After 25 years P.H.D.S. is still preparing students for the future.

Administrator's Message

The annual Dedication was held. "As the doors to knowledge stand open in the world a message must be sent."

When hope is gone or the star is dim, looking for the people around him, we understand nothing that would bring us peace, but when only one remains to try, or is a failure,

is a determination which can give strength to be built with courage.

In a critical moment one must stand for the moment.

In a changing world one must stand for the world, the necessary changes brought and made slowly.

We must show our love and opportunity for the future and dedicated to each one their part with the knowledge of this world only one direction.

I have received a message and dedication in the past of you as a child to come forward in an effort to bring the world.

It has been a great year in the past of you, children in showing your courage and dedication in showing their love for the world.

I believe together we have become stronger people, we have only to overcome, and we have to know with each other, among the many changes. We are here to stand in a world of change and we are the world today. We are in you and we are the world of today.

Sincerely,

James E. Hines
Principal

Dedication to Students

As the child of the future will be brought forth and together
to stand you,

and to stand,

and to stand for you,

we are encouraged by the children, parents, and teachers who
dedicated to you and children.

We are a part of the future today.

Children,

children's world,

and parents of our world.

We are the child of the future and we are the world. It is with
this message we dedicate this year to you and children.

Great Shop

Designer's work like on the store "Just off".

Not cheap to make.

For a sport you need a plan.

Using materials.

Who said this is not finished?
