Principal's Message

"Beauval Memories", prepared by the Students' Council, under the guidance of Mr. Mihalicz, Senior Teacher, is going to press. It is dedicated to nine staff members who have worked ten years or over for the school and the well-being of the children. I extend my gratitude and appreciation to them and other members of the staff. The cooperation of the parents and children is also a precious help.

May we have more and more students going for further education and making successes of their lives. Then will our goal be realized. With the help of God and the cooperation of the staff, we should realize it.

Best regards to all,

Joseph Bourbonnais O.M.I.

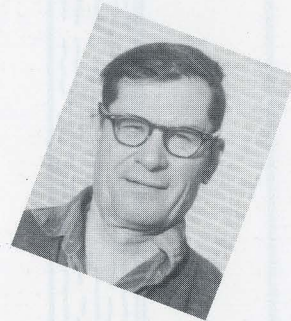

Sister Blanche Lemire s.g.m., B. Ed.

The Students' Council, on behalf of all your pupils, past and present, and the rest of the staff, wishes to express its sincere gratitude and appreciation to you, Sister, for your twelve years of fine teaching in our school. May God grant you many blessings of happiness and satisfaction and may you remain with us for a long time to come.

Sixth Grade . . .

Our class consists of twenty-six pupils, fifteen from the village and eleven from the Pupils' Residence here. We get along quite well now that we are acquainted.

The bus, driven by Rev. Brother St. Louis, brings the children from the village every morning and takes them back for dinner. The same trip is repeated in the afternoon.

Besides other things, singing brings us together for a very pleasant period. Sister says there are very pleasing voices in our class.

Fifth Grade . . .

You might call us a tri-lingual class. All of us speak English, two of us can speak Chipewyan and the rest of us can speak Cree.

Of the many things we enjoyed this year we think the best were the stories our teacher read to us. Did we ever enjoy "Tom Sawyer! He really seemed to be a down-to-earth kind of boy that we could understand!

Fourth Grade . . .

We began the year with Mr. Schwinghammer. As soon as we got to know him we unexpectedly found a new teacher in our classroom. From this day on it was a steady adventure. Mr. Remarchuk joined our youthful curiosity. Together, we opened the doors to many adventures which our subjects provided.

 Teacher: Mr. E. Remarchuk

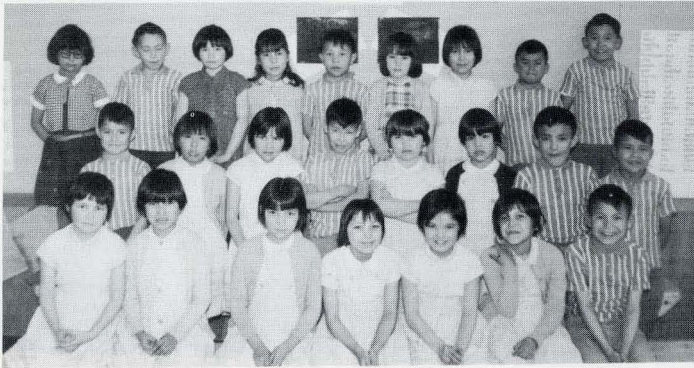

Third Grade . . .

We learn many things in our class. We learn about the Old and New Testaments, key facts, Roman numerals and telling time. You know, in spelling we have some pretty hard words! Miss Greabeiel brought pineapples, coconuts and salmon to school. Some of us had never seen these things before. We do exercises, make animals out of clay and learn to get along with each other. We learn about all these things.

Top row, left to right: Laurence Gunn, Gabriel Black, Margaret Rose McIntyre, Elizabeth Wolverine, Marguerite Boucher, Jules Boucher, Vital Gunn, Ernest Wolverine, Kenny Paul, Jim Billette, Madeline Gunn

Second Grade . . .

In our class we have four reading groups, four Arithmetic groups and two Spelling groups.

In Science we studied about our universe and about animals too. We went for walks to look for things that we learned about in class. We found pussywillows really early this year.

We had two concerts this year. We practiced hard and had fun doing it.

First Grade . . .

"Oh, Mamma, what will I do when I get to school and I don't know how to read or write?" This is a question that many of us asked before we came to school. But, before long we were learning to read, draw and print. The hardest was to learn to speak English.
