 After a great deal of jitters which  
 was in the air, the Mayor

 Dr. Williams - got with the Mayor  
 chair & drove off. All the body  
 members of the municipal council  
 had gathered up before the altar with  
 the Mayor - leaving the members of the  
 church block after the Mayor - & then  
 off next for the wagon was in

first evening of the past week was  
 the visit of the Marquis of Lorne.  
 The British people made a huge

 many in the past with bell.  
 The count took place last Saturday  
 the 23rd. The book was to have  
 arrived at 3 but was 2 hours  
 late. Our village blacksmith  
 named Brown (visited to a tall  
 Chanda) is Recm of the Municipality

 Marquis & introduced him to all the  
 celebration of the event. The  
 Archbishop had been on all

mean was very interesting  
 while the boy (with) the school  
 - so you may catch from a letter  
 I do - Would you look for it.  
 The Marquis expressed himself  
 highly pleased with all - He remains  
 at the time in the school room - &  
 had several boys up there  
 repeat their lessons - that the  
 Bishop supports - I asked some  
 general questions - 'What are the  
 views call?' 'Not carry away?'  
 'Do you know Victoria here?'  
 The Marquis expressed his  
 wish to see the works. This  
 he was not prepared for - when  
 he had not expected his return  
 out at all - but in a few minutes

back - A message to the  
 Duke of Devon - was a most amusing  
 letter - & a most interesting  
 letter - to Marquis! Since writing  
 I have all got kind - & many  
 more the Compliments remarks about  
 me small family. Col de Mont

 this - his sister Miss de Mont  
 has crossed the Atlantic with us in  
 '77. With the staff was Caroline

 look for copies of my letters in  
 the papers - & hear of them  
 & read the book. The picture

Mr. P.

Every day we have quantities of black  
berries is a great thing to me.

Still believe me to be coming on  
the plan - it is difficult to compare  
it to anything of kind of equal of any  
other with any one else. It is  
the best. It seems to me  
a fair reasonable arrangement & I  
cannot see any good ground for  
objection to it. It has always been  
done quite often - Every report shows  
20 years ago headed at 9600 each  
for work - & afterwards it has been  
next time it was at 75.00 per bush.

There is no need for you to trouble  
about about this - as for you the

know this is the arrangement upon the  
no objection to it.

Your letter will endeavor

Mr. Hill has refused to send the  
Bill by Passes this - the reason  
I understand is that the fear  
it will be obstructed by English relations  
not returned to his office.

It has taken so further steps since  
Mr. H. refused that the bill

Dear Mr. Drake

Very many thanks for  
the kind note & sympathy -

It is due to you I think to  
explain one thing - that in lieu  
of accepting board etc for myself  
& family in addition to salary - as is  
done I believe by the principals of  
most institutions - which my  
friends in England have often proposed  
we should do - I have in order to  
relieve the institution of the burden  
of providing for my large family -  
accepted a fixed sum for the

kind of coal employed reach  
by in the production - or for  
each ton \$2.40 in week, for  
~~the pattern~~ \$2 for week, & for  
each ton. 96 cts for week, which is  
equal to about 4 1/2 cts a coal.

These allowances for board are  
credited to me & returned into my  
income & I cater for the whole  
household as though we were one  
large family.

No plan  
has been followed in an open  
straight forward way, under the  
protection of just laws - but  
the conduct of our House Committee  
is so gross that it should have

been made a cause of attack  
against our work.

Small

days (I never writ to you a  
personal friend) - but if any  
explanation is wanted shall  
I be able to our Bishop who is  
thoroughly cognizant with all the  
ins & outs of our work.

It must have been great shame

Dear Bishop -

Mr. Apple has written  
in a very malicious way &  
means all the Sunday Schools  
assist our work & propagated  
falsehood. concerning our work.

The whole thing is such a  
gross libel that it is scarcely worth  
my while to refer to it - further  
than to say.

(1) Not of course to ask charges  
for board of boys & men away for  
holidays - the 96th in number  
of which there are in residence.

(2) The clearance from the death  
of Mr. Probst. Had several years  
ago that the cost of each child  
in annum - counting every \$'s was  
\$100. - There, our boys as  
our reports show have been kept  
for from \$100 to \$100 in annum -  
as, our salary, every \$'s counted  
in.

(3) Not all the cost of jail board  
may have been "thoroughly tested" - the  
cost of the boys' board; record;  
of the Government allowance (\$40 for boys  
against \$100 for jail) a jail should  
be kept for  $\frac{2}{3}$  the cost of a boy -  
that is - 6400 a week against an 9600.

Dev's absence in England Miss  
Harris was allowed 9600 each for  
board; the boys & sand with; - She  
said it was not sufficient. Being  
a "woman" she sure we have dealt  
honestly about it.

(4) As I said before it is an  
understood that that I am allowed  
so much for each - What the  
actual cost of each boy is I have  
never found out - & cannot tell -  
it of course varies with market prices.

it is all right. Of the clear

on the land being secured to them

be a list for them to pay. I do  
not think that they will be

I want to let him a share to make  
 for the ~~cost~~ of each box. Whether  
 or not I can afford it depends on  
 the state of the market - & of course if  
 there are any losses such as provisions  
 being lost or a boat or a pig's head - I share  
 it myself.

I have no wish to continue this plan  
 of entering for the Home if it is not making  
 - but if a change were made I should  
 expect to receive board wages <sup>or to some of the</sup> servants  
 wages &c - for myself & family, and  
 not less than \$200 in annum salary.  
 As this case I believe the cost of the  
 "Protestant" would be far greater than  
 at present.

5. The \$6 to be used during holidays  
 is of course not credited to me but to  
 the fund for the ~~Protestant~~.

The following is a summary of the results of  
 the experiment made on the 1st of July.

Rules to "Just & Honest" classes.

- (1) Grant from former is just increased  
 from \$7000 to \$11000 per ann. for  
 support of 30 cows @ \$46 each. The  
 cost of each cow, <sup>for your variety</sup> is \$76 so that the  
 actual number provided for is not  
 30 but 24.
- (2) We receive \$700 per ann. for support  
 of 15 pigs. A pig cannot be fed  
 & killed for less than \$60 per annum -  
 so that the present farm provides only  
 for 10 pigs.

(3) I agree to send the boys boards  
 for 15 for lights, soap, shoes, milk,  
 &c. &c. - at \$100 each per week.  
 When it is possible. There are always  
 10 or 12 boys in the school. As this week  
 12 of the best of them are present.

The Scottish account is the only  
provisionally corrected it as  
follows.

My friend in England I also like  
the children home even first houses into  
existence - wished me to delay board  
of myself & family to the Scottish in  
addition breeding \$1000 per annum  
Salary. His I was unwilling to

my friend's big as large - I thought it  
would be too heavy a burden a Scottish  
pounds & I proposed breeding a pair  
them for each boy & employ a Scottish  
center for the whole Scottish. His

It is of course a great deal better  
as I am able to pay provision of other  
prices. when the number of the boys  
is large there is a saving in this kind.  
I don't see them to the lot of cents

for annum.  
(6) Mrs A. states that she has been told  
that the children can be boarded for  
much less than \$40 each.

She may have found that girls can be  
kept for less but she does not know  
what it costs to feed boys.

The former allows us \$80 for each  
boy \$40 for each girl & that is as  
much as I pay but a boy costs half  
as much again as a girl.

When Mrs Lane first boarded the boys (as  
my friend & the doctor say my father  
in England) she found the 96th An  
nual of his sufficient & she was  
at it.

The matter why I chose to board a  
week for each boy instead of others

On Miss Bennett's book I see 25 copies of Sept 4<sup>th</sup> in plain words. However, in a report in the College House in which I have written (which book of the first copy of the book is sent to me by the Librarian) the name of the book is not given.

Dear Mr. W. D. B. I have had anonymous notices about a Indian Manuscript circulated - with the intent evidently to do us harm. I have been very sorry to hear that you have been sent to me - I am sorry to hear your report of your work. This I cannot believe, as you have always been so kind in helping us - & we were so glad to hear of your success. I am sure you can do it for yourself. I hope you are very happy.

Oct 31/89

My dear Mr. W. D. B. I have received your letters of Sept. 25th and 28th Lane reached me - the latter enclosed the supposed report of Mr. W. D. B. I can hardly imagine it possible that Mr. W. D. B. would have done so unkindly of us. I am sure that certain saw the manuscript under a disadvantage - when every thing was all right down & home clean for our preparatory work by arrival.

Jealousy or malice.  
 Current belief that Mrs O'Reilly  
 has any ill feelings towards us - unless  
 she has allowed herself to be led  
 away by those who are trying to  
 harm us.

What is the investigation that  
 you say is about to take place -  
 I have heard nothing of it -

It is incorrect  
 Edward Wilson

It was impossible for her to quote  
 of the work of the Home under-  
 stood circumstances - I don't  
 think she saw any of the boys - the  
 ones of 5 or 6 at that time -  
 Charles says in Law 574 - & all  
 is in capital order - I think  
 it is sufficient for us to say that all  
 the boys & parts of one work are entered  
 by the Home Bishop & so long as  
 the Bishop appears of the manner  
 in which one Home is conducted  
 I don't think we have much  
 to say from attacks from the

The only thing comfortable was  
that you said to visit - just when  
the tree all upside down - Lower  
cleaning - & preparing for the arrival  
of the bar - At R I felt sure  
that you would make allowance  
for this - & the only objection that  
I remember myself to the Dr or Mr  
Wood made - was the sick room  
being next to the Living Hall & that  
being no better than the boys' sick -  
I cannot believe that you would  
possibly have applied such epithets  
as to the following, to any one's eyes -

"a magnificent sword" - "The  
last" - "it is a beautiful plate of the  
Herald is not to be expressed" - "a  
Crying disgrace to the Wilsons" - "Work  
that the Bishop does not credit the  
Herald affair" - "When you  
I've have had great numbers of  
visitors to the room - & all have  
said that the same room that  
you did - & all so far so are  
could not have been placed in  
the appearance & management of  
the Hospital - "The  
You will see that out of 92

Your advice - & sayes also  
have let you be difficult it is  
in the rest of the way, than I find  
more suitable for so particular the  
work - also how exactly difficult it  
is to keep the in applicate when  
work is all done by the boys - who  
in their own laws are the very distinct  
of practice. It has sometimes  
seemed to be almost a hopeless  
task - but still we persevere - I  
am afraid there are few that would  
do so - amidst the great difficulties that  
have the contended with - I trust  
I may hear from you that you have

with last year accounts straight - the same may be said in regard to Miss Houston - not receiving her share for the 20 ct. the amt. Our Indian file do not present make this for sale - the only de plain Lewis for the Indolent - as I send Miss Houston two letters made by the Indian Review Indians. The discrepancy

in accounts seems to be of 50 ct. Newmarket is credited \$2.50, \$1, and \$1 - total \$4.50 in the Annual Report for 1880.

I am sorry that should have been an error - trust - if God give me health - it will not occur again -

Yr faithful  
R. A. O. S. H. Wilson

I should like very much to pay you a visit but am no possibility as I am completely tied here with more work than I can do.

It comes from Buller's,  
 Paris. Perhaps you  
 would like to write to  
 me - I tell you that they  
 are most needed in the  
 way of cloth, wool & such  
 as for the girls -

I will give also kindly do  
 your accounts for the year in

 we have a copy of them -  
 as soon as possible afterwards  
 for insertion in our annual  
 Report. Very sincerely yours

Works - With the £25  
 we are steadily increasing

 we shall be able I think  
 to carry on the work of the  
 Hawaiian Home without  
 difficulty - and any other  
 money that we, receive beyond  
 that amt can be kept for  
 some special purpose - We  
 have 22 girls now in the

boys at the Shipyard -  
 We are so sorry that  
 poor Mrs Pauquir is quite  
 unable thro' fail' health  
 both mental & bodily - to take  
 any active part in the work  
 of the Home - She used  
 to take such good interest  
 in the work & did so  
 much to assist in planning  
 & carrying it on. We  
 have a nice new lady  
 Superintendent who I  
 trust will do well - Her  
 name is Mrs Reid, and

I hope  
 it will be  
 we shall be able  
 to carry on the work

Shipwreck Home  
Sault St. Marie

Oct 29<sup>th</sup> 1881

The Honble  
The Capt. Genl. Indian Affairs -

a memo to the Sir -

You are aware that in our  
Industrial Home for Indian boys we give instruction  
in various trades with the view of fitting the boys to  
gain their livelihood in the same manner as White  
people do when they leave us.

Our plan is to apprentice the boys to White people  
in the village of Sault St. Marie & they are generally  
from two and a half to three years learning their trade.

Those who have employed our boys speak highly of  
their capabilities - & several have turned out to be  
first class workmen.

if one's boy as the boys are connected with our Institution  
& remain under our control they keep steadily at  
their work & give full satisfaction to their employers.

There is one drawback which I believe it may  
be within the power of the Department to remedy - and

That is - That when the boys leave us & are no longer under our control - they have no one to take any interest in them - yet their started in life.

The idea of employing Indian boys is doubtless a new one to tradespeople in places remote from the Shipowner's Home, & the impressions of most people as to the capabilities of Indians is unfavorable so that there is little chance of our boys obtaining employment unless they have some one to exercise an influence on their behalf. White boys generally have parents or friends to speak for them & get them into situations, but this is not the case with Indians.

I feel perfectly satisfied from the experience I have had with the tradespeople in this neighborhood, that if once the system of employing Indian boys in trades, gains a footing in the towns, it will be found to work satisfactorily & will become popular. The Indian boys are particularly clever with their

handed + like the Chinese have <sup>just</sup> forms of imitation.  
 They are also steady & quiet at their work; & have  
 always given satisfaction to those in this neighbourhood  
 who have employed them. Just at this time there  
 is a greater demand for apprentice boys than I am  
 able to supply. After the first year of learning the  
 Master gives us \$1 a week for their services, & after  
 two years \$2 a week.

At the present time - there are several lads of  
 17 or 18 years of age who have passed their term at  
 the Home, learned a trade, & left us. Most  
 of them had money in the Savoy Bank, & when they  
 left an order for tools &c. to cover the amount was  
 given them. Whether or not these  
 boys have obtained steady employment at the trade  
 they were taught I do not know; from what  
 I can gather - some of them seem to get temporary  
 employment at saw mills, others on the Steamboats,  
 others continue to live on the Farms, & others farm  
 or do odd jobs at Carpentry. This it seems

to me in an undesirable state of things, & I think  
 that it might be remedied if - on each Reserve.  
 The Indian Agent in Charge were instructed to look  
 after these boys interests & endeavor to obtain employment  
 for them in the trade which they have learned.

The boys who have left the Reserve & to whom I refer are  
 the following.

1. Joseph Padalpinum - aged about 19 - Walpole Island -  
 learned tinsmithing & had become an adept at it. Received  
 order for \$26.25 on leave.
2. James Rodd - aged about 19 - Sarnia - learned  
 blacksmithing - had become a fair hand. Rec'd order for \$24.00
3. Andrew Casley - aged about 19 - Blind River -  
 learned blacksmithing - had become a competent hand  
 in his trade - Received order for \$20.00 on leave.
4. Edward Jackson aged about 20 - Walpole Island -  
 learned carpentering - had become a very good hand - Rec'd \$29.00
5. John Aubee - aged about 18 - Christian Island -  
 Had become an adept at tailoring - Rec'd order  
 for \$27.18 when he left 1 1/2 years ago - but has not  
 yet used the order.
6. Elizah Long - aged about 17 - Walpole Island -  
 Had learned tinsmithing - & drew order for \$18.25

Dear Sir The box of gold has arrived - & is very acceptable especially the top coats.

Waistcoats & trousers - we can never receive too many of these - & it is very kind that they are sent to us - We have 54 boys at present - this means 108 p. trousers in the year! - The cost I

think of freight is about \$10 - freight charges are small so much that it is difficult to tell which class is preferable

The Secretaries  
Society of Protestant Christian Knowledge  
Dear Sir -

I write to you May 13<sup>th</sup>

Last enclosing Messrs. Powell & Hutchins estimate  
for a reprint of the Ojibwey prayer book - and have  
not I think since heard from you -

Since the above date we have improved our  
print arrangements at our Indian Home here and  
have added book binding & the trades we teach -

Consequently we should be glad if the Iditarod  
Comtee would consent to our undertaking the work of  
reprinting the prayer book ourselves. A good practical  
printer & book binder is at the head of our establishment  
& we could I think guarantee good work - It would  
be also more convenient & myself to correct copy here.

I enclose our former estimate & trust we may  
receive as quick a reply as possible so that if our  
offer is accepted we may at once fit the work -

Remain dear Sir yours faithfully

Two new copies of the old edition are  
in existence. The need is most urgent.

Bright purple with dew-backs  
 Ad. appointments, but none of us  
 will ever have so much opportunity  
 as to see, disappointed, trust as  
 had the lad seen when he came  
 or earth. Like you will  
 often write & let us know how  
 you are getting on - a good long  
 descriptive letter is the best thing  
 for Edg Miss news - better than  
 Briting an article special for  
 print - I am just some of the  
 last letter to me in December No.

Hope you get your copies  
 regular. Please give our  
 kindest remembrance to Mrs  
 Benson & the children & my love  
 to my boys Joseph & Will.

Remember me very kindly  
 to all the family & friends  
 - As the father and mother.

Dear Mr. Oremion

I was glad to see  
 your nice long letter of Oct  
 17<sup>th</sup> - Long hope this with all  
 be too late to reach you - We  
 hear that a new boat to Cambridge  
 is coming up in a day or two  
 on the way to Duluth - & perhaps  
 it will call in at Red Rock  
 either up or down -  
 Well, will be sorry to hear  
 that his friend Charles Stone is dead.

... of ... ..  
... ..

... ..  
... ..  
... ..

I mentioned in my last letter &  
you that he was very sick. I  
sent two lines a few days before  
he died & administered the sacrament  
to him. He was very glad to see this  
second & final peaceful account  
of the approach of death - but  
afterwards became calmer - & I  
thought did believe in the Saviour.

I have thought a good work  
go; on amongst the boys - quite  
a number of them seem to be  
true Christians - Last evening  
(Sunday) 11 came in of their own  
accord to speak with me after dinner.

... ..  
... ..

The little society among themselves  
on Wednesday evening I think do good  
- Several have told me that their  
wells first led them to think  
about their souls -

We have a pipe & drum band  
now and the boys have already  
learned to play "God save the Queen"  
and several other tunes.

I read part of your letter to  
the Indian boys after Wednesday  
evening bible class - and how they  
knew you were much interested  
in being about the work and  
about their country & Melb.

I thought you was fine you much  
pleas'd in your work - It was  
I know to a work of salvation.

old Chief "Little Pine" - through  
whose efforts the thing sent home  
was established.

Dear Sir I have kept your letter  
of Sept 19<sup>th</sup> by me - having  
as yet not sent you a good and  
in reply -

I should like so much for you  
to under take the support of a boy  
who might eventually enter the  
ministry - But I think

you will feel with me that it would  
be unwise to influence a boy in  
that direction unless we felt some  
that he was sincerely called to it.

can for him & to send him out  
 him. and some one else do  
 with special favor for him that  
 the place of his mother, he should speak  
 in his heart. He has been  
 with us 6 years and is now at the  
 head of the school - learning Latin  
 - Arabic - & Algebra - I am  
 very fond of the boy & trust that  
 with God's blessing he will turn out  
 well.

There is another boy Younger (also  
 without support) who wants to be  
 educated as a teacher - I  
 can think you will prefer him - I  
 could furnish you with a certificate about  
 him.

Benjamin belongs to South River

work by the Holy Spirit. all  
 we could do would be to allow  
 a boy who seemed to have the same  
 spirit in his heart & then carefully  
 watch his progress & endeavor  
 to disengage the Lord's will concerning  
 him.

I have at present one boy  
 just 15 years of age named  
 Benjamin Shipman - a very  
 clean promising boy - but his  
 idea is to be a doctor - We  
 are very desirous for him - &  
 I believe a gift that he should  
 receive some kind of special

all that I can do for him - I have  
 sent a letter to the parents

Off. by hand  
no ink in hat  
4 day - but in  
respnt with  
again -  
all the top  
an inkwell.

Dear Mr. Garrison

Could you kindly manage  
to ascertain for me shortly about  
one old boy & whether any of them  
have got employment at the barracks  
the least - named Adam Kippole,  
Capt. T.; Edward Jackson, Carpenter;  
Joseph Pedabivum & Elijah Sorey,  
tinsmiths; James Greenbird, tailor;  
James Nakwepshik, bootmaker;  
James Day, farmer; - I would  
like to hear as soon as you can  
so as to be in time for our annual  
Report - & shall be pretty obliged  
if you will make enquires -

Enclose a note from Thomas Nadeau  
- also 2 for Sarnia parents - Mr. Jacob

Portraits of slaves -

Mr. Chas Garrison  
Dear Sir

Have in receipt  
of yours of the 20th ult -  
Altho the 16th Sept I mailed  
a cheque to J. W. Kempford  
for \$15.00 to our Treasurer S  
the Sumner. Mr. Kempford  
said that unaccountably on receipt  
of it, cheque he would send me the  
tickets which I require as soon  
- This has not yet been done.

Being I receive the tickets I  
will look into the matter of \$89 which  
you claim for last season. Have  
the recollections of receiving that amount -  
I recollect - but will see Mr. Plummer about  
it -

 Dear Sir -

I fear it is  
 some time since I have
