ANNUAL REPORT
OF THE
DEPARTMENT OF INDIAN AFFAIRS

FOR THE
YEAR ENDED MARCH 31

1936

OTTAWA
J. O. PATENAUDE, I.S.O.
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1937

*To His Excellency the Right Honourable Baron Tweedsmuir of Elsfield,
G.C.M.G., C.H., Governor General and Commander-in-Chief of the
Dominion of Canada.*

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of Indian Affairs for the fiscal year ended March 31, 1936.

Respectfully submitted,

T. A. CRERAR,
Superintendent General of Indian Affairs.

OTTAWA.

REPORT

OF THE

DEPUTY SUPERINTENDENT GENERAL OF
INDIAN AFFAIRS

FOR THE YEAR ENDED MARCH 31, 1936

REPORT OF THE DEPUTY SUPERINTENDENT GENERAL

Ottawa, July 1, 1936.

The Hon. T. A. CRRERAR,
Superintendent General of Indian Affairs,
Ottawa.

SIR,—I have the honour to submit my annual report for the year ended March 31, 1936.

There has been little change in the affairs of the Indians since the last annual report was made. Details with regard to their economic situation, health, educational progress and other matters will be found under their respective headings in the following pages.

In the summer of 1935 the undersigned inspected the three agencies in the Northwest Territories, namely, Fort Resolution, Fort Good Hope and Fort Simpson, and the Athabaska Agency in northern Alberta, by aeroplane, this being the first time that any official from headquarters had visited the field staff in this part of the Dominion since 1930.

The flight was satisfactory in every way and was not marred by the slightest accident or by an untoward incident. The journey from Lac du Bonnet to the Arctic and return to Edmonton occupied a period of 21 days, the actual flying time being 59 hours and the distance covered over 5,000 miles. In all 27 points were visited, of these the following were visited twice: Aklavik, Norman, Fort Smith, Chipewyan and McMurray.

Nothing was found during the journey that would cause any doubt as to the soundness of the department's administrative policy in the Northwest Territories. The problems affecting the Indians in the northern portions of Canada including the Northwest Territories are quite different from those of the Indians living upon reserves in the more settled parts of the Dominion. The former Indians are still nomads: practically the only vocation open to them is that of hunting and fishing. A few may find employment as guides, river-pilots, wood-cutters, etc., but the majority must derive their livelihood from the same pursuits as have been followed by their ancestors for generations. The department cannot hope to do very much for these people by the development of industry, and it is proposed that efforts should be directed towards helping them to improve their methods of fishing and hunting and by the supplying of ammunition, and fishing twine when needed.

The most serious concern in this area is the one of health and as this is inextricably involved with the Indian mode of life, nomadic habits and uncertainty of regular food supplies, the responsibility is a grave one. The two outstanding features are the extensive tuberculosis incidence and the high infantile mortality among these people. A slow but gradual improvement is being brought about, but for the reasons stated, no rapid or spectacular improvement can be expected.

HISTORICAL SUMMARY

It may be appropriate at this time to give a brief historical sketch of Indian policy and governmental organization.

Since the inception of British rule in North America the Indians have ever been regarded as a special and separate responsibility of Government.

From the time of the first British settlement in New England, the title of the Indians to lands occupied by them was conceded and compensation was made to them for the surrender of their hunting grounds. The Crown has always reserved to itself the exclusive right to treat with the Indians for the surrender of their lands, and this rule, which was confirmed by the Royal Proclamation of October 7, 1763, is still adhered to.

In 1670, during the reign of Charles II, instructions were given to the governors of the colonies, which, among other matters, directed that Indians who desired to place themselves under the British should be well received and protected.

There are still of record numerous agreements and treaties, dating back as far as the year 1664 and made by the British with the Indians of New England, while Canada was still under French Government.

Later it was found necessary to establish an office devoted solely to the administration of Indian Affairs and in 1755, Sir William Johnson was appointed Indian Superintendent with headquarters in the Mohawk Valley, the country of the Six Nations confederacy in what is now the state of New York.

Following the Revolution, the office was removed to Canada and the title of the position was changed to its present form—Superintendent General of Indian Affairs. From that time on a continuing administrative organization has been maintained for the protection and advancement of the Indian interests.

At the end of the eighteenth and the beginning of the nineteenth century the department was divided, the office of the Superintendent General and the Secretary of the department was in Montreal, and that of the Deputy Superintendent General and the Assistant Secretary at Fort George (Niagara).

By a general order, May 13, 1816, the management of Indian Affairs was placed under the control of the Commander of the Forces in the British North American Provinces.

By another general order, on April 13, 1830, the management of Indian Affairs in Upper Canada was placed under Sir John Colbourne, the Lieut.-Governor for that province, while that in Lower Canada remained under military control.

In 1830, by order of His Majesty's Government, the Indian Department in Upper Canada was separated from that of Lower Canada, the former being placed under His Excellency Sir John Colbourne, with Col. James Givins as Chief Superintendent for the province.

The department in Lower Canada was placed under the control of the Military Secretary at Quebec, who at that time, was Lieut.-Colonel Couper, and Lieut.-Colonel D. C. Napier was removed to the Military Secretary's office, to act as secretary with the pay and allowance of a superintendent.

After the Act of Union, in 1841 the head office of the Department of Indian Affairs, now united, continued to be at the Seat of Government, which under the old Province of Canada, was moved from one place to another.

Until 1860 the Imperial Government was responsible for the management and expense of Indian Affairs but in that year it was decided that the Province of Canada should assume the charge.

By the Act 23, Victoria, Chapter 151, entitled "An Act Respecting the management of the Indian lands and property," the management of Indian Affairs was brought under the control of the Crown Lands Department from July 1, 1860, the Commissioner of Crown Lands being from that date, Chief Superintendent of Indian Affairs.

After Confederation the administration of Indian Affairs, which had been under the management of the several provinces, came under the control of the Dominion of Canada.

Indian Affairs was attached to the Department of the Secretary of State at the time of Confederation and the following Secretaries of State were also Superintendents General of Indian Affairs:—

Hon. H. L. Langevin, July 1, 1867, to Dec. 7, 1869.

Hon. Jos. Howe, Dec. 8, 1869, to Jan. 6, 1873.

Hon. Thos. N. Gibbs, June 14, 1873, to June 30, 1873.

By the Act 36, Victoria, Chapter 24, the Department of the Interior was created from July 1, 1873, and the Indian Branch attached to that department.

Since 1880 the Indian Department has been a separate one by the Act 43, Victoria, Chapter 28, assented to May 7, 1880.

The following is a list of the Superintendents General since July 1, 1873:—

Hon. Alex. Campbell, July 1, 1873, to Nov. 6, 1873.

Hon. David Laird, Nov. 7, 1873, to Oct. 6, 1876.

Hon. David Mills, Oct. 24, 1876, to Oct. 16, 1878.

Rt. Hon. Sir J. A. Macdonald, Oct. 17, 1878, to Oct. 16, 1883.

Sir D. L. MacPherson, Oct. 17, 1883, to Aug. 4, 1885.

Hon. Thos. White, Aug. 5, 1885, to Apr. 21, 1888.

Hon. Edgar Dewdney, Aug. 3, 1888, to Oct. 16, 1892.

Hon. T. Mayne Daly, Oct. 17, 1892, to Apr. 30, 1896.

Hon. Hugh J. Macdonald, May 1, 1896, to July 8, 1896.

Hon. Clifford Sifton, Nov. 17, 1896, to Mar. 1, 1905.

Hon. Frank Oliver, Apr. 8, 1905, to Oct. 6, 1911.

Hon. Robt. Rogers, Oct. 10, 1911, to Oct. 28, 1912.

Hon. Wm. J. Roche, M.D., Oct. 29, 1912, to Oct. 12, 1917.

Hon. Arthur Meighen, Oct. 12, 1917, to July 10, 1920.

Hon. Sir Jas. A. Lougheed, July 10, 1920, to Dec., 1921.

Hon. Charles Stewart, Dec. 29, 1921, to June, 1926.

Hon. H. H. Stevens (Acting), June 29, 1926, to July 13, 1926.

Hon. R. B. Bennett (Acting), July 13, 1926, to September, 1926.

Hon. Charles Stewart, Sept. 25, 1926, to June 19, 1930.

Hon. Ian Alistair MacKenzie, June 19, 1930, to August, 1930.

Hon. Thos. Gerrow Murphy, Aug. 7, 1930, to Oct. 23, 1935.

Hon. Thos. A. Crerar, Oct. 23, 1935.

There is only one Indian Act and one Indian administration in Canada. Among the activities of the department are the management of Indian reserves and lands, the management of Indian Trust Funds, relief, education, medical services, and agricultural supervision.

The Indian population by provinces is as follows:—

Alberta	10,900
British Columbia	23,598
Manitoba	12,958
New Brunswick	1,734
Northwest Territories	3,854
Nova Scotia	2,093
Ontario	30,631
Prince Edward Island	224
Quebec	13,281
Saskatchewan	11,878
Yukon	1,359

112,510

RECORDS

The Records of the department date from 1723, and include many valuable historical documents such as original Indian Treaties and Surrenders. Owing to the long period covered, the custody of these records is archival in scope. In some cases the continuity of correspondence on particular subjects extends for more than a century. There are approximately 100,000 subject files. The volume of current correspondence is indicated by the summary for the fiscal year 1935/36 as follows:—

	Received	Sent
Letters	58,736	33,151
Telegrams		
Memoranda	61,259	
Vouchers and returns		

RELIEF AND AIDS TO INDIANS, TRUST FUNDS AND ANNUITIES

With the separation of the accountancy and administration when the Treasury Branch of the department was established, the branch known as Trust Funds, Annuity and Relief Branch was created, and the personnel was largely taken from what had formerly been known as the Accounts Branch. The following is a short report on the administrative activities of the branch:—

RELIEF AND AIDS TO INDIANS

During the past fiscal year many of the Indians of Canada found it necessary to seek assistance from the department in food and clothing due to unemployment and sickness. The Indian was the first to be thrown out of work when the depression started and evidently will be the last to be again absorbed when conditions improve. There seems to be a tendency on the part of employers of labour to refuse employment to Indians considering that they are a public charge and it is not necessary to give them employment where there are white applicants for the job.

Conditions amongst the Indians have improved to some extent during the year, especially amongst the farming Indians of Ontario and Manitoba. In the other Prairie Provinces, due to crop failure, the Indians were very hard up and consequently required more than the usual assistance.

Those Indians whose livelihood depends on hunting and trapping for the most part experienced a poor year and the department was compelled to make increased expenditure on their behalf for food and clothing. This was due largely to the approach of periodic failure of the rabbits and consequent subnormal fur catch, only in part offset by higher prices.

The fishing Indians of the Pacific benefited from larger catch and higher prices except in the Skeena district where the run was low.

During the fiscal year 1935-36 the department expended slightly over \$895,000 from public funds for relief purposes in addition to approximately \$200,000 from Indian trust funds. This expenditure has meant an outlay of approximately \$9 per capita for the Indians of Canada.

The department endeavoured to see that undue hardship was not experienced by any Indian; at the same time the policy has been to use every means available to discourage Indians from remaining in idleness when they might be able to maintain themselves by their own efforts.

INDIAN TRUST FUNDS

These are funds belonging to the various Indian bands in Canada invested with the Dominion Government which allows interest annually which goes to augment these funds. These monies are derived from sale of land, timber, rents, etc., and capitalized annuities.

These funds are credited to 475 accounts belonging to Indian bands throughout Canada.

Bands having sufficient funds to carry on necessary reserve expenditures, and show a surplus, have cash distributions of interest money paid to them twice a year in the spring and in the fall.

The Indian Trust Funds at the close of the last fiscal year amounted to \$13,877,863.60. During the year collections, including Government interest, amounted to \$1,122,429.84, and the expenditure was \$1,055,239.92.

INDIAN ANNUITIES

At the time of the first British settlement of the New England States, the Crown conceded that the Indians held the title to the land and reserved to itself the exclusive right to treat with the Indians for the surrender of their lands. This principle was confirmed by Royal Proclamation of October 7, 1763, and has been adhered to from that time in extinguishing the Indian title to the country as settlement has advanced its frontiers northerly and westerly.

In the early Indian surrenders or treaties, it was customary to purchase the land outright for a definite sum of money or quantity of goods and to set apart a particular tract of land within the boundaries of the land surrendered as a reserve for the settlement of the Indians in order that they might be segregated and the remainder of the land be made available for colonization.

In some cases, however, an annuity, payable to the band of Indians as a whole and in others, to each individual Indian, was agreed upon. In Upper Canada these annuities were all capitalized prior to Confederation by setting apart, to the credit of the bands of Indians, a sum sufficient to provide them with an income equal to the original annuities.

These treaties cover that portion of Ontario lying west of the eastern shore of Lake Huron, the provinces of Manitoba, Saskatchewan, Alberta, and that portion of British Columbia and the Northwest Territories lying in the valley of the Mackenzie River. They are officially known as Robinson Huron, Robinson Superior, and Treaties One to Eleven; the earliest of them was made in 1850 and the latest in 1930.

As a condition of the treaty, the Indians are granted an annuity, in the case of the Robinson Treaties and Treaty Nine, of four (\$4) dollars and in the other treaties of five (\$5) dollars per head per annum. It has been the practice of the department to send out its agents to pay out this money in cash and the methods of making the annuity payments has varied as the means of transportation has improved. At the present time, while there are many places where the Indians call at the agency for their money and in others the agents go on the reserve and set up a paying tent, there are still remote districts where it is only possible for the trip to be made by canoe or motor driven boats and latterly the seaplane has been used extensively in the far north. The trips on Great Slave Lake and down the Mackenzie River are made by boat and as the agents in this district are also qualified medical doctors, they perform the dual duties of physician and agent.

During the present year there are seven agents making treaty payments in their districts by seaplane, each of them being accompanied by a medical doctor who looks after the physical welfare while the Agent is distributing the annuities. As an illustrative example of what a treaty trip involves it may be of interest to follow one of the annuity parties, say that for Treaty 9 which goes out

to New Ontario in charge of an official from headquarters at Ottawa. This party makes use of two seaplanes and the following sketch gives, in some detail, the duties involved in paying Indians their annuity. In each plane is a flying officer and a mechanic of the Royal Canadian Air Force; the paying officer in one plane and the medical officer in the other. The itinerary of this Annuity Party is as follows:—

Upon arriving at Remi Lake from Ottawa, this party makes preparations to call at English River, Ogoki, Fort Hope, Lansdowne, Osnaburgh and then out to Sioux Lookout, where the planes are checked over before the more extended journey into the interior is commenced. After the completion of these further preparations, the party leaves for Cat Lake, Windigo, Trout Lake, Fort Severn, Winisk, Attawapiscat, Albany and thence to Moose Factory, where a further check-up is made before extending the trip to Nemaska and Neoskweskau in the interior of Quebec before its return to Ottawa.

This treaty trip extends over 4,000 miles where calls are made at the above mentioned posts where the Indians have been notified to gather. The notices are sent out in the month of February in order to reach them in ample time.

In addition to making the payments there are questions regarding education, relief, etc., to be investigated and numerous difficulties among the Indians to be adjusted. The doctor too is kept busy vaccinating, inoculating, examining and treating patients from last year and others who have developed sickness or disease since his last visit.

On the Treaty Nine trip \$17,000 in crisp new bills is provided by the Government. New bills are taken because they pack easier and also because they will constitute a large proportion of the money in circulation in the territory for the next year.

In addition to the arrangements made by the department, the Royal Canadian Air Force must put in supplies of gasoline and oil at caches along the route so that the planes will be able to make the trip without carrying too heavy a load of fuel. This is necessary because they have to carry a considerable load of equipment in order to make any necessary repairs to the machines while operating for so long and at such a distance from their base.

The above only constitutes a brief outline of the work carried out and the ground covered in making these annuity trips, but behind the scene there is a great deal of administrative and organization work necessary to ensure the success of these undertakings. Annuities are paid to approximately 50,000 Indians throughout Canada involving an expenditure of approximately \$250,000 annually. Each year it is necessary to make careful preparation for these trips. Each of the fifty paying agents located at various points throughout the country must receive the correct amount of money for his Indians. As many of the Indians have to come considerable distance to the paying centres it is necessary that the paying parties be there on the pre-arranged dates. The transportation of supplies must be scheduled accurately for, it should be remembered, that anyone starting out on one of these trips must take along sufficient supplies to carry out the job and get back home again. In some cases the Agency headquarters is so remote from civilization that the money has to be sent to the Agent by aeroplane from the nearest bank.

The use of planes has shortened very materially the time taken to make payments. For example, the Treaty Nine party will make the trip covering twice the territory that was traversed formerly by canoe in forty-two days whereas it used to take nearly three months. At one point where, if all went well, it took eleven days by canoe to reach the next post, the distance is covered in less than two hours by plane.

INDIAN SOLDIER SETTLEMENT

The administration of this Act to Indian veterans has been carried out by the Department of Indian Affairs and loans were made to 265 Indian settlers throughout Canada. This has meant an expenditure of over \$500,000. The granting of these loans has enabled the department to establish a large number of Indians on the land where they and their children will become an asset to the country and be removed from that state of dependency that so many were inclined to fall into.

It is gratifying to the Indian veterans and the Department of Indian Affairs that the rights of our Indians in Canada have been finally recognized by the Department of Pensions granting the Indians full rights and privileges so far as relief allowances and the Last Post Fund are concerned. The Indian veterans are now entitled to all the privileges that their white comrades have been granted.

These privileges should always have been extended to the returned Indian soldiers for, over 4,000 voluntarily enlisted for the Great War which represents approximately thirty-five per cent of the Indian male population of military age in the nine provinces.

MOTHERS' ALLOWANCES

The Indian women, with dependent children, in the province of Ontario, have been allowed the benefits of the Mothers' Allowance and approximately 100 Indians are being assisted in this manner. This department assumes responsibility for 50 per cent of the allowance. It has been of great assistance and enabled mothers to keep their children with them and provide for them in a way that ensures their proper upbringing physically, morally and intellectually.

THE SITUATION OF THE HUNTING INDIANS

Of late years the affairs of the hunting and fishing Indians have become a matter of grave concern to the department. Hunting and fishing are the aboriginal vocations of the primitive Indians. By immemorial usage the Indians were conservationists and still may be henceforward if protected. On the other hand, if whites are allowed to deplete Indian hunting grounds, the Indians themselves will naturally take all they can, while they can, and there is grave danger that such a situation may bring about intensive competition between whites and Indians, ending in the virtual extermination of valuable species. Indian families, in most cases, are permanent residents, and their hunting grounds are recognized among themselves, and handed down from one generation to another, whereas white trappers are frequently of the itinerant class, whose practice is to trap out an area and then move elsewhere.

Under the British North America Act, the game and fish belong to the provinces, except, of course, in the few remaining federal territories. The problems that arise, therefore, fall into two jurisdictions—federal, over the Indians, and provincial, over the game and fish. Difficulties are overcome by conference and agreement between the federal and provincial authorities. In some parts of the Dominion, Indians possess special hunting and fishing privileges, pursuant to treaties made with the tribes by the Crown.

Latterly there has been an alarming increase in the number of white trappers who are encroaching upon hunting grounds in the northern parts of the various provinces, which were formerly used by Indians only. White trappers are using poison extensively, and this illegal and vicious practice is becoming a serious menace to game conservation. Not a single instance of the use of poison by

any Indian trapper anywhere in Canada has ever come to the attention of the department. It became apparent that failing special protection the Indian trappers in the northern regions would become destitute and indigent owing to the depletion of the game.

In the opinion of the department, the only satisfactory solution of these problems is to set aside adequate areas in which Indians only shall be allowed to hunt.

As a result of close co-operation between the department and the provinces and the federal authorities administering the Northwest Territories, great headway has been made in recent years by way of setting aside Indian hunting preserves with beneficial results, both to the Indians and conservation.

A brief summary of the situation with regard to the hunting and fishing Indians in the various provinces and territories is as follows:—

PRINCE EDWARD ISLAND, NOVA SCOTIA, AND NEW BRUNSWICK

Indians in the Maritime Provinces are in the same position as other people under the provincial game laws and enjoy no special privileges in respect thereto. Some of the Indians claim that they should be exempt from provincial game laws pursuant to certain old treaties dating back to the time of George III, but the courts have not upheld this claim.

QUEBEC

An Order of the Lieutenant-Governor in Council, dated January 16, 1932, provides as follows:—

“Therefore the Honourable the Minister recommends that, in virtue of paragraph 6 of article 48, chapter 96 of the Revised Statutes (1925) the District of Mistassini, the unorganized part of the District of Abitibi, that of Ashuanipi, and also the whole of New-Quebec, be established as a Fish and Game Preserve, where Indians only may carry on hunting for fur-bearing animals.”

The order refers to the above-mentioned areas as “the whole of the North Region of the Province,” and approximates what was formerly the Territory of Ungava.

By a previous Order in Council, an area of approximately 4,000 square miles known as the Abitibi Game Preserve, and an area of approximately 6,300 square miles known as the Grand Lake Victoria Game Preserve, were set aside in like manner for the benefit of the Indians living in the vicinity of Grand Lake Victoria.

ONTARIO

There is a tripartite division of the province for game administration as follows:—

The Eastern Section—All territory lying east of the French and Mattawa rivers;

The Central Section—All territory from the French and Mattawa rivers to the Manitoba boundary and south of the Canadian National Railways;

The Northern Section—All territory lying north of the main line of the Canadian National Railways.

As far as possible it is the object to retain the Northern Section for the Indians living in that area and other residents living north of the Grand Trunk Pacific Railway line that would be eligible for the same privilege as granted to Treaty Indians and half-breeds, with the understanding, however, that as far as the white trappers are concerned their trapping grounds will be limited to a certain given area in close proximity to their respective homes.

In the Eastern Section the Indians are subject to the provincial game laws in the same manner as other people.

In the Central and Northern Sections, trapping licences are issued only by officers of the Game and Fisheries Department for specified areas. In the Central Section, the officers of the province co-operate with the Indian agents with a view to seeing that Indian hunting grounds are not interfered with by other licences.

MANITOBA, SASKATCHEWAN AND ALBERTA

Under the Agreement for the Transfer of the Natural Resources to the Provinces of Manitoba, Saskatchewan and Alberta, made in 1929 between the Dominion and the Provinces, it was provided *inter alia* in each agreement as follows:—

“In order to secure to the Indians of the province the continuance of the supply of game and fish for their support and subsistence, Canada agrees that the laws respecting game in force in the province from time to time shall apply to the Indians within the boundaries thereof, provided, however, that the said Indians shall have the right, which the province hereby assures to them of hunting, trapping and fishing game and fish for food at all seasons of the year on all unoccupied Crown lands and on any other lands to which the said Indians may have a right of access.”

In addition to these privileges it has been the practice of the Prairie Provinces to exempt Indians from payment of licence fees for trapping. Further protection of the Indian interest through the creation of Indian hunting preserves is required in these provinces. In Saskatchewan the department is endeavouring to meet this need in so far as it can by leasing trap lines for Indians from the province. This plan is meeting with considerable success.

BRITISH COLUMBIA

British Columbia is under the registered trap line system whereby a trapper purchases the exclusive trapping rights in a defined area, usually a particular valley. These trap lines are granted for a period of five years with the privilege of renewal, but subject to the compliance with regulations as to the holding of trapper's licence, the regular and effective use of the line and other conditions.

It has been the endeavour of the authorities to give preferential treatment to the Indians, both as to choice of lines and reduced fees. In practice, however, the Indians have not always benefited to the extent intended as the more aggressive and astute white competitors have found ways of securing trap lines that formerly comprised Indian hunting grounds. Steps are being taken, however, to remedy this condition by increased supervision.

There has been some difficulty, moreover, in the adaptation of the system of Indian conservation practise. For example, experienced Indian hunting families have been accustomed to have several trap lines, of which only one is trapped during a particular season, or series of seasons, while the others are left undisturbed for future seasons in order that the fur may be replenished. This, in other words, is a rotation system which is an economic device similar in principle to rotation of crops.

As these questions become better understood, it is expected that the system will work out to the mutual benefit of both Indians and whites, and that former causes of discord will be removed.

Indians in British Columbia also are granted certain special privileges in regard to the taking of game and fish for food. The coastal Indians engage, with success, in commercial fishing, but have no special privileges with regard thereto.

NORTHWEST TERRITORIES

In the Northwest Territories under federal jurisdiction comprising the Arctic Islands and that part of the mainland which lies west of the Hudson's Bay and north of the 60th parallel, special hunting preserves for the exclusive use of Indians or Eskimos have been set aside as follows:—

	Square miles
Arctic Islands Preserve.....	439,105
Yellowknife Preserve.....	70,000
Slave River Preserve.....	2,200
Peel River Preserve.....	3,300
Wood Buffalo Park.....	3,625

This plan has proven to be very satisfactory in the Northwest Territories, both from the viewpoint of game conservation and as a protection for the natives.

It should be noted that Indian Game Preserves are not to be confused with Indian Residential Reserves. The former are tracts in which the Indians have special hunting privileges but no title to the land or resources, while the latter are the real property of the Indians. It may be mentioned that the Indian Residential Reserves, although numerous, are not large and are fairly well settled, so that in consequence the wild life resources on them are very limited. Thus, although the Indians have exclusive hunting rights on their respective reserves, the question is not important.

The reasons which have guided the trend of policy as outlined are epitomized in the resolution passed unanimously by the Inter-Provincial and Dominion Conference held in Ottawa in 1928, as follows:—

"Whereas it is recognized that most of the livelihood of the native Indians of Canada was obtained originally through some form of hunting, and that in unsettled districts in this country Indians are still largely dependent upon hunting, and especially upon hunting by means of traps, to provide them with the means of existence, and

"Whereas the increasing white population of Canada and the increasing money value of fur is causing white trappers in many areas to invade more and more those trapping areas on which the Indians depend, so that results unsatisfactory to both whites and Indians are obtained, and extreme hardship for the Indians may in many cases be expected to result from continuance of this confused and unregulated competition, and

"Whereas restriction of trapping rights in and to limited areas leads to increased interest in the conservation and maintenance of a supply of fur-bearers on those areas,

"Therefore be it resolved that this conference approves a policy of setting aside, as far as practicable, in unsettled regions, certain suitable and reasonable areas whereon Indians only may be allowed to trap."

In accordance with the spirit of this resolution, the Dominion and the provinces by joint effort may be able to save what remains of the wild life from exploitation by fur-miners, and at the same time to assure to the Indians under proper supervision, at least some happy hunting ground where they may pursue their ancient vocations unmolested.

These problems of the hunting Indians, both in Canada and the United States, engaged the attention of the North American Wild Life Conference held at Washington from February 3-7, 1936, where the department was represented and presented a paper entitled "What Canada is doing for the Hunting Indians," which was received with much interest.

INDIAN HEALTH SERVICES

The year under review has been a sickly one, in comparison with other recent years. During the earlier part of the year, whooping cough was very common, and measles somewhat less so. The widespread prevalence of these two diseases, apparent during the past three years, appears to have run its course, at least among Indians. There were many more than the usual number of outbreaks of scarlet fever, and of diphtheria. Fortunately neither of these diseases gained headway enough to become epidemic. Influenza of a fairly mild

type spread widely during the winter between Fort William and the Rocky Mountains. While the death rate from all these diseases does not appear to have been very high, a good deal of effort and expense was required to deal with them.

The development of modern methods of travel, particularly by aeroplane, is not an unmixed blessing, from the standpoint of health. Remote bands of Indians, who used to be beyond the reach of contagion, particularly in winter, no longer escape the diseases current in more settled districts. Measles spread down the MacKenzie river clear to the Arctic during the early part of the past winter. It is fair to observe, on the other hand, that the aeroplane is of the greatest value as a means of conveying medical assistance to these same remote people. In some degree aeroplane travel has ceased to be a novelty, and what have been called "mercy flights" draw less public attention. The records of this Department, however, show that the number of such flights is increasing annually.

It is difficult to estimate whether or to what extent the health of the Indians has been affected by the economic difficulties of the past few years. In Quebec and the Maritime Provinces, where the Indian population has been more industrial than agricultural, the depression has been very severely felt, and it seems to be a fact that tuberculosis is more common than it was. Even this is difficult to be sure of, as the Indians are reporting their diseases more widely than ever before, and the change may be more apparent than real. There is no certain evidence of increase in rickets or other deficiency diseases of childhood.

DEPARTMENTAL HOSPITALS

In last year's report reference was made to a small hospital under construction at the Stony Indian Reserve, at Morley, Alta. This hospital was brought into operation in the summer of 1935. The Stony Indians are somewhat less attracted by new things than are some other Indians, but they are making fair use of the new institution, and it is doing good work, which will increase with time.

There is now under construction, and soon to be opened, a new hospital at Fort Qu'Appelle, Sask., to replace the old File Hills Colony Hospital. The latter institution was begun as a small cottage hospital some twenty-five years ago. It has had a splendid record of usefulness, but has always been a source of anxiety from the standpoint of fire. The new hospital is thoroughly modern, practically fireproof, and more conveniently located to serve the Qu'Appelle and File Hills Agencies, which comprise the area under the medical charge of the Qu'Appelle Indian Health Unit.

TRACHOMA

The special effort to control this disease among Indians is now in its fifth year, and it is possible to make some estimate of progress. The department is fortunate in having been able to retain the services of the specialist employed for this work. The staff of the Indian residential schools have heeded his instructions and co-operated to a remarkable degree. It is certain that substantial progress has been made in these schools. The number of the more active cases has decreased greatly. Though the specialist is very conservative in pronouncing cures, he is now confident that a large number of pupils have been cured, and that a larger number are on the way to cure. There have been no disasters in the course of treatment, and the spread of the disease from the affected pupils to the well in the schools has been remarkably lessened.

The other side of the picture is less encouraging. It is much more difficult to reach adult and elderly Indians on the reserves than to control and treat a body of pupils in a school. The number of young children admitted to the schools with trachoma is not much decreased as yet, but the older generation

is gradually being replaced by young people who have had intensive school training in the care of their eyes. There will be a substantial decrease in a few years in the number of Indians who are capable of transmitting trachoma, or careless of its danger.

On the reserves where it has been possible to provide sustained effort, a good deal of progress is being made. The problem will not be solved in this or the next generation.

TUBERCULOSIS

The department regrets that it cannot report much progress in the control of this disease. In three provinces additional residential schools have been surveyed by the kindness of the Provincial tuberculosis organizations. In another, one large school has been examined by the provincial clinic, and another has been carefully surveyed by the department's own medical personnel. There are plenty of known cases on the reserves. The difficulty is to devise any means of isolating the affected persons at a cost within financial reach. The department has endeavoured in every way to co-operate in the general Government effort to limit the taxpayer's burden. Sanatorium treatment is costly, and home isolation not very effective.

At one residential school an outbuilding was adapted at small cost to serve the purpose of a tuberculosis isolation ward. Quarters are available for 16 children, at a cost for maintenance, and nursing, of about a quarter of the expense for regular sanatorium care. While this is not the first place in which this principle has been applied, it is the first building of the kind to be so arranged. Small units of this kind are apt to develop serious defects unless very carefully supervised. They are useful under good conditions only.

HEALTH IN RESIDENTIAL SCHOOLS

The improvement in the health of residential school pupils during the past ten years has been remarkable. Glandular tuberculosis, or scrofula, has practically disappeared during that period, and pulmonary tuberculosis is much less common. In one province a careful survey of 1,218 in 11 schools disclosed 15 pupils with active tuberculosis. While this proportion exceeds what would be found in a similar number of white children, it is clear that tuberculosis is by no means universal among the growing generation of Indians, as it is sometimes said to be. Some remedial dental and tonsil work is done annually for school pupils. This department would be pleased to be able to do more.

During recent years a definite effort has been made to administer cod liver oil to every Indian school pupil during the winter months. The evidence of its value is universal.

EDUCATION

It may be of interest to sketch briefly Indian educational activities. All the early efforts with Indian children were wholly missionary in character—for nearly 200 years the work was carried on without financial assistance from the Governments. There is record of Recollet Fathers' schools for Indian children in New France as early as 1616; the Jesuits were active early in the 18th century; and settlers in the British colonies established little centres of christianity at this period. These intermittent and only partly successful efforts were continued under British domination—prominence being given to instruction in religion. Even the education of white children received very little attention—in fact the first school in Upper Canada (1784) was for the Mohawk Indians who had settled on the shores of the Bay of Quinte and the first church to be erected in the province (1785) was for the Six Nations Indians of the Grand River Reserve, near Brantford.

Prior to Confederation, day schools were successfully conducted at Lorette, St. Regis, and Pierreville in Lower Canada. At Caughnawaga, educational work was made nearly impossible by local difficulties. However, there were interesting experiments at Chateauguay and Christieville, where Indian boys from Caughnawaga were taken into residence and given a training in the classroom and on the farm. All these school activities received grants from Lower Canada. The Seminary of St. Sulpice, at Oka, maintained a farm school, at which Indian boys were enrolled.

In Upper Canada, the Society for the propagation of the Gospel in Foreign Parts organized the earliest Indian school on the Tyendinaga Reserve (Bay of Quinte). The New England Company, an evangelical organization chartered in 1661 in the reign of Charles II, the Wesleyan Methodist Missionary Society and the Jesuits interested themselves in Indian educational work early in the 19th century. Approximately forty day schools were established in Upper Canada prior to Confederation, but there is record of only two of them receiving grants from the Governments of the day. Special institutions for the education of Indians were established at this time: the Mohawk Institute by the New England Company; the Alderville and Mount Elgin Boarding Schools by the Wesleyan Methodist Missionary Society, and the Wikwemikong Boarding School by the Jesuits. In addition, there was a community training centre established by the Governor of Upper Canada at Manitowaning, on Manitoulin Island. This enterprise was for the education of both young and old; but, as it did not appeal to the Indian temperament, it was abandoned in 1856, after twenty years of effort.

It should be recorded that in 1848 certain Indian bands in Upper Canada agreed to set apart for the purposes of education one-quarter of the amount received in commutation of their annual distribution of ammunition. This Indian school fund was used largely for the maintenance of the Alderville and Mount Elgin Boarding Schools, payments being made on a per capita grant basis—so much per child per year. Right at the outset of governmental association with Indian educational activity, we find two of the outstanding characteristics of the present system—church co-operation in the work and per capita grant payments to residential schools.

Prior to Confederation there was practically no organization of Indian schools in other parts of Canada. Missionaries interested in the education of Indian children were opportunists—classes being conducted whenever and wherever the activity gave promise of even a little success. The New England Company experimented with foster homes for Indian children in New Brunswick even before it applied its energy and funds to the work among the Six Nations. A Church of England chaplain to the Hudson's Bay Company conducted a boarding school for Indian children on the Red river as early as 1822. A Roman Catholic priest tried an agricultural school for young Indians at Baie St. Paul, now St. Eustache, Man., in 1833. There is record of day schools in various parts of the west, all conducted by Roman Catholic, Church of England and Methodist missionaries. In British Columbia the New England Company began work early in the 19th century from which developed the present Lytton Indian Residential School.

At Confederation Indian schools were supported for the most part by missionary societies, religious orders and the Indian bands—little financial assistance being given by the legislatures. Low salaries were paid and the attendance was irregular and, as a consequence, the schools were not effective. When the British North America Act placed the responsibility for the Indians of Canada with the federal government, reports from Indian schools were forwarded to the Department of the Secretary of State, a branch of which was made the administrative office for Indian Affairs. In 1867 one residential school, the Mount Elgin Institute, with an enrolment of 52, and forty-nine day schools

with a total of 1,664 pupils—all in Ontario and Quebec—were recognized by the Indian office. There were several Indian schools, entirely missionary in character, that did not make returns to the Government. The two most important of these were the Mohawk Institute at Brantford, supported by the New England Company, and the Roman Catholic boarding school at Wikwemikong.

During the year, 79 residential schools, 270 day schools and 10 combined white and Indian schools were in operation—a total of 359 centres for Indian educational activity. The total enrolment was 18,033 and the average attendance, 13,849. The percentage of attendance was 76·79.

Ten years ago, there was a total of 341 Indian schools, with a total enrolment of 14,782 and an average attendance of 71·69 per cent. Higher salaries and grants have attracted better qualified teachers and instructors. Further, Indian communities have evinced more interest in their children's welfare. The following table will show the increase in enrolment and attendance:—

Fiscal year	Residential Schools		Day Schools		Total		
	Enrolment	Average attendance	Enrolment	Average attendance	Enrolment	Average attendance	Percentage of attendance
1925-26.....	6,327	5,658	8,455	4,940	14,782	10,598	71·69
1926-27.....	6,641	5,881	8,069	4,660	14,710	10,541	71·66
1927-28.....	6,795	6,043	8,223	4,823	15,018	10,866	72·35
1928-29.....	7,075	6,282	8,272	4,976	15,347	11,258	73·35
1929-30.....	7,302	6,476	8,441	5,103	15,743	11,579	73·55
1930-31.....	7,831	6,917	8,584	5,314	16,415	12,231	74·51
1931-32.....	8,213	7,400	8,950	5,707	17,163	13,107	76·36
1932-33.....	8,465	7,613	8,960	5,874	17,425	13,478	77·40
1933-34.....	8,596	7,760	8,852	5,592	17,448	13,352	76·52
1934-35.....	8,709	7,882	8,851	5,560	17,560	13,442	76·54
1935-36.....	8,906	8,061	9,127	5,788	18,033	13,849	76·79

In ten years, the enrolment has increased approximately 22 per cent and, not only are more children attending, but they are attending more regularly. This has had an interesting effect on the academic standing of pupils. In 1925-26, 1,091 Indian children were studying in Grade 6 and higher. Last year, 2,098 were in the higher grades.

This is gratifying, but there is much yet to be desired as far as day school attendance is concerned. Every energy is being bent to make instruction at these schools attractive. Better qualified teachers, more interesting texts and teachers' aids, more playground and outdoor activities and better correlation with the Indian home environment are the aims. The Department of Indian Affairs and the Churches interested are making special efforts to give better vocational training to pupils at Indian residential schools. It is the aim to make graduates of these institutions self-supporting members of their respective communities. Instructors have been asked to correlate classroom exercises with vocational training and home interests. To this end, more and better equipment for these schools is being provided as funds for the purpose permit.

Several of the churches are actively engaged in the management of Indian day and residential schools. This co-operation of the Church in the case of residential schools is as follows:—

	Residential schools
Roman Catholic.....	44
Church of England.....	20
United Church.....	13
Presbyterian Church.....	2
Total.....	79

The health of Indian children, particularly in residential schools, has been the subject for considerable thought and activity. A special effort is made in the matter of physical education and fairly comprehensive medical and dental supervision and treatment are provided. The Department is co-operating with the Canadian Junior Red Cross, with a view to better health for Indian children.

All the Indian schools are inspected frequently by department officials. In addition, public and separate school inspectors visit all classrooms, except in the provinces of New Brunswick and British Columbia, where there are special Indian school inspectors. More thorough inspection has resulted in a higher standard of instruction. Classroom activity in Indian schools is now comparable to the work in white schools of the same localities.

Indian schools follow the provincial curricula but place special emphasis on language, reading, domestic science, manual training and agriculture. In the junior grades, there is a departure from the provincial courses, which were found not altogether suitable in either scope or content for Indian children.

During the year, two modern, fireproof residential school buildings were erected—the Shingwauk Residential School at Sault Ste. Marie, Ont., and the Qu'Appelle Residential School at Lebret, Sask. The former building provides accommodation for 150 pupils and the latter for 250. Seven day school buildings were erected, four of which provide living accommodation for the teacher. Funds to erect these buildings were provided under the Public Works Construction Act. School buildings and equipment were maintained in a good state of repair, as the funds provided for the purpose would permit.

Approximately 200 graduates of Indian schools, who showed academic promise received grants for the purpose of continuing their studies at high schools, universities and business colleges. The policy is to make grants to the most promising physically fit graduates of our own schools. If church and department representatives consider a graduate worthy, a grant is allowed when the bona fide intention of the pupil is evident and provided proper supervision can be secured for the period of advanced study. These tuition grants are continued only when satisfactory reports are received. Last year, besides those taking advanced work, there were approximately 180 Indian children attending white schools and orphanages. All these are in addition to the enrolment at Indian schools as shown in the tabular statements in Part 2 of this report. The expenditure from Parliamentary Appropriation on behalf of these special students amounted to \$26,800 during the year.

The practice of assisting selected ex-pupils of residential schools to start farming and housekeeping has been continued. The expenditure for this purpose amounted to approximately \$4,000.

The department recognizes the co-operation and services given by the principals and staffs of the residential schools and the teachers in the Indian day schools in the education of the Indian youth of Canada.

The expenditure for Indian education for the fiscal year ended March 31, 1936, amounting to \$1,936,744.17, is analyzed in the following table. In addition to this amount, there was expended for educational purposes, from a special appropriation for British Columbia Indians, the sum of \$10,911.40. This last amount was used for technical training for British Columbia Indian schools and in assisting promising graduates to continue their studies.

INDIAN EDUCATION—EXPENDITURE FOR YEAR 1935-36

Provinces	Day Schools	Residential Schools	Stationery	Tuition and assistance to ex-pupils	Miscel- laneous	Total

LANDS AND TIMBER

LANDS

The problem of the Indian, of his land, and the use of his land, affecting as it does every province in the Dominion, is one of the major administrative responsibilities of the department. It involves a racial group of 113,000 in various stages of assimilation, a group which during the last decade or two shows an upward trend after a long period of decline.

Owing to the manner in which the reserves were originally selected and the purpose for which, in many instances, they were created, there is as a result, a very great disparity in the distribution of land assets among the component parts of the entire group. A comparatively small number of bands own the bulk of the productive assets as a result of the change which has in the meantime taken place in general conditions. Originally the Indian subsisted in moderate comfort upon the harvest of that which nature provided, mainly without human aid, and although clinging pertinaciously to this primitive economy, the intrusion of the white population into the surrounding lands has now taken from them this natural means of subsistence, as with the advance of settlement game of all kinds has practically disappeared, never to return, at least in organized districts, and the Indian in settled areas is now faced with the necessity of turning to other means and methods to support himself and his dependents. Their only alternative, obviously, is in the proper utilization of their land resources and unfortunately in many instances these resources are not now of much value, the lands having in the first place been chosen as hunting and fishing preserves.

The bulk of the Indian population always has lived and now lives in rural or unsettled areas. It is plainly evident that it is neither possible nor desirable to make any effort to transplant any part of it to urban industrial centres. Their future is on the land and during recent years the department has, as a matter of definite policy, been giving increasing attention to the active and continuous development of these land holdings in order that year by year an increasing number may be made self-supporting. Progress is being made, though necessarily slow, as such a transformation in the life and habits of a people can only be brought about by patient, sympathetic and consistent effort

and instruction. Through the issue of Location Tickets it is the policy of the department to vest in individual Indians recognized ownership of individual pieces of property and these owners are in many cases permitted to lease their lands to white farmers or tenants but, unfortunately, the result has been that many of these owners are by that means encouraged to continue their idleness by the unearned income derived in this way. It is the present policy of the department to restrict and discourage a continuance of such a condition, and to make as much land as possible available for Indian use, and through instructional assistance to encourage the Indian locatees to cultivate them, thereby receiving a maximum return from individual initiative and in general to raise the efficiency of Indian agricultural effort. Rarely, however, do these new farm owners possess either the capital, the driving incentive or the guiding direction necessary to transform their land into productive farms, but the department, in so far as is possible, owing to the limitation of funds available for the purpose, extends a helping hand in the way of purchase of stock and equipment, supplemented by the supervisory assistance of either a farm instructor or the Indian agent.

THE LOCATION TICKET SYSTEM

The Location Ticket System has not been applied generally, but is in effect on many of the reserves particularly adapted to agriculture. It has been found to involve a problem which is giving the department some trouble through the creation of what might be described as absentee landlords. In many instances Indian members or descendants, having obtained location tickets, leave the reserve for lengthy periods or permanently, but continue either to hold their lands unproductive and unoccupied or to lease them to white tenants. This is a most undesirable situation, and is forcing the department to the consideration of some definite policy of basing land ownership on occupancy or beneficial use. It is encouraging to note, however, during recent years a decided increase of interest being taken by many Indian farmers in improvement of live stock and farming methods in general. In fact, on several reserves in Eastern Canada the Indian farmer is setting the pace for his white neighbours. This is most encouraging, and indicates that Indian rural rehabilitation is possible through the recreation of Indian initiative, ambition and self-reliance.

Indian reserves throughout the Dominion comprise an area of 5,169,975 acres and are valued at \$52,970,662. Some 220,714 acres are under cultivation.

LIVE STOCK AND AGRICULTURE

The grain growing and live stock activities and interests of the Indians centre chiefly in the three Prairie Provinces of Manitoba, Saskatchewan and Alberta, where by reason, mainly, of the terms and conditions involved in the original Indian treaties, the department has a more direct control over the Indian crops and cattle and a settled agricultural policy is in effect. On many of the larger reserves in these provinces farming instructors are employed whose duty it is to assist and instruct the Indians in their farming operations. Accurate records are kept of the various agricultural activities and from these statistics it is easy to determine what progress is made. Periods of depression or long, hard winters, have, of course, an important effect, and the advance of one season is sometimes completely wiped out by these unforeseen circumstances beyond control. The seasons of 1934-35-36 were in many ways most discouraging to the Indian farmers, and during the last fiscal year, notwithstanding the fact that 148 more Indians were engaged in farming on the prairies, there was a decrease of 1,425 acres under cultivation and a noticeable lessening in the planting of wheat and oats. Wheat produced amounted to 181,338 bushels from 24,655 acres,—a decrease from the previous year of 4,421 acres and 137,096 bushels. On

the other hand, the 17,873 acres sown to oats represented a decrease of 1,335 acres, but there were produced 325,730 bushels, an increase of 90,164 bushels. This fact would appear to indicate that conditions in the prairie reserves were, on the whole, more favourable to the growing of oats than wheat. In regard to all other phases of agricultural work, an increase is observed over the previous year.

Due to exceptionally severe weather conditions there is an inevitable and substantial decrease to report concerning Indian live stock. The figures for March 31, 1935, and March 31, 1936, being 24,369 and 23,176. A long, hard winter following a poor crop season resulted in necessary reductions in the Indian herds. The decrease, in part, represents cattle sold owing to shortage of fodder and in addition many deaths occurred due to exposure.

During recent years there has been substantial improvement in the quality of the Indian cattle due to the policy of the department in furnishing, wherever possible, pure-bred breeding stock.

EASTERN CANADA

An outstanding example of agricultural progress among the Indians of Eastern Canada during 1935 was the installation of a seed cleaning plant on the Tyendinaga reserve in western Ontario. The Indian farmers on this reserve are efficient and progressive and their farms are equal to if not superior to the average white farm in that district. It was at the request of the band that the seed cleaning plant was purchased, the cost of about \$1,100 being borne partly by the Indians, partly by the department and the remainder by the provincial Department of Agriculture. In addition to the direct benefit to the Indians, this plant will be of great service to the white farmers of the adjoining municipality.

In the Port Arthur Agency an extensive clearing campaign is under way with a view to reclaiming waste lands and developing them into valuable agricultural holdings for the Indians of that agency. In the Caradoc Agency certain of the more progressive Indians have been supplied with horses and machinery to enable them to cultivate their lands properly and if the experiment proves successful, it is the intention to extend this form of direct assistance. In other Ontario agencies agricultural activities are carried on in accordance with modern and advanced methods, several having long-established agricultural societies in operation at which there is annually keen competition in field and garden crops and also in ploughing matches.

GRANTS TO AGRICULTURAL FAIRS

For some years it has been the practice of the department to offer encouragement to Indian agricultural societies or organizations by offering grants in various amounts for the purpose of giving prizes at their fall fairs and other gatherings. In 1935 these grants amounted to \$6,230 and were as follows:—

Caradoc Fair and Crop Competition..	\$300 00	
Garden River Agricultural Society..	100 00	
Snake Island Agricultural Society..	50 00	
Manitoulin Island Unceded Agricultural Society..	150 00	
Chemong Fair (Rice and Mud Lakes)..	75 00	
Sarnia Agricultural Society..	200 00	
Oshweken Agricultural Society..	300 00	
Ploughing Matches, various Ontario agencies:		
Prizes..	\$350 00	
Expenses..	300 00	
	<hr/>	650 00
Crop competitions, various Ontario agencies:		
Field Crops..	\$360 00	
Gardens..	250 00	
	<hr/>	610 00

Thunder Bay Agricultural Association	\$300 00
Bulkeley Valley Fall Fair	100 00
Farmers' Institute, Bella Coola	25 00
Cowichan Agricultural Society	150 00
North and South Saanich Agricultural Society	50 00
Windermere District Fall Fair	150 00
Cranbrook Agricultural Society	100 00
Chilliwack Fair	100 00
Armstrong Fall Fair	300 00
Northern British Columbia Agricultural Indian Association	200 00
Vanderhoof Ploughing Association	50 00
Field Crop Competitions, Stuart Lake Agency	100 00
Fredericton (N.B.) Exhibition	25 00
Rosburn Agricultural Society	20 00
Regina Agricultural and Industrial Exhibition Association, Ltd.	500 00
Calgary Exhibition and Stampede, Ltd.	500 00
Edmonton Exhibition Association, Ltd.	500 00
Vancouver Exhibition Association	500 00
International Handicrafts Festival, Vancouver	125 00

LEASES AND LOCATION TICKETS

Under the provisions of the Indian Act, during the fiscal year 1935-36 there were 171 leases issued to white men at the request of Indian locatees, and during that period there were 914 leases current. One hundred and twenty-nine location tickets, granting title under the provisions of the Indian Act to individual owners, covering lands on reserves, were issued, and at the present time 3,048 such location tickets are current.

INDIAN ENFRANCHISEMENTS

Under the provisions of Section 114 of the Indian Act there were carried out during the past fiscal year 42 enfranchisements, comprising a total number of men, women and children of 93.

TIMBER

The quantity of timber cut for sale, from Indian reserves throughout the Dominion was 25% less during the season 1935-36 than in the previous year. In many instances timber licensees were unable to operate, owing to adverse market conditions, but the Indians themselves cut approximately 50% more timber for sale under permit.

The policy of waiving collection of dues, or of reducing the tariff on timber cut by the Indians, was continued in large measure, as a form of relief, so as to enable the Indians to earn their livelihood.

The kinds and quantities of timber cut for sale during the season 1935-36, on which royalty and dues were collected, were as follows:—

Pine (white)	f.b.m.	32,495
Pine (yellow)	f.b.m.	74,865
Pine (Banksian or Jack)	f.b.m.	3,930
Spruce	f.b.m.	1,184,704
Hemlock (western)	f.b.m.	1,480,601
Hemlock (eastern)	f.b.m.	153,104
Cedar (red)	f.b.m.	863,580

Piling	l.f.	50,042

The above quantities expressed in terms of board measure feet represent a cut of approximately 22,000,000 f.b.m. but an additional quantity of 9,000,000 f.b.m. was cut by the Indians, free of dues, while a further quantity of approximately 10,000,000 f.b.m. was cut by them for building, fencing and fuel purposes.

Revenue receipts during the year were as follows:—

Bonus payments on timber..	\$ 5,000 00
Licence royalties and dues..	16,923 21
Permit royalties and dues..	18,699 65
Rentals from licensees..	1,765 10
Licence fees..	278 00
Interest payments..	225 00
Trespass dues	22 20
Fines..	139 00
Total..	<u>\$43,052 16</u>

Sales of timber during the year were as follows:—

	Deposits
Waump and Kaitoowis Reserves, B.C.	\$ 350 00
Kunstamis Reserve, B.C.	250 00
Kwatze Reserve, B.C.	200 00
Howeet Reserve, B.C.	160 00
Clatse Reserve, B.C.	200 00
St. Croix Reserve, N.S.	100 00
Grand Lake Reserve, N.S.	100 00
Total deposits..	<u>\$ 1,360 00</u>

There were nineteen timber licences current on April 1, 1936, being one more than the previous year, five new licences having been issued, three terminated and one cancelled.

FOREST PROTECTION

The number of forest fires reported on Indian Reserves during the year 1935 was 24, being 10 less than the previous year, and the quantity of timber destroyed was approximately one-half of that burned during 1934.

A summary of the salient features with regard to forest fires during 1935 is shown hereunder:—

Total number of fires reported..	24
Total area burned.. acres	2,280
Timbered area burned.. acres	575
Area of second growth burned.. acres	996
Area of cut over lands burned.. acres	709
Quantity of log timber destroyed.. f.b.m.	220,000
Quantity of other timber destroyed.. cords	3,225
Value of timber and wood burned..	\$2,324 00
Value of other property burned..	nil
Cost of fire fighting..	\$2,082 60

FOREST FIRE CLASSIFICATION

<i>Size of Fire</i>		<i>Monthly Occurrence</i>	
"A" class, less than 1 acre....	7	April..	1
"B" class, less than 10 acres....	6	May..	7
"C" class, less than 100 acres....	8	June..	1
"D" class, less than 500 acres....	2	July..	6
"E" class, more than 500 acres..	1	August..	7
		September..	2
<i>Cause of Fire</i>		<i>Locality</i>	
Indians..	2	Quebec..	1
Campers..	4	Ontario..	14
Brush burning..	5	British Columbia..	9
Smoking..	4		
Lightning..	2		
Berry pickers..	2		
Incendiary..	2		
Unknown..	3		

The department does not maintain a fire fighting organization other than as represented by a few Indian fire rangers, but arrangements have been made with the various provincial governments, whereby forest fires on Indian reserves are extinguished by the provincial forest service, with the assistance of the Indians.

MINING

The revenue derived from mining activities on Indian reserves, including the removing of sand and gravel for road construction purposes, was about the same as the previous year.

Such revenue is summarized as follows:—

Bonus on gravel pit reserve 38B..	\$ 235 00
Royalty on mining and gravel permits..	4,305 50
Rental on mining leases..	151 50
Rental on mining permits..	1,236 25
Prospecting fees..	285 00
Compensation paid for Indians..	285 50
Total..	<u>\$ 6,498 75</u>

PRINCIPAL OUTSTANDING

The total amount of principal outstanding on account of Indian Lands sold as at March 31, 1936, was \$1,194,522.85.

CONSTRUCTION AND MAINTENANCE OF ENGINEERING WORKS

The following is a summary of some of the more important engineering works which were undertaken during the fiscal year 1935-36 and paid for from either government appropriation or band funds:—

BRIDGES

Bridges and culverts were constructed or repaired on the following reserves:—

Six Nations, Ontario; Dog Creek, Fisher River, Fairford, and Brokenhead, Manitoba; Bella Coola and Metlakatla, British Columbia; Paul's Reserve, Alberta; and Maniwaki, Quebec.

DRAINAGE SYSTEMS

Drainage works were carried out on the Caughnawaga Reserve, Quebec, and Rama and Sarnia Reserves, Ontario.

DYKING AND BREAKWATERS

Dyking works were constructed or repaired on the following reserves:—

Nanaimo No. 3, Stony Creek, Cowichan No. 1, Massett No. 1, Matsqui, Katzie and Sumas Reserves in British Columbia; Whycomomagh Reserve, in Nova Scotia.

The construction of a breakwater was continued at McIntyre Bay Reserve, Ontario.

IRRIGATION

Irrigation systems were constructed, extended or improved in British Columbia on the following reserves:—

Okanagan No. 1, Fountain No. 3, Fountain No. 10, Kamloops No. 1, Columbia Lake, Lytton No. 29A, 24, 2 and 2A, Lower Nicola No. 10, Osoyoos No. 1, Skuppah No. 2, Bonaparte No. 3, Neskainlith No. 2, Sahlalkum, Canoe Creek, Shuswap, Lytton No. 18, Lytton No. 1, and Deadman's Creek.

ROAD WORK

Construction, improvements, maintenance and repairs of roads and highways were carried out on the following reserves:—

Alberta.—Blackfoot.

British Columbia.—East Saanich, Cheam, Lytton No. 9, Mission No. 1, Scowlitz, Pauquachin, and Kootenay.

Manitoba.—Peguis and Fisher River.

New Brunswick.—Tobique.

Nova Scotia.—Middle River, Whycomomagh, Indian Brook, and Millbrook No. 27.

Ontario.—Cape Croker, Six Nations, Caradoc, Rice Lake, Mud Lake, Shesheganing, Sarnia, New Credit, Thessalon, Golden Lake, Tyendinaga, Saugeen, Fort William, Manitoulin Island, Moravian, Shawanaga, Stony Point, Alnwick, Oneida, Parmachene, Mississauga, Walpole Island and Pic.

Quebec.—Maniwaki, Oka, Ouatichouan, Bersimis, Abenakis, Restigouche, Lorette, and St. Regis.

Saskatchewan.—Kahkewistahaw and Onion Lake.

WATER SUPPLY SYSTEMS

Water supply systems were improved or put in a state of repair on the following reserves:—

Port Simpson, Sooke, Tahltan Indian Village, Skidegate in British Columbia, and Abenakis Reserve in Quebec.

WHARVES AND DOCKS

Improvements were carried out to wharves and docks in the Klemtu Indian Village, British Columbia, and at Berens River and Itatsoo, in Manitoba.

SURVEYS

The following surveys were performed in the fiscal year ending March 31, 1936:—

BRITISH COLUMBIA

Surveys were made to re-establish the boundaries of Pacheena I.R. No. 1, Gordon River I.R. No. 2 and Alberni I.R. No. 2.

SASKATCHEWAN

The boundary between Peepeekeesis I.R. No. 81 and Okanase I.R. No. 82 was surveyed.

MANITOBA

Subdivision of the surrendered hay lands in St. Peters I.R. No. 1 was completed. The boundaries of Buffalo Point I.R. No. 36 and of Reed River I.R. No. 36A were established.

ONTARIO

Lake shore subdivisions for cottage sites were made in Lots 27 to 30 and Lots 35 to 40, Con. 2 E., Lots 33 and 34, Con. 1 W., Lots 51, 52, 53, Cons. 3 and 4 W., in the Cape Croker I.R. No. 27. Survey was made of unpatented land in front of Lots 6 and 7, Con. 4, S. Cayuga.

The boundaries of Lots 9A and 10A, Tyendinaga I.R. No. 38, were re-established and a subdivision made of Lot 10A.

QUEBEC

A retracement survey was made in connection with Lots 16 to 19, Road Range West, and a division was made of Lot 19, Maniwaki I.R. No. 18.

NEW BRUNSWICK

Lots A, B, C, D and E, in Red Bank I.R. No. 4, were surveyed. The boundaries of Lot 25 and the north boundary of Lots 23 and 24, Red Bank I.R. No. 7, were re-established.

BUILDINGS

From funds provided in the Public Works Construction Act of 1934 the construction of the Shingwauk Indian Residential School located at Sault Ste. Marie, Ont., was completed. This building replaces the old one known as the Shingwauk Home. The new building has accommodation for approximately 150 children and staff, and is of fireproof construction.

There was also completed at Le Bret, Sask., the new Qu'Appelle Indian Residential School. This building replaces the old school which was destroyed by fire some few years ago. The new building is entirely of fireproof construction and has accommodation for 250 pupils and staff. Funds were provided under the Public Works Construction Act of 1934 for this school.

A modern up-to-date hospital with accommodation for 50 patients was erected on property purchased for the purpose at Fort Qu'Appelle, Sask. The building is entirely of fireproof construction and the funds were provided under the Public Works Construction Act of 1934.

A combined office and residence was erected at St. Regis, Que., for the Indian Agent and detachment of the Royal Canadian Mounted Police.

As far as funds would permit repairs and improvements were made to the agency buildings in various parts of Canada.

SUMMARY OF INDIAN AFFAIRS BY PROVINCES AND TERRITORIES

The local administration of Indian bands, on the reserves scattered throughout the Dominion, is conducted through the department's agencies, of which there are in all 117. The number of bands included in an agency varies from

one to more than thirty. The staff of an agency usually includes various officers, in addition to the agent, such as the medical officer, clerk, farm instructor, field matron, nurse, constable, stockman and others, according to the special requirements of the agency in question. At many of the smaller agencies in the older provinces, where the Indians are more advanced, the work is comparatively light, requiring only the services of an agent. The work of the agencies is supervised by the department's inspectors.

The total staff of the department does not vary very much from year to year in number. The number of employees fluctuates between 1,100 and 1,200, of whom only 65 are at headquarters and the remainder in the field.

ONTARIO

Agencies.—The Indian Agency offices in Ontario are located as follows: Brantford (Six Nations), Cape Croker, Chapleau, Chippewa Hill (Saugeen), Christian Island, Deseronto (Tyendinaga), Roseneath (Alnwick), Fort Frances, Gore Bay, Hagersville (New Credit), Highgate (Moravians), Kenora, Longford Mills (Rama), Manitowaning, Moose Factory, Muncey (Caradoc), Parry Sound, Peterborough (Rice and Mud Lakes), Port Arthur, Port Perry (Scugog), Golden Lake, Sarnia, Sault Ste. Marie, Sutton West (Georgina and Snake Island), Sturgeon Falls, Thessalon, and Walpole Island.

Tribal Origin.—The great majority of the Indians of Ontario are Ojibwas, and are of Algonkin stock. The Oneidas of the Thames, the Mohawks of the Bay of Quinte, the Mohawks of the Parry Sound district, and the Six Nations of the Grand River, are of Iroquoian stock. There is a band of Pottawattamies at Walpole Island, and Delawares at the Caradoc (Muncey) agency; these are of Algonkin stock.

Occupations.—The Indians in the southwestern and central parts of Ontario engage largely in farming. The reserves generally are well suited to this purpose and the activity of the department's field agents has resulted in a steady improvement both in the methods of operation and the results achieved.

During the summer months Indians find a profitable source of income as guides and canoe-men. Others are employed at various industries and trades. The Indians are proficient bushmen and many find employment in the various lumber camps. There is still a market for snowshoes, canoes, and moccasins, and these are usually manufactured by the older members of the community, although in some areas successful efforts have been made to engage the younger generation in these distinctive Indian pursuits.

The women also find sources of income; some are employed as domestics; others support themselves by making baskets and fancy work. In certain districts berry-picking is an important item and furnishes considerable income. In the more settled districts many of the Indians own houses of brick, stone or modern frame construction and on some reserves both houses and farm buildings are comfortable and well built. In the outlying and more remote parts the old type of log houses still predominate and tents and tepees are used during the summer months.

New Ontario.—In the remote parts of Ontario hunting and fishing are still the chief sources of livelihood. Acting as guides and canoe-men during the summer months adds considerably to their income. While agriculture is not carried on to any extent, most of the bands grow considerable crops of potatoes and vegetables. They are, of necessity, more or less nomadic and consequently live in tents most of the year.

QUEBEC

Agencies.—The following agencies are included in the province of Quebec: Becancour, Bersimis, Caughnawaga, Gaspé, Pointe Bleue, Lorette, Maria, Mingan, Oka, Maniwaki, Restigouche, Seven Islands, St. Augustin, St. Regis, Pierreville, Timiskaming and Cacouna.

Tribal Origin.—The principal tribes found in Quebec are: Iroquois at Caughnawaga, Lake of the Two Mountains, and St. Regis; the Hurons of Lorette are also of Iroquoian stock; the Montagnais, who are of Algonkin stock, at Bersimis, Mingan, Lake St. John, Seven Islands; the Abenakis, also of Algonkin stock, at Becancour and St. Francis; the Micmacs, also of Algonkin stock, at Maria and Restigouche; and the Maliseets also of Algonkin stock, at Viger.

Occupations.—In the agricultural districts of the province the Indians engage in mixed farming. In the Gaspé peninsula the Indians find employment in the lumber camps and mills, but on the north shore of the gulf, fishing, hunting and trapping are still the principal sources of income. In the northern part of the province lumbering is the chief pursuit. One of the principal industries of the Indians of Quebec is making baskets, and many of the Indians spend the summer months at the resorts in order to dispose of the baskets, lacrosse sticks, racquets, moccasins and other articles to the tourists. Some of them, particularly in the Saguenay district, act as guides and canoe-men. The Indians of the large Caughnawaga reserve situated near Montreal are expert steel workers and find highly profitable employment when building operations are active.

Dwellings.—In the older settled districts of the province many of the Indians own stone, brick or frame houses of good construction, comfortable and sanitary. In the more remote districts, where hunting and trapping are still the principal occupations, the Indians necessarily live in tents during a great part of the year.

NEW BRUNSWICK

Agencies.—There are three agencies in the province of New Brunswick, the Northeastern, located at Richibucto, the Northern, located at Perth, and the Southwestern, located at Fredericton.

Tribal Origin.—The majority of the Indians of New Brunswick belong to the Micmac race, which is of Algonkin stock. In addition to these there are some bands of Maliseets, also of Algonkin stock.

Occupations.—The Indians of New Brunswick are among the least progressive in the Dominion. Their farming operations are restricted mostly to the growing of potatoes for the own use. Formerly they derived a substantial income from hunting and trapping, but in later years this has dwindled to an almost negligible amount owing to the scarcity of fur-bearing animals. A considerable number find employment in the lumber camps and others as day labourers. In the southern part of the province the Indians are engaged commercially in the manufacture and sale of Indian wares.

Dwellings.—The dwellings of the Indians in New Brunswick for the most part are small, of poor construction and indifferently kept. In recent years, however, the department has been endeavouring to improve the situation, both by assisting in the repair of existing houses and, in some cases, providing new ones.

NOVA SCOTIA

Agencies.—There are nineteen Indian agencies in the province of Nova Scotia, namely: Yarmouth, Digby, Shelburne, Lunenburg, Annapolis, Kings, Queens, Windsor, Shubenacadie, Halifax, Cumberland, Colchester, Pictou, Antigonish-Guysboro, Richmond, Inverness, Victoria, Sydney and Eskasoni.

Tribal Origin.—The Indians of Nova Scotia are of Algonkin stock, and bear the distinctive name of Micmac.

Occupations.—They follow various occupations, but, as a rule, do not confine themselves to any particular one. Many of them are engaged in farming. Those living near industrial centres sometimes work as day labourers. Hunting, trapping, and acting as guides for sportsmen are favourite occupations, more especially with Indians of middle age. Basket-making and the manufacture of fancy moccasins, etc., are confined mostly to women. A profitable employment among Indians in some parts of Nova Scotia is the manufacture of hockey sticks.

Dwellings.—With very few exceptions, Indians in Nova Scotia occupy houses of frame construction, well finished on the outside, but unfinished inside. Every settlement, however, has a few comfortable dwellings well finished throughout. Other buildings owned by Indians—barns and storehouses—are mostly of frame construction also.

PRINCE EDWARD ISLAND

Agency.—One agency is sufficient for the purposes of the department in this province. It is located at Grand River.

Tribal Origin.—The Indians of this province all belong to the Micmac tribe, which is of Algonkin stock.

Occupations.—But few of the Indians of Prince Edward Island are farmers. The principal industries are basket-making and fishing.

Dwellings.—The Indians live in small frame houses.

MANITOBA

Agencies.—The following agencies are included in the province of Manitoba: Birtle, Clandeboye, Fisher River, Griswold, Portage la Prairie and Manitowapah, Norway House, Pas, Fort Churchill and York Factory.

Tribal Origin.—The majority of the Indians of Manitoba belong to the Ojibwa race, which is of Algonkin stock. Bands of Swampy Crees are found at the Norway House and Fisher River agencies and in the York Factory district; these are also of Algonkin stock. The Indians located at the Griswold agency are Sioux; there are also Sioux at the Birtle and Portage la Prairie agencies. There is a band of Chipewyans at Fort Churchill; this tribe is of Athapascan stock.

Occupations.—The reserves in Manitoba suitable for extensive agriculture are mainly within the Birtle, Griswold and Portage la Prairie agencies.

In the northern agencies the chief occupations are hunting, trapping and fishing. Many of the northern Indians are expert guides and canoe-men. They are employed by sportsmen and to some extent by the transport and fur companies, although their revenue from the latter sources, which was formerly considerable, has dwindled due to the introduction of air transport and other modern facilities.

In the southern and more settled districts some of the younger people find employment as day labourers. The Indian women make needle-work, baskets, and other articles.

Dwellings.—In recent years the Indians have adopted more sanitary methods of living. Their houses are more comfortably furnished and of better construction than formerly. In the north the Indians live in the old-fashioned log house, but even these are being greatly improved and in some cases are being replaced by suitable frame dwellings.

SASKATCHEWAN

Agencies.—The following agencies are included in the province of Saskatchewan: Battleford, Carlton, Crooked Lakes, Duck Lake, File Hills, Onion Lake, Pelly, Qu'Appelle, and Touchwood.

Tribal Origin.—The most numerous tribes among the Saskatchewan Indians are the Ojibwas, Swampy Crees, and Plain Crees, which all belong to the great Algonkin stock. In addition to these, Sioux Indians are found at the Crooked Lakes, Qu'Appelle and Carlton agencies, and on the Moose Woods reserve. In the Onion Lake agency there is a band of Chipewyans, who are of Athapascan stock. There are also a few Chipewyan Indians in the Ile à la Crosse district.

Occupations.—The principal occupations of the Indians of Saskatchewan are farming and stock-raising. The close supervision which the department has had over these Indians has greatly improved their methods of farming. Most of the Indian farmers are well provided with machinery and stock. In the outlying districts, however, hunting and trapping are still the main sources of income and will remain so until civilization encroaches upon the hunting grounds.

Dwellings.—The dwellings of the Indians on the reserves where farming is carried on are now mostly of frame construction. The outbuildings, however, are generally of logs. In the north most of the Indians live in log cabins and use tents and tepees in summer.

ALBERTA

Agencies.—The following agencies are included in the province of Alberta: Blackfoot, Blood, Edmonton, Hobbema, Peigan, Saddle Lake, Sarcee, Stony, Lesser Slave Lake and Athabaska.

Tribal Origin.—The Alberta Indians are of Algonkin stock, with the exception of the Sarcees near Calgary and the Beavers and Slaves in the Lesser Slave Lake agency, who are Athapascan, the Paul's band in the Edmonton agency, who are Iroquoian, and the Stonies, who are of Siouan stock. The Algonkin Indians of Alberta are subdivided into Blackfoot Nation, comprising the Indians of the Blackfoot, Blood and Peigan agencies; Plain Crees found in the Lesser Slave Lake, Saddle Lake, Edmonton, and Hobbema agencies.

Occupations.—The principal occupations of the Indians of Alberta are farming and stock-raising, in which, on the whole, they are remarkably successful. Almost all the reserves in the settled districts of the province have large herds of horses and cattle, and are well provided with agricultural machinery.

In the northern parts of the province hunting and trapping are still almost the sole source of income for this district. There is practically no farming carried on and the construction of steamers on the Peace and Athabaska rivers, and of the railways to Peace River Crossing and Fort McMurray and air transportation have greatly reduced the earnings of the Indians with the trading companies and transports.

Dwellings.—In the southern part of the province the dwellings and farm buildings on some of the reserves are of excellent construction and quality. Almost all the reserves where extensive farming is carried on boast of up-to-date modern dwellings, comfortable and well constructed. In the northern parts of the province the majority of the Indians live in log cabins and use tents and tepees during the summer.

BRITISH COLUMBIA

Agencies.—The following agencies are included in the province of British Columbia: Babine, Bella Coola, Cowichan, Kamloops, Kootenay, Kwawkwalth, Lytton, New Westminster, Nicola, Okanagan, Queen Charlotte, Skeena, Stikine, Stuart Lake, Vancouver, West Coast, Williams Lake and Fort St. John, the latter agency having been established to serve the needs of the Indians of the Peace River Block.

Tribal Origin.—The Indians of the Bella Coola, Cowichan, Kamloops, Lytton, New Westminster, Nicola, Vancouver and Okanagan agencies belong to the Salish tribes. The Kootenay tribe is located in the agency of the same name. The Kwakiutl-Nootka tribe is located at the Kwawkewlth and West Coast agencies; the Haidas, in the Queen Charlotte Islands; the Tlingits, in the Stikine; and the Tsimshians in the Skeena agency. The Indians of the Babine, Stuart Lake and Williams Lake agencies belong to the Athapascan race.

The Indians of the Peace River Block are Athapascan, with the exception of a small group of Saulteaux and Crees at Moberly Lake who are Algonkin.

Occupations.—The occupations of the Indians of British Columbia vary with their habitat. The Indians situated along the coast earn their livelihood principally by fishing. Many of them own their own motor launches, nets and gear, while others are supplied by the various canneries. Many of the Indian women are employed in the canneries.

In the lower and central inland parts of the Province farming operations are carried on, and, particularly in the irrigated districts, grain, fruits of all kinds, and vegetables are raised with success and profit. A number of the Indian farmers have become well-to-do and in some instances are possessed of substantial personal estates.

In the Kootenay, Kamloops, Okanagan and New Westminster Agencies the Indians have large holdings of horses and cattle.

A considerable number of Indians, including many women are employed in the hop fields, in season, both in the south-western mainland of British Columbia and in the State of Washington. Their employers find them to be unusually patient, painstaking and regular in their picking which accounts for the special demand that exists for their services.

In the northern and remote parts of the Province the Indians still depend upon hunting, trapping and fishing for their livelihood.

Dwellings.—The best Indian houses in British Columbia are found on the north-west coast among the Haidas of Queen Charlotte Islands, the Tsimshians of Port Simpson, Metlakatla and Port Essington, and the Kwakiutls of Bella Bella. These Indians appear to have a natural bent for carpentry and housing architecture. They build from their own plans and without departmental assistance, either supervisory or financial, commodious bungalows, well finished inside and out, of the most modern type that would be a credit to a prosperous suburb of any large city. The Indians of the West Coast of Vancouver Island also have roomy, well-ventilated and well-kept houses, although of a less pretentious character than in the first mentioned locality.

These Indians were accustomed aboriginally to dwell in large community houses and this may account for the unusual size and height of the rooms in their modern homes.

The women of these more northerly coast villages are experienced house-keepers and maintain a high standard of neatness and cleanliness.

Strangely the Salish Indians of the southern British Columbia coast in the vicinities of the larger cities of Vancouver and Victoria and who have been in closer touch with civilization, are backward and unprogressive in their housing conditions by comparison with the north coast Indians above mentioned. Indeed the houses of the Indians of the south coast are for the most part little better than shacks and show little evidence of care or good house-keeping. There are, of course, exceptions in the case of a few progressive Indians who have good homes. The general standard, however, is low.

In the farming districts of the central and lower mainland, housing conditions among the Indians are fairly good although even here their dwellings are not to be compared with those on the north coast.

In the northern interior the Indians still dwell in primitive shacks and tepees.

NORTHWEST TERRITORIES

Agencies.—The department has now three agencies in the Northwest Territories, namely: Fort Simpson, Fort Resolution and Fort Good Hope.

Tribal Origin.—The principal tribes found in the Far North are the Slave, Hares, Loucheux, Sicannies, Dogribs, Yellow-knives, Chipewyans and Caribou Eaters. All these tribes are of Athapascan stock. The most northerly tribes are the Takudah, who extend to the Mackenzie Delta; and the Copper Mines, who are located along the Coppermine river. The territory occupied by these two last-named tribes is contiguous to that inhabited by the Eskimos.

Occupations.—These Indians depend almost entirely upon hunting and trapping for a livelihood. A few have been induced to cultivate small plots of potatoes. They own no horses or cattle, transportation being almost entirely by canoe along the great waterways, or by dogs in winter. They catch and preserve large quantities of whitefish for their own use and for consumption by their dog-trains in winter.

Dwellings.—These Indians live in log cabins, using tents and tepees during the summer.

YUKON

Tribal Origin.—The Forty-Mile, Blackstone, and Moosehide bands belong to the Takudah tribe. There is a band of Slavies at Lancing Creek who migrated from Fort Good Hope on the Mackenzie river; another band of Slavies, called Nahanies, is located at the headwaters of the Pelly river. All these Indians are of Athapascan stock. At Mayo, Selkirk, Little Salmon and Carmacks there are bands belonging to the tribe known as Stick Indians. Bands belonging to the Tlingit tribe are found at Whitehorse, Teslin Lake, Champagne Landing, and Carcross.

Occupations.—Hunting trapping and fishing are the chief occupations of the Yukon Indians. The women also derive some revenue from the sale of moccasins and curios of various kinds, while the men are expert at making toboggans and snowshoes. Practically no farming is carried on owing to climatic conditions, but some of the Indians cultivate patches of potatoes and other vegetables for their own use.

Dwellings.—The Indians of the Yukon live in log cabins.

FINANCIAL

At the close of the twelve months ended March 31, 1936, capital of the Indian Trust Fund, which at the end of the preceding year amounted to \$13,810,673.68 had increased to \$13,877,863.60.

The amounts expended from the Consolidated Revenue Fund were as follows: Voted by Parliament for the purposes of the department, \$4,482,255.33 and annuities by statute, \$240,105.

On March 31, 1936, the balance to the credit of the Indian Savings Account for the funding of the annuities and earnings of pupils at industrial schools was \$244,695.61. Deposits and interest during the twelve months aggregated \$42,176.22, and withdrawals, \$45,713.63.

In Part II of the Annual Report which follows will be found statistical information concerning the Indians of Canada.

Your obedient servant,

HAROLD W. MCGILL,
Deputy Superintendent General of Indian Affairs.

PART II

TABULAR STATEMENTS

TABLE No. 1.—RECAPITULATION.—CENSUS OF INDIANS—ARRANGED UNDER PROVINCES, 1934

PROVINCES	Number in Province	Religions							Under 7 years		From 7 to 16 inclusive		From 17 to 21 inclusive		From 22 to 65 inclusive		From 65 years upwards	
		Anglican	Baptist	United Church	Presbyterian	Roman Catholic	Other Christian Beliefs	Aboriginal Beliefs	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female
Alberta.....	10,900	1,607	1,440	7,718	135	1,116	1,238	1,277	1,221	601	513	2,233	2,124	259	318
