## PRINCIPAL'S REPORT.

DEAR FRIENDS AND BENEFACTORS,—

According to a custom of many years' standing, the Principal of the Shingwauk and Wawanosh Industrial Homes for Indian Children, at Sault Ste. Marie, should himself report to you upon the work of the past year, ending December 31, 1907, but unfortunately he is not able to do so, being still laid aside by illness which has prostrated him for the greater part of the year. I have therefore prepared the following brief report in his place :—

1. The illness of the Principal, referred to above, has made the work of the year exceptionally difficult. The lack of proper supervision has told upon the work in various ways, although much praise is due to those serving under Mr. King, for their devotion and efficiency, at this time of trial. Of necessity, one effect of Mr. King's illness has been to increase expenses, since extra assistance has been occasionally required by the staff.

2. The number of pupils enrolled, at the beginning of the year, was sixty-three (38 boys and 25 girls). Eight boys, and four girls were admitted. Eight boys and one girl were discharged. Two boys died, and two girls were sent home, on sick leave. Thus thirty-six boys, and twenty-six girls, remained in residence at the end of the year.

3. The children dealt with ranged in ages, from 5 to 16 years. They are representatives of the following tribes, Iroquois, Ojibway, Cree, and Pottawattomie. Twenty-one are motherless, fourteen fatherless, and eleven orphans.

4. It has been a year of untold financial anxiety: and coming after several other years of similar strain it has no doubt had much to do with the prolonged and serious illness of the Principal.

The burden of anxiety has been somewhat lifted from our shoulders, for the present, by the fact that the Department of Indian Affairs, in recognition of the work being done in the Homes, has assumed the large deficit of \$3,343.86, which has accrued during the past year or two. But the Department declines to guarantee similar aid in case of future deficits. Nor has any encouragement been given us to hope for an increase of our per capita grant, which still remains less than half the sum given to similar schools in the farther West. It is plain, therefore, that while the Department's action has averted the closing of our schools, we are still left in grave uncertainty as to their future.

5. The Shingwauk and Wawanosh Homes, it should be remembered, are the only Church of England, Indian Industrial Schools, in Eastern Canada. They have therefore a very legitimate claim upon the Church in the East, and certainly deserve a wider, and more liberal support, than they are of late receiving, from our Sunday Schools. Since the M. S. C. C. has claimed the Lenten offerings of the children there has been a serious falling off in Sunday School contributions to the homes. We have no desire to check the flow of the children's liberality to the Missionary Society, but we should be thankful indeed if the Sunday Schools could continue their support to the Homes, as well.

6. Of the 62 children now in residence, 15 only are fully supported; 35 partially (by small sums ranging from \$10 to \$50), while 12 are entirely unprovided for.

It should be clearly understood that the M.S.C.C. sends no money to the Homes. All sums intended for the Homes should be sent direct to the Principal, Mr. George L. King.

Finally, we beg to make special acknowledgment of the help rendered by the Woman's Auxiliary in Canada, and the Algoma Association in England, in the form of clothing, bedding and individual outfits received during the year. We also thank the Society for Promoting Christian Knowledge, London, most warmly, for its grant of 10 Scholarships of £10 each, to the Shingwauk Home, together with a similar aid to the Wawanosh Home; the Colonial and Continental Church Society, London, for its grant of £75, and the New England Company for a special donation of £25.

The work is earnestly commended to the liberality of Christian friends everywhere.

GEORGE ALGOMA,

Bishophurst, Sault Ste. Marie, Ontario,

My Dear Friends

Our Examination is just over now. And our letter time is begun. I got 629 marks I came out first in my class. I work in the Laundry in the afternoon, and go to school in the morning. My big brother is here now his name is Edward Pine, he works in the stable in the morning getting the horses ready to haul wood. his age is 15. years old. and our small brother. is 11 years old. and I am 13 years old, and there is some boys going to get confirmed sometime near Easter Mr. Brooke our Rector comes down every monday night to teach his class. And I don't think I am going to get conformed this time But the next I am going to get conformed I hope. My Big Brother is going to get conformed too. This is all

Thanking you for your very kind and loving supports.

Yours, Respectfully,  
PETER PINE.

### *A Story of a Street Car.*

I have ridden on a street car.

It was a very nice ride.

Why is it made? because for people to get a ride so they don't need to walk so far. They can't walk such long distances It would take them the whole day.

Street cars are very nice they are something like the passenger trains only no engine.

When the conductor gets the tickets he pull sort of line if he gets 5 he pulls it five times.

Once I had a little kitten very tiny I took it in the street car it got sick I came out it died. I will never take any of my little animals in the street car again. Street car is a very nice little car It is made of steel and some kind of wood. Glasses for the windows it is shiny in side and out side. And runs by Electricity.

A street car Is a use full little car it has nice seats in side of it.

### *An Essay on a Dog.*

A Dog is made out of some kind of dust and he has flesh and bones just as God had made him, he has four legs and one tail, two ears, two eyes, one nose, and dogs have spots on their

backs, and all white, black, brown, they can eat all kinds of food, they can hear when some one is coming near and they can tell whither it is a stranger and not belonging to the house where he is living and he will bark at you and snarl as well, they have a fine ears to hear when you are coming, they have a sharp teeth if they bit you it will hurt you very badly and beside's it's poison too, but some are not a cross dogs they are as gentle and faithful, they will soon do it when you tell them to do any thing if they understand what you say if you have a dog teach him how to be a good dog and not a bad dog. Some dogs can watch the flock when they are out in the field they will watch if nothing would happen to his flock, if its a sheeps he will keep to see if any of the wolf will not carry any of the sheep away some dogs can pull a sleigh, some dies by working to much and some strave to death, drown, shoot, some of them get sick and Die.

*Composition.*

A Ship is made like this, they put lots of boards, under the Ship, to make it straight so it can go on one side, they put lots of hot water on these boards, so the could go in curves, I saw men building the Ship, they, use boards to make the ship they use nails and Hammers to make the Ship, And the men put the water in the ship to try it if it will go, they put the Ship where they built the Ship up stairs and the stair is very high the Ships come down quick as it could go, they let the ropes go and the Ship would go fast as it could go, some ships sinks down, when it slide down into the river, its very nice to see the sliding down in to the water the waves would go very high, the water splashes so high. The Ships are made for carrying people across the water, and carrying goods cross the ocean, and Ships are useful, going to some towns and they go through the rocks and locks, theyre very nice to see them on the river flow down to the ocean, Once I went on the big boat to go cross the river to see a concert playing lots of games. the Ships are made of irons and steel, and boards, I used to go every day to go fishing. We used boats to come at Missanabie. I was very tired to come at Missanabie, from at James bay, we take lots days and weeks to come to Missanabie it is very long way to go from James bay to Missanabie.

## FORM OF BEQUEST

to the

## Homes for Indian Children

of the

MISSIONARY DIOCESE OF ALGOMA.

---

*I give and bequeath unto the Right Reverend the Bishop of Algoma, Sault Ste. Marie, Ontario, the sum of ....., to be paid with all convenient speed after my decease, exclusively out of such part of my personal estate, not hereby especially disposed of, as I may by law bequeath to charitable purposes; and I hereby lawfully charge such part of my estate with the said sum upon trust, to be applied toward the general purposes of the said Homes for the Christian training and civilization of Indian children; and the receipt of the Right Reverend the Bishop of Algoma, or the Treasurer for the time being of the Diocese, shall be a sufficient discharge for the said Legacy. (And I direct that the duty upon the said Legacy be paid by my executors out of the said fund.)*

*The will or codicil making the bequest must be signed by the testator in the presence of two witnesses, who must subscribe their names in his presence, and in the presence of each other.*

NOTE.—This testament must have been executed one year previous to death of testator to give it effect over Mortmain Act.
