Typist . . . . . Miss Emmy Beth Wanner  
Photographer . . . . . Mr. Harry Shenk

## Principal's Message

Dear students,

It's been a good year at Poplar Hill. Why do I say that? Because it has been a good year! Here are some reasons that stand out in my mind.

Enthusiasm - Your eagerness for life, new events and experiences has carried over and made even the daily, ordinary and routine pleasant.

Acceptance - You have made friends beyond your own community and age group. Some of you older students have shown special consideration for the younger children.

Respect - Generally you have respected and cooperated with the teachers and other staff members who were looking after you.

Safety - Despite minor scrapes and bruises, (and even a broken ankle bone), we've enjoyed safety and good health.

A good class trip - The hard work in preparation and during the trip, coupled with the eager cooperation as a group stand out as important reasons for the pleasant memories of the trip.

Progress - I'm glad for the improvement which I see in your daily work and in your test scores.

New spiritual life - A good number of you have answered God's call with a clear "yes". I can't think of anything more important in your life.

Despite struggles the above stand out in my mind as good memories.

God bless you.

Kenneth Miller, Principal

## Dedication

Miss Lebold, we as staff and students wish to give fitting recognition to you for the special contribution you are making at Poplar Hill Development School. As a senior member of our campus community, your positive influence has been felt by literally hundreds of persons these past sixteen years.

As Home Economics teacher you have shown much patience in teaching us the proper methods of making garments, a skill we will be able to use for the rest of our lives. Your concern that a task be done right has taught us persistence and self-discipline.

Many students through the years have caught a bit of your enthusiasm and love for God's Word when you served as Bible Class teacher. Your personal commitment to Christ made it real to us.

By your life you have taught us that relationships are to be valued and cultivated. While our tendency when in close daily contact may be to "let down" in personal courtesies, you have consistently related to others, regardless of age, with respect, dignity and warmth. Your love for people has kept you in touch by letter with many former students and staff.

Your unique blend of youthful creativity and mature sensitivity and stability has made it easy to confide in you when we needed a listening ear.

As a special token of our appreciation and thanks, we dedicate this 1963 New Horizons to you, Miss Frieda Lebold.
