# PRINCIPAL'S MESSAGE

I congratulate each one of you students who has completed the year here. You will always value the good memories of having succeeded.

It's been a special pleasure and encouragement to me to sense the harmonious working together among the staff. The consideration for each other and the commitment to our common goal stand out to make this year special.

It is now twelve years since Marietta and I arrived at Poplar Hill. These have been full and rich years. Our lives have been touched by many staff and scores of students, and we treasure these relationships. However, we feel that the time for a change has come, so we will be moving away this summer.

Poplar Hill

\*

I am optimistic of the future as I see Mr. James Byler accepting the position of "administrator". James, his wife Darla, and their three children are in their second year at Poplar Hill. James has been physical education instructor and head boys' supervisor. He is well prepared for the tasks of leadership and will give the work enthusiastic, yet thoughtful direction.

To the other staff members who will be continuing on here, I express sincere appreciation. I am confident that this school will continue in the future to make a solid contribution to the lives of those it serves as the educational program is updated regularly and improved to meet current life needs.

May God guide you all.

Sincerely,

Kenneth Miller, Principal

A Canadian goose,  
so alone cannot stand

Togetherness, therein lies strength,  
so a student, a teacher, a staff person,  
so alone cannot stand.

We need each other!

Together we grow within the Poplar flock.

The more mature help to strengthen and encourage the younger.

The fledglings give us energy, joy and times of laughter.

Together we prepare for the future unified under the guidance of Mr. Miller.

For soon some will take flight.

So student, as you leave Poplar and embark on new flight, remember the growing  
you did at Poplar, the togetherness you felt and never forget that God longs  
to direct you as you move onto new adventure.

This yearbook is dedicated to the seniors who will be finding their place in life.

We pray that your preparing at Poplar will help you to  
make wise decisions about your future so that  
not only the North but our world  
will be better for it.
