 Ottawa;

My dear Madam.

I beg to acknowledge with much
 gratitude your very kind letter
 dated 15th inst. enclosing the
 sum of \$4.¹⁵/₁₀₀ towards the
 education of our Indian girls.

I regret to say that owing to
 an outbreak of erysipelas
 amongst the girls which it
 was feared would spread
 thro' them, the girls were sent
 home temporarily about a
 year ago & pending the provision
 of —

17/

of increased & more suitable
accommodation. Vigorous efforts
are being made to obtain the
necessary funds for the
erection of a "New Wawaucost"
(or Girls Home) & as soon as
our plans can be carried out
we shall hope to have the
girls return to us once more.

Meanwhile I am desirous of
ascertaining if G^r Scholars
will kindly permit their
donation to be applied to our
General Maintenance fund?

I should be most grateful
if they would so permit.

Thanking,

Thanking you heartily for your
kind & continued support of

Principal's Report for January
1896.

Sir,

The health of the school during the month has been very good with the exception of pupil Andrew Logan who was sent to the Hospital on Dr. Kim's advice on the 21st inst. Suffering from Croup, however I am happy to say the case is not so serious as was at first anticipated & that at this date (4th Inst.) the boy is again in the Springwell and although this week will soon be quite himself again.

On the 25th the Agent of the Department Mr. Van Alstott said no customary visit of inspection to the House looking especially into the work of repairs & improvements.

Respectfully,
Principal J. J. Jones

On the 29th Mr. Wm. Craig Public
School Inspector also visited the
Shingwan. Mr. Wm. Craig
examined all the classes &
expressed himself as much
pleased with the progress made
in class work since his last
visit, cleanliness & good order
of the pupils.

Although the work of placing
the hot water heating apparatus
in the Shingwan was not
completed in the time specified
in the agreement namely 30th of
January, it is only fair for me
to state that the contractors
have shown no lack of energy
in pushing forward the work
as rapidly as it was possible -
all the men working overtime
from the start, & the work so
far as I am able to judge has
been done in a thorough &
satisfactory manner.

The furnace was in operation

to be able to utilize tomorrow.

finishing work will probably

more fully.
