

SESSIONAL PAPER No. 27

Indian has horse-drawn implements, which he cares for. On account of the absence of roads, there is but one horse-drawn vehicle on the reserves.

Characteristics and Progress.—The Indians are beginning to understand that they must be occupied the year round, and take better care of their earnings. The Haidas are a progressive people who learned to trade with the Hudson Bay Company, and are willing only to work at the current rate of wages. They demand the full price for their fish from the canneries, and have their own co-operative stores. They, as a rule, are not conversant with business methods in buying and selling, and some of them are very lax in paying for goods received by them. It is a trait of the Indians to obtain credit, and many neglect to pay. In this respect they should receive no more consideration than the white people. When Indians are able to own their houses, boats, and other articles, and refuse to pay for their purchases, they should be taught to deal honestly, and have no loophole to avoid meeting their just debts. In all other respects the Massett Indians are proud of their record as a law-abiding people. In my opinion the past year has been one that tried them all, and no lonely white settler complained of bad treatment, or lack of good feeling, on the part of the Indians. They are taking quite an interest in music, and there are many good musicians among them. They have a brass band, with a white teacher, and held public entertainments during the winter. In many houses they have musical instruments, and the Indian band leader is an accomplished musician.

Temperance and Morality.—Without in any way attempting to show favouritism, I might state that we have two white constables in the neighbourhood and it has not been their duty to arrest one Indian during the year for any cause. At the Naden Harbour cannery, some Chinese provided Indians with intoxicants, and they received a term of imprisonment for so doing. The Indians are realizing the effects of indulging in intoxicating liquor, and their best men are not only preaching and teaching, but they are also prosecuting any Indian that they know is obtaining liquor. Although the temptation has been greater, with a saloon near the principal reserve, the Indians are more sober and industrious than they were a year ago.

The question of morals is one that brings a great deal of trouble to the Indians, and also to those engaged in uplifting them. There appears to be a laxity about the Indians; whether hereditary, whether through their old tribal customs, or whether they have the old Indian way of looking at our marriage laws, I cannot understand. When the Indians lived on these islands, and no white settlers were present, their marriage customs were altogether different from ours. The missionaries came among them, and married all of those living under the tribal custom. The older people have, since that time, arranged all marriages, and this custom is only another form of carrying out the Indian ways of years ago. The result has not been to bring happiness to the families. The missionaries, and all who are endeavouring to advance the Indian, even to the best of the Indians, are aware that none of the old Indian customs are of any benefit, and the arrangement of a marriage, without even asking the consent of the contracting parties, must bring trouble. Under the new by-laws, the Indian council may deal with immorality and profligacy, and it is possible to bring the Indian to realize that there is a moral line that he cannot overstep. When we find the large majority willing to advance, seeking education and Christian teaching, and all becoming more and more impressed with the fact that the government is doing everything for their advancement, there is hope for these Indians. They may not be perfect; but it is surprising how consistent they are in all they do, and the way so many of them are eager to progress.

SKIDEGATE BAND.

Health and Sanitation.—The Skidegate band, located at the south end of Graham island, is a smaller band than the Massetts; but not lacking, in any respect, in their manner of advancing in the way of sanitary precautions. They installed a water-

works plant, which will aid in keeping the village clean. For many years, the water they used had been obtained from streams running through the reserve, and it was noticed that salmon ascended, to spawn, and animals waded through the water and wallowed in it. At the present time, water is brought to their doors, through a four-inch main, from a source away up in the hills. Considering that they did not have sewers, I did not consider it advisable to take the water into the houses, but allowed taps to be placed from which all obtained plenty of water. The Skidegates are, as a rule, exceptionally clean. The resident medical officer is a constant visitor to the houses. The greatest drawback is the presence of consumption, in the homes, and no place in which to isolate patients.

Occupations.—The Skidegates are fishermen and boat-builders. A few of the men are prospectors, and they do some trapping and hunting. A number own launches, and convey passengers and freight to island ports. The Skidegates have an oilery, at which they manufacture dog-fish oil. During the fishing season the men engage in their own boats, at salmon fishing, and some women work in the canneries.

Buildings.—The Indians of Skidegate take a pride in building good frame houses. There are a number of old buildings on the Skidegate reserve; but they are being replaced rapidly by good structures. On the outside reserves the places in which they live would be termed shacks, and are neither healthy nor comfortable. The Indians occupy them only when seeking food, along the shore, or when fishing for home consumption.

Stock.—The Skidegates raise a few cattle, for their own use, and allow the cattle to roam the year round. They have few horses.

Farm Implements.—Being fishermen, they have only implements for small gardens,—no horse-drawn implements.

Characteristics and Progress.—The Skidegates and Massetts are of the same family, and talk the same language. Although separated by one hundred miles of sea-coast, they seldom visit one another, and there is a certain rivalry among them with respect to their advancement. The older men appear to control affairs in this band, and, although very forward, in many respects, the old customs appear to have a stronger hold than in the Massett band. Like the Massetts also, the Skidegates have a brass band of twenty-six musicians, are good musicians, and take a great pride in the fact that they have carried off the prizes at all Indian contests at which they performed. The younger men, and the children, are breaking away from old customs, and becoming more and more civilized, adopting the dress and ways of the whites, and speaking the English language.

Temperance and Morality.—Although the best of the band are making every effort to suppress the use of intoxicating liquor, there are a few, both young and old, that are addicted to its use. The first convictions of white men for supplying these Indians with intoxicants were made during the year, and the fines imposed were paid by subscription among those living in the neighbourhood. It is passing strange that people who are seeking the advancement of the Indians, and who should consider the evil effects of allowing them to indulge in intoxicants, have any sympathy for those who are both dangerous and of a class that should be suppressed. In this new country, it is deplorable that some whites will assist men who are engaged in this traffic, by keeping them out of prison.

The question of morality is one that the Skidegates have taken up, and the council will deal with it, this year, in a different way from the old custom. As a whole, the Skidegates are moral. There are individual cases of immorality; but the Indians are understanding that the question of morals is one that must receive attention. Those entrusted with the enforcement of the law had little occasion to complain of the Haidas during the year.

SESSIONAL PAPER No. 27

REPORT OF W. SCOTT SIMPSON, INDIAN AGENT FOR ST IKINE AGENCY,
BRITISH COLUMBIA.

Bands.—The following bands are included in this agency: Tahltan, Casca, Liard, Fort Grahame nomads, Nelson River nomads, Atlin and Teslin Lake.

Health and Sanitation.—The general health of the Indians in this agency has been fair, the prevalent disease being tubercular trouble in its varied forms. None of the Indians have been vaccinated during the year.

Sanitary conditions are improving.

Occupations.—Hunting is the chief occupation of these Indians. Most of the young men of the Tahltan band engage as packers during the summer months and as guides and cooks to hunting parties, while the older members usually camp at the fisheries during the salmon run and lay up their winter supply.

Buildings.—Only the Tahltan and Casca bands have buildings. These are of logs. Only a small number are occupied, as the Indians are constantly moving from one hunting ground to another.

Stock.—The only band in this agency having any stock is the Tahltan, and in this band only four have any, owing to the fact that horses cannot be purchased in the district. A number are now striving to make the necessary arrangements to have a few shipped in from the south.

Characteristics and Progress.—The members of the Tahltan band are industrious and ambitious, but have extravagant tastes and throw their money away after disposing of a good catch of furs. Most of the other Indians are intelligent and ambitious, but they roam around a great deal and are often poorly clad.

Temperance and Morality.—Many of these Indians are fond of liquor, but cannot procure it, as there are no licenses granted north of Telegraph Creek. Their moral conduct as a rule is below the average.

REPORT OF W. J. McALLAN, INDIAN AGENT FOR STUART LAKE
AGENCY, BRITISH COLUMBIA.

Bands.—The following bands are included in this agency: Yacutcee, Tatcee, Pintcee, Grand Rapid, Tsislainli, Stuart Lake, Stella, Francois Lake, Chelislatta, Fraser Lake, Stony Creek, Blackwater, Kluskus, Fort George, McLeod's Lake, Fort Graham, Fort Connelly and Naanees.

Occupations.—The chief occupations of these Indians are fishing, hunting and gardening.

Stock.—Although not much stock is kept on any of the reserves, nearly every band has a few horses and cattle.

Farm Implements.—There are not many farm implements in this agency, but nearly every band has a supply of garden tools.

Buildings.—The buildings in this agency are of log; a few, however, have frame fronts.

Health.—In the Stony Creek band there was an epidemic of typhoid fever, and in the Fort Graham band there was considerable sickness, grippe being prevalent. In the case of nearly all the other bands the health of the Indians has been good.

Temperance and Morality.—There has been some drinking on the Stuart Lake, Stony Creek and Fort George reserves. With these exceptions, the Indians of this agency may be called very temperate.

Their morality is good.

NAANEES (Two Bands).

Very little is known of these wanderers, for they are nomads, roaming the territory adjacent to the Nelson and Liard rivers. They live entirely on the game pro-

5 GEORGE V., A. 1915

ducts of the country and their lot is not always a happy one. Latest information indicates that they are decreasing in numbers.

GENERAL REMARKS.

While opportunities for outside work and wage-earning were less favourable than during the preceding year, full advantage was taken of existing conditions, and money earned in outside labour formed a very considerable item of income in the southern part of the agency.

The Stony Creek band has again made splendid headway in agriculture; but these are the only Indians who are attempting soil cultivation in a business-like manner.

The best indicator of progress among Indians is, I find, the extent or otherwise to which they cultivate the land. That and nothing else is the real test of progress. Only in producing something that did not exist before, can the Indian become self-sustaining, as the natural products of the woods—game, fur, etc.—are rapidly disappearing.

Fur prices were disappointingly low, and it may be said that Indians in the remotest parts of Canada have felt the effects of the world-wide financial stringency, for that undoubtedly was the cause of the drop in prices. The season being declared open to catch beaver, however, compensated for this to a very considerable extent.

I cannot say enough in praise of the demeanour and behaviour of the Indians during the year. While thousands of railroaders were swarming through the country, and while murders, shootings and other outrages were of frequent occurrence among the whites, Indians kept the even tenor of their way, minding their own business, and I have again the satisfaction of reporting a total absence of serious crime, minor offences alone having to be dealt with.

In more ways than one the past year can be considered a favourable one.

REPORT OF CHAS. A. COX, INDIAN AGENT FOR WEST COAST AGENCY,
BRITISH COLUMBIA.

Bands.—The following bands are included in this agency: Ahousaht, Clayoquot, Chaicclesaht, Ehattisaht, Ucluelet, Hesquiaht, Howchucklesit, Kilsemaht, Kyoquot, Matchilaht, Mouchaht, Nitinaht, Noochatlaht, Ohiaht, Opitchesaht, Pacheenaht, Toquaht and Tseshahht.

Occupations.—The chief occupations of these Indians are fishing and sealing off shore, also working about the canneries and trapping. Many engage in hop-picking on the American side.

Stock.—Very little stock is kept in this agency, and it is not well cared for. The cattle belonging to the Ohiaht band run wild in the woods all the year round.

Farm Implements.—With the exception of two ploughs, these Indians have no farm implements.

Buildings.—Many of the buildings in this agency are nothing but shacks; others on the whole are very creditable.

Health and Sanitation.—With few exceptions, the health of these Indians has been good. There was a slight epidemic of mumps on the Clayoquot reserve. On nearly all the reserves sanitary conditions are good.

Temperance and Morality.—As a rule, the Indians in this agency are fairly temperate, except when working at the canneries.

The same remark may be made in regard to the morality of the women.

Characteristics and Progress.—Although some of the bands do not appear to be progressing, the majority are industrious, peaceable, law-abiding and making some progress.

SESSIONAL PAPER No. 27

REPORT OF ISAAC OGDEN, INDIAN AGENT FOR WILLIAMS LAKE AGENCY, BRITISH COLUMBIA.

Tribe or Nation.—The following tribes are represented in this agency: Shuswap, Chilcotin, and Carrier.

Bands.—The following bands are included in this agency: Alkali Lake, Alexandria, Anaham, Canoe Creek, Canim Lake, Dog Creek, Nemiah Valley, Riskie Creek or Toosey, Red Stone, Stone, Quesnel, Soda Creek and Williams Lake or Sugar Cane.

Occupations.—The chief occupations of the Indians in this agency are farming, stock-raising, hunting, trapping, and freighting.

Stock.—With the exception of one band, the stock in this agency is well taken care of.

Farm Implements.—These Indians take good care of their farm implements.

Buildings.—Most of the buildings in this agency are of log; there are a few frame.

Health and Sanitation.—On nearly all the reserves the health of the Indians has been good.

The sanitary conditions are fair.

Temperance and Morality.—On some of the reserves there has been some drinking.

The morality of these Indians is fair.

Characteristics and Progress.—Most of the Indians in this agency may be called industrious and making good progress.

REPORT OF A. M. TYSON, INSPECTOR FOR NORTHERN INSPECTORATE, BRITISH COLUMBIA.

BELLA COOLA AGENCY.

The Bella Coola agency extends from Rivers Inlet on the south to the Nass and Babine agencies on the north, where it is bounded by the 54° north latitude. It includes about 200 miles of coast line and islands adjacent thereto, running inland and including the sources of the Bella Coola and Salmon rivers. It is under the supervision of Indian Agent Fougner, and comprises the following villages: Bella Coola, Bella Bella, Kimsquit, China Hat, Oweekayno, Hartley Bay, Kitkatla, Kitlope and Kitemat.

The chief industries of the Indians of this agency are fishing, trapping, hunting and logging, the last named occupation affording them good remuneration. Several of the Indians own stores, which they conduct at various villages in the agency and do considerable trading. During the canning season many of the Indians, both men and women, are employed at the canneries. On my visit this year I noticed quite an increase in the number of gasoline boats owned by the Indians; these they use for the purpose of travelling between the reserves located near the water, and during the fishing season these are a great aid to them. Very little agriculture is engaged in, owing chiefly to the fact that but a small portion of the land is suitable for that purpose; on my last visit, however, I found that in districts where the quality of the soil permitted, the Indians were beginning to take more interest in this, with the result that there were some particularly good gardens under cultivation, in many of which a large number of vegetables is raised, such as potatoes, cabbage, turnips, carrots, etc. They depend for the most part, however, on the results of fishing, trapping and hunting, and prefer such means of livelihood to that of tilling the soil.

In the different villages the buildings erected by the Indians are of a good substantial character. At Kitemat a fine new church has been built and at Bella Bella a

5 GEORGE V., A. 1915

new wharf is under construction. Quite an improvement was noticed in the sanitary conditions, but much more could be done in this direction by the installation of better water systems. The health of the Indians during the past year has been fairly good, as was also their moral conduct. On account of the poor fishing this year, the Indians are not in so prosperous a condition as other years.

At Kimsquit, we had a very sad shooting affair, caused by the Indians receiving liquor from a Chinaman. Constable Tucker is doing good work in trying to suppress this evil, but has been somewhat hampered in the past on account of having to depend on the regular steamers for transportation. With the new gasoline launch which will shortly be put into commission, we are looking forward to a much stricter surveillance and consequently no repetition of such a tragedy.

During the year I accompanied the Royal Commission on Indian Affairs on their visit to the different villages of this agency. The Indians gave a hearty welcome; and at villages where they had brass bands, entertainment was afforded.

NASS AGENCY.

This agency extends from the south bank of the Skeena river to the head-waters of the Nass on the north and along the cross line to Port Essington on the Skeena river. It is comprised of the following principal villages: Essington, Metlakatla, Kincolith, Port Simpson, Gitlakdamiks, Gwinoha, Aiyansh and Lakalsap. Mr. C. C. Perry is the Indian agent.

The principal occupations are fishing, hunting, trapping and logging. Many of the Indians own their own gasoline launches, while others are employed on boats operating on the various waterways. The Indians here are also expert boat-builders, and many follow this occupation.

The houses are in good condition, being principally modern and comfortable. At the village of Metlakatla a great improvement was noticed in the care of the gardens and the up-keep of the fences. The streets in the different villages are being kept clean and in a sanitary condition, and in this respect a great improvement was noticed since my last visit. The health of the Indians is also good.

Many Indians congregate at Prince Rupert now, and Constable Phillipson is doing good work in keeping down intemperance among the Indians of this agency. His summary bringing to justice of law-breakers in this respect has in a great measure overcome the evil. The Indians of the agency are generally moral and law-abiding.

QUEEN CHARLOTTE AGENCY.

This agency is located on the Queen Charlotte group of islands, and includes two villages, Massett and Skidegate, both of these having been visited during the year.

The Indians, under the supervision of Indian Agent Thomas Deasy, engage chiefly in fishing as a means of livelihood. Some of them are excellent carpenters, as is shown in the fine condition of their buildings, which are for the most part constructed on modern lines. The villages are exceptionally well managed by the councils, and under the instructions of the agent the streets are kept clean and the buildings sanitary, and in this a great improvement was noticed on my last visit. Skidegate has been supplied with a good water system, and as a result sanitary conditions are now first-class. At Nayden Harbour, where the Massett Indians congregate during the fishing season, the cannery has supplied comfortable houses for the Indians and sanitary conditions are good. This also applies to the houses at Aliford Bay, where members of the Skidegate band are employed.

Constable Hughes is in charge of the agency at present and keeps a strict surveillance at all times.

SESSIONAL PAPER No. 27

The agency was visited by the Royal Commission on Indian Affairs during the year, and during their stay at Massett the Indians held an entertainment in their honour.

The people are in the main law-abiding, and have fairly good moral and temperate habits. The health of the people is also very satisfactory.

STICKINE AGENCY.

This agency is situate in the Cassiar district, being north of the Nass and Babine agencies and is in charge of W. S. Simpson.

Their chief occupations are fishing and hunting, while many of the Indians work on pack trains and boats. Some are also employed as guides for the big game hunters, and as such receive good remuneration. Others take an interest in placer mining, especially in the Atlin district, where they have staked numerous claims; unfortunately these have not turned out very favourably. The Indians here, as in the other agencies, take but little interest in tilling the soil. The Indians of this agency have no reservations, and, with the exception of the Tahltans, are nomadic. They are looking forward with pleasure to the visit of the Royal Commission, when they will present their various requests.

The buildings are comfortable and in good repair and sanitary conditions fairly good. The health is also very satisfactory, while the Indians themselves are temperate and their moral character good.

BABINE AGENCY.

The Babine agency is located northeast of the Bella Coola agency and east of the Nass agency, and is in charge of Agent R. E. Loring, with headquarters at Hazelton, at the head of the Skeena river. The principal villages are Hazelton, Kitselas (New Town), Kitwanger, Andimaul, Glen Vowel, Kishpaiax, Kitsegucla, Meanskinisht, Hagalgate and Morris Town.

The Indians chiefly engage in fishing, hunting and trapping. A small number have gardens, and at the time of my visit a number were engaged in teaming work. Many of the villages have saw-mills, and the Indians are busily engaged in getting out logs and sawing up lumber.

The houses are comfortable and kept in fairly good condition. Sanitary conditions are much improved, and the villages present a much cleaner appearance than formerly.

Fruit-trees have been sent up to Glen Vowel and will be planted out this spring. The gardens at this village were particularly well cared for, and under Ensign and Mrs. Sharpe good work has been accomplished in this regard. Mr. and Mrs. Sharpe have, since my last visit, been succeeded by Mr. and Mrs. Jackson.

The health of the Indians is good and they are a fairly moral and temperate people. During the construction work on the railway, there has been much drinking among them, but Constable Calkins is doing his best to improve conditions in this respect, and the heavy sentences imposed on offenders have done much to stamp out the evil.

General Remarks.—The Indians of the Northern Inspectorate are, generally speaking, an industrious class of people. They are intelligent and anxious to improve themselves wherever possible so that they may compare favourably with the white people, whom they strive to imitate in every respect. In dress and appearance they are very cleanly. The younger generation wear modern up-to-date clothing, and take great pride in their appearance.

Their houses are for the most part clean and kept in good condition, while many of them are very substantial and comfortable.

The Indians treat newcomers with the greatest courtesy, and on all my visits

5 GEORGE V., A. 1915

I received the utmost kindness from them. In the many meetings held, their complaints and requests were always brought forward in a courteous manner and the meetings conducted in an orderly way.

Some of the Indians are excellent musicians and many of the villages have brass bands. During the visit of the Royal Commission on Indian Affairs to the different villages, these bands turned out in full force to provide a royal welcome. These are a very loyal people and never lose an opportunity of displaying their flags and evincing their patriotism.

The Indians do not engage in agriculture to any great extent, although more interest is being evidenced this year than former years, and a noticeable increase in the number of gardens has resulted. It is every man's aim, however, to own a boat or launch, and some of the Indians are in possession of very fine crafts, and become very skilful in the management thereof.

The liquor traffic among the Indians has been a great drawback to their advancement and is responsible for much crime. The various constables in the different agencies are doing good work in trying to suppress this evil, and their summary method of bringing to justice offenders in this respect, together with the heavy sentences imposed, is resulting in more favourable conditions and the gradual suppression of the use of intoxicants by the Indians.

The past year has not been as prosperous as former years on account of the failure in the salmon run, but the Indians are making good progress in nearly every direction, and conditions in the Northern Inspectorate are fairly good.

REPORT OF W. E. DITCHBURN, INSPECTOR FOR SOUTHWESTERN INSPECTORATE, BRITISH COLUMBIA.

This inspectorate comprises the Cowichan, Kwawkewlth, New Westminster and West Coast agencies.

COWICHAN AGENCY.

This agency extends from Comox on the north to Sooke on the south, a distance of approximately 200 miles on Vancouver island, and also comprises a number of the islands in the straits of Georgia.

The new agency office, which forms a part of the new public building in the city of Duncan, has been under construction since last fall, is now about completed and ready for occupancy. As soon as the necessary office furniture and fixtures are installed, the agent will be able to take up his duties in the new building.

During the latter part of May and early June every village and reserve in this agency was visited by myself, in company with the Royal Commission on Indian Affairs, several visits to different portions of this agency have also been made by myself throughout the year.

With the exception of those reserves situated on islands in the straits of Georgia all the villages are easily reached from the main trunk roads through Vancouver island.

The general health of the Indians has been fair, no epidemics having occurred.

The principal sources of income of these Indians are hunting, fishing, working at canneries, hop-picking, stevedoring, boat and canoe building and general day labour. The amount of revenue obtained from the last named source was not as great as has been the case for some years, as the period of depression affected the Indians in this respect to quite an extent. It is possible that the Indians of this agency, now that an abundance of general labouring work at good wages is no longer to be obtained, will give more attention to the clearing and cultivating of their lands. Where the Indians devoted themselves to agricultural pursuits last year they obtained good

SESSIONAL PAPER No. 27

crops. Those who went to the canneries on the Fraser and to the hop-fields at Chilliwack all earned considerable money, as the run of salmon was a big one and the crop of hops was the heaviest for a number of years.

With the exception of the Songhees Indians, the tribes throughout the agency have a poor class of habitations, very little having been done by the Indians during the past year to improve their conditions in this respect. For Indians living so close to civilized centres, they should be much better housed than the great bulk of them are at present.

The reserves at Sooke, Cowichan, on the Saanich peninsula, Nanaimo river, Qualicum and Comox contain a first-class quality of land, and a large amount of cultivation is to be seen at these places. Considerable work in the orchards of the Indians in the matter of pruning and spraying of the trees has been done during the year. Lime and sulphur solution for spraying the trees was supplied by the department to the Indians in the Nanaimo, Cowichan and Saanich districts.

The conduct of the Indians of the Cowichan agency has been, on the whole, very fair during the year, taking into consideration the many temptations they have and opportunities afforded them for obtaining liquor. In this connection the constable for the Cowichan agency, Thos. O'Connell, has done good work in prosecuting both the Indians, for being intoxicated, and the suppliers of intoxicants to Indians. During the past year he has prosecuted 149 cases as follows: April, 12; May, 13; June, 3; July, 11; August, 86; September, 9; November, 5; December, 7; January, 1; February, 2. Of these prosecutions, 40 were made against suppliers of intoxicants to Indians, in 39 of which convictions were secured and heavy penalties inflicted. The number of prosecutions entered by Constable O'Connell under the various clauses of the Indian Act for 1913-14 exceed those of 1912-13 by 20. This is accounted for by the fact that during the fishing season on the lower Fraser river the number of Indians employed at the various canneries was greatly in excess of the previous year, and it will be noted that in the month of August there were 86 prosecutions.

As truant officer Constable O'Connell has, during the year, returned to various boarding and industrial schools 28 pupils who had overstayed their holidays and were picked up at the various centres of Indian employment, at which places Constable O'Connell was doing duty. Six pupils were also returned to day schools.

KEWAWKEWLTH AGENCY.

The boundaries of this agency are Smith's inlet on the north to Cape Mudge on the south, including all islands lying between these points and all that portion of Vancouver island lying to the northwest from Campbell river to the north end of this island.

The Indians earn a living by fishing for the canneries mostly and working at the logging camps. As the run of salmon was very small last season in the Skeena and Nass rivers, the Indians who went to the canneries at those points earned little money; on the other hand those who came south to the Fraser river did fairly well, as last season was what is known as the big year for the salmon run. A number of the Alert Bay Indians who remained at home and were employed at the British Columbia Packers' cannery at that place did very well indeed. The amount of money earned by the Indians at the logging camps during the past season was small, as a large number of the camps throughout this section of the country were closed down early in the year.

The general health of the Kwawkewlth Indians throughout the whole year was good, no epidemics of any serious nature having taken place amongst them.

The reserves for the most part are heavily timbered and very little attempt has been made by the Indians towards adapting themselves to agricultural pursuits.

5 GEORGE V., A. 1915

In the matter of habitations the Kwawkwalths are making some slight advances; their houses are generally of a poor quality, but, as each year passes, new houses are noticed on the various reserves.

The morals of the Indians in this agency have never been of a high standard. In the southern part, however, there appears to be a slight improvement, and I am pleased to state that no serious crimes have been committed in this agency throughout the year.

The potlatch has received a setback during the year. Prosecutions have been made by the Indian agent, acting under section 149 of the Indian Act. In the month of November two Indians were arrested for taking part in a potlatch and were sent up for trial and are now awaiting the hearing of the cases at the spring assizes. If convictions are secured and severe penalties are afflicted on these Indians, it will do more for the uplifting of this nation than all the advice on the part of the agents and missionaries.

The appointment of Dr. T. A. Jamieson, of Campbell River, as medical officer for the Indians in the southern part of the agency during the past year will be very beneficial to the Indians in that part of the country.

NEW WESTMINSTER AGENCY.

During periods of prosperity the Indians throughout this agency may be said to be in a fair condition; they have in the past been able to earn considerable money at farming, fishing, hop-picking, logging, working in the saw-mills, stevedoring, basket-making and general labourer work. The existing period of depression, however, has cut off several of the sources of their revenue.

In the Fraser valley section of the agency the Indians have done well on their farms, and good crops were obtained. Owing to the exceedingly mild weather, their live stock have also thrived.

A fruit-packing school was opened at Sardis during February with 14 pupils, 8 of whom were Indian boys and girls. The Indians seem to appreciate the value of having fruit properly packed in order that it may be put on the market in a good condition and thus ensure a higher price for the products of their orchards than they have been able to do in the past when it has generally been sold on the trees. Good farms are to be seen at Langley, Katzie, Whonnock, Sumas, Harrison River and at all the reserves at Chilliwack. At Pemberton Meadows the Indians have a large tract of splendid land which is capable of producing first-class crops. The Indians have in the past contented themselves with growing potatoes enough for their own consumption and also raising of live stock. The Pacific Great Eastern Railway Company is tapping this section of the country and its line will be in close proximity to the reserve. When the railway is in operation the Pemberton Indians should be able to ship to Vancouver a large amount of farm products for which they can obtain a ready sale.

The department has rendered considerable assistance to the Indians of this agency during the past year in the way of horses, wagons, agricultural implements, seeds, fruit-trees, fencing, etc. Material for ten houses at different reserves throughout the agency was also supplied by the department during the year.

The moral conduct of the Indians may be classed as fair; they will, of course, take liquor whenever they can procure it, and have during the past year been able to obtain a considerable amount, for there always appears to be someone low enough in the scale of civilization who considers it the proper thing to do to supply intoxicants to Indians.

The health of the Indians throughout the agency has been very good, no epidemics of any kind having taken place. During the year Dr. Henderson, of Powell River, was appointed medical officer for the Sliammon, Klahoose and Homalco Indians; and Dr. Inglis, of Gibson's Landing, was appointed to look after the health of the Sechelt Indians as well as the pupils of the Sechelt Indian boarding school.

SESSIONAL PAPER No. 27

In April last the False Creek sub-band of the Squamish tribe entered into negotiations with H. O. Alexander, of Vancouver, representing the Government of British Columbia, whereby they were to receive a cash consideration and leave their reserve at Vancouver and remove to one of the reserves up the Squamish river. The total amount of cash received by the Indians was \$219,750. Nineteen heads of families received \$11,250 each, one Indian got \$5,000 and \$1,000 was paid for the removal of the remains of deceased Indians from the graveyard. No surrender under the Indian Act has been taken by the department's officials for this reserve up to the present time.

On September 27, I took surrenders from part of the Squamish Indians interested in the Yekwaupsum, Ahtsann, Stawamus, Squamish, Skwulwailum, Mamaquum reserves for 1908 areas of land in the beforementioned reserves, located at the head of Howe sound, which are required by the Pacific Great Eastern Development Company for terminals and townsite purposes. The total amount involved in the transaction was \$161,419, of which the Indians will receive 50 per cent in cash and the building of 50 houses on those portions of the Stawamus and Yekwaupsum reserves that the Indians have retained under the agreement, which houses will cost \$12,500. The graveyard is also to be fenced and put in a parklike condition. For right-of-way purposes the Pacific Great Eastern Development Company acquired $4\frac{1}{2}$ acres along the waterfront of the Mission reserve at North Vancouver and about $20\frac{1}{2}$ acres through the Kapilano reserve.

WEST COAST AGENCY.

The new gasoline launch for this agency, which is now about completed, will be a great service to the agent when visiting the reserves and will permit of more time being spent at the villages on each occasion than he can possibly give under the existing transportation conditions of the West Coast.

The chief employment of the West Coast Indians is working in canneries during the summer and early fall months. After the fishing season is over, a great many of them proceed to the hop-fields at Chilliwack and on the American side. They all earned considerable money at the canneries and at the hop-fields at Chilliwack last season, but those who went to the adjoining states did not fare so well. During the winter and spring months a number are engaged in trapping, and a few seal off shore. The Uchucklesit cannery and cold storage plant is in operation all winter and the Uchucklesit Indians as well as some of the Ohiets and Ucluelets with a few of the Alberni Indians have found steady employment. The whaling stations at Sechart and Kyuquot also afford employment for not a few of the Indians. There are about 20 who obtain employment at the saw-mills at Alberni.

The health of the Indians of the West Coast during the year was very good; there was a slight epidemic of mumps among the Kyuquots, Clayoquots and Kelsomaht Indians, but it died out very quickly and did no harm. Of course, there is a great amount of tuberculosis in different forms amongst these Indians. During the year Dr. D. S. Dixon, who took up his residence at Tofino, was given a portion of the medical work formerly done by Dr. Chas. MacLean, of Ucluelet. This will serve a very useful purpose, as those Indians north of Barclay sound will be in much closer touch with Dr. Dixon than they were with Dr. MacLean.

The Indians of the coast part of this agency do nothing in the way of agriculture. The land is poor and it makes even gardening discouraging for them. At practically all the villages each family grows a few potatoes, carrots, turnips and onions. The land of the Opetchisah and Sechart reserves, which are close to Alberni, is of a much better quality and considerable of it has been cleared. The Indians do not make as much of it as they might, owing to the fact that a considerable part of each year they are away at the canneries.

5 GEORGE V., A. 1915

At most of the reserves the Indians have a fair class of habitations, and quite an improvement is noted with regard to cleanliness. The agent has been endeavouring to have the houses, in the different villages, moved to allow of wide streets and yards around the houses, and hopes next year to be able to make a favourable report on this matter.

There has been a decided improvement with respect to the moral conduct of the Indians during the year. There have been no serious charges against any of them and very few cases of intoxicants.

In the months of October and December a large number of Indians, principally from the West Coast, visited Victoria in connection with filing their claims for compensation before the Pelagic Sealing Commissioner, Hon. Louis Audette. In October it was necessary for them to procure from the shipping master a certificate showing the names of the vessels on which they signed and the number of years they had been engaged in the sealing industry; and in December they had to appear before the Commissioner to give evidence with regard to their claims. The number of claims filed was 928, and involves a sum of \$992,280. In both the months above mentioned there were at least 1,000 Indians visiting this city, and it speaks very well for their conduct while here when it is understood that less than a dozen of them were brought before the police magistrate for being intoxicated. While the Commission was in session during December I had Indian Agent Cox come to Victoria to assist the solicitor in getting the cases before the Court, and he rendered valuable services in this respect. I also had Dominion Constable O'Connell on hand to keep an oversight on the Indians while camping around the city, and to him great credit is due for keeping the Indians out of temptation.

REPORT OF TOM WILSON, INSPECTOR OF INDIAN ORCHARDS.

Central Experimental Farm, Ottawa,
April 21, 1914.

DUNCAN C. SCOTT, Esq.,
Deputy Supt. General of Indian Affairs,
Ottawa.

SIR,—I have the honour to submit herewith the report of our officer, Mr. Tom Wilson, on the care of the orchards on the Indian reserves in British Columbia during the year ended March 31, 1914.

In October last I visited several of the reserves on the mainland and on Vancouver island, and was pleased to note the progress which Mr. Wilson records in his report. Having reached a stage where they are able to produce good sound fruit, the Indians now require assistance in disposing of their products. I took this question up with the officers of the Provincial Department of Agriculture, having discussed it fully with Mr. Wilson, who naturally knows the conditions and requirements of the Indians in these respects, and also with Messrs. Byrne and Ditchburne, in order that arrangements might be made whereby the Indians could receive instruction in grading and packing fruit. Mr. W. E. Scott, Deputy Minister of Agriculture, and Mr. Winslow, Provincial Horticulturist for British Columbia, promised to assist us in the matter. A beginning has already been made and the policy will be continued. Further, provided the Indians are able to comply with the requirements of such bodies, they will be able to join the co-operative associations which have been recently established in British Columbia for the marketing of fruit.

The chain, therefore, is now complete, so far as we can make it. The young Indians are receiving instruction in fruit-growing in the schools, and in packing

SESSIONAL PAPER No. 27

and grading should they so wish; the orchards on the reserves are being better cared for and adults can receive instruction in packing and grading. Finally, they could join, provided they fit themselves to do so, the co-operative associations for the marketing of their fruit. There is no reason why the Indians should not, under such conditions, produce as good fruit as the white settlers to whose lands their own are adjacent. Great credit is due to our officer, Mr. Tom Wilson, who has charge of the work and through whose zeal we have been able to attain the present encouraging state of affairs. The various agents have also assisted on all occasions in furthering the work. From its original purpose of eradicating insect pests in the Indian orchards, the work has assumed a more progressive aspect and covers the whole subject of fruit-growing. Full details are contained in the report submitted herewith.

I have, etc.,

C. GORDON HEWITT,
Dominion Entomologist.

DR. C. GORDON HEWITT,
Dominion Entomologist,
Ottawa.

SIR,—I have the honour to submit my seventh annual report on work done in connection with the Indian orchards in British Columbia.

I am glad to report a steady advance among our Indians here, along the lines of horticulture and general agriculture, and I look for the time when many of them will take their places with the progressive farmers of the province. By my advice some of them have become members of farming institutes. What they require are encouragement and instruction; the latter I try to the best of my ability to impart, and I know it is having a good effect.

A class was formed at Sardis, near Chilliwack, in which six whites and eight Indians took part, for the purpose of teaching the best methods of apple-packing. The Indians were all pupils or ex-pupils of the Indian schools, and ranged from sixteen to eighteen years of age. Mr. Loveday, who was the instructor, was enthusiastic about the aptitude shown by the Indians, and I have since heard the same good news from Mr. Winslow, the Provincial Horticulturist. In fact, they beat their white competitors, as they are excellent imitators and have sharper eyes for judging size. I hope to have other schools of the same kind carried on in other parts of the fruit-growing districts during the coming season.

Again, very excellent exhibits were sent in to the Westminster fair last year from some of the bands in the Lower Fraser valley, and also from the Kamloops agency; but they were cramped for room and did not show off to the same advantage as if they had been spread over greater space. As a matter of fact, Mr. Smith had more agricultural exhibits under his platform than he could find room for exhibition. Mr. Smith, Mr. Byrne and I went over to the annual meeting of the directors and entered a vigorous protest in the name of the Department of Indian Affairs against the lack of space, and we were assured that more consideration would be accorded in future.

A large number of trees were supplied to Indians last year, partly to replace those which had been cut out by my orders and partly to some ex-pupils of the Kamloops industrial school. I am glad to say that those have turned out an unqualified success.

At Shuswap the land had all been well prepared with plough and disc, and, when I had measured out the different plots, I set the others to planting, showing them how to spread the roots and also to form the head of the trees. So successful was the planting that we had, less than half of one per cent failures.

I heard from Mr. Winslow, the Provincial Horticulturist, that some of these same people had since been engaged to put out a demonstration orchard near Chase, and

5 GEORGE V., A. 1915

that it had come in second in scale of cheapness and among the first as to excellence of workmanship.

The trees supplied to the Lytton Indians were distributed in smaller numbers, as the land is more broken up. I have seen them from time to time and they have all done exceedingly well. The fruit raised in that section of the country is of very good quality and finds a ready sale locally.

The trees sent and distributed about Chilliwack and neighbourhood were to replace those which I had cut out, and I am in hopes that in a few years' time the old useless stock will have disappeared and vigorous young clean orchards have taken their places.

The fruit crop in the Lower Fraser valley last season was not by any means large nor was the quality high. On account of the extremely wet weather early in the year and this being succeeded by very hot weather, the fungus diseases almost got the better of things. This applied to whites as well as Indians. We had no serious outbreak of any injurious insects except bud-moths and a few of the leaf-rollers; click beetles also did a little damage among the blossoms of plums and cherries, but timely spraying with arsenate of lead prevented very serious damage.

The Chilliwack Indians are on the whole doing very well. Crops were good and good prices prevailed, and most of these Indians are prosperous and contented. The orchards have all been well cleaned up, and a great difference can be noted in the way that burdocks and other noxious weeds have been kept down. The spray pump did the work.

The Katsee people have been doing a considerable lot of cleaning, but the available amount of good land is small and a great part of their living has to come out of the river.

At Langley good progress is being made, and everything points to the continuance of the same. More land is now being cleared, and one or two new families of Indians have moved on and built good houses and are making further improvements.

The Matsqui Indians remain very much as they were last year. There is considerable sickness and destitution among them. They are doing very little good, although they have a beautiful reserve.

The Indians on Harrison river, both of the Scowlitz and Chehalis bands, are doing well, but some of them lost money by leaving their farms to go hop-picking. The orchards have been well looked after and still more land has been fenced and got ready for cultivation.

The Indians of Katz, Skawitz and Ohamel are all doing well, and land-clearing is proceeding. The orchards are well cared for, and they had fair crops last year, which they disposed of locally. They have two spray pumps, which they make good use of. Visits were paid them from time to time, and they gave me much satisfaction.

Between Yale and Hope several places have been abandoned as residences. In one case the owner died and his widow removed to her old village, and only pays a visit now and again to pick the fruit when it is ripe. On another place both the old people have died and the heirs do nothing with the property.

At Union Bar, which up to last year was almost totally deserted, there is now quite a thriving Indian population and some of them are taking much interest in horticulture. I am in hopes that before long it will assume its old state, which from signs must have been populous and industrious.

The Lytton Indians on both sides of the Fraser river had good crops of everything last year. The apples they sold locally, but in most cases, although prices were fair, they had to take it out in trade. There are very few places of any great extent; the largest, about three acres, was renewed last spring.

The Okanagan Indians have done exceedingly well. At Penticton they had medium crops of excellent fruit; but, as there was a fair crop all round and they were not organized in any way, they had some difficulty in disposing of their early fruit. Later on they sold all their winter fruit in bulk to the local exchanges. As yet they do

SESSIONAL PAPER No. 27

not know how to pack, which ignorance militates against them. We hope to have this remedied in future by a packing school, and also a proper organization.

The Osoyoos Indians had some of the finest fruit grown in the country, but their distance from a market (about fifty miles from Penticton) puts them out of business. The nearest point they can sell is at Orville, on the American side, when they have to contend with the duty.

The Nkamaplix band at the head of Okanagan lake have been doing better than before, but I find a disturbing element among them. The orchards are small, and in most cases the varieties poor. We intend this spring to put out some experimental orchards so as to show them the best methods. The same applies to Whiteman Creek, about ten miles further down the lake shore.

In the Similkameen they had the misfortune to lose by death the most progressive chief in the district, Charley Ellison. He had a beautiful orchard, of which he was very proud, and it was always taken care of. The other orchards at Ashnola are smaller, but very fine. In South Similkameen and Chopaka they had some very excellent fruit indeed, which they disposed of at good prices. The spray pumps sent in are used to good advantage.

On the new Songhees reserve near Esquimalt on Vancouver island the people are doing well. The young orchards which were put out last year are being added to and several are now in course of planting. The people do not depend on agriculture for subsistence and the trees have been put out mostly to supply home demand. I have been called in several times for advice, which is usually followed to the letter.

The Esquimalt Indians have their orchards, consisting of a few trees near their homes; but, as they mostly work out, not a great deal of care is taken of them. The trees serve to supply home consumption. Nothing in the way of any dangerous disease is to be seen.

The farms and orchards on Saanich peninsula are all looking well. A great deal of work has been done at Saakim and Tsartlip, quite a number of trees have been put out, which are doing well. The clearing is heavy, but is being continued. Great improvements can be noticed at Tsowat, I had a large number of useless trees and seedlings cut out, and most of the places are now in very good order. Most of the Indians leave their homes in summer and fall and go fishing, so that often the places deteriorate in their absence.

In the neighbourhood of Duncan the best places are on the Koksilla reserve; although none of the orchards are very extensive, the quality that is raised is very good, and the owners can usually sell it to the local merchants. The farms also seem to be better looked after than on some of the other reserves.

A fine amount of work has again been done on Somenos, Quamichan and the other reserves. During the present month (March) the weather has been very favourable for using the spray pump and it has been kept going most of the time. The Indians, except in the case of absentees, always assist in spraying their own places.

At Nanaimo River the Indians are making good progress in agriculture, but last year on account of the very unfavourable season the fruit was of poor quality. In the town camp there has also been a very marked improvement among several individual Indians who have cleared up their places very well, but there remains much to be desired in the way of getting rid of burdocks and other noxious weeds. As part of this reserve lies in the city of Nanaimo, it is very necessary that this should be attended to; but, as most of the men are engaged in different works, mines and saw-mills, it is difficult to get them to attend to this.

In June last a visit was paid to the Babine agency, with a view to finding out the possibilities for horticulture. One hundred and fifty trees were taken up and put out in nursery rows to find out how they would stand the winter.

I saw the remnants of trees that had been put out from time to time, but they were merely struggling for an existence. On making inquiries of several old timers,

5 GEORGE V., A. 1915

I was told that sometimes the temperature went down to 53 below zero, which would preclude the possibility of successful orcharding. I found, however, that strawberries, currants and gooseberries all do well, and judging from the plots of rhubarb in every Indian garden it can be grown to perfection.

I found cut worms of different kinds cutting off such crops as cabbage, peas, spinach and onions, and was told that they had been equally destructive for over twelve years. I was able to give information as to the laying down of poisoned bait. I visited the reserves at Kispiax, Glen Vowel, Hagelget, and also the different places surrounding the agency buildings.

On my return to Prince Rupert, I met Mr. Tyson, the Inspector of Agencies, and accompanied him over the Metlakatla agency, and there marked the progress made by the trees and shrubs which were sent up last year. I found them all in a very satisfactory condition, the growth made having been vigorous and healthy. The Indians have beautiful gardens. Several of them have such shrubs as rhododendron, azalea and spirea, which they have imported from the South.

I have had application from the agents at Bella Coola and Queen Charlotte Islands for shade and ornamental trees and vegetable seeds and fruit-trees; these have been referred to Ottawa.

Visits have been paid from time to time to the different industrial and boarding schools, and instruction in horticultural matters given wherever possible. Many of the ex-pupils are taking kindly to agriculture and horticulture; one I know has been working for two years with a market gardener and florist, and he is as much at home in the greenhouse as he is out in the field. I gave him his first lesson in the business. A new day school has been built near Chilliwack, and, as there is a considerable amount of excellent land adjoining which the Indians have ploughed and harrowed, we hope later on to have the pupils do some gardening—flower and vegetable.

Our spray pumps are now distributed as follows:—1 Sardis, 1 Chilliwack, 1 Cultus Lake, 1 Katsee, 1 Langley, 1 Whonnock, 1 Scowlitz, 1 St. Elmo, 1 Spulmacheen, 1 Head of Lake, 1 Penticton, 1 Kootenay, 1 Alberni, 1 Katz, 2 Saanich, 2 Nanaimo, 1 St. Mary's Mission, 1 Ohamel, 1 Sechelt, 1 Duncan, 1 Trout Creek, 1 North Vancouver, 1 in storage.

In September a suspected attack of fire blight was reported to me at the Kootenay industrial school, and on going there to investigate I found it was a veritable attack. I took immediate steps to have it stamped out. It is strange such an isolated instance of this, as there are no orchards within 8 or 10 miles. Observations will be kept to see there is no further outbreak.

An attempt was made to get the Indians to remove the permanent manure piles which accumulate about their buildings, but only partial success has attended my efforts in this direction.

In conclusion, I have to thank the different inspectors and agents for hearty support and assistance in my work; also several chiefs and individual members of the different bands have helped me most materially, to them my thanks are also due.

I have, etc.,

TOM WILSON,
Inspector of Indian Orchards.

REPORT
OF THE
SUPERINTENDENT OF INDIAN EDUCATION
AND REPORTS FROM INSPECTORS FOR THE FISCAL YEAR ENDED
MARCH 31, 1914.

OTTAWA, June 1, 1914.

DUNCAN C. SCOTT, Esq.,
Deputy Supt. General of Indian Affairs,
Ottawa.

SIR,—I have the honour to submit the annual report upon Indian education for the fiscal year ended March 31, 1914.

The expenditure for the year from the parliamentary appropriation has been as follows:—

Indian Education.	Day Schools.	Boarding Schools.	Industrial Schools.	Ex-Pupils.	Travel and Salaries.	Tuition.	Freight ex-penses.	Mis-cellaneous	Total.
	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	
Ontario.....	33,862 44	50,711 89	45,280 64	271 90	2,112 19	867 29	1,971 84	
Quebec	25,169 37	2,424 44	4,908 48	35 17	1,792 85

	171,730 36	491,029 42	226,430 34	6,651 21	3,216 58	9,157 93	2,790 19	11,480 27	922,486 30

5 GEORGE V., A. 1915

Many bands of Indians, whose funds are sufficient to meet the outlay, willingly assist in providing education. For the fiscal year ended March 31, 1914, the amounts so contributed have been as follows:—

Acct. No.	Band.	Interest.		Capital.	
		\$	c.	\$	c.
1	Ojibbewas of Batchawana.....	895	76		
2	Chippewas of Beausoleil.....	668	00		
3	" Nawash.....	1,687	05		
4	" Rama.....	412	42		
5	" Sarnia.....	1,838	78		
6	" Saugeen.....	2,220	99		
7	" Snake Island.....	201	67		
8	" Thames.....	1,256	48		
9	" Walpole Island.....	190	43		
10	" Fort William.....	6	92		
12	Ojibbewas of Garden River.....	871	55		
13	" Henvey Inlet.....	125	00		
14	" Nipissing.....	1,025	94		
17	Mississaguas of Alnwick.....	697	60		
18	" Credit.....	485	61		
19	" Rice Lake.....	75	00		
20	" Mud Lake.....	375	00		
22	Mohawks of Bay of Quinte.....	2,270	24		
23	Moravians of Thames.....	852	00		
30	Chippewas of Parry Sound.....	636	88		
31	Pottawattamies of Walpole Island.....	7	50		
32	Chippewas of Serpent River.....	3	00		
33	Six Nations of Grand River.....	10,103	26	768	00
36	Chippewas of Thessalon River.....	39	69		
50	Algonquins of River Desert.....	309	47		
82	Ojibbewas of Whitefish Lake.....	480	30		
246	" Sheguiandah.....	413	74		
247	" Sheshegwaning.....	607	07		
248	" South Bay.....	316	88		
249	" Sucker Creek.....	177	04		
251	" West Bay.....	635	45		
		29,886	22	768	00
	Total.....			30,654	22

The amounts expended from capital represent the outlay on new buildings and equipment; while the expenditure from interest represents the current expenses.

The expenditure for Indian education is further augmented by considerable sums provided by the religious denominations engaged in this work. The exact amount of such contributions is not readily obtainable.

The statistics showing the number of children of school age, enrolment and average attendance, together with the pupilage of residential schools printed at the head of each agency report, show the relation borne by the schools to the number of children to be provided for. The census returns published in the annual report for 1913 have been used in this compilation, and the children of school age are those between the ages of 6 and 15.

In some cases the number of children said to be enrolled in the day and residential schools is shown to be greater than the number given of school age. For example, in the Pierreville agency the number of children of school age is given as 75 and the number enrolled 83; again in the Moravian agency the former number is 55 and the latter 66. This apparent discrepancy arises from the fact that some children enter the schools before the age of 6 years and remain after they reach 15, but the main reason is that the age limit for pupils of residential schools is 18.

A comprehensive statistical statement is published among other statistical tables in Part I of the annual report showing the enrolment and attendance at all classes of

SESSIONAL PAPER No. 27

schools, and a tabular statement is given showing the location and general establishment of each residential school.

The progress made last year in educational work has been most encouraging, there having been a noticeable increase in the enrolment and average attendance.

DAY SCHOOLS.

The efforts of the department to increase the efficiency of the day schools is meeting with much success. As higher salaries are now paid, there is not the same difficulty experienced in obtaining qualified teachers. The new buildings erected and the improvements and repairs to the old ones have made the surroundings much more congenial. On some isolated reserves the department has provided living quarters for the teachers, which have added much to their comfort and efficiency. I am pleased to say that, with very few exceptions, teachers have taken a lively interest in their work, which is not wholly confined to the class-room, but includes an earnest endeavour to better the conditions on the reserves. Domestic science, household economy, hygiene and sanitation are given a prominent place in Indian education, with the result that a marked improvement is noticeable in the Indian homes and surroundings. Since the inauguration of school gardens an impetus has been given to agriculture, and the pupils of some of the schools where these gardens are being conducted have received rewards at the local fairs in open competition with their white neighbours.

RESIDENTIAL SCHOOLS.

The principals and staffs of these schools still continue their zealous efforts to impart useful knowledge to the children committed to their charge, and pay strict attention to their moral and religious welfare. The work of erecting modern, well-equipped schools is still continued, and the buildings lately erected compare most favourably with the best class of government buildings in the Dominion.

Assistance to ex-pupils is still being continued, and last year 43 boy and 23 girl ex-pupils were granted assistance to the extent of about \$7,000. Ex-pupils have refunded on loans during the past fiscal year the sum of \$3,252.06. Reports received from agents regarding assisted ex-pupils are encouraging and show that they have made good use of their school training and the assistance given them by the department.

There are a number of orphan and neglected children in the province of Quebec, where there are no residential Indian schools, who have been placed in institutions of this class which have been established by the white communities, for whose maintenance the department allows a per capita grant. The training at these institutions is excellent, and the Indian children benefit from contact with the whites. The number so attending is about 50.

PRINCE EDWARD ISLAND AGENCY.

Number of children of school age.	43
Number of pupils enrolled.	40
Average attendance.	20

Rev. John A. McDonald, Indian superintendent, reports on the school in this agency as follows:—

Lennox Island is the only Indian school in my superintendency. It occupies a beautiful site on the island of Lennox overlooking Richmond or Malpeque bay.

The teacher, John J. Sark, is a son of Chief Sark, and was educated by the department at St. Dunstan's college. He is painstaking and enthusiastic in his work, and his zeal is sometimes taken for severity.

5 GEORGE V., A. 1915

For some months the attendance was small, but with the appointment of Matthew Mitchell, as truant officer, attendance has become more regular. The pupils and parents alike appreciate the advantages of education, and it has a marked effect on their appearance and manner of living. Some Indians who do not reside permanently on the reserve are sending their children to school at Miscouche, Colman, and other places.

The public school inspector who visited this school declared that he found it in a high state of efficiency and in many respects superior to several schools attended by white children.

NOVA SCOTIA.

ANNAPOLIS COUNTY.

Mr. G. Hoyt, the Indian agent, reports on the educational work in his agency as follows:—

There are only ten children of school age in this agency. There are no Indian schools in the agency, but some of the children attend the white schools at Middleton and Lequille.

The children who attend school appear to be very studious and receive every encouragement from their parents.

All the pupils are mannerly.

ANTIGONISH AND GUYSBORO COUNTIES.

Number of children of school age	53
Number of pupils enrolled.	39
Average attendance.	28

Mr. John Cameron, Indian agent, reports on the school in this agency as follows:

The new Indian school at the Afton reserve was opened on December 1, last, with an initial attendance of 34 pupils. This number will be increased in the near future. A visitor is impressed with the cleanliness of the pupils, and their apparent desire to take advantage of the splendid opportunities offered them. Measures for the maintaining of sanitary conditions are strictly observed. The pupils are making good progress for the short time school has been open, and the teacher, Mr. Rogers, is painstaking in his efforts. It is of course early to predict the effect of the opening of the school, but I have no hesitation in saying that the general tone of the Indians will be raised. A spirit of independence will be engendered among the Indians and I think they will eventually discontinue their wandering habits, and will feel that they are in the same class as their white brethren.

A few of the Indian children who are living on the Summerside reservation are attending the public white school.

COLCHESTER COUNTY.

Number of children of school age	12
Number of children enrolled.	11
Average attendance.	6

The Indian agent, Mr. R. H. Smith, reports on educational matters as follows:

Millbrook Day School.

This school has been well attended during the past year and the pupils have made good progress in their studies.

The teacher, Miss J. Scott, does faithful work.

SESSIONAL PAPER No. 27

The school grounds were improved last summer by the digging of a drain and the planting of a spruce hedge. This hedge will add greatly to the appearance of the school.

The homes of the Indians are neat and clean and the Indians themselves are thrifty and progressive.

CUMBERLAND COUNTY.

Number of children of school age..	21
Number of children enrolled..	8
Average attendance..	4

Mr. A. J. Johnson, the Indian agent, reports on the educational work in his agency as follows:—

As there is no Indian school in this county and as the children who attend school are scattered throughout the county, it is rather difficult to give an accurate report.

Miss D. M. Quinn, the teacher at the Franklin Manor white school, reports that the Indian children who attend that school are progressing satisfactorily.

There are 4 children attending the River Hebert public school. Mr. J. H. Fitch, the teacher, informs me that their progress compares favourably with that of the white children, but their attendance is rather irregular.

Miss E. McPherson, teacher at Springfield Junction, reports only one child attending school at that place.

DIGBY COUNTY.

Number of pupils of school age..	18
Number of pupils enrolled..	18
Average attendance..	8

Mr. R. A. Harris, Indian agent, gives the following report on education in his agency:—

Bear River School.

The school is a well constructed wooden building and is equipped with all the necessary apparatus. During the past year the school has been taught by Miss Agatha McGinty and she has proved a very capable teacher. Although the fact that Micmac is the only language spoken in their homes proves a disadvantage to the pupils, still their progress during the past year has been most satisfactory. The benefits of education are shown by the cleanliness displayed by the Indians both in their persons and in their homes.

ESKASONI AGENCY.

Number of children of school age..	20
Number of pupils enrolled..	19
Average attendance..	9.2

The agent, Rev. A. R. McDonald, reports on the Eskasoni school as follows:—

For the last two years this school has been in charge of Mr. James D. McNeil.

The pupils are making quite satisfactory progress. During the past year there has been a marked improvement both in the number of pupils enrolled and in the average attendance.

HALIFAX COUNTY.

Number of children of school age..	38
Number of pupils enrolled..	18
Average attendance..	9

5 GEORGE V., A. 1915

The Indian agent, Mr. D. Chisholm, reports on the educational work in this agency as follows:—

Tuft's Cove Day School.

This school is situated near Dartmouth. The building is well equipped with new desks and all the necessary school furniture.

The teacher, Mr. G. Richardson, is deserving of praise for his earnest efforts on behalf of the pupils.

The attendance is very satisfactory and all the children are making good progress.

General Remarks.—The Indian children at Sheet Harbour attend the white schools. Owing to the irregular attendance they are not making the progress that is desired.

HANTS COUNTY.

Number of children of school age..	18
Number of pupils enrolled..	15
Average attendance..	8

The Indian agent, Mr. A. Wallace, reports on educational matters in this agency as follows:—

Shubenacadie Day School.

This school, which is taught by Miss Mary A. Short, is progressing rapidly.

The attendance is quite satisfactory. The pupils are diligent and learn quickly.

One of the most satisfactory features of education is that the Indians learn English, which is a very great advantage to them in doing business with the whites.

INVERNESS COUNTY.

Number of children of school age..	59
Number of pupils enrolled..	42
Average attendance..	16

Whycocomagh School.

The public school inspector, in his semi-annual report of inspection on this school reports as follows:—

The teacher, Mr. John A. Gillies, previous to his taking charge of this school, taught successfully in several of the public schools of the province and has been more successful than any of his predecessors, but under the adverse circumstances in which he is working, satisfactory progress cannot be expected. The irregularity of attendance and the lack of interest of the parents and children are the chief drawbacks to the progress of this school.

Malagawatch School.

This school is in good condition. Mr. Frank Cabot, an Indian, was appointed to take charge for the winter months. The attendance is fair. The night school, which had been in operation during the past few winters, has been discontinued.

KINGS COUNTY.

Number of children of school age..	15
Number of pupils enrolled..	7

Mr. C. E. Beckwith, Indian agent, reports on the educational matters of this agency as follows:—

SESSIONAL PAPER No. 27

There are no Indian schools in this agency, the Indian children attending the white schools at Berwick, Cambridge, Brooklyn Corner, Wolfville and Halfway River. They are quick to learn, and the parents seem anxious for them to attend school. Some of them are as far advanced as grade 10. They are not very regular in attendance, but this can be accounted for by the distance they live from the school. There is a marked improvement in those who have received an education, which is noticeable in their dress and manner of living. Their houses are kept much cleaner, all refuse being carried away and burned. I think that the decrease of that dread disease, consumption, can be attributed in a great measure to the result of education.

LUNENBURG COUNTY.

Number of children of school age.	23
Number of pupils enrolled.	15
Average attendance.	8

The Indian agent, Mr. N. P. Freeman, reports on the educational matters in his agency as follows:—

The school on the New Germany reserve is in a very satisfactory condition.

The teacher, Miss. E. A. Julian, is much interested in the pupils and reports that they are making good progress. The buildings are in good repair. New seats were put in the school a year ago.

On the Gold River reserve there is no school, but one or two families send their children to the public school.

The ex-pupils are making good.

PICTOU COUNTY.

Number of children of school age.	46
Number of pupils enrolled.	26
Average attendance.	16

Rev. J. D. MacLeod, Indian agent, reports on educational matters in this agency as follows:—

Indian Cove Day School.

This school has been in charge of Miss Gertrude McGirr for several years. Satisfactory work has been done and the pupils are progressing. Eight children live so far away in other settlements that it is quite impossible for them to attend school on the reserve. Micmac is the language exclusively spoken at home. When the children first go to school they do not understand a word of English. This necessarily retards progress in the primary grades. There are five pupils in grade VI, and two in grade V.

Former pupils of the school who have grown to adult age are quite intelligent and their influence on the community must necessarily be beneficial.

RICHMOND COUNTY.

Number of children of school age.	35
Number of pupils enrolled.	35
Average attendance.	14

Rev. R. L. MacDonald, the Indian agent, reports on the educational work in this agency as follows:—

Salmon River School.

This school is taught by Mr. E. L. McNeil, who is apparently doing satisfactory work.

The discipline in the school is good and the pupils appear eager to advance in their studies.

Preparations were made last fall for the starting of a school garden this spring. The ground was cleaned and ploughed and is now ready for fencing. Under the supervision of the teacher I hope that the working of this garden will arouse a greater interest in agriculture.

General Remarks.

There is no doubt the Indian is beginning to understand the necessity of an English education. Many of those who had not the opportunity of obtaining an education in their youth have told me that they do not want their children to grow up handicapped as they are. A number subscribe for English newspapers and have the children read aloud to them. One influence of education is shown in the better dress and deportment of the Indians.

SHELBURNE COUNTY.

Number of children of school age..	4
Number of pupils enrolled..	4

The agent, Mr. J. Hipson, reports on the educational work in this agency as follows:—

The children from this agency attend the public schools and receive the same treatment as the white pupils.

The Indian children, however, do not make as rapid progress as the white children.

SYDNEY AGENCY.

Number of children of school age..	30
Number of pupils enrolled..	25
Average attendance..	12

Dr. J. C. Sparrow, the Indian agent, reports on the Sydney school as follows:—

Miss Margaret Hines has been teaching this school since September 1, 1913.

All the pupils are very young, most of them being about seven years of age. They appear to be very bright and upon examination they read and write well.

VICTORIA COUNTY.

Number of children of school age..	25
Number of children enrolled..	20
Average attendance..	9

The Indian agent, Rev. J. D. McIntosh reports on education as follows:—

MIDDLE RIVER SCHOOL.

Mrs. Annie McNeil, who had been in charge of this school for several years and who had been most successful, resigned last September. She was succeeded by Mr. J. A. McRae, who came highly recommended, and is doing excellent work.

Owing to the indifference of the parents, the attendance is rather irregular. However, most of the pupils have made fair progress during the past year.

A night school has been conducted during the past three months and I think this will stimulate interest in education among the older Indians.

YARMOUTH COUNTY.

Number of children of school age..	5
Number of pupils enrolled..	3

SESSIONAL PAPER No. 27

The agent, Mr. W. H. Whalen, reports on educational matters in his agency as follows:—

Good opportunities for education are offered to the children in this agency. The parents, however, do not take an interest in the school. Those children attending school are very bright and are making good progress.

In future years education will produce good results on this reserve.

NEW BRUNSWICK.

NORTHEASTERN DIVISION.

Number of children of school age.	178
Number of pupils enrolled.	125
Average attendance.	67

Mr. R. A. Irving, Indian superintendent, submits the following report on the schools in his superintendency:—

There are four Indian day schools in this superintendency, Big Cove, in Kent county, Eel Ground, in Northumberland county, Burnt Church, in Northumberland county, and Eel River, in Restigouche county.

Big Cove School.

This school is nicely located on the Big Cove Indian reserve. The present teacher, Miss A. McLaughlin, holds a second-class teacher's license for the province of New Brunswick. She takes a great interest in the school and is doing good work. The attendance has improved during the past year.

Eel Ground School, Northumberland County.

This school building and the outbuildings are in good condition. It is centrally located and beautifully situated on high ground, close to the Miramichi river. The situation is ideal from a sanitary standpoint, the school obtaining nothing but the purest of air and the best drainage. The teacher is Miss Margaret Isaacs, a Micmac Indian girl, who received her education in the province of Quebec. She is well educated and has had considerable experience in teaching. In addition to the usual subjects, she also teaches the children to sew and do fancy-work, in which great progress is being made. The pupils like the work and the parents take a deep interest in it. Miss Isaacs also instructs the women of the band in cooking and general domestic household work.

Burnt Church School, Northumberland County.

This school was built in the year 1910 and is up-to-date in every respect. It has a fine location overlooking the beautiful Miramichi river. Miss Laura C. Geraghty is in charge. She is a qualified teacher and is making favourable progress with her pupils. In addition to the regular studies, instruction is also given in sewing and fancy-work. The teacher is well liked by her pupils as well as by the band, which she greatly assists by her kind advice and instructions.

Eel River School, Restigouche County.

A trial school was opened upon the Eel River reserve, and the dwelling-house of Peter Prisk upon the said reserve was leased, repaired and fitted up for that purpose. Miss Marie LeBlanc is in charge. The attendance is good and the pupils seem to be making satisfactory progress in the various subjects taught. The good results are much beyond my expectation.

General Remarks.

There are no Indian day schools on the other reserves, but the Indian children are permitted to attend the neighbouring white school upon payment of a small tuition fee. Those that attend school make good progress and I think pick up the English language much more quickly than the Indian children who attend the regular Indian day schools. Their mixing with the white children seems to have a civilizing influence upon them. The results are certainly good.

The deportment of the children for the past year in the different schools was remarkably good, which is due, of course, to the careful training by the teachers, who are disposed to do their very best for their pupils. I find the Indian children quick to learn, and, were it not for the difficulty they have in learning English, and their irregular attendance, their progress would be much more rapid. There is, however, a notable improvement in attendance, although parents show little interest in education and often keep their children home when they might be at school. The appointment of a truant officer for the various schools, whose duty it is to enforce the regulations regarding the education of Indian children, as well as the giving of prizes and treats, has done much to improve the average attendance. At every meeting of the band at which I am present, I impress upon those present the importance of having their children educated and the advantages to be gained by having their children attend school regularly.

The progress of the Indians who have attended school in the past is quite noticeable, even though their education may be quite limited.

Education has a marked effect on reserve life and makes the Indians both industrious and independent.

NORTHERN DIVISION.

Number of children of school age..	56
Number of pupils enrolled..	61
Average attendance..	39

The Indian agent, Mr. S. P. Waite, reports on the educational work in his agency, as follows:—

Edmundston Day School.

This school has been in operation for the past three years and is taught by Miss V. Dionne.

The pupils are making very satisfactory progress. In addition to the regular studies, instruction is given in sewing, knitting and fancy-work.

A new school building was erected here last year. To celebrate the opening, a public examination and Christmas tree was held in the school and prizes were given to those scholars who had attended school regularly. A number of the parents attended the opening and showed great interest in the work of their children.

Tobique Day School.

The teacher, Miss E. F. McGrand, is doing excellent work at this school.

Miss McGrand insists on the pupils being neat and clean when attending school, and this has a good influence throughout the reserve.

In the evening the teacher conducts classes in domestic science. Meetings are held weekly during the winter months and are attended by several of the parents as well as the children.

Two ex-pupils of this school are taking a course at the University of St. Joseph.

SESSIONAL PAPER No. 27

SOUTHWESTERN DIVISION.

Number of children of school age..	81
Number of children enrolled..	97
Average attendance..	59

The Indian agent, Mr. N. J. Smith, reports on the schools in his agency as follows:—

Woodstock School.

This school is situated on the Woodstock reserve and is taught by Miss G. Brophy. During the past year good work has been done at this school, especially when it is considered that none of the children are over 12 years of age.

Kingsclear School.

Miss R. A. Donahoe is still teaching at this school. A new building was erected here last summer.

The interest taken by the parents in their children's education was especially manifested by the large attendance of parents at a public examination held in the school on December 19, last.

St. Mary's School.

Miss M. T. Hughes, who is in charge of this school, is a careful and painstaking teacher.

The children attending the school are bright and intelligent and will compare favourably with white children.

Oromocto School.

The teacher at this school is Miss B. McCaffrey. Owing to the lack of employment at Oromocto, the attendance at the school is rather irregular and progress is retarded to a certain extent.

General Remarks.

The beneficial effect of education is shown both in the home life and the business life of the present generation of Indians. During the past year the health of the children has been very good.

QUEBEC.

BERSIMIS AGENCY.

Number of children of school age..	83
Number of children enrolled..	69
Average attendance..	42

Jos. F. X. Bosse, M.D., Indian agent, reports on the educational matters in his agency as follows:—

Bersimis School.

This school is devoted to the education of Indian children exclusively.

The school building is rented from the Rev. Eudist Fathers. The interior is divided into two class-rooms, giving sufficient space and pure air for each child.

The Indians are obliged to spend the winter in the woods, hunting, and thus the attendance during the winter is very small. Last summer the sisters in charge of the

school did not take any summer holidays in order that the classes might be open at a time when all the children could attend.

The teachers are the Rev. Sisters of Our Lady of Good Counsel, Sisters St. Frs. Xavier and Marie du Carmel. The children are divided into two classes. The language taught is French, with Indian (Montagnais) as an intermediary.

Several times during the past year I visited the school and I can testify that the sisters take great pains to fulfil their duty to the children.

Escoumains School.

The children on the Escoumains reserve attend the white school of that locality, the department paying an allowance for them. Out of 14 children of school age, 11 are enrolled and attend regularly.

General Remarks.

I have observed more improvement during the past year than the year before, and I trust that there will be still further improvement as a result of the efforts of those who are devoting their lives to the uplifting of the Indians.

CAUGHNAWAGA AGENCY.

Number of children of school age.	490
Number of pupils enrolled at day schools.	352
Average attendance at day schools.	209
Number attending Mount Elgin Institute.	8
Number attending Spanish River Industrial.	42
Number attending Shingwauk Home.	3
Number attending St. Joseph's Orphanage, Ottawa.	18
Number attending St. Patrick's Orphanage, Ottawa.	12

Mr. L. Letourneau, assistant Indian agent, reports on educational matters in this agency as follows:—

Education is just now the most important subject amongst the Indians of Caughnawaga and a greater interest in the educational welfare of the growing generation has been manifested. From my own general observation, the schools of the reserve have been, and are, beneficial to the Indians. I have come into personal contact with a great number of those who have taken advantage of the training imparted by the schools, some of whom are, at the present time, holding lucrative positions with structural iron concerns, many of them being foremen over whites and handling contracts with blue prints, a circumstance only made possible through the teaching of the reserve schools. There are many other instances which might be cited to prove that the schools are a benefit to the Indian.

There are five schools on the reserve; they are pleasantly situated with ample accommodation for all the children of school age. Two are in the rural districts and three are in the village.

I am glad to say that many of the Indian girls have received a fairly good education and some of them have made it a means of earning their livelihood. A few have obtained positions in offices, but do not remain in them long, as they seem more inclined to work in the open air. Education has, however, a most beneficial influence on their conduct and is more appreciated now than formerly. Most of them are bright and intelligent. They marry very young and the good effect of the training they receive in school is shown in the care they take of their homes and children.

SESSIONAL PAPER No. 27

LORETTE AGENCY.

Number of children of school age	98
Number of pupils enrolled	77
Average attendance	56

Mr. A. O. Bastien, Indian agent, in reporting on the school in his agency, states that, as the parents take their children from school at the age of 14 or 15, their progress is not as good as it should be. During the past year it has been noticed that the parents have shown a greater desire for the education of their children, and the attendance of the pupils has been more regular.

The pupils of the first class are beginning to learn grammar, and they are encouraged to write letters and compositions. They have also mastered the main rules of arithmetic and will soon study percentage and interest. Book-keeping, geography of Canada, deportment, drawing and hygiene are also taught. Special attention is paid to the teaching of the Roman Catholic religion and sacred history.

The pupils like the English language very much and learn it without difficulty.

A half-hour lesson in knitting is given each week to the girls by the nuns.

Every month reports are sent to the parents in order to inform them of the conduct, application and assiduity of their children.

MANIWAKI AGENCY.

Number of children of school age	56
Number of pupils enrolled	34
Average attendance	20

Mr. E. S. Gauthier, Indian agent, reports on educational matters in his agency as follows:—

Congo Bridge School.

This school is situated five miles from Maniwaki village. It is a well equipped elementary day school. The teacher, Miss H. J. White, has had considerable experience and is much devoted to her work. A mid-day meal is served to the pupils.

Owing to the parents' neglect, the attendance at the school is not all that could be desired, but better results are looked for in the near future.

Maniwaki School.

The school is one mile from Maniwaki village. This is also a modern school.

The teacher, Miss M. McCaffrey, has been in charge of this school for the last five years and has been most successful.

The attendance is very satisfactory and splendid results are being obtained.

The department furnishes a mid-day meal to the pupils.

MARIA AGENCY.

Number of children of school age	32
Number of pupils enrolled	30
Average attendance	20

Rev. J. D. Morin, Indian agent, reports on the school in this agency as follows:—

Maria Day School.

This is an elementary school and has been in existence for more than thirty years. The progress during the past four years has been most marked.

5 GEORGE V., A. 1915

Miss J. Audet, the teacher for the past four years, has by her efforts won the esteem of the pupils, and the attendance at the present time is most gratifying.

All the children attending the school at the present time are able to speak English. However, French and Micmac are also taught. Lessons in singing and music are also given.

With the assistance of the department there is no doubt that the present efficiency of the school will be maintained. Apparently the Indians realize the value of education, because two of the young girls are now attending Carleton convent in order to obtain their diploma. Education on this reserve is aiding civilization.

OKA AGENCY.

Number of children of school age..	102
Number of children enrolled..	41
Average attendance..	19
Number enrolled at Shingwauk Home..	17

The agent, Mr. C. F. Bertrand, reports on educational matters in his agency as follows:—

Oka Village School.

The pupils attending this school are taught in the English language by Mrs. L. L. Smith, who is a very good teacher.

Those children who attend regularly are making good progress. The building is kept in good order.

Oka Country School.

At this school instruction is also given in English. The teacher is Miss M. Lunan, who is very earnest in her work. The greatest difficulty at this school is that the pupils do not attend regularly.

The building is kept in excellent order. The above schools are conducted under the auspices of the Methodist Church.

In addition to those attending the above two schools, favourable reports have been received concerning the progress of a number of children who attend outside schools: 3 attend St. Philomene school, 2 at St. Isidore school, 7 at Christian Brothers' school, 9 at Congregation de Notre Dame convent, 1 at Ecole du Plateau, Montreal, 2 at Sisters of Charity, Montreal, 1 at Montreal College, 1 at French Methodist Institute, Westmount, 2 at Feller Institute, Grand Ligne, 4 at St. Beucit convent, and 19 at St. Mary's Mission, Grand Ligne.

PIERREVILLE AGENCY.

Number of children of school age..	75
Number of pupils enrolled..	83
Average attendance..	66

The Indian agent, Mr. Jos. Cote, reports on the schools in this agency as follows:—

St. Joseph's Academy.

This educational establishment has been entrusted since its foundation to the Grey Nuns of the Cross, who use all their zeal and experience for the greatest good of the Indians.

This school is attended by 68 pupils, Abenakis children; the teaching is given in English and in French. Mathematics, book-keeping, typewriting, stenography, etc., are taught successfully. Instrumental music is also taught, as the Abenakis are pas-

SESSIONAL PAPER No. 27

sionately fond of music. As a consequence of the good teaching given by the sisters of this academy, I may add that in the year 1913 five pupils, having finished their course, passed the Civil Service examination. These five young people are now in positions in several departments of the Civil Service and are filling these positions most acceptably. Two others expect that there will be places for them in the Civil Service also. I believe that the positions obtained by these young Abenakis constitute the best proof of the advancement and progress of education in the band.

Pierreville Protestant School.

This school, which some ten years ago appeared to be stationary and without progress, deserves to-day to be placed among the number of our good schools. The teacher, who is an Abenakis, is devoted to his work and succeeds very well.

Pointe Bleue Agency.

Number of children of school age.	126
Number enrolled at day school.	90
Average attendance at day school.	60

Mr. A. Tessier, Indian agent, reports on the educational work in this agency as follows:—

The Pointe Bleue school has been recently painted, and the interior has been improved by the installation of two ventilators.

Sister Marie Antoinette and Sister St. Raphael, of the Order of the Good Counsel, are in charge of this school. By earnest devotion to their work, these teachers are making the pupils polite and studious.

Instruction is given in both the French and the English languages. Special attention is given to religious teaching. On the occasion of the last visit of the county school inspector, this school obtained the note 'Excellent.' Out of 180 schools in this district only four obtained this rank.

General Remarks.

The parents now perceive the advantage of education for their children and make it a duty to send them regularly to school. The parents are becoming more civilized and are keeping their children cleaner. One of the ex-pupils of the Pointe Bleue school is at present preparing to pass her examination for a teacher's certificate before the provincial board of examiners.

RESTIGOUCHE AGENCY.

Number of children of school age.	110
Number of pupils enrolled.	80
Average attendance.	48

The Indian agent, Mr. J. A. Pitre, reports on educational matters in this agency as follows:—

The day school on this reserve is conducted by the Sisters of the Holy Rosary, who have professional qualifications.

In addition to the regular course of studies, special instruction is given in sewing, dressmaking, cooking and general housework.

Particular mention must be made of the progress of the younger girls at sewing. There are two class-rooms in the building as well as a large attic, which is used as a work-room. All the rooms are well furnished and are kept in first-class condition.

Adjacent to the school is a large yard, which affords the pupils ample playgrounds.

Ex-pupils.

The ex-pupils are making an excellent showing. As a result of education, a great improvement can be noticed in the Indians. One ex-pupil is teaching in New Brunswick, while two others are continuing their studies at a convent.

ST. REGIS AGENCY.

Number of children of school age.	312
Number of pupils enrolled at day schools.	226
Average attendance at day schools.	127
Number attending Shingwauk Home.	1
Number attending Mount Elgin Institute.	6
Number attending Spanish River Industrial.	10
Number attending St. Patrick's Orphanage, Ottawa.	2

Mr. A. E. Taillon, Indian agent, reports on the schools in this agency as follows:—

General Remarks.

The general effect of education will, no doubt, tend to a better type of Indian by instilling into him higher ideals and encouraging him to adapt himself to the white man's ways and thereby make himself a worthier citizen.

It is quite noticeable, principally among the young, that many of them are able to speak English quite well.

A truant officer has recently been appointed with jurisdiction over the whole reserve and it is anticipated that the attendance will be improved.

Calisthenics, sewing and fancy-work are taught and some of the girls are very good with the needle.

On behalf of the Indians I desire to tender to the officers of the department thanks for the assistance given to the schools. I must also thank the teachers for their hearty co-operation and efforts to improve the standard of the schools and to assist the pupils.

Chetlain School.

This school is of the latest design and was opened on December 3, last. It is equipped with all the necessary school material and has an excellent system of ventilation. The teacher is Miss M. Gallagher, who has had previous experience in Indian schools and is making good progress here.

Chenail School.

Mrs. Sarah Back is again at her duties and is working faithfully to advance the members of her race.

This school has been repaired during vacation and is now in first-class condition.

As an incentive to work, prizes are distributed in order of merit at the close of the year.

Cornwall Island School.

Miss Katie Roundpoint is still teaching at this school and works faithfully for the welfare of her pupils.

Pupils are conveyed to and from the school during the winter. To encourage the pupils prizes are given at Christmas.

SESSIONAL PAPER No. 27

St. Regis Island School.

Miss Elizabeth Burke has charge of this school, having replaced Miss Minnie White, who resigned last September. She is meeting with very good success and it is expected by next June her pupils will have made considerable progress.

Repairs were also made to this school, consisting of a new porch and the painting of the school.

To the worthy ones prizes are given at the end of the school term.

St. Regis Village School.

The teacher at this school is Miss Nellie Keon, who replaced Miss E. E. Gallagher. Miss Keon is an excellent teacher and is meeting with deserved success. Calisthenics and sewing are taught at this school. This school has been recently repaired and painted. A well has also been dug and a pump installed.

Prizes were distributed in June to those deserving of them.

TIMISKAMING AGENCY.

Number of children of school age.	55
Number of pupils enrolled.	91
Average attendance.	68

Mr. J. A. Renaud, Indian agent, reports on the educational work in this agency as follows:—

Timiskaming Day School.

The school on the Timiskaming reserve is located about one mile north of the village of North Timiskaming.

The school is taught by Sister Monica, a member of the Society of the Good Shepherd. The pupils are attentive and are progressing rapidly in their studies. The prizes given by the department greatly encourage the children.

Summer Schools.

During the past year a summer school was conducted during the months of June, July and August at each of the following places: at Abitibi by Miss Mary A. McDonald, at Long Point by Miss Emily Wabie and at Wolf Lake by Miss Agnes Robinson. At Abitibi there was an average attendance of 24 and at Long Point an average attendance of 11. I had the pleasure of visiting both Abitibi and Wolf Lake schools and the department deserves credit for having opened these schools, because they have proved a great benefit to the Indians.

General Remarks.

Education is proving a great advantage to the Indians of this agency. The majority of the ex-pupils can read and write fairly well and newspapers are received in many homes. The parents are now taking more interest in the education of their children.

ONTARIO.

ALNWICK AGENCY.

Number of children of school age.	43
Number of children enrolled.	40
Average attendance.	18
Number enrolled at Mount Elgin Institute.	7
Number enrolled at Mohawk Industrial Institute.	1

Mr W. Lean, Indian agent, reports on the school in this agency as follows:—

The Alnwick school is in charge of Mr. F. J. Joblin, who has taught here for six years and has given good satisfaction. The attendance and discipline are fair. The school is situated near the centre of the reserve. It is in good repair and the surroundings are clean and orderly. Education is having a most beneficial effect on the Indians. Recent ex-pupils are making a most creditable showing. They are discarding many of the old Indian habits and now compare favourably with their white neighbours.

CAPE CROKER AGENCY.

Number of children of school age..	73
Number of children enrolled..	79
Average attendance..	50

The Indian agent, Mr. A. J. Duncan, reports on the educational work in this agency as follows:—

No. 1 School, Cape Croker.

The teacher at this school is Miss M. Moffitt. As a result of her earnest efforts, and assisted by Rev. J. Cadot, S.J., who neglects no opportunity of impressing on the Indians the necessity of education, the attendance at this school is most satisfactory.

In addition to the regular studies, instruction is given in agriculture, manual training and domestic science.

The school garden has been in operation for some years. The children take a great interest in this work and made a creditable exhibit last year at the Cape Croker agricultural show.

The pupils also show most creditable progress in manual training.

The girls are given special lessons in sewing and cooking.

No. 2 School, Sidney Bay.

This school is in charge of Miss I. McIvor, who has had several years' experience in Indian schools.

The pupils who attend regularly are making good progress and some are taking entrance work.

The school garden has been carried on for the past two years. Last fall the pupils made a very creditable showing of vegetables, grain and flowers at the fall fair.

Instruction is given in hygiene and calisthenics and the girls are taught sewing and knitting.

The school is almost new and quite modern.

No. 3 School, Port Elgin.

This school is situated at Port Elgin and is taught by Mr. Thos. Jones.

The regular course of studies as taught in the public schools is followed in this school.

General Remarks.

As a result of the education received, the Cape Croker Indians compare favourably with their white neighbours. Almost every family subscribes for a magazine relating to agriculture.

SESSIONAL PAPER No. 27

CARADOC AGENCY.

Number of children of school age.	233
Number of pupils enrolled.	178
Average attendance.	72
Number enrolled at Mount Elgin industrial school	129
Number enrolled at Mohawk industrial school.	12

Mr. H. Janes, Indian agent, reports on the schools in this agency as follows:—

There are five schools in this agency: two on the Oneida reserve, and three on the Chippewa reserve.

No. 2 Oneida School.

This school is a frame building, conveniently situated, and is in good repair.

Herbie C. Jamieson, the teacher, is a native of this reserve and holds a third-class certificate. He is doing fairly good work. At Christmas a grant was allowed by the department for the purchase of prizes for those pupils who had attended regularly and had done satisfactory work.

No. 3 Oneida School.

This school is a brick building with basement, furnace and teacher's rooms.

The teacher, Levi Williams, a native of this reserve, has been in charge of this school for the past year, and is doing splendid work.

Bear River School.

This school is situated on the Chippewa reserve and is taught by Miss McDougall, who is doing excellent work.

This building is in good repair, a new slate blackboard having been placed in position last fall.

Miss McDougall and the pupils had a garden in the school ground last summer, and a great variety of vegetables was grown.

Back Settlement School.

This school is also on the Chippewa reserve, and is taught by Lyman Fisher, a Chippewa Indian, who has been very successful. Great interest is taken both by the teacher and the pupils.

River Settlement School.

This school is pleasantly situated on the banks of the Thames river, Chippewa reserve. The teacher is Miss Vining, who is doing splendid work. In addition to the regular studies, the girls are taught needlework and the boys gardening.

General Remarks.

The parents are beginning to realize the value of education and are making their children attend school regularly.

CHAPLEAU AGENCY.

Number of children of school age.	46
Number of children enrolled at Chapleau boarding school.	29

There are no day schools in this agency. Rev. Geo. Prewer, principal of the Chapleau boarding school, reports on that institution as follows: 'The main build-

5 GEORGE V., A. 1915

ing was built several years ago and a number of additions have been made to it from time to time. The buildings now in use would accommodate 33 pupils and a staff of 5. In the regular studies prescribed by the department the pupils have made good progress. Special efforts have been put forth by the staff to teach the English language and I am pleased to say that these efforts have met with great success. Some vegetables were grown in the garden. The girls are given instruction in all branches of household work. Although most of the ex-pupils have returned to the reserve, they are showing that they profited by the years spent in school.

CHRISTIAN ISLAND AGENCY.

Number of children of school age.	61
Number of children enrolled.	32
Average attendance.	18

The Indian agent, Mr. C. J. Picotte, reports on the school in this agency as follows:—

The school is a frame building and is well equipped. The teacher is Mr. James Oliver, B.A., who is a hard worker. Prizes are given at Christmas in order to encourage the pupils to attend school regularly.

Education is doing the pupils a great deal of good.

FORT FRANCES AGENCY.

Number of children of school age.	179
Number of pupils enrolled at day school.	12
Average attendance at day school.	4
Number of pupils enrolled at Fort Frances boarding.	51

The Indian agent, Mr. J. P. Wright, reports on the educational work in this agency as follows:—

Day School.

The school at Manitou Rapids is the only day school in this agency. The school house is an old log building, of very little value. The results obtained at this school have not been very satisfactory owing to the irregular attendance.

Fort Frances Boarding School.

This school is well situated on the shore of Rainy lake. The staff consists of the principal, Rev. Ph. Vales, O.M.I., and five sisters.

During the past year the department has expended a large sum of money on repairs to this school and there is now ample accommodation for 60 pupils.

The principal reports: 'The pupils are making satisfactory progress in the classroom. The girls are carefully instructed in household duties and the boys are taught farming. The attendance during the past year has been very good.'

General Remarks.

I have kept a close observation on the ex-pupils in this agency and I consider that education has an excellent effect on the lives of the Indians. They are more intelligent, dress better and are cleaner and healthier.

SESSIONAL PAPER No. 27

FORT WILLIAM AGENCY.

Number of children of school age	338
Number of children enrolled at day schools	103
Average attendance at day schools	38
Number enrolled at Fort William Orphanage	12
Number enrolled at Shingwauk Home	4

Day Schools.

In this agency the following day schools have been conducted during the past year:—Lake Helen, taught by Miss C. Harrison; Mission Bay, taught by Miss Rose Chaput; and Mountain Village, taught by Miss M. O'Brien.

At each of these schools the attendance during the past year has been most satisfactory and the pupils have made most encouraging progress. The day school at Pic River was closed last June.

Fort William Orphanage.

Sister M. F. Clare, the principal, reports: 'The school is a three-story brick structure and is being enlarged by the addition of two new wings. The programme of studies prescribed by the department is carefully followed. There is a garden in which is grown a large crop of vegetables. The girls are given special instruction in cooking, dressmaking and laundry work. The ex-pupils of this institution are doing well.'

GEORGINA ISLAND AGENCY

Number of children of school age	25
Number of pupils enrolled	23
Average attendance	14

Mr. J. R. Bouchier, Indian agent, reports on the school in his agency as follows:—

The school-house is a comfortable frame building on a cement foundation. It has up-to-date seats and desks and everything is kept in good order.

The teacher, Mr. G. Cork, has a first-class provincial certificate and does his very best to impart knowledge to his pupils. He takes considerable satisfaction in stating that, during the quarter ended December 31, the average attendance had been the largest for years.

Ex-pupils.

Ex-pupils write well and correctly and they are doing much better than those who have not enjoyed the advantages of education.

GOLDEN LAKE AGENCY.

Number of children of school age	40
Number of pupils enrolled	34
Average attendance	18

Mr. Patrick Rankins, Indian agent, reports on educational work in this agency as follows:—

Golden Lake Day School.

The teacher at this school is Miss L. M. Schruder. She has given excellent satisfaction during the past six years.

All the pupils are advancing rapidly in their studies.

In addition to the regular subjects, instruction is given in calisthenics, sewing, art and domestic science.

Special mention must be made of the school garden, which was well cultivated and was one of the features of last year's work.

Ex-pupils of this school are very industrious.

GORE BAY AGENCY.

Number of children of school age.	104
Number of pupils enrolled at day schools.	83
Average attendance at day schools.	45

There are three day schools in this agency and the attendance at each during the past year has been quite large and good progress has been reported.

The Sheshewaning Roman Catholic school is taught by Miss E. C. Leusch. This teacher took the summer course at the Guelph Agricultural College last year and intends to have the children cultivate a garden near the school during the coming summer.

The West Bay school is taught by Miss C. Laferriere, who also took the course at Guelph last year and intends to teach gardening this summer.

The Sheshewaning Anglican school is taught by Mr. W. C. Dunn. This school was opened last October and satisfactory progress is being made by the pupils in attendance.

KENORA AND SAVANNE AGENCIES.

Number of children of school age.	581
Number enrolled at Cecilia Jeffrey boarding school.	45
Number enrolled at Kenora boarding school.	47
Number enrolled at Elkhorn industrial school.	18
Number enrolled at Pine Creek boarding school.	2
Number enrolled at Fort Frances boarding school.	1

Mr. R. S. McKenzie, Indian agent, reports on the schools of this agency as follows:—

Cecilia Jeffrey Boarding School.

This school is situated on Shoal lake, about 45 miles from the town of Kenora, and is conducted under the auspices of the Presbyterian Church.

Since my last report this school has had a large amount of work done to the buildings, and is now in first-class order, and fitted up with all modern conveniences, and is kept very neat and clean. Fire-appliances are first-class, and fire-drill is practised regularly.

The class-room is one of the finest I have seen, with high ceilings, and well ventilated. The teacher, Miss Tena Brodie, who holds a second-class Ontario certificate, is devoted to her work and is very capable and painstaking and the pupils are making satisfactory progress with their studies; calisthenics and games are practised each day with good results.

Practical instruction is given daily to the boys in farm work and care of stock, and the girls in domestic and general housework. The progress made is very marked in every respect. The management of this school is all that could be desired in every respect. The principal reports that the ex-pupils of this school are law-abiding, industrious and progressive, and are making good use of their education.

SESSIONAL PAPER No. 27

Kenora Boarding School.

This school is situated on the Lake of the Woods, about two miles from the town of Kenora, and is conducted under the auspices of the Roman Catholic Church.

This school is well equipped with all modern appliances, water, electric light, and heating apparatus, and is one of the most up-to-date in this district. There are fire-escapes from all parts of the building and fire-drill is practised regularly. The boys are taught farming and care of stock, as well as out-door sports. The girls are instructed in making new garments, mending, knitting and sewing, as well as calisthenics and games.

The class-rooms are in perfect order and well conducted in every way, and the progress made during the year is very marked. The teachers are very devoted to their work and are doing all in their power to make this school first-class.

Ex-Pupils.

The majority of ex-pupils living on the reserves are doing very nicely, and the education they have received at the schools is proving of great benefit to the Indians. They live better, dress more like white men and women, and keep their houses in much better order, and are giving the others a good example generally.

There are no day schools in these agencies.

MANITOWANING AGENCY.

Number of children of school age.	430
Number of pupils enrolled at day schools.	180
Average attendance at day schools	91
Number of pupils enrolled at Shingwauk Home.	3
Number of pupils enrolled at Spanish River industrial.	147

Mr. Wm. McLeod, Indian agent, reports on the educational work in this agency as follows:—

There are 7 day schools in this agency:—

- Wikwemikong—Miss A. Duhamel, teacher.
- Wikwemikongsing—Miss M. I. Mercier, teacher.
- South Bay—Miss E. Frawley, teacher.
- Buzwah—Miss L. A. Dodd, teacher.
- Whitefish Lake—Miss J. Jalbert, jr., teacher.
- Sheguiandah—Rev. W. H. Trickett, teacher.
- Sucker Creek—Mrs. E. Fairbanks, teacher.

These schools are in charge of good teachers, some of whom have had practical experience as teachers of Indian schools for many years. Sucker Creek and Sheguiandah schools are under the Church of England, the other five schools are conducted under the auspices of the Roman Catholic Church.

At Wikwemikongsing and South Bay the teachers take care, during the week, of several pupils whose parents live at too great a distance from the school to permit regular attendance.

At Wikwemikong, South Bay and Wikwemikongsing, the teachers give the female pupils instruction in cooking, sewing and knitting, and a number of these pupils are capable of making their own garments, for which the department supplies the material.

Buzwah school is situated about one mile from Manitowaning. This school has been closed for the past ten years. Last fall this school was repaired and refurnished, and was re-opened on September 1.

5 GEORGE V., A. 1915

Whitefish Lake school is situated on the Whitefish Lake reserve about four miles from Naughton on the Soc branch of the Canadian Pacific railway. The attendance is fair.

Spanish River Industrial School.

The Wikwemikong industrial school was moved to Spanish, Ont., during the past summer, and is now known as the Spanish River industrial school.

Rev. L. N. Dugas, S.J., the principal, reports: 'This school is constructed of steel and cement and has accommodation for 250 pupils. Since the opening of the school the children have made excellent progress in the usual studies prescribed by the department. The boys receive practical lessons in farming and shoemaking, and the girls are taught sewing and domestic science. Our ex-pupils are making a most satisfactory showing.'

General Remarks.

The Indian parents in this agency are beginning to take more interest in the education of their children and appreciate the encouragement and assistance given by the Department of Indian Affairs.

MISSISSAGUAS OF THE CREDIT AGENCY.

Number of children of school age in the band..	42
Number of pupils enrolled..	36
Average attendance..	17
Number of children attending Mohawk Institute..	5
Number of pupils attending Mount Elgin Institute..	2

Mr. W. C. Van Loon, Indian agent, reports on the school in this agency as follows:—

The day school on the reserve is well situated on 15 acres of land, reserved for school and public purposes, near the centre of the reserve.

I am pleased to report an increase in the attendance of pupils. I also notice that more interest is being taken by them. Those who attend regularly make good progress. The ordinary routine of studies is followed. Calisthenics and hygiene are also taught regularly. Since the summer holidays this school has been taught by Gilbert S. Monture, a young Six Nation Indian, who has proved to be a very satisfactory teacher. He takes great interest in his work and gets along well with the pupils.

We look for considerable improvement in the present year.

MORAVIANTOWN AGENCY.

Number of children of school age..	55
Number of pupils enrolled..	59
Average attendance..	29
Number of children attending Mohawk Institute..	5
Number of children attending Mt. Elgin Institute..	2

Mr. Ed. Beattie, Indian agent, reports on educational matters in this agency as follows:—

The Moraviantown school is a modern brick structure. The teacher is Mr. B. Gardiner, who is making every effort to advance the pupils under his care.

A library, composed of books suitable for children, has been recently installed and should prove very beneficial to the pupils.

SESSIONAL PAPER No. 27

The children attending school are bright, well dressed and clean.

Owing to education, there is a noticeable improvement throughout the reserve. Many of the ex-pupils are holding lucrative positions and compare favourably with their white neighbours.

This year special attention will be paid to gardening in order to stimulate interest in the agricultural possibilities of the reserve.

PARRY SOUND SUPERINTENDENCY.

Number of children of school age..	91
Number of pupils at day schools..	106
Average attendance..	41
Number enrolled at Spanish River industrial school..	2
Number enrolled at Mount Elgin industrial school..	3

The Indian superintendent, Mr. Alex. Logan, reports on this superintendency as follows:—

Owing to the closing of Skene school, Parry Island, there are now only four Indian schools in this superintendency. One at Parry Island, one at Henvey Inlet, one at Shawanaga, and one at Gibson reserve, Muskoka.

No. 1, Ryerson School, Parry Island.

This school is at the upper end of the island, about two miles from Parry Sound. Mrs. Yarwood, the teacher, resigned at the end of the year, and a new teacher, Miss Francis Munt, has been engaged. She holds a third-class certificate and has had considerable experience in teaching in old Ontario.

No. 2, Shawanaga.

Shawanaga is about 23 miles from Parry Sound on the Parry Sound-Sudbury Canadian Pacific railway. The teacher is Miss Currie Tutt. She is doing excellent work, and the attendance is improving.

No. 3, Henvey Inlet.

This school is in charge of an Indian teacher, Joseph Partridge, who lives near the school, in a cottage built and furnished by the department. The children that attend do very well with the work, but truancy is very frequent.

No. 4, Gibson School.

This school is located on the reserve, nine miles from the Canadian Pacific railway, and is in charge of a Miss Leona Lutz, who took charge after mid-summer vacation. She seems to take an interest in her Indian pupils and is doing good work.

RAMA AGENCY.

Number of pupils of school age..	70
Number of pupils enrolled..	68
Average attendance	29

Mr. C. W. Myers, Indian agent, reports on the Rama day school as follows:—

The new school and teacher's residence was opened on January 26, 1914. It is a large brick structure with a stone foundation and is heated by a hot-air coal furnace.

5 GEORGE V., A. 1915

It is one of the most up-to-date rural schools in the province of Ontario. There are two rooms, one for junior and the other for senior pupils. Miss Waite is in charge of the senior class; while Miss McBain, who has already taught on this reserve for some years, is doing good work with the junior class.

Special attention will be paid this summer to the school gardens.

The Indian children have a natural talent for singing and music. The penmanship of a number of the pupils is excellent.

The parents are now taking an increased interest in the education of their children.

Having had trouble with irregular attendance in the past, a truant officer has been appointed recently.

RICE AND MUD LAKE AGENCY.

Number of children of school age.	57
Number of pupils enrolled.	57
Average attendance.	37

Mr. R. J. McCamus, Indian agent, reports on educational matters as follows:—

Rice Lake School.

This is a union school, both white children and Indians attending it. They agree well and seem to be equal in intelligence. Miss M. E. Throop makes an excellent teacher and the pupils are making rapid progress.

The interest that the children take in the school garden promises to have a far reaching effect on the reserve.

Mud Lake School.

The teacher is Mr. H. C. Buffam, who is making good progress with his pupils. All the children seem very bright.

The ex-pupils are manifesting much interest in the work of the school and further progress can be expected.

SARNIA AGENCY.

Number of pupils of school age.	96
Number of pupils enrolled.	77
Average attendance.	40
Number enrolled at Mt. Elgin Institute.	12

Mr. T. Maxwell, the Indian agent, reports on educational work in his agency as follows:—

In this agency there are three schools: St. Clair, taught by Miss A. Matthews; Kettle Point, taught by Mrs. A. George; and Stony Point, taught by Miss A. Weaver.

All these schools have been conducted most satisfactorily during the past year; the great hindrance to more rapid progress being irregularity of attendance.

The teachers are interested in their pupils and are doing all they possibly can for their welfare.

All the schools are well equipped and are surrounded by large playgrounds.

The teachers also give instruction in school gardening.

SESSIONAL PAPER No. 27

SAUGEEN AGENCY.

Number of children of school age.	80
Number of pupils enrolled.	99
Average attendance	77
Number enrolled at Mount Elgin industrial.	4
Number enrolled at Shingwauk Home.	2

Mr. T. A. Stout, Indian agent, reports as follows:—

There are three brick schools on this reserve and two teachers' residences.

Saugeen Village School.

This is an exceptionally good building and well equipped, having individual desks and the very best blackboards.

A supply of suitable books furnishes interesting reading for the pupils.

Miss Isabel Buxton, the teacher, is meeting with much success.

In addition to the regular subjects, sewing is taught.

Scotch Settlement School.

This building is in good repair. A new library was added last year. Mrs. B. Robb, who has had charge for the last three years, is doing excellent work. Sewing and singing are taught as supplementary subjects. A successful entertainment was held at Christmas.

French Bay School.

This school is in good repair and a library has also been supplied. Mr. G. J. Wallace, the teacher, is meeting with much success. The pupils are very proficient in singing and reciting. The Christmas entertainment was a credit to both teacher and pupils.

General Remarks.

The ex-pupils do not appear to have any ambition for higher education. Still, it is noticed that those who have secured a good primary education can secure good positions.

By the improvement in reserve life, it is quite evident that education has a very beneficial effect on these Indians. A number of the Indians take a weekly paper and some a daily paper, and thus they are kept in touch with the affairs of the country.

SAULT STE. MARIE AGENCY.

Number of children of school age.	188
Number of pupils enrolled.	153
Average attendance.	92
Number of pupils enrolled at Shingwauk Home.	2
Number of pupils enrolled at Fort William Orphanage	12
Number of pupils enrolled at Spanish River industrial school.	8

Mr. A. D. McNabb, Indian agent, reports on the schools in this agency as follows:

Garden River Anglican School.

This school is taught by L. F. Hardyman, who is very painstaking. Special efforts are being made to increase the attendance.

At the Christmas entertainments the pupils acquitted themselves very creditably. There is a marked improvement in this school during the past year.

5 GEORGE V., A. 1915

Garden River Roman Catholic School.

This school is in charge of Miss I. M. Ryan.

While the attendance has not been good in the past, it will improve in the near future. The children are well trained and are showing progress.

Gou'ais Bay School.

This school is in charge of Miss Annie Kehoe, who takes great interest in her work. The attendance and discipline are good, and progress is encouraging. I notice a very marked improvement in this school in the past year.

In addition to her regular duties as teacher, Miss Kehoe has been appointed to do field matron work on the reserve, and I find a great improvement in the conditions generally.

Batchawana Bay School.

This school has been in charge of Miss Mary F. Mercier since November 8. I have not visited this school since Miss Mercier took charge, but from reports she is doing fairly well.

Michipicoten School.

Miss Annie O'Connor is in charge of this school. The attendance is not very satisfactory.

As far as I can ascertain, Miss O'Connor is doing all in her power to advance the children in their studies.

SCUGOG AGENCY.

Number of children of school age.	9
Number of pupils enrolled.	6
Average attendance.	5

Mr. A. W. Williams, Indian agent, reports on the day school as follows:—

This is a union school, both white and Indian children attending it.

The teacher is Miss Bruce, and good progress is being made.

The attendance is small, as the Indians do not seem to realize the value of education, although they are losing many opportunities for advancement by their neglect of the educational facilities provided.

SIX NATIONS AGENCY.

Number of children of school age.	824
Number of pupils enrolled.	478
Average attendance.	248
Number enrolled at Mohawk Institute.	126

Mr. Gordon J. Smith, Indian superintendent, submits the following report on the schools in his agency.

Trustees.—The schools are under the management of a school board composed of three whites representing respectively the New England Company, the Methodist and the Anglican Churches, five Indians appointed by the council, and the superintendent, who is ex-officio chairman. Regular meetings were held during the year. An annual grant of \$5,450 is made by the council for payment of the salaries of teachers, truant officer and inspector.

T. W. Standing, B.A., public school inspector of Brant county, is engaged as inspector. By a recent decision of the council and board the services of a regular

SESSIONAL PAPER No. 27

truant officer were dispensed with and his duties will be undertaken by the Indian trustees.

No. 1 School.

The teacher, Elmer Jamieson, B.A., is an Indian and a graduate of McMaster University.

The school is a new frame building with special ventilation system, and is situated in an advanced portion of the reserve.

No. 2 School.

The teacher of the senior room is John Clark. He has a third-class certificate and has been teaching on the reserve for 14 years. Two of his pupils passed the last entrance examination.

The teacher of the junior room is Miss H. A. VanValkenburg.

The school is a two-roomed brick building with cement basement. It has recently been renovated and repaired and is situated in the village of Ohsweken.

No. 3 School.

The teacher at this school is Miss E. J. Ross. The school is a new frame building with a special ventilation system.

No. 4 School.

The teacher is Mr. Sam Anderson, an Indian. He passed the summer course at the Ontario Agricultural College. One of his pupils, Elvira Garlow, obtained the highest marks of any Indian pupil from reserve schools at the last entrance examination and will receive the council's silver medal. Mr. Anderson is also conducting a successful night school. The school is a new frame building with a special ventilation system. The grounds are ample and well shaded.

No. 5 School.

The teacher is Mr. James D. Moses, an Indian. The building is old, but the council intends to replace it with a new building. The Indians in this section are well advanced.

No. 6 School.

The teacher is John R. Lickers, an Indian, with twenty-five years' experience. In this section it is difficult to get the parents interested, as many of them are berry-pickers and take their children away with them every spring.

No. 7 School.

The teacher is Miss L. C. Dalley, who holds a first-class English certificate. The building is a new frame one with special ventilation system and ample grounds.

No. 8 School.

The building is an old one, but has recently been thoroughly renovated and furnished with a special ventilation system. The teacher is Mr. A. L. Hatzan.

No. 9 School.

The teacher is Miss B. B. White, an Indian, who has had several years' experience. A night school is also conducted by this teacher. The building is brick. The Indians in this section are very progressive.

No. 10 School.

The teacher is Miss J. L. Jamieson.

The building is brick and is surrounded by ample and well shaded grounds. As a number of the Indians in this section are pagans, it is difficult to obtain a regular attendance.

No. 11 School.

The attendance at this school is not all that could be desired. The regular teacher is Mr. T. W. Draper, who is at present attending the normal school, and Miss E. M. Lee is teaching in his place.

Ex-pupils.

Graduates of the reserve schools are obtaining higher education at the following schools: 10 at Caledonia high school, 3 at Brantford collegiate, 2 at Hamilton collegiate, 1 at Waterford high school, 3 at Ontario Agricultural College, at Brantford Conservatory of Music, 1 at Denison University, Granville, Ohio; 1 at McGill Medical College; 1 in Chicago for post graduate medical work; 1 at Alberta Normal School; 3 are training as nurses.

The occupations of some of the others are: 1 teacher on New Credit reserve, 6 teachers on Six Nations reserve, 4 graduate nurses, 2 stenographers, 2 practising medicine in the United States, and 1 clerk in the Indian Office.

Six Indians passed the entrance examination last June, of whom three were prepared in the reserve schools and three in rural public schools.

General Remarks.

The attitude of the council is a fair indication of the feeling towards education. The council has recently built four new schools, and plans are being prepared for two more to replace old buildings. It has also offered five scholarships of \$100 each to assist Indians to qualify at Normal Schools. It is willing to pay an increased salary to qualified teachers, but these are hard to obtain owing to the great demand for such among the whites. Some Deists still resist compulsory school attendance, but I believe the opposition is decreasing. Illiteracy is rarely found among the rising generation.

I consider that the day schools are doing good work. The teachers are most faithful.

STURGEON FALLS AGENCY.

Number of children of school age	102
Number of pupils enrolled	125
Average attendance	68

Mr. George P. Cockburn, Indian agent, reports as follows on the educational work in his agency:—

Nipissing School.

This school is situated on Beaucage bay. The building is large and comfortable, and furnishes ample accommodation for the pupils in attendance as well as living quarters for the teacher. The school is well supplied with all the necessary equipment. Miss Tackney is in charge and takes great interest in her work. The children appear to learn rapidly and are progressing favourably. In addition to the regular studies the children are taught sewing, calisthenics and hygiene. A school garden was one of the features of last year's work.

Garden Village School.

The teacher at this school is Miss McDermott. She takes great interest in the advancement of her pupils.

SESSIONAL PAPER No. 27

The school building is comfortable and is surrounded by well fenced playgrounds. Hygiene, calisthenics and sewing are taught, in addition to the regular course of studies.

Bear Island School, Timagami.

This is a summer school and for the last three years has been in charge of Miss Honan, who is an undergraduate of Queen's University. Miss Honan has done excellent work at this school and the pupils have made most satisfactory progress.

The children residing in Mattawa attend the separate school of that town and are progressing rapidly. The department pays a grant of \$250 for the education of these children.

General Remarks.

The Indians are beginning to realize the value of education and are now taking an active interest in the welfare of their children. The benefits of education are shown not only in the pupils themselves, but also in the general improvement in the mode of living of all the Indians on the reserve.

The ex-pupils are proving to be both competent and industrious and are quite equal to their white neighbours.

It is a noteworthy feature that a large number of the Indians now speak English fluently.

THESSALON AGENCY.

Number of children of school age	91
Number of pupils enrolled at day schools	83
Average attendance at day schools	52
Number enrolled at Spanish River industrial school	32

Mr. Samuel Hagan, Indian agent, reports on the schools of this agency as follows:—

Thessalon Day School.

This school has been satisfactorily taught for the past two years by Miss L. C. Shaddeau. She attended the 1913 summer course at the Guelph Agricultural College and passed her examination with honours. The school is a comfortable building, with up-to-date furnishings. In addition to the regular subjects the pupils are taught knitting, sewing, cooking, horticulture and botany.

Mississagi Day School.

This school is still taught by Miss Lillian McGoey, who continues to be very energetic, and is highly competent.

The school is doing remarkably well. The children are attending regularly and are progressing favourably. They are taught the usual studies, also knitting, sewing and cooking.

The school is very comfortable and contains two extra rooms on the ground floor for the use of the teacher.

Serpent River Day School.

This school is taught by Mrs. G. H. MacKay, who has been in charge for a great many years.

A new roof was placed on the school building in 1913.

The pupils are doing well and are regular in their attendance.

5 GEORGE V., A. 1915

Spanish River Day School.

This school is on the north side of the Spanish River reserve. It is a log building, but is kept in first-class repair.

Arrangements have been made for supplying meals for those pupils who live at a distance from the school. A good attendance is thus obtained. The teacher is Rev. T. H. Young.

Sagamook School.

This school is taught by Miss Rose Fagan, who has had several years' experience. In addition to the regular subjects instruction is given in sewing, knitting, cooking and horticulture. The attendance is improving and the progress is excellent.

Spanish River Industrial School.

This school contains several apartments and has accommodation for 115 pupils.

There is an excellent staff of teachers in charge, and this school will be a great benefit to the district and to the other schools in this agency.

General Remarks.

It is noticeable that education has a refining effect on those families whose children attend school.

I regret that I cannot speak as well for the male ex-pupils as for the females. These young women keep their houses as clean as any of the white people. They are good cooks and most of them make their own clothes.

TYENDINAGA AGENCY.

Number of children of school age.	277
Number of children enrolled at day schools.	115
Number enrolled at Mohawk Institute.	14

In this agency there are four day schools.

Mission School.

The teacher at this school is Alexander Leveen. The attendance during the past year has been very satisfactory. Public School Inspector H. J. Clarke, in a recent report on this school, states that the teacher is doing good work and that the pupils are progressing rapidly.

Central School.

Miss Florence Fletcher, who has had six years' experience, is in charge of this school. The attendance has been good and the inspector states that the teacher is meeting with deserved success.

Eastern School.

This school is taught by T. Irvine Brant. Owing to the indifference of the parents the attendance at this school has not been as large as it should have been. However, the inspector reports that Mr. Brant takes great interest in his pupils and that the children are doing as well as could be expected under present conditions.

SESSIONAL PAPER No. 27

Western School.

The teacher at this school is Miss E. Picard. The attendance has been most satisfactory during the year. The inspector reports that the teacher is doing good work.

WALPOLE ISLAND AGENCY.

Number of children of school age.	127
Number of pupils enrolled at day schools.	87
Average attendance at day schools.	39
Number attending Mount Elgin Institute.	6
Number attending Shingwauk Home	14

Mr. T. A. McCallum, Indian agent, reports on educational matters as follows:—

There are two day schools in this agency.

No. 1 school is situated on the west side of Walpole island. Some difficulty has been encountered in obtaining a suitable teacher, but good results are expected from the recent engagement of Miss McRorie as teacher.

No. 2 school is in the southern portion of the island and is taught by Mr. J. Sampson, an Indian. The pupils at this school are making good progress.

General Remarks.

In addition to those who attend Shingwauk Home and Mount Elgin Institute, there are 12 pupils at the industrial school at Mount Pleasant, Mich.

Education is improving the condition of these Indians and is making them law-abiding citizens.

MANITOBA.

BIRTLE AGENCY.

Number of children of school age.	97
Number enrolled at Birtle boarding school.	53
Number enrolled at Pine Creek boarding school.	3
Number enrolled at Sandy Bay boarding school.	2
Number enrolled at Cowessess boarding school.	1
Number enrolled at Qu'Appelle industrial school	3

Mr. G. H. Wheatley, Indian agent, reports on educational matters in this agency as follows:—

Birtle Boarding School.

This institution is situated in the town of Birtle and is conducted under the auspices of the Presbyterian Church.

The renovations to the building are now completed and the whole school is in first-class order.

The school is in charge of an efficient staff, who have obtained excellent results.

The girls are carefully instructed in housework and sewing. The boys are taught farming, gardening and the care of stock.

In the report submitted to the department, the principal, Rev. D. Iverach, states that the farming operations during the past year were most successful. At the annual fair held at Birtle, the school won a number of prizes for garden products.

Ex-Pupils.—The progress made by the majority of the ex-pupils has been encouraging, although a few have not settled down to farm for themselves, but prefer to

work for farmers in the vicinity of the reserve. These will in time start for themselves when they see the progress made by those who attend closely to their work.

There is no doubt that the example of the ex-pupils has a good effect on all the reserves. The Indians, as a whole, are in favour of having their children educated. The assistance given to ex-pupils by the department is much appreciated and excellent results can be looked for in the future.

CLANDEBOYE AGENCY.

Number of children of school age.	137
Number of pupils enrolled.	159
Average attendance.	72

The Indian agent, Mr. F. W. R. Coleleugh, reports on educational matters in this agency as follows:—

There are five day schools and one boarding school in this agency. Some of the children from the old St. Peter's reserve attend the Patapun public school.

Hole River Day School.

This school is in charge of Rev. G. Smith, a Church of England missionary, who is doing good work.

When I visited the school, I found 10 pupils present. The average attendance for the past quarter was 7.

Black River Day School.

This school has been taught by Mr. J. Henderson, an Indian. As the Indians on this reserve have recently refused to send their children to school, this school has been closed.

Upper Fort Alexander Day School.

This school is in charge of Rev. C. H. Fryer, Church of England missionary, who is a very good teacher and takes a great interest in his pupils.

Mr. Fryer is also the medical dispenser on this reserve and is a great assistance to the Indians when they are ill.

There were 21 pupils present on March 13, and the average attendance was 15.

Brokenhead Day School.

Mr. John Sinclair took charge of this school on November 19, 1913. Considering the class of pupils at this school, Mr. Sinclair is doing very good work.

The number on the roll is 16 and the average attendance for the last quarter was 8.

North St. Peter's Day School.

Mr. P. Harper, an Indian, is doing good work as teacher of this school.

There are 45 children of school age in this district and 42 of these are enrolled.

Patapun Public School.

This school is situated on the old St. Peter's reserve and is taught by Miss E. W. Fingland, who is doing very good work.

Last quarter, there was an average attendance of 21, all of whom were from the old St. Peter's reserve.

SESSIONAL PAPER No. 27

Fort Alexander Boarding School.

The principal, Rev. A. P. Bousquet, O.M.I., reports:—

A new addition has been built during the past year and the building is now in first-class order. In the class-room the pupils have made excellent progress. A great effort has been made during the past year to increase the acreage under cultivation. The boys are receiving practical instruction in farming. The girls are taught sewing, cooking and general housework. The ex-pupils of this school are doing well.

This institution is doing excellent work.

FISHER RIVER AGENCY.

Number of children of school age	501
Number of pupils enrolled	244
Average attendance	93

Mr. T. H. Carter, Indian agent, reports on the schools of this agency as follows:—

South Peguis School (Church of England).

The teacher is Mr. H. J. Francis, who has done good work, I have made several visits to this school and have been pleased with the work and behaviour of the pupils.

North Peguis School (Church of England).

The teacher at this school is Mr. Lionel Francis, who has been in charge since September 1, 1913.

Mr. Francis is well liked and is doing excellent work; the attendance has greatly increased and the children are progressing as well as can be expected.

Fisher River School (Methodist).

This is a very satisfactory day school, well attended and well managed.

The excellent work performed by Miss E. M. Jotcham is being continued by Miss E. N. Royan, who took charge in September, 1913. The pupils are making good progress in the subjects taught, which include calisthenics and singing.

The manners of the children attending this school are a credit to the teachers.

Grand Rapids School (Church of England).

This school is in the charge of the Rev. C. Morris. The attendance is only fair. I was agreeably surprised, when I visited this school in the month of October last, to find the pupils so well up in their studies; calisthenics and singing were especially good. Considering the irregular attendance, Mr. Morris deserves great praise for the progress of the children in his care.

Poplar River School (Methodist).

The teacher of this school is Miss E. Steadman .

Owing to the fact that the people of Poplar River are hunters, and absent a great part of the time, the attendance at the school is very irregular. There were no children attending when I visited the reserve in October, owing to the freezing up of the river, which made crossing unsafe and almost impossible.

Berens River School (Methodist).

I visited this school on March 13, 1913. There were only 7 pupils present.

The work examined was very good. Mr. P. E. Jones was the teacher then, but Mrs. J. H. Lowes is in charge at present, and, I believe, is doing good work.

5 GEORGE V., A. 1915

Bloodvein School (Methodist).

This is a summer school only, and was conducted last year by Mr. Joseph Everett, who gave satisfaction.

Little Grand Rapids School (Methodist).

This was opened for a short time during the summer months and was in charge of Mr. Alf. G. Johnston.

General Remarks.

In the Peguis and Fisher River reserves the desire of many ex-pupils to advance themselves is quite noticeable, but unfortunately the home life is not always conducive to progress, as the parents, generally, have regard for material benefits only.

Indifference to education is characteristic of Indian parents, and is more noticeable in the reserves at a distance from civilization.

Where the parents have received a fair education the home life is refined, the children are kept at school and become bright scholars. Altogether I consider the school work in this agency encouraging and the results in the future should be very satisfactory.

GRISWOLD AGENCY.

Number of children of school age..	66
Number of pupils enrolled at day school..	19
Average attendance..	12
Number enrolled at Brandon industrial..	5
Number enrolled at Elkhorn industrial	14
Number enrolled at Qu'Appelle industrial	6

Mr. Jas. McDonald, Indian agent, reports on education in his agency as follows:—

Oak River Day School.

This school is conducted under the auspices of the Church of England, and is taught by Miss R. Havard.

As the old school proved inadequate for the accommodation of the pupils who desired to attend, the agency house was remodelled as a school.

There are on the ground floor a large class-room, dining-room and kitchen, while there are also four rooms upstairs. The class-room has been equipped with individual desks and two modern blackboards.

The children coming to school are neat and clean and are progressing wonderfully, especially in writing.

General Remarks.

The Indians are taking a keen interest in the school and are very anxious for their children to attend regularly.

The ex-pupils are beginning to put their education to practical use.

Out of 12 male ex-pupils on the reserve 10 are farmers and are a credit to the schools.

Education is certainly working a beneficial change in the life of the Indian and I expect to see still further improvement in the future.

SESSIONAL PAPER No. 27

NORWAY HOUSE AGENCY.

Number of pupils of school age.	935
Number of pupils enrolled at day schools.	400
Average attendance.	60
Number enrolled at Elkhorn industrial	2
Number enrolled at Brandon industrial.	19
Number enrolled at Norway House Meth. boarding school.	51
Number enrolled at Norway House Roman Catholic boarding.	6

Mr. J. G. Stewart, Indian agent, reports on the schools in his agency as follows:—

Island Lake.

This school was reopened last fall, with Miss Cunningham as teacher. It is too soon to form an opinion as to the success of this school.

God's Lake.

A school was in operation here for some years, but has been closed owing to the difficulty of obtaining a teacher.

Pee-Pik-Wah-Choose.

This place is situated 100 miles northeast of God's Lake. There is no school here at present.

Oxford House.

The teacher at this school is Rev. Mr. Niddrie. He is well qualified and has done good work on this reserve.

Split Lake.

The school on this reserve is also closed owing to the difficulty of obtaining a teacher.

Nelson House.

The school on this reserve is open for part of the year and is taught by the missionary.

Cross Lake.

There are two schools on this reserve, one conducted under the auspices of the Church of England, the other under the auspices of the Roman Catholic Church.

Norway House.

On this reserve there are three day schools and two boarding schools.

Norway House Roman Catholic Boarding.

The principal, Rev. E. Lecoq, O.M.I., reports: 'The children attending this school are making satisfactory progress in their studies.

The girls are also instructed in housekeeping, while the boys are given training in carpentry and blacksmithing.'

Norway House (Methodist Boarding).

The principal, Rev. J. A. Lousley, reports: 'Owing to a disastrous fire the accommodation at this school is rather limited this year, but the progress of those who

5 GEORGE V., A. 1915

are attending has been excellent. A garden was cultivated during the past year with great success. Our new school will likely be finished in the fall.'

There are three day schools on this reserve conducted respectively under the auspices of the Methodist, Anglican and Roman Catholic Churches. Satisfactory progress has been made at each of these schools during the past year.

PAS AGENCY.

Number of children of school age.	184
Number of pupils enrolled.	177
Average attendance.	69

Mr. W. R. Taylor, Indian agent, reports on educational matters in his agency as follows:—

There are seven day schools in this agency.

The Pas.

This school has been closed for two years, but was re-opened last December with Mrs. Nicholls, as teacher. As the children attend regularly and as their parents take an interest in the school, I expect considerable progress to be made at this school.

Big Eddy.

Mr. Joseph Chamberlain, who holds a professional third-class certificate, teaches this school. I am pleased to note steady progress. Discipline is well maintained. This is the best school in the agency.

Chemawawin.

Owing to the difficulty of obtaining a permanent teacher for this school, little progress is noticeable.

Moose Lake.

The teacher, Mr. C. T. Mitchell, is very earnest and the children are progressing. The enforced absence of some of the children during the hunting season is a great hindrance to the school.

Shoal Lake.

The parents are taking an interest in this school and the attendance of pupils is more regular. Slow but steady progress is being made by the children. The teacher is Mr. Louis Young.

Red Earth.

The teacher is Mr. J. G. Kennedy. On account of the absence from school of so many children during the hunting season, progress is very slow.

Cumberland.

Mr. N. Settee took charge of this school on January 1. As he was formerly a successful teacher on this reserve, I expect to see progress made at this school.

General Remarks.

Education has caused a marked improvement in the habits of the Indians in this agency. Day schools offer splendid educational advantages, but progress is much

SESSIONAL PAPER No. 27

retarded by the nomadic habits of these Indians. To obtain satisfactory hunting they have to leave the reserve and the children are thus hindered from attending school regularly.

The influence of the ex-pupils from the various boarding and industrial schools tends to advance those who have not had the opportunity of attending such schools. Most of these ex-pupils are now married and it is noticeable that they generally marry among themselves. Without exception they are willing and anxious to work. Their houses are well built and are kept clean. They make every effort to put into practical use the training received at school.

PORTAGE LA PRAIRIE AND MANITOWAPAH AGENCIES.

Number of children of school age.	416
Number of pupils enrolled in day schools.	314
Average attendance at day schools.	18
Number of pupils enrolled at boarding schools	172

Mr. R. Logan, Indian agent, reports on the schools in these two agencies as follows:—

In Portage la Prairie agency there are three day schools and one boarding school. In Manitowapah agency there are two boarding schools, Sandy Bay and Pine Creek, and also 9 day schools.

PORTAGE LA PRAIRIE AGENCY.

Roseau Rapid Day School.

It being impossible to secure a teacher, this school has been closed since September 1. The last teacher, Miss Godon, did excellent work at this school. On my last inspection, the pupils were apparently making rapid progress.

Roseau River Day School.

This school has been closed since last June owing to the difficulty of obtaining a teacher.

Swan Lake Day School.

The teacher is Miss J. G. Bruce, who has had several years' experience in public schools in the East. The pupils present are bright and intelligent. The mid-day meal provided at the school both encourages regular attendance and affords excellent training for the female pupils.

Portage la Prairie Boarding.

The principal, Mr. W. A. Hendry, reports: 'Several improvements have been made to the building during the past year. The attendance has been exceptionally good and all pupils have made most satisfactory progress in their class-room work. The boys are given special instruction in gardening, shoe-repairing and painting, while the girls are taught sewing, cooking and general housework.'

MANITOWAPAH AGENCY.

Lake Manitoba Day School (Roman Catholic).

This school is taught by Mr. L. E. Martel. The pupils are making very fair progress.

5 GEORGE V., A. 1915

Ebb and Flow Day School (Roman Catholic).

This school has been closed since last June owing to the difficulty of obtaining a teacher. The Indians on this reserve are very anxious to have the school re-opened. The last teacher was doing praiseworthy work.

Upper Fairford Day School (Anglican).

Mr. Bruce, the teacher, is a very hard worker and is doing his best for the betterment of his pupils. In addition to the Indian children, there are six non-treaty children at this school.

Little Saskatchewan Day School (Anglican).

This school is also closed owing to the impossibility of obtaining a teacher. The Indians are very anxious that it should be re-opened.

Lake St. Martin Day School (Anglican).

This school is constructed of logs, but is kept in good repair. Mr. J. E. Favel appears to be making good progress here.

Lower Fairford Day School (Anglican).

This school is conducted by Colin Sanderson, a treaty Indian. The pupils are well advanced in their studies. The singing of the pupils is a noticeable feature in this school.

Waterhen Day School (Roman Catholic).

A new school was built here last year. The teacher, Miss Adams, is only 19 years of age, but seems capable of teaching an Indian school. The pupils are making good progress. Miss Adams gives particular attention to singing lessons.

Pine Creek Day School:

This school is held in one of the class-rooms of the boarding school and the pupils are making splendid progress.

Shoal River Day School (Anglican).

The missionary on this reserve takes charge of the school. Rev. T. H. Dobbs, who has conducted the school recently, is a very capable teacher.

Sandy Bay Boarding School.

Rev. O. Chagnon, O.M.I., principal of this institution, reports: 'A number of alterations and additions have been made to the building during the past year. The heating system was renewed and a new gas generator was installed. The pupils have made good progress in their studies during the year. The boys are given special instruction in farming and cattle-raising, and the girls are taught sewing and cooking. Ex-pupils of this school do well when they return to the reserve.'

Pine Creek Boarding School.

Rev. G. Leonard, O.M.I., principal, reports: 'Several necessary improvements were made to the buildings during the past year. The attendance has been good and the pupils have made such satisfactory progress in the class-room that they were

SESSIONAL PAPER No. 27

complimented by Inspector Jackson. The boys are taught farming, shoe-repairing and carpentry. The girls are trained in all branches of housekeeping and dairy work. Ex-pupils of this school are making a most satisfactory showing.

General Remarks.

As a result of education it is noticed that the Indians are slowly, but nevertheless surely, advancing. It is noted that nearly all the young Indians now read the daily papers and thus keep in touch with what is taking place throughout the world. The day schools being close to the homes of the Indians have an especially beneficial effect on their lives. The teaching of farming at the boarding schools is to be commended, because, as the country becomes more thickly settled, the Indians will be unable to engage in hunting and will naturally turn to agriculture.

SASKATCHEWAN.

ASSIBOINE AGENCY.

Number of children of school age.	27
Number of pupils enrolled at day school.	25
Number attending Qu'Appelle industrial.	5

Mr. T. E. Donnelly, Indian agent, reports on the educational work in his agency as follows:—

Assiniboine Day School.

This school is situated a short distance from the agency buildings. It is a frame structure with a concrete foundation. In the basement there are a kitchen, dining-room, root cellar and coal bin, as well as a soft water cistern. The teacher's residence is behind the school.

A garden cultivated by the pupils is a feature of this school. The children have individual plots, which creates amongst them a healthy competition as to who will have the best garden. Potatoes, turnips, carrots, cabbage and flowers are grown in the garden. The vegetables grown are used for the midday meal. I notice a marked improvement in the gardening.

In addition to the regular studies the girls are taught sewing, cooking and laundry work.

The teacher, Miss Lawrence, takes a keen interest in her work. I find that the children of ex-pupils make faster progress in their studies owing, no doubt, to hearing English spoken in their homes. Their manners are also superior to those of the children who come from the old pagan homes.

Ex-pupils.

There are a number of graduates from industrial and boarding schools on this reserve. Some of them are female members of other bands who have married young men of this band. The assistance given these girls when they commence housekeeping is much appreciated. The department has also granted assistance to a number of the young men to enable them to engage in farming.

While some of these ex-pupils have not made good use of the opportunities offered to them, others have made splendid progress and have substantial houses, good cattle and horses and sufficient farm implements.

General Remarks.

Education improves the morals of the Indians and imbues them with higher ideals. The older now see the necessity of education and are making their children

attend school regularly. Many of the young men are competent tradesmen, while the female graduates are very good housekeepers. The Indians of this agency are very favourable to the day school system, as it enables them to have their children at home during the night and week ends.

BATTLEFORD AGENCY.

Number of children of school age.	180
Number of pupils enrolled at day schools.	78
Average attendance.	31
Number at Battleford industrial school	47
Number at Duck Lake boarding school.	1
Number at Thunderchild's boarding school.	25
Number at St. Joseph's industrial school.	2

Mr. J. A. Rowland, the Indian agent, reports on the schools in this agency as follows:—

Red Pheasant and Stony School.

Previous to 1913 both the Red Pheasant and Stony bands had a school of their own. During the year there was erected an up-to-date school and teachers' residence, centrally situated, to make it easy of access to both bands. This school is conducted under the auspices of the Church of England. It was opened on December 1, under the charge of Mr. J. M. Marshall as teacher, assisted by his wife, who provides the noon meal and also acts as field matron. Under the present management, the school should make good progress.

Littlepine Day School.

This school is conducted under the auspices of the Church of England. During the year there has been built and equipped a new school and teacher's residence which was opened at the first of the year. I am sure that this will be a great improvement on the former system. A good meal is given to the scholars at noon.

Poundmaker Day School.

This school is conducted under the auspices of the Roman Catholic Church. It was closed most of the year, but was re-opened in September. We have some very bright pupils on this reserve, and I am sure they would make good if the school were opened the year round. It is very hard to keep a teacher for this school, as there are no living quarters.

Meadow Lake Day School.

This school is under the auspices of the Roman Catholic Church. The school has been in operation all the year, but the attendance and progress have been disappointing. The pupils' parents are absent most of the year, hunting and fishing, and it does not give the children an opportunity to attend regularly. A new teacher was appointed in September, and I trust that a great improvement will be shown in the future.

Murray Lake Day School.

This school is conducted under the auspices of the Roman Catholic Church for the use of the Moosomin and Sauteaux Indians. The pupils have made fair progress during the year. The teacher also acts as dispenser, and his wife serves the noon-day meal for the pupils.

SESSIONAL PAPER No. 27

Thunderchild Boarding School.

This school is located at Delmas. The building is of modern construction, and is well equipped for the accommodation of the scholars. The average attendance during the year was 25. The school is taught and managed by the Sisters of the Assumption, who do their work in a very thorough manner. The school is making steady and satisfactory progress. There has been very little sickness in this school during the year, and the scholars are showing steady and satisfactory progress.

Battleford Industrial School.

This school will be closed on May 31, 1914. The principal, Rev. E. Matheson, reports on last year's work as follows: 'The pupils have made steady progress in their class-room work. The boys have also received instruction in farming, while the girls have been taught sewing and domestic science. The ex-pupils of this institution are making a most gratifying showing.'

Ex-Pupils.

Red Pheasant Band.—There are 12 males and 16 females on this reserve who are graduates of boarding and industrial schools. The young women are nearly all married, and their homes show the result of the teaching they had at school. The young men are fairly industrious, but are very improvident with their earnings. One of the young men belonging to this band is teaching school. Three others are carpenters and others are working for ranchers.

Stony Band.—There are 2 male and 4 female ex-pupils on this reserve. They are not very industrious, and prefer to make their living by carting hay and wood and hunting rather than by their farming and stock-raising. They are handicapped no doubt by the old Indians, who cling to their old customs and ways.

Poundmaker Band.—There are the same number of ex-pupils here as there were last year: 6 males and 4 females. They all show good progress, and are doing well at their farming and stock-raising. The women, who are mostly married, make good housekeepers and keep their homes neat and tidy.

Little Pine Band.—There are 5 male and 3 female ex-pupils on this reserve. They all show satisfactory progress and good results for the time spent on their education.

Thunderchild Band.—There are 7 male and 6 female ex-pupils in this band. Hampered by the older members of the band, who are pagans, the progress of these young people, I regret to say, is very unsatisfactory. Both in their homes and at their work they do not show the advancement that pupils on the other reserves have shown.

Moosomin Band.—There are 7 male and 11 female ex-pupils on this reserve. I am pleased to say that these young men and women are showing progress. They are for the most part steady and industrious workers and show good returns for the time and money spent on their education and training.

Sweet Grass Band.—There are 4 male and 3 female ex-pupils on this reserve. One of the young men is doing very well, while the others are indifferent, and make very little progress. The girls are industrious, and make good housekeepers.

General Remarks.

During the past year, as heretofore, the education of the Indian children in this agency has been conducted under the auspices of the Anglican and Roman Catholic Churches. We have two boarding schools, one at Delmas, under the management of the Sisters of the Assumption, and the other at Battleford, under the Church of

England. Both of these schools have done good work. The day schools have shown considerable progress during the year past, especially in the case of Red Pheasant and Little Pine reserves, where there have been built and equipped modern, up-to-date schools with every convenience, and under capable and qualified instructors. There is still room for great improvement to be made. This is particularly evident at the Thunderchild reserve, where the progress of the pupils is to a great extent hampered by the older Indians, who still cling to their old customs, and are opposed to progress and education. While our results at times are disappointing, yet we can see progress made, and when the older generation has passed away, the younger ones will gradually learn more to the ways of civilization and education. Those Indians who have received an education are eager to give their children all the advantages they can get.

In quite a few cases, the young men of this agency have done well for themselves. Two of them are school teachers, three are carpenters, skilled at their trade, and others have become fairly prosperous at farming and stock-raising. Altogether the outlook for the future is bright.

CARLTON AGENCY.

Number of children of school age.	194
Number of pupils enrolled at day schools.	137
Average attendance.	65
Number enrolled at File Hills boarding	2
Number enrolled at Battleford industrial	1

Mr. Borthwick, Indian agent, reports on the schools in this agency as follows:—

There are six schools in this agency. Three are under the control of white teachers and their wives, while two are taught by educated Indians.

Sturgeon Lake School.

The teacher, Wm. Godfrey, is giving excellent satisfaction, and I am pleased to state that the attendance for the past year has shown a most gratifying increase. At the Christmas entertainment each article on the Christmas tree was made by some one of the pupils from material supplied by the department. The improved health of the pupils proves the advantages derived from the matron's services.

Mistawasis Day School.

The Rev. C. W. Bryden is proving very successful at this school. The attendance has increased during the past year. In addition to the regular studies particular attention has been given to hygiene, calisthenics and religious instruction. The school garden was also successfully cultivated. The field matron instructs the female pupils in sewing and general housework.

Ahtakakoop's Day School.

Under the teaching of Mr. H. Hutchinson, the attendance at this school is gradually increasing. Great credit is also due Mrs. Hutchinson, field matron, for the assistance given the sick on the reserve.

Kenemotayoo's Day School.

The teacher, Mr. L. Ahenakew, an educated Indian, deserves credit for the progress made at this school and for the increased attendance. The pupils seem happy and display considerable intelligence.

SESSIONAL PAPER No. 27

Montreal Lake Day School.

This school is well situated on the shore of Montreal lake. The teacher, Mr. J. Settée, is very conscientious in his work and good results are being obtained.

General Remarks.

I have much satisfaction in saying that the pupils have made good progress during the past year. It is to be hoped that the Indians will, in the future, endeavour to have their children attend school more regularly and thus even better results can be hoped for.

CROOKED LAKE AGENCY.

Number of children of school age	139
Number of pupils enrolled at Round Lake boarding	50
Number of pupils enrolled at Qu'Appelle industrial	15

The agent, Mr. Taylor, reports on educational matters in his agency as follows:—

The educational welfare of the children in this agency has, for the past year, been under the same care as for previous years, namely, schools conducted by the Roman Catholic and Presbyterian Churches.

Round Lake Boarding School (Presbyterian).

This is an old established institution and is in charge of the Rev. H. McKay, D.D., acting principal.

It is pleasing to note that the attendance during the past year has been very regular. With the exception of 2 all the pupils at this school come from this agency.

In his report, Rev. H. McKay says: 'In addition to the regular studies the girls are taught sewing and housework, while the boys are given practical instruction in farming. The pupils have done very good work during the year.'

Cowessess Boarding School (Roman Catholic).

Rev. J. B. Beys, O.M.I., has the educational welfare of his pupils at heart and is ably assisted by a loyal and devoted staff. Both the boys and the girls are progressing rapidly in their studies. The principal reports: 'In addition to the classroom work the boys are taught farming, carpentry and shoemaking. Our crops last year were very large. A new barn was built last summer.'

Ex-pupils.

All our ex-pupils are progressing slowly but surely. Last year ex-pupils grew 10,000 bushels of grain. A large acreage of new land was broken and there are prospects of a good crop this year. Many ex-pupils have already built substantial dwellings and others are contemplating the erection of new houses.

General Remarks.

I am pleased to report that the present attitude of the Indian parents towards education is most favourable and as a result the attendance at the schools has been very regular.

Education is having an uplifting effect on reserve life, and, as one ex-pupil shows a desire to improve, another follows the good example.

DUCK LAKE AGENCY.

Number of children of school age.	233
Number of pupils enrolled at day schools.	95
Average attendance.	43
Number enrolled at Qu'Appelle industrial school.	1
Number enrolled at Battleford industrial school.	1
Number enrolled at Duck Lake boarding school.	105

Mr. Pant C. Schmidt, Indian agent, reports on the schools in this agency as follows:—

Duck Lake Boarding School.

This school is situated near the town of Duck Lake, and about 3 miles from the agency buildings. The principal of the school is Rev. H. Delmas, O.M.I. The classes are taught by the Rev. Sisters of the Presentation, who devote themselves entirely and unsparingly to the interests of their pupils. The girls are carefully instructed in housekeeping, sewing, knitting, cooking, washing and all necessary duties of the household which will enable them to become practical housekeepers. The boys are taught all general branches of farming and stock-raising under the supervision of practical men; the school farm and garden being a credit to the institution.

The class-room work in the school is up to the standard. Nothing is left undone which tends to the advancement of the pupils.

The buildings, although only frame structures, are quite comfortable.

Since writing my last report, the waterworks and sewerage system, which has been installed at a considerable expense, has been completed and has proved a success. In the basement are placed two air pressure tanks, having a capacity of 1,000 gallons each, which supply water to all parts of the buildings. These tanks are filled by pumping water from an artesian well with an oil engine. Fire hose and toilet-rooms are found on both floors, and the sewerage system is working satisfactorily. The buildings are lighted by acetylene gas.

The outbuildings comprise large barns, poultry-house, a laundry and a workshop in which are found an up-to-date outfit of carpenter's, blacksmith's and plumber's tools.

John Smith's Day School.

This school is being taught by Mr. P. H. Gentleman, who took up his duties as teacher after the mid-summer holidays. Mrs. Gentleman acts as field matron, her duties being the nursing and taking care of the sick on the reserve and preparing the mid-day meal which is served to the children of the school.

The children attending this school are all from the reserve. The attendance is quite good and they are progressing favourably. The school is a great benefit to the Indians of the reserve.

A number of ex-pupils from the Emmanuel College and from the Regina and Battleford industrial schools are settled here, hence a greater interest is taken in the education of the children than is usual on a reserve, where the parents are heathen or uneducated.

James Smith's Day School, North.

This school is being taught by Mr. Henry W. Shaw, who commenced his work here in November last. Mrs. Shaw acts as field matron. Here, also, the children are given a mid-day meal.

The children attending this school are from the north end of the reserve. The attendance is fair, but irregular. This is caused by the parents leaving the reserve

SESSIONAL PAPER No. 27

at times to go digging senega root, trapping and hunting, and taking their children with them.

James Smith's Day School, South.

This school was reopened in December after having been closed for eighteen months. Mr. and Mrs. J. Leonard Lowe have been engaged as teacher and field matron respectively.

The children attending this school are from the south end of the reserve. Up to the time of writing, the attendance has been very good, and encouraging to the teacher.

General Remarks.

It is almost unnecessary for me to say that education is having a marked effect on the manners and the mode of living of the Indians. When the young men leave school they ask to be supplied with horses and agricultural implements, and a large number of them are making a comfortable living by farming. One must also notice the vast improvement wrought in the homes by the female ex-pupils.

Too much credit cannot be given to those who devote years to the educating and christianizing of the Indian and to making him a peaceful and law-abiding Canadian.

MOOSE MOUNTAIN AGENCY.

Number of children of school age.	36
Number of pupils enrolled at day school.	25
Average attendance.	12
Number attending Qu'Appelle industrial school.	1

Mr. T. Coŕy, Indian agent, reports on the school in this agency as follows:—

Since my last report there has been a complete change in the staff at this school, which is now in charge of Miss S. J. Porter.

The teacher is paying particular attention to the regular studies. A hot meal is served to the pupils at mid-day.

The school garden has been very successful, a plentiful supply of both vegetables and flowers having been grown.

Some of the ex-pupils, who have received assistance to start farming, are doing very well.

The school has a most beneficial influence on the reserve.

ONION LAKE AGENCY.

Number of children of school age.	276
Number of pupils enrolled at Onion Lake C.E. boarding school.	15
Number of pupils enrolled at Onion Lake R.C. boarding school.	44
Number of pupils enrolled at Battleford industrial.	1
Number of pupils enrolled at St. Joseph's industrial.	1

Mr. W. Sibbald, the agent, reports on the schools at this agency as follows:—

There are two boarding schools in this agency, one under the auspices of the Roman Catholic Church, the other under the auspices of the Church of England.

Onion Lake R.C. Boarding School.

The Roman Catholic boarding school is presided over by Rev. Father Cunningham, and the teaching is done by the Reverend Sisters of the Assumption. There are

5 GEORGE V., A. 1915

two class-rooms, one for the higher standard, and one for the lower. Satisfactory progress is being made in the different studies. As an evidence that the children are happy and contented, I might state that there was none of the trouble of pupils running away. They are comfortably dressed and are always very clean.

In his report on this school, the principal makes special reference to the teaching of lessons on the mandolin and piano to a large number of the girls. The girls are also instructed in sewing and housekeeping, while the boys are given practical lessons in farming.

Onion Lake Anglican Boarding School.

The principal, Rev. J. R. Matheson, reports: 'The pupils have made excellent progress during the past year, especially so in singing and English. The boys have been instructed in the use of carpenter's tools and in gardening, while the girls receive lessons in sewing and housework. Several necessary improvements were made to the buildings during the year and everything is now in first-class condition.'

PELLY AGENCY.

Number of children of school age.	149
Number of pupils enrolled at day schools.	29
Average attendance at day schools.	16
Number of pupils enrolled at Keeseekouse boarding school.	26
Number of pupils enrolled at Crowstand boarding school.	46
Number of pupils enrolled at Birtle boarding school.	16

Mr. W. G. Blewett, Indian agent, reports on the schools in this agency as follows:

Crowstand Boarding School.

This boarding school is under the direction of the Presbyterian Church. It is about 3 miles from the town of Kamsack and 10 miles from the agency headquarters. There is a splendid farm in connection with the school and the boys receive a very practical education in all matters pertaining to general farm work, as well as stock raising. Good prices have been obtained for both farm produce and stock, and this has enabled the school to keep on a very creditable financial basis.

The class-room work in this school is good and the children are all getting a splendid education, which will be a great benefit to them in future life. The girls are given daily instruction in all the many useful branches of housekeeping, which will enable them to make good housekeepers when they return to their home.

St. Philip Boarding School.

This school is on the east side of the Keeseekouse reserve and about 6 miles from the agency offices.

It was closed last September.

Valley River Day School.

The school-house is built on a suitable site, about 1 mile from Strevel station on the Canadian Northern railway, and is centrally located. The teacher, Annie Clair Rattlesnake, is an Indian graduate of Birtle boarding school. Good progress is being made here. The teacher has cared for all pupils whose parents go hunting, and in this way has had a very good average attendance. The school-room is always clean and well kept, the pupils are also clean and neatly dressed, and the teacher is very careful to see that they always have their faces and hands washed and their hair brushed before entering the class-room. This school is undenominational.

SESSIONAL PAPER No. 27

Key Day School.

This school is well located in the centre of Key reserve. It has been well fixed up for winter and is very comfortable. Mr. Markham, the teacher, still continues to show good results in the school work. He visits the homes of the pupils and urges the parents to send their children to school regularly, and has been successful in getting a good average attendance.

The school is under the auspices of the Church of England.

QU'APPELLE AGENCY.

Number of pupils of school age	183
Number attending Qu'Appelle industrial	80
Number attending File Hills boarding school	12

Mr. H. Nichol, the agent, reports on the educational work in this agency as follows:—

There is no school within the limits of this agency. The Indians send their children to the Qu'Appelle industrial school at Lebret and to the File Hills boarding school at File Hills.

Owing to the change from school discipline to the free life of the reserve, it is sometimes difficult to get some of the ex-pupils to settle down. However, those who engage in farming make very creditable progress in a few years. The ex-pupils are doing fifty per cent of the total farming done in the agency, and are doing the best farming.

As a result of education one can notice a great improvement in reserve life. Almost unconsciously, the older Indians follow the good example of the ex-pupils.

In his report on the Qu'Appelle industrial school, the principal, Rev. J. Hugonard says: 'The main industry taught at this school is farming, but some of the boys are also instructed in carpentry and painting. The attendance during the past year has been very large and the progress of all the pupils has been most satisfactory.'

TOUCHWOOD AGENCY.

Number of children of school age	160
Number of pupils enrolled at day school	18
Average attendance	8
Number of children attending Muscowequan's boarding school	51
Number of children attending Gordon's boarding school	30
Number of children attending Qu'Appelle industrial	20

Mr. W. Murison, the agent, reports on educational matters in this agency as follows:—

Muscowequan's Boarding School.

This school is situated on the north side of the Muscowequan's reserve and is under the auspices of the Roman Catholic Church.

The building is heated by steam, is lighted by acetylene gas and is well ventilated. The drainage and sanitary conditions are excellent. The school is also suitably protected from fire. Several new outbuildings were erected during the past year.

The garden in connection with the school provides an ample supply of vegetables. The farm grows all the feed grain required.

Excellent facilities for the teaching of farming are provided. The larger pupils spend one half the day in the school-room and the other half at farm or domestic employments.

5 GEORGE V., A. 1915

The principal, Rev. A. J. A. Dugas, O.M.I., reports: 'The boys are taught farming and the care of stock, while the girls are instructed in household work and dairying.'

Ex-pupils.

A number of these are residing on the Muscowequan's reserve and are making fair progress as farmers. I look for more permanent success in the future. Noticeable features are the erection of better houses and improved methods of house-keeping.

Gordon's Boarding School.

This school is situated on the Gordon's reserve, and is presided over by the Rev. H. W. Atwater, who is assisted by his two daughters, who act as matron and teacher, respectively.

Both Mr. Atwater and his daughter are trained teachers and are accomplishing first-class work at this school. It is especially gratifying to notice the rapidity with which the pupils acquire a knowledge of the English language.

Last season the garden produced an abundant supply of vegetables. In addition, 15 acres of barley and oats were sown to provide feed for the live stock.

Ex-pupils.

The beneficial effect of education is quite noticeable in the conduct of the ex-pupils living on the Gordon's reserve. The girls especially show in their homes the benefit derived from the instruction they received at school.

Day Star's Day School.

This building is very comfortable. The teacher is also provided with a four roomed cottage. The Indians on the Day Star's reserve take a great interest in this school and the attendance is very regular. A mid-day meal is provided for the pupils. A good crop of potatoes was grown in the school garden last season.

The new teacher, Mr. H. G. Montgomery, is very energetic and is doing first-class work.

Ex-pupils.

Nearly all ex-pupils of this school have started farming and are making good progress. Their homes are clean and are improved according to their means.

The Fishing Lake school was not operated this year.

ALBERTA.

BLACKFOOT AGENCY.

Number of children of school age	119
Number enrolled at Crowfoot-R. C. boarding school	40
Number enrolled at Old Sun's C. of E. boarding school	38
Number enrolled at St. Joseph's industrial	5

The agent, Mr. J. H. Gooderham, reports on the schools in his agency as follows:—

Old Sun's Boarding School.

This school is conducted under the auspices of the Church of England.

During the past year a new building has been erected. The main portion of this

SESSIONAL PAPER No. 27

building is 73 x 54 feet, two stories high, with two wings, one story high, each 33 x 26 feet. It is situated 1 mile south of Gleichen and can be plainly seen from the main line of the Canadian Pacific railway. In addition to the main building there are a laundry, stables and sheds.

The grounds and farming land comprise one-quarter section. During the past season, 4 acres of oats were grown, as well as a good crop of potatoes and vegetables; 24 acres of new land were broken and are ready for this year's crop.

In submitting a report to the department, Rev. M. C. Gandier, principal of this school, states that the girls receive special instruction in sewing and housework, while the boys are taught farming. He also says that the ex-pupils of this institution are making good use of their education.

Crowfoot Boarding School.

This school is conducted under the auspices of the Roman Catholic Church. The new building which is in course of erection is situated half a mile west of Cluny. A quarter section of land has been allowed the Church for school purposes. Already land has been broken for next season's crop and they will shortly have an excellent garden.

The girls are instructed in housekeeping and sewing, while the boys are taught farming, gardening and the care of stock.

The sisters in charge, and the resident priest, give every attention to the care and welfare of the pupils.

The principal, Rev. J. L. Levern, reports most favourably on the new building.

General Remarks.

Education is beginning to show its influence on reserve life. Many of the ex-pupils show the good results of their training by their successful farming. Their houses are well kept and the surroundings are in good condition. They also have their homes comfortably furnished. Besides those farming, a number have cattle and horses, and all are making a good living.

Blood Agency.

Number of pupils of school age	219
Number enrolled at Blood Roman Catholic boarding school. . .	50
Number enrolled at Blood Church of England boarding school. .	47
Number enrolled at St. Josephs industrial school.	16

Mr. W. J. Dilworth, the agent, reports on educational matters in this agency as follows:—

St. Paul's Church of England Boarding.

The principal of this school is the Rev. S. Middleton, who is assisted by a competent staff.

In addition to the usual course of studies, the girls are especially instructed in domestic science, while the boys are given practical lessons in farming, gardening and care of stock.

In his report on this school the principal states that special attention is devoted to farming. He also says that the cadet corps, which is under the command of an ex-pupil, has made a name for itself.

Blood Roman Catholic Boarding.

This school is situated on the Blood reserve, near Standoff. The principal is the Rev. Father Raoux, who is assisted by a competent staff of sisters.

5 GEORGE V., A. 1915

The instruction given at this school is of an exemplary nature. I consider that the best work accomplished at this school is the making of the pupils into men and women who are affable and polite and healthy in mind and body.

On account of the poor soil around this school, it is impossible to attempt any farming and gardening.

The principal reports: 'The usual studies prescribed by the department are taught the pupils. The boys do a great deal of work around the building, while the girls are given a training in housework. Many of our older pupils are transferred to the St. Joseph's industrial.'

General Remarks.

The female ex-pupils are good housekeepers and keep their homes neat and clean. In most instances, the male ex-pupils are industrious and are the pride of their parents and instructors. It is quite noticeable that those ex-pupils who have children are very anxious that their children should enjoy every possible advantage. On every side, ample recompense for the efforts expended in educating the Indians is visible.

EDMONTON AGENCY.

Number of children of school age	105
Number of pupils enrolled at St. Albert boarding	87
Number of pupils enrolled at Ermineskin's boarding	6
Number of pupils enrolled at Red Deer industrial	17
Number of pupils enrolled at St. Joseph's industrial	4

Mr. G. H. Race, Indian agent, reports on the educational work in his agency as follows:—

There is one school in this agency, the St. Albert boarding school, under the auspices of the Roman Catholic Church, and conducted by the Grey Nuns, with the assistance of Mr. Viran.

The building is large and very suitable and is conducted in an exceptionally good way.

The pupils are apt to learn and are making splendid progress in their studies.

Rev. Sister M. A. Leduc, principal, reports: 'A class of 15 girls has made good progress in the study of the mandolin, and 20 boys have been trained to play on the different instruments of the brass band. The boys are taught farming, woodworking and shoemaking. The girls are instructed in domestic science.'

General Remarks.

The educational influence of the schools is always carried to the reserves and has a most beneficial effect on the reserve life. The boys who have graduated from the Dunbow industrial are very capable in conducting their business affairs. As each year goes by, the advantage and benefit of education can readily be seen.

HOBBEWA AGENCY.

Number of children of school age	174
Average attendance at day school	12
Number enrolled at Ermineskin's boarding school	50

The Indian agent, Mr. J. Butlin, reports on the educational work in this agency as follows:—

SESSIONAL PAPER No. 27

Ermineskin's Boarding School.

This institution is situated on Ermineskin's reserve, about a mile from Hobbema siding.

It is conducted by the Reverend Sisters of the Assumption, the principal being Father Dauphin, O.M.I.

The building is frame with a cement foundation and is heated by steam. There is ample fire-protection, and fire-drill is carefully practised.

There is a senior and a junior division under different teachers, and the progress made in the class-room during the past year has been very satisfactory. In addition to the regular course of studies, instruction is given in hygiene, calisthenics, instrumental and vocal music, domestic science, sewing, knitting and gardening.

Some of the ex-pupils of this school are making very creditable progress.

Samson's Day School.

This school is situated on Samson's reserve, and is under the management of the Methodist mission.

The building is comfortable and is well equipped.

Miss Aylwin, the teacher, is interested in her work and in addition to the regular studies gives instruction to the girls in knitting and sewing. During the year a number of articles of clothing were made from material furnished by the department.

The pupils are making fair progress. They are transported to and from the school, and a mid-day meal is also provided.

PEIGAN AGENCY.

Number of children of school age.	89
Number of pupils enrolled at Peigan C. E. boarding.	28
Number of pupils enrolled at Peigan R. C. boarding.	21
Number of pupils enrolled at St. Joseph's industrial.	1

The agent, Mr. H. A. Gunn, reports on the schools in this agency as follows:—

In this agency there are two boarding schools, one under the auspices of the Church of England, and the other under the auspices of the Roman Catholic Church.

Peigan Church of England Boarding.

The staff of this school consists of Rev. W. R. Haynes, acting principal, an assistant principal, a teacher, a matron, a girls' matron, and a cook. The above executive has restored efficiency to the school and is making it a most useful institution.

In the studies prescribed by the department the pupils are making very satisfactory progress. The boys are also instructed in farming, gardening, and the care of stock. The girls are given lessons in cooking, laundry work and the making and repairing of garments. All the children are comfortably clothed and generally healthy. The tuberculin treatment administered by Dr. Gillespie, the medical officer, to a number of the pupils, has proved most efficacious.

The school buildings are in good repair, well heated, well lighted and ventilated.

In his report the principal states that the attendance during the past year has been very good. He also reports that a very bountiful crop has grown in the school farm and garden.

Peigan Roman Catholic Boarding.

The principal, Rev. J. Riou, is assisted by a staff consisting of a sister superior, two sisters to look after the boys, two to care for the girls, and a teacher.

5 GEORGE V., A. 1915

Creditable progress is made in all studies. The boys are given instruction in farming, while the girls are taught household duties. All the pupils are well clothed, clean and happy.

This institution has been somewhat hampered by having outgrown the housing accommodation, but, as this handicap will likely be soon remedied, substantial progress may be expected.

General Remarks.

Education, certainly, operates powerfully in stimulating and elevating reserve life. The ex-pupils are anxious to have good homes and are becoming first-class farmers.

SADDLE LAKE AGENCY.

Number of children of school age.	150
Number of pupils at day school.	40
Number of pupils enrolled at Red Deer industrial.	36
Number of pupils enrolled at Blue Quill's boarding school.	47

Mr. Chas. Hughes, the Indian agent, reports on educational matters on this reserve as follows:—

Blue Quill's Boarding.

This school is on the western side of the Saddle Lake reserve. It is under the auspices of the Roman Catholic Church and is managed by Rev. Father Husson, who is assisted by Rev. Father Balter and a staff of sisters.

The class-room, dormitories and dining-room are well ventilated and are kept in the best of order.

The management is very efficient and good discipline is maintained.

The principal reports: 'Satisfactory progress has been made in the class-room by all the pupils. The boys receive instruction in farming, and the girls are taught domestic science. The ex-pupils of this school are conducting themselves most properly.'

Saddle Lake Day School.

This school is situated about the centre of the reserve. Owing to the small attendance it has been closed for some time.

Goodfish Lake Day School.

This school is situated on the east side of Goodfish Lake reserve. It is under the auspices of the Methodist Church and is taught by Mrs. Watters.

A number of new desks have been recently placed in the school and a new teacher's residence has been built. The pupils are provided with a warm mid-day meal.

Good progress can be expected at this school.

SARCEE AGENCY.

Number of children of school age.	40
Number of pupils enrolled at Sarcee boarding school.	16

Mr. T. J. Fleetham, Indian agent, reports on educational work in his agency as follows:—

SESSIONAL PAPER No. 27

Sarcee Boarding School.

This school is under the auspices of the Church of England. The principal is the Ven. Archdeacon J. W. Tims, who is assisted by S. Tims, assistant principal; Miss Tims, teacher; Mrs. Dean, matron; and Miss Quigley, cook.

The new building will soon be completed and good results may be expected from this school. The pupils show a much improved acquaintance with the English language.

The Ven. Archdeacon J. W. Tims, principal, in reporting on the work done at his school, makes special mention of the vocational education given to the children. The girls are instructed in housework, and the boys are given practical lessons in gardening and the care of stock.

Ex-pupils.

There are 29 ex-pupils living on this reserve and all are doing well. A number of the young men have been supplied with farming outfits and are making a good living.

Education is making the Indians cleaner and is helping to civilize them.

TREATY NO. 8.

Dr. W. B. L. Donald's district:—

Number of pupils enrolled at Lesser Slave Lake Roman Catholic boarding school	18
Number of pupils enrolled at Lesser Slave Lake Church of England boarding school	7
Number of pupils enrolled at St. Bruno's boarding school	35
Number of pupils enrolled at Sturgeon Lake Roman Catholic boarding school	28
Number of pupils enrolled at Whitefish Lake Church of England boarding school	11
Number of pupils enrolled at Wabiskaw Roman Catholic boarding school	24
Number of pupils enrolled at Wabiskaw Church of England boarding school	12
Number of pupils enrolled at Fort Vermilion boarding school	13

Inspector H. A. Conroy's district:—

Number of pupils enrolled at Fort Chipewyan boarding school	70
Number of pupils enrolled at Fort Resolution boarding school	70
Number of pupils enrolled at Hay River boarding school	25
Number of pupils enrolled at Providence Mission	45

The large district comprised under the heading Treaty No. 8 is divided into three agencies: (1) Lesser Slave Lake, for which Dr. W. B. L. Donald is agent; (2) Fort Simpson, with T. W. Harris, as agent; and (3) Fort Smith, under agent A. J. Bell. The educational matters within this large area are dealt with in reports from these three agents and Inspector H. A. Conroy.

LESSER SLAVE LAKE AGENCY.

Dr. W. B. L. Donald, the agent, reports as follows:—

St. Bernard's Boarding and St. Bruno's Boarding.

St. Bernard's boarding school is situated in the town of Grouard. The pupils are taught reading, writing, arithmetic, spelling, grammar and geography. The girls also

5 GEORGE V., A. 1915

receive instruction in sewing and cooking. There is an excellent farm and garden, where the pupils receive practical lessons.

The St. Bruno's school, on the shore of Lesser Slave lake, was opened on September 1, 1913. It is a frame building and is well ventilated. A garden will be cultivated next year. Good results are hoped for at this school.

Both these schools are conducted under the auspices of the Roman Catholic Church.

St. Peter's Mission School.

This school is under the charge of Mr. Kent and matrons and is conducted under the auspices of the Church of England. The building is well lighted and comfortably heated.

In addition to the regular subjects, the girls are instructed in sewing and housework, while the boys receive lessons in gardening and the care of stock.

St. Francis Xavier Mission, Sturgeon Lake.

This school, under the auspices of the Roman Catholic Church, is situated on the shore of Sturgeon lake. The drainage is good and an excellent water-supply is obtained from the lake.

At this school there is a 30-acre farm where the pupils receive practical instruction in agriculture.

In the class-room the regular course of studies is followed.

St. Andrew's Mission Boarding School, Whitefish Lake.

This is a Church of England school and is situated on the shore of Whitefish lake, from which an abundant supply of water is obtained.

The building, two stories high, is 20 x 24 feet, with a wing 16 x 14 feet. There are also storehouses, carpenter shop and stables. In addition to the usual studies the girls are instructed in housekeeping and sewing, while the boys are taught the care of stock.

Mr. C. D. White is the teacher and his wife is the matron.

St. John's Mission Boarding School, Wabiskaw.

This school is under the management of the Church of England and is taught by Miss Sturt, who is much interested in her work and should prove successful.

The building is 1½ stories high with two wings. The class-room is in a separate building.

The pupils are taught reading, writing, arithmetic, grammar, geography and spelling. The boys are also taught gardening, while the girls are instructed in sewing and housework.

Water is secured from Wabiskaw lake.

St. Martin's Roman Catholic Boarding School, Wabiskaw.

The present building, which was built this winter, is three stories high and is 42 x 32 feet, with a wing 24 x 30 feet. Sister Catherine and her assistants teach the children the usual subjects and also give instruction in sewing and gardening.

St. Henri Roman Catholic Boarding School, Vermilion.

This school is situated on the bank of the Peace river at Vermilion. Bishop Jousard is the principal of this school and is assisted by the Sisters of Providence.

SESSIONAL PAPER No. 27

The building is frame, 80 x 35 feet, and is surrounded by a farm of 60 acres, where the boys obtain a practical knowledge of agriculture. The girls are taught sewing and housekeeping.

An abundant water-supply is obtained from the Peace river.

Christ Church Mission School, Shaftesbury.

This school is conducted under the auspices of the Church of England. It is situated at Shaftesbury, 20 miles from Peace River Crossing.

Miss Millen teaches the pupils reading, writing, spelling, arithmetic, grammar and geography. Mrs. Holmes gives instruction in sewing and housekeeping.

In the farm surrounding the school, the boys receive practical instruction in agriculture.

FORT SIMPSON AGENCY.

Mr. T. W. Harris, Indian agent, reports as follows:—

The Roman Catholic boarding school at Fort Providence on the Mackenzie river is the only educational institution in this agency. The building is sufficiently large, having two commodious class-rooms and three dormitories. All the rooms are kept scrupulously clean. There is also ample fire-protection. A bountiful supply of water is secured from the Mackenzie river.

In their scholastic work the pupils are divided into four standards, and I am pleased to say that the curriculum prescribed for Indian schools is faithfully carried out. All the children assist according to their capacity in the work of the farm and garden, while the girls are specially instructed in sewing and cooking. The larger girls make gloves, moccasins, etc., out of moose or deer skins and worked in silk. These are readily sold to tourists passing through Fort Providence in summer. I had the pleasure of being present at the annual entertainment, and, while all the drills and recitations were well executed, special mention must be made of the vocal music. During recreation English and French are spoken, preference being given the former.

It is impossible to praise too highly the care and devotion practised by the reverend sisters and missionaries, who have charge of the educational work in this territory.

Ex-Pupils.

The ex-pupils of this school have been most successful. Four have embraced a religious life. Six are post managers for the Hudson Bay Company, while four others are in the employ of the Northern Trading Company. There are also six employed as interpreters. Fifteen of the girls are married to men holding good positions.

FORT SMITH AGENCY.

The Indian agent, Mr. A. J. Bell, reports on education in his agency as follows:—

Fort Chipewyan Boarding School.

This school is situated at Fort Chipewyan, Lake Athabaska, Alberta, and is conducted under the auspices of the Roman Catholic Church. The school is fortunate in having the services of Sister Lafferty, who is a trained nurse.

The buildings are commodious and are kept in first-class condition. Fire-escapes, a force pump and hose provide the necessary fire-protection. Surrounding the school is a good farm and garden.

5 GEORGE V., A. 1915

The pupils are making satisfactory progress and speak English and French well. They obtain practical lessons in agriculture. At the New Year's concert all the children acquitted themselves most creditably.

The Indians of this district are very anxious to have their children educated and this school is accomplishing excellent work.

Fort Resolution Roman Catholic Boarding School.

This school is situated at Fort Resolution, Great Slave lake, and is managed by the Grey Nuns, Rev. Sister McQuillan being head mistress.

The buildings are large, and ample fire-protection is provided. There is also a first-class farm and vegetable garden in which the pupils work at times.

The pupils speak English very well, also French. On all my visits to the school I found that very satisfactory progress was being made. The boys were especially good at mental arithmetic, while the sewing and silk work of the girls were excellent. A tastefully laid out flower garden was a noteworthy feature.

Hay River Boarding School.

This school is situated at Hay River, Great Slave lake, and is under the auspices of the Church of England. The principal is the Rev. A. J. Vale, who is assisted by a competent staff.

The buildings will be improved in the near future. Ample fire-protection is provided.

The greater number of the pupils come from the upper Mackenzie river, although some are from near Fort MacPherson. All the children appear happy and healthy and are making good progress. There is a good farm in connection with the school. A neat flower garden was in full bloom at the time of my visit in July.

Ex-pupils.

I have two ex-pupils of this school in my employ and they have proved to be good workers and very intelligent. I am hopeful that in the near future many of the ex-pupils of the boarding schools will be able to suitably fill the many positions open to them with the Hudson Bay and other companies.

REPORT OF INSPECTOR H. A. CONROY.

Holy Angels Boarding School, Fort Chipewyan.

The school is beautifully situated at the west of Lake Athabaska. The subjects taught comprise the ordinary curriculum: reading, writing, composition, grammar, geography, spelling, etc. The pupils seem to be both intelligent and industrious, and are making good progress, especially in reading and writing. I think that on the whole the children are getting a better grasp of the English language than they were some years ago. The class work follows pretty closely the regulations set down by the department; this may be said of all schools in Treaty 8 territory. The girls are taught sewing and cooking, and the boys are taught general gardening and rough carpentering. Sister Lafferty told me that the girls were given turns at the general housework, and in that manner were given practical experience that stands them in good stead after leaving school. Health and sanitation are good. What pleased me most, however, was the fire-protection. Chemical extinguishers, buckets and ladders are in the most convenient places, and fire-escapes permit easy exit from any part of the building in case of fire.

Resolution Boarding School, Great Slave Lake.

This school I consider one of the best in my district. It is beautifully situated on the south shore of the lake, and seen from some distance surprises the traveller into thinking that he has reached civilization—800 miles north of Edmonton!

SESSIONAL PAPER No. 27

The buildings are constructed of lumber cut and sawn in the district. There will be accommodation, when the new wing is completed, for 80 or 90 pupils. The class work follows the regulations of the department, and the same progress was noted here as at Chipewyan. In fact I was surprised to find what progress had been made in English. Sister McQuillan is certainly an excellent teacher, and the pupils are making very satisfactory progress under her management. Health is good, and sanitation excellent. The drainage is easy, and carefully looked after. Though conditions are the best for health, I attribute a good deal to the careful management of the school. The garden is productive, and I have seen many a large crop of potatoes and vegetables.

Fort Providence School, Mackenzie River.

Fort Providence is some 80 miles north of Hay River, and is one of the important posts of the North. It is situated on the banks of the Mackenzie. The Mission has quite a few head of cattle, and cultivates several acres of ground. When I was there they had one of the finest gardens I have ever seen. In fact they grow all the vegetables necessary for their own use. The boys are taught gardening, which is as beneficial instruction as they can receive. They work around the mission and learn rough carpentering, which is most useful to them later on. I think that most of them like that sort of work.

There is accommodation for 80 or 90 pupils. The class work follows the lines laid down by departmental regulations, and the girls are given instruction in general housework. Perhaps the hardest part of the teachers' work is to instill into the children an idea of industry. I am told, however, that once the children become interested, they get on very well, and soon learn the habit of study. Religious instruction is given every day for half an hour. Dr. McDonald tells me that the general health is very good.

Hay River School.

This school is under the auspices of the Church of England. It is built on the banks of the Hay river, about a quarter of a mile from the lake, where it is protected from the heavy winds. The buildings are not up to the standard required by the department, but it is the intention to rebuild this summer, and add greatly to the present accommodation. The children seem happy, and are always neat and clean, and, I believe, healthy. I do not think there has been more than one death there for a number of years. The class work follows the requirements of the department. The usual subjects are taught, and the boys get a good deal of practical training in the every-day knowledge that will be of most use to them later, while the girls are taught sewing, housework, and given a good idea of the necessity of cleanliness. The school, though hampered at present by lack of accommodation, does excellent work, and should be one of the best when the new buildings are erected. All told, for such a northern district, I think that all the schools in Treaty 8 are a credit to the department and to the people who are devoting their lives to Indian education.

BRITISH COLUMBIA.

BABINE AGENCY.

Number of children of school age.	384
Number of pupils enrolled at day schools.	315
Average attendance.	129
Number enrolled at Port Simpson.	1
Number enrolled at Coqualeetza.	5
Number enrolled at Crosby Girls' Home.	3

5 GEORGE V., A. 1915

Mr. R. E. Loring, Indian agent, gives the following report on the schools of this agency:—

Kitselas (New Town) School.

This school is situated in the village of New Town, on the right bank of the Skeena, and about 4 miles below the Kitselas canyon. Through the efforts of the teacher, Mr. Louis Edgar, this school is giving satisfactory results. The school has been supplied with the necessary class-room material.

Meanskinisht School.

This school is centrally located in the village. The teacher is Miss K. E. Tomlinson. Satisfactory progress is being made and a general influence for good is apparent.

Kitwanga School.

This school, situated in the village, is making very good progress. The teacher is Miss Florence B. Kemp. The instruction is very good, and the attendance is large and regular, and the results are highly satisfactory.

Andimaul School.

This school, situated in the centre of the village, has usually a fair attendance. The present teachers are the Misses Halpenny and Hed, and under their management good work is expected.

Kitsegukla School.

This school is situated in the centre of the village of New Kitsegukla. The teacher is Miss Susan J. Edgar. The attendance has improved since the children of school age from the old village now attend this school.

Hazelton School.

This school is situated on the northern boundary of the Hazelton townsite. The teacher is Miss E. J. Soal. There is usually a good attendance here. The instruction given is of the best and the results are satisfactory.

Glen Vowell School.

This school is conducted under the auspices of the Salvation Army, and is taught by Miss Agnes Law. Steady progress is being made and the results are very encouraging.

Kispiax School.

This school is quite large and is well situated. Surrounding the school there is enough ground for a garden and for a playground for the pupils. The teacher, Mrs. A. L. Fakely, deserves much credit for the interest she takes in her work.

Kisgegas School.

This school is the most northerly in the agency and completes the list of day schools in the Skeena district. The teacher, Mr. Joshua Harvey, who is a native, is exceptionally bright and intelligent. The school is situated in the centre of the village. The teacher, assisted by his wife, is making very fair progress here. The girls are instructed in domestic science.

SESSIONAL PAPER No. 27

Rocher de Boulé School.

This school is located on the Tsitsk reserve, on the Bulkley river, about 4 miles to the southeast of Hazelton. For the greater part of the year it was closed for the want of a teacher. It was re-opened in January by Mr. Joseph Browning, and, under his management, satisfactory results are expected.

Fort Babine School.

This school was opened in September, 1913. The teacher, Mr. Joseph Morrissey, is a thoroughly competent man. Since the opening of this school the attendance has been regular. At the present rate of progress it is expected that this school will give a very good account of itself.

BELLA COOLA AGENCY.

Number of children of school age	319
Number of pupils enrolled	231
Average attendance	88
Number of pupils enrolled at Coqualeetza Institute	8
Number of pupils enrolled at Port Simpson Boys' and Girls' Home	4

Mr. Iver Fougner, Indian agent, reports on the schools in this agency as follows:—

Bella Coola Day School.

This school has been taught by the same teacher as last year, Miss Adeline Gibson. During the year the attendance has been better than in previous years, and the school grounds have been cleared and fenced. The building, with furniture and surroundings, is one of the best, and the teacher is young and cheerful.

Bella Bella Day School.

Miss Tranter, an able teacher with long experience, taught here this year. The attendance has been better than last year.

China Hat Day School.

As in previous year, this school has been taught by Mr. Read, who is a painstaking man, and a hard worker. He is assisted by his wife, who is also field-nurse at this place. The attendance at school has increased since last year.

Kitimat Day School.

The teacher is Miss Isabelle Clarke. The children from the boarding school attend here. It is thus the best attended and the most successful day school in this agency.

Kitimat Boarding School.

This school is still under the able superintendence of Miss Ida M. Clarke, assisted by a staff of three lady teachers. Girls only attend and are taught domestic science in addition to the regular course of studies. Miss Clarke, in reporting on this school, states that the girls do a large amount of useful sewing.

The buildings are very pleasantly located with a fine view of the bay.

5 GEORGE V., A. 1915

Hartley Bay School.

This school was re-opened this year with the Rev. H. J. Matthews as teacher. The attendance has been very good. Both teacher and pupils show much interest in their work.

Kitkatla Day School.

This school is situated in the village of Kitkatla and is taught by Mr. M. C. Mustard. Mr. Mustard is well educated and is assisted by his wife, who is also a teacher. The building is commodious and is furnished with new desks.

Port Simpson Girls' Boarding School.

Miss L. M. Deacon, principal, reports: 'The average attendance for the past year has been 22. All the pupils have made good progress in their studies and especially so in English. Special training is given the girls in housework, cooking, and sewing. A vegetable and flower garden is also cultivated by the girls under a teacher's supervision. The ex-pupils of this school have conducted themselves most creditably since their discharge.'

Port Simpson Boys' Boarding School.

Rev. G. H. Raley, principal, reports: 'There has been a good average attendance during the past year and the work done in the class-room has been most satisfactory. The boys take great interest in the school garden and it is so well cultivated that the Provincial Horticulturist remarked that he considered our garden to be the experimental garden of the Northwest Coast. The ex-pupils of this school are doing well.'

General Remarks.

The day schools and the boarding schools in this agency have had a good attendance during the past year. The work done at these institutions must have a most beneficial effect on Indian life.

COWICHAN AGENCY.

Number of children of school age.	340
Number of children enrolled at day schools	75
Average attendance.	36
Number enrolled at Kuper Island industrial.	56
Number enrolled at Coqualeetza industrial.	18

The Indian agent, Mr. W. R. Robertson, reports on education in this agency as follows:—

Kuper Island Industrial School.

The principal of this school is the Rev. W. Lemmens, who is assisted by a devoted staff.

The pupils have made very satisfactory progress during the past year.

A new building will be erected here in the near future.

In a special report to the department, the principal, Rev. W. Lemmens, states: 'In addition to the usual studies the girls are taught sewing and cooking, while the boys are given instruction in farming and the care of stock. They are also taught carpentry and shoemaking. Most of the ex-pupils profit by the lessons received at school.'

SESSIONAL PAPER No. 27

Nanaimo Day School.

Miss K. Aspdin is in charge of this school and seems to be taking great interest in her work.

The pupils have made most satisfactory progress during the year.

Koksilah Day School.

Mr. C. A. Dochstader has taught this school for the past year and has been doing good work. He takes a deep interest in the Indians, and the pupils under his tuition are making satisfactory progress.

Quamichan R. C. Day School.

This school was closed on June 30, 1912, but was repaired and re-opened on January 26, 1914. The teacher is Miss C. Ordano, who is assisted by Miss M. Frumento.

There has been a good average attendance during the past quarter and it is hoped that the Indians will show their appreciation of this school by sending their children to school regularly.

Soughees Day School.

This school was opened on September 1, 1913,, on the Songhees reserve at Esquimalt. The teacher is Miss R. A. Quigley.

A new school building was built last summer and the Indians have every reason to be proud of it.

Miss Quigley is much interested in her work, and, although the attendance has not been as large as hoped for, still there is every reason to believe that excellent results will attend the opening of this school.

Tsartlip Day School.

This school is in charge of Miss L. H. Hagan. If the pupils would attend regularly they would make good progress, but it seems hard to make them realize the necessity of attending every day.

KAMLOOPS AGENCY.

Number of children of school age	296
Number of children enrolled at Kamloops industrial	66

The agent, Mr. J. F. Smith, reports on educational matters in this agency, as follows:—

Kamloops Industrial School.

This school is situated 3½ miles northeast of the city of Kamloops.

Within the past two years the main buildings have been completely renovated and remodelled, thus improving the sanitary conditions. Last November, an electric light system was installed and the principal's office was connected by telephone with the city of Kamloops. A three and a half horse-power gasoline pump ensures an adequate water-supply.

The principal is the Rev. A. M. Carion, O.M.I. The Sisters of St. Ann teach the girls; and the boys' class-room is in charge of Mr. E. Holloran. The technical instructor is Mr. E. LaCase.

In the girls' departments, instruction is given in reading, writing, sewing, cooking and general housework. Most satisfactory progress is reported by the sisters in charge.

The boys are also doing well in the class-room. In addition, they are given an insight into the several branches of the mechanical arts. Special attention is also given to farming, as this is most essential for the rising generation of Indians.

EX-PUPILS.

The ex-pupils of this school are certainly exercising a good influence on their tribesmen. I took special charge of ten ex-pupils, last spring, and made each of them prepare ten acres of land. Five acres were planted with apple-trees, and the other five acres were sown with seed oats and wheat provided by the department. Vegetables were grown among the trees. I am pleased to report that these ex-pupils gave unremitting attention to their orchards and crops and great success was achieved by all.

The success of these ex-pupils is a great encouragement to the others and a number of other Indians intend to plant orchards this year.

During the past year I have noted a great improvement in the conduct of the ex-pupils and I am able to see the good influence exerted by these ex-pupils among their tribesmen.

KOOTENAY AGENCY.

Number of children of school age	118
Number enrolled at Kootenay industrial	80

Mr. R. L. T. Galbraith, Indian agent, reports on educational work as follows:—

Kootenay Industrial.

Since the completion of the new building, work at this school is progressing most satisfactorily. The modern heating plant has been installed and the new laundry has been built.

The pupils have been very attentive and painstaking with their studies during the year and steady improvement is noted. In addition to the class-room work, the boys are taught farming, carpentry, shoemaking and harness-repairing. The girls are instructed in sewing, dressmaking, dairying and housekeeping.

I am pleased to state that the parents take an active interest in the welfare of the school.

The members of the staff, under the very efficient supervision of Sister Justinian, discharge their several duties faithfully and zealously.

The ex-pupils continue to give a good account of themselves, and their services are in great demand. Some are employed at farming, while others work at the lumber mills.

Lessons taught at the school tend to strengthen the pupils against temptation and enable them to adapt themselves to their surroundings when they leave school.

KWAWKEWLTH AGENCY.

Number of pupils of school age	179
Number of pupils enrolled at day schools	60
Average attendance at day schools	22
Number enrolled at Alert Bay industrial school	34
Number enrolled at Coqualeetza industrial school	1

Mr. W. M. Halliday, Indian agent, reports on the schools in this agency as follows:—

SESSIONAL PAPER No. 27

It is a matter of congratulation that more interest has been taken in educational matters by the Indians during the past fiscal year and that great improvement can be noted in the progress of the pupils of all the schools.

Alert Bay Day School.

Up to the end of the Christmas term this school was in charge of Miss M. Clowes, who took a great interest in her work and obtained good results. Miss Ferryman is now teaching here and it is confidently expected that she will do good work. The school-room is comfortable and commodious.

Cape Mudge Day School.

This school still continues under the management of Mr. J. R. Rendle, the Methodist missionary at that village, and fair progress has been made. Mr. Rendle is both careful and conscientious, but has been considerably handicapped by the fact that the parents are away from home for a considerable length of time and take the children with them. The school is comfortable and well lighted, and the children are, on the whole, a bright and happy-looking lot and are showing improvement.

Alert Bay Boys' Industrial.

Good work has also been done during the past year at the Alert Bay industrial school for boys. This institution is under the control of the Anglican Church. A very great interest in its welfare is taken by the Lord Bishop of Columbia.

The principal is Rev. A. W. Corker, who has proved most efficient in his work. The staff consists of Mrs. Corker, matron, Mr. G. Luther, Mr. E. Hunt, trade instructor, and a teacher. In addition to the regular studies, the boys are instructed in carpentry and gardening. The pupils are also well grounded in religious truths.

Alert Bay Girls' Home.

The Girls' Home at Alert Bay continues to be very satisfactory, and the girls are making very marked improvement not only in the school-room, but also in manners, deportment, and domestic science.

The staff consists of Rev. A. W. Corker, principal, Miss Neville, matron, Miss Roper, assistant matron, and Miss Nixon, teacher. Miss Nixon has been trained in England, has modern methods and is meeting with deserved success.

Although this institution has been in active operation for only a year and a half, still progress has been excellent and the great improvement in the children is a cause for general gratification at the good influence that the school will exert.

Ex-Pupils.

While the conduct of the ex-pupils in the past is not all that could be hoped for, still it is confidently expected that a great improvement will be noticed in the future. One ex-pupil is now a teacher in the industrial school and organist in the church. Another ex-pupil, Edwin Cook, is taking a course training on board the school ship, H.M.S. *Conway*, in Liverpool, England. Late advices state that he is making excellent progress. In deportment and morals there is a marked difference for the better between ex-pupils and the young men who have not attended school.

General Remarks.

From an educational standpoint, things never looked better than they do at the present time. The parents are beginning to realize the value of education and are taking an active interest in the schools. Many people are inclined to criticise the

5 GEORGE V., A. 1915

spending of money on Indian education; but, if they could visit the schools and realize the vast good that these institutions are accomplishing, their views would be materially changed.

LYTTON AGENCY.

Number of children of school age.	510
Number of pupils enrolled at day schools.	38
Average attendance.	17

The agent, Mr. Graham, reports on the schools in his agency as follows:—

Lytton Day School.

The teacher, Miss Lilly Blachford, is both capable and painstaking. She speaks the Indian language fluently, takes an interest in both old and young, and is of great assistance to the Indians in many ways. The building is made of logs, but is in good repair.

The studies prescribed by the department are faithfully carried out.

While the attendance has been rather irregular, I consider that great improvement has been made during the past year.

Shulus Day School.

This school is situated on the Nicola Mameet reserve and is in charge of the Anglican missionary, Rev. F. B. Eteson, who is assisted by Miss Williams. Miss Williams takes a great interest in her work and often visits the Indians' homes to teach them how to keep their houses clean.

As many young children attend the school, kindergarten methods are followed, and I am pleased to say that splendid progress has been made during the year.

It is most gratifying to see the number of older Indians who attend the night school and their great ambition is to learn to read and write. The women are specially instructed in sewing.

All Hallows Boarding School.

This school is situated half a mile west of the town of Yale. There is a four-acre garden in which a large quantity of fruit and vegetables are raised. Besides this, each girl has a plot of ground for a flower garden.

The class-room work is carried out as prescribed by the department. The studies now taught enable the pupils to write at the British Columbia high school entrance examination. All the girls are instructed in sewing, laundry work, cooking and general housework. Dr. Elliot gives a series of lectures in second-aid work.

Lytton Industrial School.

This school is situated about two miles from the town of Lytton. The buildings are in excellent condition and are most convenient.

In connection with the school there is a large farm, which permits the teaching of the principles of agriculture to the boys.

Rev. L. Dawson, the principal, reports: 'Special attention is given to the teaching of carpentry, blacksmithing and shoemaking. The attendance during the past year has been large and all the pupils have made most satisfactory progress in their class-room work, which has been under the charge of Mr. Scarrett.'

SESSIONAL PAPER No. 27

NASS AGENCY.

Number of children of school age.	469
Number of children enrolled at day schools.	208
Average attendance.	83
Number of children enrolled at Port Simpson Boys' and Girls' Homes.	40

Mr. C. C. Perry, Indian agent, reports on the educational work in this agency as follows:—

Lakkalzap Day School.

The teacher at this school is the Rev. Wm. Crarey.

A good attendance and efficient instruction permit of good results being obtained. The building is new.

Aiyansh Day School.

This school is situated at the village of Aiyansh, 60 miles up the Nass river. The teacher is an Indian.

Kincolith Day School.

A new school was recently erected at Kincolith at the mouth of the Nass river.

The present teacher is Mr. H. Collison. There is a good attendance and satisfactory progress has been made.

Port Simpson Day School.

This school is taught by Mr. J. H. Young, who has done excellent work since he took charge.

There is a good supply of suitable equipment.

The primary class is conducted by Mrs. A. S. Dudoward, a native.

Port Simpson Day School.

This institution ranks among the best of the Methodist educational establishments in Canada.

The present principal is Miss F. E. Hudson, who is assisted by Miss Fanny Gray, Miss Lottie Deacon, Miss Powell and Miss Black.

In addition to the regular school-room work, the girls are specially instructed in deportment, domestic science and general housework.

I am pleased to report first-class progress in all branches.

Port Simpson Boys' Boarding School.

This school is also under the auspices of the Methodist Church. Rev. G. H. Raley is principal and is assisted by Miss Smiley, a matron, and Miss Elliott as assistant matron.

The erection of a new building is contemplated at present.

A number of boys educated here have proved to be good and industrious and the school is progressing.

Metlakatla Day School.

This school is capably taught by Miss S. Klippert.

The attendance is good and excellent progress is being made by the pupils.

The building is in first-class condition and the class-room is well equipped.

Port Essington Methodist Day School.

Miss Fanny Noble is in charge of this school.

By her tactful and pleasing manner, she has obtained a good attendance and the pupils are improving rapidly.

The building is practically new and is well furnished.

General Remarks.

Efforts are being made to allow the attendance of Indian children at the white schools at Georgetown and Torrance.

Careful oversight has been kept over all the schools in the agency, and I am pleased to state that most satisfactory progress has been made during the past year. The effect of education on reserve life is decidedly beneficial.

NEW WESTMINSTER AGENCY.

Number of children of school age.	436
Number of pupils enrolled.	140
Daily average.	80
Number of pupils enrolled at Coqualeetza industrial.	87
Number of pupils enrolled at Squamish Mission boarding.	50
Number of pupils enrolled at St. Mary's Mission boarding.	65
Number of pupils enrolled at Sechelt boarding.	42

The Indian agent, Mr. Peter Byrne, reports on the schools in his agency as follows:—

The educational institutions in this agency consist of one industrial school, three boarding schools and three day schools.

Coqualeetza Industrial School.

This school is situated in the Chilliwack valley in the centre of a prosperous and progressive farming community. The children receive a good common school education, and it is the intention of the principal to form an entrance class for the advanced pupils.

In connection with this school there is a large farm which enables the giving of practical lessons in agriculture. The boys are also taught shoe-repairing, baking and carpentry. The girls are instructed in housework, dressmaking and cooking.

There was a very creditable exhibit of hand painting done by the pupils of this institution at the Royal Agricultural and Industrial Exhibition, held in New Westminster last fall.

The principal, Rev. R. H. Cairns, in his report on the year's work says that the school has enjoyed a most successful year and that the ex-pupils are progressing rapidly.

St. Mary's Mission Boarding School.

At this school, there are two buildings, one for the boys and the other for the girls. Both buildings were painted this year. A magnificent view of the surrounding country and the Fraser river is obtainable from the school.

The principal Rev. V. Rohr, O.M.I., reports: 'The boys are taught agriculture, painting, carpentry and shoemaking. They also assist in the operation of the shingle mill. The girls receive instruction in housework and sewing. In the study of music the pupils show marked ability. The boys generally have a good band in which they take great interest, and the girls acquire considerable efficiency in vocal music. A

SESSIONAL PAPER No. 27

moving picture machine has been purchased and installed in the recreation hall. The pupils are much interested by the moving pictures and as educational films are mostly shown, the result is distinctly of good educational value. All reports show that the ex-pupils are doing well and have profited by the education they received.'

Squamish Mission Boarding School.

This school is situated in the city of North Vancouver.

Reverend Sister Mary Amy and a competent staff give the pupils of this school an excellent training in all the branches authorized by the department. The boys are taught gardening and fruit-growing, and how to care for and milk the cows that are kept at the institution.

The girls are instructed in all kinds of housework, cooking, washing, mending, and also how to make butter. All the care possible is bestowed on these children.

Sechelt Boarding School.

This school is situated on the Sechelt Indian reserve, a short distance from the seashore of Trail bay.

The pupils continue to make good progress in the usual studies authorized by the department. The boys are taught gardening and how to care for the stock, which is kept at the institution. Some of them are very handy with carpenter's tools, while others are capable of mending their own and the other pupils' shoes. This seems to be a natural bent, as some of their parents are expert canoemakers and house-builders.

The girls are taught housekeeping in all its branches, besides buttermaking. Some of them are expert needlewomen; they cut and make their own garments, and those of the other pupils.

Sister Theresine and her devoted assistants attend to the duties connected with this school and also visit the residents of the reserve from time to time, and assist and educate the mothers in looking after their houses and in the care of their children.

Homalco Day School.

This school is situated on Aupe reserve, near Bute inlet.

Since the large two-story school building was burned to the ground last summer, school has been carried on in the priest's house. A new school on the site of the old one is nearly completed, and will be occupied in a few weeks.

These Indians fully appreciate the good work of the department in furnishing the material for the new school, and appointing a man to supervise its erection. The Indians themselves are doing the work.

The new building will be large enough for the children to reside in during the absence of their parents, who are obliged to be away from the reserve a great part of the year. The parents provide the necessary food and clothing for the children while there, and the teacher instructs them in cooking, washing and mending, and also in looking after their dormitories.

Mrs. Kathleen Petznick is the teacher. Her husband, Mr. Petznick, will assist her as soon as the school is open in the new building.

There is about one acre of land available for cultivation near the building, and it is the intention to have this made into a garden in the spring. Mr. Petznick will instruct the children in growing vegetables and small fruit.

Sliammon Day School.

This school is situated on the Sliammon Indian reserve, near the village.

The pupils are receiving instruction in the prescribed course of studies and are making fair progress.

5 GEORGE V., A. 1915

The present teacher is Mr. B. Nicholson. His wife visits the homes of the Indians and instructs the mothers in looking after their houses and in caring for their children.

Tsawassen Day School.

This school is situated on the Tsawassen Indian reserve, overlooking the gulf of Georgia, one mile north of the international boundary line. It was opened on November 1, 1913, with Rev. William Chaput as teacher. The Indians provided the building and the furniture. All the children on the reserve attend school regularly and are making good progress.

Skwah Day School.

A new school with accommodation for forty pupils has been built by the department on the Skwah reserve.

The contractor has practically finished the work on this building. A requisition for the necessary material has been forwarded and it is expected to open the school about March 1.

As the Indians of this reserve are taking a great interest in the school, it is confidently expected that excellent progress will be made.

General Remarks.

Ex-pupils, both boys and girls, are doing well and are effecting a marked improvement on reserve life.

In spite of numerous drawbacks, those young men who are farming are fairly successful. Others occupy responsible positions, some being foremen.

The female ex-pupils are good housekeepers, their homes and surroundings being superior to the average Indian home. It is noticeable that they are much more comfortable than those who have not enjoyed the advantages of education.

OKANAGAN AGENCY.

Number of children of school age. 184

There are no Indian schools in this agency, but the agent, Mr. R. Brown, reports on educational matters as follows:—

As the Indians at Enderby and Penticton have refused to allow schools on their reserves, those parents who desire education for their children have to send them to the public schools.

At the present time Indian children are attending the white schools at Larkin, Armstrong, Hedley and Similkameen. In some cases the children walk from three to six miles to attend school.

I regret very much that so many of the Indians are so indifferent to education.

QUEEN CHARLOTTE AGENCY.

Number of pupils of school age. 109
 Number of pupils enrolled. 122
 Average attendance 37

The Indian agent, Mr. T. Deasy, reports on the educational work in this agency as follows:—

At Massett there is a well-built, two-roomed school. Single desks have been installed recently and every effort has been made to make the pupils comfortable. During the winter there are two teachers at this school.

SESSIONAL PAPER No. 27

As many of the Indians work at the cannery at Naden Harbour during the summer, one of the teachers from the Massett school conducts a school at Naden Harbour while the Indians are working there.

The resident missionary gives instruction to the pupils at certain times on weekdays.

The attendance is fair, but rather irregular.

A day school is also operated on the Skidegate reserve. The parents, here, take a great interest in the school and the attendance during the past year has been very good.

Double desks have been installed recently in this school and the building has been repaired and painted.

The children are very bright and are making satisfactory progress in their studies. Religious instruction is given by the resident missionary.

General Remarks.

The Indians of this agency have two of the best school buildings in the province, and the pupils are advancing rapidly in their studies. The greatest drawback to education is caused by the irregular attendance of the children at school and this is due to the nomadic life of the Indians of the island.

STICKINE AGENCY.

Number of children of school age..	116
Number of pupils enrolled..	48
Average attendance	12

Mr. W. S. Simpson, the Indian agent, reports on the educational work in this agency as follows:—

The Tahltan band has two schools, Telegraph Creek, which is taught by Mr. W. P. Thorman, and Tahltan Mission, which is taught by the Rev. F. P. Thorman.

Both whites and Indians attend Telegraph Creek school, and those Indian children who attend regularly are making good progress. Ex-pupils of this school show a marked improvement over those who have not had the same opportunity.

The Tahltan Mission school is under the auspices of the Church of England.

Although it is rather difficult to obtain a regular attendance at all times, progress is noticeable. A pleasing feature is the pride that the parents take in the advancement of their children.

It is a pleasure to meet in their homes the ex-pupils of this school.

WEST COAST AGENCY.

Number of children of school age..	300
Number of pupils at day schools..	89
Average attendance..	32
Number enrolled at Clayoquot industrial school..	51
Number enrolled at Ahousaht boarding..	33
Number enrolled at Alberni boarding..	51

The Indian agent, Mr. C. A. Cox, reports on the schools in this agency as follows:—

Clayoquot Industrial School.

This school is situated on Meares Island, and is under the auspices of the Roman Catholic Church.

5 GEORGE V., A. 1915

The main building is large and modern. It is steam-heated and has a splendid water system.

The ex-pupils of this school are bright and intelligent and are doing well. Two of the boys conduct stores on the reserve.

The principal, Rev. F. Epper, reports: 'The boys are taught farming, carpentry, painting and shoemaking. The girls are instructed in domestic science. All the pupils have made excellent progress during the past year.'

Clayoquot Roman Catholic Day School.

Rev. J. Schindler teaches this school and is doing good work among the Indians of the Opitsat reserve. The attendance recently has shown a marked increase.

Ahousaht Boarding School.

This school is situated on the Maktosis reserve and is under the auspices of the Presbyterian Church. The principal, Rev. J. T. Ross, is assisted by a zealous staff.

The class-room work of the pupils is progressing favourably. The boys are instructed in carpentry and their exhibit of furniture at the local fair won credit from everyone and reflects great credit on their teaching.

All the ex-pupils are showing the good results obtained from their education. The department has assisted some of these ex-pupils and in most cases they have made good use of the help granted them.

Ucluelet Day School.

This school is taught by Mr. W. Vander Veen and is under the auspices of the Presbyterian Church.

The attendance is not large, but the pupils are making satisfactory progress.

Alberni Boarding School.

This school is on the Ittatsoe reserve and is under the management of the Presbyterian Church. The principal is Mr. H. B. Currie, who is assisted by a competent staff.

The main building is being repaired at the present time. The laundry and bakehouse erected two years ago are conveniently planned. The class-room, which is separate from the main building, is very modern and the best building on the grounds.

The principal is doing good work. He takes an especial interest in all branches of farm work.

All the ex-pupils are workers and are making a first-class showing.

General Remarks.

The general effects of education upon reserve life are encouraging. Still greater benefit will be felt in the next generation.

WILLIAMS LAKE AGENCY.

Number of children of school age.	157
Number enrolled at Williams Lake industrial.	53

The Indian agent, Mr. I. Ogden, reports on the school in this agency as follows:

Williams Lake Industrial School.

This school is situated in a valley on the right bank of San Jose creek, and is about four miles from the Williams Lake reserve.

SESSIONAL PAPER No. 27

The buildings are large and up-to-date and all are kept in good condition.

During absence of the Rev. H. Boening, the principal, Rev. A. Madden is acting principal and is conducting the school in a most satisfactory manner. The staff takes great interest in the work of the children and I find that the pupils are progressing steadily in all the subjects and especially in reading and writing.

Last year large crops of vegetables and fruits were grown in the school gardens. The boys are given instruction in farming and I am certain that many of them will be successful farmers.

Ex-pupils.

I am pleased to report that the ex-pupils are making satisfactory progress. They have more knowledge of farming than those who have not attended school and are making good use of their education. Some of the ex-pupils were married last winter. It is also noticed that the ex-pupils pay more attention to the instructions of the agent than the older Indians do.

YUKON.

Number enrolled at the day schools	106
Number enrolled at the Carcross boarding school	36

During the past year, day schools have been in operation at Champagne Landing, Whitehorse, Teslin Lake, Selkirk and Moosehide. The attendance at each of these schools has been quite satisfactory and the pupils have made good progress.

The boarding school is situated near Carcross. The principal, Rev. W. T. Townsend, reports: 'A number of necessary improvements have been made to the building during the past year. The attendance has been excellent. In addition to the regular class-room work, the boys are instructed in gardening and wood-carving, while the girls are taught cooking and general housework. Special mention must be made of the publication by the pupils of a quarterly paper, which is printed at the school. The progress made by the ex-pupils of this institution is most encouraging.'

The information contained in this report will, it is hoped, be of value to those interested in Indian education and useful as a record of progress.

MARTIN BENSON,
for Superintendent of Indian Education.

SCHEDULE of Establishment of Indian Boarding and Industrial Schools.

School.	Location.	Land.	Buildings.	Water Supply.	Fire Protection.	Heating and Lighting.
Mohawk Institute.	In township Brantford, some 1½ miles from city of Brantford. <i>P.O. Brantford, Ont.</i>	Comprises lot 5 Eagle's Nest (10 a c r e s) a Crown grant, 194 acres by license of occupation and 176 acres Mohawk Glebe lot in city.	Buildings form letter H, consisting of main building, including stores, cold stores, officers' dining rooms, &c., North Wing and South Wing a boy's playhouse, a small hospital, stables, hog pen, 2 greenhouses, a carpenter shop, frost-proof fruit house, poultry house and silo.	From city water works.	Fire department of city including 4 hydrants with hose; 2 stand pipes with hose on all floors; 4 chemical fire extinguishers; 2 dozen blaze killer tubes, axes and extension ladders. A branch firehall close by, for which school contributes \$60 per year.	Both wings occupied by pupils have coal and gas furnaces of large capacity. Main building, heated by hot water, kitchen, laundry and dairy all use natural gas. Buildings lighted throughout by electricity.
Mount Elgin Institute.	15 miles northwest of St. Thomas in county Middlesex, township Caradoc. <i>P.O. Muncy, Ont.</i>	225 acres, being a portion of the Chippewa reserve.	A main building erected in 1895 four stories, brick; an old building 100 feet to each contains dwellings of two officers and families and a four-cot hospital and dairy cellar. Other buildings are a carpenter shop, implement shed, carriage shed, poultry house, stables, grain barn, &c., all on brick or cement foundations.	Abundant supply of spring water, furnished by hydraulic pumps and piped to all parts of the building.	Two large tanks located in attic. Pipes convey water to 18 hose distributed throughout the building. Fire extinguishers, pails, and axes placed in main hallways.	Three coal furnaces and hot water system heat main buildings, and schoolrooms. lighted by electricity.
Shingwauk Home	Located 1½ miles east of business part of Sault Ste. Marie, but within town limits. <i>P.O. Sault Ste. Marie, Ont.</i>	Comprises 93 acres mostly cleared, being park lots 1 and 2 Tarentaurus township.	Main block comprising 185 x 137 feet building and principal's residence, offices of institution, etc. To the east is a 2-story frame building 60 x 30, drill hall and playroom and upper story a school room; a chapel, hospital, farmer's cottage; carpenter's cottage; factory and stables.	3-inch pipe connects with city supply.	Has 2 hydrants connected with 3-inch pipe from city, inside and outside; 2 fire tanks capacity of 1,925 gallons in upper flat—a 50 lb. pressure maintained. Axes, pails kept handy.	Main building heated by a hot water system separate buildings by stoves. Coal oil lamps used to light.

Spanish River Industrial.	1 mile from Spanish river, north shore of Lake Superior. <i>P. O. Spanish, Ont.</i>	Between 300 and 400 acres.	Boys' buildings: frame, cement foundation, one 90 x 45, 3-story, the other 106 x 45, 3-story frame. Girls' buildings: main building is solid cement 66 x 50 with two wings, each 56 x 36, 3-story high.	Abundant supply of water.		Heated by hot-water furnaces. Lighted by electricity.
Moose Fort.	On Moose Island, 9 miles, from where the Moose river joins salt water. <i>P. O. Moose Fort, James Bay, via Cochrane, Ont.</i>	10 acres of land is leased from Hudson Bay Co. Produces hay and potatoes.	Boarding school building, 2 stories, 40 x 50 feet, principal's house 30 x 30 feet cottage hospital, carpenter-shop, engine house, cow stable, woodshed. The day school building is 40 x 20 feet.	All water used is obtained from river 100 yards distant from school.	Buckets and barrels, filled, always on hand; two ladders from roof.	Heated by three wood stoves; lighted by coal oil lamps.
Chapleau Boarding	On lot 2, section 6, township Chapleau, ½ mile from town and across lake. <i>P. O. Chapleau, Ont.</i>	165 acres, only 15 of which is cleared. Belongs to Government.	School building, 40 x 22 feet, dwelling house, 52 x 52 feet; kitchen 20 x 12 feet; also a woodshed. Boat house and chicken house, all frame buildings.	Water obtained from lake for laundry purposes, and from a well for drinking purposes.	Barrels and buckets are kept filled with water; also 2 iron fire-escapes.	Heated with wood stoves, lighted by oil lamps.
Fort William Orphanage.	Northwest corner of Franklin and Arthur streets, Fort William. <i>P. O. Fort William, Ont.</i>	Comprises 3½ acres and belongs to school.	School is a three story solid brick building 78 x 40 ft. with an extension 33 x 22 feet, basement and attic. Stable 23 x 24 feet, store room 22 x 14 feet and a chicken house, all frame.	City water supply and is conducted throughout building by means of tank and water pipes.	There are 100 feet of hose on each flat connected with city power. Wrought iron fire escape from top to second floor and also from second to ground.	Heated by hot water system and lighted by electricity.
Ft. Albany Boarding.	Situated on Albany Island, at mouth of Albany river, 6 miles from the sea. <i>P. O. Fort Albany, James Bay, via Cochrane, Ont.</i>	Belongs to the Hudson Bay Co., a perpetual grant given.	Main building, 3 story, 65 x 40 feet; a barn, carpenter-shop, laundry and a store house.	Water taken to buildings in buckets from river.	Two ladders fixed at each end of building are only means of protection.	Heated throughout by wood furnaces. Lighted by coal oil lamps.
Elkhorn Industrial	About ¼ mile from town of Elkhorn, Man. <i>P. O. Elkhorn, Man.</i>	320 acres as a farm, comprising southwest quarter section 4 and southeast quarter section 5, township 12, range 28.	Comprises main building, principal's residence laundry, gymnasium and various stables, granary, dairy, and other outbuildings.	From a well, water being pumped by gasoline engine into large tanks at top of main building.	A McRobie engine in basement with an 80 gallon tank, supplemented by 2 Babcocks, 5 Stempels and 20 Eclipse dry dust tubes.	Hot water boiler heated with tamarack wood. Lighted with acetylene.

SCHEDULE of Establishment of Indian Boarding and Industrial Schools.—*Continued.*

School.	Location.	Land.	Buildings.	Water Supply.	Fire Protection.	Heating and Lighting.
Brandon Industrial	Is 3 miles northwest of Brandon. <i>P. O. Brandon, Man.</i>	320 acres, being east half of section 28, township 10, range 19; about 240 acres of this is in the valley; also 640 acres being section 23 township 10, range 19, west of principal meridian..	Main building of brick veneer, 97 feet frontage, 3 stories high, with a 2 story addition across rear; principal's residence, asst. principal's residence, ice-house, root-houses (2), barn, stables, piggery and other out-buildings, new building for a granary and implement shed.	Spring water, pumped by windmill into large tank at top of building, with pipes to all parts of institution. Supplemented by well pumped by electric power.	A McRobie engine with hose to all parts of building. Hose from tank also. Fire escapes from dormitories.	Hot air from 3 large wood and 2 coal furnaces, in main building. Lighted by electricity.
Birtle Boarding...	On north bank of Bird Tail river ravine, within limits of town of Birtle. <i>P. O. Birtle, Man.</i>	Owens 30 acres and rents 30 acres in 6, 7 and 26, in municipality of Birtle. School farm situated 2 miles away on southwest quarter 16, 17, 26, having 100 acres arable land.	Main building 84 x 26 feet, stone; new class room and gymnasium, 58 x 28 feet, frame; old school building, 3 stories and basement; barn, 28 x 36 feet, frame; hogpen, 20 x 14 feet, concrete; granary, 10 x 12 feet, frame.	School is connected with new pumping plant of C. P. R. in Birtle; 40 lbs. pressure through buildings. Hard water is obtained from well 200 yds. from school and is pumped into a tank by means of a gasoline engine and thence piped to kitchen.	Plenty of hose and regular drill of pupils. Electric bells throughout building. Hose on all floors, stand pipe and tank at top of building. Escapes and extension ladder.	Two large Safford sectional boilers in main building. Acetylene from the Birtle plant.
Fort Alexander Boarding.	On south bank of Winnipeg river, a mile from its mouth, and on the Fort Alexander reserve. <i>P. O. Fort Alexander, Man.</i>	Land comprises 8 chains frontage and runs back of survey road nine chains. 1st lot No. 60.	School building is 70 x 40 feet, 3 stories and basement; also a workshop, stable, log barn, implement shed, engine house, and pig-pen.	A pump, run by a gasoline engine, draws the water, from the Winnipeg river to a large tank in attic.	On third floor are 3 tanks each containing 600 gallons; pumped full by gasoline engine. Fire escapes from every floor.	Steam heated throughout. Main buildings lighted by gas; other buildings by coal oil lamps.
Fort Frances Boarding.	On agency reserve, southwest of Rainy Lake. <i>P. O. Fort Frances, Ont.</i>	63 acres, part of the reserve.	Main building of 3 stories 40 x 70 feet. Principal's office, ice-house, workshop, stable.	Water pumped by gasoline engine from lake into 3 tanks in attic of 500 gallons each.	Two fire escapes from either end of building. Also fire extinguishers, buckets and barrels.	Steam heated and lighted by acetylene.

Pine Creek Boarding.	On Lake Winnipegosis near Pine Creek reserve. <i>P. O. Camperville, Man.</i>	Section 1, township 35, range 19 west 1st meridian, 160 acres; also south part of section 34, township 34, range 20 west 1st meridian.	School house is a stone building, 115 x 45 feet, 3 stories. Also a stable 100 x 59 feet, saw mill, carpenter shop, blacksmith shop, icehouse.	Water drawn from river by windmill and a gasoline engine.	Two iron stairs outside leading from floors. Two axes on each floor. Some pails and hose.	Heated by steam; lighted by acetylene gas.
Sandy Bay Boarding.	Centre of Sandy Bay reserve, on west shore of Lake Manitoba. <i>P. O. Sandy Bay, Man.</i>	100 acres, part of section 16, township, 18 range 9, set aside from the Sandy Bay reserve for the purposes of the school.	Building is 3 story frame 70 x 40 feet, on stone foundation, with annex 20x50, containing gasoline engine and plant. Icehouse, barn 30 x 100 feet, piggery and hennerly, carpentry and machine shop.	A well and soft water cistern. From lake in winter.	Two fire escapes from dormitories. Hose on each floor connected with tanks in attic. Also 15 fire extinguishers.	Heated by steam and lighted by acetylene gas.
Norway House Boarding.	Situated at Rossville Mission, on Norway House reserve, on Little Playgreen lake. <i>P. O. Norway House via Selkirk, Man.</i>	Anominal claim on land, partly on reserve and partly in Rossville village; 2 acres under cultivation.	Temporary buildings, new building in course of erection.	Obtained from Little Playgreen lake.	Four tubes of Eclipse extinguishers dust hung in convenient spots. Three barrels kept full in kitchen, and one in each play room; also buckets and axes.	Two furnaces and box stoves heat building. Lighted by oil lamps.
Portage la Prairie Boarding.	At the eastern side of the town of Portage la Prairie. <i>P. O. Portage la Prairie, Man.</i>	Has 2 acres owned by the Presbyterian Church; also 2 acres of city lots rented, all inside town limits.	New building in course of erection.	Three pumps and a 40 barrel tank in basement.	Fire-extinguishers throughout building. In telephone communication with town brigade.	Hot air coal furnace, lighted by electricity.
Cecilia Jeffrey Boarding.	At west end of Shoal Lake, 45 miles southwest of Kenora. <i>P. O. Kenora, Ont.</i>	A peninsula of 210 acres registered as D 492, District of Kenora, granted Presbyterian Church by Ontario government.	Main building 67 x 38 feet with wing 22 x 30 feet, frame, on stone basement. Also a class room, 43 x 28 feet; principal's residence 46 x 24 feet; a stable and icehouse, stone henhouse and storehouse combined.	Good water supplied from lake. Pumped by gasoline engine into 1,500 gal. tank in attic, thence by pipes throughout the building.	Hose connected to tank supply on each floor. Axes, buckets and ladders kept in readiness. Fire escapes from dormitories. Fire extinguishers.	Building heated by steam. Lighted by coal oil lamps.
Kenora Boarding.	Located 3 miles from town of Kenora on a hill commanding view of the lake. <i>P. O. Kenora, Ont.</i>	There are 45 acres of land belonging to Roman Catholic Church, Sub-division 1-8, township Jaffrey.	School building 112 x 40 feet, frame, brick veneered, on stone foundation; laundry, carpenter shop and storehouse, 46 x 18 feet; boat-house, icehouse, machine shop and shed.	From Lake of the Woods, a 6 H.P. gasoline engine pumps the water into two tanks.	Have 2 outside fire escapes from dormitories; 20 extinguishers, 6 pails and 6 axes.	Heated by steam furnace. Lighted by electric light from the town of Kenora.

SCHEDULE of Establishment of Indian Boarding and Industrial Schools—*Continued.*

School.	Location.	Land.	Buildings.	Water Supply.	Fire Protection.	Heating and Lighting.
Battleford Industrial.	On high south bank of Battle river, 2 miles south of town of Battleford. <i>P. O. Battleford, Sask.</i>	A reserve of 566 acres immediately adjacent to school and one of 376 acres 3 miles east of school. Embraces portions of sections 15, 17, 18, 19, 20, township 43, range 16, west of 3rd meridian.	Main building, principal's residence, 2 cottages, carpenter and blacksmith shops, stables, granary and various outbuildings.	From excellent wells.	There are 4 tanks always filled, iron piping to floors and hose on each. Babcock and dry-dust extinguishers, a McRobie apparatus with hose and escapes from dormitories.	Hot air furnaces and wood stoves used as fuel. Lighted by coal oil lamps.
Qu'Appelle Industrial.	In the Qu'Appelle valley on the Melville-Regina branch of the G.T.P. Ry. <i>P. O. Lebre, Sask.</i>	Some 1,300 acres consisting of various parts of sections all in township 21, range 13, west 2nd meridian of which about $\frac{1}{2}$ is arable. All is fenced and owned by department.	Main building 120x50 feet, girls' building 80x50 feet, and boys' building 80x50 feet. Also shop buildings, stables, storehouse and barn.	Drinking water from wells: water for domestic uses and fire protection brought from lake into two 1,500 gallon air pressure tanks.	Two 50 feet hose on each flat of main, boys' and girls' building are connected with the air pressure tanks. Two McRobie chemical engines with hose; electric alarm system; 2 escapes to each of three buildings, extinguishers, pails, etc.	Four Gurney steam boilers and stoves in shops. Siche gas system used to light the school buildings, and coal-oil for the shops.
Cowessess Boarding.	South of Crooked Lake, on Cowessess reserve, Qu'Appelle Valley. <i>P. O. Marieval, via Gravelton, Sask.</i>	Land consists of 586 acres southeast $\frac{1}{4}$ section 3, township 19, range 5, west of 2nd meridian, 19 acres; southwest $\frac{1}{4}$ section 3, township 19, range 5, west of 2nd meridian, 152 acres; northeast $\frac{1}{4}$ section 4, township 19, range 5, west of 2nd meridian 26 acres; northwest $\frac{1}{4}$ section 34, township 18, range 5, west of 2nd meridian, 66 acres; section 5, township 19, range 5, west 2nd meridian, 323 acres.▼	Main building 3 story, 58x38 feet, a priest's house, church, workshop 30 x 20 feet, stable and various outbuildings.	From a well in basement and is pumped by a gasoline engine into a large tank from which it is distributed by pipes throughout the building.	A gasoline engine and power pump of 100 gallons per minute, connected with a stand pipe from a tank in attic and connections on each floor; also fire-escapes and buckets.	Main building heated by steam from a 30 horse power boiler. Other buildings by stoves. Lighted by acetylene gas.

Round Lake Boarding.	At east end of Round lake, close to Crooked Lakes reserves in Qu'Appelle Valley. P.O., <i>Whitewood, Sask.</i>	Comprises south $\frac{1}{2}$ section 23 township 18, range 3, west 2nd meridian and 22 acres of northeast $\frac{1}{4}$ of 14, same township and range. Owned by Presbyterian Church.	Main building, including dormitories, dining room, waiting rooms, etc., the schoolhouse, barn and stable—all frame.	Abundant supply of water from lake and from well.	Fire-escapes from all bedrooms and an abundant supply of water kept handy. Some extinguishers on hand.	Heated by hot-air furnaces and stoves and lighted by coal oil lamps.
Crowstand Boarding.	Near Coté's reserve, $3\frac{1}{2}$ miles from town of Kamsack, on C.N. railway. P.O. <i>Kamsack, Sask.</i>	350 acres, consists of fractional south half of section 19, township 29, range 31, west of 1st meridian and fractional southeast $\frac{1}{2}$ section 24, township 29, range 32, west 1st meridian.	Main buiding 96 x 38 feet, frame, with two wings 46 x 16 feet and 24 x 18 feet respectively. Principal's residence, granary, stables, and new barn, 93 x 30 feet.	Water is drawn to building from Assiniboine river and stored in tanks in basement.	A system of water tanks with hose on each flat, pails and grenades. Fire-escape ladders from each dormitory.	Three wood furnaces and stoves in separate buildings. Lamps used to light buildings.
Duck Lake Boarding.	Located $\frac{1}{2}$ mile from town of Duck Lake P.O. <i>Duck Lake, Sask.</i>	550 acres, composed of subdivisions 4 and 3 and the W. $\frac{1}{2}$ of subdivision 2, of section 4, in tp. 44, R. 2 W. of 3rd meridian; also $\frac{1}{2}$ sec., northeast section 33, township 43, range 2, west 3rd meridian; all land belongs to the Rev. Oblate fathers.	Main building with two wings; other buildings include stable and barn, 100 x 35 feet, bakery, farmer's house, workshop, granary, 46 x 30 feet, laundry, 30 x 30 feet, milk house, hen house, ice house.	Three artesian wells, conducted through-out the school building by an air pressure tank.	A tank and force pump 4 fire hose and 12 fire extinguishers; pails, axes	Heated by two Gurney steam furnaces and lighted by acetylene.
File Hills Boarding.	Adjoins File Hills reserve. P.O. <i>Balcarres, Sask.</i>	East $\frac{1}{2}$ section 32, township 22, range 11, west 2nd meridian and all that part of section 33 which is outside of Okanase reserve, in all 410 acres. The government owns 10 acres and the Presbyterian Church 400 acres.	Main building, brick, 3 story, 76 x 45 feet; a hospital annex, 45 x 24 feet; class room frame, 26 x 41 feet on cement foundation; two stables, granary, two root houses, shed; also residence for principal, stone, and a 5-roomed cottage for farm instructor	Water is supplied from the lake close by for domestic purposes. Drinking water is obtained from a well close to the school.	Fire pails, axes, extinguishers; also barrels kept full of water.	Main building and class room heated by steam, lighted by coal oil lamps.
Gordon's Boarding	On west side of Gordon's reserve, 12 miles from agency headquarters. P.O. <i>Punnichy, Sask.</i>	Totals 320 acres, comprising east $\frac{1}{2}$ section 4, township 27, west 2nd meridian, owned by government.	Main building stone, 42 x 48 feet, used for school purposes; also laundry, 30 x 18 feet, storehouse, 18 x 16 feet, stables 42 x 18 feet, outbuildings are of-log with shingled roof.	A well some 200 yards from school; also rain water.	Two Babcocks, a pump with hose, hand grenades, tank, axes, barrels and pails, also coils of rope.	Heated by wood stoves and lighted by coal oil lamps.

SCHEDULE of Establishment of Indian Boarding and Industrial Schools—Continued.

School.	Location.	Land.	Buildings.	Water Supply.	Fire Protection.	Heating and Lighting.
Muscowequan's Boarding.	About 12 miles from the Touchwood agency. Adjacent to Muscowequan's reserve. P.O. <i>Les-tock, Sask.</i>	Comprises 640 acres, being section 14, township 27, range 16, west 2nd meridian. Belongs to Oblate order.	Main building, three stories on stone foundation, with annex 42 x 52 feet and an addition 17 x 20 feet, a frame stable 116 x 36 feet.	Three large tanks, pumped full by a windmill and water is supplied through-out building. Water is obtained from a well.	Five Babcock fire extinguishers and axes; hose connections from tanks in each hallway.	A furnace, steam heats building and it is lighted by acetylene gas.
Lac la Plonge Boarding.	North of Junction of the Castor and La Plonge rivers. P. O. <i>Lac la Plonge, via Mistawasis, Sask.</i>	Land not yet surveyed, but said to be on limits of the 71st and 72nd townships, range 2, west 3rd meridian.	Main building 3 story, frame, 100 x 33 feet; a presbytery 3 stories high, 26 x 36 feet; a laundry, carpenter shop, storehouse, new stable, 36 x 25 feet, and various other outbuildings, also a saw and planing mill.	From Lac la Plonge river by means of an hydraulic ram.	Two outside stairs and 6 doors opening outward.	Heated by a steam furnace, lighted by electricity.
Lac la Ronge Boarding.	On west shore of Lac la Ronge, 1½ miles from mouth of Big Stone river. P. O. <i>Lac la Ronge, via Prince Albert, Sask.</i>	Is mission property, belonging to Church of England and comprises 80 acres.	Two buildings, 80 x 26 and 30 x 42 feet, frame. Stable, carpenter shop, store-room, milk house, hen house and other outbuildings.	Brought from the lake.	Two fire-escapes; one 8 feet wide from girls' dormitory, and one 6 feet wide from boys' dormitory. Also 18 fire extinguishers.	Heated by box stoves and lighted by coal oil.
Onion Lake R. C. Boarding.	Situated on Seekas-kootch reserve, some 12 miles from old Fort Pitt. P. O. <i>Onion Lake, Sask.</i>	About 20 acres in section 5, township 55, range 27. Is part of the reserve, set apart for school purposes and fenced.	Main building 45 x 33 feet, 3 stories high. Two buildings for staff, 38 x 25 feet and 36 x 26 feet, respectively. Laundry and bakery combined, 57 x 20 feet, 2 stables, woodsheds and closets.	From a good well near the buildings.	A well; ladders, pails, axes and barrels of water kept ready. Twelve dry dust extinguishers; also fire drills regularly.	Wood stoves used to heat buildings. Coal oil lamps light the rooms.
Onion Lake C. E. Boarding.	On northeast corner Makaao's reserve, some 300 yards southwest of agency headquarters. P. O. <i>Onion Lake, Sask.</i>	Some 30 acres, part of reserve.	Main building, 3 story, frame, 30 x 40 feet; also a hospital, 3 story, 28 x 24 feet, log cottage, 2 story, 16 x 20 feet, the Mission house, 60 feet square, 2 stories, for use of staff; also various outbuildings.	From two wells. An ample supply.	Fire-extinguishers in the different rooms, outside stairs and a steel ladder from the dormitory.	Heated by wood stoves and lighted by lamps.

<p>Thunderchild Boarding.</p>	<p>On R. C. Mission land, $\frac{1}{2}$ mile north of Delmas Station. P.O. Delmas, Sask.</p>	<p>4 acres, part of section 6, township 46, range 18, west 3rd meridian, patented.</p>	<p>School is frame, on stone foundation, 36 x 28, 2$\frac{1}{2}$ stories, with annex at south end 36x28, 3 stories; laundry 28 x 12 feet, warehouse, stable and hen-house.</p>	<p>A good well close to buildings.</p>	<p>Two fire-escapes, 12 dry dust fire extinguishers, barrels kept full of water; a few axes and pails.</p>	<p>Heated by two hot air furnaces, using wood. Lighted by coal oil lamps.</p>
<p>Red Deer Industrial.</p>	<p>On north bank of Red Deer river, 3 miles from town of Red Deer. Is 40 miles from nearest reserve. P.O. Red Deer, Alta.</p>	<p>Three quarter sections, being part of section 14, township 38, rge. 28, west 4th meridian, also 14 acres of section 11, and half each of sections 16 and 20 as hay land. In all 1,140 acres belonging to Department.</p>	<p>Main building of greystone, a 3 story brick building, principal's residence, 3 cottages for married members of staff, stables granary, cow stable, workshops and other out-buildings.</p>	<p>Good supply pure water pumped from a spring well through the two main buildings by steam power, and stored in tanks; also a second well, worked by hand pump.</p>	<p>Large tanks and 36 dry dust extinguishers; 2 modern fire escapes.</p>	<p>Two Smead-Dowd and two Pease furnaces heat main buildings and principal's residence. Cottages heated by stoves. Coal oil lamps mainly used for lighting; 7 gasoline gas lamps used to light the girls' building.</p>
<p>St. Joseph's Industrial.</p>	<p>Situated on High river, $\frac{3}{4}$ mile from its mouth. Near east railway station is DeWinton. 11 miles away. P.O. Davisburg, Alta.</p>	<p>There are 1,870 acres in connection with school. Comprises east $\frac{1}{2}$ section 22, township 21, range 28; $\frac{1}{2}$ southwest quarter section 26, township 21, range 28; 30 acres of section 15, township 21, range 28, and 633 acres section 27, township 21, range 28, all west 4th meridian. Hay land made up of east $\frac{1}{2}$ section 26, township 20, range 27, and $\frac{3}{4}$ section 36, township 20, range 27, west 4th meridian. All land belongs to the Government.</p>	<p>Two main buildings, one for boys and one for girls, and a number of out-buildings, including stables, workshops, bakery, laundry, new hen-house, wagon sheds, coal sheds and ice-house.</p>	<p>From High river, water is filtered into a well and then pumped into tanks in main buildings.</p>	<p>Well supplied with stairs and escapes. Two tanks in boys' building and one in girls' building, each with a capacity of 1,400 gallons; hose connections from tanks on each flat; 18 extinguishers, 48 hand grenades, 40 pails, 8 fire axes and 36 fire extinguishers.</p>	<p>The two main buildings heated by steam each with its own plant. Lighted by acetylene gas.</p>
<p>Blood C. E. Boarding.</p>	<p>Across the Belly river from agency headquarters. Is 15 miles southeast of MacLeod. P.O. MacLeod, Alta.</p>	<p>Comprises 160 acres, bordering on Belly river. Northwest $\frac{1}{4}$ section 30, township 7, range 25, west of 4th meridian and is owned by Diocese of Calgary.</p>	<p>Are arranged in a square; comprise girls' home 45 x 75 feet, the boys' home 66 x 55 feet, the hospital 36 x 24 feet, gymnasium, principal's house 38 x 24 school 45 x 21 feet, 21 x 24 feet; stables, granary and outbuildings, all frame.</p>	<p>Obtained from 4 wells by means of a pump. Each main building has its own water supply.</p>	<p>Sufficient exits from building; a good supply of fire extinguishers, axes and fire pails.</p>	<p>Heated by hot air furnace. Lighted by coal oil lamps.</p>

27-11-13

SCHEDULE of Establishment of Indian Boarding and Industrial Schools—*Continued.*

School.	Location.	Land.	Buildings.	Water Supply.	Fire Protection.	Heating and Lighting.
Blood R. C. Boarding.	On Blood reserve, 25 miles south of Macleod; 1 mile from upper agency. P. O. <i>Standoff, Alta.</i>	Comprises 5 acres; a part of the Blood reserve; also 3 acres leased land.	Main building, 36 x 36 feet, 3 stories, with two wings, 32 x 36 feet, 2 stories; a kitchen 20 x 20 feet, 3 stories, a laundry, stables, storehouse, chicken-house.	Water is supplied throughout building from a well by means of a force pump.	12 fire extinguishers, 12 hand grenades and buckets kept full of water; also four staircases.	Two hot air furnaces heat building. Lighted by coal oil lamps.
Crowfoot Boarding.	Is 2 miles southwest of Cluny Station, near Bow river on Blackfoot reserve. P. O. <i>Cluny, Alta.</i>	Comprises 40 acres, part of Blackfoot reserve.	Main building, 3 stories, 36 x 36 feet with two wings, 2 story, 36x32 feet. A building 50 x 30 feet and one 26 x 16 feet used for hospital purposes. A stable, implement shed, ice house and a root house.	Pumped into house from a good well by means of a gasoline engine.	Fire extinguishers, hand grenades, fire pails and axes and a good water supply.	Heated by stoves. Lighted by coal oil lamps.
St. Albert Boarding.	Located $\frac{1}{2}$ mile north of C.N.R. Station, town of St. Albert. P. O. <i>St. Albert, Alta.</i>	350 acres, property of Sisters of Charity, section 4, township 54, range 25. Excellent farm land.	Main building, 4 story, brick veneered, 100 x 50; stables, bakery, repair shops, implement shed, barn, hennery and store houses.	From two artesian wells, pumped into tanks by a hot air engine and thence conducted by pipes throughout building.	Water distributed throughout buildings. Outside galleries and stairs give quick access; 500 feet of hose and grenades, extinguishers, pails and fire escapes.	Main building heated by 2 Economy hot water heaters. Stoves used also where needed. Lighted by Siche gas.
Ermineskin Boarding.	On Ermineskin reserve, 1 mile from Hobbema Station. P. O. <i>Hobbema, Alta.</i>	Consists of 40 acres, fenced; 5 acres of this is garden, 5 school yard, balance for pasturage.	Main building 44 x 48 feet. A building 25 x 20 feet, containing chapel and kitchen; Sisters' building 40 x 24 feet, a laundry 40 x 24 feet, including therein a room for contagious diseases.	From an artesian well, pumped into buildings. A good sewerage system installed.	Two fire-escapes, hose, pails, grenades and dry extinguishers, provide fire protection.	Heated by steam furnace and lighted by coal oil lamps.
Blue Quill's Boarding.	On Edmonton road, 6 miles west Saddle Lake, on Blue Quill's reserve. P. O. <i>Sacred Heart, Alta.</i>	25 acres, a portion of the reserve.	Is a frame building, 24 story, 90 x 30 feet, divided into necessary departments; 3 stables and a hen-house.	Supplied from a creek $\frac{1}{2}$ miles distant. Poor supply.	A fire-escape at each end of building leading from top story to ground; also fire-extinguishers.	Heated by wood stoves. Lighted by coal oil lamps.

Fort Chipewyan (Holy Angels) Boarding.	Located at Fort Chipewyan. <i>P. O. Fort Chipewyan, via Athabaska Landing, Alta.</i>	Fifteen acres of farmland. Crop consists of potatoes and turnips, small vegetables	Consists of school building, church, clergy house. Belongs to R. C. Mission (Grey Nuns).	From two wells and the lake.	A force-pump and hose, ladders, buckets and axes. Three fire-escapes.	Two hot air furnaces and 7 wood stoves heat buildings. Coal oil is used for lighting.
Lesser Slave Lake Boarding. (St. Bernard's.)	At Grouard on Buffalo bay, Lesser Slave lake. <i>P. O. Grouard, Alta.</i>	72 acres in connection with school, the property of the Sisters of Providence. Is in section 31, township 75.	Main building, 72 x 28 feet, 3 stories. Boys' house, 60 x 25 feet, 2 story, and a school building, 30½ x 24½ feet, for class rooms only. All frame. Laundry, dairy, fish and ice-house.	From a well and from Buffalo lake.	2 fire-extinguishers, 6 axes, buckets, ladders and outside stairs comprise the fire protection.	A hot air furnace heats main building, stove used for other buildings. Coal oil used for lighting purposes.
Sturgeon Lake Boarding.	On east shore of Sturgeon lake, in centre of Sturgeon Lake reserve. <i>P. O. Calais, via Heatherwood, Alta.</i>	Some 160 acres, part of reserve and only 30 acres under cultivation.	Main building is a 3 story structure, 40 x 27 feet, with an addition 2 story, 27 x 20 feet and a wing, 20 x 20 feet, 2 story. A second building, 30 x 25 feet, 2 story, contains recreation hall and class rooms.	From the lake . . .	A supply of water kept ready; ladders, axes and buckets handy.	Heated by four wood stoves; lighted by coal oil lamps.
Fort Vermilion Boarding.	At Fort Vermilion on south bank of Peace river, facing Caribou mountain. <i>P. O. Fort Vermilion, via Athabaska Landing, Alta.</i>	About 1,000 acres, owned by Oblate Fathers, 400 of which is fenced.	A frame building, 80 x 35 feet, on stone foundation contains all departments. Newly erected.	A well in school, also water from Peace river for laundry purposes.	A supply of water and ladders. Stairs, galleries and exits from all parts of building form only means of protection.	Heated by two hot air furnaces; lighted by coal oil lamps.
Lake Wabasca C. E. Boarding.	On Wabasca lake. <i>P. O. Wabasca, via Athabaska Landing, Alta.</i>	Has never been surveyed or measured. Comprises about 40 acres and runs back ¾ of a mile from lake being a narrow strip lying between Hudson Bay Co., and Revillon Bros., posts.	Main building is 32 x 26 feet with kitchen 24 x 20 feet, 1½ stories. Church 17 x 22 feet. Mission house, 2 stories, 24 feet square, building 20 feet square for hospital; storehouse, stables and workshop.	Well; also water from lake for laundry purposes.	Ladders and a supply of water only means.	Heated by wood stoves and lighted by oil and candles.
Lesser Slave Lake Boarding (St. Bruno's.)	St. Bruno's Mission, Lesser Slave Lake. <i>P. O. Lesser Slave Lake, via Grouard, Alta.</i>	10 acres have been cleared.	2 story frame building, 64 x 25 with a wing 18 x 30.	Water from Lesser Slave lake.	Bountiful supply of water.	Heated by wood stoves; lighted by coal oil lamps.

SCHEDULE of Establishment of Indian Boarding and Industrial Schools.—Continued

School.	Location.	Land.	Buildings.	Water Supply.	Fire Protection.	Heating and Lighting.
Lake Wabasca R. C. Boarding.	On northern shore of Wabasca lake. P. O. Wabasca, via Athabasca Landing, Alta.	22 acres, 7 of which is under cultivation.	There are 4 buildings of hewn logs, two of them are 42 x 32 feet, 3 stories, a new wing added 18 x 24 feet.	From the lake.	Ladders and buckets, together with a supply of water are only means.	Heated by wood stoves and lighted by coal oil lamps and candles.
Whitefish Lake Boarding.	Whitefish lake not on a reserve. P. O. Grouard, Alta.	Not surveyed. School claims about 90 acres.	Main building, log, 30 x 25 feet; with wing, 16 x 18 feet, a storehouse and small stable.	From lake and barrels which catch rain water from roof.	Ladders, axes and pails.	Heated by wood stoves lighted by coal-oil lamps.
Providence Mission (Sacred Heart) Boarding.	At Fort Providence, on the Mackenzie river. P. O. Fort Providence, N. W. T., via Athabasca Landing, Alta.	34 acres under cultivation, the property of the Oblates.	Main building, 91 x 30 feet, 3 stories. The walls are logs. A second building 65 x 30 feet, a laundry 22 x 20 feet, hospital 40 x 20 feet; stable, 70 x 27 feet; vegetable cellar and ice-house.	Obtained from the river and brought to the school by means of tramway.	Outside stairways from dormitories, ladders and barrels filled with water.	Heated by stoves lighted by lamps and candles.
Peigan C. E. Boarding.	On bank of Pincher creek, 1½ miles from Brocket. P. O. Brocket, Alta.	140 acres, being north-east ¼ section 12, township 7, range 29, west 4th meridian. Belongs to the school.	Main building, 2 story, frame, stone foundation, 78 x 32 feet. Also mission church, hospital, school-room, stable, workshop and other necessary buildings.	A drive well in kitchen with hand pump.	There are 14 fire tubes hung in the main rooms.	School heated by 2 hot air furnaces, school-room and open air dormitories heated by stoves lighted by coal oil lamps.
Peigan R. C. Boarding.	About centre of Peigan reserve, just north of Oldman river. P. O. Brocket, Alta.	Is a part of the reserve, some 51 acres, all fenced.	Main building 30 x 30 feet, 3 stories, with two wings; east wing 30 x 26 feet, west wing 48 x 26 feet; two additions 16 x 22 feet, used as playrooms and fresh air dormitories; also a laundry 30 x 20 feet, stable 28 x 30 feet.	A good well near the school.	Buckets filled with water; some axes and extinguishers.	Heated by stoves and lighted by coal oil lamps.

Old Sun's.....	At North Camp, Blackfoot reserve, 1½ miles from Gleichen. <i>P.O. Gleichen, Alta.</i>	160 acres, n.e. ¼ sec. 1, tp. 22, range 23, west 4th M. Part of reserve.	Residence for pupils and staff, school house, laundry, driving shed, horse stable, cow stable, poultry house.	From a well in basement of laundry, conducted through building by air pressure from tank.	On each floor of residence is a hose and nozzle.	Residence heated by steam, school house by hot air and laundry by stoves; lighted by acetylene gas.
Sarcee Boarding..	Located on southeast corner Sarcee reserve. <i>P.O. Calgary, Alta.</i>	Some 10 acres of reserve, fenced and used for school and mission purposes.	Main building 75 x 30 feet, chicken house, stables and storehouse.	Well of spring water.	Barrels of water, dry dust fire extinguishers, and doors opening outwards.	Heated by coal and wood stoves and lighted by coal oil lamps.
Fort Resolution Boarding.	On south bank of Great Slave lake. <i>P.O. Fort Resolution, N. W. T.</i>	5 acres, the property of the R. C. mission.	3 story frame building 40 x 30 feet, with two wings 40 x 20 feet, and a new addition 56 x 36 feet, fish house, ice houses, stable, warehouse, storehouse.	A good well in basement.	4 fire extinguishers, outside stairs from dormitories and recreation rooms, and buckets and ladders.	Heated by two hot-air furnaces; lighted by coal-oil lamps and candles.
Hay River Boarding.	At mouth of Hay river, in Treaty No. 8. <i>P.O. Hay River, Great Slave lake, N. W. T.</i>	Some 10 acres of Crown land.	Main building 2½ stories, contains 18 rooms; a dwelling house, 2½ stories, 25 x 23, and various outbuildings, also a new log warehouse and a church.	From the Hay river	Barrels of water, ladders and axes kept handy; fire drill taught regularly.	Ten stoves, burning spruce, used to heat all buildings; lighted with candles and lamps.
Kuper Island Industrial	On Telegraph bay, southwest side of Kuper island, 5 miles from Chemainus station. <i>P.O. Kuper Island, B. C.</i>	A part of the Kuper Island reserve; 70 acres.	Twenty in number; are scattered on the southern portion of the land. Most of buildings are old.	Natural springs for drinking and kitchen uses; for other purposes water from the bay; water supplied by hydraulic ram system.	Chemical extinguishers, ladders, buckets and axes; a regular system of drill taught pupils.	Heaters and box stoves, using wood; lighted by acetylene gas.
Coqualeetza Home	On south bank of Fraser river, 3 miles from Chilliwack. <i>P.O. Sardis, B. C.</i>	90 acres, comprising lots 38 and 297, group 2, district of New Westminster, municipality of Chilliwack.	Main building, residence of principal, residence farm instructor, 3 barns, granary, wagon shed and various outbuildings.	From the Elk Creek Water Co. pipes.	Exits numerous; all doors opening outward; fire escapes from dormitories; fire drill taught.	Smead-Dowd hot-air furnaces; lighted by electricity.
Kamloops Industrial.	On north bank of South Thompson river, 2 miles from Kamloops. <i>P.O. Kamloops, B. C.</i>	Some 200 acres actually belong to the school, surrendered by Indians. Only a small portion is cultivated.	Main building, 2 story; girls' house, boys' home, each 1 story high and various outbuildings, also new laundry.	Good water obtained from south Thompson river by means of a bull-dozer pump and gasoline engine.	Numerous chemical and dry dust extinguishers. A large reservoir tank and pump. Rubber hose, ladders, buckets and 3 hydrants.	Heated by numerous box stoves. Coal-oil lamps and candles used for lighting purposes.
Lytton Industrial.	North of Lytton, 2½ miles, on left bank of Fraser river. <i>P.O. Lytton, B. C.</i>	Comprises 800 acres, owned by New England Co.	Main building and various outbuildings, including a saw-mill. All in good repair.	From a creek fed by 3 springs.	Two fire-escapes from dormitories, axes, buckets and hose.	Heated by hot air furnaces; lighted by coal-oil lamps.

SCHEDULE of Establishment of Indian Boarding and Industrial Schools—Continued.

School.	Location.	Land.	Buildings.	Water Supply.	Fire Protection.	Heating and Lighting.
Kootenay Industrial.	Situated five miles northeast of Cranbrook. <i>P. O. St. Eugene, B. C.</i>	An area of 30 acres belongs to the school, on which buildings are; there are 120 acres belonging to Sisters of Charity, cultivated by boys.	Main building recently completed; made of artificial stone; chapel and room for staff in wing.	From Joseph creek: pipes into building.	Chemical extinguishers, ladders, axes, buckets; two pipes to which hose can be attached.	Heated by wood stoves and furnace. Lighted by coal-oil lamps.
Alert Bay Industrial.	Situated at Alert bay, west end of Cormorant Island. <i>P. O. Alert Bay, B. C.</i>	There are 410 acres, part of Alert Bay Industrial School reserve; only 5 of which has been cleared.	School building is 60 x 40 feet, frame, with a wing 54 x 18 feet, and various outbuildings.	From a well.	Four extinguishers, 2 axes, 8 buckets and an iron fire-escape from upper bedroom. Hose and pump. Drill practised.	Heated by wood stoves; lighted by coal oil lamps.
Clayoquot Industrial.	On Clayoquot sound west coast of Vancouver Island. <i>P. O. Kakawis via Victoria, B. C.</i>	175 acres heavily timbered, the title of which is vested in Abbot of St. Benedict's Abbey.	Main building, 2½ story with basement, 144 x 52 feet. A laundry, woodshed, barn, warehouse, hen house and a cottage for instructor.	From a mountain stream; by means of a flume brought into 8,000 gallon tank.	Ten chemical extinguishers, pails, axes, 200 feet hose, connected with tanks. Outside escapes and fire drill regularly practised.	Hot water system used for heating; lighted by coal oil lamps.
Williams Lake Industrial.	Some 185 miles from Ashcroft, in a valley along San José creek. <i>P. O. Williams Lake, B. C.</i>	Consists of pasture land and belongs to the Oblates of Mary Immaculate.	Comprises main building, girls' and boys' homes and a fourth building containing kitchen and dining room. Also outbuildings.	Piped from an artificial lake, part of San José creek.	Ordinary means; the pressure of the water supply is too low to form an efficient means of protection. Fire axes, fire pails and fire drill.	Three McClary hot air furnaces heat all occupied buildings. Lighted by acetylene gas.
Sechelt Boarding.	Behind Indian village of Sechelt. <i>P. O. Sechelt, B. C.</i>	Belongs to the band and consists of 4 acres.	Main building, 83 x 36 feet, with wing, 30 x 28 feet, a laundry, 65 x 25 feet, with workshop; also a stable and chicken house, 30 x 22 feet.	Obtained from a creek, 4 miles distant and is piped throughout school building. Poor supply.	Extinguishers, buckets, ladder and 200 feet hose.	Wood stoves used to heat building; lighted by coal-oil and gasolene lamps.
Squamish Mission.	On north shore of Burrard inlet, opposite and 4 miles from Vancouver. <i>P. O. North Vancouver, B. C.</i>	Some 10 acres belonging to the Sisters of the Holy Infant Jesus. Only 4 acres are cleared.	Main building, an older building recently improved, a cottage for hospital purposes, and various outbuildings.	Connected with Vancouver water system.	Stempel extinguishers, buckets, axes and ladders, with 200 feet hose. Telephone connection with city brigade.	Heated by 2 McClary hot air furnaces; lighted throughout by electricity.

St. Mary's Boarding.	On north bank of Fraser river, 40 miles east of Vancouver. <i>P. O. Mission City, B. C.</i>	About 310 acres, the property of the Oblates of Mary Immaculate. Group 3, township 17 of Mission.	Boys' and girls' schools, each 60 x 35 feet, 3 stories, with two wings. A large vegetable cellar and various outbuildings, also laundry, shingle-mill and church.	Piped from St. Mary's creek, a distance of 1½ miles. Good spring water.	A number of extinguishers, axes and pails; plenty of hose and water pressure. Fire drill imparted to pupils. Fire-escapes from each dormitory.	Two school buildings and church heated by a 70 h. p. tubular steam boiler. Lighted by electricity from own plant.
All Hallows Boarding.	½ mile west of Yale station, on Fraser river. <i>P. O. Yale, B. C.</i>	About 4 acres in township of Yale, bought by friends, aided by department.	Consist of main building, 77 x 27 feet, with two additions, a chapel, 32 x 21 feet, house for staff and outbuildings.	School owns water rights on 2 mountain streams. High pressure water system installed which supplies an abundance of water throughout the school building.	Three stand-pipes at rear of school, and one in front. Extinguishers, axes, pails and staircases. Pupils taught drill.	Heated by coal and woodstoves and lighted by coal-oil lamps and gasoline.
Alert Bay Girls' Home.	At Alert Bay. <i>P. O. Alert Bay, B. C.</i>	2 acres partly cleared. Is part of the Alert Bay Industrial School reserve.	Main building, 62 x 68 feet, laundry, 24 x 16 feet. Engine and pump house, cow shed and a chicken house.	From a well pumped into a large concrete tank by a gasoline engine and supplied throughout the school building by galvanized pipes.	12 buckets kept filled, 12 fire extinguishers; also 1 iron fire-escape from dormitory.	Heated by steam and lighted by coal-oil lamps.
Port Simpson Boys' Home.	At Port Simpson, northeast of Indian village, on the Tsimpshean reserve. <i>P. O. Port Simpson, B. C.</i>	A lot 2 chains by 4 chains belonging to Missionary Society of Methodist Church. Acquired from Indians.	Main building, 2 story, frame, is an old building. Necessary outbuildings.	A plentiful supply, furnished by well and tank.	A large tank, hose, extinguishers, buckets, &c.	Heated by stoves and lighted by coal-oil lamps.
Port Simpson Girls' Home.	At Port Simpson, just outside Tsimpshean reserve. <i>P. O. Port Simpson, B. C.</i>	A part of section 4, township 1, range 5, Coast district, belongs to Women's Missionary Society.	Main building, 3 story with basement and various outbuildings. New play room.	From a mountain stream, conducted through wooden pipes to large tank; also a well.	An iron fire-escape from each dormitory. A ladder to roof, pails and axes and 6 chemical fire extinguishers. Drill, &c.	A furnace and stoves heat buildings. Lighted by coal-oil.
Ahousaht Boarding.	Adjoins Maktosis reserve on Flores island, west coast of Vancouver Island. <i>P. O. Ahousaht, B. C.</i>	Some 140 acres belonging to Presbyterian Church, only a small portion cleared.	Main building 68 x 46 feet, 2 story frame with wide verandahs; also an outside playground for girls, 12 x 30 feet, a workshop, barn, woodshed and other outbuildings, and new launch house and smoke house for drying salmon.	Chiefly dependent on the rainfall. A well supplements this for laundry purposes.	A number of extinguishers; ladders at each end of building. Force pump and hose, pails, &c. Pupils instructed in fire-drill.	Heated by a hot-air furnace, assisted by a stove in cold weather; lighted by coal-oil lamps.

SCHEDULE of Establishment of Indian Boarding and Industrial Schools—*Concluded.*

School.	Location.	Land.	Buildings.	Water Supply.	Fire Protection.	Heating and Lighting.
Alberni Boarding.	2½ miles from Alberni on the Somas river and adjoining the Shesah reserve. P. O. Alberni, B. C.	Some 156 acres, part of lot 81, district of Alberni. Belongs to Presbyterian Church.	Main building 38 x 43 feet, 3 stories, with wing 32 x 46 feet 2 story; a new class-room, frame 24 x 30 feet; a new combined carpenter shop, laundry and bake-shop, 50 x 18 feet, 2 story, also root-house, wood and driving sheds, barn and hen-house.	A gasoline engine pumps water from river into a reservoir and it is conducted by gravity through a 2-inch pipe to building.	Four Keystone extinguishers and six Haverhill Eclipse, buckets, &c.; 300 feet hose can be connected with gasoline engine to pump from river.	Main building heated by hot-air furnace; additions by stoves. Coal-oil used for lighting purposes.
Kitamaat Boarding.	At Kitamaat, on Douglass channel. P. O. Kitamaat, B. C.	About an acre. Part of Kitamaat reserve.	The house, a new building, frame, 70 x 40 feet; play-house 24 x 30 feet; dry shed, root-cellar and stable.	A mountain creek, conducted by pipes to building.	Fire escapes from dormitories, 12 fire extinguishers, 9 fire buckets, axes and hose.	Hot-air furnaces and stoves used to heat buildings. Coal-oil lamps used for lighting.
Carcross Boarding.	2 miles from Carcross. P. O. Carcross, Y. T.	160 acres.	Main building 64 x 48 feet; frame, 2 story; store-house and ice-house.	From a well conducted through building by a hand force pump.	Tank, stand-pipe and hose connection on each floor, 2 iron fire escapes, 6 fire extinguishers and pails.	Heated by a low pressure steam boiler; lighted by coal-oil lamps.

SESSIONAL PAPER No. 27

THE REPORT OF A. J. BOYD, INSPECTOR OF INDIAN SCHOOLS IN
THE PROVINCE OF NOVA SCOTIA.*Schools.*

Previously to 1913, 11 schools were in operation in the province of Nova Scotia. During the past year two new schools were established—one at Tuft's Cove, in Halifax county, and the other at Afton, in Antigonish county.

At Afton, a new building, centrally located and well equipped, was completed last November.

A new school was also built at Fisher's Grant in Pictou county

At Whyccomagh, in Inverness county, a new teacher's residence was constructed.

Attendance of Pupils.

The number of Indian children of school age in Nova Scotia is about 265 and the registers of the different schools show a total enrolment of 287. This large enrolment shows two things: first, that every child of school age attended school during some portion of the year; and, second, that about 22 pupils, who are beyond the age limit, must have taken advantage of the opportunities which are now open to them to obtain the education that they were unable to obtain some years ago.

The average daily attendance in the schools up to the end of March was 145, or 54 per cent of the pupils enrolled, which, I think, compares favourably with the attendance in other day schools in the province.

Teachers.

The department has in its employ in Nova Scotia some excellent teachers.

Some of the lady teachers are graduates of the provincial normal school at Truro. These teachers are doing very satisfactory work.

The Indians are quick to learn and when taught by teachers who take an interest in their work they make as good progress as white children.

REPORT OF REV. JOHN J. RYAN, SUPERINTENDENT OF INDIAN
SCHOOLS FOR NEW BRUNSWICK.

There are 10 schools in my superintendency situated as follows: 2 in York county, 1 in Sunbury, 1 in Victoria, 1 in Madawaska, 1 in Carleton, 1 in Kent county, 2 in Northumberland county, and 1 in Restigouche county.

Burnt Church School.

On October 22, I visited this school and found 21 children present out of an enrolment of 28. The average attendance since the opening of the school was 18. I am pleased to note that the average attendance is increasing.

On examining those present I found that good progress had been made since my last inspection and in consequence there was an improvement in reading, spelling, geography and arithmetic.

5 GEORGE V., A. 1915

The teacher is Miss Laura C. Geraghty, who has a model school diploma. She is painstaking and conscientious and is making a great success of the school. The Indians are also taking a great interest in education.

In addition to the regular studies, sewing, knitting and fancy-work are taught the girls and the specimens shown of their handiwork are very creditable to them.

The principles of hygiene are both taught and practised. The school buildings are in excellent condition and are kept clean and sanitary. There is a large playground for the children.

This year a plot of ground was cultivated as a flower garden. The pupils took great interest in gardening.

Edmundston School.

On the day of inspection there were 13 pupils present. The average attendance since the school opened was 13, which is fairly good.

As a result of examination the pupils proved that they had studied diligently since my last visit. They showed progress both in French and English.

Miss V. Dionne, the teacher, holds a third-class provincial license. She has been in charge of this school for three years, and is earnest and faithful in the discharge of her duties.

The girls are taught sewing and knitting. The majority of the children appeared neat and clean.

I am certain that the new school, when completed, will be commodious and well ventilated. The location is excellent, suitable provision having been made for playgrounds.

Tobique School.

This school was visited on October 30, on which date there were 33 children present out of an enrolment of 38. The attendance at this school is very satisfactory.

In their examination the pupils did very well, good progress being shown since my visit last spring, especially by the older pupils.

The teacher, Miss E. McGrand, holds a second-class provincial license, and continues to do good work. Since taking charge of this school she has been very successful and her pupils are progressing in all their studies.

Greater interest in the school work is being shown yearly by the parents and this, together with the watchful care of the resident clergyman, is a great incentive to the teacher.

The girls are given special instruction in sewing and knitting.

The school building is in good repair and the outbuildings are clean and sanitary.

Big Cove School.

On December 3 I visited this school and found 16 pupils present. The average attendance for the previous three months was 16.

With two exceptions the pupils are very backward. The teacher, Miss K. Sutton, holds a first-class provincial license. Conditions on this reserve are such that it is extremely difficult for a teacher to make a success of the school.

The school building is sufficiently large and the premises are clean and well kept.

Eel Ground School.

At this school I found an attendance of 19. The average attendance for the previous three months was 18, and I consider this very satisfactory.

The pupils passed a creditable examination in the subjects taught, being especially good in spelling.

SESSIONAL PAPER No. 27

The teacher is Miss M. Isaacs, and she is giving good satisfaction. Under her management, good progress is being made by the pupils in their class-room work, while the girls are learning sewing and knitting. Some of the children are now able to make their own mitts, scarfs and stockings.

The school building is in good condition and is kept very clean.

A small flower garden was planted and looked after by the children last year.

Eel River School.

This school was opened about a year ago, and the attendance has been most satisfactory.

In the two grades examined the pupils acquitted themselves very well.

The teacher, Miss M. LeBlanc, has done excellent work, and under her management the pupils are progressing rapidly in their studies.

Physical drill is given the pupils.

Woodstock School.

Accompanied by Mr. McMurray, I visited this school on December 16. The attendance continues to be very good.

In reading and spelling the pupils did especially well; they are also progressing satisfactorily in geography, writing and arithmetic.

The teacher, Miss G. Brophy, has taught here for three years, and has done excellent work. Lessons are given in physical drill and hygiene.

The school building is in good condition.

Oromocto School.

The attendance at this school is also satisfactory. I found that the pupils were improving in reading and that they were also progressing in spelling and geography.

The teacher, Miss B. McCaffrey, has done good work here.

The improvement in the appearance of all the children is due to her watchful supervision.

The work of the sewing class is excellent.

The school building and outbuildings are clean and sanitary. The grounds are large and the teacher expects to start a flower garden.

St. Mary's School.

On the date of inspection there were 24 pupils present out of an enrolment of 30. The attendance at this school is splendid, and to the teacher's efforts and the supervision of the resident clergyman is due this happy state of affairs.

The pupils passed a creditable examination in all subjects, but the older pupils were especially good in mental arithmetic and drawing.

The teacher, Miss M. Hughes, is certainly doing excellent work.

The older girls are taught sewing. Calisthenic exercises are given regularly.

The school building is new and is in first-class condition. During the past year, a new fence was placed around the school grounds.

Kingsclear School.

I visited this school on February 3, and found a good attendance. The pupils did well in all subjects of examination, especially in arithmetic and geography.

Miss R. Donohue has been teaching here for the last six years, and is doing very good work.

5 GEORGE V., A. 1915

The girls are given special instruction in sewing and knitting. Lessons in hygiene and physical drill are also given.

A new building has been erected on this reserve and will soon be used.

Deaf and Dumb Institution.

I paid a visit to this institution in order to ascertain how the two Indian children were progressing. These children, John and Maria Sapier, are from the Kingsclear reserve.

The principal, Mr. Keating, examined these children before me, and I am pleased to say that they are making good progress. These two children were neatly clad and appeared to be both healthy and happy.

General Remarks.

I am pleased to say that I can again report that good work is being done in the Indian schools of New Brunswick.

Neatness of dress and deportment are quite evident in the Indian girls and these improvements are no doubt due to the teaching of sewing and physical drill in the schools.

REPORT OF JOHN R. BUNN, INSPECTOR OF INDIAN AGENCIES AND RESERVES, ON THE INDIAN SCHOOLS IN THE LAKE WINNIPEG INSPECTORATE.

Fort Alexander Boarding School.

This school is conducted under the auspices of the Roman Catholic Church, the principal being Rev. Father Bousquet, O.M.I., who is assisted by a competent staff.

The 60 pupils who are attending this school are healthy and bright, and are making good progress in their studies.

The school buildings are in good condition. Every arrangement has been made for the comfort of both the pupils and the staff.

The farm and garden in connection with the school are well managed by the farmer and his assistant. The older boys are also given practical lessons in farming.

The girls are given practical instruction in sewing and general housekeeping.

I must express satisfaction with all I saw during my visit to this school.

Fisher River Day School.

This school was visited on March 30.

The average attendance for the past three months was 40-68. The teacher, Miss Emily N. Royan, holds a second-class professional certificate from Manchester, England, and is doing good work.

The children were neat and clean and, when examined, showed satisfactory results in reading, writing and spelling.

The school building is rather small, but is well lighted and ventilated. The equipment was ample.

Peguis North Day School (Church of England).

The teacher is Mr. L. G. Francis, who received his education in Portsmouth, England, and is making a success of his work at this school.

Examination tests in writing, spelling, reading and elementary art showed that the pupils were making fair progress.

SESSIONAL PAPER No. 27

Peguis South Day School (Church of England).

This school was inspected on March 31, 22 pupils being present.

Discipline at this school is good and the pupils are making satisfactory progress in their studies.

The building is commodious and well lighted and is kept clean. The equipment is ample.

The teacher at this school is Mr. H. F. Francis and his work is very satisfactory.

North St. Peter's School (Church of England).

The teacher at this school is Mr. P. Harper, a member of St. Peter's band.

The work is presented to the pupils, in the elementary grades, in a careful and attractive manner. Those in the higher grades showed a fair knowledge of reading, spelling and writing, and exhibited proficiency in arithmetic and geography.

The building, although built of logs, is comfortable and well lighted. The equipment is ample and is kept in good order.

Grand Rapids Day School (Church of England).

This school was repaired during the past year, and is now in good condition.

The pupils are improving in their work, and showed fair results in writing and spelling.

The teacher is Mr. C. S. Morris, who is assisted by his wife.

Fort Alexander Upper Day School (Church of England).

Examination tests gave fair results. Nearly all the pupils are in the lower grades.

The teacher is Mr. C. H. Fryer, who takes great interest in his work and enjoys the confidence of the pupils and parents.

The building is comfortable and is furnished with all the necessary material.

Fort Alexander Lower Day School (Church of England).

This school has been closed. It is almost impossible to obtain a teacher for this school, as it is so difficult to secure suitable living quarters for a teacher.

Black River Day School (Church of England).

This school was closed in the early part of February. This is another place where it is difficult to get a suitable teacher to remain.

Brokenhead Day School (Church of England).

This school was inspected on March 17, on which date there were 6 pupils present.

Examination tests showed that the pupils were doing fairly well in their work. The teacher, Mr. J. Sinclair, has had a long experience in Indian schools and is doing good work.

The building has been recently repaired and is quite comfortable.

Hollowwater Day School (Church of England).

Rev. George Smith is in charge of this school, and I consider that he will be successful. As a number of the Indians have moved away, the school population is only 12. The average attendance has been 7.

5 GEORGE V., A. 1915

Poplar River Day School (Methodist).

Owing to the indifference of the parents, the attendance at this school is very small and the results are discouraging.

The teacher is Miss E. Stedman, who is well qualified to do good work, but is handicapped by the irregular attendance.

The building is kept clean and is well furnished.

General Remarks.

The work of teaching in Indian day schools is very arduous and requires great patience. It is difficult to enforce discipline, as the Indians resent the punishment of their children.

However, as the result of perseverance, our Indian day schools are doing a great deal of good.

REPORT OF REV. JOHN SEMMENS, INSPECTOR OF INDIAN AGENCIES
AND RESERVES, ON THE SCHOOLS IN THE LAKE OF THE WOODS
INSPECTORATE.

At the present there are one day school and three boarding schools in active operation in this inspectorate.

The day school is situated at Manitou Rapids and is conducted under the auspices of the Church of England. I inspected this school twice during the past year and regret that I cannot report as good progress as I should desire.

It is difficult to make day schools a success in this inspectorate owing to the irregular attendance, caused by the nomadic habits of the Indians and their resentment of the teaching of religion in the schools.

However, it gives me pleasure to report that the work being done in the three boarding schools is worthy of the greatest praise. Detailed reports on these schools follow.

BOARDING SCHOOLS.

Fort Frances Boarding School (Roman Catholic).

This school was inspected January 20 to 23, 1914. It is located immediately west of the Couchiching Half-breed reserve, one mile north of Pither's Point park and three miles from the town of Fort Frances, Ont.

A new extension was added in 1913 to the north of the old building and immediately adjoining it. The extra accommodation thus afforded was much needed and is greatly appreciated.

The school is under the auspices of the Roman Catholic Church, the principal being Rev. Father Valis, O.M.I., who is assisted by one brother and five sisters.

The number of children in attendance was 57 all told. Twenty-one of these are in Standard I, 8 in Standard II, 17 in Standard III, and 11 in Standard IV.

The amount of land in use is 63 acres, of which area 20 acres are uncultivated.

The boys receive instruction in the care of cattle, in farm work, in shoemaking and in blacksmith work.

The girls are taught cooking, baking, buttermaking, laundry work and sewing.

The school owns 2 teams of horses, 2 colts, 5 cows, 2 bulls, 4 calves and 200 hens.

From careful inquiry as to existing conditions from both the principal and the matron, I learned that the children were very obedient to their superiors and that there had been no cases of insubordination during the past year.

SESSIONAL PAPER No. 27

The good influences of the devoted Sisters of Charity upon those under their care, is deserving of every compliment. They not only teach the children in the classes, but their good influence after hours is freely given for the betterment of all the pupils.

The devotion of the Sister Superior to the sick under her charge was specially worthy of mention.

It is found that the graduates who return to pagan homes, sometimes return to the ways of their fathers. On the other hand, those who go back to the homes of Christian parents make good use of the education they received at school.

The supply of fresh water is obtained from Rainy lake. About 1,500 gallons a day are dumped into the tanks. For fire-protection, the older part of the building is well supplied with hose. There is a fire-escape at the girl's end of the building and a perpendicular ladder at the boys' side. The main building is also well ventilated. At nearly all times the school is adequately heated. There is an acetylene gas plant to produce light for the school.

The crops raised last year consisted of 600 bushels of oats, 1,000 bushels of potatoes, 400 bushels of turnips, 200 bushels of mangels, 12 bushels of onions, and 49 tons of hay.

The barn is about 200 yards to the rear of the school proper, and is 64 feet long. It has two wings, each 15 feet in width and the full length of the main part, and has storing capacity for 50 tons of hay; 6 double stalls for horses, and 7 double stalls for cattle are located in the wings.

The school building, outbuildings and grounds are well adapted for the carrying out of the department's purposes in establishing an educational centre of this sort and the Indian parents are very grateful for the good work that is being done for their children.

Cecilia Jeffrey Boarding School (Presbyterian).

The Cecilia Jeffrey boarding school is situated on the shore of Shoal lake adjacent to reserve No. 40 in the province of Ontario.

The principal in charge is the Rev. F. T. Dodds, and the matron is Mrs. C. C. Kay, and they have under them four instructors.

The total number of children in attendance was 45, and these were classified as follows: Standard I, 27; Standard II, 3; Standard III, 4; Standard IV, 3; Standard V, 7; Standard VI, 1.

The amount of land occupied is 210 acres, only 7 acres of which is cultivated.

The boys assist at cutting and hauling hay, caring for stock, cutting wood, and feeding furnaces.

The girls are taught baking, serving tables, sewing, knitting, laundry work and general housework.

There are 2 cows, 2 oxen, 1 bull, 6 pigs, 9 young stock, and 70 hens in the well-kept stables.

The school exercises were satisfactory, the children are improving. The teacher is an enthusiast, and the school-room is a model one in every respect.

Principal Dodds supervises all work, inside and out, personally. In summer he captains his own steamer and freights all supplies from Kenora. His hours are from half-past six in the morning until half-past eight in the evening. Few men work harder than he.

The matron is a marvel of activity and devotion, and enjoys the affection of the pupils.

The ex-pupils have made a very creditable record for themselves, which reflects considerable honour upon the good influences of the teachers in charge.

The health of the children was perfect at the time of inspection and had been so throughout the past year.

5 GEORGE V., A. 1915

The water-supply is from the famous shoal lake, from which the city of Winnipeg is preparing to draw its future supply. The compressed air tank sends the streams through the building with great force.

The fire appliances are adequate and in good order, but the fire-escapes are not yet placed in position.

Ventilation is very good, and the officers see to it that the whole building is flooded with fresh air once a day, at least.

The crops last year were: 200 bushels of potatoes, 35 of turnips, 7 of beets, 4 of carrots, 2 of parsnips and 200 cabbages.

It must be said in conclusion that the staff enjoys every facility for carrying on the work and that they are making the best use of their advantages to further the department's purpose.

The Kenora Boarding School (Roman Catholic).

This institution was inspected February 16 and 17, 1914.

It is situated on a prominent hillside facing the Lake of the Woods, and is two miles south of Kenora, in the province of Ontario.

The staff is composed of the Rev. Father Dorais, who has under his direction one brother and seven other assistants.

The school site is composed of 46 acres, only 4 of which are fit for cultivation.

There are no trades taught at this school, but the boys engage in gardening and stock-raising, while the girls do housework, laundry work and baking.

The live stock kept consists of 2 horses, 2 cows, 1 heifer, 3 pigs and 120 hens.

The examination of the school was very satisfactory. In reading, writing, spelling, and elementary arithmetic, as well as in singing, declamation, and knowledge of English, an excellent showing was made.

The reverend principal is a thorough disciplinarian. He teaches respect for law and deference for those in authority, and demands that all orders shall be carried out promptly.

The school has been rather unfortunate this year in the matter of health. There have been 29 cases of small-pox treated, but not a single death has resulted. This may be attributed to the vigilance of the medical officer, the devotion of the Sisters of Charity, and to the good providence of God.

The building is well heated, well lighted and well ventilated, and is clean and orderly throughout.

There is accommodation for five members of staff, and beds for fifty pupils.

The site of the institution is such as to afford the very best of drainage.

Nature has provided every facility for the amusement of the pupils. Coasting in winter and boating in summer, besides the numerous indoor games practised, should afford ample recreation.

I cannot speak too highly of the wise provision made by the department for the happiness of the Indian children resident here. The unity, energy and devotion of the teachers, also merit high praise, and this is cheerfully given.

The welcome given to the inspector was very gratifying and will not be easily forgotten.

REPORT OF S. J. JACKSON, INSPECTOR OF INDIAN AGENCIES AND RESERVES, ON THE SCHOOLS IN THE LAKE MANITOBA INSPECTORATE.

Upper Fairford Day School (Church of England).

There is no progress to be reported from this school, and the greatest indifference prevails on the part of the Indians as to the sending of their children to school.

SESSIONAL PAPER No. 27

The teacher reports that were it not for the non-treaty children, the attendance would be most discouraging.

The school buildings, and also the outbuildings, are in a good state of repair. The school is kept neat and tidy, the material is ample for the requirements of the school, which is the best kept school in the agency.

Lake St. Martin's Day School (Anglican).

Mr. John E. Favel, teacher.

The average attendance for the quarter ended March 31, was 9.83. This school has been steadily going back in attendance since my last inspection, attributed by the teacher to the Shaker religion, which appears to be getting a strong hold on the band. Mr. Favel, the teacher, informs me that he cannot get the children out.

Little Saskatchewan Day School (Anglican).

This school was closed at the date of my visit, June 28, for want of a teacher, and from letters received was still without any teacher in January, 1914. The difficulty about getting a white teacher on this reserve is the want of any place (outside Indian) where he or she could reside. These Indians are anxious to have their children educated, they have kept the Shakers off their reserve, and would send their children to school if a good teacher were employed. For several years the teachers on this reserve have been very poor from the teaching standpoint; they have enough general knowledge, but have made failures from the lack of normal training.

Lower Fairford Day School (Anglican).

Colin Sanderson, teacher.

There are 24 children on the roll, 15 boys and 9 girls.

Mr. Sanderson is very much discouraged with the irregular attendance, making it very hard for him to show any progress from year to year. No sooner is a pupil beginning to make some progress than the parents take him away for a month or two, and when he comes back he has to start all over again.

Crane River Day School (Anglican).

This school is still closed. The old school building is in a fair state of repair.

Waterhen River Day School (Roman Catholic).

I visited this school on Saturday, July 5, when the teacher got together all the children available so that the agent could examine them. Miss Adam has been doing very good work, and I regret to know that she left the school at the end of the December quarter.

Shoal River Day School (Anglican).

Rev. T. H. Dobbs, teacher. I visited this school on July 14, and found on the roll 29 pupils, 17 boys and 12 girls. The average attendance for the quarter ended June 30, was 13.3. Mr. Dobbs has been transferred by the Church to Fairford, and his father is now teaching at this school.

Ebb and Flow Day School (Roman Catholic).

I visited this school on Monday, June 23, and found 11 pupils present, 5 boys and 6 girls. The teacher, Miss Shannon, is making some progress at this school.

Dog Creek Day School (Roman Catholic).

I visited this school on Friday, June 20, and found no children present, as the holidays were on. The teacher, Mr. Martell, reports the attendance at this school as being very irregular and he is not able to report much progress in the different classes.

Shoal Lake Day School (Church of England).

I visited this school on July 21, and found present 8 boys and 8 girls, a total of 16. The roll contains the names of 19 pupils classified as follows: Standard I, 15; Standard II, 4; total, 19.

These children are doing very well in all the classes and the teacher is painstaking and careful and appears anxious to have the children make progress.

This teacher, Louis Young, is an Indian, a member of the Shoal Lake band.

Red Earth Day School (Church of England).

I visited this school on Tuesday, July 22, and found on the roll 10 boys and 8 girls, a total of 18, classified as follows: Standard I, 8; Standard II, 7; Standard III, 3; total, 18.

Mr. Kennedy, the teacher, says that the attendance has been very bad for some time, and there does not appear to be any remedy for this state of affairs. When the Indian goes away hunting, or on any other business, he generally takes the whole family with him, and consequently the attendance suffers.

Quite a number of the children at this school read very well in the first, second, and third books; they also write well, and do small sums up to division.

Chemawawin Day School (Church of England).

Rev. S. C. Deacon, teacher.

I visited this school on July 28, and found present 27 pupils, 13 boys and 14 girls. On the register were 30 pupils, classified as follows: Standard I, 19; Standard II, 11; total 30.

I can report some progress in this school since my last visit, though the advancement of the children is not very great, but if the attendance can be kept up for the coming year, I hope to be able to report good progress.

The average attendance for the quarter ended June 20 was 21.

Moose Lake Day School (Church of England).

C. T. Mitchell, teacher.

I visited this school on July 30, and found present 9 pupils, 5 boys and 4 girls. There are on the roll 19, 10 boys and 9 girls, all in Standard I.

The average attendance for the quarter ended June 30 was only 3.57, which is attributed to the spring hunt, and the attendance for the quarter ended December 31 was only 2.12, owing to the fall hunt for rats.

Mr. Mitchell regrets not being able to show some progress in this school with the treaty children, all of them being still in Standard I.

Most of the children read nicely in the first primer, and do small sums in addition. The teacher is still keeping up his work in calisthenics in this class and progress can be noticed.

Cumberland Day School (Church of England).

There are 23 pupils on the roll, classified as follows: Standard I, 16; Standard II, 3; Standard III, 4.

SESSIONAL PAPER No. 27

Standards II and III read very well in the second and third books, respectively. The teacher at this school is Mr. Keddie.

Oak River Day School (Church of England).

On the roll I found 11 boys and 10 girls, all being in Standard I.

The average attendance for the quarter ended June 30 was 16.9. Miss Havard has taught for eleven years in government schools in England and was nine years in her last school. None of her pupils had previously attended school, and from what I saw of her work I think she will make good on this reserve.

Clearwater Day School (Presbyterian).

This school is still without a teacher, at the date of my visit, Thursday, November 6.

Roseau Rapids Day School (Undenominational).

This school was closed at the date of my visit, November 18, the late teacher, Miss Godon, having resigned.

Roseau Day School (Roman Catholic).

I visited this school on November 18, and found that it had been closed for some time. The late teacher, Mrs. E. Kepplin, showed me the roll and I found that there were 8 boys and 12 girls enrolled, who were classified as follows: Standard I, 19; Standard II, 1; total, 20.

At the date of this report, Mrs. Jerome Martin has taken charge of this school.

Swan Lake Improved Day School (Presbyterian).

Miss Jessie G. Bruce, teacher.

The pupils enrolled were classified as follows: Standard I, 7; Standard II, 4; Standard III, 5; Standard IV, 1; total, 17.

Miss Bruce is taking a great interest in this school, and I can see that the pupils are progressing. Miss Bruce has her sister to aid her in looking after the housework. I saw the children taking their noon meal, and they were enjoying it very much. All the classes at the school are doing well, and speak better than the children at most of the Indian day schools. They also write well in their copy-books, and do sums in arithmetic up to long division. The Presbyterian ladies in the East send supplies of various kinds for the use of the children who attend this school.

Big Eddy Day School (Church of England).

I visited at the school twice during the spring months shortly after Mr. J. Chamberlain had taken charge, and, from what I saw of his work I feel certain he is a capable teacher.

In December he had on the roll 17 boys and 8 girls, who were classified as follows: Standard I, 19; Standard II, 3; Standard III, 2; Standard IV, 1; total, 25.

The average attendance for the quarter ended December 31, was 9.28. This teacher is a graduate of one of the Indian boarding schools, and received normal training at Saskatoon, in the province of Saskatchewan.

The Pas Day School (Church of England).

This day school has been closed for some time, but was reopened shortly after my August visit to the reserve, with Miss Nichols as the teacher.

5 GEORGE V., A. 1915

On the December roll are 36 pupils, 17 boys and 19 girls, classified as follows: Standard I, 29; Standard II, 5; Standard III, 2; total, 36. Average attendance for the quarter ended December 31, 15.

Elkhorn Industrial School.

A. E. Wilson, principal.

The principal is doing excellent work and is ably assisted by Mr. L. Ingram, the assistant principal. Mr. Ingram has paid particular attention to beautifying the grounds by planting trees and flower gardens. The pupils under his direction raised a very ample supply of vegetables. A newly organized cadet corps gives the boys practice in physical exercise.

Under the direction of the matron, Miss Vidal, the girls made 1,283 pounds of butter during the year, and cured a large quantity of bacon and hams. In the sewing room the girls have been very industrious and as a result a large amount of clothing was made.

In the junior room, the pupils under Miss M. Wilson are making splendid progress. In the senior room, Miss M. V. Lapp is meeting with good success and her pupils show marked improvement.

I am also pleased to state that there was no serious sickness among the pupils during the year.

Some necessary improvements were made to the buildings during the year, among these being a new laundry.

Brandon Industrial School.

The principal, Rev. T. Ferrier, has everything in good condition and gives personal supervision to every branch of the work.

In connection with this school there is a farm of 960 acres. The larger boys take great interest in the farm work and under the guidance of the farmer good crops were grown last year. As a result of their practical instruction many of the boys should become excellent farmers when they leave the school.

The buildings are in good condition and are looked after very carefully. A new barn was built during the year.

In the senior class-room I found the senior pupils under Miss Strum making excellent progress. On the roll there were 41 pupils classified as follows: Standard IV, 26; Standard V, 11; Standard VI, 4.

In the junior room, the 31 pupils were classified as follows: Standard I, 12; Standard II, 5; Standard III, 10; Standard IV, 4.

All these pupils are showing marked improvement, most of them being especially good writers.

Sandy Bay Roman Catholic Boarding School.

Rev. O. Chagnon, principal.

I inspected this school on March 13, and found 21 girls and 10 boys in Standard I, in the junior class-room. All these children appeared to be making suitable progress.

The pupils in the senior class-room were classified as follows: Standard II, 7 boys, 6 girls; Standard III, 4 boys, 4 girls; Standard IV, 2 boys, 4 girls; total, 13 boys, 14 girls.

These pupils are doing excellent work and are advancing rapidly.

The main building is substantial and in good repair. On the northwest corner of the main building there is a one story addition. Additional wings have recently been built on the north end and the southwest end of the old building. All the buildings are frame with stone foundation.

The buildings are comfortably heated and well ventilated.

SESSIONAL PAPER No. 27

An acetylene gas plant furnishes the necessary light. In addition to the studies in the class-rooms, the boys are taught general farming and the care of stock, while the girls are given instruction in housekeeping and sewing.

All the pupils have enjoyed good health during the year.

In the junior room there were 48 pupils enrolled. These are also progressing rapidly and are showing improvement in writing and reading.

The school buildings are well heated and suitably ventilated. All the buildings are lighted by electricity. Sufficient fire-protection is afforded by fire-extinguishers, water tanks, fire hose and fire-escapes. The school has an excellent supply of spring water.

In the gardens a large quantity of fruit is grown each year. A large number of very fine shade-trees adds to the appearance and comfort of the buildings.

Portage la Prairie Boarding School.

At this school there were 15 boys and 17 girls enrolled and classified as follows: Standard I, 3; Standard II, 10; Standard III, 6; Standard IV, 6; Standard V, 7.

All the pupils are doing well and are making progress both in education and general appearance.

The principal, Mr. W. A. Hendrie, is assisted by a competent staff. The health of the pupils during the year has been very good.

Pine Creek Boarding School..

This school is conducted under the auspices of the Roman Catholic Church, the principal being Rev. G. Leonard.

The building is constructed of stone and is three stories high, with a basement. The inside of the building is in good condition. Excellent provision has been made for protection against fire. The building is lighted by acetylene gas.

Around the school there is a farm of 318 acres, while three miles away there is another farm of 320 acres. Special instruction in farming and gardening is given to the pupils. Last year large crops were raised.

In the junior room I found 50 pupils in Standard I. All the pupils are doing well at their studies under the guidance of Sister Frances.

Birtle Boarding School (Presbyterian).

Rev. David Iverach, principal.

I visited this school on March 20, and found the pupils classified as follows: Standard I, 22; Standard II, 10; Standard III, 5; Standard IV, 8; Standard V, 8; total, 53.

The pupils in the lower standards read and write very well. Those in the higher standards also write and read most acceptably and show a good knowledge of arithmetic.

This school has been greatly improved during the year and now ranks with the best of the Indian boarding schools. The old attic has been replaced by a one-story addition, and at the northwest corner there has been erected a frame class-room with a concrete basement, which will be used as a gymnasium.

5 GEORGE V., A. 1915

REPORT OF W. J. CHISHOLM, INSPECTOR OF INDIAN AGENCIES, ON
THE SCHOOLS IN THE NORTH SASKATCHEWAN INSPECTORATE.*Lac la Plonge Boarding School.*

This school is situated on the north bank of the Beaver river near Lac la Plonge. The principal, Rev. F. Ancel, O.M.I., is assisted by a staff of ten.

The attendance at the school is 50. The examination of those present showed that they were fairly advanced in their studies.

Industrial training, though limited, is quite thorough. The dairy work is extensive. A large garden is also cultivated and a supply of vegetables, sufficient for the school, is grown.

A saw-mill, shingle-mill and planer are operated by water-power on the school grounds. By the same power a dynamo is operated, and this supplies electricity for all the buildings.

Steam heating has been installed recently throughout the main building.

Thunderchild Boarding School.

This school is situated in the Battleford agency.

The principal, Rev. A. Watelle, O.M.I., is assisted by a staff of nine.

The examination showed that the 25 pupils who were present were making good progress in their studies. A fact worthy of special mention is that all the pupils have a fair command of the English language. All the children appeared to be healthy.

The main building has been extensively improved during the past year. A concrete floor was placed in the basement and the ventilation facilities were improved.

Onion Lake Roman Catholic Boarding School.

This school is situated in the Onion Lake agency and is about 35 miles north of Lloydminster.

The staff is composed of Rev. E. J. Cunningham, principal, and nine sisters.

At the time of inspection there were 38 children present. All showed a fair command of English. They seem to be making fair progress in their class-room work.

The main building is very commodious. All the buildings are located on a site most favourable for drainage.

Fire-escapes are placed in convenient places around the building and fire drill is practised regularly.

Onion Lake Church of England Boarding School.

This school is also situated in the Onion Lake agency.

The principal, Rev. J. R. Matheson, is assisted by a competent staff, which includes his wife and daughters.

The buildings and premises were in fair order. The class-room was well lighted, heated and ventilated.

The pupils showed very good progress in their studies. All speak English freely, and also write it very well.

Battleford Industrial School.

Rev. Canon Matheson, the principal, is assisted by a staff of five.

The class-room work is being conducted successfully by Miss Salmon.

As this school will be closed on May 31, no effort has been made for some time to recruit pupils. The present enrolment is 36.

SESSIONAL PAPER No. 27

The good results of the work done by this institution are shown in the lives of many of the Indians residing on the different reserves in the Battleford agency. The female ex-pupils, especially, show the effects of the good influence of this school.

Red Pheasant's Day School.

This school is situated near the boundary between the Red Pheasant and Stony reserves, and is intended to serve the educational needs of both bands.

New buildings were erected last summer, and the classes were started on December 1, last.

The teacher, Mr. J. M. Marshall, has had considerable experience and holds a professional certificate.

The present attendance is 25. The children are transported to and from the school.

All the pupils are in Standards I and II, but there is every prospect of their advancing rapidly.

Moosomin Day School.

This school is situated on the Moosomin reserve, and is 30 miles north of Battleford.

Fairly good results have been obtained at this school.

The school was formerly taught by Mr. A. E. Rotsey.

Little Pine's Day School.

The teacher at this school is Rev. W. H. English, who is both competent and experienced.

The attendance at this school is increasing most satisfactorily. All the pupils appear quite bright. Those in the second standard read very well.

New buildings were erected here last summer. They are situated on a site that affords excellent drainage.

Poundmaker's Day School.

This school was re-opened last October, and Mrs. Tierney was appointed teacher. As she has had several years' experience and is also very tactful with the pupils, she should be quite successful.

All the pupils in attendance are in Standard I and seem to be progressing favourably.

The building used for the school is the mission chapel.

Mistawasis Day School.

This school is taught by the Rev. C. W. Bryden, whose faithful efforts are meeting with a great deal of success.

The pupils are transported to and from the school. There were 24 pupils present when the school was inspected.

Hygiene is taught and drill and calisthenics are regularly practised.

A vegetable garden and a flower garden were planted and cared for by the pupils last year.

Ahtahkakoop's Day School.

The daily average attendance at this school during the past year was 18, which shows improvement.

The teacher is Mr. H. Hutchinson.

From many indications on the reserve, I consider that this school is well conducted, and valuable results are being obtained.

Kenemotayoo's Day School.

This school is in charge of Mr. L. Ahenakew, a member of the Ahtahkakoop band. The system of transporting the pupils is also used on this reserve, and is meeting with satisfactory results.

Sturgeon Lake Day School.

Mr. Wm. Godfrey is still conducting this school, and is assisted by Mrs. Godfrey, as field matron.

The average attendance for the past year was 23, which is quite satisfactory.

As a result of the earnest efforts of the teachers, the pupils are making good progress. The parents are also taking a great interest in the work of the school.

John Smith's Day School.

This school is taught by Mr. P. H. Gentleman, who has had several years' experience in Indian schools.

Out of a total school population of 35, there were 28 enrolled during the September quarter.

All the pupils are making good progress.

General Remarks.

The mid-day meal that is served to the pupils at the different schools is proving very beneficial to the children.

The recent expenditure involved in the reorganization and improvement of the day schools in this inspectorate will certainly be justified by the good results obtained.

REPORT OF W. M. GRAHAM, INSPECTOR OF INDIAN AGENCIES, ON INDIAN SCHOOLS IN SOUTH SASKATCHEWAN.

Crowstand Boarding School.

This school is under the auspices of the Presbyterian Church. The principal is Rev. W. McWhinney, who is assisted by a staff of six.

The work in the class-room of this institution has always been satisfactory. This branch of the work is under the charge of Miss McLaren, who is much interested in her work. The children are well clothed and fed.

The school has a splendid farm, which is profitably managed by the principal. The proceeds are used for the benefit of the school.

The school is an old frame building. The barns and stable are in first-class condition.

St. Andrew's Day School.

This school is taught by Mr. G. Markham, who is quite interested in his work. Repairs have been made to the building recently. The teacher experiences some difficulty, as the Indians do not take the interest in the school that they should.

Assiniboine Day School.

I visited this school on September 12, and was particularly pleased with the progress that the children were making.

The mid-day meal system works perfectly here. Everything is scrupulously clean.

SESSIONAL PAPER No. 27

Each child has a garden plot and takes great interest in gardening. Vegetables for the mid-day meal are grown in the school garden.

The class-room was in excellent order, while the surroundings are well kept.

The school is doing splendid work, and the teacher, Miss Lawrence, is to be congratulated on her management.

Round Lake Boarding School.

This school is situated beside Round lake, north of Whitewood. It is conducted under the auspices of the Presbyterian Church.

The principal is Rev. H. McKay, who is assisted by a staff of four. The children were clean and looked very healthy. The school is fortunate in having a first-class matron and assistant.

The farm surrounding the school consists of 130 acres, of which 100 were under crop last year. The following grain was grown: 2,000 bushels of wheat, 1,000 bushels of oats and 50 bushels of barley.

Qu'Appelle Industrial School.

This institution is under the auspices of the Roman Catholic Church. The principal is Rev. J. Hugonard, who is assisted by a staff of twenty-one.

There are five class-rooms, three for girls and two for boys. Good work is being done in all the classes.

The children were well clad in a neat uniform and appeared to be quite healthy.

The class-rooms are well ventilated and scrupulously clean. The hospital, which is conducted by Rev. Sister D'Aoust, a trained nurse, enables any sick child to receive careful treatment.

In connection with the school, there is an excellent farm, which is profitably managed.

File Hills Boarding School.

This school is situated near the File Hills agency and is under the auspices of the Presbyterian Church. The principal, Rev. H. C. Sweet, is assisted by a staff of six.

The building is, undoubtedly, the finest in the inspectorate. There is an open-air sleeping compartment for delicate children and also good hospital accommodation.

The children are well fed and clothed and are well taken care of by the matron, Mrs. Sweet.

Miss Morris is the teacher in the class-room, and the children under her charge are very bright.

The buildings and the surroundings are kept in good order.

Cowessess Boarding School.

This school is situated at the east end of Crooked lake, and is under the auspices of the Roman Catholic Church. The principal, Rev. Father Beys, is assisted by a staff of two brothers of the Oblate order and six sisters.

In their class-room work, the children are very bright, particularly in spelling and grammar. The regulations regarding calisthenics are strictly carried out.

The children are well fed and clothed, and appear to be very healthy.

The school has a complete water system and a satisfactory lighting plant.

In connection with the school there is a good farm. A splendid new barn was built last summer.

REPORT OF J. A. MARKLE, INSPECTOR OF INDIAN AGENCIES AND
RESERVES, ON THE SCHOOLS IN THE ALBERTA
INSPECTORATE.

Crowfoot Boarding School (Roman Catholic).

This school is situated on the Blackfoot reserve, near Cluny. The principal, Rev. Father Levern, is assisted by a competent staff.

At the time of inspection there were 41 pupils present, and all made a good showing in their class-room work.

Sufficient roots and vegetables were grown in the garden to supply the needs of the institution.

The building is new and modernly equipped.

Old Sun's Boarding School (Church of England).

This school is situated on the Blackfoot Indian reserve, one mile from the town of Gleichen. The principal, Rev. M. C. Gandier, is assisted by a staff of five. At the time of inspection there were 37 pupils enrolled. They are making fair progress in their studies.

The school is surrounded by a farm of 160 acres of good land.

Ermineskin's Boarding School (Roman Catholic).

This school is situated on the Ermineskin's reserve. The principal is Rev. Father Moulin, who is assisted by a large staff.

In all branches of class work this school is as efficient as any school in my inspectorate.

As usual the buildings and yards were a model of cleanliness. Sufficient vegetables are grown to supply the staff.

Samson's Day School (Methodist).

This school is situated on Samson's reserve in the Hobbema agency.

The pupils are transported to and from the school each day. A plain lunch is served to them at mid-day.

The teacher is Miss Abbie Aylwin.

St. Albert Boarding School (Roman Catholic).

This school is situated in the town of Prince Albert.

At the time of inspection there were 84 children present.

The principal, Rev. Sister M. A. Leduc, is assisted by a staff of five teachers and thirteen others.

There are 280 acres of land under cultivation at this school. An ample opportunity for learning farming is thus afforded to the older boys.

The girls assist in the housework and are also taught sewing, knitting and fancy-work.

The building is a modern brick one and is kept scrupulously clean.

Immaculate Conception Boarding School (Roman Catholic).

This school is situated on the Blood reserve.

At the time of inspection there were 24 boys and 19 girls present.

The boys and girls are taught in separate rooms.

All the children are making reasonable progress in their studies.

The principal, Rev. Father Ruau, is assisted by a staff of eight.

SESSIONAL PAPER No. 27

St. Paul's Boarding School (Church of England).

This school is situated in the Blood agency. Forty-six pupils were present at the time of inspection.

The principal is Rev. S. Middleton, who is assisted by a staff of five.

The school is surrounded by a farm of 160 acres. A good supply of vegetables is grown annually.

A gymnasium proves of much benefit to the pupils.

Peigan Roman Catholic Boarding School.

This school is situated on the Peigan reserve. The staff consists of Rev. Father Riou, principal, and five sisters.

There were 13 boys and 9 girls present at the time of inspection.

The children passed a very creditable examination and apparently are making fair progress in their studies.

The land around this institution is not very suitable for farming. However, vegetables are grown for the use of the school.

Peigan Church of England Boarding School.

This school is situated just outside the western boundary of the Peigan reserve.

The main building is frame with wings at both ends. Although not modern, the building is in fair condition. There is, also, a small isolation hospital.

The principal, Mr. H. A. Reeder, is assisted by a staff of four.

The pupils have made good progress under the teacher, Miss Ball. The school has an enrollment of 29.

Sarcee Boarding School (Church of England).

Ven. Archdeacon Tims is the principal of this institution, and he is assisted by a staff of five.

A new building was erected here during the past year. It is well furnished and modern in every respect.

The water system of this school is in excellent condition.

A good supply of roots and vegetables was grown on the school farm last season.

Blue Quill's Boarding School (Roman Catholic).

This school is in the Saddle Lake agency. The principal, Rev. Father Husson, is assisted by a staff of six sisters.

At the time of inspection there were 45 pupils enrolled.

The children in the different classes gave evidence of careful training. The class-rooms were well arranged and perfectly clean.

About 18 acres are under cultivation and vegetables for the use of the school are grown. There is a well kept flower garden in front of the main building.

Goodfish Day School (Methodist).

This school was recently re-opened, with Mrs. Waters in charge, and Mrs. Webber as assistant.

A new building has been erected for the accommodation of the staff.

A mid-day meal is supplied to the pupils attending school. They are also driven to and from the school.

At the time of the inspection there were 36 pupils present, 29 being in Standard I and 7 in Standard II.

5 GEORGE V., A. 1915

Red Deer Industrial School (Methodist).

Rev. J. Woodsworth is the principal of this institution, and he is assisted by a staff of six male and five female members.

There are 47 boys and 35 girls enrolled at this school.

All the pupils are obedient and are apparently striving to gain a good education. The half-day system is followed and the older pupils work on the farm and at house-work.

In connection with the school there is a farm of 1,120 acres, of which 250 acres are under cultivation.

St. Joseph's Industrial School (Roman Catholic).

At the time of inspection there were 68 children enrolled.

Rev. Father Nordmann is the principal, and is assisted by a staff of fourteen members.

Boys and girls are taught in separate buildings and by different teachers. In both class-rooms the pupils showed proficiency in all grades and reflected credit on their teachers.

In connection with this school there are 1,870 acres of land, of which 180 acres were cultivated, 250 acres summer-fallowed, and the remainder devoted to pasturage, last season.

The half-day system is in vogue at this school. The older boys assist with the farm work and the care of the stock. I have noticed good results from the knowledge of farming obtained by the pupils.

A brass band is maintained under the leadership of Joseph Divine, an ex-pupil.

REPORT OF A. M. TYSON, INSPECTOR OF INDIAN AGENCIES, ON THE
SCHOOLS IN THE NORTHERN INSPECTORATE,
BRITISH COLUMBIA.

NASS AGENCY.

Port Simpson Day School (Methodist).

This school was visited July 26. Mrs. Dudoward has charge of the junior division, and Mr. J. H. Young the senior, and report that the children are making good progress. The building is in fairly good condition and well equipped with the necessary furniture.

Port Simpson Boarding School for Boys (Methodist).

As reported last year, this building is not suitable and should be replaced. The sanitary conditions are poor and the ventilation bad. Playgrounds should also be provided, and a school-room included in the living quarters. About 20 boys are in the school at present, and are being taught by Mr. Young, who reports satisfactory progress.

Port Simpson Boarding School for Girls (Methodist).

This school was also inspected July 26, and everything found satisfactory. The sanitary conditions are good; the girls all appear clean and healthy. Proper discipline is being enforced, with the result that the pupils are making good progress in all lines. There is an excellent playground in connection with the school, as well as an open air gymnasium.

SESSIONAL PAPER No. 27

Metlakatla Day School (Church of England).

Miss Klippert, the teacher in charge, seems to be doing good work with the children. The building is a fairly good one, and well equipped. The average attendance is being kept up and the children progressing favourably.

BABINE AGENCY.

Hazelton Day School (Church of England).

Miss Soal is the teacher in charge. The building is in good repair and the sanitary conditions first-class. The school is also well equipped with the necessary furnishings. The teacher reports a good attendance and that the children are making good progress.

Glen Vowell Day School (Salvation Army).

Miss Law is in charge of the school and is doing good work with the children. The building belongs to the Salvation Army, and is in good repair and well equipped with the necessary furnishings.

Rocher Débouté Day School (Roman Catholic).

The school was closed for want of a teacher, but has since been opened, with Mr. J. Browning in charge, and we are looking forward to good results.

STICKINE AGENCY.

Tahltan Day School (Church of England).

The teacher, Rev. Mr. Thorman, is doing excellent work, though somewhat handicapped by the irregular attendance. The building is kept in excellent repair.

Telegraph Creek Day School (Undenominational).

As this is a public school, quite a number of children from the Tahltan band who live at Dry Town are in attendance here. The building is well equipped. Mr. William Thorman is the teacher in charge and is doing good work.

QUEEN CHARLOTTE AGENCY.

Masset Day School (Church of England).

Mr. Clayburg was in charge of the school at the time of my visit, but has since resigned, and been succeeded by Mr. Traynor. Sanitary conditions are good here and the building in good repair. Attendance during the winter months is exceptionally good and the result is that the children are making splendid progress.

Skidegate Day School (Methodist).

Mr. Brown, the teacher in charge, reports that the children are doing good work, and that the average attendance is fair. Since the repairs suggested in my last report have been made, the school is now in first-class condition and compares favourably with any in the northern inspectorate.

BELLA COOLA AGENCY.

Bella Coola Day School (Methodist).

Miss Gibson, the teacher in charge, reports a better attendance this year and that the children are doing good work. The building is in good condition and well

5 GEORGE V., A. 1915

equipped. Sanitary conditions are good and the ventilation also. Since my last visit the grounds have been improved, by clearing and fencing, so that the school presents a much better appearance than last year.

China Hat Day School (Methodist).

Rev. George Reid is the teacher in charge and is doing good work. The building is in excellent repair.

Bella Bella Day School (Methodist).

The building is fairly good and well ventilated. Sanitary conditions are also good. A marked improvement was noticed here in the average attendance and in the work of the children.

Hartley Bay Day School (Methodist).

This school had been closed for some time, the former teacher, Mr. Kelly, having resigned and gone back to college. Mr. Matthews, who had recently arrived to take up the work, reports the attendance good, and that satisfactory results are being accomplished. The building is equipped with the necessary furnishings.

Kitkatla Day School (Church of England).

At the time of my visit the school was closed for want of a teacher, but has since been opened with Mr. M. C. Mustard in charge. His Lordship Bishop de Vernet reports that the children are doing good work. The building is first-class and well equipped with school furnishings.

Kitamaat Day School (Methodist).

Miss I. Clarke is in charge of this school and doing excellent work. The building is first-class, and the attendance up to the mark.

Kitamaat Boarding School (Methodist).

The teacher, Miss Ida M. Clark, is doing good work. The building is good and the sanitary conditions first-class. This is a school for girls, who are taught domestic science as well as the ordinary school studies. All appear healthy and clean and making satisfactory progress in the work.

General Remarks.

I am pleased to report that the children attending the various Indian schools visited impressed me by their bright and healthy appearance. They all appeared to be clean and comfortably clad, and to take a keen interest in the work.

With one or two exceptions, the school buildings are in good condition, and a credit to the department. Much has been done this year in the way of providing better playgrounds for the children.

In the various boarding schools it was noted that the fire-fighting appliances furnished were being kept in proper place for use in case of necessity.

SESSIONAL PAPER No. 27

REPORT OF W. E. DITCHBURN, INSPECTOR OF INDIAN AGENCIES, ON
THE INDIAN SCHOOLS IN SOUTHWESTERN BRITISH COLUMBIA.

COWICHAN AGENCY.

Kuper Island Industrial School.

At present the staff in charge of this school is: Rev. W. Lemmens, principal; Rev. A. Murphy, boys' teacher; Sister Mary Rogation, superior; Sister Mary Albert, laundress; Sister Mary Moiese, girls' teacher; Sister Mary Barnaby, cook; Brother L. Cromm, trade instructor; and Brother Monett, farm instructor.

When the new school is completed and in operation it will do much to enhance the department's educational system in the Cowichan agency, as there has been for some time past considerable prejudice existing amongst the Indians against the old school on account of so many deaths having occurred among the pupils, and for this reason they have been very loath to have their children committed to the institution.

The present buildings are poorly ventilated. There is, however, a good sewerage system and a plentiful water-supply.

The progress made by the pupils had been fair during the first six months of the year. The general health of the pupils had been all that could be desired and no deaths had occurred up to that time.

There is a fine farm in connection with the school, consisting of about 70 acres of first-class land, upon which were grown during the summer 5 tons wheat, 3 tons oats, 30 tons hay, 10 tons potatoes, 3 tons carrots, 2 tons mangolds and 2 tons turnips, thus giving the school all the vegetables that were needed. The orchard produced approximately 50 tons of apples and pears.

The boys receive instruction in farming, carpentry, blacksmithing, and shoe-repairing, and the girls are taught housework, plain and fancy sewing, cooking and laundry work, as well as the regular studies.

The live stock consists of 3 horses, 13 head of cattle, 7 pigs and 200 chickens.

Nanaimo Indian Day School (Methodist).

This school, which is located on the city reserve at Nanaimo, has had a fair average attendance throughout the year. Miss M. Rogers, who had been teaching for the past two years, resigned at the end of November and has been succeeded by Miss Asbden.

The total number of children of school age on the reserve is 14, and the average attendance for the last quarter was 12; five of the pupils of this school were admitted to the Coqualeetza Industrial Institute at Chilliwack during the year 1913. The children have been making excellent progress in their studies.

The building is in a good state of repair and the sanitary arrangements are all that is necessary.

The health of the pupils at the school has been first-class. This school lost a fine teacher in Miss Rogers. However, I am pleased to learn that the children and Miss Asbden are getting along very well together.

Koksilah Indian Day School (Methodist).

The teacher at this school is Rev. C. A. Dockstader, who is very painstaking in his work with the Indian children.

I visited this school during the month of September, but the children were all away at the hop-fields with their parents. On November 5 I again visited the school and found nine pupils on the roll, all of whom were present. All were in the primary class and their progress could not be estimated. Four pupils of this school were admitted to the Coqualeetza Institute during the year.

5 GEORGE V., A. 1915

Songhees Indian Day School (Roman Catholic).

This school has been erected on the new Songhees reserve at Esquimalt, and was paid for by the Indians out of their trust funds.

Miss R. Quigley is the teacher. There are 10 pupils on the roll, but the average attendance has not been what it should be. When the children attend school regularly, the teacher reports that their progress is very good.

West Saanich Indian Day School (Roman Catholic).

At this school Miss M. Hagan is the teacher. There has been a very poor attendance during the past year, and at times the school has been closed on account of lack of pupils. There are nine children of school age on the reserve, who, when at home, should be compelled to attend regularly.

KWAWKEWLTH AGENCY.

Alert Bay Industrial School (Anglican).

This school was visited on January 8. The staff consists of Rev. A. W. Corker, principal; Mrs. Corker, matron; Miss Ingram, assistant matron; George M. Luther and J. Phillips, teachers; and Eli Hunt, trade instructor.

There were 34 boys on the roll, all of whom were reported by the principal to have been making excellent progress in their studies, especially in English literature and arithmetic.

The building is old, but has been kept in a good state of repair.

With the exception of one case of pneumonia in August last, and a slight epidemic of mumps in October, the health of the pupils was reported to have been very good for the whole of the year, no deaths having taken place.

The amount of land for garden purposes at this school is not very large, there only being about three acres. Another acre was being cleared in January, and when fenced and put under cultivation should be of great assistance to the school for the growing of the necessary vegetables.

Besides their studies in the class-room, the boys are taught carpentry, joining and general handiwork. Lessons are given regularly in hygiene and fire drill.

Alert Bay Indian Girls' Home (Anglican).

Rev. A. W. Corker, principal of the industrial school, has supervision also over this institution. The establishment of this home for girls is bound to prove of great benefit to the Kwawkewlth Indians in the future. As the girl pupils of this school grow up, become educated and christianized, they should make very good wives for the pupils of the boys' school, to whom they would be married according to civilized customs.

This school has now been open slightly over a year and a half, and there are 27 pupils on the roll. The girls are all doing nicely with their studies, besides which they are also taught general housework, sewing and cooking.

The building has first-class equipment throughout. New desks were placed in the class-room during the year.

At this school the health of the pupils during the year had not been all that could be desired. There had been an epidemic of mumps, another of tonsillitis and one case of diphtheria.

During the summer months the water-supply proved to be very short; but it is expected that this inconvenience will have been overcome before the next dry season, as the department has devoted a sum of money to be used for the purpose of locating a more plentiful source.

SESSIONAL PAPER No. 27

There are two acres of land used for garden purposes, upon which are grown potatoes and other vegetables. In fact, with the exception of potatoes, all the vegetables required by the school are grown on this piece of ground.

Alert Bay Indian Day School (Anglican).

This school is taught by Miss E. W. Ferryman.

There were 32 pupils on the roll, and at the time of inspection there were 22 present. The average for the last quarter of 1913 had been 18.05, as compared with 9.96 for the previous quarter.

The school is in a good state of repair. The class-room is fine and airy with a good high ceiling.

All the pupils are in the first standard. The children seemed happy and were taking quite an interest in their studies. Progress, however, at this stage of their education is naturally slow. They were reported as having been quite healthy during the year.

Cape Mudge Indian Day School (Methodist).

This school was inspected on January 13. Mr. J. E. Rendle is the teacher and missionary at the Cape Mudge reserve, on which this school is located. He takes a great interest in his work among the Indians generally, and, when the children attend school regularly they make good progress under his tuition.

There were 22 pupils on the roll, 14 being present at the time of my visit.

Throughout the year the health of the pupils had been very good, no epidemics having taken place.

The class-room is large and airy, and the sanitary conditions are all that can be desired.

NEW WESTMINSTER AGENCY.

Coqualeetza Industrial Institute (Methodist).

This school was visited on April 24, and September 5. Rev. R. H. Cairns is principal.

This building is well ventilated, and heated with hot air; the sanitary arrangements are good, the dormitories and class-room being both large and airy.

The pupils have been making excellent progress in the class-room throughout the year.

There has been no sickness worth mentioning amongst the pupils and no deaths had occurred since February, 1913.

In connection with the school there is a farm of 80 or 90 acres, upon which are grown all the vegetables used at the school. On this farm the boys are taught agriculture in all its branches.

There are ample fire-fighting appliances at the school and the pupils are given fire drill at regular intervals.

The water-supply is secured from the city. In the boys' lavatory new basins have been placed, and a considerable amount of plumbing done throughout the year.

St. Mary's Mission Indian Boarding School (Roman Catholic).

This school was visited on September 4. Rev. V. Rohr, O.M.I., is principal.

There were 62 pupils on the roll and all had made very good progress in their studies and had done well at the examinations which were held in July. Up to the time of my visit the pupils had enjoyed the best of health.

5 GEORGE V., A. 1915

The buildings are in a good state of repair and there has been a plentiful supply of pure water on the premises. They are steam-heated and lighted with electric light. The ventilation of the buildings is obtained by means of leaving the windows open.

A large farm yielded a good crop of vegetables last fall, though the fruit crop was considerably less than the average, having been affected by the early frosts.

Two new septic tanks were installed, one for each of the buildings, and a considerable amount of painting as well as fencing was done during the summer.

In the orchard 320 new fruit-trees were planted in the spring under the supervision of Mr. T. Wilson, Inspector of Indian Orchards.

One Holstein bull, 4 heifers and 1 bull-calf were procured from the Experimental Farm at Agassiz and added to the list of live stock, which made the list up to 35 head of cattle, 5 horses, 4 colts, 40 sheep, 20 pigs and over 100 chickens.

Squamish Mission Indian Boarding School (Roman Catholic).

This school was visited on November 20. Rev. Sister Mary Amy is the superior.

The pupils were all reported as having made excellent progress in their studies, and their health had been all that could be desired, there having been no deaths.

The building is in a first-class condition and the sanitary arrangements are good. There is a plentiful supply of pure water on the premises.

There are 14 acres of land for garden, in which all the vegetables and fruit for the use of the school were produced during the summer. The apple crop, however, was not a big one, though there was no complaint with respect to the amount of smaller fruits that were grown.

Besides their regular studies in the class-rooms, the boys are taught gardening, and the girls are made proficient in plain and fancy sewing and general housework.

There are ample fire-fighting appliances always in readiness on the premises.

Sechelt Indian Boarding School (Roman Catholic).

Rev. Sister Theresine is the principal.

There were 43 pupils on the roll, 19 boys and 24 girls.

The buildings are in first-class condition, and improvements have been made by the addition of several cupboards, in which are stored the clothing of the pupils. A new building was being erected on the grounds, the upper story of which is to be used as a dormitory for novices; the lower part to be used as a recreation hall for the girls. When this building is completed and occupied, it will then allow two large rooms in the main building to be used as a hospital as well as giving an extra dormitory for the boys, which was very much needed.

There are about four acres of land used for a garden, from which a good supply of vegetables and small fruits were obtained.

The children of this school appear to be making very good progress with their studies, and in their reading they use a clear and distinct pronunciation.

The live stock consists of 4 cows and 100 chickens.

Homalco Indian Day School (Roman Catholic).

The Homalco day school was destroyed by fire last year, but was rebuilt during the past summer, the department supplying the material and paying the wages of a foreman, the Indians themselves doing the remainder of the work. They have now a very nice school, which is classified as a semi-boarding school, most of the children living on the premises, their food being supplied by their parents. In this manner it ensures a good attendance while their parents are away from the reserve. There are 35 children on the roll and the daily average is about 20.

The teacher is Miss C. Pitznick, and the pupils have been making excellent progress in their studies.

SESSIONAL PAPER No. 27

Sliammon Indian Day School (Roman Catholic).

This school is located on the Sliammon reserve, and the teacher is Basil Nicholson, a married man, whose wife also lives on the reserve. Mr. Nicholson only took charge of the school early in November last.

There are 35 pupils on the roll, the daily average being slightly over 14. Good progress is being made by them in their studies, and their health has been very fair.

Tsawassen Indian Day School (Roman Catholic).

A school was opened on the Tsawassen reserve in charge of the Roman Catholic missionary. From the reports I have received with respect to this school, it is filling the place of a much-felt want. There are 19 pupils on the roll and the daily average has been 15.

Chilliwack Indian Day School (Roman Catholic).

A new school was under construction on the Skwah reserve at Chilliwack during the latter part of 1913, and is now completed.

This school has a capacity for 40 pupils and should serve a very useful purpose. As the Chilliwack Indians do not move away from their reserves for any length of time, there should be a good average attendance.

WEST COAST AGENCY.

Alberni Indian Boarding School (Presbyterian).

Mr. H. B. Currie is the principal. Miss Trew, the teacher, holds a second-class Saskatchewan certificate, and was only appointed in December last. She is doing very good work in the class-room and takes a great interest in the education of her pupils, numbering 51, 28 being boys and 23 girls.

The buildings are in a very good condition and considerable new work was done on them during the year. A new cement basement was about completed at the time of my visit and two of the small dormitories had been papered with sanitary paper; one of the other dormitories had been kalsomined. The buildings are well ventilated and heated throughout with hot air. There is also a good sewerage system.

There has been no sickness of any kind among the pupils during the year.

On Sunday, November 30, a fire broke out in the attic of the main building as the result of a defective chimney. For a time the buildings were threatened with total destruction; but owing to the effective work done by the pupils and staff with their excellent fire-fighting equipment, the fire was got under control and finally extinguished.

There are 17 acres of land under cultivation, and, as Mr. Currie is a practical farmer, he is able to give the Indian boys excellent instruction in this work. On this land were produced good crops of small fruits, oats, peas and hay.

The live stock consists of 9 head of cattle, 3 horses and 100 chickens.

Ahousaht Indian Boarding School (Presbyterian).

Rev. J. T. Ross is the principal.

There were 33 pupils on the roll and they were all making excellent progress in their studies under Miss L. McIvor, the teacher.

The building is in first-class condition and is well ventilated and heated. The sewerage system is first-class.

There has been no sickness of any kind amongst the pupils during the year.

5 GEORGE V., A. 1915

The amount of land used for garden purposes is about 15 acres, but is of a poor quality and is not yet in a condition for extensive cultivation. A fair crop of garden vegetables and small fruits was produced last year on this land.

Besides their regular studies in the class-room the boys are taught joiner work by Mr. Ross himself and had some very creditable work at the school. The girls are taught general housework, also plain and fancy sewing.

Clayoquot Industrial School (Roman Catholic).

Rev. Father Epper, O.S.B., is the principal.

This is a very fine institution, up-to-date in all its appointments; sanitary plumbing throughout the building and heated with hot water furnaces. There is also a splendid water-system at the school.

There were 54 on the roll at the time of my visit, 33 being boys and 21 girls. The progress made by the children in the class-room during the year was all that could be desired.

With the exception of an epidemic of mumps and grippe, the children enjoyed good health during the year.

The amount of land used for garden purposes at this school consists of about three acres, and this is not considered enough to enable the pupils to learn practical farming. It is the intention of the reverend principal to endeavour to add another trade instructor to the staff, and this will allow the boys to be taught carpentry and joiner work of a high grade. Instruction in this work would prove of much use to the pupils after they have left the school.

The live stock consists of 1 bull, 4 cows, 2 heifers and 100 chickens. A new barn, with cement foundation, 46 x 22 feet, was built by the pupils during the past summer.

Clayoquot Indian Day School (Roman Catholic).

This school is located on the Opitsat Indian reserve at Clayoquot. The teacher is Rev. Joseph Schindler, O.S.B.

The number of pupils on the roll is 35 and at the time of my visit, on February 6, there were 15 present. The average during the last quarter had been 18.4. The teacher reported that the children had been making fair progress with their studies, more especially when they attended regularly.

During the month of January there had been two deaths of the pupils at their homes, one from pneumonia and one from bronchitis. An epidemic of whooping-cough had also prevailed amongst the children on the reserve.

The class-room is of good size and very comfortable.

Ucluelet Indian Day School (Presbyterian).

H. W. Vander Veen is the missionary and teacher at this school.

The number of pupils on the roll is 19. During the quarter ended December 31, the average had been 6.67. This average was much smaller than it should have been, the Indians of Ucluelet having to leave their reserves and come to Victoria to get out their sealing certificates.

The progress made by the pupils has been all that could be expected where the attendance is so irregular.

There had been very little sickness on the reserve and all the children had been well.

The school-room is a good one and is ventilated by keeping the door and windows open as much as possible.

SESSIONAL PAPER No. 27

REPORT OF W. M. GRAHAM, INSPECTOR OF INDIAN AGENCIES, ON THE
EX-PUPIL COLONY AT FILE HILLS, SASK.

The colony contains a total area of 19,000 acres, of which I should say about 15,000 acres are suitable for cultivation. There are at present 33 farmers on the colony and a total population of 134 souls. Many of the children of these ex-pupils are now attending the industrial and boarding schools at Lebret and File Hills, and I receive most encouraging reports of them from time to time. It is claimed by those who should know that the children of ex-pupils show more intelligence than do the children of parents who have never received any educational training. Another interesting fact is that the Indian graduates, not only here but throughout the district, are raising larger and healthier families than do the parents who have not been at school.

The year just ended has been a prosperous one for these people. Their crop was without doubt the best paying one since the colony has been in existence. The amount of grain was considerably in excess of what it was last year, the total being 97,209 bushels. After several years of experimenting, it was decided to grow oats for the main crop, as it was found there was too much risk in depending almost entirely on wheat. It has been proven beyond doubt that there is as much money in growing oats as there is in wheat, provided the preparation of the land is the same.

The season of 1913 was a most favourable one for grain-growing, not only here, but throughout the whole grain-growing area of this province, and the people here who now realize the great importance of preparing the land properly, using good seed, and getting it in early, have shared with their white neighbours in one of the most profitable crops that was ever harvested in this province. The day has passed, I think, for blaming climatic conditions for crop failures, as a great deal of the trouble in most places is due to the style of farming and not weather conditions.

One has seen this colony grow from a very small beginning in 1902 to what it is to-day,—a thrifty settlement producing as much per acre as is done by the surrounding white farmers, and in many cases individuals have an acreage under cultivation equal to that of the best white farmers.

It will, perhaps, be interesting if I quote some cases of individual prosperity that I think prove beyond a doubt that the Indians are not only holding their own with the average white farmer, but in some cases are surpassing them.

Joseph Ironquill.—This man has been farming eight years and this year his crop amounted to 9,578 bushels of good grain. He had 235 acres in crop, broke 40 acres and summer fallowed 37,—making a total of 312 acres under cultivation. His fields this year were a magnificent sight. This man has shipped 3 car-loads of grain, and I have already received returns for him amounting to \$1,547. In addition to this he has also sold considerable grain by the load. He owns 10 head of heavy horses, 20 head of cattle, besides pigs, poultry, etc. Realizing that there is much to be made from cattle, he purchased 10 head of stock last month. He has splendid buildings, his barn being a frame structure, 50 feet long, with hip roof. It is nicely painted and has his name nicely lettered on the front of it. He is well equipped with machinery, is out of debt and has a private bank account. His wife has been a patient in the hospital for insane at Brandon for the last five years, and he manages his home by employing a white man and wife the year round, for which services I understand he pays them \$500. To a large extent Ironquill manages his own affairs. Aside from occasional advice, he gets no assistance whatever, and has had no help from the department except his education.

John Bellegarde.—This man had the record crop for 1913. He grew 9,662 bushels of good grain. He has so far only shipped one car of oats, which was to pay his current expenses, and is holding the balance for a rise in the market, which will probably take place in April. He has 280 acres under cultivation, and owns 15 head of cattle, 15 good

5 GEORGE V., A. 1915

horses, pigs, poultry, etc. He has a comfortable home, good buildings, is out of debt, and has a private bank account. He had no assistance from the department. What he has is the result of his own efforts, but he is always willing to be guided and take advice.

Frederick Deiter.—This man grew 6,388 bushels of grain, but was much disappointed at not getting more. He experimented with a new variety of oats, which did not yield anything like he expected. He has splendid buildings, in fact they would be a credit to any white farmer. He owns 9 good work horses, 6 head of cattle, pigs and poultry. He farms 290 acres of land, 90 of which was under fallow last season.

Francis Dumont.—This young man started out without any assistance whatever from the department. He has made steady and substantial progress every year. He grew 6,776 bushels of grain this year; has under cultivation 246 acres, 75 of which were under summer fallow this year. He has a fine home and owns the following stock: 5 head of cattle, 8 horses, pigs and poultry. He is a hard worker, willing to take advice, manages his affairs well, and is no trouble whatever.

I might mention a few others who had large crops this year: J. R. Thomas, 4,201 bushels; Ben Stonechild, 5,738 bushels; C. Pinay, 3,232 bushels; Moise Bellegarde, 3,385 bushels; J. McKay, 3,552 bushels; and F. Fisher, 3,461 bushels.

I can give most encouraging reports as to the manner in which these young people live. Without doubt there is a marked improvement as each year goes by. Their houses, in a great many cases, are furnished as well as prosperous white homes, and as they make progress I notice a marked change in the home comforts. Pictures, clocks, sewing-machines, rugs and different articles of furniture are to be found in most homes. Many of the women milk cows and make butter, and I am told that this winter many of the fresh eggs that are received by the stores are brought from the colony.

The Indians are not good gardeners as a rule and do not take the interest in this work that they should; but I am pleased to report that there is improvement in this respect and last year every one had a garden, some of which were very good. Every home has an ample supply of vegetables to carry them through the winter months. I noticed in one or two cases flower gardens, which goes to show they are taking pride in beautifying their grounds, and I look for further improvement in this line. White-wash and paint are freely used on their houses and I think that from a sanitary standpoint they are doing exceptionally well. Of course there are cases where the houses are poorly kept, but these are few.

After close observation I find that many young couples starting up in married life go through a period of from two to three years in which they appear to be indifferent as to whether they get along or not. They are extravagant through not knowing the value of money, but this is to be expected, as they have always had other people to do the providing for them at schools, and have never had a training that would teach them the value of money. However, it is only a matter of time before they learn that in order to have comforts they must provide them with their own efforts.

A noticeable feature is the manner in which these young people clothe themselves and their children. They take pride in keeping them well dressed.

Situated on this colony are two churches, a Roman Catholic and a Presbyterian. The attendance at both churches is fairly regular.

There is quite a lot of social intercourse between the different families. For pastime and amusement they enjoy almost all the privileges that white people enjoy. The band, which was organized two years ago, is a good one and affords a great deal of pleasure to those who are members of it, as well as to many who are not.

One of the most pleasing features of this colony is that it is practically out of debt. The whole guaranteed indebtedness to merchants at the time of writing this report does not amount to \$275. I doubt whether there is a community of white farmers that could make such a showing.

SESSIONAL PAPER No. 27

Another matter that I wish to bring to the notice of the department is that fully two-thirds of the doctor's visits to this colony are paid for by the Indians themselves. This, to my mind, shows independence and advancement. They were told that those who could pay would have to do so, and they are carrying out these instructions.

There has been no serious epidemic during the past year and I find that when there is sickness they are always most anxious to call in a doctor. As a rule, the water on the colony is good, and nearly every farm has a well. I think this accounts to some extent for the good health they enjoy. During the year there has been one death and ten births.

The members of this colony own a very complete outfit of all kinds of farming machinery, which includes two threshing outfits.

AUDITOR GENERAL'S OFFICE, OTTAWA, June 9, 1914.

SIR,—In the examination of the expenditure in British Columbia during the fiscal year 1913-1914, on account of the Royal Commission on Indian Affairs, I am struck with the large amount paid for automobile and taxi cab service, which, outside of the small amounts charged in the individual accounts of the Commissioners and officials, amounts to \$5,252.85, as follows:

Big 5 Auto and Taxi Cab Service, Vancouver.....	\$	2.00
H. Blair, Ashcroft.....		200.00
J. W. Green, Victoria.....		29.00
W. R. McCluskey, Kamloops.....		1,552.85
N. W. McConnell, Kamloops.....		10.00
W. H. Maysmith, Victoria.....		3,212.50
J. Moran, Victoria.....		2.00
A. B. Ward, Kamloops.....		240.00
Richard Woods, Victoria.....		1.50

In view of the large amount of these payments I think that a full explanation should be given by the Commissioners of each auto trip undertaken by them, showing the destination and the time occupied. More especially is this required for the various trips in and about Victoria.

In the account for auto hire of W. H. Maysmith of Victoria, I find the following charges for auto service on Sundays:—

May	25.....	\$	62.00
June	22.....		10.00
July	6.....		19.00
"	13.....		13.50
"	20.....		42.00
"	27.....		14.00
Aug.	3.....		41.00
"	10.....		41.00
Sept.	21.....		3.00
Nov.	2.....		6.00
"	6.....		1.00
Jan.	4.....		2.00
"	18.....		5.00
"	25.....		2.00
Feb.	8.....		9.00
"	15.....		21.00
"	22.....		7.00
Mar.	1.....		1.00
"	15.....		4.00
"	22.....		1.00
"	29.....		16.00

These charges for Sunday service require special explanation on the part of the Commissioners.

I have no detailed statement of the auto service rendered by Maysmith during the month of December, which amounted to \$48.50. Kindly let me have such a detailed statement.

I am, Sir, your obedient servant,

J. FRASER, A.G.

The Deputy Superintendent General of Indian Affairs.

SESSIONAL PAPER No. 1

DEPARTMENT OF INDIAN AFFAIRS, OTTAWA, August 12, 1914

SIR,—With reference to your letter of the 9th June, respecting accounts for automobile and taxi cab service incurred by the Royal Commission on Indian Affairs for British Columbia, I beg to enclose herewith copies of letters from Mr. Bergeron, Secretary and the Chairman of the Commission, in regard thereto.

Your obedient servant,

J. D. McLEAN, Asst. Deputy and Secretary.

The Auditor General.

ROYAL COMMISSION ON INDIAN AFFAIRS FOR THE
PROVINCE OF BRITISH COLUMBIA,

BELMONT HOUSE, VICTORIA, B.C.

SIR,—I am desired by the Commission to reply to your letter of the 12th inst. containing a statement from the Auditor-General of the 9th inst., concerning amounts paid by the Commission for automobile and taxi cab service. It is rather late in the day to be in a position to answer satisfactorily the question of the Auditor General. It is over a year now, since the Commission has passed a contract with the motor cars owner, a contract which at the time the Royal Commission thought was very advantageous, as the visitations of reserves had to be made in that way, it being the most expeditious and the cheapest, and it was on account of the contract that lower prices were obtained than could have been had under ordinary circumstances.

It is impossible here to have good strong cars for less than \$40.00 a day, and indeed, when the contract was made the daily tariff was \$50.00. By the contract made last year with Maysmith the Commission had the use of three good, well-equipped cars for \$100.00 a day, with the understanding that whenever the Commission required motor car service in Victoria they could have it for \$4.00 an hour instead of \$5.00, which is the recognized tariff in the cities of Victoria and Vancouver.

As to the first part of the Auditor-General's letter concerning car service on Vancouver Island, the vouchers for that had been sent long ago, very nearly a year; and I may say that these accounts were examined and found correct according to the contract with Maysmith. I do not know whether the Auditor General is aware that the Commission travelled some one thousand miles on Vancouver Island and about three thousand on the main land, a considerable part of the travel being off the main highways and over particularly difficult roads; and I may say that it would have been impossible for the Commission to have gone through the visitations of the reserves at a less cost than the amount of money paid for that purpose.

Now for the second part of the Auditor-General's letter concerning charges for auto service on Sunday. It would be impossible to-day, to have the details which he desires. All that I know is that I ascertained that the service was really rendered for the account presented. I remember that some reserves around Victoria were visited on Sunday, but unfortunately not having been advised by the department, no official record was kept of the details of that

service, but the Commission directs me to say that whatever the ruling of the department will be on that matter, will be adhered to in the future, but it is physically impossible to give the details now of the past service.

As for the December account of \$48.50, the only details which we have are a copy of those which were sent with the account and which are at present with the Auditor-General. All that I can remember as far as that month is concerned, is that, although the Commission was not sitting officially, there was a committee of the Board sitting permanently, and in December there were some communications in writing and some papers to be signed which entailed the stenographer travelling between the office of the Commission and the private residence of the chairman, whose work was actually finished on the 30th of November, but who was kind enough to sign some papers and help in that way, the committee finishing the work of the previous season.

I am, Sir, your obedient servant,

J. G. H. BERGERON, Secretary.

The Asst. Deputy and Secretary of Indian Affairs.

DEAR SIR,—On the return of the Commission last Thursday from their tour of the Bella Coola Agency, your letter respecting the accounts of the Commission forwarded to the department, and the reply of Mr. Bergeron, our secretary thereto, were laid before the Commissioners.

We have nothing to add to what Mr. Bergeron set forth, except as regards the accounts for motoring.

We note that you think the charges therefor are high, but you must bear in mind that we are doing our work in a country where everything is very high indeed, and it is quite impossible to compare prices here with prices that rule in the East. The hire of motors is no exception to that rule. The motors were absolutely required on the trips to which Mr. Bergeron referred, and the Commission could not get along without them. We had to carry along ten persons, namely the five Commissioners, our secretary and assistant secretary, Mr. Young, the Counsel for the Dominion, a stenographer, the Indian Inspector, for the respective Districts, and the Indian Agent. The Assistant Secretary was necessary as our sumpter man. Without him we would have had great difficulty in arranging for our stoppages along the road.

In making our arrangement with the motor man, we did not agree to pay him what he demanded at first, but we got him to agree to a considerable reduction. We made the best bargain we could, and I can emphatically state that the Commission, in view of the going charges here, not merely made the best bargain they could, but made a good bargain with him.

Yours very truly,

Chairman of the Commission.

The Secretary, Department of Indian Affairs.
