last spring. In the autumn he became worse and died at his home. During the past winter, we had one case of scrofulous swelling and one of articular rheumatism, both of which are recovering at home. Except for these cases the general health has been good.

Recreation.—In summer the boys play baseball and football and go fishing in the river. The girls play ball and various other games and go for walks. In winter there is coasting and skating, with many indoor games for both boys and girls. Quite a number of the winter evenings are made pleasant by the use of a magic lantern or a phonograph.

Ex-Pupils.—Those who have left school during the past year have done very well. But our graduates always do well the first year. It is the succeeding years which prove the strain that many of them cannot stand. As time makes the influence of the

SESSIONAL PAPER No. 27

school more remote, they are more ready prey to those who would lead them astray. On every reserve there are older people who make it their aim to drag down these young people if they can.

General Remarks.—The past year has not been very satisfactory in our school in many ways. Certain persons on the reserve have been talking to the children, from time to time, and making them discontented with school life. As a result, we have had an unusual amount of truancy.

THE REPORT OF REV. N. A. RUELLE, O.M.I., PRINCIPAL OF THE KEE-SEEKHOUSE BOARDING SCHOOL, ST. PHILIP'S P. O., SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—The main building can provide ample accommodation for 20 pupils and a staff of 5—4 sisters and the principal.

The boys' building can give accommodation to 16 pupils and a night watch.

Attendance.—The attendance during the year was good. One pupil, Fred Severight, No. 20, died January 14, 1913. The cause of death was spinal meningitis. Two pupils were discharged and 5 were admitted.

Class-room Work.—The pupils have made good progress in the class-room. Language, manners, reading, arithmetic and geography are the special branches of studies taught.

Farm Garden.—The land being marshy, and on account of the heavy rainfall we had during the summer, the crops were a total failure.

Industries Taught.—The boys are taught farming, care of stock and order and cleanliness in the stables and yards. The girls are taught the general care and keeping of a house, cooking, bread and butter making, knitting, darning, patching and the making of new clothes, above all to keep the house clean.

Moral and Religious Training.—The morals are improving, religious training being given daily. The principal is in charge of the religious training.

Health and Sanitation.—Everything is arranged to keep the children in good health. Good food is provided, and cleanliness, exercise, bathing and outside games are insisted upon.

Recreation.—In summer the games are baseball and football, while during winter, tops, marbles and other playthings are plentiful, as well as cards, checkers and dominoes.

Ex-Pupils.—Nearly all our ex-pupils are doing well. Farming is the occupation of most of them.

THE REPORT OF REV. H. DELMAS, O.M.I., PRINCIPAL OF THE DUCK LAKE BOARDING SCHOOL, DUCK LAKE, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—The main building is a substantial edifice, in good repair, built on cement foundation with a light airy basement 72 x 33 feet, and a cement floor. Since last report, the cement foundation was put in and a Hubbard steel oven installed in the basement. An addition 12 x 20 feet, two stories high, was also built between the kitchen and the main building, the upper story serves for w.c. Two other additions were constructed for closets—one 17 x 17 feet, for girls, and the other, 18 x 20

feet, for boys. A water plant, 16 x 16 feet, was put up and the water is pumped from an artesian well by an oil engine and conveyed to two air pressure tanks, having a capacity of 1,000 gallons each. From these tanks the water is distributed throughout the building.

For the satisfaction of the department, a sample of this water was sent to the bacteriological laboratory of Regina, and reported upon by G. A. Charlton, bacteriologist, as free from contamination by sewage, surface water, or by any other source of contamination. Two septic tanks of cement 28 x 12 x 13 feet, and 32 x 15 x 10 feet, were also built.

Accommodation.—Ample accommodation is now highly appreciated by 100 pupils and staff of 12.

Attendance.—The authorized number of pupils was satisfactorily maintained throughout the year.

Class-room Work.—A visit to our school will convince one that every modern method, with the most ingenious devices, tends to make the work in this line remarkably successful. Three classes are continually in session. And although the average Indian child is rather slow in physical and intellectual movements, yet this is over balanced by his neatness and accuracy. His motto seems to be 'what is worth doing at all is worth doing well.' Business and friendly correspondence, practical arithmetic, agriculture, writing and drawing receive the utmost attention, and the results are very satisfactory indeed.

Farm and Garden.—As has been heretofore reported, the farm and garden products are unequalled in this section of the district. One hundred and eighty-five acres were under cultivation last season; 125 acres in wheat, 55 in oats and 5 acres in potatoes and vegetables. The total yield of each, was 2,154 bushels of wheat, 1,634 bushels of oats, and 920 bushels of potatoes. The different kinds of vegetables were: onions, carrots, beets, turnips, parsnips, tomatoes, cabbages, celery, &c.

We have 12 cows that supply milk and butter for the household. Last June, an epidemic disease amongst our cows, in 24 hours proved fatal to 7 milking cows and 1 yoke of oxen. Others were bought during the year to supply the loss.

Industries Taught.—The girls have daily training in all household duties. Good success has been attained in the cooking department, and at different times the girls have been left to do independent work, which gave perfect satisfaction.

Plain and fancy sewing, lace-making, and knitting, also dressmaking and tailoring, keep the girls busy and happy. They continue cutting and fitting by chart. Gardening, poultry-raising and dairying are taught, in common, to both girls and boys. The latter have good training in general and mixed farming.

The repairs going on in the buildings furnish ample opportunity for acquiring much skill in carpentering. Several of the pupils can do as good work in wood as the average carpenter. Care of animals receives special attention.

Moral and Religious Training.—Daily lessons in catechism and Bible history, a good moral library, an exemplary staff are the chief factors in developing the better side of the unstable Indian character. Good results have already proved our system good. In general, the ex-pupils remain faithful in observing the Sunday and in the practice of their religious duties. The moral tone of the school children, especially of the girls, is remarkably strong.

Health and Sanitation.—Only one death was recorded last July—hemorrhage. First-class sanitation is at last ours—sewers and septic tanks work well since January. Cleanliness, fresh air and much out-door exercise are our chief preventives of disease. A skilled infirmarian is always on the alert to baffle any form of contagion—something almost unknown in the school.

Ex-Pupils.—Located on Beardy's, One Arrow's, and Petaquakey's reserves, the pupils who find on going home, oxen, farm implements and something to start with are doing well. Others get discouraged from lack of means and take many years to

SESSIONAL PAPER No. 27

do very little of any lasting good. We give seed wheat to the ex-pupils for their first crop and this encourages them immensely. Several of the girls live on the reserves for some years before marrying, and they are irreproachable in their conduct. They seem to think twice before marrying a man who cannot support himself.

Recreation.—With the boys, football holds the first place in fine weather, but they seek amusement in its varied forms so as never to find the recreation hours too long. A picnic, now and then, has a peculiar charm for both boys and girls. The latter take long walks in the fine season, while in winter they romp to their hearts' content. Marches, motion songs and numerous other amusements while away the long winter evenings.

General Remarks.—The year has been an immensely busy one on account of the repairs and sanitary improvements, but nothing happened to mar the harmony existing between pupils and staff. The latter has remained practically unchanged.

I take much pleasure in bearing public testimony to the salutary influence which our new agent, Mr. P. Schmidt, is exerting over the Indians, especially over the ex-pupils and over the parents to send their children to the boarding school.

THE REPORT OF REV. H. C. SWEET, B.A., PRINCIPAL OF THE FILE HILLS BOARDING SCHOOL, BALCARRES, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—We have accommodation for about 70 pupils and a staff of 8.

Attendance.—Our attendance at present is 46 pupils. During the year we had two deaths, one a drowning accident, the other caused by tuberculosis. At the present time our children are all very healthy and all enjoying both their class-room work and their work in the home and on the farm. Our attendance should be much larger than it is. Our recruiting ground is somewhat restricted.

Class-room Work.—There has been no change in the supervision of the class-room during the last three years. The same teacher has been in charge. The class attendance has been good, very few have been many days deprived of the benefits of study. There has been substantial advancement by almost every pupil. The pupils are arranged as follows:—

	Pupils.
Standard I	14
“ II	9
“ III	11
“ IV	7
“ V	2
“ VI	1

Farm and Garden.—We did not attempt to grow wheat. Our section is high and subject to frosts. Our barley was a good crop. Oats grew heavily, but unfortunately one large field was destroyed by cattle—our own, and another large field was all but ruined by frost. Our potato yield was very fair, indeed, and the quality excellent. Our vegetable garden, varied in kinds, grew well at first, but suffered later from the herd. The children are fond of gardening, and the soil and climate are well adapted for successful cultivation. Under the supervision of a good farm instructor the boys and girls, too, are promising gardeners. The boys plough, harrow, seed, cultivate and harvest very well.

Industries Taught.—Our Indian boys get a thorough knowledge of English. They become proficient in writing, reading, spelling and arithmetic. They gain some

knowledge of their own bodies by their physiology; drawing, music, singing and some comprehension of the globe on which we live.

The boys are taught to keep their own dormitory and play-room in order, as well as furnace-room, wash-room and laundry. They are taught to repair what goes out of order. They milk, feed calves, pigs, sheep, cattle and horses. They learn to use horses. They become familiar with the habits, needs and uses of all domestic animals.

They go to the bush and cut down timber and make firewood. They saw with a gasoline engine, they fire the furnace, and the senior boys assist in plumbing repairs. They tidy up and cleanse the whole premises outside. They assist in the killing of cattle and pigs. They learn to plough, to harrow, to disc, to drive seeder, to destroy weeds, to cut hay, to cure it, to draw it in; to build stacks, and to carry forward all operations of saving and threshing grain. They are taught the nature of gasoline engines and how to run them. We aim to give them instruction in carpenter's tools and their uses.

The girls are proficient in all branches of school work and are given very regular attendance in the class-room. They are the equal of the boys in intellect.

The girls are taught all branches of plain domestic science. They begin their day with the preparation of the morning meal, they wait on table, they cleanse all vessels, tables, rooms, they learn to cook vegetables, meats, soups, cakes, pastry, and do all the operation of good bread-making. They are made proficient in dairy work. We teach them to milk, to properly strain milk, to separate and cleanse the separator, the care of cream and the whole work of making butter.

The girls are taught laundry work as nearly as possible to the way in which they may be obliged to do it in their own homes later.

They are taught to mend clothing and to darn stockings and to make up new goods, both for boys' and girls' clothing in the sewing-room. They are being taught to knit by hand. We also teach them to wait on each other in sickness, in so far as they can. Anything that will make them efficient in housekeeping, we endeavour to teach. The girls are fond of gardening.

Moral and Religious Training.—Morals are given the first place in work and play. We aim to be very thorough in keeping all our girls from any moral blemish and our success is marked thus far in this respect. We aim to make our boys as pure in all their relations as possible. We aim to inculcate honour, honesty, purity, truth, and discourage in every one the things which are low and coarse. In pleasant and withal firm ways we endeavour to emphasize the value of inward moral character. We hold before their eyes the purity and nobility of nature requisite to effectual manhood and womanhood. Quietly this is urged in any time of wrong-doing, speaking or being. The selection of men and women of exemplary life does much to impress the pupils. We emphasize the reward of right thinking.

Their religious training must re-inforce their morals. We exact much memory work in Scripture. This for the Indian pupil is the available literature. 'Whatever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report, if there be any virtue, if there be any praise, think on these things.' We seek to make this a pleasure not a burden.

The pupils have the Scripture read to them morning and evening, and this is followed by prayer. Thanks is audibly offered before every meal. A Christian Endeavour service is held each week, in the evening. On Sabbath, Sabbath school is held at 3 p.m. The children are given helps for the study of the Bible and each has a Bible of his or her own and is expected to study it. The principal conducts a religious service on Sabbath evening, part of which is an address of about twenty minutes in length. The habit of prayer and contemplation and Christian living and Christian giving are always encouraged.

SESSIONAL PAPER No. 27

Health and Sanitation.—Our pupils are, generally speaking, healthy. A large percentage are inclined to be scrofulous, tuberculosis sometimes manifesting itself in enlarged glands, sore eyes, sore hands, feet or running ears. During the last year we have had two diseases, measles and mumps. Each pupil has had both these diseases, some escaped one or other; a very few both. Measles are very severe on Indian children. Each patient was confined almost two weeks in bed. We lost none by death. We have a modern building with a good sewerage system, and were able throughout to exercise good sanitation. We isolated them in our hospital. We kept abundance of fresh air, endeavouring to be extremely cleanly. On floors and woodwork and on laundry we used creolin, carbolic or formalin freely yet economically. The department furnished a first-class nurse and facilitated very greatly the proper care of all sick. We live far in the country on good dry ground with modern conveniences, and both inside and outside we make cleanliness prevail.

Recreation.—We have improvised no particular recreation for our children. They are happy in disposition, and for the most part make up their own games.

We have a small lake adjacent to the school and they skate and slide on the ice a great deal. They play football in winter and baseball in the summer. We have a large campus and the ordinary games are played, some at one time, some at another. The girls, too, skip on their verandah, and the boys love to play marbles. They are fond of animals, especially young animals: colts, calves, little pigs and lambs, and they love to watch their habits. They enjoy singing hymns or listening to a gramophone or piano. They enjoy a small lantern owned by one of the staff for the enlarging of the post card pictures. In the summer, the boys greatly enjoy a plunge and swim in the lake; the girls prefer going to a secluded lake rather than the bath-room. In the season of flowers they love long jaunts, picking bouquets, branches and grasses. They love the birds and watch them. The girls and juniors are taken each day for a walk by a member of the staff. A taffy pull is delightfully anticipated and long remembered.

Ex-Pupils.—We encourage graduates to either obtain work in a good home or prepare to go into homes of their own. Some have settled in our colony on this reserve, and most have done well in farming and housekeeping. One graduate is at Swift Current, some others at Mistawasis, one at Cote reserve. Some of our girls are in domestic service. All are on farms, either for themselves or for others.

Two of our pupils have died this year: one, a bright girl of 11 years, and an exceptionally bright boy, Douglas Bear, both victims of tuberculosis.

General Remarks.—In the progress and development of the children, in the industry marking their lives and in the good moral department, the year we are reporting upon is a good one. We feel they have lived so as to show they are grateful for the care bestowed upon them. Everything cannot be accomplished in one or two generations, but much has been done to refine and strengthen and ennoble the rising generation of the Indian people.

THE REPORT OF H. W. ATWATER, PRINCIPAL OF THE GORDON'S
BOARDING SCHOOL, PUNNICHY P. O., SASK., FOR THE YEAR ENDED
MARCH 31, 1913.

Buildings.—The buildings are the same as in previous years, with the exception of one new staff closet, erected in August last. Portions of the floors of the school buildings have been renewed, and the plaster on the walls and ceilings repaired. The stables and other outbuildings have been repaired, at the cost of much labour and some expenditure for material.

4 GEORGE V., A. 1914

Accommodation.—The dormitories afforded floor space for only 30 single beds—15 in each—and there are 3 staff rooms.

Attendance.—This is now all that can at present be desired, but, if accommodation and maintenance were provided, the attendance would very soon be much increased. There is accommodation for only 30 pupils.

Class-room Work.—This, now, consists of the work prescribed by the department, and the pupils are beginning to have an intelligent comprehension of the subjects taught. Education, not the mere giving of information, is the aim.

Farm and Garden.—Nothing was done by my predecessors in this line from the date of Mr. Mark Williams's resignation as principal. Since my appointment in July last, the extermination of weeds, and the preparation of land for this year's crop have received attention. The sum of \$500 was granted by the executive of the synod of the Diocese of Qu'Appelle in July last for farm purposes at Gordon's school, on the recommendation of the Venerable Archdeacon Dobie, convenor of the Gordon school committee, who has the welfare of the school very much at heart. The school is now provided, in consequence, with a team and implements for farming. This year we shall have about 15 acres in grain and vegetables.

Industries Taught.—The boys are instructed in farm work, including ploughing, the cultivation of the soil, recognition and extermination of noxious weeds, the care of cattle, horses, pigs and poultry, repairing buildings, &c.

The girls are carefully instructed in practical housework in all its branches and in making and mending clothing. By a system of rotation, introduced by the matron, all, in turn, are trained in all branches of housework.

Moral and Religious Training.—The principal has this work in charge. Short services are conducted twice daily, at 7 a.m., and at 7.30 p.m., and instruction, usually in the form of catechising, given three times a week. There are also two services in the school-room each Sunday. The subjects embraced are ethical, moral and religious. Private admonition, as occasion requires, is added to the regular instruction.

Health and Sanitation.—The health of the pupils is excellent. One pupil has been excluded for nine months on account of scrofula, two were isolated and the school quarantined in November and December last on account of measles, but only one pupil was infected. There was one case of quinsy, and one of tonsillitis, and in each case the patient was placed in an extemporized infirmary and nursed by the matron, under the direction of Dr. Phillips, the medical health officer. Every precaution is taken to prevent infection or contagion, as in the case of measles; the rooms are at all times kept scrupulously clean, and disinfectants are freely used. The pupils' weekly baths are supervised, an abundance of water being used.

Heating and Lighting.—Box stoves and heaters are used, the fuel being poplar wood. A circular pole-saw is used for cutting, the power being the reserve threshing engine, permission to use which is kindly given by the agent. Coal oil lamps are used for lighting.

Ex-Pupils.—These, so far as I have any knowledge of them, seem to be progressing favourably—either in homes of their own or in service in the neighbouring hamlets. Applications are received by me frequently from families living within a radius of fifty miles for girls from Gordon's school as domestic servants, which would imply that ex-pupils are giving satisfaction as domestics.

General Remarks.—With the hearty co-operation of Agent Murison, who is genuinely interested in the improvement of the condition of the Indians and their children, there is never any difficulty in filling vacancies as they occur.

From the foundation of Gordon's school up to December 31 last, a unique custom had prevailed of allowing the pupils to visit their homes every Saturday. This custom, with all its concomitant evil results, was abolished and the home visits were restricted to the last Saturday in each month.

The assistant matron, Miss E. Atwater, who was appointed in July last, has devoted much time in the evenings to the training of the children in vocal music, and

SESSIONAL PAPER No. 27

on Christmas eve a concert was given by the school—the first in its history—which was well attended by parents and visitors, who expressed great satisfaction with the manner in which the pupils acquitted themselves.

The members of the school committee, Ven. Archdeacon Dobie, of Regina, the Rev. Rural Dean Harrison, vicar of Kutawa, and J. Hollis, Esq., J.P., have visited the school since my appointment, and are, as they have always been, deeply interested in its welfare and progress.

The staff have also had the pleasure of entertaining many unofficial visitors, including some from the neighbouring republic, who had been in touch with Indian work over there, and who were much gratified at being able to express approval of the system of management and its apparent results.

The principal and his staff, who are experienced in Indian work, are in harmony with the optimistic sentiments of Agent Murison with regard to the possible mental and moral development of Indian children when treated fairly and justly by those who are untrammelled by prejudice.

THE REPORT OF REV. A. J. A. DUGAS, O.M.I., PRINCIPAL OF THE MUSCOWEQUAN'S BOARDING SCHOOL, LESTOCK, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—We built a new barn and stables, 36 x 116 feet, with a root-cellar, 20 x 25 x 8 feet, thus doing away with the old log buildings.

Accommodation.—There is ample accommodation for 50 pupils and a staff of 10.

Attendance.—Our attendance at present is 43 pupils.

Class-room Work.—The programme given by the department is followed as closely as possible, and remarkable progress has been made during the year.

Farm and Garden.—Our 115 acres of grain yielded fairly well and our garden gave an ample supply of vegetables of all kinds.

Industries Taught.—The boys are given a complete training in farming, gardening, and the care of stock; the girls are instructed in all household duties.

Moral and Religious Training.—The morals are as good as can be expected, and a good religious training is given daily.

Health and Sanitation.—The pupils' health has been generally good, the only sickness we had being caused by vaccination.

Recreation.—The children are given all the amusements they require to keep in good condition for studies.

Ex-Pupils.—All the ex-pupils are farming, but their crop did not prove very satisfactory for the past year.

General Remarks.—Our school has been regularly inspected by our Indian agent, Mr. Murison, who appears satisfied with the progress made during the year. He was accompanied on his June visit by Mr. Graham, inspector of agencies. After the examination, the latter stated that he noticed a very remarkable progress since his last visit.

THE REPORT OF REV. FRANCOIS ANCEL, O.M.I., PRINCIPAL OF THE LAC LA PLONGE BOARDING SCHOOL, BAUVAL P. O., SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—This school has accommodation for 60 pupils, and the required staff.

Attendance.—All the children being boarders, the attendance is regular.

Class-room Work.—The progress made during winter has been good, particularly is this noticeable among the larger boys in the study of English.

Farm and Garden.—The vegetable garden yielded a fairly good crop of vegetables and small fruit. A fair crop of potatoes was raised.

Industries Taught.—The girls are instructed in general housework, including cooking, laundrying, sewing and buttermaking. They assist also in gardening. The boys are taught the feeding and care of stock, the management of horses, milking and gardening.

Moral and Religious Training.—We always keep in mind that science is not the only thing for which the children come to school, and all our efforts tend to make them acquire habits of a truly useful and Christian life. Special religious instruction is given them daily at 5 o'clock, by the principal himself.

Health and Sanitation.—The general health of the pupils has been good, except for an epidemic of scarlet fever. One of our boys had pleurisy.

Recreation.—Boys and girls have separate playgrounds, which are inclosed with fences and trees. There the children enjoy themselves at all the games and sports common to their age.

Long walks in the woods, or along the river, are taken two or three times a week. The children have many indoor games for winter.

THE REPORT OF REV. M. B. EDWARDS, PRINCIPAL OF THE LAC LA RONGE BOARDING SCHOOL, LAC LA RONGE, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—No new buildings have been erected during the past year. The outside of the school building was painted last summer and likewise three chimneys were built.

Accommodation.—The school is now sufficiently large to accommodate 60 pupils, and a staff of 8.

Attendance.—The attendance has been very regular. We have 53 names on the roll and an average of 49. There have been 4 discharges and 6 admissions since last March.

Class-room Work.—Work and progress in the class-room are still very satisfactory. The course of studies is that laid down by the department.

Farm and Garden.—We produce no grain, owing to the limited area of arable land. From our garden, we had an ample supply of potatoes, and all kinds of vegetables. Our stock comprises 3 head of cattle and one horse.

Industries Taught.—The boys are taught the care of horses and stock, gardening, fishing and general repairs. The girls are taught sewing, knitting, washing, ironing and all that contribute to making them good housekeepers.

Moral and Religious Instruction.—The moral and spiritual education is done most thoroughly. The children are instructed for one half hour, each day, upon lessons from the Bible. They attend two Cree services each Sunday and likewise an English service in the evening. Sunday school is conducted by the members of the staff. The teachers in all departments are required to inculcate by precept and example sound moral principles, which are recognized as the only foundation on which to build up worthy characters and true citizenship.

Health and Sanitation.—The health of the pupils during the past year has been very good. The only sickness we have had was a slight attack of influenza. The children have large and well ventilated rooms in which to sleep and study, and abundance of out-door exercise. The ventilation of the building is good, a constant supply of

SESSIONAL PAPER No. 27

fresh air passing through the building. The sanitary arrangements are carefully attended to.

Recreation.—Strict attention is given to the recreation of our children, as we well know that it is conducive both to their mental and physical development. Out-door games, weather permitting, are much indulged in by all the pupils in their well-kept and spacious playgrounds. The girls take great delight in the summer with their flower garden.

Ex-Pupils.—Four pupils were discharged during the year on account of age. The boys have procured work and are giving good satisfaction to their employers. We are glad they often come to the school, as we like to keep in touch with all our ex-pupils. The girls lately discharged are staying at home with their parents, and are endeavouring to lead exemplary lives on the reserve. Most of our ex-pupils show that their training has been of real value to them, as their homes are better kept, and any sickness among them is more sanely attended to.

THE REPORT OF REV. E. J. CUNNINGHAM, O.M.I., PRINCIPAL OF THE
ONION LAKE ROMAN CATHOLIC BOARDING SCHOOL, ONION LAKE,
SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—Some of the buildings were painted during the summer and are all in good condition.

Accommodation.—There is sufficient accommodation in the school for 55 pupils and a staff of 10.

Attendance.—The average attendance during the year has been 43 pupils.

Class-room Work.—The programme of studies prescribed by the department is carefully followed. The progress of the pupils is encouraging, and all pupils give entire satisfaction in their behaviour.

The calisthenic exercises are performed each day.

Breathing exercises are also taken in the open air when the weather is favourable.

Farm and Garden.—Our garden has yielded 425 bushels potatoes, 350 head of cabbage, 11 bushels carrots, 8 bushels onions, 5 bushels tomatoes, 200 plants of celery and other vegetables.

Industries Taught.—The boys are taught farming, gardening, also have the care of horses, cattle and other work about the farm.

The girls are taught sewing, mending, darning, knitting and general housework.

Moral and Religious Training.—Religious instruction is given daily by the teachers, and by the principal twice a week.

Special attention is given to this important part of education. The pupils do all in their power to put into practice what they are taught.

Health and Sanitation.—All the pupils have enjoyed good health during the year, with the exception of one little girl who went home sick with tuberculosis.

Water Supply.—Plenty of good water is supplied from a well, a few rods from the school. It is drawn to the building by means of a horse and cart.

Fire Appliances.—Twelve Eclipse dry dust fire-extinguishers are distributed in the different rooms, and fire axes, and water pails are kept in convenient places in case of emergency.

Fire drill is held frequently.

Heating and Lighting.—The buildings are heated by means of wood stoves, coal oil lamps are used for lighting.

Recreation.—All recreation is taken in the open air when the weather permits.

4 GEORGE V., A. 1914

The boys play football and baseball, also cards and checkers and go coasting, skating and swimming with much enjoyment.

The girls amuse themselves playing croquet, swinging, skipping and playing other games. Picnics are given frequently. Everything is done to make the children feel happy and contented.

General Remarks.—I acknowledge, with gratitude, the ample supply of school material and drugs sent during the year.

In closing my report, I wish to thank the department for the kindness and interest shown in its dealings with this school.

THE REPORT OF REV. J. R. MATHESON, PRINCIPAL OF THE ONION LAKE CHURCH OF ENGLAND BOARDING SCHOOL, ONION LAKE, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—We have ample accommodation for 60 pupils and their necessary teachers.

Class-room Work.—The children have made good progress, and the younger ones especially are learning English very fast.

Farm and Garden.—Our garden covers about 5 acres and we raise our own vegetables for the use of the school.

Industries Taught.—The boys are taught to use carpenter's tools, although they are too small to do much with them, and they also work at the wood-pile, and assist in caring for the stock. The girls are taught all kinds of housework, sewing and knitting.

Moral and Religious Training.—Particular attention is paid by each member of the staff to religious and moral training, as on this depends the success of all our other work.

Health and Sanitation.—This year we have had our first outbreak of typhoid fever. It was brought on to the reserve, from outside, by half-breeds from Vermilion and western points. We found our hospital a great service. Only three of the school children contracted the disease and all made a good recovery. This has been the only epidemic during the year, and we have been careful to take all precautions to prevent further spread of the disease.

Water Supply.—We have two wells and abundance of good water.

Fire Protection.—Two small chemical and one dozen Eclipse fire-extinguishers, with top draught stoves, and constant watchfulness, are our protection from fire. All our doors open outwards.

Heating.—All the buildings are heated by good wood stoves, most of them having top draught.

Recreation.—Our recreations are football, foot racing, swinging, skating and tobogganing in season.

THE REPORT OF REV. A. WATELLE, O.M.I., PRINCIPAL OF THE BOARDING SCHOOL, THUNDERCHILD'S RESERVE, BATTLEFORD, SASK., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is ample accommodation for 40 pupils and a staff of 9 Sisters.

Attendance.—An attendance of 24 pupils was kept daily for the whole year. Two children were admitted, a boy of 8, and a girl of 7 years of age.

SESSIONAL PAPER No. 27

Class-room Work.—All the subjects prescribed by the programme of studies are carefully taught. In order to comply with the department's desire, greater attention, however, is paid to the practical teaching of hygiene, which always interests the pupils greatly. They have made remarkable progress. The application is good, and some of them are very fond of study.

Farm and Garden.—Not more than one acre of land was under cultivation last year. The crop yielded was: 275 bushels of potatoes—though a good part of them were frozen, we had enough for table use and for seed; 300 heads of cabbage, 25 bushels of onions, 3 bushels of beets, and as we had no frost till after the middle of September, we also raised a large crop of cucumbers for pickling. We have 3 cows and plenty of milk, 3 heifers and 50 hens. The children have a good supply of milk every day.

Industries Taught.—The boys have opportunities to acquire some knowledge in baking, shoe-repairing and gardening. They also have the care of the stable, the hen-coop and the yard. Besides, they saw and carry the necessary kitchen wood. The girls receive a good training in clothes-making and in general household duties. Under the direction of a good seamstress, they also do all the mending and knitting for the children, and the scrubbing and washing of the house.

Moral and Religious Training.—Besides their morning and evening prayer, the children receive moral and religious instruction daily from the missionary or the teacher. No effort is wanting on their part to inculcate in the pupils respect and submission to authority and the love of their country. The laws of morality, politeness and honesty are also much insisted upon. I may say, confidently, that these instructions contribute greatly to the development of habits of thrift and industry. We notice that they are more careful of the articles they handle and more saving of the little money they have at their disposal.

Health and Sanitation.—The health of the children was exceptionally good during the past year. No serious illness made its appearance in the school. Even the colds were less frequent than during the year previous. This we attribute to our good system of ventilation and to the mild winter we were favoured with. The children enjoyed plenty of fresh air accordingly. I may add that the rooms are often disinfected with carbolic acid and that chloride of lime is always kept in the dormitories in order to kill all kind of disease germs. Notwithstanding all the care taken to prevent disease, we have to report the death of Louise Bull, who died from consumption of the intestines in July last. As soon as the first symptoms were noticed, Dr. Macadam was called. He suggested sending her home, where she could get a better chance to recover, but she died shortly after her removal.

Recreation.—In general, the Indian children are fonder of outdoor than of indoor games. The cold has to be very severe to prevent them from playing out in winter time, the boys especially. Their amusements vary with the seasons. Coasting and skating are their winter sports, while baseball, football, jumping, racing and trips in the woods, always under the supervision of one of the members of the staff, are their principal summer enjoyments. The girls are provided with a swing and a croquet set. The parlour games mostly indulged in are cards and checkers.

Ex-Pupils.—Two pupils were discharged during the year: David Jimmy and Cecile Abraham. The former has been working for four months in Duck Lake as a clerk in a general store. The latter is living with her parents at Jackfish Lake. Both are doing well.

General Remarks.—We were honoured by the pleasant visit of His Lordship Bishop Pascal of Prince Albert, in September last. The children presented an entertainment on the day of his arrival. There were songs of welcome and recitations. There is also the festivity of Christmas, which is looked forward to with much eagerness by all the children. They have a tree which is decorated by the members of the staff with a lovely lot of gifts. Santa Claus is always there to distribute them. Be-

4 GEORGE V., A. 1914

sides, the school was several times visited by our new agent, Mr. A. Roland, who deserves our gratitude for the interest shown to us and for the assistance received from him.

I take pleasure in tendering my most heart-felt thanks to the department for the abundant supply of books, drugs, &c., received during the year.

THE REPORT OF REV. JOSEPH F. WOODSWORTH, PRINCIPAL OF THE
RED DEER INDUSTRIAL INSTITUTE, RED DEER, ALBERTA, FOR
THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 80 pupils and a staff of 10.

Attendance.—The year began with 69 names on the roll, and 68 in actual attendance.

The record of the year is as follows:—

	Pupils.
Number on the roll	69
Admitted during the year	21
	<hr/>
Total	90
Discharged	8
	<hr/>
Total number now on the roll	82
Total number now in attendance	76

Class-room Work.—The half time system is carefully followed and a very successful year has been spent in this department.

At the close of the year the grading of the pupils is as follows:—

	Boys.	Girls.
Standard I	31	19
“ II	13	8
“ III	2
“ IV	4	5
	<hr/>	<hr/>
Totals	48	34

Mr. F. J. Dodson, as teacher, has been doing excellent work.

Farm and Garden.—Last season there were 500 acres of land under cultivation as follows: 15 acres of fall wheat, yielding 318 bushels; 125 acres of oats, yielding 3,122 bushels; 20 acres of barley, yielding 150 bushels; 8 acres of potatoes, yielding, 1,300 bushels; 40 acres of timothy, yielding 20 tons and pasturage. Besides this, we had 25 acres in summer fallow; 15 acres breaking and 2 acres in garden.

Our live stock is as follows: 12 horses, 30 cows, 9 heifers, 20 steers, 25 calves, 1 bull and 19 pigs. The total value of the live stock is \$5,564.

Industries Taught.—Farming and cattle-raising are the chief industries in which the boys are trained. This is quite appropriate, for all our pupils come from good agricultural districts. Mr. Alfred B. Hives is in charge of this department, and has done good work.

When there are improvements being made about the estate, the boys are instructed in carpentry, painting, paperhanging, &c., by Messrs. Foster and Joblin.

The girls receive a very thorough training in housekeeping and sewing under the care of Miss Eyre, matron; Miss Marshall, cook; Miss Valentine, laundress; Miss

SESSIONAL PAPER No. 27

Bell, seamstress. These ladies have done their work in a most conscientious manner during the year.

Moral and Religious Training.—Every Sunday, morning and evening, there is a regular preaching service, also in the afternoon a well organized Sunday school, under the able superintendency of Mr. Joblin. Each day, morning and evening, prayers are held. The Sacrament of the Lord's Supper is dispensed at regular intervals during the year. A mission band, conducted by two ladies of the institution, develops an unselfish interest in others. A voluntary meeting for the girls, and also one for the boys, each week, proves very helpful, but it is the personal touch of the individual members of the staff with the children which more than anything else is fruitful in the development of their lives and characters. More and more, the reasonableness of the Christian life is appealing to them, which fact affects wonderfully the matter of discipline.

Health and Sanitation.—The buildings have been kept clean and well ventilated. Close attention has been given to means of preventing the outbreak of sickness in the school, and with the exception of two cases, we have not had any sickness of a serious character. The drainage system is in good condition.

Water Supply.—An abundant supply of pure water is pumped from a spring well—through the two main buildings, by steam power and stored in tanks. There is a second well, in working order, with hand pump and in close proximity to the buildings.

Fire Protection.—We have the water tanks and 36 dry dust fire-extinguishers, also two modern fire-escapes. The children also have fire drill in the school-room and in the dormitories. Our best fire-protection, however, has proved to be in keeping the chimney well cleaned and in carefully handling the furnaces.

Heating and Lighting.—Two Smead-Dowd and two Pease furnaces have kept the main buildings and the principal's house comfortable during the past winter. The cottages are heated by wood and coal stoves. Coal oil is used for lighting in all the buildings excepting the girls' home, where we have, in the basement and on the ground floor, seven gasolene gas lights, which are a great improvement on coal oil, both in safety and results.

Recreation.—The girls have found ample recreation during the winter in skating and walking. In the summer, they play all the seasonable games. The boys have enjoyed skating and hockey. In the summer, they play all the boys' games, in turn.

Our library, which is well cared for by Mr. Dodson, is well patronized by many of the older pupils.

Ex-Pupils.—No. 109, Jeremiah Hoole, was sent to the Saddle Lake hospital suffering with consumption, and died in December, 1912; No. 157, George Makokis; No. 159, Zaccheaus Makokis; No. 077, Margaret Steinhauer; and No. 91, Edgar Favel, are living at Saddle Lake; No. 137, Edward Sharphead, is living at home at Wabamun; No. 081, Jennie Larocque, is married and living in Red Deer, and No. 095, Peggie John, is also married and living at Wabamun.

General Remarks.—In coming to the school to assume the principalship, it is pleasing to note the general atmosphere of the institution. This appears, first, on the part of the staff in their attitude towards the children, and in the harmony existing among themselves. There seems to be a desire on the part of all to serve the best interests of the Indian children rather than any personal considerations. Then, the children seem to have caught the same spirit, and instead of making management difficult for the staff, there are many instances where they have helped smooth the way for those in charge. I wish to express my appreciation of the way in which Mr. Barner has welded this school together in purpose, and of the help which has made it pleasant for me to assume charge of this work.

THE REPORT OF REV. G. NORDMANN, PRINCIPAL OF THE ST. JOSEPH'S INDUSTRIAL SCHOOL, DAVISBURG, ALBERTA, FOR THE YEAR ENDED MARCH 31, 1913.

General Repairs.—During the year new cement sidewalks were put in. The repainting of the interior of both main buildings was completed, as well as the usual repairs to buildings and fences.

Accommodation.—There is accommodation for 125 pupils and the necessary staff.

Attendance.—During the year there was an average attendance of 51 pupils.

Class-room Work.—The half day system is in vogue for the older pupils. Half the day is spent in the school-room and the other half is spent at their trade. Regular school hours are observed—they are from 9 a.m. to 12 noon, and from 1.30 to 4 p.m. The junior pupils attend school forenoon and afternoon. The authorized programme of studies is adhered to as closely as possible. The progress of the pupils during the year has been satisfactory.

Farm and Garden.—We had about 250 acres under cultivation. The yield was heavy, there being an average of 60 bushels to the acre. We grow all our own vegetables. All the boys and girls are taught gardening.

Industries Taught.—*Farming.*—This is the principal industry. The boys are taught farming and stock-raising in all their different branches, and under the direction of the farm instructor do all the work. The boys and girls all learn to milk.

Carpentry.—The boys did most of the ordinary repairs during the year.

Needle-work.—Under the direction of the Reverend Sisters, the girls are taught sewing, machine-sewing, dressmaking, knitting, fancy and plain needle-work.

Housekeeping.—The girls are thoroughly instructed in the art of housekeeping and cooking.

Moral and Religious Training.—The pupils are well grounded in the principles and doctrines of their religion. A half hour each day is devoted to religious instruction.

Health and Sanitation.—The health of the pupils during the year has been good. The sanitary condition of the school is satisfactory. The premises are kept neat and clean.

Water Supply.—An abundant supply of water is obtained from the High river. The water is filtered into a well and then pumped into tanks in the main buildings.

Fire Protection.—The buildings are well supplied with stairs and fire-escapes. There are two water tanks in the boys' building and one in the girls', each with a capacity of 1,400 gallons. About 50 feet of hose on each flat is connected with these tanks. There are also 3 dozen fire-extinguishers, 4 dozen hand grenades, 40 fire pails and 8 fire axes.

Heating and Lighting.—The two main buildings are heated by steam. Each building has its own plant. Both give excellent satisfaction. For light, we use acetylene gas.

Recreation.—Hockey is the favourite game. In summer the pastimes are football, baseball, lacrosse and field sports. The girls play basketball, skip, swing, coast and take long walks when the weather permits. Both the boys and girls have large, well lighted play-rooms, where they spend their recreation hours in wet weather.

Ex-Pupils.—The ex-pupils for the most part have taken up work on the different reserves to which they belong. The majority of them are engaged in farming and cattle-raising and are doing well. A large number from the different reserves attended the annual reunion which was held during the Christmas holidays. The ex-pupils from

SESSIONAL PAPER No. 27

the Blood reserve had their brass band with them, and supplied some very choice music.

General Remarks.—We did not break any more new land last year, as we have about as much broken as we can work.

Our brass band, under the leadership of an ex-pupil, is doing well considering the time they have been practising.

THE REPORT OF REV. S. MIDDLETON, PRINCIPAL OF THE BLOOD (ST. PAUL'S) CHURCH OF ENGLAND BOARDING SCHOOL, BLOOD RESERVE, MACLEOD, ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 50 pupils and staff of 8.

Attendance.—The attendance has been good, the number on the roll is still 41.

Class-room Work.—The departmental form of study is closely followed.

Farm and Garden.—During the farming season the senior boys are employed on the farm during the morning and spend the afternoon in the class-room, agricultural classes are held during the winter evenings and instruction is imparted by the principal in all branches pertaining to the different methods of farming and care of live stock in general. Thirty acres were cropped last season; 10 acres of which were oats, and 20 acres timothy and bromus. There are 40 acres under cultivation and 10 acres were summer-fallowed. The kitchen garden consists of four acres, 2½ being utilized for potatoes and the remainder for small seeds. The yields were as follows: potatoes, 10 tons; cabbages, 500 head; onions, 1,000 pounds; carrots, 600 pounds; turnips, 2,000 pounds; parsnips, 200 pounds.

The average yield from the school farm is greater than the demand, hence some of the produce is sold.

Industries Taught.—The principles of agriculture, woodwork, and general farm management are fully explained to the pupils.

Moral and Religious Training.—Biblical teaching is given both at morning and evening prayers, in addition to which every possible effort is exerted, in order to produce an atmosphere which is conducive to the development of citizenship and loyalty.

Health and Sanitation.—Good health has been general; all the buildings are regularly disinfected by keeping them kalsomined and disinfected with chloride of lime. All refuse is burned.

Recreation.—The Indian is a born sportsman, and naturally all kinds of recreation are keenly followed. The pupils are instructed in calisthenics and great interest is taken in this part of the school life. The school is the proud possessor of its own cadet corps, and in addition to their physical exercises, they are also taught musketry exercises, etc., by a qualified military instructor. The gymnasium is a source of enthusiasm and in gymnastics the pupils rank second to none. The cadets formed the guard of honour and received their colours from the hands of His Royal Highness the Duke of Connaught on his recent visit to Macleod.

Buildings.—Considerable activity has been displayed in building construction during the past year. A new boys' dormitory, 21 x 55 feet, was erected at the beginning of the fiscal year, followed by a new residence for the principal, an up to date hospital, a large gymnasium and a new armoury, all school property.

Ex-Pupils.—This is ever a vexed question, but one that is always alive with interest; the ex-pupils of to-day are the Indians of the future, and speaking collectively they form the nucleus of a large and prosperous body of agriculturalists. Naturally the Indian 'must go back to the land,' and will then prove himself worthy of the

education he has received. Some of the ex-pupils' houses compare very favourably with their white neighbours', and the ex-school girls strive to keep their houses on a par with the school. Although the ex-pupils are in the minority, they are making a strong fight for the supremacy, and when that moment arrives permanent progress will be in evidence. They keep up their connection with the school by attending church.

General Remarks.—I beg to tender my sincere thanks to the employees of the department for their unflinching and liberal kindness, and also to the agent for his courtesy and promptitude in attending to all matters connected with the school in general.

THE REPORT OF REV. E. RUAUX, O.M.I., PRINCIPAL OF THE BLOOD ROMAN CATHOLIC BOARDING SCHOOL, BLOOD RESERVE, STAND-OFF, ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 50 pupils and a staff of 8.

Attendance.—There are 43 pupils on the roll, 21 boys and 22 girls.

Class-room Work.—The programme of studies is closely followed and the children have improved greatly in speaking the English language.

Farm and Garden.—There is no farming done at the school, nor any gardening, as the ground is too close to the river bank and is unfit for the purpose. A farmer living some six miles away rents the school about three acres of land. This was sown in potatoes, and the return was fair. The children did all the work themselves, under the direction of this farmer.

Industries Taught.—Stable work, baking, sawing and chopping wood for the kitchen and the furnaces are some of the occupations of the boys; the girls are trained in the different branches of housework; baking, cooking, laundrying, sewing, knitting and dressmaking.

Moral and Religious Training.—Religious instruction is given daily, and all the children attend the church services regularly. As a matter of fact, this part of their training is looked after with the greatest of care.

Health and Sanitation.—The health of the children has been very good throughout the year. However, one boy died at home of consumption.

Recreation.—Recreation is taken three times a day, after each meal. Football, baseball and skating are the favourite pastimes of the boys; while the girls enjoy themselves swinging, playing ball and skipping. As often as the weather permits, outdoor recreation is indulged in. Both boys and girls have each their own playground and are always under the supervision of an attendant.

Ex-Pupils.—As a rule, our older pupils are transferred to the St. Joseph's industrial school, where they remain until they receive their discharge.

THE REPORT OF REV. M. C. GANDIER, PRINCIPAL OF THE OLD SUN'S BOARDING SCHOOL, BLACKFOOT RESERVE, GLEICHEN, ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—Accommodation is provided for 40 pupils and for a staff of 8.

Attendance.—The school was opened on June 14, 1912. The attendance then was 4 boys and 9 girls. No more children were sent in until the early part of the winter. Compulsion has to be used to get the parents to bring their children to the school.

SESSIONAL PAPER No. 27

The parents gave much trouble, in requesting to take their children out of school on various pretexts. A number of the boys and girls now look upon the school as their home. The school did not have a full roll until the first quarter of 1913.

Class-room Work.—The class-room work was begun in the residence, immediately after the opening of the school. The principal did duty as teacher. In July, the class-room, a separate building, was fitted up and the work taken there. A teacher was secured about March 1, 1913. The children had a very poor knowledge of elementary work. Only six had ever been in a school. They made good progress in the class-room, showing an eagerness to learn, which was very gratifying.

Farm and Garden.—Eight acres of the farm were broken in 1912. Nothing more was done with it. One quarter of an acre near the residence, was broken and worked for a kitchen garden. Splendid vegetables were grown, showing that the farm if worked up into proper form would give splendid returns.

Industries Taught.—We have endeavoured to train both boys and girls in regular habits of work. We had no outside departments for the boys in operation, so we had to use such opportunities as the general work of the school provided to give training. The girls received regular instruction in cooking, baking bread, and general housework. They received regular instruction in the sewing-room; emphasis being laid on mending, darning, and the making of simple garments. Instruction was also given in head-work.

Moral and Religious Training.—We endeavoured, through opportunities which arose, through contact with the children, to instil a desire for truthfulness, cleanliness and virtue. This was of course part of the religious training, only by being morally clean, can they be the image of the Creator. The children except in a few instances, show a desire to be better, and there are many gratifying instances of advantage having been taken of the instruction which was given.

Prayers were held night and morning in the residence, and again in the dormitories when arising and retiring. The boys and the girls have taken a hearty interest in their prayers. Instruction was given in simple prayers, verses, and hymns. The object at which we aim in religious instruction is to store the mind with what they can comprehend, hoping that the knowledge will be used in the problems of experience.

The religious instruction of the schools is supplemented by a service in the native language, in the schools, each Sunday evening.

Health and Sanitation.—The health of the children has been good, above the average. There were several cases of mumps. One child died from heart trouble; another was allowed home for a stomach trouble. Several were troubled with sore eyes. There were no cases of active tuberculosis.

No effort was spared to keep the residence sweet and clean. The dormitories have a system of ventilation. In addition, the windows and the doors were opened daily. Disinfectants were used, especially in the lavatories. The yards were kept clean of rubbish; to prevent the breeding of flies and other insects, screens were put on the windows. The septic tank is at some distance from the building. It gives no trouble from odours. We had one case of the sewage drain being clogged. Various reasons were given. The final decision was that the drain has not enough fall to give it a good flow. An isolation hospital is provided in the laundry building. It has not been used as yet.

Recreation.—The boys and girls have their playgrounds, in which they are encouraged to recreate by active games. Systematic recreation was encouraged, the object being to encourage good work.

Ex-Pupils.—There are as yet no ex-pupils.

THE REPORT OF REV. J. L. LEVERN, O.M.I., PRINCIPAL OF THE CROW-FOOT BOARDING SCHOOL, BLACKFOOT RESERVE, CLUNY, ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 50 pupils and a staff of 8.

Attendance.—The average attendance for the year was 43. We have at present 45 pupils enrolled: 29 boys and 16 girls.

Class-room Work.—The programme of studies prescribed by the department is followed as closely as possible; the progress is very good and encouraging.

Farm and Garden.—About 25 acres are under crop: 10 acres in oats, 10 acres in potatoes, and 5 acres in gardening. The larger boys do the ploughing, as well as the mowing, when the hay season comes.

Industries Taught.—Farming and gardening, baking and dairy work, the care of horses and cattle, are taught the boys. The girls are instructed in dressmaking, knitting, cooking and general housework.

Moral and Religious Training.—Great care and special attention is given to this most important part of education. Religious instruction is given to the pupils, by the principal and teacher, each day, and it is encouraging to see the great efforts the pupils make to put in practice the lessons they are taught.

Health and Sanitation.—The health of the pupils has been very good throughout the year. There was no serious illness of any kind. The sanitary conditions are looked after carefully, the ventilation is excellent, and everything is kept clean around the house and outbuildings.

Recreation.—Football, shooting with bows and arrows, fishing, swinging and skating, are the favourite pastimes of the boys; the girls amuse themselves in playing ball, swinging, skipping, croquet, &c.

Ex-Pupils.—All our ex-pupils are, with but few exceptions, doing well on the reserve.

THE REPORT OF REV. SISTER M. A. LEDUC, PRINCIPAL OF THE ST. ALBERT BOARDING SCHOOL, ST. ALBERT, ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is ample accommodation in the school for 80 pupils and the necessary staff.

Attendance.—The attendance has been very good during the year. The enrolment at the end of March was 68 pupils.

Class-room Work.—The official programme of studies for Indian schools is as follows:—The school hours are from 9 to 12 noon, and from 1.30 to 4 p.m., with an intermission in the middle of each session. Great attention is given to the teaching of hygiene. There is a rehearsal of vocal music twice a week. The girls have a mandolin club and the boys have a brass band. The other pupils show steady and satisfactory progress. Necessarily, the work of the new pupils, who had no knowledge of English on their admission, is very elementary. However, they are making good advance in acquiring the English language.

Farm and Garden.—Last season we had 250 acres under cultivation. The yield was 1,147 bushels of wheat, 4,203 bushels of oats, 1,652 bushels of barley, 3,000 bushels

SESSIONAL PAPER No. 27

of potatoes, 50 loads of timothy, 90 loads of slough hay, and a good yield of garden produce.

Industries Taught.—The chief industry taught to the boys is farming, as it is about the only means most of them will have of earning a living when out of the school. Besides special training given in different branches of manual work, all the older pupils are employed two hours daily, each one according to sex and ability, at various kinds of labour, such as sweeping, helping in the kitchen, and on the farm, sawing and splitting wood, dairying, gardening and feeding stock.

Moral and Religious Training.—The moral and religious training of the pupils receives special attention. Respect for authority and obedience to superiors are continually inculcated and insisted upon. As a rule the pupils are very docile and readily respond to the training given them.

Health and Sanitation.—All the pupils have enjoyed good health throughout the year, there having been no serious illness of any consequence and no deaths. The sanitary condition of the school is excellent and the buildings are kept clean and well ventilated.

Recreation.—The boys and girls have large, well-kept playgrounds, where they enjoy all kinds of games the whole year round, even during the coldest part of our severe winters.

Ex-Pupils.—The pupils who have been recently discharged from the school are doing well. Some of the girls are at home, helping their parents, while others are married and doing well. Most of the boys, being accustomed to handle horses and having a fair idea of agriculture, easily find employment with the local farmers.

General Remarks.—Before closing my report, I wish to express my sincere thanks to the officers of the department, Mr. G. E. Race, our agent, and Dr. A. Giroux, who on every occasion have shown a very favourable interest in our work.

THE REPORT OF REV. L. DAUPHIN, O.M.I., PRINCIPAL OF ERMINE-SKIN'S BOARDING SCHOOL, HOBBERMA, ALTA., FOR THE YEAR MARCH 31, 1913.

Accommodation.—There is accommodation for 60 children and 10 sisters.

Attendance.—The attendance was 56.

Class-room Work.—The application has been very good the year round and the progress has been satisfactory in every branch of the programme. Calisthenics and hygiene are carefully taught. The children have behaved wonderfully well. The boys as well as the girls, are very docile; their obedience, respect for their teachers and love of the school are worth mentioning.

Farm and Garden.—Our garden has yielded 406 bushels of potatoes, 369 head of cabbages, 11 bushels of carrots, 6 bushels of onions, and a good quantity of other vegetables.

Industries Taught.—Each day, outside of the regular school hours, the boys devote some time to farming. The girls are instructed in housekeeping, cooking and the mending of their own garments. All the clothes are made by the children, the girls cut and fit the boys' suits as well as their own.

Moral and Religious Training.—Daily instruction is given by the missionaries, or the teachers, to which the pupils pay great attention.

Health and Sanitation.—The pupils have enjoyed very good health during the year with the exception of one little boy, who was taken ill with pneumonia, which finally turned to consumption.

Recreation.—Baseball and football are the amusements enjoyed in summer and coasting and checkers are the winter pastimes of the boys; while at school, they enjoy reading the newspapers, especially the 'Canadian Century' offered so generously by the department. The girls' chief amusement is music.

Ex-Pupils.—Most of our pupils give satisfaction by their conduct and work and are able to live comfortably. They like to come back to their alma mater, and also delight in reading newspapers, reviews, &c., in a room at the rectory; some of them attend the Sunday school.

General Remarks.—The children have given several entertainments in the course of the year. Our 20 musicians had an agreeable surprise when they were presented with four nice violins. They delight in the study of this, as well as of the mandolin. The shyness of the children is wearing away, for instance, first the boys and then the girls gave an entertainment consisting of plays, music and singing prepared by themselves. One evening, we were invited to the reception-room where the actors kept us laughing for a good hour and more.

THE REPORT OF REV. CYP. BOULENE, O.M.I., PRINCIPAL OF THE BLUE QUILL'S BOARDING SCHOOL, SACRED HEART P.O., ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—Our school has accommodation for 45 pupils and the necessary staff.

Attendance.—The attendance has been good, owing to the fact that the pupils are all boarders.

Class-room Work.—Two teachers have charge of the classes, in separate rooms, and they follow the programme of studies authorized by the department. The progress is good.

Farm and Garden.—We have grown enough vegetables to supply the needs of the school.

Industries Taught.—The boys are taught farming and gardening, together with the care of stock. The girls are trained in the different branches of domestic economy.

Moral and Religious Training.—Daily lessons are taught to all the children, and nothing is left undone to form solid habits of virtue that may enable them to continue to do right when they go back to their people.

Health and Sanitation.—During the year the health of our children has been good. There was no serious illness, with the exception of one girl, who died of tuberculosis at her home.

Recreation.—Outdoor exercise and games are allowed after school hours as often as the weather permits.

Ex-Pupils—During the year four pupils left the school, one of whom died, and the three others were honourably discharged.

THE REPORT OF REV. W. R. HAYNES, ACTING PRINCIPAL OF THE PEIGAN CHURCH OF ENGLAND BOARDING SCHOOL, PEIGAN RESERVE, BROCKET P.O., ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 30 pupils, and also for a staff of 6 persons.

Attendance.—The attendance has been fair; the Indians are not so willing as formerly to place their children in the schools.

SESSIONAL PAPER No. 27

Class-room Work.—The progress has been good, especially in English.

Farm and Garden.—The farm and garden, as usual, gave good satisfaction. Plenty of vegetables were grown, and there is still a good supply on hand, more than enough to last till the new crops come in.

Moral and Religious Training.—This is always a strong point and is pressed upon the pupils.

Religious instruction is given by the principal, both morning and evening. I may say the ex-pupils are regular attendants at the Sunday services.

Health and Sanitation.—The health of the pupils has been fair. The sanitation is good. A good supply of pure water in the kitchen of the institution supplies all the requirements of the school.

Recreation.—Football, hockey, swimming, fishing, drill and long walks comprise the amusements of the pupils.

Ex-Pupils.—I can safely say, on the whole, they are doing well. Most of the ex-pupils are farming, and are on the way to making a good living. Of course there are exceptions, but still so few that we cannot say that there are any real failures. It cannot be expected that they will settle down at once, after leaving school, where they work under a regular routine. When they first leave the school, with freedom from all work, they of course run around a good deal, then generally settle down to work.

General Remarks.—I sincerely thank the department and the officials on the reserve for their kind assistance at all times. It is not always possible to be just so in any institution, and no doubt things might have been better; still I feel that with the assistance of the department and a good staff, all should go well and give general satisfaction.

THE REPORT OF REV. J. M. SALAUN, PRINCIPAL OF THE PEIGAN
ROMAN CATHOLIC BOARDING SCHOOL, PEIGAN RESERVE,
BROCKET P. O., ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 40 pupils and the necessary staff.

Attendance.—The pupils are all boarders, therefore the attendance is regular.

Class-room Work.—The programme of studies is the same as prescribed by the department, and is followed as closely as possible.

Farm and Garden.—There is no farming done at the school, but there is a small sandy plot, beyond the school-site, that may be used as a garden.

Industries Taught.—There is no trade taught in the school. Both boys and girls do the general housework. Besides, the boys do the stable work, and the girls are taught cooking and sewing.

Moral and Religious Training.—The pupils are taught catechism and Bible history almost every day.

Health and Sanitation.—One girl died last fall from anæmia, one boy is at home on account of failing eyesight, all the other pupils are enjoying good health.

Recreation.—The pupils have a holiday on Thursday and Sunday, also on other occasions during the year. In summer, they have frequent outings and bathe often. Besides, they have daily moments of relaxation after meals and class-room work.

Ex-Pupils.—The ex-pupils have all started farming.

THE REPORT OF THE VENERABLE ARCHDEACON J. W. TIMS, PRINCIPAL OF THE SARCEE BOARDING SCHOOL, CALGARY P.O., ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 20 pupils and a staff of 3.

Attendance.—Twenty pupils have been in attendance during the year. Two girls were discharged, being of age, and were both married to ex-pupils. Two boys died. The number on the roll at the end of the fiscal year was sixteen. There were no absentees, except for the usual holidays.

Class-room Work.—This has been carried on regularly during the year.

The standing of the pupils is as follows:—

	Pupils.
Standard I	8
“ II	0
“ III	3
“ IV	5
	<hr/>
Total	16

Farm and Garden.—There are no real farming operations carried on at this school as yet. The male pupils, with two exceptions, are too small. A large garden is worked by the boys and last fall produced a plentiful supply of vegetables for the winter's use.

Industries Taught.—The girls are well trained in every branch of housekeeping. The boys look after the horses, milk the cows, saw the wood and in summer keep the garden weeded.

Moral and Religious Training.—Prayers and Bible instruction are held in the school twice daily. The children all attend the services of the church on Sundays, and every effort is made by the members of the staff to uplift the pupils morally and spiritually.

Health and Sanitation.—The health of the pupils, with two exceptions, has been fairly good. The boys were in tents all last fall and they went into them again as early as possible this spring. Every effort is made to keep the buildings and surroundings clean and sanitary. Lime is freely used.

Recreation.—Football and cricket in the summer, skating and tobogganing in the winter, are the boys' chief recreation. The girls walk both summer and winter. They also skate in winter and indulge in various suitable games out of doors in summer.

Ex-Pupils.—All the ex-pupils are located on the reserve. They nearly all keep in touch with the school and church. Some are more progressive than others. A few have the appearance of doing well, if one can judge from their homes and general surroundings. All can earn a good living by cutting and selling wood and hay and by working for the adjacent settlers. Some of them have a fair number of cattle and horses also.

THE REPORT OF REV. C. JOUSSARD, O.M.I., PRINCIPAL OF THE LESSER SLAVE LAKE ROMAN CATHOLIC BOARDING SCHOOL, ST. BERNARD'S MISSION, GROUARD, ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 60 pupils and the staff necessary to carry on the work. Our children's dormitories are provided with iron bedsteads; have outer doors leading to balconies and stairs for fire-escape and free ventilation.

SESSIONAL PAPER No. 27

Attendance.—The attendance was regular, as all the pupils are boarders.

Class-room Work.—The school hours are faithfully observed. The programme of studies is followed with application and success.

Farm and Garden.—Both boys and girls are glad in the early spring to remove small stones and prepare the land for potatoes, carrots, onions—even flowers. Later on they help in weeding the gardens and take in the crop.

Industries Taught.—The girls are taught sewing, mending, darning, knitting, and general housework. The boys help around the house, and do the work of their own departments.

Moral and Religious Training.—Instruction in the Roman Catholic faith is imparted to the pupils. Half an hour each day is devoted to religious training, and they attend regularly at all the church services.

Health and Sanitation.—During the past year the pupils' health was particularly good.

Water Supply.—The water-supply is obtained from a well and a small river near by.

Fire Protection.—Two fire-extinguishers, 6 axes, buckets and ladders are always ready in case of fire.

Heating.—The heating apparatus consists of a hot-air furnace for the main building, and stoves for the other departments.

Recreation.—Football and bows and arrows are the favourite pastime of the children during the summer months. Coasting, and games in the halls, are the recreations during the winter.

THE REPORT OF SISTER LAVERTY, PRINCIPAL OF THE FORT CHIP-
EWYAN (HOLY ANGELS) BOARDING SCHOOL, FORT CHIPEWYAN,
ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Land.—The surrounding land is sterile and rocky. The only farm we possess is a field, some 15 acres in area, and notwithstanding the poor quality of the soil, we have, by careful preparation, succeeded in bringing to maturity potatoes and a few other vegetables.

Buildings.—Our school is the largest and apparently the most imposing building in this remote part of the country, where civilization has penetrated very little so far. It is of frame construction, 104 x 36 feet, three and a half stories high, and suitably divided into the various apartments required for the accommodation of pupils and staff.

Attendance.—The authorized programme of studies is faithfully followed, and every effort is made to have pupils acquire proficiency in speaking and writing the English language. For this purpose, the most modern methods are adopted by the teachers.

Industries Taught.—We first aim to make our pupils expert in ordinary general work, and then instruct them along special lines. The girls do the cooking, baking, washing, and learn all the branches of housekeeping. They are taught hand and machine sewing, mending and making of lace. The larger girls learn dressmaking and tailoring. The boys saw and split wood for fuel, and weed and clean the garden.

Moral and Religious Training.—No other feature of education receives more attention than the moral and religious training of the pupils. They attend morning and evening service in the school chapel, and receive instruction in Holy Scripture and church doctrine for one-half hour daily. Their conduct is very satisfactory.

Health and Sanitation.—The general health has been very good, no deaths occurred during the year.

Water Supply.—Lake Athabaska continues to be our source of water-supply. The labour of drawing water, especially in the winter season, is very great. In years of low water we are obliged to have it drawn from a distance of about half a mile. It is to be hoped some better source of supply will soon be found.

Fire Protection.—Three fire-escapes, with ladders, buckets and axes are the appliances on hand.

Heating and Lighting.—Two large 'Oxford Triple Heaters' and several smaller stoves heat the building. Coal-oil lamps are used for lighting purposes.

Recreation.—Out-door games for both boys and girls are many and varied. The chief summer amusement, however, is boating in the bay, close by. They are sometimes given little excursions out on the lake with the mission steamer, and these are immensely enjoyed. For the pupils' health we let them take long walks, morning and evening. Besides these diversions, the girls have regular calisthenic drills. The boys receive excellent military exercise from a sergeant of the police.

THE REPORT OF REV. J. CALAIS, O.M.I., PRINCIPAL OF THE ROMAN CATHOLIC BOARDING SCHOOL AT STURGEON LAKE, ALBERTA, CALAIS P.O., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—A wing 20 x 20 feet, two stories high, connected with the kitchen and the boys' dormitory, is under construction.

Accommodation.—This school can accommodate 40 pupils and the necessary staff.

Attendance.—The pupils being all boarders, the attendance is very regular.

Class-room Work.—The programme of studies prescribed by the department is followed as closely as possible. The progress of the pupils has been satisfactory.

Farm and Garden.—We have an extensive garden, and sufficient vegetables of all kinds are raised for the needs of our school.

Industries Taught.—The girls are trained in all branches of housekeeping. The boys attend to the outside work, such as sawing and splitting wood, providing water and fuel, and cleaning up premises.

Moral and Religious Training.—Special attention is given to this important part of education. The children are thoroughly instructed in the principles of faith and religion. Every effort is used to instil morality and righteousness into their hearts. Half an hour daily is devoted to religious instruction.

Health and Sanitation.—We had no epidemics, and with the exception of one boy, Gabriel Mikkomusus, who died of heart disease, last October, all our pupils enjoyed good health the whole year. The sanitary conditions are looked after carefully.

The book prescribed on calisthenics and games is taught.

Recreation.—Football, foot-racing and different outdoor games are most popular with the boys, while the girls delight in skipping, playing cards and doll-dressing. Both boys and girls enjoy long walks in suitable weather.

Ex-Pupils.—The pupils who have been discharged from this institution are living with their parents, on the reserve. They behave well and keep steady at work.

SESSIONAL PAPER No. 27

THE REPORT OF REV. J. LETRESTE, PRINCIPAL OF THE VERMILION
(ST. HENRI) BOARDING SCHOOL, FORT VERMILION, ALTA., FOR
THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 100 pupils and 7 sisters.

Attendance.—The attendance is regular, the pupils being all boarders.

Class-room Work.—The subjects taught are reading, spelling, grammar, history, geography, arithmetic, vocal music and calisthenics.

Farm and Garden.—There are over 80 acres of land under cultivation at present. Most of our pupils are too small to be of much use on a farm, but they help in the garden.

Moral and Religious Training.—The moral and religious training is based on the pure and unsullied doctrine of the Holy Scripture.

Health and Sanitation.—Every possible precaution is taken to ensure perfect sanitary conditions. Our pupils enjoy good health.

Water Supply.—The river, which flows near the mission, furnishes an abundant supply of water for laundry and other domestic uses. There is also a well, inside the house adjoining the kitchen, which is sufficient for the needs of the school.

Fire Protection.—Ladders, stairs and galleries are our chief protection against fire. There are exits from every part of the building, and besides, there is an outdoor balcony and stairway connected with each dormitory.

Heating and Lighting.—The building is comfortably heated by two hot-air furnaces. The fuel used is wood. The school is lighted by coal oil lamps.

Recreation.—Recreation is taken after meals, in the open air, during which the children enjoy outdoor games. In cold weather, a long walk is taken almost every day.

THE REPORT OF REV. C. R. WEAVER, PRINCIPAL OF THE WABASCA
(ST. JOHN'S MISSION) CHURCH OF ENGLAND BOARDING SCHOOL,
WABASCA P.O., ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—A new wing 25 x 30 feet, is nearly completed and this, with the older portion of the building will provide accommodation for 30 pupils and two ladies of the staff, also a man and his wife.

Attendance.—The attendance for several reasons has been unusually small. Perhaps the principal reason for this is the very great prosperity of the people during the year.

Class-room Work.—There has been a very great improvement in the school work this last year; most of the children have obtained a good grasp of the English language.

Farm and Garden.—The boys have helped with the care of the stock. We have also had a good garden in which they worked at various seasons.

Industries Taught.—No industries are taught: the boys, as stated, working in the garden and on the farm, while the girls do the housework.

Moral and Religious Training.—The school is opened with prayer every morning. In the evening, the Gospel is read and explained in both English and Cree.

4 GEORGE V., A. 1914

During morning prayers in school, the children receive instruction about the lives of Bible characters. During the same half hour, the younger children are taught in Cree the Lord's Prayer, the creed and the ten commandments.

Morality, kindness and sobriety are constantly being taught.

Health and Sanitation.—The health has been very good, there having been no disease; a few slight colds and other ailments there have been, but nothing serious. We had no serious accidents during the year. The buildings are lime-washed and are built on high land, so that there is a natural fall. The water used is drawn from the big lake, where no drainage runs in.

Recreation.—The children are given a recess during morning school of 15 minutes. They are provided with swings and teeters. Sometimes the boys play football. They also frequently bathe in the summer.

Ex-Pupils.—Most of the ex-pupils are living the same manner of life as their parents, hunting fur-bearing animals and moose. Their stay at the school has improved them, as they are cleaner and more intelligent than the others; they also speak English.

One girl has married a white man, a trader.

THE REPORT OF SISTER CATHERINE AURELIE, PRINCIPAL OF THE
ROMAN CATHOLIC BOARDING SCHOOL, LAKE WABASCA, ALTA.,
FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 50 pupils and the necessary staff.

Attendance.—As all the pupils are boarders, the attendance is very regular.

Class-room Work.—Very satisfactory work was done by the pupils in the classroom. Special attention is given to reading, writing, and also to English conversation, which the children use even during their recreation.

Industries Taught.—Stable work, sawing and chopping wood, are some of the occupations of the boys. The girls are instructed in domestic work, including cooking, baking, sewing, mending, knitting, darning and laundry work.

Moral and Religious Training.—Religious instruction is daily imparted by the missionaries and the teacher to the pupils. As a matter of fact this part of their training is attended to with the greatest of care.

Health and Sanitation.—The health of all the children has been excellent; there was no serious illness of any kind. The sanitary condition is good, ventilation being well regulated.

Recreation.—Boys and girls have large playgrounds where they enjoy all kinds of outside games the whole year round, such as football, bows and arrows for the boys; swinging, sliding and other various exercises for the girls. Games and vocal and instrumental music are some of the winter indoor amusements.

Ex-Pupils.—None of our pupils have left the school since March, 1912.

THE REPORT OF C. D. WHITE, PRINCIPAL OF THE WHITEFISH LAKE
(St. ANDREW'S MISSION) BOARDING SCHOOL, WHITEFISH LAKE,
GROUARD P.O., ALTA., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation at this school for 20 boarders (girls, 10; boys, 10) and 3 of a staff.

Attendance.—The attendance this year has not been as good as usual, muskrats being very plentiful, and a good price being realized for the fur, together with a very mild winter, has proved an obstacle to the well-being of the school. We have had 28

SESSIONAL PAPER No. 27

children on the register during the year, but the attendance during the winter has been from 14 to 18.

Class-room Work.—The subjects taught are reading, writing, arithmetic, geography, recitation, singing, composition, general knowledge, and religious instruction. School is held from 9.45 a.m. to noon, and from 1.30 p.m. to 3.30 p.m. We find that too close confinement is not good for children who have been living an out-of-door life.

Farm and Garden.—We always have a good garden and crop of potatoes. The land broken up for this purpose is about 3 acres. Our garden produces very good carrots, onions, peas, beans, radish and lettuce. A good crop of potatoes is a great help to our home. The boys help in all outside work. We attend well to our garden, as we like to encourage the Indians to have, and take care of, gardens for themselves. We also try to show them what the land can produce.

Industries Taught.—We do not teach any industries, but the boys are taught to plant and look after the garden, and do all outside work, such as attending to horses and cows.

Moral and Religious Training.—We seek to teach our children to be obedient, honest and straightforward. Much attention is paid to teach them to understand the Holy Scriptures and their duty towards God and man. The religious training is that of the Church of England.

Health and Sanitation.—The health of our pupils this year has been very good. We believe in giving them plenty of wholesome, well-cooked food, at stated times. Under this management they are healthy, and increase in weight after they have been in the home some time. We have had no epidemic in the school during the past year. Special attention is paid in keeping the rooms well ventilated. Every precaution is taken as to sanitary conditions; the inside of the home is whitewashed with lime each year. Every spring the land round the buildings is raked over, and all refuse burnt.

Recreation.—Between school hours, and afterwards, the pupils are given time for recreation. The boys, especially, enjoy football and tobogganing in winter; in summer, bows and arrows, running and jumping; the girls enjoy skipping, tobogganing and swinging.

Ex-Pupils.—Most of the ex-pupils have returned to their parents, and trap during the winter. Some have married. What they have learnt in the home has created a greater desire among them to have their own homes more comfortable. As this school has not been established many years, we cannot say a great deal under this head. One of our old boys was hired by the month, working the team hauling hay and wood for the mission and school.

Fire Protection.—Water is kept in barrels in the house, and ladders are conveniently placed on the buildings.

REPORT OF THE REV. SISTER McQUILLAN, PRINCIPAL OF THE FORT
RESOLUTION BOARDING SCHOOL, FORT RESOLUTION, N.W.T., FOR
THE YEAR ENDED MARCH 31, 1913.

Buildings.—The buildings are the same as mentioned in the last report, with the exception of a new wing, that has been added to the main building, 56 x 36 feet, 2 stories high. On the first floor are 2 class-rooms, and on the second floor is the boys' dormitory. A new frame building, 36 x 18 feet, 2 stories, has been built for our engineer. Our screw steamer has been made 12 feet longer, now measuring 92 x 16 feet. Also, a new steam launch, stern wheel, 40 x 10 feet, has been built within the past year.

Attendance.—Forty-one Indian children attended class regularly for the past year: 16 boys and 25 girls.

4 GEORGE V., A. 1914

Class-room Work.—The hours of study in the class-room are from 8.30 to 11 a.m. from 1 to 3 p.m. The subjects taught are: reading, writing, composition, arithmetic, geography, grammar, hygiene, history of Canada and vocal music. After the children have had two years of English, they take one hour each morning learning to read and compose in French. There are now 10 pupils studying French.

Industrial Work.—The older girls do all their own knitting and help to make the boys' clothes; the smaller girls do all their own mending and darning. Last year, the boys and girls had their gardens separately. We have a piece of ground broken up, so that we can teach them all how to grow vegetables and flowers. Thoroughness is required in every department.

Moral and Religious Training.—Religious instruction is imparted carefully by the chaplain and sisters. The reverend father in charge instructs the children with care and zeal in their own language each day, and we do our utmost to make them understand and practise what they are taught.

Health and Sanitation.—One little boy, 8 years old, is slightly infected with scrofula. The health of the pupils and staff has been splendid. We did not have one case of sickness all year. We attribute this to an abundance of good food, fresh air and plenty of outdoor exercise. The buildings are kept clean and thoroughly ventilated.

Water Supply.—A well in the cellar supplies us with excellent water.

Fire Protection.—Pails are conveniently placed throughout the building. Large stairs descend from the children's dormitories and recreation-rooms. The doors are hung to swing outwards, and a supply of ladders are kept near at hand.

Heating and Lighting.—The school is heated with 2 hot-air furnaces, oil lamps, mostly in hangers, furnish light throughout the building.

Recreation.—Our annual camping out was during the first week in August, when the boys and girls spent a most enjoyable time under the supervision of the reverend fathers and sisters. The weather was ideal and the location beautiful. They quite enjoyed themselves. They gathered 250 quarts of raspberries and 50 quarts of black currants, which they preserved for the winter. Each day the children are taken for long walks when the weather permits.

Farm and Garden.—Our vegetable garden yielded a very poor crop last year on account of the short cold summer we had. Last spring we sowed oats, wheat, barley and rye for the first time.

Stock.—We have 5 milch cows, 4 oxen and 2 young calves. Five yearlings were sent to our farm at Fort Smith, last autumn. We have also 20 dogs.

Staff.—Our staff consists of 10 sisters, 2 are employed as teachers, 2 matrons, one seamstress, one cook, one laundress, one nurse, one has charge of the refectories; and the principal, who oversees all the departments.

General Remarks.—We had several visitors during the year, amongst others, Mr. Agent Bell, Fort Smith. Mrs. Bell accompanied him. Unfortunately they could only spare an hour, as the Hudson Bay Company's steamer was going off. I was very sorry Mr. Bell did not see the children in class. He found all the boys and girls in the laundry and seemed pleased to see them at this kind of work. He and Mrs. Bell visited all the house, examined the girls' sewing and embroidery, and was pleased with their work.

Dr. McDonald spent two months at the Fort last autumn. He visited the class and was surprised to see the Indian children so well advanced in English. He made several of them compose letters and sent them out to his little boy in college to show the work of the Indian children. Several other white people visited the class, and examined the work and congratulated the pupils on the progress they were making in English.

Once a month the class is visited by our devoted bishop, Rt. Rev. G. Breynat, O.M.I., or one of the reverend fathers in charge, and a prize offered as a reward for application.

SESSIONAL PAPER No. 27

THE REPORT OF REV. A. J. VALE, PRINCIPAL OF THE HAY RIVER
(ST. PETER'S MISSION) BOARDING SCHOOL, HAY RIVER, GREAT
SLAVE LAKE, VIA EDMONTON, ALTA., FOR THE YEAR ENDED MARCH
31, 1913.

Accommodation.—The school and staff have accommodation for 40 pupils and a staff of 5 persons.

Attendance.—The pupils of our institution being boarders, the attendance is most regular.

Class-room Work.—The subjects taught include reading, writing, arithmetic, history, dictation, composition, hygiene, geography, grammar, vocal music and Holy Scripture. The last named is taught in the English, Slavi and Tukudh languages. Steady progress is being made by the majority of the pupils.

Farm and Garden.—All available land is planted with potatoes, other than a small garden patch. The yield of potatoes during the past year was 450 bushels. The season was dry.

Cabbages, cauliflowers, carrots, onions, parsnips, turnips, peas, lettuce and celery are grown in the garden. Flowers are also sown by staff and children. This work is done by the boys of the school under our supervision.

Hay is obtained from the natural grass found along the river banks and sloughs near by. The prevalence of the horse-tail or equisetum makes it increasingly difficult to obtain good hay in sufficient quantity.

We have 2 milch cows, 1 bull, 1 steer, 2 heifer calves and 1 horse. The bull and steer and the horse haul the firewood, while other winter hauling is done by the dogs. The results of the fall fishery are brought home, in tow, by our little steamer, the *Lilian B.*

Industries Taught.—The boys are taught fishing, ploughing, dog-driving, milking, the use of tools and building. The girls learn the various branches of housework, cooking, sewing, washing and moccasin-making for the entire school.

Moral and Religious Training.—This is most carefully attended to. The children are taught thoroughly their duty to God and man.

Health and Sanitation.—The pupils have all enjoyed excellent health during the year. No serious illness nor deaths have occurred. All possible precautions are taken to preserve the healthfulness of the school. The rooms are well ventilated; there are no cesspools near the house; all rubbish is removed and burnt to avoid infection.

Water is supplied from the river flowing by the school, but we shall endeavour to procure drinking water from Great Slave lake during the months of July and August, in accordance with an official request from the Indian agent in charge of this district.

Recreation.—The girls and boys have separate playgrounds, which are made use of to their fullest extent, for their outdoor games. Long walks are also taken in winter and summer.

Ex-Pupils.—Most of the ex-pupils have returned to their parents or guardians and live in the woods as hunters. Some have married men holding good positions. Two of the old boys are clerks in the Hudson Bay Company. Others work on the river steamers.

4 GEORGE V., A. 1914

THE REPORT OF SISTER McQUIRK, PRINCIPAL OF THE PROVIDENCE MISSION (SACRED HEART) BOARDING SCHOOL, FORT PROVIDENCE, N.W.T., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—Our staff consists of 2 reverend fathers, 6 lay brothers and 12 sisters. We have sufficient accommodation for 70 pupils.

Attendance.—All our scholars are boarders, and therefore attend regularly.

Class-room Work.—We teach all the branches required by the department, and consequently we enforce English conversation.

Farm and Garden.—We have 33 head of cattle, which supply milk and butter; also fresh meat occasionally. We have 22 poultry. There are 34 acres under cultivation. The farm crop was, last fall, as follows:—

Hay, 50 tons; barley, 95 bushels; potatoes, 1,500 bushels; turnips, 120 bushels. The garden yielded a good supply of cabbages, carrots, beets, onions, pease, lettuce and celery. Berries were scarce this year. Wheat, which the Experimental Farm in Ottawa sent us, ripened well, which is very unusual in this district, and, therefore, never sown. Undoubtedly we have had an excellent crop, considering previous years of complete failure.

Industries Taught.—The boys help the brothers to prepare the soil for sowing and planting the different crops, and harvesting the same. They also keep the premises orderly, saw and chop the wood required for fuel. The girls receive practice in cooking, baking, sewing, and in all household work.

Moral and Religious Training.—Religious instruction is attended to, and the children give very much satisfaction to their teachers.

Health and Sanitation.—The children's apartments are thoroughly ventilated; their rooms are large and airy. The general state of health has improved during the last few years; but still, we had to deplore the death of 9 of our younger pupils, this winter, by a malignant attack of influenza, which nothing could check. Their constitutions are so weak that we keep continually dosing them with iron and cod liver oil to keep them in a normal state.

Recreation.—Both winter and summer our pupils obtain sufficient outdoor exercise. In summer, their chief amusement is picking berries, which they greatly relish throughout the year with their fish.

General Remarks.—In August, we had a very pleasant visit from Dr. McDonald, and Inspector Conroy. They went through the children's apartments, and found the pupils to be all in perfect health. Happiness was depicted on every countenance, at seeing those two distinguished gentlemen. We were also delighted to receive a visit from C. D. LaNauze, Corp. R.N.W.M. Police.

I desire to thank the department for complying so readily with our requirements during the past year.

THE REPORT OF REV. A. URLINGS, S.M.M., PRINCIPAL OF THE KUPER ISLAND INDUSTRIAL SCHOOL, KUPER ISLAND, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—The only new buildings put up during the year are a wagon shed, 25 x 20 feet, and a covered shed, 37 x 15 feet on the girls' playground, to give shelter in rainy weather.

Accommodation.—Our buildings can accommodate 75 pupils and the necessary staff.

Attendance.—The average attendance during the year was 56.

Class-room Work.—The programme of the department is followed as closely as possible. Progress during the year was very satisfactory. The pupils are graded up to standard V.

SESSIONAL PAPER No. 27

Farm and Garden.—The farm is managed so as to supply the institution with vegetables, milk and butter. Two acres are laid out as a garden.

Industries Taught.—Farming is the main industry taught the boys. Most of the Indians sending their children to our school own good farming land, and it is their wish that the boys should be shown how to work the land according to the best methods. Some of the boys are also taught carpentry, shoemaking and baking. The laundry work is done, once a week, by the senior boys and girls. The girls are taught all kinds of housework, hand and machine-sewing, dressmaking, crotchet and fancy needlework.

Moral and Religious Training.—This is considered as the main object of all our efforts. Religious instruction is daily imparted. All the pupils attend mass every morning and prayers are said in common.

Health and Sanitation.—The general health of the children has been very good. From a sanitary point of view our present buildings are very deficient. By looking well after ventilation and keeping the rooms very clean, we try to obviate as much as possible these defects, inherent to the buildings.

Recreation.—Whenever the weather permits, outdoor games are indulged in. On rainy days indoor games are provided.

Ex-Pupils.—Generally speaking, our ex-pupils are putting to profit the lessons received.

General Remarks.—Before closing this report, I wish to express my thanks for the great kindness shown me, during this my first year as principal, by all the officers of the department, especially the inspector of Indian agencies, the Indian agent and the school inspector.

THE REPORT OF R. H. CAIRNS, PRINCIPAL OF THE COQUALEETZA INDUSTRIAL SCHOOL, SARDIS, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—The main building will accommodate 90 pupils, and a staff of 10 teachers.

Attendance.—There have been in the school during the year 102 pupils. Of these, 77 are now in school, 11 were discharged, 13 are away on holiday, and 1 died.

Class-room Work.—The hours of study in the school-room are from 9 to 12 a.m., and from 1 to 4 p.m. Sophia, who passed the entrance examination to a high school in the year 1911, took her first year's high school work from our senior teacher. She went to the examination in July, 1912, and made a creditable pass. Since last July she has been in attendance at the high school in Chilliwack, where she stands third in a class of 13. She is anxious to take a university course. Our teachers are doing good, faithful work. All pupils who stay with us any fair length of time, get a good public school education. At the close of the year the pupils were graded as follows:—

	Pupils.
Standard I	24
“ II	10
“ III	16
“ IV	9
“ V	10
“ VI	8
	<hr/>
Total	77

Farm and Garden.—The crops last year were very good. The following were produced: 5 tons of oats, 60 tons of turnips, 8 tons of field carrots, 5 tons of mangolds,

4 GEORGE V., A. 1914

1 ton of wheat, 40 tons of potatoes, and 90 tons of hay. In the garden there were large quantities of parsnips, beets, cabbage, celery, carrots, rhubarb, squashes, pumpkins, cucumbers, radishes, onions, and a very large crop of raspberries. The strawberries also yielded well. The apple crop was good. Our pupils have had apples in abundance from August till the present time. The live stock consists of 12 cows, 7 yearling heifers, 4 heifer calves, 1 bull, 5 horses, 2 brood sows, and 65 hens.

Industries Taught.—The boys are instructed in all branches of farming, including milking and the feeding of stock. Some of them become efficient as teamsters. Over 300 cords of wood are required for use this year. The boys draw this home. For training the hand and developing the power of initiative, and for building up a strong physique, the farm is one of the very best institutions in existence. The boys do all our repairs. They have a natural aptness for the use of carpenter's tools. During the year we have added a cobbler's outfit to our equipment. Three of the boys are doing all our shoe-mending. The boys do the most of the bread-baking. There is more than a ton of flour each month turned into bread. A number of the boys work in the garden, and some of them learn to cook. The girls are taught all kinds of housework under the supervision of competent teachers. Some of the girls become efficient dress-makers. The object of all our work is to prepare these Indian youths for the responsibilities of life. The ability to do things is the measure of all true knowledge.

Moral and Religious Training.—It is easier to develop the mental faculties of Indian pupils than it is to develop the moral and spiritual faculties. The ability to make nice distinctions in moral issues is not attained in a day. Therefore, the importance of this subject is kept prominently to the front. The Scriptures are studied in the Sunday school each Sabbath day. A short prayer service is conducted twice each day. The attempt to give our school the atmosphere of a well-conducted home is our object. So by prayer and praise, and by example and precept, the development of the Christian life is carried on.

Health and Sanitation.—This has been a very trying time in the school. There has been an epidemic of grippe among the pupils, which reduced the vitality of many of them. One boy was sent home, a few weeks ago, threatened with tuberculosis. The boys were away skating, and drank from a stagnant pool, and developed typhoid fever—three cases. One of these succumbed to the disease, dying February 27. We had also a case of pneumonia. While there was only one death, the strain and the expense has been very great. All the pupils in school, now, are well, and with the return of spring we hope that all will continue to enjoy good health. All drains are systematically and regularly flushed. Crude carbolic is used each week to disinfect the drains. An attempt is made to keep everything around, and inside, the building clean and sanitary.

Recreation.—The pupils have regular play hours each day. They are encouraged to play. Members of the staff often play with the pupils. The boys play football and baseball. The girls play suitable games. Each Saturday afternoon they go for a walk under the supervision of a teacher. This generally proves to be a time of pleasure, gathering flowers, ferns and mosses.

General Remarks.—Many of the staff that had spent long years in our work, left us during the year. One that had been in Coqualeetza nearly 16 years has now gone home to care for an aged mother. Another has gone to India to engage in Christian work. However, we have been fortunate in filling the places rendered vacant, with faithful and efficient workers. The work goes on. Many of the ex-pupils are making good. A letter came to hand to-day from one of the boys in which he says he is getting \$85 a month, and his board, cooking for a gang of surveyors on Vancouver Island. This is a sample of letters that come to the office from time to time. There is no place for discouragement in this work. The work is difficult, but results are apparent. Gradually, the Indian is being lifted to a higher plane. Christian education is the means that is accomplishing this. Pressure should be brought to bear on the Indians so that every healthy child will be in some school.

SESSIONAL PAPER No. 27

THE REPORT OF REV. ALPH. M. CARION, PRINCIPAL OF THE KAM-
LOOPS INDUSTRIAL SCHOOL, KAMLOOPS, B.C., FOR THE YEAR
ENDED MARCH 31, 1913.

Buildings.—Long-needed improvements and repairs have been made during the year. A new building has been erected for sanitary purposes between the main building and the girls' home. It is 16 x 15 feet, two stories high with an attic, and has double walls and double roof. In the first story, there are two bath tubs, two low down closets and two lavatories for the use of the staff. The second story connects the two girls' dormitories, contains two low down closets and affords a very convenient lavatory for the girls. A wooden tank, lined with galvanized iron of a capacity of one thousand gallons, has been installed in the attic. A box stove in the lower story heats the whole building by means of a floor register. One 30 gallon boiler connected with the stove supplies hot water to the bath tubs and lavatories. A ventilator through the roof allows the foul air to escape from the rooms. The sewage empties into a deep, earth-covered cesspool, distant about one hundred feet from the building. Four new bath tubs, lined with galvanized iron, have been installed in the old laundry for the use of the pupils; three sinks have been placed in or near the kitchen and one lavatory in the girls' recreation-room; all are connected with the main sewerage. The experience of last winter has proved the success of the system; although the winter has been a record for long continued cold weather, the water did not freeze either in the tank or in the pipes. The new laundry, being situated quite a distance from the main building, it was found cheaper to dig another cesspool to receive its sewage.

The old closets of the boys have been removed and a new building has been erected for the purpose. The vault, 12 x 5 and 5 deep, is built of brick plastered with cement; the bottom is sloping towards the rear and the top has a tight door for cleaning out. There are four privies and five urinals; a deep cess-pool has been dug in connection with the urinals.

Ne floors have been laid in the big girls' dormitory, in the girls' recreation-room and dining-room, in the boys' dining-room, recreation-room, lavatory and part of dormitory.

Accommodation.—This school could accommodate 68 pupils and the necessary staff, excepting the chapel, which is overcrowded.

Attendance.—During the past year, 66 pupils—34 boys and 32 girls—have been in attendance. After the summer holidays, 14 pupils were discharged and 17 were admitted. There are now in school only 64 pupils; one girl having died at home and one boy being away to recuperate after a serious illness.

Class-room Work.—The school hours for all the boys were in the morning from 8.45 till 12 o'clock, every week day, except Saturday; and in the afternoon from 4.45 to 6.15. Besides, the boys of the lower grades attended school from 1.30 to 2.30. The school hours for the girls were from 2 to 5 in the afternoon, with half an hour's study in the evening. The course of studies prescribed by the department was followed as nearly as possible. Special attention was given to the subject of hygiene; the deep breathing movements and calisthenic exercises were practised by the boys, except in very cold weather. The boys have made very good progress, and the progress of the girls has been on the whole satisfactory.

At the end of the fiscal year, the pupils were graded as follows:—

	Pupils.
Standard I	20
“ II	20
“ III	13
“ IV	8
“ VI	4
Total	65

Farm and Garden.—In farming operations this institution is handicapped by lack of cultivable ground and still more by lack of water for irrigation. The school land originally consisted of 320 acres. A public road, built a few years ago, reduced the area to about 200 acres, and this is going to be reduced still more by the building of a branch line of the Canadian Northern Pacific railway from Kamloops to Vernon. This line runs through the whole length of the school reserve, one mile and a half, and the best part of our alfalfa-field is taken by the company for its right-of-way.

Most of the land is poor, sandy and gravelly. There are a few acres of good bottom-land; but, as the water for irrigation has to be pumped from the river by means of gasolene engines, farming and gardening operations are rather expensive.

The crops of last year were very good. The garden produced 25 tons of potatoes, 2 tons of carrots, 4 tons of mangolds; besides beans, peas, corn, rhubarb and tomatoes in sufficient quantities for the use of the institution. Cabbages and onions were a failure. Currants, gooseberry and raspberry bushes gave an abundant crop as usual and the few apple-trees left in the orchard were loaded with fruit. The alfalfa was cut three times and the crops were better than usual, owing to copious rains in the summer. There is a stack of hay left over for next winter. The live stock consists of 4 horses, one bull, 4 cows, 3 heifers, 2 calves and about 50 fowls. All the boys are daily employed, for two of three hours, at some kind of manual work; they are taught farming and gardening and the care of stock, but owing to the circumstances of the place, it must be said that farm work is very limited.

Industries Taught.—*Carpentering*.—Fourteen boys were employed at this trade whenever there was any work to be done. They built the addition for sanitary purposes, the new closets for the boys, laid new floors in the several rooms above-mentioned, made new presses and cupboards for the kitchen, besides attending to all necessary repairs about the buildings.

Painting.—Two boys painted the outside walls of the new building, and the roof and walls of the boys' school-room.

Shoe-repairing.—Three boys repaired all the shoes of the pupils, and also harness and saddle.

Baking.—The boys were employed, in turn, in doing the heavier part of the work and the girls did the rest. They bake a barrel of flour every five days, and the home-made bread is better and more economical than the bread made by professional bakers.

Girls' Work.—The girls did the cooking and washing, and were taught all the branches of housekeeping. Besides the help they gave in the general baking, a few girls were made to go through the whole process of making bread on a small scale in the kitchen stove oven. They were taught also hand and machine sewing, knitting, mending and darning. They made all their dresses and other articles of clothing.

Moral and Religious Training.—Every possible attention is paid to this most important branch of education. Instruction in the Christian doctrine is given by the principal almost daily for half an hour. Morning and evening prayers are said in common, all the pupils taking their turn in leading. On Sunday the pupils assemble three times in the chapel and half an hour is devoted to the study of the Gospel.

SESSIONAL PAPER No. 27

Bible history is taught during the week. By means of constant supervision and due correction of faults committed, it is sought to inculcate in the pupils the necessity and advantages of fulfilling all their duties toward God, their neighbour and themselves.

Health and Sanitation.—Although on the whole the health of the pupils has been fairly good, we have had several cases of pneumonia, glandular swelling, diarrhoea, ulcerated legs and influenza; all the cases were treated successfully either at the school or in the Kamloops hospital. The only fatal case was that of a girl who showed signs of weakness in the beginning of December; she was sent to the hospital, but as there was no improvement in her condition, her mother asked to take her home where she died in February. In the middle of April last, one case of diphtheria developed amongst the girls; the medical officer was called at once and inoculated the girl with a full dose of anti-toxin; as a prevention, he gave a diminutive dose to all the girls and the sister sleeping in the same dormitory, which was quarantined for a few days. No other case developed. Dr. A. E. H. Bennett, the newly appointed medical officer, deserves our thanks for his promptitude and great kindness in attending our sick pupils.

The sanitary condition of the school, as described elsewhere in this report, is very good at present; and, it is sincerely hoped, will contribute to a better state of health amongst the pupils. Garbage and refuse matter are not allowed to remain on the premises, but are removed at once to a pit at some distance from the buildings. Chloride of lime and lye are used as disinfectants. Ventilation is attended to by means of windows. The necessity of pure air is often inculcated in the minds of the pupils.

Recreation.—The pupils are allowed each day ample time for recreation. On Sundays and holidays, they usually take a long walk through the country. They indulge in the ordinary amusements suitable to their age and sex, such as baseball, jumping, running, coasting, skating and swimming. They are all fond of outside exercises, which the dry climate of Kamloops affords them nearly the whole year.

Ex-Pupils.—The ex-pupils, as a rule, are doing as well as can be expected in the circumstances. Some of them are exposed to great temptations of intemperance, owing to the bad example given by their own fathers and relatives, and they do not always resist them successfully. Some reside on the reserves and are a great help to their parents in the cultivation of their farms. Others are working more or less steadily on railroads, saw-mills and logging-camps, and farms, where they give general satisfaction. Some spend the winter in cutting cord-wood, which they sell in the spring at a good price. Most of the female ex-pupils remain with their parents till they get married; a few are employed by their white neighbours, and their services are very much sought after. Three marriages have taken place between ex-pupils since the last report.

THE REPORT OF REV. SISTER JUSTINIAN, PRINCIPAL OF THE KOOTENAY INDUSTRIAL SCHOOL, ST. EUGENE MISSION, KOOTENAY AGENCY, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—The new building was completed and occupied in January. It contains large rooms, well ventilated and properly lighted. During the coldest weather it has proved to be a most comfortable dwelling.

There is ample accommodation for the 90 pupils here at present, and a staff of 12 members.

Attendance.—There has been a regular attendance of 75 pupils up to January. Since we have moved into the new building, the number has increased to 90.

4 GEORGE V., A. 1914

Class-room Work.—Amongst the subjects taught in our school are reading, spelling, grammar, geography, hygiene, catechism, arithmetic, calisthenics, writing, drawing, vocal and instrumental music. In the above branches, good and steady progress have been made; but in arithmetic and letter-writing a marked improvement has been more apparent.

Farm and Garden.—Our yield of hay and grain was good, but roots and vegetables were a failure this year, on account of the dry summer. However, the farm is in a good condition.

Industries Taught.—The staff's aim is to give the boys a thorough knowledge of farming, gardening, the care of cattle and carpentry, as these seem to be more conducive to their future welfare. To accomplish this, the most modern farm implements have been purchased and the boys are taught how to use them properly. The foreman is a competent carpenter and plumber, and under his supervision, the boys are able to make all necessary repairs about the place; they have been taking down some parts of the old buildings, and used the lumber to build a modern poultry-house.

The girls attain great proficiency in all branches of housekeeping: in cooking, baking, laundrying, dairying, hand and machine sewing and dressmaking. In cooking and dressmaking they are particularly successful.

Moral and Religious Training.—Much care is taken in trying to imbue the minds of the pupils with good principles, and our efforts generally meet with success; for it is only on very rare occasions that punishment of any kind has to be resorted to, religious persuasion being mostly sufficient to obtain the desired effect.

Health and Sanitation.—The general health of the pupils has been good this year, up to the time that typhoid fever visited us. All are well now, with the exception of one girl, who is lingering, and most probably will not recover.

The sanitary arrangements in our new building are very good.

Recreation.—Ample opportunity is given for recreation for boys and girls; we have plenty of outdoor space and the pupils enjoy playing football, baseball and many other games.

Our skating rink has been, during the winter, a source of interest, all benefiting thereby in getting plenty of exercise and fresh air.

Ex-Pupils.—Nearly all the ex-pupils are living on their respective reserves. Many of them are married and becoming very comfortable; but the most progressive pupils are those who marry school girls and farm independently. In this way they retain the civilized training acquired in the school.

I wish here to express my appreciation for what the department has done for our school, also to extend my sincere thanks to the different officials for their kind consideration during the year.

THE REPORT OF REV. LEONARD DAWSON, (B.A., Cambridge), PRINCIPAL
OF THE LYTTON (ST. GEORGE'S) CHURCH OF ENGLAND INDUS-
TRIAL SCHOOL FOR BOYS, LYTTON, B.C., FOR THE YEAR ENDED
MARCH 31, 1913.

Buildings.—The buildings have been kept in good repair. During the past year the following additions have been made:—

(1) A dairy has been built of logs by the carpenter instructor, with the help of the boys, of sufficiently simple character to be a model for the Indians around and on sanitary principles to preserve milk and cream from taint. Hot and cold water are laid on; the hot water being supplied from the laundry, which is close by. Size of

SESSIONAL PAPER No. 27

dairy: length, 17 feet, 4 inches, width, 13 feet, 4 inches, height 8 feet, with a sloped, cement floor, marble table top and glazed sink.

(2) A potato storehouse has been erected large enough to store 60 tons of potatoes, safe from frost. Size: width 34 feet, length 40 feet, height 6 feet.

(3) A room was built for the accommodation of the farm instructor, near his work, which adds to his usefulness.

(4) The house used by the gardener instructor has had a room added, to accommodate his family. Size: 12 x 10 feet.

Accommodation.—Accommodation is provided for 50 boys and an outdoor and indoor staff of 11.

Attendance.—There are now 36 boys on the roll, one of whom is in Lytton hospital. Last year, at this time, there were 22 pupils enrolled. We should be glad to have the school filled, and there are plenty of boys among the Thompson River Indians who could and should come, but owing to the slackness of the parents many of the children are sadly neglected.

Class-room Work.—Good progress has been made under the schoolmaster, Mr. G. Scarrett, who began work on August 1, last, especially with some of the new boys who entered after the summer holidays of 1912. Boys of 13 to 15 years who come for the first time to school at that age are naturally slower in grasping their work.

The teaching plant lately supplied by the department such as desks, maps, models, &c., has been a great help.

Farm and Garden.—We had a good crop of potatoes, some 75 tons; but, owing to the fall in price, we have not been able to realize much profit. Tomatoes we shall not grow to any extent, Vancouver merchants' market and treatment do not allow any profit for the grower. We shall try vegetables this year and hope to do better, not only for our own sakes, but also because it is so important to encourage the Indians by showing what can be grown at a profit.

From our own supplies we have been able to have 2 vegetables for the boys every day since last summer.

We have done well with our daily sale of milk in Lytton—4 or 5 gallons—and could easily sell more if we could spare it from what we need in the school.

Industries Taught.—Besides farming in all its branches, grain, cattle, horses, hay and fruit, we also teach carpentry, blacksmithing and boot-mending.

Besides, the boys mend and make their own clothes, and thus learn habits of cleanliness and tidiness.

Moral and Religious Training.—This I make my special concern, and am glad to report an improved moral tone among the boys. There is much in the conduct and attitude of the whites and Indians near us which is apt to drag down the boys.

The Bishop of New Westminster kindly came, specially, last December and confirmed 6 of our boys in the school chapel.

Health and Sanitation.—The health of the boys has been much better than it has been for years. We appreciate the help of the department in supplying us with a medical officer, in Dr. Baines, who visits the school about every month, and when needed. A few boys have whooping-cough. We have taken every precaution, and only 5 out of 36 have so far taken it. Any infectious case would be sent to the Indian hospital in Lytton.

Mrs. Dawson has acted as nurse to the boys. The daily attention to sores, &c., has undoubtedly kept them in much better health.

The sanitation is good. We have a good water-supply and, as far as possible, have the open-air treatment.

To these facts, with the liberal diet, I attribute the great improvement in health.

Recreation.—We have games for the boys, and sometimes I give them a lantern lecture on some country and subjects which may interest them.

4 GEORGE V., A. 1914

Under the superintendence of the schoolmaster, who acts as game-master, the boys play football, cricket, rounders, and also learn to swim.

Twice lately, when two men's football teams were short-handed, they gladly utilized the services of our boys to make up the number, and the boys did credit to themselves and the school.

Ex-Pupils.—No boys have left the school during the past year. One will leave this summer, and I hope to employ him as extra farm-hand, and so continue his education and training. Some ex-pupils are working at the building of the new rail-ways in this neighbourhood. But for their permanent moral and material good, they need suitable land, with water, to start farms and farm instructors to guide them in their work.

I shall try to place any boys we have here with God-fearing and practical white farmers, and try to keep in touch with them.

General Remarks.—I feel encouraged by the steady progress of most of the boys in the school, on the farm, and in general character—that is, when we consider their undisciplined homes and the bad examples of so many, both Indians and whites, around them.

THE REPORT OF THE REV. A. W. CORKER, PRINCIPAL OF THE ALERT BAY INDUSTRIAL SCHOOL, ALERT BAY, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 33 pupils and 3 officers.

Attendance.—The average attendance was 35.

Class-room Work.—The work done in the class-room has been excellent. Very good progress has been made in English, geography, grammar, arithmetic, history, and particularly in hygiene. The principal has taught all the year, ably assisted by Mr. George Luther, an ex-pupil of this school. The programme of studies authorized by the department is followed.

The pupils were graded as follows:—

	Pupils.
Standard I.	5
“ II.	9
“ III.	3
“ IV.	7
“ V.	7
“ VI.	4

Farm and Garden.—The flower garden was tended by the matron and the smaller boys. Most of the boys have a patch of ground of their own. Some seeds are given them and prizes are awarded for the best. The boys grew some very good vegetables.

The vegetable garden yielded a good supply of fresh vegetables and small fruit. Cabbages have been cut all through the year. The strawberries and raspberries were very fine and plentiful. The potato crop was good.

The land between this institution and the girls' home has been cleared and now requires to be levelled, fenced and sown, and about half an acre at the back of the school has been cleared during the year. The boys have also cut a trail through the island, from the back of the school to the other side of the island, where there is a point of land covered with grass suitable for pasture.

SESSIONAL PAPER No. 27

Industries Taught.—All the smaller boys received definite and systematic teaching in the general housework of the institution. The older boys had regular instruction in the carpenter's shop, under Mr. Eli Hunt, and they have made good progress. The pupils have done all the washing, under the direction of Miss Warrenner, who is indefatigable in this branch of the work.

Moral and Religious Training.—To this we give strict attention. Morning and evening prayers are said daily. A Bible lesson is given daily to each class, and a prayer meeting held every Saturday. The pupils attend Sunday services in the village church, both morning and evening, and Sunday school is held in the institution.

The pupils are continually taught the advantages and necessity of purity of mind and body.

Health and Sanitation.—The general health of the pupils has been very good, except a few mild cases of grippe. The sanitary arrangements are good. The terra cotta drain, put in last year, and the traps, are kept in good working order. Cleanliness is enforced and disinfectants used freely. Ventilation is carefully attended to.

Dr. MacBurney, of the Columbia Coast Mission, the attending physician, keeps a watchful eye over the boys.

Recreation.—The pupils are encouraged to play all healthful outdoor games: football, baseball, tennis, running, jumping and drilling. The indoor games are: draughts, parlour croquet, chess and other educational games.

Ex-Pupils.—Very friendly relations exist between the ex-pupils and the school, many of whom live in the vicinity. One ex-pupil came one night each week, all the winter, and helped to entertain the boys, frequently bringing them candy and fruit. Considering the surroundings in which these ex-pupils are placed, they are fairly well conducted and would be industrious, but for the power of the potlatch. Some are working in the saw-mill and others in logging camps. Many run gasolene launches.

General Remarks.—The Rev. A. E. Green, inspector of Indian schools, paid two visits to the institution during the year. He was satisfied with the progress made. Mr. Ditchburn, the inspector of Indian agencies, visited the school, and was pleased with the healthy appearance of the boys. Mr. W. Halliday, our agent, has paid several visits to the school. I express my thanks to these gentlemen for their commendable interest taken in the school generally. I also thank Dr. MacBurney for his promptness in attending our sick pupils.

I should like to add that I have had a great many applications for admission which I am unable to entertain.

THE REPORT OF REV. FROBEN EPPER, PRINCIPAL OF THE CLAYO-
QUOT INDUSTRIAL SCHOOL, KAKAWIS P. O., WEST COAST, B.C.,
FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—This school has comfortable accommodation for 60 pupils and a staff of 10 members.

Attendance.—The average attendance during the year was 31 boys and 23 girls; 8 were discharged and 4 admitted. The present enrolment is 50 pupils, 29 boys and 21 girls.

Class-room Work.—All the pupils are in school from 8 to 9.45 a.m. The seniors have their classes from 10 a.m. till noon, while the juniors are at work. These are in school from 1.30 to 4 p.m. The subjects taught are those prescribed by the department. The progress of the pupils and their interest in class work has been very satisfactory.

4 GEORGE V., A. 1914

Classification.—On March 31, of this year, the pupils were graded as follows:—

	Pupils.
Standard I.	7
“ II.	2
“ III.	16
“ IV.	21
“ V.	2
“ VI.	2
	—
Total.	50

Buildings.—All buildings, with the exception of the cow-stable, are in good condition. The rooms and walls in the girls' wing of the school building received their finishing coat of paint. A new woodshed, 48 x 20 feet, was erected to provide for dry firewood for winter use. The pipes bringing the water from the near mountain side to the school, which were heretofore on the surface of the ground, were laid under ground for about 2,500 feet and the balance, about 600 feet, were covered with earth. It is hoped that all danger to our water-supply in cold weather has thus been permanently removed. It was hard labour to dig the ditches through our dense forest and required nearly six weeks' time, but the boys did the work with good will and deserve creditable mention.

Farm and Garden.—We have no farm-land. A garden of about two and a half acres is under cultivation. Some land was added to this last summer, but the soil will require several years' cultivation and manuring to yield satisfactorily. The land previously under cultivation brought about two tons of potatoes and good yields of other vegetables. The boys did the garden work.

Industries Taught.—Carpentry.—Six boys received instruction in this trade. They built the new woodshed, a new house for visiting Indians, made and installed a water tank-car to haul freight from the beach by gravitation. They also made two new canoes, several pairs of oars, fences, gates, a wardrobe for the girls' sewing-room; they put new roofs on three poultry-houses. Their help was also required for the relaying of the waterpipes and for clearing a site for a new cow-stable to be erected during this coming summer. The ordinary repair work and minor improvements were also attended to.

Painting.—Most of the rooms and all the halls in the girls' wing of the school building received a coat of paint, as already stated. The work was done by three boys. They also painted a new fence.

Shoemaking.—Three boys again did all the half-soling and other repair work for the school.

Plumbing.—The relaying of the waterpipe line called for considerable alterations and refitting. This work was done by boys.

Dairying.—Butter was made regularly. The churning was done by boys or girls. Four cows were milked. Three boys took care of the cattle.

Girls' Industrial Work.—Under the direction of a sister, the girls learn cooking, laundry work, and the care of poultry. They also receive thorough instruction in mending, knitting, hand and machine sewing, cutting and dressmaking and fancy needle-work. They make their own garments and most of the boys' clothing. When leaving this school a girl is well able to take care of a home.

Moral and Religious Training.—The religion of the school is Roman Catholic. The children receive daily instruction in their religion, Saturdays excepted. On Sundays and holy days of obligation they attend divine service. Frequent reception of the Sacrament is encouraged.

SESSIONAL PAPER No. 27

Health and Sanitation.—I sincerely regret to report the loss by death of three of our children during the past year, one through tuberculous glands and two through consumption. These children had been sent to their homes, hoping that the change from the routine life of the school would benefit them. We were, however, sadly disappointed in our hopes. Quite a number of cases of grippe occurred during January and February. Fortunately they proved to be of a light nature. The patients recovered as a rule in three to four days. The drainage system leads to a creek and has been in good order during the entire year. The water-supply is abundant and of the very best.

Recreation.—Baseball, football, racing, vaulting, jumping and other forms of sport occupy the boys during their spare time. The girls play various games suited to them. The punching-bag, checkers, chess, domino and other indoor games are played in rainy weather.

Ex-Pupils.—Most of these are a credit to the school. The men worked in saw-mills, in whaling stations and canneries, or were engaged in fishing on the Fraser river. Most of the girls are married.

THE REPORT OF REV. H. BOENING, O.M.I., PRINCIPAL OF THE WILLIAMS LAKE INDUSTRIAL SCHOOL, WILLIAMS LAKE P. O., B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—The school can easily accommodate 90 pupils with the necessary staff.

Attendance.—There are now 64 children in attendance, of whom 37 are girls and 27 boys.

Class-room Work.—I am pleased to state that this year also, the very satisfactory progress of the past years has been upheld in both the boys' and girls' department. The school hours for the boys are from 8.15 to 10 a.m. and from 4 to 5.15 p.m., except Saturday. The girls' school hours commence at 10.30 a.m. and continue till noon every week day except Monday forenoon, which is devoted to laundry work. They resume their studies again from 4 to 5.30 p.m. The subjects taught are those prescribed by the department. The pupils are at present graded as follows:—

	Pupils.
Standard I	7
“ II	16
“ IV	10
“ V	10
“ VI	21
	64

Farm and Garden.—Last summer was a very wet season and so the hay crop was a very poor one. The other crops did fairly well. In the garden we raised a good supply of all kinds of vegetables, such as beets, cabbage, cauliflower, carrots, onions, lettuce, pease and leeks. Currants, both red and black, did very well as usual.

Industries Taught.—Farming being in this part of British Columbia the best and most lucrative occupation for our Indians, we try to give our boys a thorough and practical knowledge of it. All the work in our garden of about 6 acres, except ploughing, was done by the senior boys and, at times, even the smaller ones were employed there. During winter they saw and split the fire-wood, which is no small item.

4 GEORGE V., A. 1914

Carpentry.—Two competent carpenters were employed all last year. They made a great improvement to two of the four principal buildings by covering them with 3V crimped galvanized iron. For want of more material they had to suspend this work in the fall. Other work, however, claimed their attention in and outside the various buildings. Under their direction the two apprentices made steady progress. They laid new floors in the girls' dormitory and the boys' play-room and did some minor work in a very neat and satisfactory manner.

Shoemaking.—One of the senior boys attends to the half soling and mending of shoes for boys and girls. There is no regular instructor in this shop.

Dairying.—In summer, two boys attend to the separator, twice every day, at noon and in the evening. They also do the churning, while the girls attend to the finishing of the butter.

Girls' Industrial Work.—The girls' attain good proficiency in all branches of housekeeping; in knitting, mending, hand and machine sewing, dressmaking, crocheting, embroidery and lace-making. With the exception of winter underwear, they make all their own clothing and the greater part of the boys' suits. Under the direction of a sister they in turn, attend to the laundrying, cooking, baking, butter and cheese-making. The aim ever kept in our mind is to prepare each girl to become a competent and practical housekeeper. How well the good sisters succeed is shown by the many inquiries from white people for girls to help in the housework and by the Indians being very anxious to send their girls to school so that they may learn cooking, knitting and mending, as is shown also by the great number of girls at school, 37 against only 27 boys.

Moral and Religious Training.—This, being the most important part of education, particular care is taken by all members of the staff in training the children to be obedient, truthful, honest, kind and obliging. Religious instruction is given at regular times, morning and evening prayers are said in common, and on Sundays and holidays the children attend high mass in the parish church where they do all the singing, to the surprise of Protestants and Catholics alike, in two and three, often in even four parts.

Under this heading I am glad to report, to the children's credit, that very, very seldom, punishment of any kind is resorted to, religious persuasion being mostly sufficient to obtain the desired effect.

Health and Sanitation.—The health of the children, this year, has been exceedingly good. No serious case of any kind and very few colds in a mild form. Last October, however, we lost one of the brightest girls through consumption.

Water Supply.—As mentioned in last year's report, we intended to go to great expense in order to improve the, so necessary, water-supply. I am glad now to report that this has been done. Over 6,000 feet of 2 and 3-inch wooden pipes were laid last spring, and we can say now that we have first-class water-works.

Fire Protection.—This also is continually being improved. A few years ago we made a change in the heating system from numberless small box-stoves to a couple of furnaces. Then the change in the water-works last spring also gave us a greater supply of water for fire-fighting purposes. We further, as above stated, began last spring to cover all the principal buildings with 3V crimped galvanized iron, and we are to receive in a few days six Pyrene fire-extinguishers. Besides these, fire-axes and fire-pails are kept in convenient places, so they are ready in case of emergency. Fire-drill also is held occasionally, especially during the winter months.

Heating and Lighting.—The former is in both departments by means of hot-air furnaces and the latter by acetylene gas.

Recreation.—Boys and girls have large and well-kept playgrounds, where they enjoy all kinds of outside games nearly the whole year. The girls have also one part of their playgrounds fenced off where each one has her little flower garden. They

SESSIONAL PAPER No. 27

take great delight and even pride in its care and so what might be only a pastime becomes at the same time a very practical means of education.

Ex-pupils.—Our ex-pupils are nearly all settled on the reserves. They continue, on the whole, to be a credit to the school. Quite a number of them are in epistolary correspondence with their former teachers, whom they like to meet whenever possible.

General Remarks.—Every year shows more and more the good work of the school. The children become attached to their school and seem to even dread the time of their discharge. I take this opportunity to tender my sincerest thanks to the members of my staff, to the devoted sisters especially, whose untiring zeal and constant care have largely contributed to the success that has crowned the work of the school.

THE REPORT OF REV. SISTER THERESINE, PRINCIPAL OF THE SEHELDT BOARDING SCHOOL, NEW WESTMINSTER AGENCY, SEHELDT, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There would be ample accommodation for 50 pupils if the boys' dormitory and the sewing-room were enlarged.

Attendance.—The attendance has been very regular.

Class-room Work.—The interest in the class-room work is kept active by quarterly examinations and the giving of good marks for proficiency in work and in conduct. The pupils have made marked progress during the past year. They are, at present, graded as follows:—

	Pupils.
Standard I	12
“ II	10
“ III	9
“ IV	2
“ V	5
“ VI	6
Total	44

Farm and Garden.—The garden work is entirely done by the children and the staff. We have now 4 acres under cultivation and we raise all kinds of vegetables.

Industries Taught.—The boys are taught gardening, carpentry, shoe-repairing, wood-carving, netting, &c. They do the milking and all the general work required on the premises. In February, they dug a new cesspool in the woods and under the supervision of Mr. H. M. Bennett, they connected the drain of the school-house with the drain of the laundry which carries all the waste-water some 60 yards away from the buildings.

The girls are trained in all branches of domestic work: cooking, laundrying, mending, darning, cutting and making their own clothes. Some of the larger girls are proficient in dressmaking and fancy-work.

Moral and Religious Training.—Particular attention is given to this important branch of education, and I am pleased to say that the children endeavour to put into practice what they learn in the daily religious instruction.

Health and Sanitation.—One girl died of tuberculosis, all the other children have enjoyed good health throughout the year. Every precaution is taken to prevent disease; the premises are always kept clean, all the rooms are well ventilated, frequent baths are taken, breathing exercises and calisthenics are held daily, and no effort is spared to strengthen the children and keep them in good health.

4 GEORGE V., A. 1914

Recreation.—Recreation is taken in the open air as much as possible, all the children take an hour's walk each day when weather permits. The girls' play basketball, handball, croquet, &c. The favourite games of the boys are baseball and football. Picnics, berry-picking, swimming in summer afford great pleasure to all.

Ex-Pupils.—The boys are logging or fishing, some of the girls are married on the reserve. They are healthy and thrifty.

General Remarks.—The children had, as usual, their Christmas tree entertainment, which they enjoyed very much. Parents and friends were invited and the programme was rendered with success.

In concluding, I beg to express my sincerest thanks and those of my staff to our devoted inspectors and agent for their kindness and promptitude in attending to all matters connected with the school.

THE REPORT OF SISTER MARY AMY, PRINCIPAL OF THE SQUAMISH MISSION BOARDING SCHOOL, P. O. BOX 1856, NORTH VANCOUVER, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 50 pupils and the necessary staff.

Attendance.—There are 25 girls and 25 boys in attendance.

Class-room Work.—This is carried on by three teachers, in separate rooms. The school hours, for both boys and girls, are from 8.30 to 11.45 a.m. and from 4 to 6 p.m., besides an hour of study before retiring, during the winter season. The method of teaching prescribed by the department is strictly followed. The pupils apply themselves to their studies and make good progress in the different branches taught. We are pursuing the same course of study as that of the public schools in British Columbia.

The daily programme is: reading, spelling, grammar, arithmetic, Canadian history, geography, hygiene, composition, calisthenics, drawing, vocal and instrumental music. The pupils show wonderful skill in these two last named branches.

Farm and Garden.—There is no farm connected with the school. Four acres of land are laid out in vegetable garden, flower-beds, orchard, &c. This year we raised about 3 tons of potatoes, 1 ton of carrots, 1 ton turnips, 500 head of cabbage. We have had also a plentiful crop of apples, pears, plums, currants, gooseberries, &c. Much of the weeding, hoeing, planting, &c., is done by the boys; they also help the gardener in pruning and spraying the trees.

Industries Taught.—The boys are taught gardening, painting, glazing, shoe-repairing, &c.; they saw and split all the wood necessary for winter use.

The girls receive instruction in general housework, laundry work and cooking. They take turns in the kitchen. Besides, they do all the mending, make their own dresses and underwear; all the elder girls can use the sewing-machine; they also excel in fancy work such as crochet-lace, embroidery, cross-stitch, drawn-work, &c. At the Vancouver exhibition, held August, 1912, they won several first prizes.

Moral and Religious Training.—To this we give careful attention as being the most important part of education. Half an hour is devoted each day to religious instruction. The pupils attend mass each day, morning and evening prayer is said in common. On Sundays and holy days, all the pupils, without exception, attend the two services held in the parish church and help in the choir. They often memorize some lessons of catechism and Bible history, and, now and then, they are asked to give a short account of the sermon they have heard on Sunday or during the week.

The excellent behaviour of the children during the year encourages us to believe that the religious instruction given them has not been fruitless. Corporal punishment is very seldom required.

SESSIONAL PAPER No. 27

Health and Sanitation.—During the spring of 1912, measles broke out in the city of North Vancouver and, in spite of all the precautions, we had four severe cases among the pupils; though they all recovered, three had to be sent home on sick leave; the others enjoyed excellent health. No deaths occurred during the past year. The sanitary conditions of the school are good. The best attention is given to the pupils in order to make them adopt the most hygienic ways, especially in cleanliness. Ventilation is carefully attended to.

Recreation.—Three hours' recreation are given to the pupils daily in winter. In summer, they have one or two extra hours. The recreation is taken in the open air, as much as possible, even in winter. The boys enjoy football, baseball, lacrosse and other athletic sports.

The girls are fond of reading, some of them are subscribers to the 'Child Apostle' and the 'Western Catholic,' which they read with great interest.

During the fishing season, all the children are taken once a week to Capilano creek, the boys carrying hooks and fishing tackle; the girls frying pans and cans of lard to cook the fish by the riverside. These picnics are enjoyed immensely, both by teachers and pupils.

Ex-Pupils.—The ex-pupils, as a rule, continue to do well. Some of the boys live on the reserve working with their fathers; others are employed on steamboats, sawmills, and logging camps; where they give satisfaction. The girls help their mothers in the housework till they get married; they often visit the school with their young children and it is a pleasure to see how clean and tidy they look. Knowing the benefit of education, they long to send their little ones to school.

General Remarks.—Another busy year has closed. On December 30, the children had their usual Christmas tree and entertainment. The hall was crowded. All the performers executed their roles with perfect facility, showing as much ease and grace as might be expected only from those born and bred in the heart of civilization.

In conclusion, I wish to express my appreciation of the efficient and sympathetic support given me by all the members of the staff. I also wish to convey my most sincere thanks to the department for supplying the school with school material. I greatly appreciate the devotedness of our inspector, Mr. A. E. Green, and our agent, Mr. P. Byrne, who, on every occasion, have shown a very favourable interest in our work.

THE REPORT OF THE REV. V. ROHR, O.M.I., PRINCIPAL OF THE ST. MARY'S MISSION BOARDING SCHOOL, FRASER AGENCY, MISSION CITY, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—Ample accommodation can be provided for 90 pupils and the necessary staff.

Attendance.—There have been 65 children in attendance during the past year and classes were regular.

Class-room Work.—All the pupils are in school from 8 to 9 a.m. The seniors have their classes from 9 a.m. to noon, while the juniors are at work. These are in school from 1.30 to 4 p.m. Their progress throughout the year has been most satisfactory. Last September, at the Mission City exhibit, our pupils went in competition with the public school children for writing and drawing, the result was that our pupils were the winners of two first prizes and three seconds.

Farm and Garden.—About 300 acres, property of the Oblate Fathers, is attached to the school. The soil is most productive and the crops of hay, roots and vegetables

4 GEORGE V., A. 1914

of all kinds, raised yearly, are all that can be desired. A great deal of attention is given to our orchards; pruning, spraying and everything connected with successful fruit-growing is taught to the boys, who seem to take great interest in these lessons. A large piece of land, on the slope of a hill, is laid out for a new orchard, under the supervision and teaching of Mr. T. Wilson, Indian orchard inspector, whose services are most appreciated.

Industries Taught.—The boys are taught gardening, painting, and shoe-repairing. The seniors receive a practical training in farming and dairy work in general; they also work in the shingle-mill belonging to the school.

The girls receive instruction in all kinds of general housework, such as, cooking, baking and washing. They show great skill in hand and machine-sewing, cutting and finishing dresses. They deserve special praise for their fancy-work, for which a great number of first prizes were awarded them at the Mission City exhibit of last September.

Moral and Religious Training.—Religious instruction is given daily to all the pupils during half an hour; the morning and evening prayers are said in common. The conduct and spirit of the children were excellent.

Health and Sanitation.—The general health of the pupils has been very good. A few cases of grippe prevailed among the girls, but were not serious. The houses and premises are kept clean; the lavatories and drainage are in good order.

Recreation.—The recreation hours are always a pleasure. Football, baseball and lacrosse are the chief forms of sport for boys; the girls enjoy music and quiet games; in summer they cultivate their flower garden.

Ex-Pupils.—I am pleased to state that the majority of our former pupils are doing well. Some are engaged in local industries; others help their parents. As a rule they work well and are profiting by their training.

General Remarks.—The greatest improvement since our last report is the heating of the two houses and the church by means of a 70 H.P. tubular steam boiler and vacuum. The girls' department is heated with 42 radiators, whilst the boys' is heated with 46, and the church with 6. It was installed by the firm of Dutton and O'Connor, of Vancouver, and is giving good results. Since last April we also register the death of Rev. Father L. Fouquet, O.M.I., pioneer and founder of this school, the oldest of its kind, which is in its 50th year of existence.

Sister M. Conception, now 88 years old, who was one of the first sisters to work among the Indians in this school, and who was on duty during 35 years, a few years ago retired from the work, and has gone into retreat at Victoria.

Last August, Rev. P. J. Collins, O.M.I., was called away from this school, of which he had been the boys' instructor for 27 years. Untiringly he worked to promote the welfare of the boys. Sister M. Rogation, who was for the last nine years the boys' teacher, has been promoted as matron to the Kuper Island industrial school.

In closing this report I feel it my duty to extend my sincere thanks to the department's worthy officials who have taken interest in our work during the past year. We are greatly indebted to the kindness of Mr. Green, inspector of Indian schools, for his presence at several examinations; to Mr. Inspector Ditchburn, to Mr. Byrne, our local agent, who paid us several visits; to Mr. Wilson, inspector of orchards, for his friendly visits; also to Dr. Stuart, for his promptness and good advice in attending our sick pupils. I also wish to tender my sincerest thanks to the members of my staff, but especially to the Sisters of St. Ann, whose untiring zeal and devotedness during 50 years have largely contributed to the success that has crowned the work of the school.

THE REPORT OF REV. G. H. RALEY, PRINCIPAL OF THE PORT SIMPSON BOYS' BOARDING SCHOOL, PORT SIMPSON, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—Twenty boys, with four of a staff, are fairly comfortable, so long as they are content to work along old-fashioned lines.

Attendance.—The attendance has been good during the year, those in actual attendance numbering 21. Five boys have been admitted, three discharged. Two are out at present on holiday. One boy, who developed tubercular glands, returned to his home and died, and one boy is absent without leave.

Class-room Work.—The boys have continued to attend the Indian day school, which is taught faithfully by Mr. J. H. Young, who considers them fairly clever in the ordinary branches, in which he includes Canadian history, hygiene and drawing. Mr. Young conducts a study-hour each evening.

The boys are graded as follows:—

	Pupils.
Standard I.	4
“ II.	4
“ III.	8
“ IV.	6
“ V.	1

Farm and Garden.—Farming is not suited to this country, but by hard work a good garden has been made, and produces small fruits abundantly, and hardy vegetables when the season is at all favourable.

Industries Taught.—The boys are well trained in housework, under the matron, and a manual instructor is kept who directs the work in the garden, the general repairing of the building, the drains, roads, and whatever there is to be done. They spend a good deal of time in wet weather making paddles and boat models.

Moral and Religious Training.—Prominence is given to this side of the school life. The pupils receive Bible instruction daily, and prayers are conducted morning and evening. The teachers endeavour to instil into the minds of the children true Christian principles. The Sunday services are regularly attended and there is also one mid-week service.

Health and Sanitation.—In spite of most vigilant watchfulness on the part of the staff, there has been more sickness than usual.

Directly after the summer holidays, a few boys had measles; since then, there has been an epidemic of grippe, and a few of the boys were very ill, and were taken to the hospital. All but one have made a good recovery, and are again in school. Dr. Large has been most kind and attentive.

The building has been kept very clean and as free from infection of any kind as possible, by means of kalsomine and more powerful disinfectants.

Recreation.—Plenty of time is allowed for this; the pupils spend many hours out of doors, when weather permits. Football, running and jumping continue popular sports. Indoor games are provided, and often indulged in.

Ex-pupils.—The ex-pupils who have gone out in recent years, are at present engaged, either in fishing or logging. The winter months are not conducive to work, it would seem, but with the return of spring there is more activity. It is a problem to keep the young men of a reserve from idleness for several months each year.

4 GEORGE V., A. 1914

General Remarks.—There is much criticism of the boarding and industrial schools, and it is true that the promoters of such are often disappointed, but under existing conditions, with the Indian parents going hither and thither, seeking a livelihood, the boarding school seems to be the only solution for the promotion of education amongst the children. There is one thing certain, that while evils may creep into a school, there is naught but good imparted. And there is a vast difference between the trained children and those who are allowed to simply 'come up.'

In these days of progress and advancement, one needs the proper plant to do the best work for children of any race.

THE REPORT OF MISS FRANCES E. HUDSON, PRINCIPAL OF THE PORT SIMPSON (CROSBY) GIRLS' BOARDING SCHOOL, PORT SIMPSON, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—During the year a new fence was built around the property and the inside of the building is now being thoroughly renovated. The girls' dining-room has been furnished with chairs instead of benches.

Accommodation.—We have good accommodation for 40 girls and 5 teachers.

Attendance.—The average attendance for the year is 34.63; the total enrolment is 43; the number discharged is 6; there have been 2 deaths; the number admitted is 3; present number in attendance is 31; 4 are out on extended vacation, making 35. Eight applicants were refused because of tubercular tendencies, or because they were otherwise unfit.

Class-room Work.—The progress made by the various classes has been satisfactory. The girls speak English fluently and are fond of reading. The course prescribed for the public schools of British Columbia is the one used. The subjects taught are: reading, writing, arithmetic, spelling, grammar, composition, geography, history, hygiene, music, Bible history, and catechism. Eight girls are taking music lessons on the organ and six of these are able to take their turns in playing for prayers.

The girls are classified as follows:—

	Pupils.
Standard I	2
“ II	2
“ III	8
“ IV	9
“ V	7
“ VI	3
Total	31

Garden.—A small vegetable and flower garden is cultivated by the girls under the teacher's supervision. A number of hens are also kept.

Industries Taught.—The industrial training consists of instruction and training in general housework, laundry work, cooking, bread-making, sewing, mending, darning, fancy-work, raffia and reed work. In connection with the training in cooking, the work of the senior and junior classes in domestic science has proved valuable. The older girls are taught to cut and fit their own dresses, and all can patch and darn neatly. The industrial work of the school has frequently received high commendation.

Moral and Religious Training.—The girls are carefully trained to be honest, truthful, obedient, industrious, kind and obliging. A Bible lesson is taught almost

SESSIONAL PAPER No. 27

every day. The first aim is always to help the girls to a life of sincere Christian service, and, in many cases, when this ideal has been realized, the helpful home atmosphere of the school has been one of the strongest influences.

Health and Sanitation.—In December, one little girl, twelve years old, died of tuberculosis after being in the hospital several weeks. In January, another girl, seventeen years old, died at her home in Metlakatla, where she had gone in November. Two girls have been given an extended vacation because of eczema, and two others because of tubercular tendencies. The mothers of three of these girls died of tuberculosis. The general health of the others has been good.

The sanitary conditions are good. Every precaution in case of illness is always taken. After the removal of the girls spoken of above, the house was thoroughly fumigated by Dr. Large, and every girl was examined by him. Sick pupils are usually isolated in the hospital-room or taken to the hospital when that is deemed advisable.

The drainage is good and the house in every part is kept as clean as possible—disinfectants being frequently used.

Recreation.—Regular hours are set apart for recreation each day, and every day when weather permits exercise is taken outdoors. In wet weather the girls use the play-room. Their recreation consists of a variety of games, walking, and playing on the beach. One afternoon a week they play basketball. In season they gather wild berries. They have also regular lessons in physical culture, calisthenics, and fancy drills. There is a portable swing outside which affords much pleasure for the little girls.

On May day games were engaged in and a may-pole drill given by 12 girls. On May 24, a delightful picnic was held on the grounds in front of the home. Happy times are always planned for these special holidays.

Ex-Pupils.—Many of the ex-pupils are married, and living in Port Simpson. Some have made their homes up the Nass and Skeena rivers, others at Prince Rupert and on the Queen Charlotte islands. Four girls who were discharged within the past two years are maids in good homes, and are giving excellent satisfaction. A majority of the ex-pupils have conducted themselves creditably.

General Remarks.—Last September, one of the girls who had been in the school for several years was married to a young man from the Nass river. The ceremony was performed in the home in the presence of the pupils and friends. They left the same evening in their gasoline launch for their home on the Nass river.

In the same month we were highly honoured in having a visit from the Duke and Duchess of Connaught and the Princess Patricia. They spoke kind words of approval and were presented with samples of the girls' work.

In April, Mr. Marchant, inspector of customs from Victoria, while in Port Simpson in his official capacity, visited the school and offered a prize for the three best written stories of an event in the life of Sampson, told by Mr. Marchant. When the essays were completed they were sent to Mr. Marchant for the judging of their relative merits. When school re-opened after the summer vacation, the books which had been sent as prizes were presented to the winners. These prizes gave much pleasure. A public examination was held in the class-room, as a school closing, on Friday afternoon, June 28, to which many friends were invited. It also served as a farewell to a graduate, Rosa Alexcee, who left the school a few days afterwards.

THE REPORT OF CONSTANCE SISTER SUPERIOR, C. A. H., OF THE ALL HALLOWS (CHURCH OF ENGLAND) BOARDING SCHOOL, YALE, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—A new concrete root-house was built during the past year. The school buildings were also repaired, a new floor laid down in the play-room, and the school-room was painted.

Accommodation.—Accommodation is provided for 26 children, by the new regulations, and a sufficient staff.

Attendance.—There are 25 children on the register; one does not receive the grant, and three are absent with leave from the department.

Class-room Work.—The course of study prescribed by the department is closely followed under the care of two experienced teachers. Physical drill and hygiene are taught regularly; in both of these the pupils take great interest.

Garden.—About three-quarters of an acre is devoted to fruit and vegetables, and last summer produced abundant crops of both, of large size and excellent quality. With the exception of potatoes, enough vegetables were raised for the whole year. Each pupil has her own small garden, which she is carefully taught to cultivate. These were very successful last year. Many of the girls also bought seeds to send home to their own people.

The garden near the house is bright with flowers from early spring until the winter sets in.

Industries Taught.—Every girl is thoroughly taught housework, laundry work and needlework. Most of them can knit and crochet as well. Each girl learns bread-making as soon as she is old enough. The older girls are taught cooking and dressmaking. A few learn basket-making.

Moral and Religious Training.—The greatest possible care is given to this. The girls attend a short service, morning and evening, in the school chapel, besides the extra services for Sundays and festivals. Religious instruction is given daily by the sisters. Every opportunity is taken for inculcating moral virtues, and, in most cases, the pupils respond readily.

Health and Sanitation.—The health of the pupils has been excellent during the past year. There were no illnesses of any kind. Dr. Elliot reports that 'There are no tuberculous or scrofulous pupils in school. The Indian children attending All Hallows boarding school are 90 per cent healthier than the ordinary Indian children. In fact, the healthiest Indian children I ever saw.'

The drains were put into thoroughly good order last autumn, and are kept well flushed by leaving a stream of water running through them at night. New flush tanks were placed in the two bath-rooms. Disinfectants are freely used, and the greatest care is taken to keep every place clean. All refuse and dust are burnt at once, and nothing of the sort is allowed to accumulate outside. In hot weather the yard is flushed down with water from the stand-pipe.

Rooms having glass doors opening on to balconies are provided for the isolation of pupils suffering from contagious diseases, or for any who may show signs of tuberculous or scrofulous trouble. Extra milk is given to the little girls, or to any who may be delicate, and fresh fruit is given to all the children freely.

Recreation.—The girls have a large playground, with a summer-house, swing and see-saw, and plenty of shade trees, where they play in the summer. In the winter they enjoy coasting, if the weather is suitable, or play indoor games. An hour's walk is

SESSIONAL PAPER No. 27

taken daily, whenever the weather permits. All the girls enjoy having books read aloud to them, and it is remarkable how much their taste is improving. They are able now to appreciate a much higher class of literature than formerly. They are all fond of music, and are learning to sing well. A few of the older girls are being taught to play the organ.

Ex-Pupils.—Most of the ex-pupils have settled again amongst their own people, and we are told that it is easy to know the girls from the school, as their houses are so much cleaner and neater than the others. Three girls, who had no homes, have lately been placed out in service, where they are giving much satisfaction. We constantly have applications to send out girls to service, but prefer, when possible, to send them home. We heard from about 30 former pupils at Christmas.

THE REPORT OF MISS IDA M. CLARKE, PRINCIPAL OF THE KITAMAAT
(E. LONG MEMORIAL) BOARDING SCHOOL, KITAMAAT, B.C., FOR
THE YEAR ENDED MARCH 31, 1913.

Buildings.—Over \$1,500 was spent in additions and repairs during the year. A double lining was put in the basement for greater warmth. A boys' toilet, and one additional toilet for girls, were installed in connection with the sanitary system. A new dormitory, with capacity for 12 beds, was built in the attic; also a teacher's room adjoining. Iron fire-escapes in connection with each dormitory on two sides of the building are in process of erection. A new barn, 12 x 12 feet, was also built.

Accommodation.—Accommodation is provided for 34 pupils and 5 teachers.

Attendance.—The year opened with 21 girls and 8 small boys in attendance. Two boys were discharged and one transferred to the Coqualeetza institute; two boys were admitted. Six girls were admitted and two discharged. On the roll at present are 25 girls and 7 boys.

Class-room Work.—The children attend the village school and are making fair progress. The larger girls study one hour, four evenings a week. Eleven girls receive instruction in music.

Farm and Garden.—A small garden is under cultivation, where small patches of different vegetables are grown for instruction. There is also a small flower garden.

Industries Taught.—The girls are instructed in all branches of housework. They make all their own clothing, also that for the boys' every-day wear. They also do some knitting, crocheting and fancy-work. The boys are too small to do much, but they care for their own dormitory exclusively, split the wood and kindling, and help care for the cow.

Moral and Religious Training.—All attend morning and evening prayers, and a half hour each day is spent in studying catechism and memorizing verses of Scripture. They attend Sunday services and Sunday school. They are taught the evils of intemperance and vice, and instructed to be honest, truthful and diligent in their work. The girls play the organ at the Sunday services.

Health and Sanitation.—The health of the pupils during the year has been good. There has been no contagious disease. There is an isolation ward for sickness. The ventilation and heating are good. An outdoor play-house, open on all sides, has been found an excellent place for fresh air. Suitable clothing, good food and milk, have helped to keep them in a healthy condition. Native food, such as dry fish and grease, is used when procurable.

There is excellent drainage; the building is on rising ground, 100 feet above sea-level, and about 100 yards from the beach. There is a good grade on the main sewer,

which is 4-foot glazed pipe. The plumbing in the building is all up-to-date. Disinfectants are used and rooms fumigated occasionally.

Recreation.—Music, games in the play-house, football, swinging and walks, as well as picnics and bathing in the summer, are the principal forms of recreation.

Ex-Pupils.—Most of the ex-pupils are married and living in the village. A marked improvement is noticeable in their home-keeping and care of children, where they are allowed to live by themselves and do not have to adhere to the former customs of living with the old people.

THE REPORT OF THE REV. A. W. CORKER, PRINCIPAL OF THE ALERT BAY GIRLS' HOME, ALERT BAY, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—During the year, this home has been erected by the department.

The main building, 62 x 68 feet, and 28 feet high, is of wood, plastered inside, with concrete foundation and basement.

Laundry, 24 x 16 feet, is made of wood, and lined with the same. Engine and pump house, 24 x 16 feet; cow shed, 20 x 16 feet; chicken-house, 20 x 6 feet. These two latter were erected by the boys of the industrial school. The department supplied the material.

Accommodation.—There is accommodation for 30 pupils and a staff of 4.

Attendance.—The home was opened in August, 1912, and 18 pupils were admitted, and in the course of a few weeks, the number of 23 was soon attained.

Class-room Work.—The girls have made a very good start. Most of them knew nothing when admitted. Miss Nixon has taught the girls, and has been most painstaking in her work.

The girls were graded as follows:—

Standard I	12
“ II	10
“ III	1

Farm and Garden.—There are about 2 acres of land fenced, and partly cleared. The soil is very poor and stony.

Miss Nevill, the matron, and the girls have made a noble beginning, and have planted seeds and vegetables, and hope to have a garden and grow enough vegetables for the girls.

Industries Taught.—All the girls receive systematic instruction in the general housework of the home. They are taught cooking, sewing, laundry work and gardening, and excellent progress has been made in these branches of work.

Moral and Religious Training.—To this important subject strict attention is given. Morning and evening prayer is said daily. The girls attend services in church, and Sunday school. A Bible lesson is given daily.

Health and Sanitation.—Thus far the health has been good, except a few colds and two cases of tonsillitis. The school is provided with a first-class infirmary and the girls are isolated from the others when sick.

The ventilation is very good, and the drainage and sewerage satisfactory, being all carried to a large septic tank.

Recreation.—Music and games indoors, outdoor games, skipping, walking with one of the staff, and occasional boat-rides are the chief amusements of the girls.

Ex-Pupils.—There have been no pupils discharged.

SESSIONAL PAPER No. 27

Remarks.—I should like to add that this institution has made a very good beginning, indeed an excellent beginning. The ladies in charge seem to have won the complete confidence of the Indians, and they have taught their children of their own free will and seem to enjoy their visits. On several occasions the matron has invited them to spend part of the day and most friendly feeling exists between the home and the Indians. These visits to a clean, properly conducted home must of themselves be an education to the Indians.

THE REPORT OF JOHN T. ROSS, PRINCIPAL OF THE AHOUSAHT BOARDING SCHOOL, AHOUSAHT, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Accommodation.—There is accommodation for 35 pupils and a staff of 4.

Attendance.—The present attendance is 17 boys and 14 girls. During the year three pupils were discharged and three admitted.

Class-room Work.—The hours of study are from 10 to 12 a.m., and from 1.30 to 3.30 p.m. The course of study prescribed by the department is followed. A qualified lady teacher has charge of the class-room. Special attention was given to the study of hygiene. In all the other branches of study the pupils received careful instruction and satisfactory progress was made during the year.

The pupils are graded as follows:—

	Pupils.
Standard I.	7
“ II.	2
“ III.	5
“ IV.	14
“ V.	3

Farm and Garden.—This consists of 18 acres, of low-lying soil, of sandy loam. It has improved since the ditches were deepened. The vegetable crop was fair, and over 5 bushels of cranberries were raised. Strawberries also were a good crop.

The stock consists of a bull, a cow, and about 30 hens.

Industries Taught.—The boys were given instruction in gardening, wood-cutting, laundry work, baking, rough carpentry and painting.

The girls were taught general housekeeping, dress-making, mending, laundry work and fancy-work.

Moral and Religious Training.—Religious instruction is given daily. Regular services of divine worship are conducted in the church on the reserve, where old and young attend. By precept and example, as occasion offers, the pupils are taught morality, cleanliness and obedience.

Health and Sanitation.—The general health of all the pupils during the year was good; no epidemic of any kind occurred. Cleanliness and proper ventilation are carefully attended to. The drainage is good.

Water Supply.—The water-supply is obtained from rainfall and stored in tanks. The tanks are cleaned from time to time. During the summer an over-head tank was put in of 500 gallons' capacity, the water from which is used for cooking purposes. The total tank capacity now is 4,070 gallons. A well, about 9 feet deep, to the rear of the school, is used during the dry season for washing purposes, but it is not fit for drinking.

Fire Protection.—A strong force-pump and 150 feet of hose, 18 fire-buckets, 12 dry-dust fire-extinguishers, are ready for use in case of fire. Fire-drill is given once a month.

Heating and Lighting.—The school is heated with a large-sized hot-air Gurney furnace. Stoves also are used to heat the class-room and children's dining-room. Coal-oil lamps are used for lighting.

Recreation.—Such games as baseball, football, running and jumping are played by the boys after working hours. The girls find amusement in various outdoor games, when the weather is suitable.

Ex-Pupils.—All ex-pupils are living on Maktosis reserve. During the summer, they were employed in the canneries and saw-mills. They worked faithfully, and I learned also that their conduct was good. Some of them are married and live in homes with their parents. Although there is marked improvement in the homes where these ex-pupils live, as compared with homes where there are none, still it is a great hindrance to ex-pupils to keep up and put into practice their housekeeping ability, when their parents, in so many cases, are naturally slovenly and untidy in their habits. However, as a result of the moral and religious training in the boarding school, the greater good is more noticeable in the moral improvement of the whole tribe. The good example of ex-pupils has helped in a great measure to do away with drunkenness and gambling and other vices.

THE REPORT OF H. B. CURRIE, PRINCIPAL OF THE ALBERNI BOARDING SCHOOL, ALBERNI, B.C., FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—The buildings are the same in number as last year, less the old class-room, which has been torn down, and the addition of an engine-house, which has been erected. This is a frame structure, 10 x 12 feet, with a concrete floor, and is used to provide protection for a four horse-power gasolene engine used for pumping purposes. A new poultry-house has also been erected during the year. This also is a frame building, 40 x 18 feet, which will provide ample accommodation for over 100 fowls.

Our main building (residence) was re-shingled during the year. The whole of the outside residence, laundry and bakeshop, were painted, two coats, during the year, and the roofs of same received one coat of shingle stain. Four flight of steps were erected about the residence and considerable plastering and inside painting were also done.

A concrete floor was put in the basement, under the class-room. This basement is used as a play-room. Also a portion of our barn was floored with cedar-block pavement.

Accommodation.—There is accommodation for 55 pupils and a staff of 6 in the school.

Attendance.—The attendance during the year has been satisfactory. We started the year with 50 pupils in attendance (25 boys and 25 girls). During the year 7 pupils were discharged (5 boys and 2 girls), and there were added to the roll, 8 (6 boys and 2 girls), leaving the present enrolment, 51 (26 boys and 25 girls).

Class-room Work.—The regular course of studies prescribed by the department, is largely followed: calisthenics and hygiene are carefully taught. The half-day system is in vogue for the older pupils, while the junior pupils attend class-room, both forenoon and afternoon. The progress of the pupils is most satisfactory.

SESSIONAL PAPER No. 27

Farm and Garden.—While there are 156 acres of land in connection with the school, only 11 or 12 acres are cleared, and about three of these are occupied by buildings and playground. From the balance, we have had fine returns in the way of fruits, vegetables, roots, potatoes, grain and hay. In live stock we have 3 horses, 7 cattle and about 120 chickens. From all of these most satisfactory results were obtained. At the Alberni agricultural exhibition, we won 4 first prizes on four entries of poultry, also first prizes on parsnips, plums, sheaf oats, sheaf barley and second prize on sheaf wheat. During January, February and March, 1913, a record of eggs was kept and resulted in 2,730 being laid by less than 100 hens in cramped quarters and without any forcing. Since then, however, our new poultry-house has been completed and I am satisfied under present conditions that double the eggs could be obtained. All the above eggs were used in the school. During the year a new democrat wagon was procured. By using our gasolene pumping engine installed during the year we are able to irrigate our garden; this in a large measure is responsible for such excellent results.

Industries Taught.—The boys are taught the care of stock, farm work, gardening, baking, laundry work, painting and carpentry work; while the girls are instructed in all branches of good housekeeping, such as cooking, baking, sewing, dining-room work, dormitory work, darning and mending.

Moral and Religious Training.—This being the most important part of education, particular care is taken by all members of the staff in training the pupils to be obedient, truthful, honest, kind and obliging. Devotional exercises are conducted in the home, mornings and evenings. Sabbath school and one service are held each Sabbath, while the pupils are encouraged to memorize passages of Scripture, hymns and the catechism. We believe such instruction cannot fail to elevate the character of the pupils.

Health and Sanitation.—The health of the pupils during the year has been only fair. We had two cases of tuberculous meningitis; both of which proved fatal. During January and February, 1913, we had a regular epidemic of pneumonia (twelve cases) all of which recovered. But in two cases the lungs were left weak, and on the advice of the doctor, these two were let out of school on sick leave. They are doing well and expected back to school shortly. The rest of the pupils have been practically free from disease of any kind. In regard to the epidemic of pneumonia, I wish to express a few words of appreciation of the loyal support, and self-sacrificing spirit manifested by the several members of the staff. A great deal of sickness existed at the time throughout the whole district and extra temporary help was not available. For over a month some member of the staff was required in constant attendance night and day to look after the sick ones, and to do this in conjunction with the regular work was a trying task; but a task in which Mrs. Stevens, Miss Wright and Miss Grant vied with each other in assisting the matron and principal in caring for the sick. In several cases, I believe, it was only because of the excellent care they received that they are now with us.

Recreation.—During the past year the boys have taken a special interest in football and succeeded for the second time in succession in carrying off the west coast junior football league championship. They have also manifested much enthusiasm on the flying rings. The girls play ball principally. All pupils do considerable boating and bathing. All outdoor sports are encouraged.

Ex-Pupils.—The ex-pupils are doing well. They are principally located about Alberni and along the Alberni canal. They work at fishing, logging, saw-mills and a few as artisans. They do some farming on their own account, and as a rule, lead good, honest, moral lives.

4 GEORGE V., A. 1914

THE REPORT OF VEN. ARCHDEACON T. H. CANHAM, PRINCIPAL OF
THE CARCROSS BOARDING SCHOOL, CARCROSS, YUKON TERRI-
TORY, FOR THE YEAR ENDED MARCH 31, 1913.

Buildings.—The new building has been fairly satisfactory. The heating and water pipes and pump have given some trouble, but these will be adjusted in time. The pump was entirely unsatisfactory for the work required of it. The new school building has been satisfactory and a great improvement on the old quarters. No additional buildings have been erected during the past year.

Accommodation.—There is accommodation for at least 30 children and a staff of 6.

Attendance.—The average attendance of pupils for the year has been 25.

Class-room Work.—The class-room work takes up six hours of the day—three hours in the morning and three hours in the afternoon. Each child is supposed to spend half the day in the class-room—the other half in household or manual work.

Farm and Garden.—The garden in connection with the school was, on the whole, successful. Each year it is hoped the soil, which is fairly good, will be more productive. This year about a ton of potatoes was raised and a variety of other vegetables. As yet, very little in the line of farming has been done. During the greater part of the year, a horse, a cow and a number of chickens were kept, and these helped the school materially. The garden gave the opportunity of giving the children knowledge along this line that should be helpful in after life.

Industries Taught.—During the past year some of the older boys were given lessons in stable work, as feeding, cleaning and harnessing the horse; also driving with sleigh and wagon. Others were taught to milk the cow, and some of the older girls to make butter, and others again to feed and care for the chickens. They also had every opportunity to learn how to care for and drive the dogs. All the boys had their daily tasks in the woods and around the house, and in the winter months, especially, they were given every opportunity to learn the use of that most ordinary, but most useful tool, the axe; and the older boys, also the saw, hammer, and other carpenter's tools. They had also opportunities of learning fishing, shooting, and snaring rabbits, and some of them were taught cooking.

The girls were given instruction in cooking, washing, ironing, scrubbing, sewing, moccasin-making and other things that may be useful to them when they leave school. Some of them have become quite efficient in these arts.

Moral and Religious Training.—On Sunday mornings and evenings, as many of the scholars as are able, attend the services in the town church. In the afternoon all attend Sunday school, held in the building, and in the evening a short service is provided for the ones who stay at home.

Each day is begun and closed with prayer and the reading of the Bible. A Bible class is held on one evening of each week.

Health and Sanitation.—The health of the pupils has been fairly good during the past year. There have been two deaths from tubercular trouble. With the exception of coughs and colds, no epidemic or disease has visited the school. Antiseptics are used and the drainage system is thought to be the best. Care is taken to keep the building clean and ventilation is duly attended to.

Recreation.—All the children have ample time given them for recreation. In summer, boating and fishing and ball-playing, and in winter sleighing, tobogganing, &c., are indulged in. Regular calisthenic exercises were given in the morning, with marked benefit and improvement.

Ex-Pupils.—Some of the ex-pupils (girls) are married and some are engaged in domestic service in Dawson. Two or three boys have returned to their homes and are living with their friends. Another boy, until lately, was a workman on the railroad, and gave general satisfaction.

General Remarks.

The land sold during the year amounted to 7,834.89 acres, which realized \$132,512.53. The quantity of surrendered land in the hands of the department was approximately 263,875 acres. The principal outstanding, on account of Indian lands sold, amounted to \$2,628,472.75, a considerable portion of which has not yet become due.
