REPORT

OF THE

**DEPUTY SUPERINTENDENT GENERAL OF
INDIAN AFFAIRS**

FOR THE YEAR ENDED MARCH 31, 1918

*

REPORT OF THE DEPUTY SUPERINTENDENT GENERAL.

HON. ARTHUR MEIGHEN, K.C., B.A.,
Superintendent General of Indian Affairs,
Ottawa.

OTTAWA, September 3, 1918.

SIR,—I have the honour to submit the report of the Department of Indian Affairs for the year ended March 31, 1918.

A number of outstanding events have transpired in connection with the administration of Indian affairs during the past year. Several important amendments to the Indian Act have been enacted, and a considerable amount of interest was attached to the passing of the Order in Council exempting Indians from combatant service under the Military Service Act. Further reference will be found to these matters under their respective headings.

The department has attached the greatest importance to the campaign for greater production. An account of the farming operations on the reserves will be found under the heading "Greater Production," and detailed statistics in connection therewith in tables 2, 3, 4, 5 and 6, Part II.

The increases in the value of real and personal property, and in the income of the Indians, have been particularly gratifying, as will be observed from a perusal of the sections dealing therewith under their respective headings.

The hunting Indians have had a prosperous season, as the fur-catch has been large, and the prices paid for the pelts have been unusually high throughout the Dominion.

I am glad to be able to report that in spite of the many adverse conditions prevailing throughout the country, there has, on the whole, been marked progress and prosperity among the Indians during the past year.

POPULATION.

Heretofore a census of the Indian population has been taken annually, but as the figures show very little change from year to year, it has been decided that henceforward a quinquennial census will suffice. The following table shows the Indian population according to the census of last year. Reference to the census taken in previous years shows that the Indian population is slowly but steadily increasing.

Province.	Population.
Alberta	8,837
British Columbia	25,694
Manitoba	11,583
New Brunswick	1,846
Nova Scotia	2,031
Ontario	26,411
Prince Edward Island	292
Quebec	13,366
Saskatchewan	10,846
Northwest Territories	3,764
Yukon	1,528
Total, Indian population	105,998
Eskimos	3,296
Total, number of Indians and Eskimos	109,294

A more detailed statement giving statistics of the Indian population under the headings of religions, ages, and sex in the various provinces and inspectorates will be found on pages 42-45, Part II.

GREATER PRODUCTION.

The greater production campaign has, in the opinion of the department, overshadowed all other considerations in its importance during the present year, and the utmost efforts have been made to place larger areas under crop on the Indian reserves throughout the Dominion. Urgent instructions were issued in connection with this subject to all the Indian agents, and I am glad to report that they have energetically complied with the wish of the department in this great work. In the western provinces, of course, this season's crop has not been so successful as had been anticipated, owing to the adverse climatic conditions.

Wherever it is practicable, land which cannot be worked by the Indians themselves is being leased to whites.

The department assists the Indians each year in the purchase of seed grain, and during the present season greater assistance than usual has been given in order to make possible the cultivation of larger areas on the reserves.

In previous reports I have outlined the manner in which the department supervises the agricultural activities of the Indians of Ontario by employing field agents who visit the various reserves and instruct the Indians in modern methods of farming. This policy has proved to be of great benefit to the farming Indians in this province. While at the reserves, the field agents make a general inspection of the schools, equipment, outbuildings, yards, etc., and also of the roads, bridges, drains, timber, and land.

Early in March of the present year the greater production campaign was organized on the Ontario reserves. Statistics were gathered from all the reserves with regard to the amount of land that each Indian proposed to plant, and also the supply of seed grain on hand. Arrangements based on this information were made for the cultivation of vacant lands, and also for securing the seed grain required. A series of meetings on greater production was held on all the reserves in the southern part of the province and also on Manitoulin Island and at Garden river. These meetings were well attended and arrangements were made thereat among the Indians to farm more land and to take over vacant lands, and in consequence practically every acre of cultivable land on Indian reserves in Ontario is being utilized either in the raising of crops or pasturing of cattle.

In connection with the greater production campaign, pure seed grain, Marquis spring wheat, O.A.C. No. 72 oats, O.A.C. No. 21 barley, and Dooley potatoes were purchased and shipped to those in need of seed. This pure seed is reflected in the crops this year.

Indian fall fairs are being organized under the department's agents. Standing-crop competitions in corn and oats, and vegetable-garden contests are organized under the supervision of the field agents on many of the reserves each year. Prizes were given during the present season for vegetable gardening and roots and grain competitions at Walpole island, Sarnia, Muncey, Oneida, Chippewa, Moravian, Rama, Saugeen, Rice Lake, Mud Lake, Alnwick, and Deseronto. Spring-wheat growing competitions were held at the West Bay and Sheshegwaning reserves, and a potato-growing competition on the Garden river reserve. These competitions have had a good influence in stimulating greater production. The gardens were very clean and well cultivated this year.

An interesting feature of the department's agricultural policy in Ontario is the work carried on at the Indian schools. Practically every day school in the province is cultivating a school garden, and at the boarding and industrial schools also the reports received show that largely increased areas have this year been placed under cultivation. School fairs are being held at the Deseronto, Six Nations, Muncey, and Cape Croker reserves. These school fairs are having an excellent influence. Three years ago small packages of pure seed were supplied and as a result, there are now fields of barley, oats, etc., of improved quality.

SESSIONAL PAPER No. 27

During the winter of 1917-18, short courses in agriculture were given in the Mount Elgin institute, Muncey; the Mohawk institute, Brantford, and the Shingwauk home, Sault Ste. Marie. These courses consisted of lectures on cultivation, noxious weeds, drainage, fertilization, strawberries, raspberries, gooseberries, currants, orchards and vegetable gardening. Lectures were given on dairy cattle, beef cattle, horses and hogs; these lectures were accompanied by practical work with the stock. At the close of each course an examination was held, and prizes were given to those obtaining the highest standing.

Marked improvement has been observed at Deseronto, where the acreage is large and the crop very heavy. Many of the Deseronto Indians have crops equal to any to be found in Ontario. There has also been great improvement at the Sarnia and Muncey reserves, especially at the latter, where a much larger acreage and better preparation helped to bring a bumper crop.

A new farm has been started on the Fort William reserve, and at the request of the band the department has authorized an expenditure of \$27,000 from band funds in connection therewith. The Indians have already cleared and ploughed 60 acres. Two houses have been purchased and moved to the site. A large stable and driving shed, 100 by 27 feet, and also a blacksmith shop and six portable pens have been erected. Two miles of the best wire fencing have been purchased, and half of it has already been put up. The stock on hand includes forty-five heifers and calves, four horses, and about seventy pigs. A second-hand saw-mill, engine, and boiler were purchased last fall and set up on the shore of the bay not far from the farm, and the Indians have manufactured all the required lumber from logs on the reserve. An excellent stable for the horses, with bins for the storage of grain, a large hayloft, and an extension for the storing of implements and machinery has been erected, and also a large stable for wintering cattle, and a piggery with twenty pens.

The object in establishing this stock farm is to raise cattle and horses for individual Indians. This stock will not be given to the Indians gratuitously, but they will be required to pay for it at reasonable prices, and the proceeds of these sales will be refunded to the band's account. In this manner a portion at least of the expenditure from the band funds will be recouped. The work being done on this farm has been carefully inspected, and is reported to be most satisfactory. As a result of this enterprise a valuable piece of land which had hitherto been practically neglected is now being utilized, and the results will undoubtedly be of great benefit to the Indians and also of national value in the greater production campaign.

In the Prairie Provinces there is a large area of good land on Indian reserves which had hitherto been unused, and a special effort has been made this year in connection with the greater production campaign to place as much as possible of this land under cultivation. In order to expedite this work and utilize the services of the department's staff to the best advantage in connection therewith, Mr. W. M. Graham, Inspector of Indian Agencies for South Saskatchewan Inspectorate, was appointed as commissioner for the provinces of Manitoba, Saskatchewan, and Alberta. Mr. Graham has the sole charge of this work, subject to the approval of the superintendent general. This plan of organization has been the means of placing large new areas under cultivation, and most successful results are anticipated in the coming season.

The following summary will give an idea of the work that is being conducted under Mr. Graham's supervision.

ALBERTA.

Blackfoot Reserve.—Two large greater-production farms have been started on the Blackfoot reserve. These farms include from three to four thousand acres of fine land. In addition to these greater production farms, large areas on this reserve have been leased for farming purposes to whites.

9 GEORGE V, A. 1919

Blood Reserve.—A greater-production farm has been started on the Blood reserve. Fifty sections of land have been leased for grazing on this reserve, whereon it is expected will be raised and grazed 25,000 head of sheep and 2,000 head of cattle.

In connection with this work there have been purchased seven large Rumeley oil-pull engines, capable of ploughing from 22 to 28 acres a day, according to the nature of the soil. Competent engineers have been secured to run these engines, which were purchased at cost at La Port, Indiana, plus freight and duty.

In addition to the establishment of these departmental farms, extensive arrangements have been made to increase grain production by individual Indians.

SASKATCHEWAN.

Assiniboine Agency.—A greater-production farm has been started in this agency to the south of Sintaluta. It is expected that about 2,000 acres will be broken on this farm. Sixty brood sows have been secured for this agency.

Crooked Lakes Agency.—A greater-production farm has been started in this agency to the north of Broadview. It is expected that 5,000 acres will be broken on this farm. Temporary bunk-houses, cook-houses, blacksmith-shops, and stables have been erected there. Sixty brood sows have been secured.

Muscowpetung Reserve.—A greater-production farm has been started on this reserve, and it is expected that 5,000 acres will be broken there. Temporary bunk-houses, cook-houses, and blacksmith shops and stables have been built on this farm.

Touchwood Agency.—Six thousand acres have been leased for grazing at this agency.

One thousand acres of new land have been broken on Indian greater-production farms in Alberta and Saskatchewan. The necessary machinery for disc-harrowing has been purchased, and it is hoped that all this area will be in shape for seeding by October 1. This breaking is said to be the equal of any work of this kind ever done in Alberta or Saskatchewan.

Live Stock.—Three hundred and eighty-four stockers and one hundred and fifty sows have been bought from the greater production funds. Thirty stockers and one hundred and nineteen heifers have been bought on account of the Indians themselves from their trust funds. Mr. Graham is personally looking after the purchase of the stock.

A very serious situation existed this year in Alberta owing to the shortage of feed for stock. Commissioner Graham succeeded in locating in the neighbourhood of 30,000 tons of hay on the Indian reserves in the northern part of the province, as a result of which it is estimated that fifteen thousand head of cattle will be saved. The greater portion of this hay was not cut in former years.

The agricultural operations of the Indians of the Maritime Provinces are not very extensive, but they are showing greater interest in farming from year to year, and their production is increasing.

There is an annual parliamentary appropriation for Nova Scotia and also for New Brunswick for the purchase of seed-grain, and the encouragement of agriculture among the Indians. Assistance is also given to individual farmers where required in Prince Edward Island.

The Indians living in agricultural districts in the province of Quebec are taking a much greater interest in farming, especially in the Ristigouche, Pointe Bleue, St. Regis, Maniwaki, and Oka agencies.

Marked progress is being made by the Indians of British Columbia in agricultural pursuits, and great improvement is shown in the quantity and quality of their produce.

SESSIONAL PAPER No. 27

The Indians of British Columbia receive advice and instruction in the control of fruit and field pests, the control of weeds, pruning and grafting, general horticulture and agriculture, and stock-raising, especially the economic raising of pigs on rough lands.

It is reported that in most parts of the province the orchards are singularly free from pests and diseases. According to reports received, there is every prospect that the Indians of British Columbia will become expert practical fruit growers and farmers. The efforts of the Indians of the Kamloops, Lytton, and Kootenay agencies are particularly noticeable. The Carriers of the Stuart Lake agency, who are located in the northern part of the province, in what is quite a new country in an agricultural sense, are making remarkable progress in farming. On the coast the Indians are rapidly realizing the necessity of cultivating the soil in view of the constant depletion from year to year in the supply of game and fish foods.

It is noteworthy that the destructive "fire blight," so prevalent in some parts of the province, was not found in any of the Indian orchards.

The encroachment of noxious weeds is more serious, but energetic efforts are being made to eradicate this pest.

The Indian orchards suffered from a most destructive ice storm, which in December last swept the Agassiz and Chilliwack districts on both sides of the Fraser, and extended nearly to the coast at Howe sound, partially or totally destroying every orchard in this area. This storm, however, was not without benefit to the Indians, as it afforded an opportunity of removing much superfluous wood from the old orchards, and grafting good varieties on much worthless stock.

There is a marked increase in the number of pigs. The Indians are beginning to realize the profitable nature of this industry in a district where grain and roots can be grown in profusion.

Every effort is being made by the department's officers in British Columbia to further the campaign for increased production and to stimulate the "win the war" spirit among the Indians.

The following table shows an increase in the land under crop, production, and value of the products, as compared with last year.

Province.	Population:	Land under crop.	Grain.	Roots.	Hay.	Value of farm products including hay.
		Acres.	Bushels.	Bushels.	Tons.	\$

*Not including 5,292 Indians in Yukon and Northwest Territories.

THE INDIANS AND THE WAR.

As I have stated in previous reports, the Indians throughout the Dominion have displayed a keen interest in the progress of the war ever since its outset, and they have given ample evidence of their loyalty by voluntary enlistment in the overseas forces and generous contributions to the patriotic and other war funds.

Enlistment.—The number of enlistments among the Indians in proportion to their population is remarkably large. More than 3,500 enlistments of Indians have been recorded by the department. This number represents approximately 35 per cent of the Indian male population of military age resident in the nine provinces. It must be remembered, moreover, that undoubtedly many Indians have enlisted of whom the department has no definite information.

The Indians have indeed established for themselves a magnificent record, which should place their race high in the esteem of their fellow-countrymen and our Allies. The manner in which the Indians have responded to the call to the colours appears more especially commendable when it is remembered that they are wards of the Government, and have not, therefore, the responsibility of citizenship, that many of them were obliged to make long and arduous journeys from remote localities in order to offer their services, and that their disposition renders them naturally averse to leaving their own country and conditions of life.

Undoubtedly the experience and knowledge of the world and its affairs which will be gained by these Indian soldiers will, upon their return from the war, exert a progressive influence upon life on the reserves.

As an inevitable result of the large enlistment, many gallant Indian soldiers have died on the field of honour fighting for the Empire, and the civilization of which they have so recently become a part.

DECORATIONS.

A posthumous award of the Military Medal was made to the late Corporal Thomas Godchere, of the Long Lake band, in the Fort William agency. Corporal Godchere, who was killed at Vimy Ridge, had rendered splendid service as a sniper. He is the third Indian from this agency to be awarded the Military Medal, the other two being Private Augustine Belanger, who was killed in action in 1917, and Private Joe Delaronde.

The Indians of the Okanagan agency have made a splendid response to the call for volunteers, particularly among the members of the Head of the Lake band. It is reported that every unmarried able-bodied male member of this band between the ages of twenty and thirty-five is on active service. One of these Okanagan Indians, Private George McLean, performed an extraordinary feat of valour at Vimy Ridge, in recognition whereof he was awarded the Distinguished Service Medal for conspicuous gallantry in action. Private McLean, single-handed, with a dozen bombs killed nineteen Germans and captured fourteen. He was himself seriously wounded.

Lance-Corporal Johnson Paudash, of the 21st battalion, a Mississagua of Rice Lake, was awarded the Military Medal for saving life during a heavy bombardment, and giving information to the brigade that the enemy at Hill 70 was massing for a counter-attack, which took place just twenty-five minutes later. It is reported that Lance-Corporal Paudash has also been recommended for the Distinguished Conduct Medal for saving an officer's life at the battle of the Somme. He enlisted in August, 1914, and was in every battle from Loos to Passchendaele. Like many other Indian soldiers he excels as a sniper, and as such is reported to have killed eighty-eight Germans.

Andrew William Anderson, of Gordon's reserve, in the Touchwood agency, was awarded the Military Medal for conspicuous gallantry in action.

Capt. A. G. E. Smith, a Six Nation Indian, of Brantford, was awarded the Military Cross.

SESSIONAL PAPER No. 27

Privates O. Barron and A. W. Anderson, of the 107th Battalion, have been awarded Military Medals, and several other Indian members of this unit have also been recommended for decoration.

I have reason to believe that in addition to those mentioned above, several other Indians have been decorated, but owing to the lack of definite information with regard to these cases, I am unfortunately unable to cite them in this report.

EXEMPTION.

For the reasons which are set forth in an Order in Council dated January 17, 1918, it was decided that Indians should be exempted from combatant service under the Military Service Act. The Order in Council reads as follows:—

“Whereas Petitions and memorials have been received from and on behalf of Indians pointing out that in view of their not having any right to vote, they should, although natural born British subjects, not be compelled to perform military service, and that in the negotiations of certain treaties expressions were used indicating that Indians should not be so compelled, an instance of this recently brought forward being the expression of the Lieutenant-Governor in negotiating the North West Angle Treaty as it appears in the despatch of the 14th of October, 1873, quoted in Morris; Treaties of Canada with Indians, pp. 50 and 69.

Regulations.

“18a. Any Indian Agent may make application for the exemption of any Indian attached to the Reserve over which such agent has jurisdiction and it shall not be necessary for the Registrar to assign to a local tribunal any application made or transmitted by an Indian Agent on behalf of an Indian, but the Registrar shall forthwith issue to such Indian and transmit to the Indian Agent for delivery to him a certificate of exemption from combatant military service. In the event of any man thus exempted from combatant military service being hereinafter called upon to perform any military duty he may then put forward any claim for exemption even from non-combatant service which he may then have.”

PENSIONS, ASSIGNED PAY AND SEPARATION ALLOWANCE.

The department has assumed the responsibility of administering all estates of deceased soldiers.

The Director of Military Estates transfers all effects, balance of pay, etc., to the department, where steps are taken to effect proper and fair distribution.

The separation allowances and assigned pay are also administered by the department in all cases where the recipients might not be in a position to deal with the full allowances themselves.

In such instances pensions are also paid to the department in trust, and are expended for the benefit of the pensioners. In many cases it has been found possible to fund part of the pension for the use of the children, when they come of age. The department in these cases is willing to provide free schooling so that the pupils, when they are of age to start out in life, will do so with a substantial balance to their credit.

Between 200 and 300 cases are now under the supervision of the department, and the utmost care is being taken to assure to the dependents of deceased Indian soldiers, by careful oversight and administration, the full benefit of all pension and military allowances.

The department has kept as complete a list as possible of all Indian enlistments, and is thus able to see that the dependents of Indians overseas are not allowed to suffer through the absence of the wage earners.

NATIONAL REGISTRATION.

The national registration of Indians was conducted with very little difficulty, and practically all those Indians living in the more settled parts of the country have been registered. On a few of the reserves the Indians were to a certain extent mistrustful of the measure, as they did not fully comprehend its purpose, but this misunderstanding did not lead to any serious inconvenience or delay.

In the remote regions of the Far North, such as at Isle à la Croix, Treaty No. 8, and the Mackenzie River district, and the northern portion of the Lesser Slave Lake district, it was considered impracticable and unnecessary to register the Indians, and in consequence no attempt was made to do so.

In certain parts of British Columbia and on the north shore of the lower St. Lawrence the registration has not yet been completed, owing to transportation difficulties and the consequent delay in the delivery of the cards. The registration in these parts is now being taken, and will be completed as soon as possible.

CONTRIBUTIONS TO PATRIOTIC AND OTHER WAR FUNDS.

The Indians throughout the Dominion since the beginning of the war have contributed very generously in proportion to their means to the Patriotic, Red Cross, Belgian Relief, and other war funds. The following list gives a detailed statement of the Indian contributions up-to date to the various funds in each province. Of these contributions the amount of \$5,279.65 has been received since the publication of my last report.

<i>Ontario.</i>		<i>Manitoba.</i>	
Chippewas of Beausoleil on Christian Island	\$ 100 00	Sioux Indians, Oak River	\$ 101 00
Cockburn Island	200 00	Indians of Rosseau River	9 60
Sucker Creek	500 00	Oak River Indians	51 00
Sheguiandah	500 00	Peguis	650 00
Manitoulin Island	500 00		<hr/>
Chippewas of Sarnia	200 00		\$ 811 60
Sheshegwaning Band	1,000 00		
Chippewas of Saugeen	500 00	<i>Saskatchewan.</i>

In addition to the foregoing, various contributions were offered amounting to \$8,750, which the Department was unable to authorize owing to the financial position of the bands in question.

GENERAL REMARKS.

Many Indians from the remote northern districts of Patricia and James Bay have journeyed to civilization for the express purpose of enlisting for overseas service. Particular attention has been drawn to the case of one of these Indians, Private William Semia, who was wounded in France last fall. Private Semia came to Port Arthur from lake St. Joseph, in the Patricia district, to enlist, having walked the entire distance of over 500 miles. When he arrived at the barracks he was unable to speak a word of English, but after a few months training he became one of the smartest soldiers in the battalion, and was often detailed to drill a platoon. He is now in a military hospital in France.

More than 500 Indians went overseas with the 107th Battalion under the command of the late Lieut.-Col. Glen Campbell, of Winnipeg, formerly Chief Inspector of Indian Agencies. Among these were Tom Longboat, Joe Keeper, and A. Jamieson, the famous Indian long-distance runners. Two of these Indians, Lieut. Moses and Lieut. Martin, received commissions with the battalion after leaving England, and are now with the royal Flying Corps. Several others are qualifying for commissions. Privates O. Barron and A. W. Anderson of this battalion have been awarded military medals, and several have been recommended for decorations.

SESSIONAL PAPER No. 27

Special mention must be made of the Chippewas of Nawash, Chippewas of Cape Croker, Chippewas of Rama, Chippewas of Saugeen, Chippewas of Georgina and Snake Island, the Mississaguas of Scugog, the Ft. William Band and the Moravians of the Thames in Ontario; the Micmacs of Prince Edward Island; the Cote band, in the Pelly agency, Saskatchewan; and the Head of the Lake band, in the Okanagan agency, British Columbia; as these bands have sent to the front practically all their able-bodied male members of military age. In the case of the Mississaguas of Scugog, every adult male member of the band is overseas, with the exception of one old man, who is over sixty-five years of age. These are records which cannot be surpassed by any community in the Dominion.

As I have stated in previous reports, many of the Indians are excellent snipers, and their remarkably fine work in this branch of the service has evoked a great amount of comment and admiration.

The department continues to receive many interesting letters from Indians at the front, which are in many cases particularly well written and permeated throughout with a splendid spirit of loyalty, courage, and cheerfulness.

The Indian women are rendering valuable service in Red Cross work, knitting socks, mufflers, and supplying various comforts for the soldiers. On a number of the reserves they are operating branches of the Red Cross with great success.

The Indian Women's Patriotic League, on the Six Nation reserve, at Brantford, which corresponds to the Women's Canadian Club in white communities, was established shortly after the beginning of the war, and its work has been carried on with great efficiency.

A number of Indians hold commissions, and there are many non-commissioned officers. The majority of the officers of D. Company, 114th Battalion, are Six Nation Indians.

I regret to report that Captain John R. Steacy, of Caughnawaga, one of the gallant Indian officers mentioned in my report for 1916 has been killed in action. Captain Steacy went to the front as a lieutenant, and his abilities subsequently won for him his promotion. Between forty and fifty Indians from the Caughnawaga reserve have gone overseas.

There are a number of Indian prisoners in Germany, and in each case where the name and address is available, a monthly parcel is sent from the Department.

John Campbell, a full-blooded Indian from the far north, travelled three thousand miles by trail, canoe, and river steamer this summer to enlist in the Canadian Expeditionary Force at Vancouver. He started from the Arctic Coast near Herschel Island and proceeded by foot to the head of the Porcupine river, and thence to Fort Yukon, where he worked several months to secure the means of transportation to Vancouver.

AMENDMENTS TO THE INDIAN ACT.

A number of amendments to the Indian Act were passed in the spring of 1918, the more important of which are quoted, with explanatory remarks, hereunder:—

Section 90 is amended by adding thereto the following subsections:—

(2) In the event of a band refusing to consent to the expenditure of such capital moneys as the Superintendent General may consider advisable for any of the purposes mentioned in subsection 1 of this section, and it appearing to the Superintendent General that such refusal is detrimental to the progress or welfare of the band, the Governor in Council may, without the consent of the band, authorize and direct the expenditure of such capital for such of the said purposes as may be considered reasonable and proper.

9 GEORGE V, A. 1919

(3) Whenever any land in a reserve whether held in common or by an individual Indian is uncultivated and the band or individual is unable or neglects to cultivate the same, the Superintendent General, notwithstanding anything in this Act to the contrary, may, without a surrender, grant a lease of such lands for agricultural or grazing purposes for the benefit of the band or individual, or may employ such persons as may be considered necessary to improve or cultivate such lands during the pleasure of the Superintendent General, and may authorize and direct the expenditure of so much of the capital funds of the band as may be considered necessary for the improvements of such land, or for the purchase of such stock, machinery, material or labour as may be considered necessary for the cultivation or grazing of the same, and in such case all the proceeds derived from such lands, except a reasonable rent to be paid for any individual holding, shall be placed to the credit of the band: Provided that in the event of improvements being made on the lands of an individual the Superintendent General may deduct the value of such improvements from the rental payable for such lands.

It is not the intention of the new subsection 2 of section 90 quoted above to deprive a band of its right to determine whether funds should be expended in the purchase of land as a reserve for a band or as an addition to its reserve, or in the purchase of cattle for the band or in the construction of permanent improvements upon the reserve, or any work upon the reserve which would be of a permanent value to the band or which when completed would represent capital. The purpose of the amendment is to deal with cases wherein the council of a band, through some delusion, misapprehension or hostility, acts in a manner contrary to the best interests of the band, and refuses to sanction expenditures which the Governor in Council may consider necessary for the welfare and progress of the band, as, for example, some permanent improvement such as a drainage system. The need for expenditure which would greatly increase the productiveness of the soil is particularly emphasized at the present time.

The new subsection 3 of section 90 above quoted is particularly intended to assist in expediting the campaign for greater production. In the western provinces there are large areas of land on Indian reserves capable of pasturing cattle or producing wheat, and it is desired that all obstacles to the utilization of these lands should, in as far as possible, be removed. In the eastern provinces there are individuals holding land on reserves who prefer to work in various manufacturing industries rather than cultivate the soil. This new subsection will enable the Superintendent General to have lands of this class devoted to greater production, which will at once serve the national interests and also be of benefit to the band or individual Indian concerned.

Section 92 as amended by 4-5 Geo. V, c. 35, s. 6, is amended by adding thereto the following subsection:—

(f) May make by-laws for the taxation, control and destruction of dogs and for the protection of sheep, and such by-laws may be applied to such reserves or parts thereof from time to time as the Superintendent General may direct.

And is further amended by adding thereto the following:—

(3) In any regulations or by-laws made under the provisions of this section, the Superintendent General may provide for the imposition of a fine not exceeding thirty dollars or imprisonment not exceeding thirty days, for the violation of any of the provisions thereof.

The department has received frequent complaints from farmers residing in the neighbourhood of Indian reserves, and also from municipalities, regarding the damage done to sheep and other stock by dogs belonging to Indians. Representations of a similar nature were received from the Departments of Agriculture of Ontario and New Brunswick. In view of the frequent and serious character of these complaints, it was considered desirable, both in the interest of the Indians themselves as well as

SESSIONAL PAPER No. 27

of the communities surrounding reserves, that the Superintendent General should be given authority to make by-laws for the control of dogs and for the destruction of unnecessary and vicious dogs, and for the protection of sheep.

The following section is inserted immediately after section 122:—

122A. (1) If an Indian who holds no land in a reserve, does not reside on a reserve, and does not follow the Indian mode of life, makes application to be enfranchised, and satisfies the Superintendent General that he is self-supporting and fit to be enfranchised, and surrenders all claims whatsoever to any interest in the lands of the band to which he belongs, and accepts his share of the funds at the credit of the band including the principal of the annuities of the band to which share he would have been entitled had he been enfranchised under the foregoing sections of the Act, in full of all claims to the property of the band, or in case the band to which he belongs has no funds or principal of annuities, surrenders all claims whatsoever to any property of the band, the Governor in Council may order that such Indian be enfranchised and paid his said share if any, and from the date of such order such Indian, together with his wife and unmarried minor children, shall be held to be enfranchised.

(2) Any unmarried Indian woman of the age of twenty-one years and any Indian widow and her minor unmarried children, may be enfranchised in the like manner in every respect as a male Indian and his said children.

(3) This section shall apply to the Indians in any part of Canada.

The need of an amendment such as the above with regard to enfranchisement had been felt for some time. Prior to the passage of this amendment it was necessary for an Indian to be in possession of land on a reserve in order to become enfranchised under the Act. If the applicant did not happen to be in possession of land when his application was submitted he was obliged to secure a location from the council of the band. Among the more progressive bands the lands are all occupied, and there are no common lands from which locations could be given, and the enfranchisement, therefore, of individual Indians without lands was impossible. There are Indians from such bands who earn their living at various industries in towns and cities, and who would be glad to be enfranchised without claiming any land on the reserve whatsoever. These Indians have demonstrated their ability to support themselves and to exercise the rights and privileges of enfranchised persons, and it was, therefore, considered undesirable that their enfranchisement should be longer obstructed.

REAL AND PERSONAL PROPERTY.

The following table shows a steady and substantial increase from year to year in the value of the real and personal property of the Indians:—

	1916.	1917.	1918.
Total value of lands in reserves.....	\$ 45,356,045	48,057,758	\$ 49,782,695
Value of private fencing.....	1,227,008	1,273,120	1,288,532
Value of private buildings.....	4,365,362	4,551,097	4,616,745
Value of public buildings, property of the band.....	1,211,772	1,236,805	1,181,987
Value of implements and vehicles.....	1,471,302	1,540,407	1,581,080
Value of live stock and poultry.....	3,680,092	3,998,663	4,471,945
Value of general effects.....	884,256	955,806	1,020,042
Value of household effects.....	1,240,212	1,272,259	1,342,086
Total value of real and personal property.....	59,436,089	62,885,915	65,285,112

9. GEORGE V, A. 1919

The following table shows a marked increase in the per capita value of the real and personal property of the Indians by provinces during the past three years:—

Province.	1916.	1917.	1918.
	Value per capita of real and personal property.	Value per capita of real and personal property.	Value per capita of real and personal property.
	\$ cts.	\$ cts.	\$ cts.
Alberta.....	1,655 20	1,852 05	2,058 18
British Columbia.....	686 41	687 03	666 47
Manitoba.....	259 80	270 04	288 86
New Brunswick.....	118 60	119 30	119 85
Nova Scotia.....	110 31	114 74	121 02
Ontario.....	331 42	332 38	342 26
Prince Edward Island.....	147 17	155 62	154 85
Quebec.....	206 76	208 92	212 42
Saskatchewan.....	1,234 82	1,286 88	1,317 48
Average.....	593 79	624 45	658 10

It will be observed that there has been an increase per capita of \$64.31 since 1916 which evidences a remarkable betterment in the material welfare of the Indians during the past two years. This improvement is particularly noticeable in the provinces of Saskatchewan and Alberta.

Further detailed statistics of real and personal property will be found under the heading table 5, Part II of this report.

SOURCES AND VALUE OF INCOME.

The following table shows the sources and value of the income of the Indians in the years 1917 and 1918, respectively:—

	1917.	1918.
Value of farm products, including hay.	\$2,351,807 00	\$2,834,149 00
Value of beef sold, also of that used for food.	346,792 00	388,885 00
Wages earned.	1,748,588 00	2,043,137 00
Received from land rentals and from timber.	109,743 00	137,088 00
Earned by fishing.	721,988 00	823,298 00
Earned by hunting and trapping.	908,216 00	945,527 00
Earned by other industries and occupations.	677,163 00	690,595 00
Annuities paid, and interest on Indian Trust funds.	436,189 00	555,628 10
Total income of Indians.	\$7,300,486 00	\$8,418,307 10

The above table shows the very remarkable increase of \$1,117,821.10 since last year. The increases in the value of farm products and the wages earned are particularly gratifying.

The following table showing the sources and value of the income of the Indians in the years 1915 and 1916 taken into consideration with the table shown above shows a constant increase from year to year.

	1915.	1916.
Value of farm products, including hay.	\$1,813,619 00	\$2,246,507 00
Value of beef sold, also of that used for food.	309,506 00	307,779 00
Wages earned.	1,419,244 00	1,530,373 00
Received from land rentals and from timber.	81,160 00	117,126 00
Earned by fishing.	586,781 00	665,528 00
Earned by other industries and occupations.	632,118 00	593,298 00
Earned by hunting and trapping.	654,501 00	790,880 00
Annuities paid, and interest on Indian Trust funds.	430,665 52	450,496 41
	\$5,927,594 52	\$6,691,993 41

SESSIONAL PAPER No. 27

It will be observed from these tables that there has been an increase of upwards of two and one-half millions of dollars in the income of the Indians during the past four years, which is very gratifying.

The following table shows the per capita income of the Indians by provinces in the years 1915, 1916, 1917, and 1918:—

Province.	Per capita income of Indians, 1915.	Per capita income of Indians, 1916.	Per capita income of Indians, 1917.	Per capita income of Indians, 1918.
	\$ cts.	\$ cts.	\$ cts.	\$ cts.
Alberta.....	57 93	75 29	96 39	106 17
British Columbia.....	64 57	67 34	74 56	70 73
Manitoba.....	54 72	62 10	64 34	66 43
New Brunswick.....	48 72	43 88	37 52	37 77
Nova Scotia.....	54 60	59 03	62 24	64 93
Ontario.....	66 51	74 77	70 20	98 66
Prince Edward Island.....	28 56	37 17	70 90	35 00
Quebec.....	42 36	42 73	54 90	66 27
Saskatchewan.....	71 13	79 84	90 51	111 38
	60 48	66 74	72 49	84 59

It will be noted that since 1915 there has been an increase of nearly 100 per cent in the income of the Indians of the province of Alberta, and nearly 60 per cent in Saskatchewan, clearly indicating that the Indians of the prairie provinces are rapidly adapting themselves to the industries of civilization.

Further statistics with regard to the sources and value of income will be found in table 6, Part II.

EDUCATION.

By education, the department endeavours to give the rising generation of Indians such training as will make them loyal citizens of Canada and enable them to compete successfully with their white neighbours.

In the day schools, the course of studies prescribed for the provincial public and separate schools is strictly followed, and, in this way, Indian pupils can be prepared for the entrance examination.

In the residential schools, there is opportunity for a broader education than in the day schools. Particular attention is given to the class-room work, and, in addition, the girls are taught domestic science, sewing, etc., while the boys receive instruction in farming, care of stock, and, in many schools, some useful trade.

Qualified teachers with professional training are employed wherever possible, but, in some cases, qualified teachers cannot be secured, owing to the remoteness of some Indian schools. The department has in its employ a number of teachers, who, though without professional training, have had a long experience in Indian work, and these prove quite successful.

By arrangement with the Education Departments of the provinces of Ontario, Quebec, Nova Scotia, and Prince Edward Island, Indian schools are inspected semi-annually by the provincial public and separate school inspectors. In British Columbia and New Brunswick, the Indian schools are inspected by officials appointed by the department. In the other provinces, the inspectors of Indian Agencies visit the schools and report regularly to the department. In addition, Indian agents are expected to visit monthly the schools in their agency and submit a report.

9 GEORGE V, A. 1919

At practically all the residential schools, there is a large acreage under cultivation. At many of the day schools, also, school gardens are conducted. The pupils are thus enabled to receive a first-hand knowledge of agriculture, which should prove of great use to them in after life.

There were 339 schools of all classes in operation during the year, namely, 264 day, 58 boarding, and 17 industrial schools.

As compared with the previous year, there is a decrease of two schools, one day school less and one boarding school less, being in operation.

The total enrolment for the year was 12,413 pupils—6,211 boys and 6,202 girls.

As compared with the last fiscal year this shows an increase of 235 pupils—44 boys and 191 girls.

The days schools had an enrolment of 7,721 pupils, the boarding schools 3,011 and the industrial schools 1,681.

The average attendance during the year was 7,878, being a decrease of 417, in comparison with the previous year. The percentage of attendance was 63.46, while in the previous year it was 68.03.

In addition to the above about 75 Indian children, most of them orphaned or neglected are being cared for and educated in different public and private residential institutions throughout the Dominion.

The schools in operation during the year were conducted under the following auspices: Undenominational, 56 day and 2 industrial; Roman Catholic, 87 day, 32 boarding, and 8 industrial; Church of England, 75 day, 17 boarding, and 3 industrial; Methodist, 38 day, 3 boarding, and 4 industrial; Presbyterian, 6 day and 6 boarding; Salvation Army, 2 day.

In the western provinces, the department has a system of assistance for those ex-pupils of boarding and industrial schools who are reported to be deserving. Upon leaving school a male ex-pupil may be given a grant of cattle, horses, implements, tools, and building material. Female ex-pupils are granted sewing machines or household furniture. The encouragement thus given to the best ex-pupils has proved to be a great stimulus to progress, and although there are exceptions, the majority of ex-pupils show the benefits they have obtained from their education.

During the past fiscal year fifteen female and thirteen male ex-pupils have been assisted to the extent of \$3,176.48, and refunds to the extent of \$2,226.97 have been received.

The expenditure on Indian education from parliamentary appropriations during the past fiscal year amounted to \$734,112.33. This is practically the same as last year, when \$733,768.09 was expended. Expenditures for new buildings and repairs to old buildings have been curtailed to as great an extent as possible since the commencement of the war. Owing to the increase in the cost of living the department has found it necessary to increase the salaries of many of the day-school teachers.

The following statement shows the expenditure for the fiscal year ended March 31, 1918, for Indian education, from parliamentary appropriation:—

Province.	Day Schools.	Boarding Schools.	Industrial Schools.	Ex-pupils.	Travel and Salaries.	Tuition.	Freight Expenses.	Miscellaneous.	Total.
Ontario.....	\$ 24,923 39	\$32,525 80	\$ 49,545 53		\$ 2,888 97	\$ 1,047 34	\$ 827 65	\$ 3,297 53	\$ 115,056 21
Quebec.....	25,348 39				2,533 13	4,764 17	269 54	5,548 94	38,464 17

9 GEORGE V, A. 1919

In addition to the above, the various bands of Indians, whose funds are sufficient to meet the outlay, contributed the sum of \$29,340.70 towards the payment of teachers' salaries and the maintenance of school buildings on their reserves. For the fiscal year ended March 31, 1918, the amounts so contributed have been as follows:—

Account No.	Band.	Interest.		Capital.	
		\$	cts.	\$	cts.
1	Ojibbewas of Batchawana.....	466	90		
2	Chippewas of Beausolief.....	425	22

246	Ojibbewas of Shegiwandah.....	303	00		
247	Ojibbewas of Sheshewganing.....	802	86	952	00
248	Ojibbewas of South Bay.....	350	00		
251	Ojibbewas of West Bay.....	387	30		
		26,503	35	2,837	35
	Total.....			29,340	70

The amount expended from interest represents current expenses, while the expenditure from capital was an outlay for new buildings.

The expenditure by the religious denominations engaged in Indian educational work is not known.

At the request of the directors, an exhibit of Indian school work was made at the Central Canada Exhibition held at Ottawa in September. Only limited time was allowed for preparation and, for this reason, the exhibit was not as large as might have been secured. However, a most creditable display of sewing, writing, drawing, and other school work was made, and our exhibit elicited a great deal of favourable comment. A more complete exhibit is contemplated for next year.

A comprehensive statistical statement will be found in Part II of this report showing the enrolment and attendance at all classes of schools.

BUILDINGS.

It is the policy of the department to replace old boarding and industrial schools by modern structures, with complete sanitary equipment, and to erect new agency and farm buildings where these are necessary for the efficient carrying on of the work. During the past few years, however, the limited appropriation at the disposal of the department has prevented the erection of new buildings to any extent. This year no new school buildings have been undertaken, the appropriations being used in repairs to existing buildings requiring them.

SESSIONAL PAPER No. 27

ROADS, BRIDGES AND DRAINAGE.

The building of new permanent roads and bridges, and the maintaining in good condition of the main thoroughfares crossing reserves, entails considerable expenditure, the cost of up-keep now being greater owing to the increased traffic of heavily loaded motor vehicles.

This traffic also necessitates the strengthening of bridges to carry these increased loads safely. In addition to these necessary repairs, new concrete bridges have been built on the Tuscarora reserve, Six Nations reserve, Ontario, and Caughnawaga reserve, Quebec; also a concrete steel bridge on the Oneida and Tuscarora reserves, and two wooden bridges on Walpole island, Ontario. Plans and specifications have also been prepared for two bridges on the Caradoc reserve, the construction of which have not yet been commenced. Drains of considerable extent, with retaining walls, are being put in on the Caughnawaga reserve to prevent flooding of land and the easy flow of surface water to its natural outlet.

The water supply system has been extended at the Kootenay Industrial school, and septic tank and drainage systems have been undertaken at several points where these were necessary to prevent contamination of water supplies.

Drainage systems have also been established on several of the reserves during the year.

Drainage work is being carried on at the Six Nations reserve, where over 30 miles of open ditches, comprising a drainage basin of about ten thousand acres are being constructed. Drains are also being constructed at Rice Lake, Muncey, Moravian, Walpole Island, Sarnia, and Kettle Point reserves. The surveys, etc., are made free of charge to the Indians. Tile drains are also being put down at Muncey, Moravian, Six Nations, and Sarnia reserves.

SURVEYS.

Quebec.—An inspection was made, and also valuations of damages, to certain flooded lands at Caughnawaga injured by the waters held back by the Canadian Pacific Railway embankment.

Ontario.—A survey was made of a portion containing 18.18 acres of reserve No. 16-A at the west end of Rainy lake for the purpose of being leased for the use of the Fort Frances boarding school.

An inspection was made in the Sarnia Indian reserve for the purpose of obtaining information regarding the new bridge to be built over Telford creek.

A survey and plans of two drains were made to be constructed in the Stony Point and Kettle Point Indian reserves.

Two bridges and several drains in the Six Nations Indian reserve were examined, and instructions given for their repair.

The limits of the Glebe lot near Brantford were defined by survey.

Two large culverts in the Muncey Indian reserve were examined, and instructions given for their re-construction.

The improvements were surveyed and the lands selected for a reserve for the Indians at Moose point, Georgian bay.

New agricultural drains have been surveyed and constructed at Rice Lake, Tuscarora, Muncey, Sarnia, Kettle Point, and Stony Point.

Manitoba.—The surrendered portion of the Long Plain Indian reserve No. 6 was surveyed, and the different quarter-sections valued for the purpose of their sale.

A survey of the limit of the Brokenhead Indian reserve across section 24, township 16, range 6, east Principal meridian, was made defining the limits of the swamp lands in order to prevent further misunderstanding in connection with the cutting of hay.

A survey was made to readjust the limits of the Battle Lake Indian reserve No. 61-B received in exchange for land flooded in reserve No. 61-A.

A re-survey was made to obtain data required for the registration of plans of the surrendered lands in townships 14 and 15, ranges 5 and 6, east Principal meridian, in the St. Peters Indian reserve.

Saskatchewan.—A survey was made of the cemetery lot and road leading thereto in the S.W. $\frac{1}{4}$ section 11, township 30, range 32, west First meridian, in the Cote Indian reserve.

British Columbia.—The Cheakamus Indian reserve, New Westminster Agency, No. 11 of the Squamish band was divided into blocks for the purpose of issuing timber leases.

The limits of Indian reserve No. 13 of the Squamish band having become obliterated, were re-traced and re-posted.

A re-survey was made of a disputed limit of the Penelakut Indian reserve No. 2 on Galiano island to ascertain whether certain Indian houses had been built off the reserve on the adjoining property.

LANDS AND TIMBER.

Sales of surrendered, surveyed lands are shown in the tabular statement No. 1, herewith, and during the past year 34,544.96 acres were sold, realizing \$136,230.98.

During the year 308 Crown grants were issued and recorded under the provisions of the Indian Act, and forwarded either direct to the patentees or to the different registrars of Titles for the districts in which the lands patented were situate, in accordance with the Land Titles Act.

Returns of Crown grants to the number of forty-one were prepared and forwarded to the registrars of the counties and districts in which the lands patented were situate, and four returns were made to the Provincial Secretary of Ontario covering lands patented within that province.

The unsold lands on the Blackfoot Indian reserve were offered for sale by public auction at Gleichen, on the 6th of June, 1917, and 55,327.70 acres were sold in quarter-sections, realizing \$1,276,190.92.

The unsold lands in the townships of Pedley, Beaucage, and Commanda, and the surrendered portions of the Nipissing Indian reserve were offered for sale by public auction at North Bay on the 27th of June, 1917, and there were sold 9,911.42 acres, realizing the sum of \$43,417.75. A second sale of the lots remaining unsold on this reserve was held, by public auction, at Sturgeon Falls, on the 10th of October, 1917, at which sale 2,461 acres were sold, realizing \$13,601.13. In November, 1917, the remaining unsold lots in these townships were placed in the hands of the local Indian Agent, at Sturgeon Falls, for sale at upset prices and subject to the usual terms.

On the 15th of October, 1917, the Fort William Band of Indians surrendered certain parcels of land on the Fort William reserve, comprising an area of 270.1 acres, to be disposed of to the corporation of the city of Fort William for park purposes, for the sum of \$25,000, and the granting of certain privileges in connection therewith to the Indians.

On the 8th of September, 1917, five lots in the township of Mills, and three lots in the township of Burpee, were offered for sale by public auction at Gore Bay, and were sold for the sum of \$6,050.

LOCATION TICKETS.

Location tickets granting title under the provisions of the Indian Act to individual Indian owners for lands on their reserves were issued during the past year to the number of 148, and on the 31st of March last there were current 2,171 location tickets.

SESSIONAL PAPER No. 27

LEASES.

Under the provisions of section 11 of the regulations for the disposal of Indian lands, leases were issued in triplicate, to white men, at the request of Indian locatees to the number of 60, and on the 31st of March last there were 1,256 leases current.

TIMBER.

The quantity of timber cut on Indian reserves during the year 1916-17 was nearly 50 per cent greater than during the previous year.

The quantities cut under license and permit were:—

Pine	feet b.m.	8,898,996
Spruce	"	3,566,837
Hemlock	"	1,397,746
Other conifers	"	740,460
Maple	"	236,569
Other hardwoods	"	344,206
Other softwoods	"	486,212
Cordwood for munitions manufacture	cords.	1,776
Cordwood for fuel	"	4,823
Pulpwood	"	9,602
Shingle bolts	"	8,739
Ties	No.	26,825
Posts	"	13,566
Poles	"	1,189
Boom timber	cu. feet.	92,697

In addition to the above quantities the Indians cut approximately 14 million feet b. m. for building purposes, and 20,000 cords for firewood for their own use, besides a quantity of material suitable for the native manufacture of axe handles, baskets, and snow-shoe bows.

Cash receipts from the sale of timber during the year were:—

Bonus for timber on Reserve 26C Lake of the Woods	\$ 7,500 00
“ “ “ 23B “ “	10,000 00
Bonus for timber on Hope and Beckwith Islands	114,500 00
“ “ Reserve 35C Lake of the Woods	103,000 00
“ “ French River Reserve, Ont.	22,000 00
“ “ St. Croix Reserve, N.S.	600 00
Dues on timber cut under license	54,563 36
Dues on timber cut under permit	19,671 72
Trespass dues	254 30
Penalty dues	1,360 30
Ground rents and fees	1,461 00
Total	<u>\$334,910 68</u>

There were twenty-three licenses current April 30, 1918, being two more than in the previous year, one license having been cancelled, two terminated and five new ones issued.

The Indians of Ontario cut large quantities of material for the manufacture of shell boxes and chemical wood for the manufacture of acetone to be used as a solvent for gun-cotton.

Facilities have recently been afforded the Imperial Munitions Board whereby they might have access to spruce timber on Indian reserves in the province of British Columbia for the manufacture of aeroplanes, and it is expected that the Indians themselves will cut large quantities of the Sitka or silver spruce to be used for this purpose.

Estimates of timber and reports on land of twenty-one reserves have been prepared during the past year, the statistical data thus obtained being of great value in the administration of the resources of the Indians of these reserves.

Encouragement is being given to the Indians of Eastern Canada to cut hardwood for fuel purposes in order to assist in relieving the anticipated shortage of fuel for the forthcoming winter.

9 GEORGE V, A. 1919

SUMMARY OF INDIAN AFFAIRS IN THE VARIOUS PROVINCES BASED
ON THE REPORT OF THE DEPARTMENT'S AGENTS AND INSPEC-
TORS FOR THE FISCAL YEAR ENDED MARCH 31, 1918.

The local administration of the Indian lands, on the reserves scattered throughout the Dominion, is conducted through the department's agencies, of which there are in all 114. The number of bands included in the agency varies from one to more than thirty. The staff of an agency usually includes various officers in addition to the agent, such as medical officer, clerk, farm instructor, field matron, constable, stockman, etc., according to the special requirements of the agency in question. At many of the smaller agencies in the older provinces, where the Indians are more advanced the work is comparatively light, requiring only the services of an agent. The work of the agencies is supervised by the department's inspectors, each inspector having charge of a certain number of agencies.

ONTARIO.

Agencies.—The following agencies are included in the province of Ontario: Alnwick, Bay of Quinte, Cape Croker, Chapleau, Chippewas, Munsees and Oneidas of the Thames, Christian Island, Fort Frances, Georgina and Snake Islands, Golden Lake, Gore Bay, Kenora, Lake Superior (Eastern and Western Divisions), Manitowaning, Mississaguas of the Credit, Moravians of the Thames, Parry Sound, Rama, Rice and Mud Lakes, Sarnia, Saugeen, Scugog, Six Nations, Sturgeon Falls, Thessalon and Walpole Island.

Tribal Origin.—The great majority of the Indians of Ontario are Ojibwas, and are of Algonkin stock. The Oneidas of the Thames, the Mohawks of the Bay of Quinte, the Mohawks of the Parry Sound district, and the Six Nations of Brantford are of Iroquoian stock. There is a band of Pottawattamies at Walpole Island, and Delawares at the Caradoc agency; these are of Algonkin stock.

Occupations.—The principal occupation of the Indians in the eastern, central, and southern parts of the province is mixed-farming, including grain-growing, stock-raising, vegetable gardening, and dairying. There has been a great improvement during the past few years in their methods of cultivation, which is largely due to the work of the department's field agents.

An account of the part played by the Indians of Ontario in the campaign for greater production will be found on page 10. Statistics with regard to agricultural operations will be found on page 48, Part II. During the summer months the Indians find a profitable source of income in employment as guides and canoemen for tourists, surveyors, prospectors, and fire rangers. Some of them work as sailors and deckhands for navigation companies on the great lakes, and a number are employed on the railways in summer. In lumbering districts many of the Indians work in the lumber-shanties during the winter months, and at river-driving in spring, and in the mills in summer.

Many of the Indians who live in the vicinity of the centres of population are employed as day labourers in the various local industries, such as munition plants, canning factories, cement works, implement factories, oil refineries, iron works, box factories, brick and tile-making, flax pulling, etc.

Some of the Indian women are employed as domestics; and many of them derive a considerable income making fancy-work and baskets. At Rice Lake and Savanne some of the women and children engage in berry and wild-rice picking. The Indians still find a profitable source of income in the making of mitts, moccasins, snowshoes, and canoes.

About fifty Indians from the Fort William agency have gone West to help with the harvesting.

Health.—The health of the Indians of Ontario has, on the whole, been good during the past year. Tuberculosis is their worst enemy, and is responsible for many deaths among them each year.

SESSIONAL PAPER No. 27

There was an outbreak of smallpox among the Chippewas of Sarnia, but the cases were promptly isolated and quarantined, and the spread of an epidemic was prevented. There was a serious epidemic of measles this spring at the Fort Frances agency. This disease is much more dangerous to Indians than to whites.

Dwellings.—The great majority of the Ontario Indians have frame houses, which are in many cases well built and comfortable, and compare very favourably with those found in white communities. Some of the Indians have houses of stone or brick. At the Christian Island, Georgina and Snake Islands, Fort Frances, Gore Bay, Kenora, Savanne, Fort William and Sturgeon Falls agencies the majority of the houses are still of log construction. In the districts included in the Chapleau and Fort William agencies many of the Indians continue to live in tepees.

NEW ONTARIO.

Hunting and fishing are the chief sources of livelihood for the Indians of North-western Ontario and the James Bay district. Their only other source of income is acting as guides and canoeemen in the summer months. These northern districts are not suitable for agriculture, but the Indians are beginning to raise potatoes with some measure of success. These Indians live in tents throughout the year.

They are very subject to tuberculosis, although their health is otherwise good.

QUEBEC.

Agencies.—The following agencies are included in the province of Quebec: Becancour, Bersimis, Caughnawaga, lake St. John, Lorette, Maria, Mingan, Oka, River Desert, Ristigouche, Seven Islands, St. Francis, St. Regis, Timiskaming and Viger.

Tribal Origin.—The principal tribes found in Quebec are: Iroquois at Caughnawaga, lake of Two Mountains, and St. Regis; the Hurons of Lorette are also of Iroquoian stock; the Montagnais, who are also of Algonkin stock, at Bersimis, Mingan, lake St. John and Seven Islands; the Abenakis, also of Algonkin stock, at Becancour and St. Francis; the Micmacs, also of Algonkin stock, at Maria and Ristigouche; and the Malecites, also of Algonkin stock, at Viger.

Occupations.—In the agricultural districts of the province the Indians are displaying much keener interest in farming, and market gardening, and a marked improvement is observable in their methods of cultivation.

In the Gaspé peninsula and districts adjacent thereto, the Indians are chiefly employed in the lumber shanties. In the Maniwaki and North Timiskaming agencies also a number of Indians work in the shanties.

Many Indians from the Caughnawaga and Lake of Two Mountains agencies work in munition factories.

One of the principal industries among the Indians of this province is the making of ash and sweet-grass baskets. A number of them spend the summer in the country resorts in the United States, where they sell baskets to tourists. The Indians also make lacrosse sticks, axe handles, racquets, and moccasins. Some of them are employed as guides to tourists and canoeists.

Health.—On the whole the health of the Indians of Quebec has been good during the past year. In this, as in every other provinces, tuberculosis is the disease which more than any other threatens the health of the Indians. Epidemics of scabies and grippe affected all the Indians of the Seven Islands reserve, but without any very serious consequences. There was an epidemic of diphtheria in the Timiskaming agency, but no deaths resulted therefrom.

9 GEORGE V, A. 1919

Dwellings.—In the settled parts of the province, the great majority of the Indians live in houses of frame construction, which are as a rule comfortable and well built. Some of them have good stone houses. In the more remote northern district many of the Indians continue to dwell in tents.

THE NORTH SHORE.

The cod-fishing industry is being successfully developed among the Indians of Mingan, Natashkwan, Romaine, St. Augustine, and Moisie, under departmental supervision.

Although these Indians have always been considered of a naturally indolent disposition, they are rapidly becoming good fishermen, which is surprisingly satisfactory, in view of the arduous character of this industry as carried on in the Gulf, where the fisherman's working day begins at three o'clock in the morning, and the last operation of salting is not completed until evening.

I regret to state that the general health of the Gulf Indians has not been good during the past few years, and that in consequence their numbers are decreasing.

The Indians of these parts do scarcely any farming or gardening as the climate and soil are not suitable for agriculture. Some of them, however, are beginning to raise a few potatoes.

NEW BRUNSWICK.

Agencies.—There are three agencies in the province of New Brunswick, the Northeastern located at Buctouche, the Northern, located at Perth, and the Southwestern located at Fredericton.

Tribal Origin.—The majority of the Indians of New Brunswick belong to the Micmac race, which is of Algonkin stock. In addition to these there are some bands of Malecites, also of Algonkin stock.

Occupations.—In the northeastern division the Indians are engaged in fishing, hunting, trapping, and farming. A number work in the lumber woods during winter and at the lumber mills in summer. In the northern division the Indians work in the woods in winter, river drive in the spring, and are for the most part employed as farm labourers in the summer and fall. In the southwestern division the Indians support themselves chiefly by the sale of Indian wares. In all parts of the provinces the Indians are expert at making baskets, snowshoes, moccasins, and other Indian wares.

The Indians of this province are showing a greater interest in farming than formerly.

Health and Sanitation.—The health of the Indians has been good during the past year, with the exception of cases of tuberculosis. They are learning to pay more attention to sanitary conditions than in the past.

Dwellings.—The great majority of the Indians of New Brunswick live in small frame houses, which in most cases are well built and well cared for. A gradual improvement is observed from year to year in their dwellings and outbuildings.

NOVA SCOTIA.

Agencies.—The following agencies are included in the province of Nova Scotia: Yarmouth, Digby, Annapolis, Queens, Shelburne, Lunenburg, Kings, Halifax, Cumberland, Colchester, Pictou, Richmond, Victoria, Inverness, Antigonish-Guysboro, two in Hants county (Windsor and Shubenacadie), and two in Cape Breton county (Eskasoni and Shubenacadie).

Tribal Origin.—The Indians of Nova Scotia are Micmacs, and are of Algonkin stock.

SESSIONAL PAPER No. 27

Occupations.—The great majority of the Indians who reside on reserves in Nova Scotia are farmers in a small way. Their principal agricultural products are hay, potatoes, and garden vegetables. They also raise horses and cattle, but no sheep and very few pigs. Between seed-time and harvest many of them go abroad and find employment in diverse occupations as day labourers. Those who do not live on reserves occupy themselves to a great extent with the manufacture of axe-handles, pick-handles, hockey sticks, butter tubs, baskets of various kinds, etc. A certain class, including some who reside on reserves and some who do not, make lumbering in its various branches their chief occupation. They assist in cutting the timber in the forests, in conveying it to the saw-mills, and finally in converting it into boards, deals, scantling, shingles, laths, etc. At certain seasons of the year, hunting, trapping, and acting as guides for sportsmen are also favourite occupations of a certain number mostly of middle age.

Health and Sanitation.—Sanitary regulations are surprisingly well observed by these Indians, circumstances considered, and as a consequence an improvement in their general health is manifest. Tuberculosis is less prevalent than formerly. An epidemic of smallpox in neighbouring localities spread to Salmon River reserve last February; but as a result of prompt action by the municipal health officer, and of the strict observance by the Indians of quarantine and other necessary regulations, the disease was speedily subdued among them, and no deaths occurred.

Dwellings.—Most Indians in Nova Scotia live in small frame houses, well finished outside, but usually in the rough inside. However, the general tendency is decidedly towards improving their condition in this respect. Quite a number live in roomy, comfortable dwellings, well finished throughout and fairly well furnished.

Halifax Disaster.—The small settlement of Indians at Tuft's Cove suffered very heavily at the time of the Halifax disaster, as it is located almost directly opposite the point where the munition ship blew up. Eight of these Indians were killed, including one man, four women, and three children, and the teacher, Mr. George Richardson, was killed on the way to the Indian school. Nearly all the survivors received more or less severe injuries. They were left in an absolutely destitute condition. Their dwellings, household effects, and supplies of food and other necessaries were destroyed. The necessary relief has been provided by the relief commission at Dartmouth, and also in part by the department. I am glad to say that these Indians are now in fully as good circumstances as they were prior to the disaster.

PRINCE EDWARD ISLAND.

Agency.—One agency is sufficient for the purposes of the department in this province, as the total Indian population is only 292.

Tribal Origin.—The Indians of this province all belong to the Miemac tribe, which is of Algonkin stock.

Occupations.—Some of the Indians of Prince Edward Island work their land, but their principal occupations are fishing and basket-making. Some of the Indians own stock, which is of good quality, and well cared for.

The oyster fishing was this year a total failure, and the lobster fishing was less profitable than last season, and in consequence the income of the Indians has been reduced to a considerable extent.

The majority of the able-bodied men have gone to the front.

MANITOBA.

Agencies.—The following agencies are included in the province of Manitoba: Fisher River, Clandeboye, Norway House, Griswold, Portage la Prairie and Manitowapah, Pas and Birtle.

9 GEORGE V, A. 1919

Tribal Origin.—The majority of the Indians of Manitoba belong to the Ojibwa race, which is of Algonkin stock. Bands of Swampy Crees are found at the Norway House and Fisher River agencies and in the York Factory district; these are also of Algonkin stock. The Indians located at the Griswold agency are Sioux; there are also Sioux at the Birtle and Portage la Prairie agencies. There is a band of Chipewyans at Fort Churchill; this tribe is of Athapascan stock.

Occupations.—In the agricultural parts of the province, wherein are situated the Birtle, Griswold, and Portage la Prairie agencies, the chief occupation of the Indians is grain-growing. The Indians of the Portage la Prairie agency were very successful with their crops last year. One Indian of the Long Plain band, for example, had 2,800 bushels of wheat, which he sold at \$2.08 a bushel. Several others had upwards of 1,000 bushels of wheat. The Roseau River Indians were enabled to pay off a great part of their debts through the success of their farming operations last year. They have agreed to break 175 acres to assist the 1919 greater-production campaign, and the Indians of the Birtle agency have for the same purpose agreed to break 250 acres.

The Indians of the Pas agency were very successful last year with their stock and garden produce.

In the Clandeboye, Fisher River, Norway House, Pas, and Manitowapah agencies, and throughout the northern districts, the Indians continue to find their principal source of livelihood in hunting and fishing. The hunting and fishing Indians have not suffered from the increased cost of living, as the value of fish and fur has on an average since the beginning of the war been about double that during the five years prior to the war.

These Indians are expert guides and canoeemen and many of them find employment at this work, for which they receive good wages.

In the more settled districts many of the young men receive high wages as farm labourers. Some also are employed at road-work, in mines and on railway construction, and in most cases their services have been found very satisfactory by their employers. Some of the more educated Indians work as clerks for traders and merchants, and most of them have proved to be very efficient in their work. They are not so successful, however, when they undertake to trade independently, owing to their tendency to give credit to excess.

Some of the young women are skilled needle-workers, and earn a good living sewing for white settlers. A number also are employed as domestics. Among some of the bands the women derive a considerable income from the sale of willow baskets, rag and straw mats, moccasins, bead-work, senega root, and wild fruits.

The majority of the bands in the province raise stock.

Statistics of the agricultural operations of the Indians of Manitoba will be found on page 47, Part II, and of their stock holdings on page 53, Part II.

Health.—The health of the Indians throughout the province has been very good during the past year, and a marked improvement is observable. The Indians are learning to pay much greater attention to sanitation and personal cleanliness.

There is a marked difference between the methods of housekeeping followed on the reserves of the settled parts of the province and in the more outlying districts. At the Birtle agency, for example, the houses are furnished with good iron beds, sideboards, tables, chairs, and good kitchen utensils, whereas at the Pas agency the Indians in most cases still prefer to eat and sleep on the floor.

Dwellings.—Most of the Indian houses are of log construction. The Indians are expert axemen, and their log houses are usually well built and comfortable. The houses in the more northern districts are, however, still of a very primitive type, being roofed simply with poles and mud, and usually have only one room. In the more settled parts of the province the Indians are beginning to build frame houses. Many of the Manitoba Indians continue to live in tent during the summer months.

SESSIONAL PAPER No. 27

SASKATCHEWAN.

Agencies.—The following agencies are included in the province of Saskatchewan: Assiniboine, Battleford, Carlton, Crooked Lake, Duck Lake, Moose Mountain, Onion Lake, Pelly, Qu'Appelle, and Touchwood Hills.

Tribal Origin.—The most numerous tribes among the Saskatchewan Indians are the Ojibwas, Swampy Crees and Plains Crees, which all belong to the great Algonkin stock. In addition to these, Sioux Indians are found at the Assiniboine, Moose Mountain, Qu'Appelle and Carlton agencies, and on the Moose Woods reserve. In the Onion Lake agency there is a band of Chipewyans, who are of Athapascan stock. There are also a few Chipewyan Indians in the Isle à la Crosse district.

Occupations.—The principal occupations of the Indians of Saskatchewan are farming and stock-raising.

The great majority of the farming Indians are well provided with farm machinery and implements, and in most cases they take good care of them.

Statistics of their agricultural operations will be found on page 49, Part II, and of their stock holdings on page 60, Part II.

With very few exceptions the bands in this province own herds of horses and cattle. The Indians as a general rule care well for their stock, and some of it is of exceptionally fine quality.

Many of the Indians work for white farmers in the harvest season.

The Indians in this province derive considerable income from the sale of hay, wood, pickets, and senega root.

In the northern part of the province, hunting and fishing are still very important sources of income to the Indians. The fur catch has been very large during the past season, and the prices received for the pelts have been exceptionally high. The Indians of the Red Pheasant and Stony bands, of the Battleford agency, alone earned \$5,500 from the sale of furs in a period of one month.

Health.—The health of the Indians of Saskatchewan has on the whole been good during the past year, although there is always a considerable amount of tuberculosis and scrofula among them. There was a slight outbreak of small-pox in the Moose Mountain agency, but prompt and effective measures were taken to prevent it from spreading. There was an epidemic of whooping-cough at the Battleford agency, which resulted in three deaths. This disease is much more dangerous to Indians than to whites. There was an outbreak of typhoid fever among the Chipewyans in the Onion Lake agency.

The officers of the department are giving most careful attention to the instruction of the Indians in the principles of hygiene and sanitation, and a marked improvement from year to year in these respects is observable on the reserves.

Dwellings.—The great majority of the Indian dwellings in this province are of log construction. In the more settled districts they are usually two storied, shingle-roofed, and well built. On the reserves which are farther removed from the centres of civilization the old style one- or two-roomed, mud or thatched roof shacks of a very primitive type still predominate. Many of the Indians live in tents in summer. Some of the more progressive Indians are beginning to erect frame houses.

ALBERTA.

Agencies.—The following agencies are included in the province of Alberta: Black-foot, Blood, Edmonton, Hobbema, Peigan, Saddle Lake, Sarcee, Stony, and Lesser Slave Lake.

Tribal origin.—The Alberta Indians are of Algonkin stock, with the exception of the Sarcees near Calgary and the Beavers and Slaves in the Lesser Slave Lake

9 GEORGE V, A. 1919

agency, who are Athapascan, and the Paul's band in the Edmonton agency, who are Iroquoian, and the Stonies, who are of Siouan stock. The Algonkin Indians of Alberta are subdivided into Blackfoot nation, comprising the Indians of the Blackfoot, Blood and Peigan agencies, Plain Crees found in the Lesser Slave Lake, Saddle Lake, and Hobbema agencies, and a band of Ojibbewas at Moberley Lake, in the Lesser Slave Lake agency.

Industries and Occupations.—The principal occupations of the Alberta Indians are farming and stock-raising in the settled parts of the province. In the more remote northern districts they continue to gain their livelihood almost entirely by hunting, fishing, and trapping.

An account of the activities on the reserves in Alberta in connection with the greater production campaign will be found on page 11.

Practically all the bands in the province own herds of horses and cattle, and their stock is of very fine quality. The Blood Indians have the largest herds, comprising upwards of 4,000 head of the finest beef cattle in the west. The Indians, as a general rule, care for their stock well.

Detailed statistics with regard to the stock held by the Indians of Alberta will be found on page 57, Part II of this report.

The Indian farmers are well supplied with modern machinery and implements, except in the Stony and Lesser Slave Lake agencies, where little farming is done.

Statistics of the grain and root production will be found on page 46, Part II.

Health and Sanitation.—Tuberculosis, pneumonia, and scrofula are the diseases most prevalent among the Indians of this province, and in some bands they are responsible for a heavy mortality.

These Indians are very conservative, and it is difficult to bring about changes in their habits of living. Every effort is being made, however, to make them realize the vital importance of sanitary conditions, and a gradual improvement is observed from year to year.

Buildings.—With the exception of those living in the more remote northern districts, the great majority of the Indians of Alberta have modern frame houses, which in many cases are well built, well lighted, and well ventilated. Many of them have good barns, implement sheds and stables. Some of the Indians still live in tents and tepees in summer.

NORTHWEST TERRITORIES.

Agencies.—The department has only two agencies in the Northwest Territories, one being located at Simpson, and the other at Fort Smith.

Tribal Origin.—The principal tribes found in the far north are the Slaves, Hares, Loucheux, Secanies, Dogribs, Yellow-knives, Chipewyans and Caribou Eaters. All these tribes are of Athapascan stock. There are a few Crees in the neighbourhood of Chipewyan. These are of Algonkin stock. The most northerly tribes are the Tukudah, who extend to the Mackenzie Delta, and the Copper Mines, who are located along the Copper Mine river. The territory occupied by these two last mentioned tribes is contiguous to that inhabited by the Eskimos.

Occupations.—These Indians are solely dependent upon fishing and hunting. In view of their nomadic mode of life it is difficult to induce them to take up agricultural pursuits, and they do no farming or gardening, with the exception of a few living in the vicinity of the forts, who raise some potatoes. In the summer some of the Indians are employed as pilots and deckhands on the steamers running on the Peace, Slave, and Mackenzie rivers.

SESSIONAL PAPER No. 27

Health and Sanitation.—Tuberculosis and scrofula are the diseases most prevalent among the Indians of the Far North. Those who live in tents throughout the year are generally in better health than those who spend the winter in houses.

Every effort is being made by the officers of the department to make these Indians realize the value of hygiene and sanitation, but it is difficult to instruct them in these matters, as they are still in a very primitive stage of development.

Dwellings.—The majority of the northern Indian live in bark or skin tepees all the year round. Those who live in the vicinity of the posts have houses of a primitive type.

YUKON TERRITORY.

Agencies.—There is a departmental superintendent for the Yukon, whose headquarters is at Dawson.

Tribal origin.—The Forty Mile, Blackstone, and Moosehide bands, known as the Hunkutchin or Big River Indians, belong to the Tukudah tribe. There is a band of Slavies at Lancing Creek who migrated from Fort Good Hope, on the Mackenzie river; another band of Slavies, called Nanahies, is located at the headwaters of the Pelly river. All the above-mentioned Indians are of Athapascan stock. At Mayo, Selkirk, Little Salmon, and Carmacks there are bands belonging to the tribe known as the Stick Indians. Bands belonging to the Tlingit tribe are found at Whitehorse, Teslin Lake, Champagne Landing, and Carcross.

Occupations.—Hunting, fishing, and trapping are the chief occupations of all the bands in the Yukon. In the summer some of the younger men work as deckhands on the steamboats. A few work on the land for the local market gardeners; others cut cordwood and raft logs, and occasionally act as packers.

It is very difficult to arouse any interest in gardening, or farming of any kind among these Indians. This is largely due to the fact that adequate attention to gardening or farming would materially interfere with their fishing, and it is during this season that they lay up a store of dried fish for themselves and their dogs for winter use.

A number of these Indians are earning a very good living, and some of them have considerable sums vested in victory bonds and other securities.

Health and Sanitation.—The general health of the Indians throughout the territory has shown an improvement during the past year, and there have been no epidemics. Tuberculosis is the most prevalent disease amongst them, and the problem is a difficult one to deal with in view of the remote localities in which the majority of the Indians of the Yukon live.

The Indians are, however, constantly being urged to adopt sanitary precautions and to practice greater personal cleanliness, and a gradual improvement in these respects is observable. There is a marked difference in the habits of those Indians who have attended the boarding school and have learned the value of sanitation and cleanliness.

Dwellings.—The Indian villages in the Yukon consist of a number of log cabins. Some of the older cabins are small, badly built, and totally lack ventilation, but these are gradually disappearing and are being replaced by newer, larger, and in every way better houses. A marked improvement is observable in their method of building. A few of the Indians still prefer to live in tents all the year round. In most of the villages there are school-houses and small churches, which as a rule are substantial buildings and are kept in a good state of repair.

BRITISH COLUMBIA.

SOUTHWESTERN DISTRICT.

Agencies.—The following agencies are situated in the southwestern part of the province: Cowichan, Kwawkewlth, New Westminster, and West Coast.

Tribal Origin.—The Indians of the Cowichan and New Westminster agencies belong to the Salish tribe. The Indians of the Kwawkewlth and West Coast agencies belong to the Kwakiutl-Nootka tribe.

Industries and Occupations.—The past year has been one of great prosperity for the Indians of southwestern British Columbia. This condition has been the more welcome inasmuch as it was quite contrary to general anticipation in the beginning of the year, when the outlook seemed decidedly unpropitious. The hopes of the Indians were centred in the fishing industry, as this was the year for the big run of sockeye salmon in the Fraser river. For some unaccountable reason, however, the run of sockeye salmon in the Fraser was a total failure. There are, however, two reasons which account for the prosperity of these Indians in spite of this disappointment, namely, the extraordinarily high price paid for all kinds of fish, and the great scarcity of unskilled labour. Never in the history of the Pacific coast have such high prices been paid for fish as during the past year. Even the poorer variety, known as dog-salmon, sold for as high as 67 cents each. On the West coast some Indians are known to have earned as much as \$1,000 in a single week. It is not likely that during the coming season the Indians of the west coast of Vancouver island will go far afield to fish, as they have numerous opportunities at their doors to work in the canneries or fish independently and dispose of their catches to whom they please. These advantages are due to the fact that many fish companies are now operating canneries, salteries, and freezing plants at numerous points on the west coast of Vancouver island.

The Indians have found ample opportunities to earn good wages at the logging camps, saw-mills, and at stevedore work, and a number of them have earned from five to seven dollars a day.

In the hop fields of Agassiz, Chilliwack, and Sardis, the Indians earned good wages in spite of the fact that the crop was a poor one, and that a much smaller acreage was put under cultivation. This was due to the particular care that was taken to fully inform the Indians with respect to the prevailing condition, and to see that the number going to the fields would only be sufficient to ensure their earning good wages.

It is pleasing to note that the bulk of the money earned by these Indians was put to good purpose, in the purchase or manufacture of launches, and also in many cases in the improvement of their homes, as is evidenced by the fact that new houses have been constructed on nearly all the reserves.

The agricultural Indians of the Cowichan and New Westminster agencies have also had a prosperous year. Their crops were excellent, and they obtained good prices for their produce. On the reserves in the neighbourhood of Chilliwack the production was considerably greater than in past years.

Health.—It is gratifying to be able to say that on the whole the health of the Indians of this inspectorate has been all that could be expected during the past year. Although various epidemics, such as measles and whooping-cough, have been prevalent among the white children on the coast, the Indians have happily escaped contracting these diseases, which as a rule, have such disastrous results among them.

Dwellings.—The majority of the Indians in the southwestern inspectorate now have good frame houses, and only a few of the older Indians continue to live in the primitive shacks and cabins of former days.

SESSIONAL PAPER No. 27

SOUTHEASTERN DISTRICT.

Agencies.—The following agencies are situated in the southeastern part of the province: Kamloops, Kootenay, Lytton, Okanagan, Stuart Lake and Williams Lake.

Tribal Origin.—The Indians of the Kamloops, Lytton, and Okanagan agencies belong to the Salish tribe. The Kootenay tribe is located in the agency of the same name. The Indians of the Stuart Lake and Williams Lake agencies belong to the Athapascan race.

Industries and Occupations.—There has been marked progress in all the agencies in southeastern British Columbia during the past year, and the Indians would have derived a very substantial revenue from the sale of their produce had it not been for the severe drought which prevailed during the summer of 1917. In spite of this serious drawback many of them prospered, as is evidenced by the fact that a number of them bought Victory Bonds and the investments of individual Indians in the bonds were in some cases as high as \$1,000.

The sale of beans and cattle were the most profitable sources of income to the Indian farmers of this district. The Indians of the Lytton agency had more than a dozen car-loads of beans, for which they received 11 cents per pound.

In the cattle-raising industry the Indians of the Lower Okanagan and Similkameen districts in the Okanagan agency, those in the vicinity of Douglas lake in the Kamloops agency, and the Anahams in the Williams Lake agency made a particularly good showing.

More fall ploughing was done in 1917 than in any previous year, and preparations have been made for a greater increase in the acreage under crop in the season of 1918. Dairying and hog production are both receiving more attention than formerly.

Health and Sanitation.—There have been no serious epidemics among any of the bands of this inspectorate during the past year. There is a constant betterment from year to year in the health of these Indians, which is attributed in great measure to the better class of dwellings that they are erecting, and the consequent improvement in sanitary conditions.

Dwellings.—A marked improvement has been made in recent years in the class of dwellings erected by the Indians of the Okanagan agency, the majority of whom now have good frame houses on cement foundations, and which are in many cases neatly painted. In the Kootenay agency, new and improved dwellings are gradually taking the place of the unsanitary shacks which were so common among these Indians a few years ago. In the Lytton agency many of the Indians have saved enough money to enable them either to build new houses or to improve their old ones, and they now realize that it is better to build houses with separate rooms than to continue in their old method of living in one room. Among the Shuswaps of the Kamloops agency the majority of the dwellings are still of log construction. Many of the Thompson and Okanagan Indians in the Kamloops agency have frame houses, which are well built and well ventilated.

NORTHERN DISTRICT.

Agencies.—The following agencies are situated in the northern part of the province: Babine, Bella Coola, Nass, Queen Charlotte, and Stikine.

Tribal Origin.—The Indians of the Bella Coola agency belong to the Salish tribe. Those in the Queen Charlotte Islands are Haidas. Those in the Stikine agency are Tlingits. Those in the Nass are Tsimshians. The Indians of the Babine agency belong to the Athapascan race.

Industries and Occupations.—There has been a great improvement in the welfare of the Indians of Northern British Columbia owing to the increased demand for Indian labour, and the high prices paid for fish and furs.

9 GEORGE V, A. 1919

Their chief occupations are fishing, hunting, trapping, logging, teaming, and boat-building. Many of them work in the canneries and saw-mills.

An interesting and progressive commercial enterprise has been undertaken by the Indians of the Skidegate reserve in the Queen Charlotte islands in the organization of the Graham Island and Skidegate Oil and Trading Company, the members of which are all Indians of the Skidegate band. Directors have been elected, and the affairs of the company are being conducted on an efficient business basis. They have leased the necessary buildings and equipment, and an industry has been started that will materially assist them and also provide food from a variety of fish that has hitherto been wasted. The fish in question is known by the Indian name of "kakata." A number of Indian men and women are now employed in this work, and there is every reason to believe that a large and prosperous industry will develop from the venture.

Health and Sanitation.—Health conditions have been very good among the Indians throughout the northern part of the province during the past year, and a marked improvement in sanitary conditions is observable.

Buildings.—There is a marked improvement from year to year in the class of houses and out-buildings erected on the Indian reserves in this district. Many of these houses are well finished on the interior and are equipped with modern cook stoves, sewing machines and other comforts of civilization. The Haida Indians of the Queen Charlotte Islands are excellent carpenters and build up-to-date frame houses that compare very favourably with those found in white communities.

Although many of the Indian in this inspectorate continue to erect dwellings of log construction, these are of a greatly improved design as compared with their old cabins and are in many cases well finished with lumber on the interior.

FINANCIAL.

At the close of the twelve months ended March 31, 1918, the capital of the Indian Trust Fund, which at the end of the preceding year amounted to \$7,870,230.36, had increased to \$8,665,137.35.

The amounts expended from the Consolidated Revenue Fund were as follows: voted by Parliament for the purposes of the department, \$1,771,660.49; and annuities by statute, \$187,066.

On March 31, last, the balance to the credit of the Indian Savings Account for the funding of the annuities and earnings of pupils at industrial schools, together with collections from Indians for purchases of stock and for ranching and farming expenses, was \$55,519.49. Deposits and interest during the twelve months aggregated \$67,290.68, and withdrawals, \$73,608.07.

I have the honour to be, sir,

Your obedient servant,

DUNCAN C. SCOTT,

Deputy Superintendent General of Indian Affairs.

General Remarks.

The land sold during the year amounted to 34,544-96 acres, which realized \$136,230.98. The quantity of surrendered land in the hands of the department was approximately 240,600 acres. The principal outstanding, on account of Indian lands sold, amounted to \$3,305,519.84, a considerable portion of which has not yet become due.
