FOR THE YEAR ENDED MARCH 31, 1921

REPORT OF THE DEPUTY SUPERINTENDENT GENERAL

OTTAWA, June 25, 1921.

Hon. Sir JAMES A. LOUGHEED, P.C., K.C.M.G.,
Superintendent General of Indian Affairs,
Ottawa.

SIR,—I have the honour to submit the report of the Department of Indian Affairs for the year ended March 31, 1921.

THE INDIANS OF CANADA

It should be known that the Indians of Canada are as a class self-supporting. The proportion of the native population which is indigent and in need of assistance is small, and indeed is scarcely so numerous as the corresponding class among the white population. The expenditure upon destitute Indians is practically all made by the Dominion Government, either from public funds, or from the tribal funds of the Indians. It should be noted that this cost bears no relation to the quantities of staple supplies purchased and issued if calculated upon average prices prevailing in trade centres. In remote, inaccessible districts, the prices of staple supplies are very high, owing to the excessive cost of transportation, and the quantity purchasable by a given amount of cash shrinks by comparison.

The bulk of the expenditure on Indians arises from administration and supervision, and from education. These activities result from the agreements or treaties, whereby large areas of lands, valuable for agriculture, mining and ranching were transferred by the Indians to the Crown, and freed from all aboriginal claims as to title. These activities would have arisen in any event when the Government decided to adopt a parental policy toward the native, to educate and protect him, and give him a chance to develop and prosper. These expenditures on education and advancement can only be eliminated when the Indian ceases to be a ward, and will rather tend to increase until the department has come into contact with all the Indians in the country; a time that is rapidly approaching, owing to the development of the northern country.

This year the department is establishing treaty relations with the Indians of the Mackenzie River basin. New obligations and sources of expenditure arise as civilization forces its way into the wilderness. The compensation, if compensation is to be sought, for this drain upon the public funds is both ideal and practical—ideal in the enviable position which this country occupies, as the guardian of its native race, practical in the growing power of the Indian as a producer of wealth. There is no doubt that the Indian is capable of graduating into useful and responsible citizenship. The wisdom of the department's policy is being confirmed by the consequent stream of applicants for enfranchisement, and the fact that educated Indians are everywhere successfully engaging in ordinary vocations.

It is probable that no department of the public service can trace the policy which has actuated each administration from the earliest times in such detail as the Department of Indian Affairs, and, it has occurred to me, that a record of the organization

which has rendered our administration successful throughout the years would be of interest to the public, and particularly to students of Canadian history.

The following short history of the administration of Indian affairs in Canada will, I hope, supply the essential particulars:—

The first management of the Indian Department was military in its character, the Commander of the Forces having the chief control, and the Officers at the various posts acting as Superintendents or Agents.

It was found necessary to appoint an Officer whose sole duties would be in connection with Indian Affairs, and on 15th April, 1755, Sir William Johnson was appointed Indian Superintendent by General Braddock under authority of His Majesty George the 2nd, with the rank of Major General. Sir William held this position up to the time of his death, which took place on the 11th July, 1774.

Col. Guy Johnson was appointed temporarily by General Gage to succeed Sir William till His Majesty's pleasure should be known. This appointment was confirmed by a Dispatch dated 8th September, 1774, received through the Earl of Dartmouth.

Col. Johnson held the position of Superintendent until February, 1782, when he was suspended owing to certain charges made against him.

Sir John Johnson was appointed Superintendent General and Inspector General by Royal Commission of date 11th March, 1782, and held this position till the office was abolished 25th March, 1828, from which date his name was placed on the pension list.

Sir John Johnson left Canada for England September, 1792, and was absent from duty till October, 1796.

A "General Order" dated 20th September, 1792, directed that in Sir John Johnson's absence the Officers, Agents, or Deputy Agents of the Indian Department in Upper and Lower Canada were to transmit to the office of the Superintendent General at Montreal, all accounts, requisitions, reports and transactions of their respective Districts to be examined, recorded, and countersigned by the Secretary of the General Indian Department and by him forwarded in the usual manner to Headquarters for the information and approbation of the Commander in Chief or General Commanding the Forces.

The business of the Department was transacted in this way until the 26th December, 1794, when the office of Deputy Superintendent General was created and Col. Alexander McKee appointed to that position with authority to take charge of the Department in the absence of the Superintendent General.

Col. McKee held the position of Deputy Superintendent General till the time of his death, 15th January, 1799.

On December 15th, 1796, the following Royal Instructions were issued to the Lieutenant-Governors of Upper Canada, vesting them with administrative authority over Indian Affairs in Upper Canada.

 Adm.—Jackson, Sir Rich. D., 18th November, 1839, to 31st July, 1840.

Considerable trouble arose over the filling of the vacancy caused by the death of Col. McKee. The difficulty arose over the dispute as to whether the patronage of the Department was under Civil or Military control.

The Duke of Kent as Commander-in-chief appointed Col. John Connolly to the position of Deputy Superintendent General displacing Captain Wm. Claus who had been appointed by Governor Hunter. Governor Hunter in reply to the notification informed the Duke that the removal of Captain Claus and the appointment of Connolly would be highly prejudicial to His Majesty's service, and at the same time wrote to the Duke of Portland, practically stating that he would not recognize Connolly and had sent his orders to Sir John Johnson to that effect. On these representations the Duke of York wrote to the Duke of Kent to cancel Connolly's appointment which was accordingly done 20th June, 1800.

With the appointment to the position of Deputy Superintendent General, Captain Claus, was promoted to the rank of Colonel. Col. Claus held the position of Deputy Superintendent General until his death on the 11th November, 1826.

On the 1st December, 1826, the following "General Order" was issued:—

"His Lordship, the Commander of the Forces has been pleased to appoint Major General Darling to be Deputy Superintendent General of Indian Affairs, vacant by the death of Colonel Claus and with the view to relieve the Superintendent General, Sir John Johnson, on account of his age from the labourious duties of the correspondence and general charge of the Department, Major General Darling will remain stationed at Head Quarters".

"The duties hitherto performed by Col. Claus will be assumed until further orders by Lieut. Col. Givins, being the officer next in seniority and resident at the Head Quarters of Major General Sir Peregrine Maitland in Upper Canada. Lt. Col. Napier will take charge of the duties particularly incident at Montreal".

"All the correspondence, intended for the Head of the Department will be addressed direct to Major General Darling at Quebec, who will receive his orders and instructions from His Lordship the Commander of the Forces".

 Acting Deputy Adjt: Genl:

A subsequent General Order was issued 2nd August, 1828, as follows:—

"Agreeable to instructions received from His Majesty's Secretary of State, in a Despatch dated 27th April, last, the appointment of "Superintendent General of the Indian Department and Inspector General of Indian Affairs" will cease from the 25th June last, from which date the Department will be placed under a "Chief Superintendent". The Commander of the Forces is pleased

to appoint Major General Darling to this situation with the salary of £600 Stirling per annum, and contingent charges for travelling expenses".

"Sir John Johnson will be borne on the Pension List of the Department from 25th June, His Garrison allowance will cease from the date of the receipt of this Order at Montreal".

"Mr. John Brandt is appointed Superintendent of the Six Nations Indians with the salary of £200 Stirling per annum and the usual allowances. Appointment date 25th June, 1828".

(Sgd) T. NOEL HILL

Deputy Adj't: Genl:

General Darling left for England 11th September, 1828, and Lt. Col. Napier was appointed to act for him during his absence and continued to act as Resident Agent and Secretary of Indian Affairs at Montreal until the 13th April, 1830, when, by Order of His Majesty's Government, the Indian Department in Upper Canada was separated from that of Lower Canada, the former being placed under His Excellency Sir John Colbourne, with Col. James Givins as Chief Superintendent for the Province.

The Department in Lower Canada was placed under the control of the Military Secretary at Quebec, who at that time was Lieut. Col. Couper, and Lt. Col. D. C. Napier was removed to the Military Secretary's Office to act as Secretary with the pay and allowance of a Superintendent.

Col. Givins continued to act as Chief Superintendent for Upper Canada until 12th June, 1837, when he retired from the service.

Samuel P. Jarvis was appointed to succeed Col. Givins, 13th June, 1837.

Messrs Rawson W. Rawson, John Davidson and William Hepburn were appointed by His Excellency the Governor General Sir Chas. Bagot, G.C.B., by authority of a Commission bearing date the 10th October, 1842, to report on Indian matters generally, and to recommend any changes that, in their opinion, should be made in the manner of conducting the business of the Indian Department. Their report under date the 22nd January 1844 recommended among other things:—

1st. "That the management of the Indians be placed under the Civil Secretary with the view of its being brought more immediately under the notice of the Governor General."

2nd. "That the two branches of the Department be united and the records be kept in one office. That the correspondence and central business be conducted at the Seat of Government, under the superintendence of a Chief Clerk at an annual salary of £300.

3rd. (relates to the appointment of an accountant).

4th. "That the office of Chief Superintendent in Upper Canada, and the present establishment of local officers, be reduced and that in lieu thereof three Indian Visitors be appointed at a salary of £300 a year, with an allowance to be fixed for travelling expenses."

5th. "That the Province be divided into three Districts according to the locality of the Settlements, and that each Visitor be charged with the Superintendence of a separate District.—Lower Canada may form one, the Tribes now under the separate charge of the Chief Superintendent in Upper Canada may be united with the second, and the remainder now under charge of five Resident Superintendents into a third."

These recommendations were partially carried into effect on the 15th May, 1844, the Chief Superintendent being informed by letter of 25th April, of that year, that, as the 15th of May had been fixed on for closing the public offices at Kingston preparatory to their removal to Montreal, the Governor General had directed that from that date the following changes would take place in the management of the Indian Department:—

"The correspondence and central business of the Department will be conducted at the Seat of Government, under the orders of the Civil Secretary assisted by Mr. Geo. Vardon, the present Clerk in the Indian Office, who will be attached for this purpose, to the Indian Branch of the Secretary's office. The Chief Superintendent will deliver over to Mr. Vardon the records of the Department as he will be charged with the preparation of the various Accounts, Estimates, Requisitions, money warrants &c. which will relieve the Superintendent from that onerous portion of his duties and admit of his devoting more time to the moral, intellectual and physical improvement of the Indians under his superintendence."

12 GEORGE V, A. 1922

The Chief Superintendent was further informed that the Resident Superintendents would be instructed to correspond direct with the Civil Secretary upon all matters connected with their Districts, and when it was thought necessary the Civil Secretary could refer the matter to the Chief Superintendent for the benefit of his opinion.

The Tribes under the charge of the Chief Superintendent would continue under his immediate Superintendence, and he would be directed by the Governor General, when circumstances required it, to visit the other settlements, and to report upon any points on which particular information might be wanted.

Further changes were carried into effect on the 1st July, 1845. Mr. Jarvis being informed by the Civil Secretary, on the 16th April, 1845, that Her Majesty's Secretary of State, acting on the recommendation of Messrs Rawson, Davidson and Hepburn, had decided to abolish the office of Chief Superintendent and that his duties would cease from the 30th June following.

The Services of three Resident Superintendents in Upper Canada and two in Lower Canada were at the same time dispensed with.

GENERAL PROGRESS

During the past year the Indians of Canada have made satisfactory progress. For a good many years this steady advance has been maintained and although no particular industry has shown any unusual advance, the steady but certain steps in this continuous progress are marked.

The following table shows the increase in the land under crop, the amount of grain, roots and hay harvested, and the value of these products. The area of Indian land actually under cultivation is 221,800 acres, an increase of 3,800 over the previous year. While climatic conditions were not favourable at all reserves, the harvest is considerably over that of the previous year. 1,488,000 bushels of grain were threshed and 610,900 bushels of roots were harvested. The amount of hay shows a slight decrease, but there is no shortage of fodder anticipated. The satisfactory total of \$3,577,000 is the estimated value of farm products, an increase of almost \$115,000 over the previous year.

The Indians' progress in farming operations has been steady from year to year and the reserves where conditions are at all favourable are rapidly becoming prosperous communities.

REAL AND PERSONAL PROPERTY

The following table shows a substantial and steady increase from year to year in the value of real and personal property of Indians. The value of the lands in reserves is estimated at a little over \$52,000,000, half a million more than the previous year. This increase is due to many causes, the principal of which is the rapid settlement of land in the western provinces. The value of the buildings owned by Indians is \$5,100,000 and the value of the construction during the year, after all due allowance has been made for depreciation, is over \$138,000. The class of buildings erected, whether dwellings or farm buildings, has been steadily growing better and better. The teepee has practically disappeared and the old log huts have been replaced by more commodious and more comfortable dwellings. The Indians are fast realizing the value of first class farm buildings and many reserves can now boast very favourable comparison with their white neighbours.

The following table shows a very satisfactory increase in the per capita value of real and personal property. The per capita value ranges from \$115.69 in New Brunswick to \$2,217 in Alberta. The average for the Dominion of Canada is \$682.06, an average increase of \$7.63 over the previous year and of \$23.94 over 1918.

SOURCES AND VALUE OF INCOME

The following table shows the sources and value of the income of the Indians during the past four years. While there is a decrease of \$110,000 during the year, the total of \$10,677,000 is a very creditable one. The chief decrease in income was from the wages earned from various industries and occupations and is accounted for by the general slackening of business all over the Dominion. Reports from the north country show that furs have been extremely scarce but the price has risen considerably and greater competition between buyers has gone far towards bettering the lot of the Indian hunter and trapper.

RECORDS BRANCH

The old records furnish material for research for the settlement of claims and disputes and for answering questions of an historical nature.

A few years ago the older material dating back to 1665 was, for its historic value, transferred to the Public Archives, but we retained the records of the past half century, as many of the subjects of present day correspondence have their origin in the files of thirty, forty and fifty years ago.

During the past there were about 63,000 letters, vouchers and returns received and about 24,000 letters and telegrams sent. These figures, of course, do not include circular-letters, acknowledgements or receipts. There were 1,512 registered letters and 1,666 unregistered money letters received.

There were a number of old matters requiring research, some of them entailing work among the old papers in the Archives.

INDIAN SOLDIER SETTLEMENT

There has been much activity in connection with Indian Soldier Settlement during the past year. Since this work was undertaken by the department, 330 applications for loans have been received and 180 granted. The total amount expended to date amounts to \$321,269.61, made up as follows:—

On the Six Nations Reserve alone there are sixty-four loans current. More than \$84,000 were spent for the purchase of land for Indian settlers and the amount outstanding, after taking into account the repayments made, was \$130,300. The Indians have met their payments in a very satisfactory manner and the department looks forward to much larger repayments next year. So far a large number have not yet fallen due, but the total repayment to date of \$18,496 is very creditable. In fact very few Indians have failed to meet their payments, while a considerable number on all reserves, have repaid more than called upon to do. Every encouragement has been given. The workers everywhere have been kept under constant supervision and they have had the benefit of expert advice and assistance. The crops have been uniformly good, the settlers on every reserve have taken a keen interest in their work and their success has been a benefit not only to them but to the whole reserve. They have demonstrated that with a certain amount of assistance they can make a success of farming operation and their farms are a credit to any community.

It is to the credit of the department that the whole work, involving an expenditure of nearly one-half million dollars distributed all over Canada, has been carried

SESSIONAL PAPER No. 27

on without expense to the country, excepting only the salary of one inspector, temporarily employed during the summer months.

This is only one incident of the willingness of most departmental officials to shoulder added responsibility and labour without added compensation or apparent recognition.

INDIVIDUAL SAVINGS

Early in the war the department undertook to administer the estates of Indians who enlisted for active service overseas and to take charge of pensions, assigned pay and separation allowance, when called upon to do so. At one time the department had over 400 active accounts, but this number has gradually decreased as the soldiers returned from overseas and took up their civil occupations. Where minor children received pensions, owing to the death of the bread-winner, this pension was placed to the credit of their savings account, and the department has to-day a total of \$43,209 actually saved, which will be available to start the children in life when their education has been completed. It is interesting to note that more than seventeen families have a savings credit of over \$1,000, thirteen between \$500 and \$1,000, twenty-eight between \$100 and \$500, and twenty-four under \$100. This total of \$43,000 is nearly one-half the total individual savings on all counts held by the department.

BUILDINGS

The Indian boarding schools at Alberni and Chapleau were completed during the past year. A small barn and other outbuildings were also erected in connection with the Chapleau school. A new Indian boarding school is in course of construction at Fraser Lake, B.C. New Indian boarding schools are under course of construction at Sechelt, B.C., and Lac la Ronge, Sask., to take the place of the ones destroyed by fire some years ago. A new agent's house is being erected at Fort Smith, Alta. Many of the schools have been repainted and heating systems in some schools have been repaired. Alterations and additions were made to the teachers' residence, Caughnawaga.

BRIDGES, DRAINAGE, IRRIGATION SYSTEMS AND ROADS

The following works have been carried out during the current year on the several Indian reserves:—

BRIDGES

Repairs to bridges have been performed in the following reserves: Caughnawaga, Doncaster, Tyendinaga, Caradoc, and Maniwaki.

DRAINAGE SYSTEMS

Drainage systems and culverts of various types have been constructed on the Caughnawaga, St. Regis, Six Nations, Sarnia, Tyendinaga, New Credit, and Moravian reserves.

IRRIGATION SYSTEMS

Irrigation systems are in course of progress and are gradually being installed on the Kamloops reserve, B.C., and on the Lytton reserve, B.C.

ROADWORK

Repairs, improvements and maintenances of main roads have been carried out on the following reserves:—

12 GEORGE V, A. 1922

Province of Ontario.—Tyendinaga, Moravian, Six Nations, Rama, Sarnia and Cape Croker.

Province of Quebec.—Caughnawaga, Doncaster and Restigouche.

Province of Manitoba.—Brokenhead Indian reserve.

Province of New Brunswick.—Tobique Narrows.

The macadamizing of the following roads, which was begun last year, is still under course of construction: Shore road, Tyendinaga Indian reserve, Ont., and the Caughnawaga-Malone highway, Caughnawaga Indian reserve, Que.

SURVEYS

The following are the principal items of work in connection with the Survey Branch, during the fiscal year ended the 31st of March, 1921.

NEW BRUNSWICK

In connection with the sale of the timber, a resurvey was made of the Tabusintac Indian reserve, in the county of Northumberland.

QUEBEC

In order to prevent the taking of timber in trespass, a small portion of one of the limits of the Ristigouche Indian reserve was retraced.

Investigations were made in connection with the locations of the cemetery, of a certain road and to settle a dispute regarding the position and ownership of a house in the reserve of the Hurons of Lorette.

Surveys were made to decide four different disputes regarding the limits and the boundaries of lots in Caughnawaga, also valuations of certain properties in the Reserve were made in order to apportion them in accordance with the will of a deceased owner.

A preliminary examination was made of the locality of a proposed reserve at Lake Simon for the Indians of Grand Lake Victoria.

ONTARIO

A survey was made of a lot of one hundred acres in the Shawanaga Indian reserve for a returned Indian soldier.

A survey of five lots in the Rice Lake Indian reserve was made to be allotted to returned Indian soldiers.

On account of a great many land marks having become obliterated or lost, a resurvey was made of the Cape Croker Indian reserve.

For the purpose of obtaining a fairly correct map of Tyendinaga Indian reserve, a partial survey was made of the roads in the reserve.

The subdivision into lots of about five acres each of the mission property in the Rice Lake Indian reserve was made for the purpose of allotting the land to returned Indian soldiers.

In connection with the sale of timber, a resurvey was made of certain of the limits of the Gibson Indian reserve.

In order to prevent trespass, a resurvey was made of the limits of a mission lot near Brantford, in the township of Tuscarora.

For the purpose of sale, the surrendered portion of the Whitefish River Indian reserve was surveyed into blocks

SESSIONAL PAPER No. 27

MANITOBA

In order to settle disputes regarding the limits of the Brokenhead Indian reserve across certain hay lands at its northwest corner, this limit was retraced and reposted.

SASKATCHEWAN

A subdivision for Indian occupation was made of a portion of the Piapot Indian reserve, No. 75.

A subdivision was made for Indian occupation of the unsurrendered portion of the Muscowpetung Indian reserve, No. 80.

ALBERTA

A survey was made of three lots at Brocket, in the Peigan Indian reserve, which had been surrendered to be leased.

BRITISH COLUMBIA

On account of the limits of the Nimkeesh Indian reserves Nos. 1, 2 and 3, having become practically obliterated, they were resurveyed and posted.

A resurvey was made of a disputed part of the south limit of the Salmon River Indian reserve, No. 1, of the Spallumcheen Band.

LANDS

Sales of surrendered, surveyed lands are shown in the tabular statement No. 1, herewith, and during the past year 32,491.71 acres were sold, realizing \$127,591.68. During the year 486 Crown grants were issued and recorded under the provisions of the Indian Act, and forwarded either direct to the patentees or to the different registrars of titles for the districts in which the lands patented were situate, in accordance with the Land Titles Act.

Return of Crown grants to the number of 42 were prepared and forwarded to the registrars of the counties and districts in which the lands patented were situate, and four returns were made to the Provincial Secretary of Ontario covering lands patented within that province.

On the 18th day of June, 1919, the Micmac Indians residing in the county of Halifax surrendered the Sambro, Ingram River and Ship Harbour Lake reserves, in the county of Halifax, to be sold for their benefit. Tenders were called for these reserves in May, 1920, and disposition has been made of the Ship Harbour Lake reserve, which realized the sum of \$800 and the Ingram River reserve, which realized the sum of \$250.

In October, 1908, the Indians interested in Pithers Point reserve, in the province of Ontario, surrendered this reserve to be sold for their benefit. The reserve was subsequently divided into 26 lots, and these were sold by public auction at Rainy River in September 1920, realizing an average price of \$224 per acre.

In April, 1920, tenders were called for 2,590 acres in the township of Kars, in the district of Algoma, being part of land surrendered many years ago, and disposition thereof was made to the highest tenderer for the sum of \$906.50.

In August, 1865, the Whitefish River Band of Indians surrendered to the Crown the northern portion of their reserve at the mouth of Whitefish River, in the district of Algoma, for the purpose of same being sold for their benefit. In view of demand for purchase of this land, a subdivision survey thereof has been made with a view of placing the lands on the market at an early date.

12 GEORGE V, A. 1922

LOCATION TICKETS

Location tickets granting title under the provisions of the Indian Act, to individual owners, for lands on the reserves, were issued during the past year to the number of 124 and on the 31st of March last there were current 2,412 location tickets.

LEASES

Under the provisions of section 11 of the Regulations for the disposal of Indian lands, leases were issued, in triplicate, to white men, at the request of Indian locatees, and for the purposes of increased production, to the number of 137, and on the 31st of March last there were 1,279 leases current.

ENFRANCHISEMENT

Under the provisions of section 122A of the Indian Act there have been enfranchised during the past fiscal year 54 Indians, heads of families, comprising a total number of men, women and children of 167. The total number of Indians enfranchised to the 31st of March, 1921, under this section, is 487.

TIMBER

Lumbering operations on Indian reserves in the Dominion during the license year 1920-21 were carried on to a greater extent than during the previous year owing to the prevalence of high prices, both for manufactured material and for standing timber. During the latter half of the year, however, adverse conditions set in, with the result that the lumber market became stagnant and little demand for standing timber.

Consequently although during the early part of the year timber sales were made at high figures, later, the disposal of timber on Indian reserves was discouraged when the demand lessened and prices depreciated.

The quantity of timber cut on reserves during the year, both under license and under permit was as follows:—

Fir (Douglas)	11,261,372	f.b.m.
Pine (white)	4,654,035	"
Pine (red or Norway)	785,036	"

The total quantity of timber cut during the year in terms of b.m. feet was approximately fifty-eight million.

The total quantity of timber cut for sale from Indian reserves during the license year 1920-21 exceeded the quantity cut during the previous year by 40 per cent, the increase being due to greater activity in the province of British Columbia.

SESSIONAL PAPER No. 27

In addition to timber cut for sale, the Indians themselves cut approximately ten million f.b.m. of timber for building and fencing purposes and 20,000 cords of fuel for domestic use, besides an unreported quantity of material for the native manufacture of snowshoes, axe-handles, hockey sticks and baskets.

Sales of timber during the year were:—

Chemainus (part)	10,000 deposit plus royalty.
Gibson (part)	171,500 bonus plus dues.

Trespass dues	1,350 38
Penalty dues	1,360 30
Total	\$272,817 07

There were forty timber licenses current on April 30, 1921, being six more than the previous year, eleven new licenses having been issued and six old licenses having been cancelled or relinquished.

Estimates of timber and reports on land of twelve reserves were compiled in the course of the usual administrative work and this data has been added to the record of the natural resources of the Indians which is in course of preparation.

Forest conservation, involving the disposal of slash, the elimination of fire-hazards, the closer utilization of timber, the salvage of diseased, infested or fire-killed timber and adequate forest protection was carried out on many reserves.

Fifteen and one-half million feet b.m. of timber on reserves in the Coldwater district, B.C., which was infested with the bark beetle was salvaged at a satisfactory price, this work being done in co-operation with the Department of the Interior and the Forest Branch of the Provincial Government of British Columbia.

The cost of forest protection amounted to the sum of \$6,675, the Indians being employed as fire rangers or timber guardians in all cases, whilst an additional sum of approximately \$4,300 was charged against timber licensees for the protection of licensed limits.

The timber regulations governing the disposal of timber on reserves in the province of British Columbia, which were established in the year 1893, were rescinded and new regulations approved by Order in Council which have the effect of bringing the work of administration up to modern conditions and better efficiency.

The Indians are being continually impressed with the importance of making their lumbering operations constitute the initial step toward clearing up the land for cultivation, and the policy of devoting a portion of the proceeds from the sale of timber toward assistance to the Indians in improving their holdings is being closely followed.

EDUCATION*

*The general statement of schools throughout the Dominion is shown at the end of the statistical statements.

A total of 326 Indian schools, of all classes, were in operation during the year, namely, 253 day, 58 boarding, and 15 industrial. In the tabular statements, in Part II of this report, will be found a list of these schools, giving the reserve, agency and province and the enrolment in each case.

As compared with the previous year, there is an increase of six day schools and one less industrial school, making a net increase of five schools.

Several day schools were closed owing to lack of attendance or inability to secure teachers, while several schools in this class, which had been closed for some time, were reopened and new schools started at several points.

The total enrolment for the year was 12,558 pupils, 6,219 boys and 6,339 girls. As compared with the preceding year, this shows an increased enrolment of 362 pupils. There was an enrolment of 7,775 in the day schools, 3,156 in the boarding schools and 1,627 in the industrial schools.

The average attendance at these three classes of schools was 8,723, which is an increase of 1,094 over the preceding year.

The percentage of attendance of the number enrolled during the year was 69.47.

In addition to the above there are about 100 Indian children, the greater number of whom are orphans, being provided for and educated in public and private residential schools throughout the Dominion, besides a number who are attending high schools.

The 326 schools, comprising day, boarding and industrial, in operation during the year, were conducted under the following auspices: Undenominational, 53 day

12 GEORGE V, A. 1922

and one industrial; Roman Catholic, 87 day, 32 boarding and 8 industrial; Church of England, 71 day, 16 boarding and 3 industrial; Methodist, 38 day, 5 boarding and 3 industrial; Presbyterian, 3 day and 5 boarding, and the Salvation Army, 1 day school.

The Indian day schools in Ontario, Quebec, Nova Scotia and Prince Edward Island are inspected semi-annually by the provincial, public and separate school inspectors under arrangements with the Department of Education in each province. In New Brunswick and British Columbia, Indian schools are inspected by officials appointed by the department. In Manitoba, Saskatchewan, Alberta and the North-west territories the schools are inspected by the inspectors for the different Indian agencies; regular visits are made and reports submitted to the department. In addition to this inspection, almost all the schools are under supervision of the different Indian agents, who are required to make monthly inspections and reports.

Qualified teachers with professional training are engaged whenever it is possible to obtain them. In the older settled portions of the different provinces, the greater number of the teachers are so qualified. In the schools situated on the more remote reserves, it is difficult to secure teachers with certificates. Many of our teachers who have not professional qualifications have, however, long experience and are meeting with a great measure of success in Indian school work.

Our school buildings, in most cases, compare favourably with white schools similarly situated and also in the work performed in the class-room and in the equipment provided.

The course of study is that prescribed for the provincial, public and separate schools and is strictly followed.

There is land for farming and gardening purposes provided at practically all the residential schools. The pupils are thus enabled to receive a general knowledge of agriculture which should be of great benefit to them after leaving school.

The granting of assistance to graduates has been continued. Upon leaving school a female ex-pupil may be given a sewing machine or household furniture. A male ex-pupil may be given a grant of cattle, horses, implements, harness or building material.

During the past year 24 girls and 11 boys, ex-pupils, have been assisted to the extent of \$2,933.84. In two of these cases a team of horses was supplied, the cost of which was over \$125, and this amount is to be refunded on easy terms.

The expenditure on Indian education from parliamentary appropriation during the year amounted to \$1,112,409.63. The following statement will show the expenditure for the fiscal year ended March 31, 1921, for Indian education from parliamentary appropriation:—

SESSIONAL PAPER No. 27

In addition to the above the various bands of Indians whose funds are sufficient to meet the outlay, contributed the sum of \$47,296.53 towards the payment of teachers' salaries, general expenses and the maintenance of school buildings on their reserves. For the fiscal year ended March 31, 1921, the amounts so contributed have been as follows:—

**SUMMARY OF INDIAN AFFAIRS IN THE VARIOUS PROVINCES BASED
ON THE REPORT OF THE DEPARTMENT'S AGENTS AND THE
INSPECTORS FOR THE FISCAL YEAR ENDED MARCH 31, 1921.**

The local administration of the Indian lands, on the reserves scattered throughout the Dominion, is conducted through the department's agencies, of which there are in all 114. The number of bands included in the agency varies from one to more than thirty. The staff of an agency usually includes various officers in addition to the agent, such as the medical officer, clerk, farm instructor, field matron, constable, stockman, etc., according to the special requirements of the agency in question. At many of the smaller agencies in the older provinces, where the Indians are more advanced, the work is comparatively light, requiring only the services of an agent. The work of the agencies is supervised by the department's inspectors, each inspector having charge of a certain number of agencies.

ONTARIO

Agencies.—The following agencies are included in the province of Ontario: Alnwick, Bay of Quinte, Cape Croker, Chapleau, Chippewas, Munsees, and Oneidas of the Thames, Christian Island, Fort Frances, Georgina and Snake Islands, Golden

12 GEORGE V, A. 1922

Lake, Gore Bay, Kenora, Lake Superior (Eastern and Western Divisions), Manitowaning, Missassaguas of the Credit, Moravians of the Thames, Parry Sound, Rama, Rice and Mud Lakes, Sarnia, Saugeen, Scugog, Six Nations, Sturgeon Falls, Thesalon, and Walpole Island.

Tribal Origin.—The great majority of the Indians of Ontario are Ojibwas, and are of Algonkin stock. The Oneidas of the Thames, the Mohawks of the Bay of Quinte, the Mohawks of the Parry Sound district, and the Six Nations of Brantford are of Iroquoian stock. There is a band of Pottawattamies at Walpole island, and Delawares at the Caradoc agency; these are of Algonkin stock.

Occupations.—The Indians in the western and central parts of Ontario engage largely in farming. The reserves, generally, are well suited to this purpose and the activity of the department's field agents has resulted in a steady improvement both in the methods of operation and the results achieved. The success achieved by the returned soldiers of this province has been especially creditable and are rapidly developing prosperous communities.

During the summer months Indians find a profitable source of income as guides and canoe-men. Many are employed at various industries and trades while railway and navigation companies employ a large number. As a rule they are excellent bushmen and many find employment in the various lumber camps. There is still an excellent market for snowshoes, canoes and moccasins and these are usually manufactured by the other members of the community.

The women also have many sources of income; some are employed as domestics; others support themselves by making baskets and fancy work. In certain districts berry-picking is an important item and furnishes considerable income.

Health.—The health of the Indians of Ontario has been good during the past year. While tuberculosis is still their worst enemy the efforts of the department for the past decade have borne fruit and this disease is noticeably less than in previous years.

A great majority of the Ontario Indians have comfortable farmhouses which compare very favourably with those of their white neighbours. Many own houses of brick or stone, but in the outlying and more remote districts the old log houses are in the majority. In the more settled districts the Indians have followed the example of the whites and both houses and farm buildings are comfortable and of excellent construction.

NEW ONTARIO

In the remote parts of Ontario hunting and fishing are still the chief sources of livelihood. While fur has been very scarce the price has been correspondingly high. Fishing, however, has not been as successful this year owing to the scarcity of the market and the low prices. Acting as guides and canoe-men during the summer months adds considerably to their income. While agriculture is not carried on to any extent most of the bands grow considerable crops of potatoes and vegetables. They are, of necessity, more or less nomadic and consequently live in tents most of the year. This condition will greatly change as civilization progresses.

Their health has been generally good, although somewhat subject to tuberculosis.

QUEBEC

Agencies.—The following agencies are included in the province of Quebec: Becancour, Bersimis, Caughnawaga, Lake St. John, Lorette, Maria, Mingan, Oka, River Desert, Ristigouche, Seven Islands, St. Regis, Timiskaming and Viger.

SESSIONAL PAPER No. 27

Tribal Origin.—The principal tribes found in Quebec are: Iroquois at Caughnawaga, lake of Two Mountains, and St. Regis; the Hurons of Lorette are also of Iroquoian stock; the Montagnais, who are also of Algonkin stock, at Bersimis, Mingan, lake St. John, and Seven Islands; the Abenakis, also of Algonkin stock, at Becancour and St. Francis; the Micmacs, also of Algonkin stock, at Maria and Ristigouche; and the Malecites, also of Algonkin stock, at Viger.

In the agricultural districts of the province the Indians are developing a keener interest in farming operations and are making a decided success. In the Gaspé peninsula the Indians find employment in the lumber camps and mills but on the north shore of the gulf fishing, hunting and trapping are still the principal sources of income. In the northern part of the province lumbering is the chief pursuit. One of the principal industries of the Indians of Quebec is making baskets and many of the Indians spend the summer months at the resorts in order to dispose of the baskets, lacrosse sticks, racquets, moccasins, etc., to the tourists. Some of them, particularly in the Saguenay districts, act as guides and canoe-men.

Health.—On the whole, the health of the Indians of Quebec has been good during the past year.

Dwellings.—In the older settled districts of the province the Indians own many excellent stone and brick houses. Generally speaking, the buildings are almost all of good construction, comfortable and sanitary. In the more remote districts, where hunting and trapping are still the principal occupations, the Indians necessarily live in tents during the greater part of the year.

The North Shore.—Along the north shore of the gulf of St. Lawrence, the Indians have been taking a marked interest in the fishing industry. At Mingan, Natashkwan, Romaine, St. Augustine, and Moisie, the fishing is under departmental supervision. Salmon and cod are the principal marketable fish and are a source of considerable income to the Indians. The land is not suitable for extensive cultivation but many of the Indians have very creditable gardens.

During the past year the Indians of Canada have made satisfactory progress. For a good many years this steady advance has been maintained and during the past year, although no particular industry has shown any unusual advance, the steady but certain steps in this continuous progress are marked.

NEW BRUNSWICK

Agencies.—There are three agencies in the province of New Brunswick, the Northeastern located at Buctouche, the Northern located at Perth, and the South-western located at Fredericton.

Tribal Origin.—The majority of the Indians of New Brunswick belong to the Micmac race, which is of Algonkin stock. In addition to these there are some bands of Malecites, also of Algonkin stock.

Occupations.—In the Northeast division the Indians are mostly engaged in fishing, hunting and trapping. Some farming is carried on and the Indians have rather tended to increase their interest in this regard.

The lumbering industry employs quite a large number and the Indians all through the eastern provinces have become very proficient in the lumber camps, on the river drives and in the mills. In the Northern division there is less farming carried on, and the Indians during the summer months find employment generally as day labourers. In the Southern division they support themselves chiefly by the manufacture and sale of Indian wares.

12 GEORGE V, A. 1922

NOVA SCOTIA

Agencies.—The following agencies are included in the province of Nova Scotia: Yarmouth, Digby, Annapolis, Queens, Shelburne, Lunenburg, Kings, Halifax, Cumberland, Colchester, Pictou, Richmond, Victoria, Inverness, Antigonish-Guysboro, two in Hants county (Windsor and Shubenacadie), and two in Cape Breton county (Eskasoni and Shubenacadie).

Tribal Origin.—The Indians of Nova Scotia are Micmacs, and are of Algonkin stock.

The majority of the Indians of Nova Scotia are farmers in a small way. They raise considerable garden produce and hay, but cut little or no grain. They have a few horses and cattle. When not employed on their farms they generally seek a livelihood as day labourers or by manufacturing baskets and wood work of various kinds. Lumbering operations provide many with a living, while at certain seasons some are employed as guides and canoe-men. Hunting and trapping is becoming less and less profitable as time goes on and it will probably not be long before this industry disappears altogether. The Indians are gradually taking more and more interest in the fishing industry, and the department encourages them to cultivate this branch of industry.

PRINCE EDWARD ISLAND

Agency.—One agency is sufficient for the purposes of the department in this province, as the total Indian population is only 292.

Tribal Origin.—The Indians of this province all belong to the Micmac tribe, which is of Algonkin stock.

Occupations.—But few of the Indians of Prince Edward Island are farmers. The principal industries are basket-making and fishing. The oyster fisheries, which had been a complete failure for some years, is again profitable and has added somewhat to the income of the Indians.

MANITOBA

Agencies.—The following agencies are included in the province of Manitoba: Fisher River, Clandeboye, Norway House, Griswold, Portage la Prairie and Manitowapah, Pas and Birtle.

Tribal Origin.—The majority of the Indians of Manitoba belong to the Ojibwa race, which is of Algonkin stock. Bands of Swampy Crees are found at the Norway House and Fisher River agencies and in the York Factory district; these are also of Algonkin stock. The Indians located at the Griswold agency are Sioux; there are also Sioux at the Birtle and Portage la Prairie agencies. There is a band of Chipewyans at Fort Churchill; this tribe is of Athapascan stock.

The reserves in Manitoba suitable for extensive agriculture are mainly within the Birtle, Griswold, and Portage la Prairie agencies. On some reserves during the last two years the crops have not been up to standard and the Indians have somewhat lost heart in their farming operations, but generally speaking progress has been satisfactory.

In the northern agencies the occupations are mostly hunting and trapping, but fishing has been becoming a more and more important factor during the past four or five years, and considerable income has been derived therefrom. While fur has been scarce the price has been high and the market for fish has increased. All of the northern Indians are expert guides and canoe-men, and many find employment in this way or with the transport or fur companies.

SESSIONAL PAPER No. 27

In the southern and more settled districts many of the younger people seek employment as day labourers and owing to the high wages have been fairly prosperous. The Indian women make needle work, baskets, etc., for which there is a ready market.

Health.—The health of the Indians throughout the province has been good, in fact, the steady improvement has been very noticeable. More sanitary methods of living and more comfortable houses and more steady incomes have tended not a little towards this improvement. The houses are more comfortable and of better construction; as a rule they are well furnished and the Indians are living in more and more comfort. While in the north the nomadic life of the Indians does not permit of other than the old fashioned log house, still even these are being greatly improved and in some cases are being replaced by suitable frame dwellings.

SASKATCHEWAN

Agencies.—The following agencies are included in the province of Saskatchewan: Assiniboine, Battleford, Carlton, Crooked Lake, Duck Lake, Moose Mountain, Onion Lake, Pelly, Qu'Appelle, and Touchwood Hills.

Tribal Origin.—The most numerous tribes among the Saskatchewan Indians are the Ojibwas, Swampy Crees and Plains Crees, which all belong to the great Algonkin stock. In addition to these, Sioux Indians are found at the Assiniboine, Moose Mountain, Qu'Appelle and Carlton agencies, and on the Moose Woods reserve. In the Onion Lake agency there is a band of Chipewyans, who are of Athapascan stock. There are also a few Chipewyan Indians in the Isle à la Cross district.

The principal occupation of the Indians of Saskatchewan is mixed farming and stock-raising. The close supervision which the department has had over these Indians has tended to greatly improve their method of farming and consequently their crops and income derived from them have greatly increased. Most of the Indians are well provided with good quality of machinery. As a rule they have good stock and suitable houses. Although they cultivated a large quantity of hay there has been but little sale for it owing to the mild winter. In the outlying districts, however, hunting and trapping are still the main sources of income and will so remain until civilization encroaches upon the hunting grounds. The weather is not favourable to farming operations, the drought during the early spring causing many of the reserves to have but light crops.

Health.—The health of the Indians of Saskatchewan has on the whole been good and shows some improvement over previous years. The department hopes this year to institute a staff of nurses, with headquarters at Regina, which will be available for duty at any reserve when called upon. It is hoped that by constant supervision and instruction that the health of the Indians will continue to show even greater improvement than in the past.

Dwellings.—The dwellings of the Indians on the reserves where farming is carried on are now mostly of frame construction. The outbuildings, however, are generally of logs, but even there there has been some improvement.

ALBERTA

Agencies.—The following agencies are included in the province of Alberta: Blackfoot, Blood, Edmonton, Hobbema, Peigan, Saddle Lake, Sarcee, Stony, and Lesser Slave Lake.

Tribal Origin.—The Alberta Indians are of Algonkin stock, with the exception of the Sarcees near Calgary and the Beavers and Slaves in the Lesser Slave Lake

agency, who are Athapascan, and the Paul's band in the Edmonton agency, who are Iroquoian, and the Stonies, who are of Siouan stock. The Algonkin Indians of Alberta are subdivided into Blackfoot nation, comprising the Indians of the Blackfoot, Blood and Peigan agencies, Plain Crees found in the Lesser Slave Lake, Saddle Lake, and Hobema agencies, and a band of Ojibbewas at Moberley Lake, in the Lesser Slave Lake agency.

The principal occupations of the Indians of Alberta are farming and stock-raising. Although climatic conditions were not altogether favourable, the Indians have taken an increasing interest in farming and have been fairly successful. On the Blackfoot reserve more than 100 Indian farmers now have savings bank accounts. Almost all the reserves in the settled districts of the province have large herds of horses and cattle. The Indians of the Blood reserve own upwards of 4,000 head of the finest beef cattle in the province. The farming implements and machinery are the best that can be obtained and up-to-date in every way.

In the northern parts of the province hunting and trapping are still almost the sole sources of income; there is practically no farming carried on and the construction of steamers on the Peace and Athabasca rivers, and of the railways to Peace River Crossing and Fort McMurray have greatly lessened the wages of the Indians with the trading companies and transports. However, the price of fur has been even higher than in past years, although somewhat scarce in quantity.

Buildings in the Southern Part of the Province.—The dwellings and farm buildings are of excellent construction and quality. Almost all the reserves where extensive farming is carried on boast up-to-date modern dwellings, comfortable and well constructed. In the north the nomadic mode of their habits forces them to live under canvas or in tepees during the greater part of the year.

BRITISH COLUMBIA

Agencies.—The following agencies are included in the province of British Columbia: Babine and Upper Skeena, Bella Coola, Cowichan, Kamloops, Kootenay, Kwawkewlth, Lytton, Nass, New Westminster, Okanagan, Queen Charlotte, Stikine, Stuart Lake, West Coast, Williams Lake and Skeena River.

Tribal Origin.—The Indians of the Bella Coola, Cowichan, Kamloops, Lytton, New Westminster, and Okanagan agencies belong to the Salish tribe. The Kootenay tribe is located in the agency of the same name. The Kwakiutl-Nootka tribe is located at the Kwawkewlth and West Coast agencies; the Haidas, in the Queen Charlotte islands; the Tlingits, in the Stikine; and the Tsimshians, in the Naas agency. The Indians of the Babine, Stuart Lake and Williams Lake agencies belong to the Athapascan race.

In addition to these there are about 3,000 nomadic Indians in the province who cannot be correctly classified according to linguistic stock or tribal origin.

Occupations.—The occupations of the Indians of British Columbia vary with their habitat. The Indians situated along the coast earn their livelihood principally by fishing. In many instances they own their own motor-launches, nets and gear, while others are supplied by the various canneries. Many of the women are also employed in the canneries or in the hop fields, and make a very steady income.

The Indians of the Queen Charlotte islands own and operate their own small plant for rendering the oolachan or candle fish. In the inland parts of the province some farming operations are carried on and particularly in the irrigated districts grain, fruits of all kinds, and vegetables have been raised with success.

These Indians have been making marked progress in this regard and are now well equipped with modern machinery.

SESSIONAL PAPER No. 27

The Kootenay, Kamloops, Okanagan and New Westminster Indians own large herds of horses and cattle. While the Indians in the northern and remote parts of the province still depend upon hunting and trapping for their livelihood, the agents report a marked improvement in their manner of living.

Dwellings.—Except for the more remote districts the Indians have built comfortable and modern dwellings and outbuildings. Their progress in this respect has been perhaps more rapid than any other Indians of the Dominion.

NORTHWEST TERRITORIES

Agencies.—The department has only two agencies in the Northwest Territories, one being located at Fort Simpson, and the other at Fort Smith.

Tribal Origin.—The principal tribes found in the Far North are the Slaves, Hares, Loucheux, Secanics, Dogribs, Yellow-knives, Chipewyans and Caribou Eaters. All these tribes are of Athapascan stock. There are a few Crees in the neighbourhood of Chipewyan. These are of Algonkin stock. The most northerly tribes are the Tukudah, who extend to the Mackenzie Delta, and the Copper Mines, who are located along the Coppermine river. The territory occupied by these two last-mentioned tribes is contiguous to that inhabited by the Eskimos.

These Indians depend entirely upon hunting and trapping for a livelihood. The department this year is making a new treaty with the Indians along the Mackenzie river and will thus bring under the supervision of the Dominion Government practically the only Indians of Canada with whom treaty has not been made.

It is anticipated that the discovery of oil at Fort Norman and the resultant increase in transportation and labour will improve the condition of the Indians all through this country. At the present time the various trading companies employ a large number of Indians not only as hunters and trappers but on the transports and at their posts.

A few have been induced to raise small plots of potatoes. They own no horses or cattle, transportation being almost entirely by canoe along the great waterways, or by dogs in winter. They catch and preserve large quantities of whitefish for their own use and for consumption by their dog-trains in winter.

Health.—Tuberculosis and scrofula are the diseases most prevalent among the Indians of the far north. As they are forced to move from place to place their methods of living are primitive and the lack of vegetables is a source of menace to their health; however, conditions are greatly improving.

YUKON

Tribal Origin.—The Forty Mile, Blackstone, and Moosehide bands belong to the Takudh tribe. There is a band of Slavies at Lancing Creek who migrated from Fort Good Hope, on the Mackenzie river; another band of Slavies, called Nakanics, is located at the headwaters of the Pelly river. All these Indians are of Athapascan stock. At Mayo, Selkirk, Little Salmon and Carmacks there are bands belonging to the tribe known as Stick Indians. Bands belonging to the Tlinjit tribe are found at Whitehorse, Teslin Lake, Champagne Landing, and Carcross.

Occupations.—Hunting, trapping, and fishing are the chief occupations of the Yukon Indians, and they have been fairly successful during the past year. The women also derive some revenue from the sale of moccasins and curios of various kinds, while the men are expert at making toboggans and snowshoes. Practically no farming is carried on owing to climatic conditions, but some of the Indians cultivate patches of potatoes and other vegetables.

12 GEORGE V, A. 1922

Health.—The general health of the Indians has been good. No epidemics have been reported and although improvement in sanitary conditions is necessarily slow owing to the remoteness of the district, some improvement has been noticed.

GENERAL SUMMARY

Taken all in all, the progress of the Indians throughout the Dominion has been steady. Unfavourable climatic conditions in certain districts, the general depression felt throughout the country, and the high cost of living have all made themselves felt. The per capita income has slightly decreased, but the value of real and personal progress has been considerably augmented. The educational policy of the department has borne fruit in that the sanitation of the reserves is much improved. The ex-pupils put into practice the teaching that industry and perseverance is the secret of a successful livelihood. As a general rule their operations have been tended with satisfactory results and have proved an object lesson to the less progressive of their neighbours.

The returned soldiers who have been granted loans under the Soldier Settlement Act have, in almost every instance, justified the faith placed in them by the department and their operations would be a credit to any community.

Generally speaking, the year has been a successful one.

Have the honour to be, sir,

Your obedient servant,

DUNCAN C. SCOTT,

Deputy Superintendent General of Indian Affairs.
